(*P.*) In case the Contractor shall be unable at any time during the continuance of this contract to supply illuminating material to, or light in any of the lamps specified in this agreement, then the Contractor shall give immediate notice to the Commissioner of his inability to furnish illuminating material to, or to light such lamps, stating the streets in which the supply of illuminating material to the lamps cannot be furnished and the cause thereof. And in case the use of any of the lamps shall be suspended or discontinued, and other lamps shall be used in consequence of such suspension or discontinuance, then the gas or other lamps which may have been suspended, or discontinued, shall not be supplied with illuminating material except pursuant to an order for such supply by the Commissioner.

(*Q.*) The Contractor shall indemnify and save harmless The City, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits based on or arising out of the alleged infringement of any patent or patent right, and against, and from all damages and costs to which they or any of them may be put by reason of any such alleged infringement or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under this contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the Contractor or his agents or servants.
So much of the moneys due to the Contractor under and by
7929 virtue of this agreement, as shall or may be deemed necessary
by the Commissioner, shall or may be retained by The City, until all such suits, actions and claims shall have been settled, and evidence to that effect furnished to the satisfaction of the Commissioner.

(*R.*) In case the Contractor shall fail or neglect to keep the covenants herein contained, or any of them, or neglect to operate, repair, paint, clean or fit up the lamps as before mentioned, or any of them, the Commissioner may and shall have the power to cause such work to be performed by other parties, and to deduct the expense thereof, from any moneys which may be due or may become due to the Contractor, and to hold the Contractor and his sureties liable for the amount thereof, which may be in excess of the prices stipulated in this agreement; and in case such expense is less than the sum which would have been payable under this contract if the same had been completed by the Contractor, he shall forfeit all claim to the difference.

(*S.*) If the Contractor shall not well and truly observe, perform, fulfil and keep all and singular the covenants and conditions hereinbefore mentioned and contained, on its part and behalf to be observed, performed, fulfilled and kept according to the true intent and meaning of these presents, then and in that case the Commissioner may and shall have the power, on the part of the said party of the first part, to declare this contract annulled and vacated, and thereupon it shall become and be thenceforth null and void.

(*T.*) On or after the first day of each and every month during the term of this contract, the Contractor shall furnish proof
7930 to the satisfaction of the Commissioner that it has fully performed and fulfilled this contract in all the particulars and conditions aforesaid during the preceding month, and particularly that it has furnished the illuminating material of the quality hereinbefore specified, and that all the lanterns have been cleaned three times in each week of said month, and also that the gas burners have consumed three cubic feet of gas each per hour, as required by this contract, during all the time that the lamps were required to be kept lighted, and also proof to the satisfaction of the Commissioner as to all extinguishments of lamps, including the location of each lamp extinguished, the date and length of extinguishment in each case, whereupon the Commissioner shall certify the fact, and in his certificate state the amount to which the Contractor shall be entitled for all the duties performed by it during such preceding month, and annex thereto a requisition upon the Comptroller to pay the Contractor therefor the sum to which he shall be so entitled; and without such certificate and requisition the Contractor shall not be or become entitled to any payment under and in respect to the terms of this contract, or for the light, lamps and accessories or in respect to services which were required to be done, or should have been done, in such preceding month. On the requisitions above provided being presented to the Comptroller of The City, he shall, within thirty days thereafter, pay to the Contractor the amount thereof in lawful money.

(*U.*) The City shall not, nor shall any department or officer thereof be precluded or estopped by any return or certificate made or given by the Commissioner, any Engineer or other officer, agent or appointee of The City under any provision of this agreement from at any time (either before or after the final completion and
7931 acceptance of the work and payment therefor pursuant to any such return or certificate) showing the true and correct amount and character of the work done and materials furnished by the Contractor, or any other person under this agreement, or from showing at any time that any such return or certificate is untrue and incorrect, or improperly made in any particular, or the work and materials, or any part thereof, do not in fact conform to the specifications; and The City shall not be precluded or estopped, notwithstanding any such return or certificate and payment in accordance therewith, from demanding and recovering from the Con-

tractor such damages as it may sustain by reason of his failure to comply with the specifications.

(*V.*) This contract shall not be binding or of any force unless the Comptroller of The City shall indorse hereon his certificate that there remains unexpended or unapplied, as provided in The Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this contract, as certified by the officers making the same.

(*W.*) The residence or place of business given in the bid or estimate upon which this contract is founded, is hereby designated as the place where all notices, letters and other communications shall be served, mailed or delivered. Any notice, letter or other communication addressed to the Contractor and delivered at the above-named place, or deposited in a post-paid wrapper in any post-office box regularly maintained by the post-office shall be deemed sufficient service thereof upon the Contractor. The place named may be changed at any time by an instrument, in writing, executed and acknowl-
7932 edged by the Contractor and delivered to the Commissioner. Nothing herein contained shall be deemed to preclude or render inoperative service of any notice, letter or other communication upon the Contractor personally.

(*X.*) This contract shall be subject and subordinate to the rights, claims and demands of all persons, parties or corporations under contracts or agreements (if there are any such) which are valid and lawful charges and liabilities against The City of New York, and which the law requires shall be defrayed and answered unto by The City.

(*Y.*) The contractor will give his personal attention constantly to the faithful prosecution of the work; he will not assign, transfer, convey, sub-let or otherwise dispose of this contract, or his right, title or interest in or to the same or any part hereof, without the previous consent in writing of the Commissioner indorsed hereon or hereto attached; and he will not assign, by power of attorney or otherwise, any of the moneys to become due and payable under this contract, unless by and with the like consent signified in like manner. If the Contractor shall, without such previous written consent, assign, transfer, convey, sub-let or otherwise dispose of this contract, or of his right, title or interest therein, or any of the moneys to become due under this contract, to any other person, company or other corporation, this contract may, at the option of the Commissioner, be revoked and annulled and The City shall thereupon be relieved and discharged from any and all liability and obligations growing out of the same to the Contractor, and to his assignee or transferee; provided that nothing herein contained shall be construed to hinder, prevent or affect an assignment by the Contractor for the ben-
7933 efit of his creditors, made pursuant to the statutes of the State of New York; and no right under this contract, or to any

money to become due hereunder shall be asserted against the City in law or in equity, by reason of any so-called assignment of this contract, or any part thereof, or of any moneys to grow due hereunder, unless authorized as aforesaid by the written consent of the Commissioner.

In Witness Whereof, The Commissioner of Water Supply, Gas and Electricity, has hereunto set his hand and seal on behalf of The City, and the Contractor has caused its corporate seal to be hereunto affixed and its President and Secretary hereto to set their hands, and the parties hereto have executed triplicate copies hereof, one of which is to remain with the Commissioner, one other to be filed with the Comptroller of The City, and the third to be delivered to the Contractor, the day and date herein first above written.

JNO. T. OAKLEY, [L. S.]
Commissioner of Water Supply,
Gas and Electricity.

....
....
to me known and known to me to be the person described in 7935 and who executed the foregoing instrument, and he acknowledged to me that he executed the same for the purposes therein mentioned.

—— ——,
Notary Public or Commissioner of Deeds.

Know All Men by These Present-, That We, Consolidated Gas Co. of New York and The United States Fidelity and Guaranty Company of The City of New York, are held and firmly bound unto The City of New York, in the sum of One hundred and twenty-five thousand dollars, lawful money of the United States of America, to be paid to The City of New York, or to its certain attorneys, successors or assigns, for which payment, well and truly to be made, we bind ourselves, and our several and respective heirs, executors, administrators, successors and assigns jointly and severally, firmly by these presents.

Sealed with our seals. Dated this 1st day of July, one thousand nine hundred and four.

Whereas, The above bounden Consolidated Gas Co. of New York by an instrument in writing, under its corporate seal duly attested, bearing even date with these presents, and one part whereof is hereunto annexed, has contracted with The City of New York to furnish the Illuminating Material, Repairs and Supplies to the Public Lamps of The City of New York, as in said contract will more fully and at large appear:

Now, therefore, the condition of the above obligation is such, that if the said Consolidated Gas Co. of New York, its successors or assigns, shall indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them, or any of them, including suits and actions based on, or arising out 7936 of the alleged infringement of any patent or patent rights, and against and from all damages and costs to which they, or any of them, may be put by reason of any such alleged infringement, or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under said contract, or otherwise, or from any improper or defective material, machinery, implement or appliance uesd in performing the same, or from any act or omission of the said Consolidated Gas Co. of New York, its agents or servants, and if the said Consolidated Gas Co. of New York, or its successors or assigns, shall well and truly, and in a good, sufficient and workmanlike manner, perform, fulfill, observe, and keep the said contract, and each and every of the covenants, provisions, conditions and terms in said contract contained, or to be performed, fulfilled, observed and kept, then this obligation to be void; otherwise to remain in full force and virtue.

APPROPRIATION.

COMMISSIONER'S CERTIFICATE.

In conformity with the provisions of section 149 of The Greater New York Charter, it is hereby certified that the estimated cost of the work, materials and supplies required by the within contract, amounting to Five hundred thousand Dollars ($500,000.00), is chargeable to the appropriation of the Department of Water Supply, Gas and Electricity, for the year 1904, entitled "Lamps and Lighting, Boroughs of Manhattan and Bronx, for 1904."

............................,
Commissioner of Water Supply, Gas and Electricity.

Dated ...., 1904.

COMPTROLLER'S CERTIFICATE.

THE CITY OF NEW YORK, ..., 1904.

7942 In pursuance of the provisions of section 149 of The Greater New York Charter, I hereby certify that there remains unapplied and unexpended a balance of the appropriation ....

applicable to this contract, sufficient to pay the estimated expense of executing the same, viz.: $.......

..........................,
Comptroller.

SPECIFICATIONS.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps when required), and for making certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved System of Lighting of Streets, Public Buildings, Avenues, Piers, Parks and Public Places, in the Borough of Manhattan, in The City of New York, for the Term of One Year, from March 16th, 1904, to March 15th, 1905.

1. The lamps shall be lighted during such times as the public lamps throughout The City of New York may be required to be lighted by the regulations of the said party of the first part, in accordance with a time-table hereto annexed, marked "A," and made a part of these specifications. The Commissioner may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted, and kept burning, at any other time or times during the continuance of this contract; and the Contractor

shall and will light the same, and continue them burning, in accordance with any and every direction of the Commissioner
7943 to that effect. Provided, that, in compliance with the direction of the Commissioner, the whole number of hours during which the said lamps, or a portion of them, are kept burning, shall exceed the number of hours specified in the said time-table, which time-table shall aggregate a total of 3925 hours for the term, then, in that case, the Contractor shall be entitled to claim and receive, for such additional number of hours during which the lamps, or such portion of them, in the district aforesaid, are kept burning in accordance with such direction of the Commissioner, an additional compensation, equivalent to a *pro rata* increase of the compensation allowed by the foregoing contract and proportioned to the increased number of hours beyond the said number, and the number of lamps so kept burning. And also, provided that if, in compliance with the direction of the Commissioner, the number of hours during which the said lamps, or any portion of them, are kept burning, shall be less than the aforesaid number of 3925 hours per term, then, in that case there shall be deducted an amount equivalent to a *pro rata* decrease of the compensation allowed by the foregoing contract and proportioned to the decrease of the number of hours below the said number, and to the decrease of the number of lamps so kept burning. If the lamps are to be lighted by means of gas or naphtha, then it is expressly agreed that all the lamps shall be lighted within one hour from the time fixed in the time-table as the time for beginning; also that they shall be lighted either by the means of a torch, or the use of a ladder, and that the lamplighters will not be permitted to climb the lamp posts for such purpose. The Contractor shall keep the service pipes and stand pipes of said lamps cleared of all obstructions, at its own cost and expense.

7944 2. The Commissioner shall have the right at any time to increase or diminish the number of lamps required to be lighted by the Contractor under this contract, and the right is reserved by the Commissioner, at any time during the continuance of this contract, to increase or diminish the number of hours during which the said lamps or any portion of them are to be kept burning, and to change said time-table in any particular, and to determine and from time to time to change the said number and location of the lights in any public building or office, and the amount and kind of illuminating material used and to be used therein, and the public buildings and offices and parts thereof lighted and to be lighted under the foregoing contract.

3. If the material to be furnished under this agreement shall be illuminating gas, then such gas shall have an illuminating power of not less than twenty candles, when tested at a distance of not less than one mile from the place of manufacture, on the improved form of the Bunsen Photometer, by means of a Bray slit, Union No. 7, burner consuming five cubic feet of gas per hour. The testing candle shall be of sperm, of six to the pound, and consuming as near as possible, one hundred and twenty grains of spermaceti per

hour; and no test shall be recorded in which the candle consumes less than one hundred and fourteen or more than one hundred and twenty-six grains of spermaceti per hour. And as regards purity, gas shall be clean and of such quality that it will not deteriorate the mantles in the mantle lamps using same so as to shorten their length of life under similar conditions. The gas shall be entirely free, within limits not injurious to the public health, from ammonia, sulphureted hydrogen and other sulphur or noxious compounds. In case the illuminating material shall be illuminating
7945 material other than gas, then the quantity of light
produced by the burner used for such material shall be equal to the quantity (by photometric test) produced by the twenty candle-power coal gas, above described, consumed by the foot gas burners called for in this agreement.

4. The City shall have the right at any time to test the quality and illuminating power of the lamps and light as furnished on the street, and for that purpose at least twenty-five (25) lamps may be selected from those in actual use, by the Engineer, in each and every calendar month, and their illuminating power shall be determined photometrically by the City Gas Inspector or the Engineer at The City's Laboratory, or elsewhere at the discretion of the Engineer. The average candle-power of the lamp so tested shall constitute the basis for calculating the light furnished by the lamps burning during the month and for which the charge is made. The term "Lamp" herein means the burner complete with mantle and chimney, if any, as found set up for use in any of the streets or public places, and the test herein referred to shall be made through uncolored clear glass of the same character as encloses the lamp on the street, and under the same conditions of supply of gas; the object of the test being to determine that the actual illuminating power, as contracted for, is given on the street, and to determine that each burner is consuming at least the required three (3) cubic feet of gas per hour. Each lamp shall be tested with the gas furnished by the company furnishing gas to said lamp when in actual service on the street, the gas being first tested for candle-power. 20-candle power gas is herewith defined as gas which, when tested, at a distance of not less than one mile from the place of manufacture, on the improved form of Bunsen Photometer, by means of a Bray slit, Union No. 7,
7946 burner, consuming 5 cubic feet of gas per hour, shall give
20-candle power; the testing candle shall be of sperm of six to the pound, and consuming, as near as possible, 120 grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than 114 or more than 126 grains of spermaceti per hour.

When desired by the Commissioner, these tests will be applied to each of the different classes of lamps, viz.:

Open flame gas.
Mantle gas.
Open flame naphtha.
Mantle naphtha.

The Contractor operating and maintaining the lamps tested shall replace said lamps whenever they are taken down for test, free of cost to The City, and shall always keep in stock ready for operation, at least 25 lamps of each class.

Lamps using other illuminant than gas will also be tested photometrically as to actual street illuminating power with the illuminating material they may contain when taken down, and they shall furnish the same illuminating power as a lamp of similar type using gas of 20-candle power supplied at the rate of .... cubic feet per hour.

The minimum candle power required of each type of lamp consuming not more than 3 cubic feet per hour per lamp, under the conditions herein specified, will be as follows:

Open flame gas..................	12 candle power.
Mantle gas	60 candle power.
Open flame naphtha............	12 candle power.
Mantle naphtha	60 candle power.

7947 The open flame lamps to be supplied with 20-candle power gas at the rate of not less than three (3) cubic feet per hour. The mantle gas lamps to be supplied with from 2½ to 3 cubic feet of gas per hour, at 1½ inches pressure as may be required. The naphtha lamps, both open and mantle, shall be supplied with sufficient naphtha to equal the candle power of the similar type of gas lamp mentioned above.

5. All the burners used for the illuminating material, commonly called illuminating gas, shall be of a capacity to burn 3, 4 or 5 cubic feet of gas per hour, as may be selected, and each of said burners *shall* burn 3, 4 or 5 cubic feet of gas per hour, as selected, during all the time the lamps are required to be kept lighted. Should the illuminating material be naphtha, then the burners to be used for such illuminating material shall give a light (by photometric test) equal to the light given by the gas-burners in use in the public lamps of similar type in The City of New York. The burners are to be kept clear at all times, so as to allow a free and unobstructed flow of illuminating material, and to permit a full and normal flame. All checks or automatic regulators shall be of a type approved by the Engineer, and shall be cleaned at least once in each year, or oftener if ordered by the Engineer.

6. Incandescent mantles for either gas or naphtha lamps when supplied for the lamps now using same, or for lamps which may be hereafter specified by the Commissioner, shall be of the very best quality, capable of producing and maintaining under the conditions of this contract not less than 60 candle-power. Whenever the mantles become smoked or deteriorated to such an extent that at least 60 candle-power is not obtained, they must be replaced by new

7948 mantles by the Contractor. The Commissioner reserves the right to have the lamps and the character of mantles furnished, tested, basing test on the same conditions as those under which they are required to burn on the streets, and to reject any lamps and mantles furnished that do not comply with the above requirements as to candle-power. Anti-vibrators for lamps, using incandescent mantles, should be furnished with each lamp, and samples of same should be submitted to the Engineer for approval with the sample of lamp furnished him as mentioned elsewhere.

7. The Commissioner or the Borough President shall have the right at any time to place signs, designating the names of streets, on any lamp-post situated on the street corners of any street to be lighted under this contract, without further expense to The City, whether the lamp-posts shall belong to The City or not, and all the lamps and street signs are to be kept in such a cleanly condition that not more than 10 per cent. of the light of the lamps shall be absorbed or obstructed by the uncolored glass. They shall be cleaned at least three times in each week, and oftener, if the Commissioner shall direct or require the same, and at each of these cleanings all the sides, top and bottom glass of the lantern, as well as the glass of the street sign, shall be thoroughly cleaned, both on the inside and the outside, and all dust and dirt shall be brushed from the frames.

8. The lamps, including the bottoms, are to be repaired and reglazed within twenty-four hours after any portion of the same shall be broken, and all the work or material for either of said purposes is to be furnished by the Contractor, without cost to The City.

7949 Stained glass of a ruby color, of such tint as shall be approved by the Commissioner, shall be placed in the Fire Alarm Signal lamps and in the tops of the gas lanterns nearest to the several Fire Alarm Signal boxes, and in the tops of the gas lanterns on the street corner nearest said boxes. And in case any of such stained glass should be broken, after being placed in the lamps, then the Contractor shall procure glass of the same color, and place and keep the same in the lamps without cost to The City.

9. The party of the first part shall have the right to require that burners of a greater consuming capacity than three cubic feet of gas per hour shall be furnished to the public gas-lamps, or any portion of them, at any time during the aforesaid term of one year, provided that the party of the first part will pay to the Contractor, for the lamps so furnished, an additional compensation, equivalent to the increase of the compensation allowed by the foregoing contract and proportioned only to the increased amount of gas consumed by each burner over and above three cubic feet per hour.

10. Sample lamps, showing all burning appliances and connections for each type of mantle or other lamp to be furnished, shall be submitted when called for by the Commissioner to the Engineer for the purposes of comparison and test. Such sample lamps shall be complete in every respect, and shall accurately represent the burner which the Contractor uses on each type of lamp under this contract, and the sample lamp, like lamps in service, shall be so combined and adjusted as to secure, under all ordinary variations of pressure, an intensity of candle power of not less than 60 in the case of
7950 mantle lamps and . . . . in the case of open flame lamps. The
tips for open flame gas burners shall be designed to consume 3, 4 or 5 cubic feet of gas as required, per hour. These tips shall be approved by the Engineer before being placed on the burners. They shall be kept in good order and repair, and renewed

whenever required by the Engineer, and he shall also have same tested for consumption of gas when it is deemed necessary.

11. Whenever the Commissioner shall require that any lamp-post or posts shall be reset or straightened, or that any column or columns be releaded or recalked, or that any lamp-post or posts be repaired in any other manner, in this contract specified, the same shall be done within twenty-four hours after the Department shall notify the Contractor of such requirement.

12. The lamp-posts, lamp irons, brackets and lanterns, used for gas or naphtha, are to have one heavy coat of best paint, ground in oil, as follows: The lamp-posts, crossheads and stand pipes of bracket lamps to have one coat of dark-green paint, blue shade. The square lamp irons, brackets, and outside of lanterns to have one coat of green paint, pea-green shade; the design being to make a strong contrast between lamp-posts and lanterns. The tin work on inside of lanterns to be painted in all their parts with one heavy coat of best white-lead paint; the round lamp irons and under side of the reflectors of the globe lamps to be painted with one coat of the best white-lead paint, and so much of the stand pipes as project above the lamp-posts, to be painted in the same manner as the lamp-posts. All the material shall be of the best quality, and prepared so as to present a gloss finish. While painting the lanterns care must
7951 be taken that the glass shall not be daubed or smeared with
paint. All the painting is to be completed by the first day of *July* next and the Commissioner is to be notified when and where the painting is to be commenced.

13. All lamp-posts shall be taken down which the Commissioner may require to be removed for any purpose.

14. New gas-lamp posts are to be fitted up on any street, avenue, pier, park or public place, wherever the same may be required by the Commissioner. The butts and columns are to be placed in a strictly perpendicular position, the socket of the butt to be calked with yarn gasket and melted lead, the lead to be tamped and then trimmed even with rim of butt. The service-pipe shall be one (1) inch wrought iron pipe, upon which shall be connected by means of a reducer a three-quarter (¾) inch wrought-iron stand-pipe, which shall be galvanized upon its outer surface. Reducer to be connected to outside of both service and stand-pipe. At the lower extremity of the stand-pipe the service-pipe shall make an angle bend of easy curvature, so as to avoid any congestion of any material that may collect within the pipe, and thence have a direct fall to the main. The service-pipe shall receive a heavy coat of asphaltic paint before there is any filling-in around it. The service-pipe and bend on bottom of stand-pipe shall rest on solid earth to prevent the same from settling and forming a trap; the earth is to be thoroughly tamped about the butt as the same is thrown into the excavation. Bracket lamps are to be fitted up in lieu of lamp-posts when required, the brackets and stand-pipes to be fastened to the wall in a firm and secure manner. The service-pipes, stand-pipes and fittings are to be furnished and connected by the Contractor; the lamp-posts
7952 for mantle and open flame gas-lamps, and the lamp-posts,
lamp-irons, cross-heads and brackets for open flame gas-

lamps will be furnished by The City, through the Department, to the Contractor. All new lamp-posts are to be painted immediately after the same shall have been erected.

15. The cocks, tubes, tips, mantles, chimneys, globes, burners and checks which may become worn out or useless, or which, in the opinion of the Commissioner, are worn out or useless, shall be immediately replaced by the Contractor, at its own cost and expense.

16. All lanterns and lamp-posts used for gas, which, in the opinion of the Commissioner, may become so worn out, broken or useless as to be unfit to be repaired, are to be removed and other lanterns and lamp-posts substituted in lieu thereof (and globe lamps substituted for square lamps) by the Contractor without charge to The City, when so ordered by the Commissioner. The lanterns, lamp-posts and globes for that purpose will be furnished by The City in the case of open flame gas lamps. The lamp-posts for mantle gas lamps will also be furnished by The City through the Department to the Contractor, but the Contractor will furnish all the equipment, including posts for the mantle naphtha and open flame naphtha lamps, as well as all the equipment, except the lamp-posts in the case of mantle gas lamps.

17. The crossheads and lamp-irons used for open flame gas-lamps which, in the opinion of the Commissioner, may become broken or out of order, are to be replaced on the posts by the Contractor without charge to The City. The cross-heads and lamp-irons for
7953 that purpose are to be furnished by the party of the first part,
through the Department, to the Contractor.

17. The glass street signs to be placed and retained in their proper places and positions in the gas or naphtha lantern, and are to be kept in a cleanly condition; and globes containing street names are to be placed upon the gas lamp-posts when required by the Department. The globes shall be furnished by the Department to the Contractor, and the signs shall be furnished by the Borough President to the Contractor.

19. All supplies, which, under this agreement, may be required to be furnished by the party of the first part, will be so furnished, but the cartage thereof shall be done by the Contractor.

20. Subject to the provisions of section 469 of the Greater New York Charter, the Contractor will, upon being required to do so by the party of the first part, extend its pipes or conductors, and erect new lamps in and along any or all the streets, avenues and public places within the limits aforesaid or adjacent thereto, and will relight the gas-lamps situated on the line of the mains of the Contractor, which are now suspended or may hereafter be suspended, when ordered so to do by the Commissioner.

21. The Commissioner may determine and designate in any locality, after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such locality, during the period above mentioned; also upon such determination, to decline any estimate or part thereof for lighting such locality with illuminating material other than that so determined upon.

7954 22. Should any alteration or any attachment be required to any portion of the lamps to be lighted under this agreement, for the purpose of using any other material than illuminating gas, then such alteration will be done and attachment placed and maintained on the lamps by the Contractor hereto at his own cost and expense.

23. In supplying gas for public buildings under the jurisdiction and control of the Department of Water Supply, Gas and Electricity, the Contractor shall supply, put in place, and connect the service-pipe from the gas-mains to the building and install a proper meter for registering the gas consumed. The gas supply shall be of 20-candle power at not less than 1½-inch pressure, the pressure to be regulated by a gas pressure regulator, approved by the Engineer.

All meters registering the total consumption of gas in any building under the jurisdiction and control of the Department to be equipped, when so required by the Commissioner, with a gas pressure regulator to be furnished, erected and maintained by the Contractor awarded same, maintaining an even pressure of 1½ inches throughout the building as closely as can be obtained. This pressure regulator to be supplied, maintained and cleaned by the Contractor without expense to The City, but shall be inspected and tested by the Inspector detailed by the Commissioner or Engineer so to do. The size of the pressure regulator shall conform to the size of the riser-pipe. It shall be attached to the pipes, but not on the gas meter, and the Contractor shall furnish all the necessary fittings to make connections, and do all the work of installing the machines in a first-class manner, including the removal of stoppages in house
7955 pipes where necessary, adjust tips and burners (other than mantle lights) and set the machines in such a manner as to give the best results under existing conditions, as specified, without curtailing light, and if necessary, in the opinion of the Engineer, the Contractor shall furnish the ordinary lava tip burners and checks.

All the work shall be subject to the approval of the Engineer, and the regulators shall be of the type known as Mercury Float Governors of the improved type approved by the Engineer. The Contractor for these regulators shall maintain same for one year; such maintenance shall include inspecting each regulator monthly, reporting to the Engineer each month, readjusting regulator in case of any change, and shall include furnishing such new tips, checks, or burners as may be deemed necessary by the Engineer, and shall also include the pumping out of house pipes when necessary.

24. All gas meters used for supply of gas to public buildings or public places in The City of New York, may be tested by the Engineer whenever the Commissioner may so order, and the Contractor shall replace same during test, if necessary, free of charge. If meter be found defective, same shall also be repaired or replaced by the Contractor without further charge to The City.

Tips for open flame gas burners used in public buildings, and other burning appliances, shall be approved by the Engineer before being installed, and no Contractor shall have the right to furnish such tips or burners to lamps in any public building without first obtaining such approval. The Engineer may test such tips or burning appliances whenever he deems it advisable in order to determine their consumption of illuminant, and in case they shall con- 7956 sume an excessive amount of same, he may order new ones put in their place by the Contractor who furnished them during the term of this contract.

25. In order that bills, when rendered to The City by the Contractor, shall agree so far as it is possible, with the meter readings as obtained by the City Inspectors, it will be required that on proper notification from The City, the Inspectors of the company will read the various meters on the same day as they are read by The City's Inspectors.

No meters shall be installed, changed or replaced in any public building, except in case of emergency, unless due notice shall be given the Bureau of Lamps and Gas twenty-four hours before such new meter is installed or change is made, so that an Inspector from said Bureau can be present and check the readings of the meters.

26. If the requirements of The City, under this contract, includes any lamps with which the pipes or conductors of the Contractor were not connected at the time of the making, such estimate or bid, thirty days from the date of the execution of this agreement, and such further time, not exceeding thirty days, as may be deemed reasonable by the Commissioner, will be allowed the Contractor in which to supply and connect service-pipes, bends, reducers, and stand-pipes, as specified above, to such lamps and all such connections, material and labor shall be furnished by the Contractor without other expense to The City; provided that the Contractor has or shall procure a consent, grant or franchise from the proper municipal or other authority, authorizing the laying of gas mains or conductors in the 7957 streets or parts of streets and public places in which the said lamps are located; and that no openings shall be made in the pavements for the purpose of such connections prior to the first day of March, 1904, nor until permits shall have been obtained from the Commissioner, authorizing such openings.

27. No payment on account of any such lamps will be made to the Contractor for the time so allowed, nor until the same shall have been connected with the mains or conductors of the Contractor, nor will payment be made on account of supply of gas or other illuminating material at any lamp except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

28. The Contractor shall indemnify and save The City harmless from any and all claims and suits for damages by reason of any infringement of patent rights in the use under this contract of any illuminating material or any burning appliances connected therewith, or for repairs or supplies to lamps or lamp-posts.

29. The Contractor shall have the right to lay, subject to the provisions of the laws now in force, pipes or conductors at any time between March 1 and December 31 during the term of this contract, upon giving forty-eight hours' written notice to the Department, and subject to the approval of the Commissioner, of its intention to break up or open any street, avenue, or public place, or part

thereof, or to remove any part of the pavement thereof, for
7958 the purpose of laying, subject to the provisions of statute,
or repairing the pipes or conductors, to conduct the said gas or other illuminating material. And the Contractor shall, whenever it shall break up or open any street, avenue, or public place, replace the earth which may be removed in so doing, before sunset of the day on which such opening shall be made (the earth to be thoroughly tamped as the same is thrown into the trench or excavation), and replace the pavement, and repave and repair the same, in such reasonable time and manner as the Borough President may direct, and in as good and firm a manner as such street, avenue, or public place, or part thereof, was in before being broken up for the purpose aforesaid, and shall, from time to time, as required by the Borough President, readjust and fill and finish the same as long as, in the opinion of the Borough President, may be necessary on account of the settling of the earth or pavement caused by the opening. Also, all such repairs as shall at any time become necessary to said pavement by reason of laying the said pipe or conductors shall be made and done by the Contractor, at his own cost and expense. And the Contractor shall furnish to the Commissioner a report weekly, stating therein the location of each and every opening made in the pavements during the preceding week. And no street, avenue, or public place, or part thereof, shall or will be broken up or opened, or the pavement thereof removed, or be again filled up or repaired, except under the direction and supervision of a competent person, to be appointed by the Commissioner; but the party of the first part shall not be called upon to pay any sum, to any party or parties, for the inspection of any pavement which may have been removed and
repaved by the Contractor, but the expense of such inspection
7959 shall be paid by the Contractor when required by the Commissioner.
The Contractor shall and will so conduct the manufacture and manufactories of gas, or stations for other illuminating material, as not to create a nuisance, and it will in all things be governed by such reasonable rules and regulations as the Borough President may from time to time establish or direct, relative to the opening of such streets, avenues, or public places, or parts thereof, and laying down the pipes and conductors, and for lighting, cleaning and protecting the lamps and street signs aforesaid.

30. In order that the Commissioner and his assistants may determine whether the gas-lamps are lighted and extinguished in accordance with the time-table hereinbefore mentioned, the Contractor shall furnish to the Commissioner a map or maps showing the lamps in the district of each lamp-lighter, and designating the particular lamp at which each lighter commences to light, and also the lamp at which he completes the lighting; and in extinguishing the lamps the lamplighter shall begin and finish at the same lamps as are designated for beginning and finishing the lighting; and the Contractor shall notify the Commissioner of any change which may be made in the beginning and finishing points on any lamp district during the term of this contract. The Contractor shall furnish to the Commissioner a report weekly, stating therein the number and

location of all new lamps fitted up and lighted, of lamp-posts removed and reset, and of lamps discontinued during the preceding week. Nothing herein contained shall be construed or deemed as
granting to the Contractor any sole or exclusive right or privi-
7960 lege, or as preventing the party of the first part from granting
the like privileges as are hereby given to the Contractor to any other company, persons or parties whatsoever, or as preventing any person or persons, residing in or adjacent, or near to any of the said streets, avenues, or public places, or parts thereof, from erecting, in or upon his or their own premises, any building or apparatus, to light with gas his or their own house, store, manufactory or premises.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,

New York................1904.

The above table will show the time for lighting and extinguishing the public lamps during the year 1904. See specifications, paragraph 1

JOHN T. OAKLEY,
Commissioner of Water Supply, Gas and Electricity.

NOTE—For 1904, a leap year, add 11 hours and 55 minutes to total for February 29.

Endorsed: The City of New York, Department of Water Supply, Gas and Electricity—Contract for Furnishing Gas and other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying
7963 Gas, etc., for New Lamps when required), and for making certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved System of Lighting on Streets, Public Buildings, Avenues, Piers, Parks and Public Places in the Borough of Manhattan, in the City of New York for the term of One Year, from ...., 1904, to ...., 190 —Consolidated Gas Co. of New York, Contractor—Dated July 1st, 1904—Assigned to ....—Approved as to form, John L. O'Brien, Acting Corporation Counsel—Dated.........................

7964

CITY'S EXHIBIT 4.

No. 4.

THE CITY OF NEW YORK.

DEPARTMENT OF

WATER SUPPLY, GAS AND ELECTRICITY.

BID OR ESTIMATE.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps, when required), and for making certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved Systems of Lighting on Streets, Public Buildings, Avenues, Piers, Parks and Public Places in the Borough of Manhattan, in The City of New York, for the term of nine months and sixteen days, from March 16, 1905, to December 31, 1905, both inclusive.

Made this fourteenth day of March, 1905, by Consolidated Gas Co. of New York.

1. Consolidated Gas Co. of New York do declare that we (are) the only person, persons or corporation interested in this bid or estimate; and that no other person, persons or corporation than are herein named have any interest in this bid or estimate, or in the contract proposed to be taken.

2. We further declare that this bid or estimate is made without any connection with any other person, persons or corporation making a bid or estimate for the same work, and is in all respects fair, and without collusion or fraud.

7965 3. We further declare that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, in this bid or estimate, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof.

4. We further declare that the names of the persons affixed to the consent hereto annexed were written by said persons respectively, and that said persons are householders or freeholders in The City of New York, or duly authorized officers or agents of a guaranty or surety company duly authorized by law to act as surety.

5. We have examined the contract (including the specifications) for the supplies and work, in the form approved by the Corporation Counsel, and we will contract, in the form so approved, to perform and complete the work mentioned in said contract and specifications, and furnish the supplies on the following terms, viz.:

OPEN FLAME GAS LAMPS—LAMP-POSTS OWNED OR FURNISHED BY THE CITY.

I. For furnishing illuminating gas (of not less than 20 candlepower to burners consuming 3 cubic feet of gas per hour, by photometric test, made at a distance of not less than one mile from the place of manufacture) for each lamp, at each lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of lamp-posts and crossheads, the furnishing, repairing and replacing of cocks, tubes
7966 burners, the replacing of cross-heads, lamp-irons and lanterns, and the replacing and repairing of lamp-posts when owned by the Contractor, as specified and as noted in proposals, clauses Nos. 7 and 9, for the term of this contract, in the Borough of Manhattan, to wit:

" For furnishing all the above for each lamp, at each lamp, for 993 in number of same, the sum of Thirteen 7527/10000 dollars ($13 7527/10000) per lamp, or at the rate of Seventeen 25/100 ($17.25) per lamp, per annum, burning 3,925 hours.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

OPEN FRAME NAPHTHA LAMPS—LAMP-POSTS OWNED OR FURNISHED BY THE CITY.

II. For furnishing illuminating material other than gas for each lamp, at each lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burners, burning appliances, lanterns, lamp-irons and cross-heads thereto, as specified and as noted in proposals, clauses Nos. 7 and 9, for the term of this contract, in the Borough of Manhattan, to wit:

7967 For furnishing all the above for each lamp, at each lamp, for............in number of same, the sum of.......... Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for

............in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

OPEN FLAME NAPHTHA LAMPS—LAMP-POSTS FURNISHED BY CONTRACTOR.

III. For furnishing illuminating material other than gas for each lamp, at each lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burners, burning appliances, lamp-posts, lanterns, lamp-irons and cross-heads thereto, as specified and as noted in proposals, clauses Nos. 7*a* and 9, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............
7968 Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for............in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

MANTLE GAS LAMPS—LAMP-POSTS OWNED OR FURNISHED BY THE CITY.

IV. For furnishing and connecting, ready for use, each mantle gas lamp, with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods and regulating apparatus, necessary for each lamp, at each lamp, and also operating and maintaining it, including illuminant. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto, and repairing and replacing of lamp-posts when owned by the Contractor, as specified and as noted in proposals, clauses Nos. 8 and 9, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for 16,244 in number of same, the sum of Twenty-one 3267/10000 dollars ($\$21^{3267}$) per lamp, or at the rate of Twenty-six 75/100 (\$26.75) per lamp, per annum, burning 3,925 hours.

For furnishing all the above for each lamp, at each lamp, for
22,500 or more in number of same, in either the Boroughs of Manhattan or the Bronx, or both, the sum of Nineteen 7322/
7969 10000 dollars ($\$19.73^{22}$) per lamp, or at the rate of Twenty-four 75/100 (\$24.75) per lamp, per annum, burning 3,925
hours.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

MANTLE NAPHTHA LAMPS—LAMP-POSTS OWNED OR FURNISHED BY THE CITY.

V. For furnishing and connecting, ready for use, each mantle lamp, using illuminating material other than gas, with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods and regulating apparatus, necessary for each lamp, at each lamp, and also operating and maintaining it. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto, as specified and as noted in proposals, clauses Nos. 8 and 9, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

7970 For furnishing all the above for each lamp, at each lamp, for...........in number of same, the sum of........... Dollars (\$......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars (\$......) per lamp.

MANTLE NAPHTHA LAMPS—LAMP-POSTS FURNISHED BY CONTRACTOR.

VI. For furnishing and connecting, ready for use, each mantle lamp, using illuminating material other than gas, with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods and regulating apparatus, necessary for each lamp, at each lamp, and also operating and maintaining it. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of lamp-posts and cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lamp-posts, lanterns, lamp-irons, frames and cross-heads thereto, as specified and as noted in proposals, clauses No. *8a* and 9, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of............Dollars ($......) per lamp.

7971 For furnishing all the above for each lamp, at each lamp, for...........in number of same, the sum of........... Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of................Dollars ($......) per lamp.

For furnishing all the above for each lamp, at each lamp, for ....in number of same, the sum of................Dollars ($......) per lamp.

VII. For furnishing, maintaining and putting in place all the above-mentioned items, excepting the cost of illuminating gas only, as specified and as noted in clauses No. 7, No. 8 and No. 9 of the proposals, for the period of this contract, the sum of.............. ....Dollars ($........).

VIII. For furnishing, maintaining and putting in place all the above-mentioned items, excepting the cost of illuminating gas only, as specified and as noted in clauses No. *7a*, No. *8a*, No. *8b* and No. 9 of the proposals, for the period of this contract, the sum of......... ....Dollars ($........).

IX. For repair of lamp-posts and erection of new lamp-posts, for the term of this contract, in the Borough of Manhattan, when owned, furnished or hereafter acquired by The City:

(*a*) For each lamp-post straightened, the sum of One 50/100 dollars ($1.50).

(*b*) For each column releaded, the sum of Two 50/100 dollars ($2.50).

(*c*) For each column recalked, the sum of One 00/100 dollars ($1.00).

(*d*) For each column refitted, the sum of Three 50/100 dollars ($3.50).

(*e*) For each service pipe refitted, the sum of Five 50/100 dollars ($5.50).

7972 (*f*) For each stand pipe refitted, the sum of Two 50/100 ($2.50).

(*g*) For each lamp-post removed, the sum of Three 50/100 dollars ($3.50).

(*h*) For each lamp-post reset, the sum of Eight dollars ($8.00).

(*i*) For the erection of each new lamp-post, complete (with service and stand pipes when for gas) and with cross-heads, lamp-irons and lanterns in place, stating the price per post, the sum of Eight 00/100 dollars ($8.00).

X. For furnishing illuminating gas of not less than 20 candle-power, when tested, as provided for gas to street lamps, including the service pipes from the gas-mains to the building and a proper meter for registering the gas, for the term of this contract, for each of the public buildings and offices in the Borough of Manhattan, the lighting of which is now, or hereafter may be, under the jurisdiction and control of the Department of Water Supply, Gas and Electricity, per 1,000 cubic feet, at a pressure of not less than one and one-half (1½) inches at the meter end of the house service pipe, in the sum of Ninety cents ($0.90).

SURETIES' AGREEMENT.

In Consideration of the premises, and of One Dollar to us and each of us in hand paid by The City of New York, the receipt whereof is hereby acknowledged—

We, the undersigned, consent and agree, that if the contract for which the preceding estimate is made be awarded to the person, per-

sons or corporation making the same, we will, upon its being so awarded, become bound as his, their or its sureties for its faithful performance; and if the said person, persons or corporation shall omit or refuse to execute such contract, if so awarded, and give the proper security within five days after the written notice that the same is ready for execution, we will pay, without proof of notice or demand, to the said The City of New York, or its successors, any difference between the sum to which such person, persons or corporation would be entitled upon the completion of such contract and
7974 the sum which The City of New York may be obliged to pay to the person, persons or corporation to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the SUPPLIES and WORK by which the bids are tested.

In Witness Whereof, we have hereunto set our hands, this 15th day of March, one thousand nine hundred and five.

Name of first surety,

THE UNITED STATES FIDELITY &
GUARANTY CO.,
By SYLVESTER J. O'SULLIVAN, *Manager.*

Name of second surety,

Attest:
GEORGE E. HAYES,

CITY'S EXHIBIT 5.

No. —.

THE CITY OF NEW YORK.

DEPARTMENT OF

WATER SUPPLY, GAS AND ELECTRICITY.

BID OR ESTIMATE.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps, when required), and for making certain Repairs to Lamp Posts, and for furnishing Burners and Appliances of Improved System of Lighting on Streets, Public Buildings, Avenues, Piers, Parks and Public Places in the Borough of The Bronx, in The City of New York, for the term of one year from March 15th, 1904, to March 15th, 1905.

Made this 15th day of March, 1904, by Welsbach Street Lighting Company of America, 33 Nassau Street, New York.

1. Welsbach Street Lighting Company of America does declare that Welsbach Street Lighting Company of America is (are) the only person, persons or corporation interested in this bid or estimate; and that no other person, persons or corporation than are herein named have any interest in this bid or estimate, or in the contract proposed to be taken.

2. We further declare that this bid or estimate is made without any connection with any other person, persons or corporation making a bid or estimate for the same work, and is in all respects fair, and without collusion or fraud.

7980 3. We further declare that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof or clerk therein, or any other officer of The City of New York, is, shall be or become interested directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, in this bid or estimate, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof.

4. We further declare that the names of the persons affixed to the consent hereto annexed were written by said persons respectively, and that said persons are householders or freeholders in The City of New York, or duly authorized officers or agents of a guaranty or surety company duly authorized by law to act as surety.

5. We have examined the contract (including the specifications) for the supplies and work, in the form approved by the Corporation Counsel, and we will contract, in the form so approved, to perform and complete the work mentioned in said contract and specifications, and furnish the supplies on the following terms, viz.:

I. For furnishing illuminating gas (of not less than 20-candle power to burners consuming three cubic feet of gas per hour, by photometric test, made at a distance of not less than one mile from the place of manufacture), for each lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting lamp-posts and lanterns, replacing the cocks, tubes, burners, cross heads, lamp-posts, lamp-irons and lanterns thereto, for the term of one year in the Borough of .... to wit: the sum of .... Dollars ($..........) per lamp per year.

7981 II. For furnishing gas to burners consuming four cubic feet of gas per hour, under the same conditions as above, the sum of .... Dollars ($..........) per lamp per year.

III. For furnishing gas to burners consuming five cubic feet of gas per hour, under the same conditions as above, the sum of .... Dollars ($..........) per lamp per year.

IV. For furnishing illuminating material other than gas, of kind and grade as stated herewith .. of .. for each lamp, at each lamp, for the term of one year, and also operating and maintaining the lamp including the illuminant. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns, lamp-posts, and replacing cocks, tubes, burners, tanks, crossheads, lamp-posts, lamp-irons, frames and lanterns when so ordered by the Commissioner.

All the above for the term of one year in the Borough of The Bronx, to wit, the sum of .... Dollars ($..........) per lamp per year.

V. For furnishing, and connecting ready for use, for each mantle gas and naphtha lamp, improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods and regulating apparatus, necessary for each lamp, and also operating and maintaining it, including illuminant. The operation and maintenance to include the lighting, extinguishing cleaning, reglazing, repairing and painting of lanterns, lamp-posts and the replacing of cocks, tubes, burners, mantles, chimneys, globes, rods and regulating apparatus as well as lamp-posts, lanterns, crossheads, lamp-irons and frames, when so ordered by the Com-
7982 missioner. Lamp-posts for gas lamps, when necessary, will be furnished to the Contractor through this Department by The City.

All the above for the term of one year in the Borough of The Bronx, to wit, the sum of Twenty-nine and 70/100 Dollars ($29.70/100) per lamp per year.

VI. For furnishing, maintaining and putting in place all the above-mentioned items, excepting the cost of illuminating material, for a period of one year, the sum of .... Dollars ($..........).

VII. For repair of lamp-posts and erection of new lamp-posts—

(*a*) For each lamp-post straightened, the sum of .... Dollars ($..........).

(*b*) For each column releaded, the sum of .... Dollars ($..........).

(*c*) For each column recalked, the sum of .... Dollars ($..........).

(*d*) For each column refitted, the sum of .... Dollars ($..........).

(*e*) For each service pipe refitted the sum of .... Dollars ($..........).

(*f*) For each stand pipe refitted the sum of .... Dollars ($..........).

(*g*) For each lamp-post removed the sum of .... Dollars ($..........).

(*h*) For each lamp-post reset the sum of .... Dollars ($..........).

(*i*) For each new lamp-post used for gas lamps fitted up complete and erected with service and stand pipe and lantern, the sum of .... Dollars ($..........).

VIII. For furnishing illuminating gas of not less than 20 candle power, when tested, as provided for gas to street lamps, including the service pipes from the gas mains to the building, and a 7983 proper meter for registering the gas, for the term of one year for each of the public buildings and offices in the Borough of Manhattan, the lighting of which is now, or hereafter may be, under the jurisdiction and control of the Department of Water Supply, Gas and Electricity, per 1,000 cubic feet at a pressure of not less than 1½ inches, in the sum of .... Dollars ($..........).

IX. For furnishing, connecting and maintaining a pressure regulator, at the option of the Commissioner, controlling supply of gas from each meter which registers the total consumption of gas in any building under the jurisdiction and control of the Department. This gas pressure regulator shall maintain an even pressure of 1½ inches throughout the building as closely as can be obtained. The Contractor shall inspect and regulate same at least once a month, and shall perform all necessary acts in order to maintain same in such a condition that it shall efficiently regulate the supply of gas in the building. The regulator shall be inspected and tested, when required by the Commissioner, by the Engineer, and if found defective, shall be replaced, without further expense to The City, whenever such replacement is ordered by the Engineer.

Estimates may be given separately on the price for use of regulator for one year, and on the maintenance, as specified.

For furnishing and connecting regulators of an average capacity of about one and one-quarter inches, for the period of one year, in the Borough of................the sum of............Dollars ($........).

For maintaining the above regulators for the period of one year, in the Borough of......................as specified, the sum of ....Dollars ($........).

7984 Subject to the general conditions of this contract bids on Section IX may be made independently of the other services and supplies called for. Bids may also be made on the entire contract excluding Section IX.

New York, 3/15, 1904. Welsbach Street Lighting Company of America, Estimator.

7989 CITY'S EXHIBIT 5*a*.

Name of Bidder—Welsbach Street Lighting Co. of America.
Address—33 Nassau Street.

THE CITY OF NEW YORK,

DEPARTMENT OF

WATER SUPPLY, GAS AND ELECTRICITY,

BOROUGH OF THE BRONX.

1904.

PROPOSALS FOR BIDS OR ESTIMATES FOR GAS AND NAPHTHA LAMPS, ETC.

1. Sealed Bids on Estimates will be received at the office of the Department of Water Supply, Gas and Electricity, Room 1536, No. 21 Park Row, in the City of New York, until 2 o'clock P. M. on Wednesday, March 16th, 1904.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps when required), and for Making Certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved System of Lighting Streets, Public Buildings, Avenues, Piers, Parks and Public Places, in the Borough of The Bronx, in The City of New York, for the term of one year from March 16, 1904, to March 15, 1905.

7990 2. The amount of security required is TWENTY-FIVE (25) PER CENTUM of the total amount of bid or estimate.

3. In the Borough of The Bronx, the total number of ordinary gas-lamps now burning is about 5,648; the total number of Welsbach gas-lamps now burning is about......; the total number of Welsbach naphtha lamps is about 100; the total number of ordinary

naphtha lamps now burning is about 1,332; but the Commissioner of Water Supply, Gas and Electricity reserves the right to designate the location and number of the lamps of each kind as to districts, streets, avenues, piers, parks and public places or parts thereof. Bidders must satisfy themselves by a personal examination of the number and kind of lamps required in each Borough, as numbers given above must be taken only as a close approximation of the number of lamps that may be required.

4. The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title given above, of the work for which the estimate is made, with his or their name or names and the date of presentation to the head of the Department, at the said office, on or before the date and hour above named, at which time and place the estimates received will be publicly opened by the head of the Department and read, and the award of the contract made according to law as soon thereafter as practicable.

5. Bidders are required to state in their estimates the districts or several streets, avenues, piers, parks and places, or parts of streets, avenues, piers, parks and places in which they propose to perform the requirements herein contained, and also the illuminating or
candle power of the gas they propose to furnish, when tested
7991 at a distance of not less than one mile from the place of
manufacture; and bidders proposing to furnish any illuminating material other than illuminating or coal gas, must state distinctly what kind of grade and material they propose to furnish, and the illuminating power of the light they propose to furnish. When the term "illuminating material other than gas" is used in these proposals or the annexed contract and specifications, it shall mean either naphtha or gasolene.

6. Bidders will state in their bids or estimates a price per lamp per year for furnishing gas or illuminating material other than gas to the public lamps in the Borough of The Bronx, and for other fixtures or appliances or illuminating material for each lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting lamp-posts and lanterns, and replacing the cocks, tubes, burners, crossheads, lamp-posts, lamp-irons and lanterns thereto, for the term of one year; stating the price, for the above-named term of one year, for each lamp. The burners for open flame or mantle gas lamps will be of such a kind and construction that they will burn three cubic feet of gas per hour under a pressure of not less than 1½ inches. The gas furnished shall have an illuminating power of not less than 20 candles when tested by photometric test at a distance of not less than one mile from the place of manufacture, and bidders will state the price per lamp per year for gas of the illuminating power, and in the quantity and at the pressure specified. Bidders shall also state the cost per year per lamp for gas supplied to a burner consuming four cubic feet of gas per hour, and the price for a burner consuming five cubic feet of gas per hour. If open flame and mantle lamps shall use illuminating material other than gas, then the burners to be used for such illuminating material

will be of such kind and construction that they will give a
7992 light (by photometric test) equal to the light given by the
three foot open flame or mantle gas-burners of similar type as used in the public lamps in The City of New York, furnished with 20-candle power gas. Bidders are required to state in their estimates the kind, grade and cost of such illuminant furnished in the receptacles for same on the lamps for one year for each lamp at each lamp.

7. A price for furnishing lanterns with improved burner appliances and incandescent mantle for gas or naphtha burners, to produce a light of not less than sixty (60) candle power each, including the illuminating material for each lamp, maintenance, lighting, extinguishing, cleaning, repairing, reglazing, painting, replacing cocks, tubes, burners, crossheads, lamp-posts, lamp-irons and lanterns thereto, for the afore-mentioned period of one year.

7. (*a*) A price for furnishing, maintaining and putting in place all the above-mentioned items, except the cost of illuminating material, for a period of one year.

7. (*b*) Bidders will state in their bids or estimates a price per thousand cubic feet of gas of not less than 20 candle power for all or any of the public buildings or offices in the Borough of The Bronx, the lighting of which is now, or hereafter may be, under the jurisdiction and control of the Department of Water Supply, Gas and Electricity. This price will include the service pipes from the gas mains to the building and a proper meter for registering the consumption of gas. A bid may also be made on the regulators for governing the supply of gas in buildings in each borough.

8. Bidders will state in their bids a price for the repair of lamp-
posts, including straightening and releading, and for each
7993 new lamp-posts fitted up, as follows:

(*a*) For each lamp-post straightened, stating the price per post.

(*b*) For each column releaded, stating the price per post.

(*c*) For each column recalked, stating the price per post.

(*d*) For each column refitted, stating the price per post.

(*e*) For each service pipe refitted, stating the price per post.

(*f*) For each stand pipe refitted, stating the price per post.

(*g*) For each lamp-post removed, stating the price per post.

(*h*) For each lamp-post reset, stating the price per post.

(*i*) For each new lamp-post used for gas-lamps fitted up complete and erected with service and stand-pipe, including lanterns stating the price per post.

9. The right is reserved to the Commissioner to determine and designate in any locality, at any time after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such locality, during the term of this contract; also, upon such determination, to decline any estimate or part thereof for lighting such locality with illuminating material other than that so determined upon; also to decline all estimates for any particular locality, or all localities if deemed for the best interests of The City.

10. Should any alteration or any attachment be required to any

portion of the lamps for which estimates are made in consequence of the use of illuminating material other than gas, then such alteration shall be done and such attachment placed on the posts, without expense to The City. 7994

11. If the estimate of any bidder shall include any lamp-posts with which the pipes or conductors of such bidder are not connected at the time of the making of the bid, and a contract for furnishing the illuminating material for any such lamp-posts shall be awarded to such bidder, in that case, THIRTY DAYS from the date of the execution of such contract, and such further time, not exceeding thirty days, as may be deemed reasonable by the Commissioner, shall be allowed to such bidder in which to connect such pipes or conductors with such lamp-posts, and all such connections shall be made by the Contractor without expense to The City.

12. No payment to such bidder, on account of any such lamps, will be made for the time so allowed, nor until the same shall have been connected with the mains or conductors of such bidder, nor except for the time during which all the requirements in this proposal and in the contract, including specifications, which shall be awarded and entered into under this proposal, shall have been fully performed.

13. The number, kind and location of lights to be furnished under the contract to be awarded and entered into under this proposal shall be determined and prescribed by the Commissioner.

14. No bid will be entertained unless the Commissioner shall be satisfied that the party or parties bidding are possessed of sufficient plant to carry out the provisions of the contract.

15. The award of any and all contracts under this proposal and all contracts entered into in pursuance of said proposal will be subject and subordinate to the rights of all persons, parties or corporations under contracts or agreements (if there are any such) which are now binding and obligatory upon the City of New York. 7995

16. The number of hours the gas or naphtha lamps are to be kept burning during the contract is 3,925, and in leap year, 11 hours and 55 minutes additional for February 29.

17. Bidders will *write out* the total amount of their estimates in addition to inserting the same *in figures*.

18. The Commissioner reserves the right to reject any or all bids or estimates if the Board of Estimate and Apportionment shall determine it is for the public interest of The City so to do.

19. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair, and without collusion or fraud; and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be, or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in, or in the performance of the contract, work

or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true; or, if the bidder is a corporation, by the oath, in writing, of an officer of such corporation, with knowledge 7996 of the facts and having authority to make such sworn statement.

20. Each bid or estimate shall be accompanied by the consent, in writing, of two householders and freeholders in The City of New York, or of a guaranty or surety company, duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

21. No bid or estimate will be considered unless accompanied by money or a certified check draw- on a National or State bank located in The City of New York to the order of the Comptroller, to the amount of five per centum of the amount of the bond required, as provided in section 420 of The Greater New York Charter.

22. For particulars as to the repairs or the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications on file in the Department.

23. Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioner, a copy of which, with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Commissioner of Water Supply, Gas and Electricity, Room 1536, No. 21 Park Row, The City of New York.

The City of New York, March 3rd, 1904.

JOHN T. OAKLEY,
Commissioner of Water Supply, Gas and Electricity.

7997 Whereas, a contract was executed July 1st, 1904, between the Welsbach Street Lighting Company of America and John T. Oakley, as Commissioner of Water Supply, Gas and Electricity of the City of New York, for lighting streets, avenues, piers, parks and public places in the Borough of The Bronx, in the City of New York, for a term of one year, from March 16, 1904, to March 15, 1905, upon which The City Trust, Safe Deposit and Surety Company of Philadelphia is surety, and

Whereas, the assent of the said Surety Company is desired to the assignment of the said contract to the Consolidated Gas Company of New York;

Now Therefore, the said The City Trust, Safe Deposit and Surety Company of Philadelphia does hereby assent to the said Assignment, and agree that its liability on the said contract for whatever may be done thereunder shall in no way be affected by the said assignment.

City of New York, July 1, 1904.

CITY'S EXHIBIT 5*b*.

NEW YORK, *July 1st,* 1904.

Mr. John T. Oakley, Commissioner W. S., G. & Electricity, City of New York.

DEAR SIR:

In consideration of your giving consent to the transfer of the contract of the Welsbach Street Lighting Company of America for the lighting of the Bronx with incandescent gas mantle lamps under bids asked for by you for the year 1904-5, we agree to carry 7999 out the said contract as required by the specification, and further that the price for said lamps shall not be charged for at the rate of $29.70 named by the said Welsbach Street Lighting Company, but at the rate as specified in our bid for similar lights in Manhattan. The number of lamps to be arrived at by combining all such lamps in Manhattan and the Bronx on the following schedule, to wit:

	If less than	10,000,	$28.75	each	lamp.
If over 10,000	" "	15,000,	27.75	"	"
" " 15,000	" "	20,000,	26.75	"	"
" " 20,000	" "	25,000,	25.75	"	"
" " 25,000			24.75	"	"

But if a single order is given for 22,500 lamps, $24.75 for each lamp. This price is what it was intended the City was to have had when bid was originally made by this Company, and the number and price in our bid was intended to have covered both the Boroughs of Manhattan and Bronx, as you were then informed.

STATE OF NEW YORK, *County of New York, ss:*

8000 On this 1st day of July, 1904, before me personally came W. R. Addicks, to me known and known to me to be the Vice-President of the Consolidated Gas Company of New York, and Robert A. Carter, to me known and known to me to be the Secretary of the Consolidated Gas Company of New York, who, being by me severally duly sworn, did depose and say, each for himself, as follows: The said W. R. Addicks, that he resides in the City of New York, that he is the Vice-President of the said Company; and said Robert A. Carter, that he resides in the City of New York, and that he is the Secretary of said Company, the Company described in and which executed the above instrument; that he knows the seal of said Company, and that the seal affixed to the said instrument is such corporate seal, and that it was so affixed by authority of the Board of Directors of said Company, and by like authority he so signed his name and official designation.

(Signed) ROBERT J. McKEON,
Commissioner of Deeds, New York City.

For and in consideration of the sum of one dollar and other consideration, the receipt of which we acknowledge, we hereby assign, transfer and set over, unto the Consolidated Gas Company of New York, all our right, title and interest in and to a certain contract awarded to us this day for furnishing incandescent mantle gas lamps complete with illuminant, in the Borough of the Bronx, City of New York, under and in accordance with our bid for said incandescent mantle gas lamps, submitted to the commissioner on March 16, 1904; and we hereby further authorize and empower the said Consolidated Gas Company of New York, to perform any and all acts necessary to carry out the terms of said contract. And we do hereby further agree to execute any other papers necessary to give this assignment full force and effect.

8001 IN WITNESS WHEREOF, the Welsbach Street Lighting

Company of America has executed this assignment this first day of July, A. D. nineteen hundred and four (1904).

CITY'S EXHIBIT 5D.

THE CITY OF NEW YORK,

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,

BOROUGH OF THE BRONX.

CONTRACT AND SPECIFICATIONS.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps when required), and for making certain Repairs to Lamp-posts, and for furnishing Burners and Appliances of Improved System of Lighting Streets, Public Buildings, Avenues, Piers, Parks and Public Places, in the Borough of The Bronx, in The City of New York, for the term of one year, from March 16th, 1904, to March 15th, 1905, per specifications herein contained or hereto attached.

THIS AGREEMENT, made and entered into this 1st day of July, in the year one thousand nine hundred and four by and between The City of New York, by the Commissioner of Water Supply, Gas and Electricity, party of the first part, and the Welsbach Street Lighting Co. of America, No. 33 Nassau Street, New York, Contractor, party of the second part, pursuant to the provisions of the Greater New York Charter.

WITNESSETH, That the parties to these presents, each in consideration of the agreements on the part of the other, herein contained, have mutually agreed, and hereby mutually agree, 8005 the party of the first part for itself and its successors, and the party of the second part for itself and its successors, as follows:

(*A*) Wherever in this contract the words "The City," or "The Commissioner," or a pronoun in the place of either of them is used, they shall mean and intend the party of the first part or the Commissioner of Water Supply, Gas and Electricity of The City of New York; wherever the words "Borough President" are used in this contract, they shall mean and intend the President of the Borough above mentioned; wherever in this contract the words "the Department," or a pronoun in the place of them is used they shall mean and intend the Department of Water Supply, Gas and Electricity in The City of New York.

(*B*) Wherever in this contract the word "Contractor," or a pronoun in the place of it is used, the same shall mean and intend the party of the second part to this agreement.

(*C*) Wherever the word "Engineer" is used in this contract, it shall mean and be taken to mean and intend the Engineer of the Bureau of Lamps and Gas of the Department, or the Engineer, or other person or official, in charge of the Lighting Bureau in the borough for which this contract is made, acting either directly or through any Assistant or Inspector duly appointed or designated therefor, pursuant to The Greater New York Charter as amended, by the Engineer or either of the Engineers, to inspect, test, examine and accept the supplies of gas or other illuminating material, repairs or supplies, which are the subject of this contract, limited by the particular duties intrusted to him.

(*D*) The Contractor will furnish and deliver to the party 8006 of the first part, at the Contractor's own cost and expense, at the times and places and in the manner, and under the conditions herein specified, gas or other illuminating material for, and light, extinguish, clean, repair and maintain the public lamps (and supply gas, etc., for new lamps when required), and make certain repairs to lamp-posts, and furnish burners and appliances of improved system of lighting on the streets, public buildings, avenues, piers, parks and public places in the Borough of The Bronx, in The City of New York, for the term of one year from March 16th, 1904, to March 15th, 1905, and will accept as full compensation therefor the sum or price hereinafter named, which sums or prices are the amounts at which this contract was awarded to the Contractor at the public letting thereof. The said specifications, the proposal for bids or estimates, the bid or estimate and the bond required are and shall be a part of this contract.

(*E*) The Contractor will not ask, demand, sue for or recover for any supplies delivered, repairs made, illuminating material furnished, or work performed under this contract, any extra compensation beyond the amounts payable for the several classes of work and supplies herein enumerated, which shall be actually supplied at the price therefor, herein agreed upon and fixed.

(*F*) The Engineer shall inspect and test or have tested the gas or other illuminating material, lamps, meters, regulators, repairs and supplies furnished, and see that the same strictly correspond with the specifications hereinafter set forth, and the Engineer is hereby authorized and empowered to reject any of the said gas or other illuminating material, lamp posts, lamps, meters, regulators, repairs and supplies offered under this contract, for the rea-
8007 son that the same do not comply in quality or quantity or pressure, or time or place of maintenance, with the specifications herein contained or hereto annexed.

(*G*) Whenever the Engineer shall be unable to act, in consequence of absence or other cause, then such assistant or other person as shall be designated by the Commissioner shall perform all the duties and be vested with all the power herein given to the Engineer.

(*H*) To prevent all disputes and litigations, the Engineer shall, in all cases, determine the amount, quantity and quality of the supplies, illuminating material, and work, which are to be paid for under this contract, and he shall determine all questions in relation to said gas or other illuminating material, repairs and supplies, and he shall in all cases decide every question which may arise relative to the execution of this contract on the part of the Contractor, and his estimate and decision shall be final and conclusive.

(*I*) Any doubt as to the meaning of the contract, including the specifications, or any obscurity as to the wording of them, will be explained by the Engineer, and all directions and explanations required, alluded to, or necessary to complete any of the provisions of these specifications, and give them due effect, will be given by the Engineer.

(*J*) The Contractor shall commence the delivery of the lamps and other apparatus called for by this contract, and the furnishing of the illuminant required, and the lighting of the lamps, as soon as he shall be ordered so to do by the Commissioner; he will carry on such contract as required from time to time, with such force and in such manner and order, and at such times and seasons, as may
8008 be directed by the Commissioner, and that he will fully and entirely perform this contract on his part on or before the thirt .... day of............190....

(*K*) In case any lamp shall fail to burn continuously throughout each and every night, during the term of this contract, during the hours specified in the time-table hereto annexed, or such hours as the Commissioner may from time to time prescribe, and such failure shall not be due to any act or omission of The City, its officers, agents or employees, the Contractor shall and will pay to The City a sum of money equal to one three hundred and sixty-fifth (1/365) of the contract price of such lamp per annum for each and every night or part thereof that such failure shall continue, which said sum, in view of the difficulty of ascertaining the loss which The City will suffer by reason of such failure, is hereby agreed, fixed and determined by the parties hereto, as the liquidated damages that The City will suffer by reason of such failure, and not as a penalty, and the City shall and may deduct and retain the amount of such liquidated damages out of any moneys which may be due or become due to the Contractor under this agreement.

(*L*) Neither an extension of time, for any reason, beyond the date fixed for the delivery of supply of gas, or other illuminating material, lamps, repairs and supplies, nor the delivery and acceptance of any said delivery of supply of gas, repairs and supplies, called for by this contract, shall be deemed to be a waiver by the Commissioner of the right to abrogate this contract for abandonment or delay in the manner herein provided.

(*M*) The Contractor will employ only competent, skilful and faithful men to do the work, and he further agrees that 8009 whenever the Commissioner shall inform him in writing that any man engaged in the work is, in his opinion, incompetent or unfaithful, he will discharge him from the work and will not again employ him upon the work.

(*N*) The Contractor shall receive the following prices as full compensation for furnishing and maintaining the lights, lamps, apparatus and accessories, and performing the services herein provided to be performed by the Contractor, viz.:

I. For furnishing the aforesaid illuminating material for each lamp, for burners consuming three cubic feet of gas, of 20 candle-power per hour, including the lighting, extinguishing, cleaning, repairing, reglazing, painting, replacing cocks, tubes, burners, cross-heads, lamp-posts, lamp-irons and lanterns thereto, for the aforementioned period of one year, in the sum of .... Dollars ($..........).

II. and III. For furnishing the aforesaid illuminating gas for each lamp, at each lamp, as directed and specified, for burners consuming 4 or 5 cubic feet, as may be selected, for the above-mentioned period of one year, the sum of .... Dollars ($..........).

IV. For furnishing illuminating material other than gas for each lamp at each lamp, and of the kind and grade as stated in the bid, as directed and specified, ... of .... and also operating and maintaining the lamp, including illuminant. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns, lamp posts, and replacing cocks, tubes, burners, cross-heads, lamp-posts, lamp-irons, frames and lanterns, when so ordered by the Commissioner. 8010 All the above for the term of one year, in the Borough of The Bronx, to wit, the sum of .... Dollars ($..........), per lamp per year.

V. For furnishing lanterns with improved burner appliances and incandescent mantle for gas or naphtha burners, to produce a light of not less than sixty (60) candle power each, including the illuminating material for each lamp, maintenance, lighting, extinguishing, cleaning, repairing, reglazing, painting, replacing cocks, tubes, burners, cross-heads, lamp-irons, lamp-posts and lanterns thereto, for the afore-mentioned period of one year, the sum of Twenty-nine and 70/100 Dollars ($29 70/100).

VI. For furnishing, maintaining and putting in place all the above-mentioned items, excepting the cost of illuminating material, for a period of one year, the sum of .... Dollars ($..........).

VII. For repair of lamp-posts and erection of new lamp-posts:

(*a*) For each lamp-post straightened, the sum of .... Dollars ($..........).

(*b*) For each column releaded, the sum of .... Dollars ($..........).

(*c*) For each column recalked, the sum of .... Dollars ($..........).

(*d*) For each column refitted, the sum of.............. Dollars ($..........).

(*e*) For each service-pipe refitted, the sum of .... Dollars ($..........).

8011 (*f*) For each stand-pipe refitted, the sum of .... Dollars ($..........).

(*g*) For each lamp-post removed, the sum of .... Dollars ($..........).

(*h*) For each lamp-post reset, the sum of .... Dollars ($..........).

(*i*) For each new lamp-post used for gas lamps fitted up complete and erected with service and stand-pipe and lantern, the sum of .... ($..........).

VIII. For furnishing illuminating gas for lighting of not less than 20 candle power, including the service-pipes from the gas-mains to the building, and a proper meter for registering the gas, for the term of one year, for all or any of the public buildings and offices in the Borough of ...., the lighting of which is now, or hereafter may be, under the jurisdiction and control of the Department of Water Supply, Gas and Electricity, per 1,000 cubic feet, at a pressure of not less than 1½ inches, in the sum of .... Dollars ($..........).

IX. For furnishing and maintaining a pressure regulator, at the option of the Commissioner, controlling supply of gas from each meter which registers the total consumption of gas in any building under the jurisdicton and control of the Department. This gas pressure regulator shall maintain an even pressure of 1½ inches throughout the building as closely as can be obtained. The Contractor shall inspect and regulate same at least once a month, and shall perform all necessary acts in order to maintain same in
8012 such a condition that it shall efficiently regulate the supply of gas in the building. The regulator shall be inspected and tested when required by the Commissioner, by the Engineer, and if found defective, shall be replaced, without further expense to the City, whenever such replacement is ordered by the Engineer.

Estimates may be given separately on the price for use of regulator for one year and on the maintenance, as specified.

For furnishing .... regulators of an average capacity of about one and one-quarter inches for the period of one year, in the Borough of .... the sum of .... Dollars ($..........).

For maintaining the above regulators for the period of one year, in the Borough of .... as specified, the sum of .... Dollars ($..........).

(*O*) No payment will be made or allowed on account of supply of illuminating materials, repairs and supplies to any lamp, except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

(*P*) In case the Contractor shall be unable at any time during the continuance of this contract to supply illuminating material to, or light any of the lamps specified in this agreement, then the Contractor shall give immediate notice to the Commissioner of his inability to furnish illuminating material to, or to light such lamps, stating the streets in which the supply of illuminating material to the lamps cannot be furnished and the cause thereof. And in case the use of any of the lamps shall be suspended or discontinued, and other lamps shall be used in consequence of such suspension
8013 or discontinuance, then the gas or other lamps which may have been suspended, or discontinued, shall not be supplied with illuminating material except pursuant to an order for such supply by the Commissioner.

(*Q*) The Contractor shall indemnify and save harmless The City, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits based on or arising out of the alleged infringement of any patent or patent right, and against, and from all damages and costs to which they or any of them may be put by reason of any such alleged infringement or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under this contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the Contractor or his agents or servants. So much of the moneys due to the Contractor under and by virtue of this agreement, as shall or may be deemed necessary by the Commissioner, shall or may be retained by The City, until all such suits, actions and claims shall have been settled, and evidence to that effect furnished to the satisfaction of the Commissioner.

(*R*) In case the Contractor shall fail or neglect to keep the covenants herein contained, or any of them, or neglect to operate, repair, paint, clean or fit up the lamps as before mentioned, or any of them, the Commissioner may and shall have the power to cause such

work to be performed by other parties, and to deduct the expense thereof, from any moneys which may be due or may become due to the Contractor, and to hold the Contractor and his sureties,
8014 liable for the amount thereof, which may be in excess of the
prices stipulated in this agreement; and in case such expense is less than the sum which would have been payable under this contract if the same had been completed by the Contractor, he shall forfeit all claim to the difference.

(*S*) If the Contractor shall not well and truly observe, perform, fulfill and keep all and singular the covenants and conditions hereinbefore mentioned and contained, on its part and behalf to be observed, performed, fulfilled and kept according to the true intent and meaning of these presents, then and in that case the Commissioner may and shall have the power, on the part of the said party of the first part, to declare this contract annulled and vacated, and thereupon it shall become and be thenceforth null and void.

(*T*) On or after the first day of each and every month during the term of this contract, the Contractor shall furnish proof to the satisfaction of the Commissioner that it has fully performed and fulfilled this contract in all the particulars and conditions aforesaid during the preceding month, and particularly that it has furnished the illuminating material of the quality hereinbefore specified, and that all the lanterns have been cleaned three times in each week of said month, and also that the gas burners have consumed.............. cubic feet of gas each per hour, as required by this contract, during all the time that the lamps were required to be kept lighted, and also proof to the satisfaction of the Commissioner as to all extinguishments of lamps, including the location of each lamp extinguished, the date and length of extinguishment in each case, whereupon the Commissioner shall certify the fact, and in his certificate state
8015 the amount to which the Contractor shall be entitled for all
the duties performed by it during such preceding month, and annex thereto a requisition upon the Comptroller to pay the Contractor therefor the sum to which he shall be so entitled; and without such certificate and requisition the Contractor shall not be or become entitled to any payment under and in respect to the terms of this contract, or for the light, lamps and accessories or in respect to services which were required to be done, or should have been done, in such preceding month. On the requisitions above provided being presented to the Comptroller of The City, he shall, within thirty days thereafter, pay to the Contractor the amount thereof in lawful money.

(*U*) The City shall not, nor shall any department or officer thereof be precluded or estopped by any return or certificate made or given by the Commissioner, any Engineer or other officer, agent or appointee of The City under any provision of this agreement from at any time (either before or after the final completion and acceptance of the work and payment therefor pursuant to any such return or certificate) showing the true and correct amount and character of the work done and materials furnished by the Contractor, or any other person under this agreement, or from showing at any time that any such return or certificate is untrue and incorrect, or improperly made in any particular, or that the work and materials, or any part thereof, do not in fact conform to the specifications; and The City shall not be precluded or estopped, notwithstanding any such return or certificate and payment in accordance therewith, from demanding and recovering from the Contractor such damages as it may sustain by reason of his failure to comply with the specifications.

8016 (*V*) This contract shall not be binding or of any force unless the Comptroller of The City shall indorse hereon his certificate that there remains unexpended or unapplied, as provided in The Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this contract, as certified by the officers making the same.

(*W*) The residence or place of business given in the bid or estimate upon which this contract is founded, is hereby designated as the place where all notices, letters and other communications shall be served, mailed or delivered. Any notice, letter or other communication addressed to the Contractor and delivered at the above-named place, or deposited in a post-paid wrapper in any post-office box regularly maintained by the post-office shall be deemed sufficient service thereof upon the Contractor. The place named may be changed at any time by an instrument, in writing, executed and acknowledged by the Contractor and delivered to the Commissioner. Nothing herein contained shall be deemed to preclude or render inoperative service of any notice, letter or other communication upon the Contractor personally.

(*X*) This contract shall be subject and subordinate to the rights, claims and demands of all persons, parties or corporations under contracts or agreements (if there are any such) which are valid and lawful charges and liabilities against The City of New York, and which the law requires shall be defrayed and answered unto by The City.

(*Y*) The Contractor will give his personal attention constantly to the faithful prosecution of the work; he will not assign, transfer, convey, sublet or otherwise dispose of this contract, or his
8017 right, title or interest in or to the same or any part hereof,
without the previous consent in writing of the Commissioner indorsed hereon or hereto attached; and he will not assign, by power of attorney or otherwise, any of the moneys to become due and payable under this contract, unless by and with the like consent signified in like manner. If the Contractor shall, without such previous written consent, assign, transfer, convey, sublet or otherwise dispose of this contract, or of his right, title or interest therein, or any of the moneys to become due under this contract, to any other person, company or other corporation, this contract may, at the option of the

Commissioner, be revoked and annulled and The City shall thereupon be relieved and discharged from any and all liability and obligations growing out of the same to the Contractor, and to his assignee or transferee; provided that nothing herein contained shall be construed to hinder, prevent or affect an assignment by the Contractor for the benefit of his creditors, made pursuant to the statutes of the State of New York; and no right under this contract, or to any money to become due hereunder shall be asserted against The City in law or in equity, by reason of any so-called assignment of this contract, or any part thereof, or of any moneys to grow due hereunder, unless authorized as aforesaid by the written consent of the Commissioner.

IN WITNESS WHEREOF, The Commissioner of Water Supply, Gas and Electricity, has hereunto set his hand and seal on behalf of The City, and the Contractor has caused its corporate seal to be hereunto affixed and its President and Secretary hereto to set their hands, and the parties hereto have executed triplicate copies hereof, one of which is to remain with the Commissioner, one other to be filed with the Comptroller of The City, and the third to be delivered to
8018 the Contractor, the day and date herein first above written.

JNO. T. OAKLEY, [L. S.]
Commissioner of Water Supply, Gas and Electricity.

—— ——,
Notary Public or Commissioner of Deeds.

KNOW ALL MEN BY THESE PRESENTS, That We, the City Trust, Safe Deposit and Surety Co. of Philadelphia, and the Welsbach Street Lighting Co. of America of the City of New York, are held and firmly bound unto The City of New York, in the sum
of $41,936 40/100 Dollars, lawful money of the United States
8020 of America, to be paid to The City of New York, or to its certain attorneys, successors or assigns, for which payment, well and truly to be made, we bind ourselves, and our several and respective heirs, executors, administrators, successors and assigns jointly and severally, firmly by these presents.

Sealed with our seals. Dated this 1st day of July, one thousand nine hundred and four.

WHEREAS, The above bounden Welsbach Street Lighting Co. of America, by an instrument in writing, under its corporate seal duly attested, bearing even date with these presents, and one part whereof is hereunto annexed, has contracted with The City of New York to furnish the Illuminating Material, Repairs and Supplies to the Public Lamps of The City of New York, as in said contract will more fully and at large appear:

NOW, THEREFORE, The condition of the above obligation is such, that if the said Welsbach Street Lighting Co. of America, its successors or assigns, shall indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them, or any of them, including suits and actions based on, or arising out of the alleged infringement of any patent or patent rights, and against and from all damages and costs to which they, or any of them, may be put by reason of any such alleged infringement, or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under said contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the said 8021 Welsbach Street Lighting Co. of America, its agents or servants, and if the said Welsbach Street Lighting Co. of America, or its successors or assigns, shall well and truly, and in a good, sufficient and workmanlike manner, perform, fulfill, observe, and keep the said contract, and each and every of the covenants, provisions, conditions and terms in said contract contained, or to be performed, fulfilled, observed and kept, then this obligation to be void; otherwise to remain in full force and virtue.

WELSBACH STREET LIGHTING CO. OF AMERICA,
By ARTHUR E. SHAW, *President.* [L. S.]

In pursuance of the provisions of section 149 of The Greater New York Charter, I hereby certify that there remains unapplied and unexpended a balance of the appropriation.................
....,
....
applicable to this contract, sufficient to pay the estimated expense of executing the same, viz.: $..........

..........................,
Comptroller.

SPECIFICATIONS.

For Furnishing Gas or other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps when required), and for making certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved System of Lighting of Streets, Public Buildings, Avenues, Piers, Parks and Public Places, in the Borough of The Bronx, in The City of New York, for the Term of One Year, from March 16th, 1904, to March 15th, 1905.

1. The lamps shall be lighted during such times as the public lamps throughout The City of New York may be required to be lighted by the regulations of the said party of the first part, in accordance with a time-table hereto annexed, marked "A," and made a part of these specifications. The Commissioner may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted, and kept burning, at any other time or times during the continuance of this contract; and the Contractor
8028 shall and will light the same, and continue them burning,
in accordance with any and every direction of the Commissioner to that effect. Provided, that, in compliance with the direction of the Commissioner, the whole number of hours during which the said lamps, or a portion of them, are kept burning, shall exceed the number of hours specified in the said time-table, which time-table shall aggregate a total of 3925 hours for the term, then, in that case, the Contractor shall be entitled to claim and receive, for such additional number of hours during which the lamps, or such portion of them, in the district aforesaid, are kept burning in accordance with such direction of the Commissioner, an additional compensation, equivalent to a *pro rata* increase of the compensation allowed by the foregoing contract and proportioned to the increased number of hours beyond the said number, and the number of lamps so kept burning. And also, provided that if, in compliance with the direction of the Commissioner, the number of hours during which the said lamps, or any portion of them, are kept burning, shall be less than the aforesaid number of 3925 hours per term, then, in that case there shall be deducted an amount equivalent to a *pro rata* decrease of the compensation allowed by the foregoing contract and proportioned to the decrease of the number of hours below the said number, and to the decrease of the number of lamps so kept burning. If the lamps are to be lighted by means of gas or naphtha, then it is expressly agreed that all the lamps shall be lighted within one hour from the time fixed in the time-table as the time for beginning; also that they shall be lighted either by the means of a torch, or the use of a ladder, and that the lamplighters will not be permitted to climb the lamp posts for such purpose. The Contractor shall keep the service pipes and stand pipes of said lamps cleared of all obstructions, at its own cost and expense.

8029 2. The Commissioner shall have the right at any time to increase or diminish the number of lamps required to be lighted by the Contractor under this contract, and the right is reserved by the Commissioner, at any time during the continuance of this contract, to increase or diminish the number of hours during which the said lamps or any portion of them are to be kept burning, and to change said time-table in any particular, and to determine and from time to time to change the said number and location of the lights in any public building or office, and the amount and kind of illuminating material used and to be used therein, and the public buildings and offices and parts thereof lighted and to be lighted under the foregoing contract.

3. If the material to be furnished under this agreement shall be illuminating gas, then such gas shall have an illuminating power of not less than twenty candles, when tested at a distance of not less than one mile from the place of manufacture, on the improved form of the Bunsen Photometer, by means of a Bray slit, Union No. 7 burner consuming five cubic feet of gas per hour. The testing candle shall be of sperm, of six to the pound, and consuming as near as possible, one hundred and twenty grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than one hundred and fourteen or more than one hundred and twenty-six grains of spermaceti per hour. And as regards purity, gas shall be clean and of such quality that it will not deteriorate the mantles in the mantle lamps using same so as to shorten their length of life under similar conditions. The gas shall be entirely free, within limits not injurious to the public health, from ammonia, sulphureted hydrogen and other sulphur or noxious compounds. In case the illuminating material shall be illumi-
8030 nating material other than gas, then the quantity of light produced by the burner used for such material shall be equal to the quantity (by photometric test) produced by the twenty candle-power coal gas, above described, consumed by the foot gas burners called for in this agreement.

4. The City shall have the right at any time to test the quality and illuminating power of the lamps and light as furnished on the street, and for that purpose at least twenty-five (25) lamps may be selected from those in actual use, by the Engineer, in each and every calendar month, and their illuminating power shall be determined photometrically by the City Gas Inspector or the Engineer at The City's Laboratory, or elsewhere at the discretion of the Engineer. The average candle-power of the lamp so tested shall constitute the basis for calculating the light furnished by the lamps burning during the month and for which the charge is made. The term "Lamp" herein means the burner complete with mantle and chimney, if any, as found set up for use in any of the streets or public places, and the test herein referred to shall be made through uncolored clear glass of the same character as encloses the lamp on the street, and under the same conditions of supply of gas; the object of the test being to determine that the actual illuminating power, as contracted for, is given on the street, and to determine that each burner is consuming at least the required three (3) cubic feet

of gas per hour. Each lamp shall be tested with the gas furnished by the company furnishing gas to said lamp when in actual service on the street, the gas being first tested for candle-power. 20-candle power gas is herewith defined as gas which, when tested, at a distance of not less than one mile from the place of manufacture, on the improved form of Bunsen Photometer, by means of a
8031 Bray slit, Union No. 7, burner, consuming 5 cubic feet of
gas per hour, shall give 20-candle power; the testing candle shall be of sperm of six to the pound, and consuming, as near as possible, 120 grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than 114 or more than 126 grains of spermaceti per hour.

When desired by the Commissioner, these tests will be applied to each of the different classes of lamps, viz.:

Open flame gas.
Mantle gas.
Open flame naphtha.
Mantle naphtha.

The Contractor operating and maintaining the lamps tested shall replace said lamps whenever they are taken down for test, free of cost to The City, and shall always keep in stock ready for operation, at least 25 lamps of each class.

Lamps using other illuminant than gas will also be tested photometrically as to actual street illuminating power with the illuminating material they may contain when taken down, and they shall furnish the same illuminating power as a lamp of similar type using gas of 20-candle power supplied at the rate of .... cubic feet per hour.

The minimum candle power required of each type of lamp consuming not more than 3 cubic feet per hour per lamp, under the conditions herein specified, will be as follows:

Open flame gas..................	12 candle power.
Mantle gas	60 candle power.
Open flame naphtha.............	12 candle power.
Mantle naphtha	60 candle power.

The open flame lamps to be supplied with 20-candle power
8032 gas at the rate of not less than three (3) cubic feet per hour.
The mantle gas lamps to be supplied with from 2½ to 3 cubic feet of gas per hour, at 1½ inches pressure as may be required. The naphtha lamps, both open and mantle, shall be supplied with sufficient naphtha to equal the candle power of the similar type of gas lamp mentioned above.

5. All the burners used for the illuminating material, commonly called illuminating gas, shall be of a capacity to burn 3, 4 or 5 cubic feet of gas per hour, as may be selected, and each of said burners *shall* burn 3, 4 or 5 cubic feet of gas per hour, as selected, during all the time the lamps are required to be kept lighted. Should the illuminating material be naphtha, then the burners to be used for such illuminating material shall give a light (by photometric test) equal to the light given by the gas-burners in use in the public lamps of similar type in The City of New York. The burners are

to be kept clear at all times, so as to allow a free and unobstructed flow of illuminating material, and to permit a full and normal flame. All checks or automatic regulators shall be of a type approved by the Engineer, and shall be cleaned at least once in each year, or oftener if ordered by the Engineer.

6. Incandescent mantles for either gas or naphtha lamps when supplied for the lamps now using same, or for lamps which may be hereafter specified by the Commissioner, shall be of the very best quality, capable of producing and maintaining under the conditions of this contract not less than 60 candle-power. Whenever the mantles become smoked or deteriorated to such an extent that at least 60 candle-power is not obtained, they must be replaced by new 8033 mantles by the Contractor. The Commissioner reserves the right to have the lamps and the character of mantles furnished, tested, basing test on the same conditions as those under which they are required to burn on the streets, and to reject any lamps and mantles furnished that do not comply with the above requirements as to candle-power. Anti-vibrators for lamps, using incandescent mantles, should be furnished with each lamp, and samples of same should be submitted to the Engineer for approval with the sample of lamp furnished him as mentioned elsewhere.

7. The Commissioner or the Borough President shall have the right at any time to place signs, designating the names of streets, on any lamp-post situated on the street corners of any street to be lighted under this contract, without further expense to The City, whether the lamp-posts shall belong to The City or not, and all the lamps and street signs are to be kept in such a cleanly condition that not more than 10 per cent. of the light of the lamps shall be absorbed or obstructed by the uncolored glass. They shall be cleaned at least three times in each week, and oftener, if the Commissioner shall direct or require the same, and at each of these cleanings all the sides, top and bottom glass of the lantern, as well as the glass of the street sign, shall be thoroughly cleaned, both on the inside and the outside, and all dust and dirt shall be brushed from the frames.

8. The lamps, including the bottoms, are to be repaired and reglazed within twenty-four hours after any portion of the same shall be broken, and all the work or material for either of said purposes is to be furnished by the Contractor, without cost to The City. 8034 Stained glass of a ruby color, of such tint as shall be approved by the Commissioner, shall be placed in the Fire Alarm Signal lamps and in the tops of the gas lanterns nearest to the several Fire Alarm Signal boxes, and in the tops of the gas lanterns on the street corner nearest said boxes. And in case any of such stained glass should be broken, after being placed in the lamps, then the Contractor shall procure glass of the same color, and place and keep the same in the lamps without cost to the city.

9. The party of the first part shall have the right to require that burners of a greater consuming capacity than three cubic feet of gas per hour shall be furnished to the public gas-lamps, or any portion of them, at any time during the aforesaid term of one year, provided that the party of the first part will pay to the Contractor, for the lamps so furnished, an additional compensation, equivalent to the

increase of the compensation allowed by the foregoing contract and proportioned only to the increased amount of gas consumed by each burner over and above three cubic feet per hour.

10. Sample lamps, showing all burning appliances and connections for each type of mantle or other lamp to be furnished, shall be submitted when called for by the Commissioner to the Engineer for the purposes of comparison and test. Such sample lamps shall be complete in every respect, and shall accurately represent the burner which the Contractor uses on each type of lamp under this contract, and the sample lamp, like lamps in service, shall be so combined and adjusted as to secure, under all ordinary variations of pressure, an intensity of candle power of not less than 60 in the case of
8035 mantle lamps and twelve in the case of open flame lamps.
The tips for open flame gas burners shall be designed to consume 3, 4 or 5 cubic feet of gas as required, per hour. These tips shall be approved by the Engineer before being placed on the burners. They shall be kept in good order and repair, and renewed whenever required by the Engineer, and he shall also have same tested for consumption of gas when it is deemed necessary.

11. Whenever the Commissioner shall require that any lamp-post or posts shall be reset or straightened, or that any column or columns be releaded or recalked, or that any lamp-post or posts be repaired in any other manner, in this contract specified, the same shall be done within twenty-four hours after the Department shall notify the Contractor of such requirement.

12. The lamp-posts, lamp irons, brackets and lanterns, used for gas or naphtha, are to have one heavy coat of best paint, ground in oil, as follows: The lamp-posts, crossheads and stand pipes of bracket lamps to have one coat of dark-green paint, blue shade. The square lamp irons, brackets, and outside of lanterns to have one coat of green paint, pea-green shade; the design being to make a strong contrast between lamp-posts and lanterns. The tin work on inside of lanterns to be painted in all their parts with one heavy coat of best white-lead paint; the round lamp irons and under side of the reflectors of the globe lamps to be painted with one coat of the best white-lead paint, and so much of the stand pipes as project above the lamp-posts, to be painted in the same manner as the lamp-posts. All the material shall be of the best quality, and prepared so as to present a gloss finish. While painting the lanterns care must be taken
8036 that the glass shall not be daubed or smeared with paint. All
the painting is to be completed by the first day of *July* next and the Commissioner is to be notified when and where the painting is to be commenced.

13. All lamp-posts shall be taken down which the Commissioner may require to be removed for any purpose.

14. New gas-lamp posts are to be fitted up on any street, avenue, pier, park or public place, wherever the same may be required by the Commissioner. The butts and columns are to be placed in a strictly perpendicular position, the socket of the butt to be calked with yarn gasket and melted lead, the lead to be tamped and then trimmed even with rim of butt. The service-pipe shall be one (1) inch wrought iron pipe, upon which shall be connected by means of

a reducer a three-quarter (¾) inch wrought-iron stand-pipe, which shall be galvanized upon its outer surface. Reducer to be connected to outside of both service and stand-pipe. At the lower extremity of the stand-pipe the service-pipe shall make an angle bend of easy curvature, so as to avoid any congestion of any material that may collect within the pipe, and thence have a direct fall to the main. The service-pipe shall receive a heavy coat of asphaltic paint before there is any filling-in around it. The service-pipe and bend on bottom of stand-pipe shall rest on solid earth to prevent the same from settling and forming a trap; the earth is to be thoroughly tamped about the butt as the same is thrown into the excavation. Bracket lamps are to be fitted up in lieu of lamp-posts when required, the brackets and stand-pipes to be fastened to the wall in a firm and secure manner. The service-pipes, stand-pipes and fittings are to be furnished and connected by the Contractor; the lamp-posts for mantle and 8037 open flame gas-lamps, and the lamp-posts, lamp-irons, cross-heads and brackets for open flame gas-lamps will be furnished by The City, through the Department, to the Contractor. All new lamp-posts are to be painted immediately after the same shall have been erected.

15. The cocks, tubes, tips, mantles, chimneys, globes, burners and checks which may become worn out or useless, or which, in the opinion of the Commissioner, are worn out or useless, shall be immediately replaced by the Contractor, at its own cost and expense.

16. All lanterns and lamp-posts used for gas, which, in the opinion of the Commissioner, may become so worn out, broken or useless as to be unfit to be repaired, are to be removed and other lanterns and lamp-posts substituted in lieu thereof (and globe lamps substituted for square lamps) by the Contractor without charge to The City, when so ordered by the Commissioner. The lanterns, lamp-posts and globes for that purpose will be furnished by The City in the case of open flame gas lamps. The lamp-posts for mantle gas lamps will also be furnished by The City through the Department to the Contractor, but the Contractor will furnish all the equipment, including posts for the mantle naphtha and open flame naphtha lamps, as well as all the equipment, except the lamp-posts in the case of mantle gas lamps.

17. The crossheads and lamp-irons used for open flame gas-lamps which, in the opinion of the Commissioner, may become broken or out of order, are to be replaced on the posts by the Contractor without charge to The City. The cross-heads and 8038 lamp-irons for that purpose are to be furnished by the party of the first part, through the Department, to the Contractor.

18. The glass street signs to be placed and retained in their proper places and positions in the gas or naphtha lantern, and are to be kept in a cleanly condition; and globes containing street names are to be placed upon the gas lamp-posts when required by the Department. The globes shall be furnished by the Department to the Contractor, and the signs shall be furnished by the Borough President to the Contractor.

19. All supplies, which, under this agreement, may be required

to be furnished by the party of the first part, will be so furnished, but the cartage thereof shall be done by the Contractor.

20. Subject to the provisions of section 469 of the Greater New York Charter, the Contractor will, upon being required so to do by the party of the first part, extend its pipes or conductors, and erect new lamps in and along any or all the streets, avenues and public places within the limits aforesaid or adjacent thereto, and will relight the gas-lamps situated on the lines of the mains of the Contractor, which are now suspended or may hereafter be suspended, when ordered so to do by the Commissioner.

21. The Commissioner may determine and designate in any locality, after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such locality, during the period above mentioned; also upon such determination, to decline any estimate or part thereof for lighting such locality with illuminating material other than that so determined upon.

8039 22. Should any alteration or any attachment be required to any portion of the lamps to be lighted under this agreement, for the purpose of using any other material than illuminating gas, then such alteration will be done and attachment placed and maintained on the lamps by the Contractor hereto at his own cost and expense.

23. In supplying gas for public buildings under the jurisdiction and control of the Department of Water Supply, Gas and Electricity, the Contractor shall supply, put in place, and connect the service-pipe from the gas-mains to the building and install a proper meter for registering the gas consumed. The gas supply shall be of 20-candle power at not less than 1½-inch pressure, the pressure to be regulated by a gas pressure regulator, approved by the Engineer.

All meters registering the total consumption of gas in any building under the jurisdiction and control of the Department to be equipped, when so required by the Commissioner, with a gas pressure regulator to be furnished, erected and maintained by the Contractor awarded same, maintaining an even pressure of 1½ inches throughout the building as closely as can be obtained. This pressure regulator to be supplied, maintained and cleaned by the Contractor without expense to The City, but shall be inspected and tested by the Inspector detailed by the Commissioner or Engineer so to do. The size of the pressure regulator shall conform to the size of the riser-pipe. It shall be attached to the pipes, but not on the gas meter, and the Contractor shall furnish all the necessary fittings to make connections, and do all the work of installing the machines in a first-class manner, including the removal of stoppages in house pipes where necessary, adjust tips and burners
8040 (other than mantle lights) and set the machines in such a
manner as to give the best results under existing conditions, as specified, without curtailing light, and if necessary, in the opinion of the Engineer, the Contractor shall furnish the ordinary lava tip burners and checks.

All the work shall be subject to the approval of the Engineer, and the regulators shall be of the type known as Mercury Float Governors of the improved type approved by the Engineer. The Contractor for these regulators shall maintain same for one year; such maintenance shall include inspecting each regulator monthly, reporting to the Engineer each month, readjusting regulator in case of any change, and shall include furnishing such new tips, checks, or burners as may be deemed necessary by the Engineer, and shall also include the pumping out of house pipes when necessary.

24. All gas meters used for supply of gas to public buildings or public places in The City of New York, may be tested by the Engineer whenever the Commissioner may so order, and the Contractor shall replace same during test, if necessary, free of charge. If meter be found defective, same shall also be repaired or replaced by the Contractor without further charge to The City.

Tips for open flame gas burners used in public buildings, and other burning appliances, shall be approved by the Engineer before being installed, and no Contractor shall have the right to furnish such tips or burners to lamps in any public building without first obtaining such approval. The Engineer may test such tips or burning appliances whenever he deems it advisable in order to determine their consumption of illuminant, and in case they shall con-
8041 sume an excessive amount of same, he may order new ones put in their place by the Contractor who furnished them during the term of this contract.

25. In order that bills, when rendered to The City by the Contractor, shall agree so far as it is possible, with the meter readings as obtained by the City Inspectors, it will be required that on proper notification from The City, the Inspectors of the company will read the various meters on the same day as they are read by The City's Inspectors.

No meters shall be installed, changed or replaced in any public building, except in case of emergency, unless due notice shall be given the Bureau of Lamps and Gas twenty-four hours before such new meter is installed or change is made, so that an Inspector from said Bureau can be present and check the readings of the meters.

26. If the requirements of The City, under this contract, includes any lamps with which the pipes or conductors of the Contractor were not connected at the time of the making, such estimate or bid, thirty days from the date of the execution of this agreement, and such further time, not exceeding thirty days, as may be deemed reasonable by the Commissioner, will be allowed the Contractor in which to supply and connect service-pipes, bends, reducers, and stand-pipes, as specified above, to such lamps and all such connections, material and labor shall be furnished by the Contractor without other expense to The City; provided that the Contractor has or shall procure a consent, grant or franchise from the proper municipal or other authority, authorizing the laying of gas mains or conductors
8042 in the streets or parts of streets and public places in which the said lamps are located; and that no openings shall be made in the pavements for the purpose of such connections prior to the first day of March, 1904, nor until permits shall have been obtained from the Commissioner, authorizing such openings.

27. No payment on account of any such lamps will be made to

the Contractor for the time so allowed, nor until the same shall have been connected with the mains or conductors of the Contractor, nor will payment be made on account of supply of gas or other illuminating material at any lamp except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

28. The Contractor shall indemnify and save The City harmless from any and all claims and suits for damages by reason of any infringement of patent rights in the use under this contract of any illuminating material or any burning appliances connected therewith, or for repairs or supplies to lamps or lamp-posts.

29. The Contractor shall have the right to lay, subject to the provisions of the laws now in force, pipes or conductors at any time between March 1 and December 31 during the term of this contract, upon giving forty-eight hours' written notice to the Department, and subject to the approval of the Commissioner, of its intention to break up or open any street, avenue, or public place, or part thereof, or to remove any part of the pavement thereof, for the purpose of 8043 laying, subject to the provisions of statute, or repairing the pipes or conductors, to conduct the said gas or other illuminating material. And the Contractor shall, whenever it shall break up or open any street, avenue, or public place, replace the earth which may be removed in so doing, before sunset of the day on which such opening shall be made (the earth to be thoroughly tamped as the same is thrown into the trench or excavation), and replace the pavement, and repave and repair the same, in such reasonable time and manner as the Borough President may direct, and in as good and firm a manner as such street, avenue, or public place, or part thereof, was in before being broken up for the purpose aforesaid, and shall, from time to time, as required by the Borough President, readjust and fill and finish the same as long as, in the opinion of the Borough President, may be necessary on account of the settling of the earth or pavement caused by the opening. Also, all such repairs as shall at any time become necessary to said pavement by reason of laying the said pipe or conductors, shall be made and done by the Contractor, at his own cost and expense. And the Contractor shall furnish to the Commissioner a report weekly, stating therein the location of each and every opening made in the pavements during the preceding week. And no street, avenue, or public place, or part thereof, shall or will be broken up or opened, or the pavement thereof removed, or be again filled up or repaired, except under the direction and supervision of a competent person to be appointed by the Commissioner; but the party of the first part shall not be called upon to pay any sum, to any party or parties, for the inspection of any pavement which may have been removed and repaved by the 8044 Contractor, but the expense of such inspection shall be paid by the Contractor when required by the Commissioner. The Contractor shall and will so conduct the manufacture and manufactories of gas, or station for other illuminating material, as not to create a nuisance, and it will in all things be governed by such reasonable rules and regulations as the Borough President may from time to time establish or direct, relative to the opening of such streets,

avenues, or public places, or parts thereof, and laying down the pipes and conductors, and for lighting, cleaning and protecting the lamps and street signs aforesaid.

30. In order that the Commissioner and his assistants may determine whether the gas-lamps are lighted and extinguished in accordance with the time-table hereinbefore mentioned, the Contractor shall furnish to the Commissioner a map or maps showing the lamps in the district of each lamplighter, and designating the particular lamp at which each lighter commences to light, and also the lamp at which he completes the lighting; and in extinguishing the lamps the lamplighter shall begin and finish at the same lamps as are designated for beginning and finishing the lighting; and the Contractor shall notify the Commissioner of any change which may be made in the beginning and finishing points on any lamp district during the term of this contract. The Contractor shall furnish to the Commissioner a report weekly, stating therein the number and location of all new lamps fitted up and lighted, of lamp-posts removed and reset, and of lamps discontinued during the preceding week. Nothing herein contained shall be construed or deemed as granting to the Contractor any sole or exclusive right or privilege, or
8045 as preventing the party of the first part from granting the like
privileges as are hereby given to the Contractor to any other company, persons or parties whatsoever, or as preventing any person or persons, residing in or adjacent, or near to any of the said streets, avenues, or public places, or parts thereof, from erecting, in or upon his or their own premises, any building or apparatus, to light with gas his or their own house, store, manufactory or premises.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,

NEW YORK................1904.

The above table will show the time for lighting and extinguishing the public lamps during the year 1904. See specifications, paragraph 1.

JOHN T. OAKLEY,
Commissioner of Water Supply, Gas and Electricity.

NOTE—For 1904, a leap year, add 11 hours and 55 minutes to total for February 29.

8048 Endorsed: The City of New York, Department of Water Supply, Gas and Electricity—Contract for Furnishing Gas and other Illuminating Material for, and for Lighting, Extinguishing, Cleaning, Repairing and Maintaining the Public Lamps (and Supplying Gas, etc., for New Lamps when required), and for making certain Repairs to Lamp-posts, and for Furnishing Burners and Appliances of Improved System of Lighting on Streets, Public Buildings, Avenues, Piers, Parks and Public Places in the Borough of The Bronx, in The City of New York for the term of One Year, from March 16, 1904, to March 15, 1905—Welsbach Street Lighting Co. of America, Contractor—Dated July 1st, 1904—Assigned to ....—Approved as to form, John L. O'Brien, Acting Corporation Counsel—Dated ....

8049 CITY'S EXHIBIT 6.

No. ....

Name of Bidder—Consolidated Gas Co. of New York.
Address—No. 4 Irving Place, N. Y. City.

THE CITY OF NEW YORK.

Department of

WATER SUPPLY, GAS AND ELECTRICITY.

Borough of Manhattan.

1906.

PROPOSALS FOR BIDS OR ESTIMATES.

For the Furnishing, Maintaining and Repairing of Gas Lamps, Etc.

1. Sealed Bids or Estimates will be received at the office of the Department of Water Supply, Gas and Electricity, Room 1536, No. 21 Park Row, in the City of New York, until 2 o'clock P. M., on Thursday, February 1st, 1906.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining the same, and also Lamps Belonging to the City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks, and Public Places, in the Borough of Manhattan, in The City of New York, for the Term of this Contract, from Feb. 1st, 1906, to December 31, 1906, both inclusive.

8050 2. The amount of security required is FIFTY (50) PER CENTUM of the total amount of bid or estimate.

3. The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title given above, of the work for which the estimate is made, with his or their name or names and the date of presentation to the head of the Department, at the said office, on or before the date and hour above named, at which time and place the estimates received will be publicly opened by the head of the Department and read, and the award of the contract made according to law as soon thereafter as practicable.

4. In the whole Borough of Manhattan the total number of ordi-

nary gas lamps now burning is about ....; the total number of Welsbach gas lamps now burning is about ....; but the Commissioner of Water Supply, Gas and Electricity reserves the right to designate the location and number of the lamps of each kind as to districts, streets, avenues, parks and public places or parts thereof. Bidders must satisfy themselves by a personal examination of the number and kind of lamps required in each Borough, as numbers given above must be taken only as a close approximation of the number of lamps that may be required.

5. Bidders are required to state in their estimates the districts or several streets, avenues, parks and places, or parts of streets, avenues, parks and places in which they propose to perform the requirements herein contained, giving also the number of lamps they propose to supply.

8051 5*a*. The number, kind and location of lamps to be furnished under the contract to be awarded and entered into under this proposal shall be determined and prescribed by the Commissioner.

6. The burners for open flame gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three (3) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches. The burners for mantle gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three and one-half (3½) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches.

7. For the information of the bidder, it is stated that the gas furnished will have an illuminating power of not less than twenty-two candle power when tested bv photometric test, at the Photometric Stations now established or to be established in the City. The lamps and burners will be of such a kind and construction that when tested, under, the same conditions as exist in service on the street, by photometric test on horizontal measurement, they shall give, the glass globe esclosing same having been removed, at least twelve (12) candle power in case of open flame lamps, and at least sixty (60) candle power in the case of mantle lamps.

8. Governors will be required to be furnished by the Contractor for the furnishing, maintaining and repairing of mantle gas lamps. Such governors will be placed on each lamp as will govern the maximum consumption of the lamp, so that it shall not consume more than three and one-half (3½) cubic feet of gas per hour, unless otherwise ordered by the Commissioner. These governors and the gas burners shall be of such kind and selected in such a manner as is set forth in the specifications. Checks or regulators 8052 shall be placed upon the open flame lamps by the Contractor furnishing the lanterns, cocks, tubes, burners and so on, and they shall be of such a kind as to govern the maximum consumption of these lamps so that they will not consume more than three (3) cubic feet of gas per hour at one and a half (1½) inches pressure.

9. For the information of the bidders on this contract, it is stated that as soon as possible the Department will meter a certain number

of the public gas lamps within the districts of each of the Contractors furnishing gas, in order to establish the actual consumption of the gas lamps of the different types as mentioned. This will be done approximately by attaching a standard meter to about one in ten of the lamp-posts for a sufficient number of hours or nights to establish the average consumption of the lamps, and the quantity so obtained will be the consumption of gas upon which the City will pay. The pressure will also be taken, if necessary, at a point as closely as possible to the metered lamp, in order to confirm this consumption. Ample facilities and notice will be given the Contractors so they can confirm and check these tests, in order to arrive at as fair a conclusion as is possible under the circumstances, and the test will be amplified, if necessary, until results are obtained which, in the opinion of the Engineer, are fair and reasonable to all concerned.

10. In case there are two Contractors—one for the supply of gas and one for the supply of lamp, the maintenance, repair, lighting, cleaning and extinguishing of same—and dispute shall arise which will involve the illuminating power of gas, or lamp or the quantity, quality or pressure of gas supplied by the Contractor for the
8053 supply of gas, appeal must at once be made to the Engineer,
who, with the Chief Gas Inspector of The City, will, by photometric test, by metering or by registry of pressure, or other tests that may be required, decide on the issue of the dispute, and their decision shall be received by both parties as final. Both Contractors may be represented at any such test and present such statements, if required, as will tend to a settlement of the question in dispute.

11. Bidders will state in their bids or estimates a price per lamp for the term of this contract, for maintaining, repairing and connecting ready for use the public lamps in the Borough of Manhattan, and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lantern and lamp-irons, the painting of cross-heads, the furnishing, replacing and repairing of the cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-iron and lanterns now owned or hereafter acquired by The City of New York, will be furnished to the Contractor by the said City, and put in place by him as required for the amount of the bid.

11*a*. A price for furnishing, maintaining, repairing and connecting ready for use, the public lamps in the Borough of Manhattan, and for other fixtures or appliances for illuminating material for each open flame gas lamp, including lighting, cleaning, extinguishing, reglazing and painting of lanterns, lamp-irons and cross-heads, the furnishing, replacing and repairing of the cocks, tubes, burner appliances, lanterns, lamp-irons and cross-heads, all the above, for each lamp, at each lamp, to be furnished by the Contractor and erected by him as required for the term of this Contract for the amount of the bid.

8054 The attention of bidders is called to the fact only one of the two proposals given in clauses 11 and 11*a* will be accepted.

12. A price for furnishing, maintaining, repairing and connecting ready for use, lanterns complete, including cross-heads, lamp-irons and improved burner appliances and incandescent mantles for gas burners to produce a light of not less than sixty (60) candle power each, at each lamp, in the Borough of Manhattan, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, replacing and repairing of the mantles, cocks and burning appliances, the replacing of cross-heads, lamp-irons and lanterns, all the above for each lamp at each lamp to be furnished by the Contractor and erected by him as required for the term of this contract for the amount of the bid.

12*a*. A price for the erecting of a lamp-post furnished by The City of New York, replacing a lamp-post now owned by other parties.

13. For the information of bidders on this contract, it is stated that all lamp-posts for use with gas lanterns to be erected in new locations will be provided for the term of this contract by The City of New York, and erected and maintained by the Contractor for supply of gas.

13*a*. That in the Boroughs of Manhattan, The Bronx and Brooklyn and part of Queens the lamp-posts for gas lamps are almost entirely owned by The City, and The City will continue to supply same. In these, or other boroughs where any lamp-posts used for gas lighting, either mantle or open flame, may belong to this Con-
tractor or to the Contractor for supply of gas, the right is
8055 reserved to The City of New York to substitute its own lamp-
posts for these if it so desires, to be maintained, by the Con-
tractor for the supply of gas, at The City's expense.

13*b*. That where one contractor shall replace the lamp-posts owned or supplied by another, on account of a change in the contractor from the previous successful bidder to the successful bidder on this contract, then the first erection of lamp-posts by the successful bidder, lamp-post for lamp-post, replacing those that may then exist, shall be made for the price given in the bid for the erection of lamp-post. In this case The City may exercise its right to supply its own lamp-posts, and if so they will be maintained, by the Contractor for the supply of gas, at the expense of The City.

13*c*. That the cross-heads, lamp-irons and lamps used for open flame gas lamps in the Boroughs of Manhattan, The Bronx and Brooklyn are almost entirely owned by The City of New York, and The City will continue to supply same. In these or other boroughs where open flame gas lamps may belong to the Contractor, he shall furnish same, including all repairs and renewals, for the amount of the bid.

13*d*. That in all boroughs, the above conditions and reservations as to the furnishing, repairing, replacing and painting of lamp-posts, cross-heads, lamp-irons and lanterns in the above clauses, No. 11, No. 11*a*, No. 12, No. 13, No. 13*a*, No. 13*b*, and No. 13*c* shall apply as the ownership of said lamp-posts, cross-heads, lamp-irons and lanterns shall appear, but nothing in the above shall be construed that The City of New York obligates itself to supply new lamp-posts in place of those now erected, but not owned by it, unless it so desires, except under clause No. 13 .

8056 14. Bidders who may bid on furnishing gas lamps, etc., on the streets, and for connecting, repairing and maintaining the same, furnishing all the items of supplies and repairs required, which are asked for in these estimates, *may also bid* on any other supplies, repairs, operations and maintenances as needed in the lighting of The City, as asked for by The City in other proposals, and reference is herewith made to the proposals for the supply of gas and to the proposals for furnishing naphtha lamps. Bids, however, must be rendered separately for each item as called for, and for each borough. The Contractor supplying gas must erect all new gas lamp-posts, except as noted in clauses 12*a* and 13*b*, and must reset such gas lamp-posts, when and where necessary, making all connections, and must repair all gas lamp-posts when ordered, particularly so far as such repairs shall relate to service and stand pipes. Contractor supplying lamps must hold The City harmless for any failure on the part of the persons supplying gas to properly supply same.

15. Should any alteration, change, replacement or any attachment be required to the whole or any portion of the lamps, except as mentioned in these proposals and specifications, for which estimates are made, in consequence of the use of improved appliances for the gas lighting under this contract, then such alteration shall be done and such attachment placed on the posts without expense to The City.

16. The right is reserved to the Commissioner to determine and designate in any locality, at any time after the estimates are opened, what illuminating material shall be used in the public lamps, 8057 or any number of them, in such locality, during the term of this contract; also, upon such determination, to decline any estimate, or part thereof, for lighting such locality with illuminating material other than that so determined upon; also to decline all estimates for any particular locality, or all localities, if deemed for the best interests of The City so to do.

17. If the estimate of any bidder shall include any lamps for any lamp-posts with which the pipes or conductors of the Contractor for supply of gas are not connected at the time of the making of the bid, and a contract for furnishing, maintaining and repairing the lamps shall be awarded to such bidder, in that case THIRTY DAYS from the date of the execution of such contract, and such further time as may be deemed reasonable by the Commissioner, shall be allowed to such bidder in which to supply, equip and connect such lamps on and to such lamp-posts, and all such connections shall be made by the Contractor without expense to The City.

18. No payment to such bidder, on account of any such lamps, will be made for the time so allowed, nor until the same shall have been connected with the mains or conductors of the Contractor supplying gas, nor except for the time during which all the requirements in this proposal and in the contract, including specifications, which shall be awarded and entered into under this proposal, shall have been fully performed.

19. No bid will be entertained unless the Commissioner shall be

satisfied that the party or parties bidding are possessed of sufficient plant to carry out the provisions of the contract.

20. The award of any and all contracts under this proposal, 8058 and all contracts entered into in pursuance of said proposal, will be subject and subordinate to the rights of all persons, parties or corporations under contracts or agreements (if there are any such) which are now binding and obligatory upon The City of New York.

21. The number of hours the gas lamps are to be kept burning during the contract is 3950 hours per year as per time-table attached.

22. Bidders will *write out* the total amount of their estimates in addition to inserting the same *in figures.*

23. The Commissioner reserves the right to reject any or all bids or estimates if the Board of Estimate and Apportionment shall determine it is for the public interest of The City so to do.

24. Each bid or estimate shall contain the name and place of residence of the persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making a bid or estimate for the same purpose, and is in all respects fair, and without collusion or fraud; and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be, or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true; or, if the bidder is a corporation, by the oath, in writing, of an officer of such corporation, with knowledge of the facts and 8059 having authority to make such sworn statement.

25. Each bid or estimate shall be accompanied by the consent, in writing, of two householders and freeholders in The City of New York or of a guaranty or surety company, duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

26. No bid or estimate will be considered unless accompanied by money or a certified check drawn on a National or State Bank located in The City of New York, to the order of the Comptroller, to the amount of five per centum of the amount of the bond required, as provided, in section 420 of The Greater New York Charter.

27. For particulars as to the repairs or the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications and maps on file in the office of the Chief Engineer of Light and Power Department of Water Supply, Gas and Electricity.

28. Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioner, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by

the Corporation Counsel, can be obtained upon application therefore at the office of the Chief Engineer of Light and Power of the Department of Water Supply, Gas and Electricity, Room 1319, No. 21 Park Row, The City of New York.

The City of New York, January 20, 1906.

WM. B. ELLISON,
Commissioner of Water Supply, Gas and Electricity.

14613

JUNE 29, 1906.

Hon. Wm. B. Ellison, Commissioner of Water Supply, Gas & Electricity.

SIR:

Please note that the Comptroller's certificate has been endorsed upon May 14, '06, Contract of Consolidated Gas Co. for Gas Manhattan this date, and it is now a valid contract.

By order of the Comptroller.

N. TAYLOR PHILLIPS,
Deputy Comptroller.

THE CITY OF NEW YORK,

DEPARTMENT OF

WATER SUPPLY, GAS AND ELECTRICITY,

BOROUGH OF MANHATTAN.

CONTRACT AND SPECIFICATIONS.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining the same and also Lamps belonging to The City, Supplying New Lamps when required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks and Public Places in the Borough of Manhattan, in The City of New York, for the term of this Contract, from February 1st, 1906, to December 31, 1906, both inclusive, as per Specifications and Proposals herein contained or hereto attached. 8061

This Agreement, made and entered into this 14th day of May, in the year one thousand nine hundred and six, by and between The City of New York, by the Commissioner of Water Supply, Gas and

Electricity, party of the first part and Consolidated Gas Co. of New York, Contractor, party of the second part, pursuant to the provisions of The Greater New York Charter.

WITNESSETH, That the parties to these presents, each in consideration of the agreements on the part of the other, herein contained, have mutually agreed and hereby mutually agree, the party of the first part for itself and its successors, and the party of the second part for itself and its heirs, successors and assigns, as follows:

(*A*) Wherever in this contract the words "The City," or "The Commissioner," or a pronoun in the place of either of them is used, they shall mean and intend the party of the first part or the Commissioner of Water Supply, Gas and Electricity of the City of New York; wherever the words "Borough President" are used in this contract they shall mean and intend the President of the Borough above mentioned; wherever in this contract the words "The Department," or a pronoun in place of them is used, they shall mean and intend the Department of Water Supply, Gas and Electricity in The City of New York.

(*B*) Wherever in this contract the word "Contractor" or pronoun
in the place of it, is used, the same shall mean and intend the
8062 party of the second part to this agreement.

(*C*) Whenever the word "Engineer" is used in this contract, it shall mean and be taken to mean and intend the Chief Engineer of Light and Power of the Department, or the Assistant Engineer, or other person or official, duly appointed or designated therefor, pursuant to The Greater New York Charter, as amended, by the Engineer, to inspect, test, examine and accept the supplies of lanterns, repairs or supplies, which are the subject of this contract, limited by the particular duties intrusted to him.

(*D*) The Contractor will furnish gas lamps and connect in place on the streets, etc., for the party of the first part, at the Contractor's own cost and expense, at the times and places and in the manner and under the conditions herein specified, and light, extinguish, clean, repair and maintain the said lamps and others owned by The City and supply new lamps when required, and furnish burners and appliances for improved system of lighting on the streets, avenues, parks and public places in the Borough of Manhattan in The City of New York, for the term of this contract from Feb. 1st, 1906, to December 31, 1906, both inclusive, and will accept as full compensation therefor the sum or price hereinafter named, which sums or prices are the amounts at which this contract was awarded to the Contractor at the public letting thereof. The said specifications, the proposal for bids or estimates, the bid or estimate and the bond required are and shall be a part of this contract.

(*E*) The Contractor will not ask, demand, sue for or recover
for any lanterns furnished, supplies delivered, repairs made,
8063 or work performed under this contract, any extra compensation beyond the amounts payable for the several classes of work and supplies herein enumerated, which shall be actually supplied at the price therefor, herein agreed upon and fixed.

(*F*) The Engineer shall inspect and test or have tested the lamps, governors, regulators, repairs and supplies furnished, and see that the same strictly correspond with the specifications hereinafter set forth, and the Engineer is hereby authorized and empowered to reject any of the said lamps, governors, regulators, repairs and supplies offered under this contract, for the reason that the same do not comply in quality, or quantity, or time or place of maintenance, with the specifications herein contained or hereto annexed.

(*G*) Whenever the Engineer shall be unable to act, in consequence of absence or other cause, then such assistant or other persons as shall be designated by the Commissioner shall perform all the duties and be vested with all the power herein given to the Engineer.

(*H*) To prevent all disputes and litigations, the Engineer shall, in all cases, determine the amount, quantity and quality of the lamps, supplies, repairs, and work, which are to be paid for under this contract, and he shall determine all questions in relation to said lamps, supplies, repairs and work, and he shall in all cases decide every question which may arise relative to the execution of this contract on the part of the Contractor, and his estimate and decision shall be final and conclusive.

(*I*) Any doubt as to the meaning of the contract, including the specifications, or any obscurity as to the wording of them, will 8064 be explained by the Engineer, and all directions and explanations required, alluded to, or necessary to complete any of the provisions of these specifications, and give them due effect, will be given by the Engineer.

(*J*) The Contractor shall commence the delivery of the lamps and other apparatus called for by this contract, and the lighting of the lamps and other services, supplies and repairs called for under this contract, as soon as he shall be ordered so to do by the Commissioner; he will carry on such contract as required from time to time, with such force and in such manner and order, and at such times and seasons, as may be directed by the Commisioner, and that he will fully and entirely perform this contract on his part on the 31st day of December, 190 .

(*K*) In case any lamp shall fail to burn continuously and give the candle power required throughout each and every night, during the term of this contract, during the hours specified in the timetable hereto annexed, or such hours as the Commissioner may from time to time prescribe, and such failure shall not be due to any act or omission of The City, its officers, agents of employees, or any act or omission of the person or corporation whose duty it shall be to supply the gas, etc., the Contractor shall and will pay to The City a sum of money equal to the charge to The City for one night's burning, if the lamp fails to burn continuously, and one-half of this amount if the lamp fails to give the candle power required for each and every night or part thereof, that such failure shall continue, which said sum, in view of the difficulty of ascertaining the loss which The City will suffer by reason of such failure, is hereby agreed, fixed and determined by the parties hereto, as the liquidated damages that 8065 The City will suffer by reason of such failure, and not as a penalty, and The City shall and may deduct and retain the amount of such liquidation damages out of any moneys which may be due or become due to the Contractor under this agreement.

(*L*) Neither an extension of time, for any reason, beyond the date fixed for the delivery of the lanterns, repairs and supplies, nor the delivery and acceptance of any such delivery of lanterns, repairs and supplies, called for by this contract, shall be deemed to be a waiver by the Commissioner of the right to abrogate this contract for abandonment or delay in the manner herein provided.

(*M*) The Contractor will employ only competent, skilful and faithful men to do the work, and he further agrees that whenever the Commissioner shall inform him in writing that any man engaged in the work is, in his opinion, incompetent or unfaithful, he will discharge him from the work and will not again employ him upon the work.

(*N*) The Contractor shall receive the following prices as full compensation for furnishing and maintaining the lanterns, apparatus and accessories, and performing the services herein provided to be performed by the Contractor, viz.:

OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CITY.

I. For maintaining, repairing and connecting ready for use the Public Lamps and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-irons and lanterns now owned or hereafter acquired by The City will be furnished to the Contractor and put in place by him for the amount of this bid, for the term of this contract, in the Borough of Manhattan, to wit: 8066

For furnishing all the above for each lamp, at each lamp, for 258 in number of same, the sum of Fifty cents (50c.) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for Lamps in excess in number of same, the sum of Fifty cents (50c.) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for..............in number of same, the sum of.............. Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for..............in number of same, the sum of.............. Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for..............in number of same, the sum of.............. Dollars ($......) per lamp, per month.

OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

II. For furnishing, maintaining, repairing and connecting ready for use the public lamps, and for other fixtures and appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the 8067 furnishing, repairing and replacing of cocks, tubes, burners, burning appliances, lanterns, lamp-irons and cross-heads thereto, all the above for each lamp to be furnished by the Contractor and erected by him as required, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

MANTLE GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

III. For furnishing, maintaining, repairing and connecting, ready for use, each mantle gas lamp complete with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods, regulating apparatus, cross-heads and lamp-irons, necessary for each lamp to produce a light of not less than sixty (60) candle power, and also operating it. 8068 The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto. All the above for each lamp to be furnished by the Contractor and erected by him as required for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for all such Lamps in the Borough of Manhattan, stated to be 16,747, in number of same, the sum of One 00/100 dollar ($1.00) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for Lamps in excess, in number of same, the sum of One 00/100 dollar ($1.00) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp, per month.

IV. For the erection of each new lamp-post, according to the specifications, furnished by The City of New York, replacing one not now owned by it, with cross-heads if required, all in place, including painting, the sum of Eight 00/100 Dollars ($8.00).

8069 (*O*) No payment will be made or allowed on account of supply of lanterns, services, repairs or supplies for any lamp, except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

(*P*) In case the Contractor shall be unable at any time during the continuance of this contract to furnish lamps or to light any of the lamps as specified in this agreement, then the Contractor shall give immediate notice to the Commissioner of his inability to furnish said lamps or to light such lamps, stating the streets in which the lamps cannot be furnished or lighted and the cause thereof. And in case the use of any of the lamps shall be suspended or discontinued, and other lamps shall be used in consequence of such suspension or discontinuance, then the gas lamps which may have been suspended, or discontinued, shall not be relighted except pursuant to an order for such lighting by the Commissioner.

(*Q*) The Contractor shall indemnify and save harmless The City, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits based on or arising out of the alleged infringement of any patent or patent right, and against, and from all damages and costs to which they or any of them may be put by reason of any such alleged infringement or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under this contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the Con- 8070 tractor or his agents or servants. So much of the moneys due to the Contractor under and by virtue of this agreement, as shall or may be deemed necessary by the Commissioner, shall or may be retained by The City until all such suits, actions and claims shall have been settled, and evidence to that effect furnished to the satisfaction of the Commissioner.

(*R*) If the work to be done under this contract shall be abandoned by the Contractor, or if this contract shall be assigned, or the

work sublet by him, otherwise than is herein specified, or if at any time the Engineer shall be of the opinion, and shall so certify in writing to the Commissioner that the performance of the contract is unnecessarily or unreasonably delayed, or that the Contractor is wilfully violating any of the conditions or covenants of this contract, or specifications, or is executing the same in bad faith, or not in accordance with the terms thereof, or if the work be not fully completed within the time named in this contract for its completion, the Commissioner shall notify the Contractor to discontinue all work, or any part thereof, under this contract, by a written notice to be served upon the Contractor, either personally or by leaving said notice at his residence, or with his agent in charge of the work, or with any employee found on the work, and thereupon the Contractor shall discontinue the work, or such part thereof, and the Commissioner shall thereupon have the power to contract for the completion of the contract in the manner prescribed by law, or to place such and so many persons as he may deem advisable, by contract or otherwise, to work at and complete the work herein described, or such part thereof, and to use such materials as he may find upon the line of the work, and to procure other material
8071 for the completion of the same, and to charge the expense of said labor and materials to the Contractor; and the expense so charged shall be deducted and paid by The City out of such moneys as may be due or may at any time thereafter grow due to the Contractor under and by virtue of this contract, or any part thereof. And in case such expense shall exceed the amount which would have been payable under the contract if the same had been completed by the Contractor, he shall — the amount of such excess to The City; and when any particular part of the work is being carried on by the Commissioner, by contract or otherwise, under the provisions of this clause of the contract, the Contractor shall continue the remainder of the work in conformity with the terms of this contract, and in such manner as in nowise to hinder or interfere with the persons or workmen employed, as above provided by the Commissioner, by contract or otherwise, to do any part of the work, or to complete the same under the provisions of this article of the contract.

(*S*) If the Contractor shall not well and truly observe, perform, fulfill and keep all and singular the covenants and conditions hereinbefore mentioned and contained, on its part and behalf to be observed, performed, fulfilled and kept according to the true intent and meaning of these presents, then and in that case the Commissioner may and shall have the power, on the part of the said party of the first part, to declare this contract annulled and vacated, and thereupon it shall become and be thenceforth null and void.

(*T*) On or after the first day of each and every month during the term of this contract, the Contractor shall furnish proof to the satisfaction of the Commissioner, that he has fully performed and
8072 fulfilled this contract in all particulars and conditions as aforesaid during the preceding month, and particularly that he has furnished the lanterns, supplies and repairs as herein specified,

and that all lanterns have been cleaned each day of said month, and also that the gas burners have been lighted and the lanterns have each given an illuminating power as specified for each type, as required by this contract, during all the time that the lamps were required to be kept lighted, and also proof to the satisfaction of the Commissioner as to all extinguishments of lamps due to non-supply of gas or defective lanterns, including the location of each lamp extinguished, the date and length of extinguishment in each case, whereupon the Commissioner shall certify the fact, and in his certificate state the amount to which the Contractor shall be entitled for all the duties performed by it during such preceding month, and annex thereto a requisition upon the Comptroller to pay the Contractor therefor the sum to which he shall be so entitled; and without such certificate and requisition the Contractor shall not be or become entitled to any payment under and in respect to the terms of this contract, or for the light, lamps and accessories or in respect to services which were required to be done, or should have been done, in such preceding month. On the requisitions above provided being presented to the Comptroller of The City, he shall, within thirty days thereafter, pay to the Contractor the amount thereof in lawful money.

(*U*) The City shall not, nor shall any department or officer thereof be precluded or estopped by any return or certificate made or given by the Commissioner, any Engineer or other officer, agent or appointee of The City under any provision of this agreement from at any time (either before or after the final completion and 8073 acceptance of the work and payment therefor pursuant to any such return or certificate) showing the true and correct amount and character of the work done and materials furnished by the Contractor, or any other person under this agreement, or from showing at any time that any such return or certificate is untrue and incorrect, or improperly made in any particular, or that the work and materials, or any part thereof, do not in fact conform to the specifications; and The City shall not be precluded or estopped, notwithstanding an*d* such return or certificate and payment in accordance therewith, from demanding and recovering from the Contractor such damages as it may sustain by reason of his failure to comply with the specifications.

(*V*) This contract shall not be binding or of any force unless the Comptroller of The City shall indorse hereon his certificate that there remains unexpended or unapplied, as provided in The Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this contract, as certified by the officers making the same.

(*W*) The residence or place of business given in the bid or estimate upon which this contract is founded, is hereby designated as the place where all notices, letters and other communications shall be served, mailed or delivered. Any notice, letter or other communication addressed to the Contractor and delivered at the above-named place, or deposited in a post-paid wrapper in any post-office box regularly maintained by the post-office shall be deemed sufficient service thereof upon the Contractor. The place named may be

changed at any time by an instrument, in writing, executed
8074 and acknowledged by the Contractor and delivered to the Commissioner. Nothing herein contained shall be deemed to preclude or render inoperative service of any notice, letter or other communication upon the Contractor personally.

(*X*) This contract shall be subject and subordinate to the rights, claims and demands of all persons, parties or corporations under contracts or agreements (if there are any such) which are valid and lawful charges and liabilities against The City of New York, and which the law requires shall be defrayed and answered unto by The City.

(*Y*) The Contractor will give his personal attention constantly to the faithful prosecution of the work; he will not assign, transfer, convey, sublet or otherwise dispose of this contract, or his right, title or interest in or to the same or any part hereof, without the previous consent in writing of the Commissioner indorsed hereon or hereto attached; and he will not assign, by power of attorney or otherwise, any of the moneys to become due and payable under this contract, unless by and with the like consent signified in like manner. If the Contractor shall, without such previous written consent, assign, transfer, convey, sublet or otherwise dispose of this contract, or of his right, title or interest therein, or any of the money to become due under this contract, to any other person, company or other corporation, this contract may, at the option of the Commissioner, be revoked and annulled and The City shall thereupon be relieved and discharged from any and all liability and obligations growing out of the same to the Contractor, and to his assignee or transferee; provided that nothing herein contained shall be construed to hinder, prevent or affect an assignment by the Contractor for the benefit of
8075 his creditors, made pursuant to the statutes of the State of New York; and no right under this contract, or to any money to become due hereunder shall be asserted against The City in law or in equity, by reason of any so-called assignment of this contract, or any part thereof, or of any moneys to grow due hereunder, unless authorized as aforesaid by the written consent of the Commissioner.

IN WITNESS WHEREOF, The Commissioner of Water Supply, Gas and Electricity has hereunto set his hand and seal on behalf of The City, and the Contractor has caused its corporate seal to be hereunto affixed and its President and Secretary hereto to set their hands, and the parties hereto have executed triplicate copies hereof, one of which is to remain with the Commissioner, one other to be filed with the Comptroller of The City, and the third to be delivered to the Contractor, the day and date herein first above written.

—— ——,
Notary Public or Commissioner of Deeds.

Know All Men by These Presents, THAT WE, Consolidated Gas Co. of New York and the United States Fidelity and Guaranty Company of The City of New York are held and firmly bound unto THE CITY OF NEW YORK, in the sum of Forty-seven Thousand DOLLARS, lawful money of the United States of America, to be paid to THE CITY OF NEW YORK, or to its certain attorneys, successors or assigns, for which payment, well and truly to be made, we bind ourselves, and our several and respective heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

Sealed with our seals. Dated this 14th day of May, in the year one thousand nine hundred and six.

WHEREAS, The above bounden Consolidated Gas Co. of New York by an instrument in writing, under its corporate seal duly attested, bearing even date with these presents, and one part whereof is hereunto annexed, has contracted with The City of New York to furnish the Lanterns, Maintenance, Operation, Repairs and
8078 Supplies to the Public Lamps of The City of New York, as in said contract will more fully and at large appear:

NOW, THEREFORE, The conditions of the above obligation are such, that if the said Consolidated Gas Co. of New York its successors or assigns, shall indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits and actions based on, or arising out of the alleged infringement of any patent or patent rights, and against and from all damages and costs to which they, or any of them, may be put by reason of any such alleged infringement, or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under said contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the said Consolidated Gas Co. of New York, its agents or servants, and if the said Consolidated Gas Co. of New York or its successors or assigns, shall well and truly, and in a good, sufficient and workmanlike manner, perform, fulfill, observe and keep the said contract, and each and every of the covenants, provisions, conditions and terms in said contract contained, or to be performed, fulfilled, observed and kept, then this obligation to be void; otherwise to remain in full force and virtue.

APPROPRIATION.

COMMISSIONER'S CERTIFICATE.

In conformity with the provisions of section 149 of The Greater New York Charter, it is hereby certified that the estimated cost of the work, materials and supplies required by the within contract, amounting to One Hundred and Eighty Six Thousand Six Hundred and Twenty-six Dollars ($186,626), is chargeable to the appropriation of the Department of Water Supply, Gas and Electricity, for the year 1906, entitled "Lamps and Lighting, Boroughs Manhattan and the Bronx for 1906."

..........................,
Commissioner of Water Supply, Gas and Electricity.

Dated January 20th, 1906.

Estimated Cost of Contract Made with the
CONSOLIDATED GAS COMPANY
For the Supply and Maintenance of Gas Lamps
in the
BOROUGH OF MANHATTAN.

From February 1, 1906 to December 31, 1906, both inclusive.

Number and kind of lights and price for 11 months.	Estimated amount of contract.	Estimated amount of surety.
218 Open Flame Gas Lamps at $5.50..........	$1,199	
16,732 Mantle Gas Lamps at $11.00...........	184,052	
Estimated Increase		
250 Mantle Gas Lamps at $11.00...........	1,375	
Total	$186,626	$46,650

8085 COMPTROLLER'S CERTIFICATE.

The City of New York,..............190 .

In pursuance of the provisions of section 149 of The Greater New York Charter, I hereby certify that there remains unapplied and unexpended a balance of the appropriation......................
....
....
applicable to this contract sufficient to pay the estimated expense of executing the same, viz.: $............

....
Comptroller.

SPECIFICATIONS.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining same, and also Lamps belonging to the City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks, and Public Places, in the Borough of Manhattan, in The City of New York, for the Term of this Contract, from Feb'y 1st, 1906, to December 31, 1906, both inclusive.

1. The lamps shall be lighted during such times as the public lamps throughout The City of New York may be required to be lighted by the regulations of the said party of the first part, in accord-

ance with a time-table hereto annexed, marked "A," and made a part of these specifications. The Commissioner may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted, and kept burning, at any other time or times during
the continuance of this contract; and the Contractor shall and
8086 will light the same, and continue them burning, in accord-
ance with any and every direction of the Commissioner to that effect. If the lamps are to be lighted by means of gas, then it is expressly agreed that all the lamps shall be lighted within one hour from the time fixed in the time-table as the time for beginning; and it is also expressly agreed that all the lamps shall be extinguished within fifty (50) minutes from the time fixed in the time-table as the time for the beginning of extinguishing. It is also agreed that they shall be lighted either by means of a torch or the use of a ladder, or by such other method as may be approved by the Engineer, and that the lamplighters will not be permitted to climb the lamp-posts for such a purpose.

2. The Commissioner shall have the right at any time to increase or diminish the number of lamps required to be lighted by the Contractor under this contract, and the right is reserved by the Commissioner, at any time during the continuance of this contract, to increase or diminish the number of hours during which the said lamps or any portion of them are to be kept burning, and to change said time-table in any particular. All lamps ordered discontinued shall be discontinued within forty-eight (48) hours after receipt of notice by Contractor, and no charge for same shall be made after the expiration of said forty-eight (48) hours.

3. For the information of bidders on this contract, it is stated that the illuminant to be furnished to the lanterns will be illuminating gas, such gas will have an illuminating power of not less than twenty-two candles, when tested at a distance of not less than one mile from the place of manufacture, on the improved form of the Bunsen
Photometer, by means of a Bray slit, Union No. 7 burner,
8087 consuming five cubic feet of gas per hour. The testing can-
dle shall be of sperm, of six to the pound, and consuming, as near as possible, one hundred and twenty grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than one hundred and fourteen or more than one hundred and twenty-six grains of spermaceti per hour. And as regards purity, gas shall be clean and of such quality that it will not deteriorate the mantles in the mantle lamps using same so as to shorten their length of life under similar conditions. Each one hundred (100) cubic feet of gas shall not contain more than five (5) grains of ammonia, nor more than twenty (20) grains of sulphur, nor more than a trace of sulphuretted hydrogen.

4. The City shall have the right at any time to test the quality and illuminating power of the lamps and light as furnished on the street, and for that purpose at least twenty-five (25) lamps may be selected from those in actual use in each district of each Borough, by the Engineer, in each and every calendar month, and their illuminating power shall be determined photometrically by the Chief

Gas Inspector or the Engineer, at The City's Laboratory, or elsewhere, at the discretion of the Engineer. The average candle-power of the lamp so tested shall constitute the basis for calculating the light furnished by the lamps burning during the month and for which the charge is made. The term "Lamp" herein means the burner complete with mantle and chimney, if any, as found set up for use in any of the streets or public places, and the test herein referred to shall be made with the uncolored clear glass globe which incloses the lamp on the street, removed, and under the same conditions of supply of gas as when in use on the street; the object of the test being to determine that the actual illuminating power, 8088 as contracted for, is given on the street by each lamp. Each lamp shall be tested with the gas furnished by the company furnishing gas to said lamp when in actual service on the street, the gas being first tested for candle-power.

The Contractor operating and maintaining the lamps tested shall replace said lamps whenever they are taken down for test, free of cost to The City, and shall always keep in stock ready for operation, at least 25 lamps of each class.

Twenty-two candle-power gas is herewith defined as gas which, when tested, at a distance of not less than one mile from the place of manufacture, on the improved form of Bunsen Photometer, by means of a Bray slit, Union No. 7 burner, consuming 5 cubic feet of gas per hour, shall give 22 candle-power; the testing candle shall be of sperm of six to the pound, and consuming, as near as possible, 120 grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than 114 or more than 126 grains of spermaceti per hour.

5. The burners for open flame gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three (3) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches.

The burners for mantle gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three and one-half (3½) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches.

The lamps and burners will be of such a kind and construction that when tested, under the same conditions as exist in service on the street, by photometric test by horizontal measurement, they shall give, the glass globe enclosing same having been removed, at 8089 least twelve (12) candle power in the case of open flame lamps and at least sixty (60) candle power in the case of mantle lamps.

The gas burners shall be of a capacity to burn at least the gas specified for each type of burners, and they shall be kept in good order and repair, and renewed whenever required by the Engineer. He shall also have same tested for consumption of gas when it is deemed necessary, and any burner not consuming the required amount of gas at the pressure specified shall be removed and replaced by this Contractor.

6. Governors will be furnished by the Contractor for the furnish-

ing, maintaining and repairing of mantle gas lamps. Such governors will be placed on each mantle lamp and will govern the maximum consumption of the lamps so that they will not consume more than three and one-half (3½) cubic feet of gas, within a variation of pressure of five (5) inches.

Checks or regulators shall be placed upon the open flame lamps by the Contractor furnishing the lanterns, cocks, tubes, burners and so on, and they shall be of such a kind as to govern the maximum consumption of these lamps so that they will not consume more than three (3) cubic feet of gas at one and one-half (1½) inches pressure.

The governors, checks or regulators must be of such a kind and construction as shall be satisfactory to the Contractor for the supply of gas, and to the Engineer, and if the two Contractors (the one for the supply of gas, and the one for the supply of lanterns) cannot agree on a governor satisfactory to both parties, the matter shall be submitted to the Chief Engineer of Light and Power, of the Department, for decision, and on his decision the governor selected shall be placed on each of the mantle lamps.

8090 7. As soon as possible the Department will meter a certain number of the Public Gas Lamps within the districts of each of the Contractors furnishing gas, in order to establish the actual consumption of the gas lamps of the different types as mentioned. This will be done approximately by attaching a standard meter to about one in ten of the lamp-posts for a sufficient number of hours or nights to establish the average consumption of the lamps, and the quantity so obtained will be the consumption of gas upon which the City will pay.

The pressure will also be taken, if necessary, at a point as closely as possible to the metered lamp, in order to check this consumption.

Ample facilities and notice will be given the Contractors so they can confirm and check these tests, in order to arrive at as fair a conclusion as is possible under the circumstances, and the test will be amplified, if necessary, until results are obtained which, in the opinion of the Engineer, are fair and reasonable to all concerned.

7*a*. The party of the first part shall have the right to require that burners of a greater consuming capacity than three or three and one-half cubic feet of gas as required per hour shall be furnished to the public gas-lamps, or any portion of them, at any time during the aforesaid term of this contract.

7*b*. Sample lamps, showing all burning appliances and connections for each type of mantle or other lamp to be furnished, shall be submitted when called for by the Commissioner to the Engineer for the purposes of comparison and test. Such sample lamp shall be complete in every respect, and shall accurately represent the burner which the Contractor uses on each type of lamp under this contract, and the sample lamp, like lamps in service, shall be so combined and adjusted as to secure, under all ordinary variations of pressure, a candle power of not less than sixty in the case of mantle lamps and twelve in the case of open flame lamps, the glass enclosing the lamp being removed during test. 8091

The Commissioner reserves the right to reject any bid should the sample lamp submitted be not well made or should the tests on same not be satisfactory to the Engineer and so certified by him to the Commissioner.

8. Incandescent mantles for either gas or naphtha lamps when supplied for the lamps now using same, or for lamps which may be hereafter specified by the Commissioner, shall be of the very best quality, capable of producing and maintaining under the conditions of this contract not less than 60 candle-power. Whenever the mantles become smoked or deteriorated to such an extent that at least 60 candle power is not obtained, they must be replaced by new mantles by the Contractor. The Commissioner reserves the right to have the lamps and the character of mantles furnished, tested, basing test on the same conditions as those under which they are required to burn on the streets, except that the glass globe enclosing the lamp be removed, and to reject any lamps and mantles furnished that do not comply with the above requirements as to candle power. Anti-vibrators for lamps, using incandescent mantles, should be furnished with each lamp, and samples of same should be submitted to the Engineer for approval with the sample of lamp furnished him as mentioned elsewhere.

9. The Borough President or the Commissioner shall have the right at any time to place signs designating the names of the streets on any lamp or lamp-posts situated on the street corners of any street to be lighted under this contract without further expense to 8092 The City, whether the said lamp or lamp-posts shall belong to The City or not, but such sign shall not be put on in such a way as to interfere with the operation, repair or care of the lamp or lamp-post or to interfere with the light from the lamp.

If necessary, to prevent interference with the lighting, the Engineer may order that certain lamps of the older type of mantle lamps, now existing on certain street corners, shall be changed to a newer type of lamp, in which this interference does not arise.

Such glass or other street signs as are at present properly in place upon the lamps or lamp-posts shall be retained in their proper places and position.

All the glass or the globes of the lamps and street signs are to be of such a kind and kept in such a cleanly condition that not more than ten per cent. (10%) of the light of the lamps shall be absorbed or obstructed by the uncolored glass; and the lamps and street signs shall all be cleaned daily; and in each of these cleanings, all the glass of the lanterns, as well as the glass of the street signs, shall be thoroughly cleaned both on the inside and on the outside, and all dust and dirt shall be brushed from the frames.

10. The lamps are to be repaired and reglazed within twenty-four hours after any portion of the same shall be broken, and all the work or material for either of said purposes is to be furnished by the Contractor, without cost to The City.

Stained glass of a ruby color of such tint and arranged in a manner approved of by the Commissioner shall be placed on the fire alarm signal lamps, open flame type, and shall also be required

in the tops of the open flame lanterns nearest the several fire
8093 alarm signal boxes and in the tops of the glass lanterns on the
street corner nearest said boxes. And in case any of said stained glass should be broken after being placed in the lamps, then the Contractor shall furnish and replace the same, except in the Boroughs of Manhattan and The Bronx, where mantle lamps are used for fire alarm lanterns, the glass will be provided by The City and put in place by Contractor without further cost to The City.

11. The cocks, tubes, tips, mantles, chimneys, globes, burners and checks which may become worn out or useless, or which, in the opinion of the Engineer are worn out or useless, shall be immediately replaced by the Contractor, at his own cost and expense.

12. The open flame and mantle gas lanterns, lamp-irons and cross-heads shall be painted at least once a year with one heavy coat of best paint, ground in oil in such a manner and of such a color as shall be satisfactory to the Commissioner.

Fire-alarm lanterns shall be painted as specified above. All the material shall be of the best quality, and prepared so as to present a gloss finish. While painting the lanterns care must be taken that the glass shall not be daubed or smeared with paint. All the painting is to be completed by the first day of July next, and the Commissioner is to be notified when and where the painting is to be commenced.

13. New gas lanterns are to be fitted up on lamp-posts on any street, avenue, park or public place, wherever the same may be required by the Commissioner.

New lamp-posts, when properly equipped, erected and connected
for supplying gas by the Contractor for such supply, will be
8094 turned over to the Contractor for the maintenance of burning
appliances and lamps, and the latter shall erect and connect on each new lamp-post immediately such burning appliances and lamps as may be required under this contract.

14. All lanterns, cross-heads and lamp-irons used for gas lamps, which, in the opinion of the Commissioner, may become so worn out, broken or useless as to be unfit to be repaired, are to be removed and other lanterns, cross-heads and lamp-irons, substituted in lieu thereof, and mantle lamps substituted for open flame lamps, if required, by the Contractor as noted in the proposals.

15. All supplies, which under this agreement, may be required to be furnished by the party of the first part, will be so furnished, but the cartage thereof shall be done by the Contractor.

16. Subject to the provisions of section 469 of the Greater New York Charter, the Contractor will, upon being required so to do by the party of the first part, erect new lamps in and along any or all the streets, avenues and public places within the limits aforesaid or adjacent thereto, of the districts for which the bid is made, and will light and connect such gas lamps to the standpipes of the lamp-posts of the City or the Contractor for supply of gas, when ordered so to do by the Commissioner.

17. The Commissioner may determine and designate in any locality, after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such

locality, during the period above-mentioned; also upon such determination to decline any estimate or part thereof for lighting such locality with illuminating material other than that so determined upon.

8095 18. If the requirements of The City, under this contract, includes any lamps not erected and connected at the time of the making such estimate or bid, thirty days from the date of the execution of this agreement, and such further time as may be deemed reasonable by the Commissioner, will be allowed the Contractor in which to supply, erect and connect the lanterns on and to the standpipes of the gas lamp-posts. Such lamps and all such connections, material and labor shall be furnished by the Contractor without other expense to The City, except where such lamps of the open flame type belong to The City of New York, they will be furnished by said City to the Contractor and erected by him.

19. No payment on account of any such lamps will be made to the Contractor for the time so allowed, nor until the same shall have been put in complete service and connected with the mains or conductors of the Contractors for the supply of gas, nor will payment be made on account of supply of any lantern except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

20. The Contractor shall indemnify and save The City harmless from any and all claims and suits for damages by reason of any infringement of patent rights in the use under this contract of any lantern or any burning appliances connected therewith, or for repairs or supplies to such lanterns or burning appliances.

21. In order that the Commissioner and his assistants may determine whether the gas lamps are lighted and extinguished in accordance with the time-table hereinbefore mentioned, the Contractor shall furnish to the Commissioner a map or maps showing the lamps in the district of each lamp-lighter, and designating the particular lamp at which each lighter commences to light, and 8096 also the lamp at which he completes the lighting; and in extinguishing the lamps the lamp-lighter shall begin and finish at the same lamps as are designated for beginning and finishing the lighting; and the Contractor shall notify the Commissioner of any change which may be made in the beginning and finishing points on any lamp district during the term of this contract. The Contractor shall furnish to the Commissioner a report daily and also weekly, stating therein the number and location of all new lamps fitted up and lighted, of all lamps relighted, and of lamps discontinued during the preceding day and week. Nothing herein contained shall be construed or deemed as granting to the Contractor any sole or exclusive right or privilege, or as preventing the party of the first part from granting the like privileges as are hereby given to the Contractor, to any other company, persons or parties whatsoever, or as preventing any person or persons, residing in or adjacent, or near to any of the said streets, avenues, or public places, or parts thereof, from erecting, in or upon his or their own premises, any building or apparatus, to light with gas or other illuminant his or their own house, store, manufactory or premises.

Total number of hours burning						3950

New York, *January 20th,* 1906.

The above time table will show the time for lighting and extinguishing public gas lamps for the year 190 , all lamps to be lighted within one hour from the time of beginning to light, and extinguished within fifty minutes of the time of beginning to extinguish.

WM. B. ELLISON,
Commissioner Dept. of Water
Supply, Gas and Electricity.

C. F. LACOMBE,
Chief Engineer of Light and Power.

Endorsed: The City of New York, Department of Water Supply,
Gas and Electricity. Contract. For Furnishing Gas Lamps, etc., on
the Streets, and for Connecting, Lighting, Extinguishing, Cleaning,
Repairing and Maintaining the same, and also Lamps belonging to
The City, supplying New Lamps when required, and for
8099 furnishing Burners and appliances for Improved System of
Lighting on Streets, Avenues, Parks and Public Places in the
Borough of Manhattan, in The City of New York, for the term of
this Contract, from February 1st 1906, to December 31, 1906, both
inclusive. Consolidated Gas Co. of New York, Contractor. Dated
May 14th, 1906. Assigned to........................Approved
as to form. John L. O'Brien, Asst. Corporation Counsel. Dated
............, 190...

CITY'S EXHIBIT 6A.

No. 25.

THE CITY OF NEW YORK.

DEPARTMENT OF
WATER SUPPLY, GAS AND ELECTRICITY.

BID OR ESTIMATE.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining such Lamps, and also Lamps belonging to The City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved Systems of Lighting on Streets, Avenues, Parks and Public Places in the Borough of Manhattan, in The City of New York, for the Term of this Contract, from February 1st, 1906, to December 31, 1906, both inclusive.

Made this thirty-first day of January, 1906, by Consolidated Gas Co. of New York, No. 4 Irving Place, Borough of Manhattan, New York City.

8100 1. Consolidated Gas Co. of New York does declare that the Consolidated Gas Company of New York is the only person, persons or corporation interested in this bid or estimate; and that no other person, persons or corporation than are herein named have any interest in this bid or estimate, or in the contract proposed to be taken.

2. It further declares that this bid or estimate is made without any connection with any other person, persons or corporation making a bid or estimate for the same work, and is in all respects fair and without collusion or fraud.

3. It further declares that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in this bid or estimate, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof.

4. It further declares that the names of the persons affixed to the consent hereto annexed were written by said persons respectively, and that said persons are householders or freeholders in The City of New York, or duly authorized officers or agents of a guaranty or surety company duly authorized by law to act as surety.

5. It has examined the contract (including the specifications) for the supplies and work, in the form approved by the Corporation Counsel, and it will contract, in the form so approved, to perform and complete the work mentioned in said contract and specifications, and furnish the supplies on the following terms, viz.:

8101 OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CITY.

I. For maintaining, repairing and connecting ready for use the Public Lamps and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-irons and lanterns now owned or hereafter acquired by The City will be furnished to the Contractor and put in place by him for the amount of this bid, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for 258 in number of same, the sum of Fifty cents *Dollars* ($00/50) per lamp per month.

For furnishing all the above for each lamp, at each lamp, for lamps in excess in number of same, the sum of Fifty cents *Dollars* ($00/50) per lamp per month.

MANTLE GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

III. For furnishing, maintaining, repairing and connecting, ready for use, each mantle gas lamp complete with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods, regulating apparatus, cross-heads and lamp-irons, necessary for each lamp to produce a light of not less than sixty (60) candle power, and also operating it. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of
8102 lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto. All the above for each lamp to be furnished by the Contractor and erected by him as required for the term of this contract in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for all such lamps in the Borough of Manhattan, stated to be 16,747 in number of same, the sum of One 00/100 Dollars ($1.00) per lamp per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($..........) per lamp per month.

IV. For the erection of each new lamp-post, according to the specifications, furnished by The City of New York, replacing one not now owned by it, with cross-heads if required, all in place, including painting, the sum of Eight 00/100 Dollars ($8.00).

CONSOLIDATED GAS CO. OF NEW YORK,

SURETIES' AGREEMENT.

In Consideration of the premises, and of One Dollar to us and each of us in hand paid by The City of New York, the receipt whereof is hereby acknowledged—

We, the undersigned, consent and agree, that if the contract for which the preceding estimate is made be awarded to the person, persons or corporation making the same, we will, upon its being so awarded, become bound as his, their or its sureties for its faithful performance; and if the said person, persons or corporation shall omit or refuse to execute such contract, if so awarded, and give the proper security within five days after the written notice that the same is ready for execution, we will pay, without proof of notice or demand, to the said The City of New York, or its successors, any difference between the sum to which such person, persons or corporation would be entitled upon the completion of such contract and the sum which The City of New York may be obliged 8104 to pay to the person, persons or corporation to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the SUPPLIES and WORK by which the bids are tested.

In Witness Whereof, we have hereunto set our hands, this 1st day of February, one thousand nine hundred and six.

Name of Bidder—Consolidated Gas Co. of New York.
Address—No. 4 Irving Place, N. Y. City.

THE CITY OF NEW YORK.

Department of

WATER SUPPLY, GAS AND ELECTRICITY.

Borough of Bronx.

1906.

PROPOSALS FOR BIDS OR ESTIMATES.

For the Furnishing, Maintaining and Repairing of Gas Lamps, Etc.

1. Sealed Bids or Estimates will be received at the office of the Department of Water Supply, Gas and Electricity, Room 1536, No. 21 Park Row, in the City of New York, until 2 o'clock P. M., on Thursday, February 1st, 1906.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining the same, and also Lamps Belonging to the City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks, and Public Places, in the Borough of Bronx, in The City of New York, for the Term of this Contract, from Feb. 1st, 1906, to December 31, 1906, both inclusive.

8110 2. The amount of security required is FIFTY (50) PER CENTUM of the total amount of bid or estimate.

3. The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title given above, of the work for which the estimate is made, with his or their name or names and the date of the presentation to the head of the Department, at the said office, on or before the date and hour above named, at which time and place the estimates received will be publicly opened by the head of the Department and read, and the award of the contract made according to law as soon thereafter as practicable.

4. In the whole Borough of Bronx the total number of ordinary gas lamps now burning is about 95; the total number of Welsbach gas lamps now burning is about 6013; but the Commissioner of Water Supply, Gas and Electricity reserves the right to designate the location and number of the lamps of each kind as to districts, streets, avenues, parks and public places or parts thereof. Bidders must satisfy themselves by a personal examination of the number and kind of lamps required in each Borough, as numbers given above must be taken only as a close approximation of the number of lamps that may be required.

5. Bidders are required to state in their estimates the districts or several streets, avenues, parks and places, or parts of streets, avenues, parks and places in which they propose to perform the requirements herein contained, giving also the number of lamps they propose to supply.

5*a*. The number, kind and location of lamps to be furnished under the contract to be awarded and entered into under this proposal shall be determined and prescribed by the Commissioner. 8111

6. The burners for open flame gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three (3) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches. The burners for mantle gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three and one-half (3½) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches.

7. For the information of the bidder, it is stated that the gas furnished will have an illuminating power of not less than twenty-two candle power when tested by photometric test, at the Photometric Stations now established or to be established in the City. The lamps and burners will be of such a kind and construction that when tested, under the same conditions as exist in service on the street, by photometric test on horizontal measurement, they shall give, the glass globe esclosing same having been removed, at least twelve (12) candle power in case of open flame lamps, and at least sixty (60) candle power in the case of mantle lamps.

8. Governors will be required to be furnished by the Contractor for the furnishing, maintaining and repairing of mantle gas lamps. Such governors will be placed on each lamp as will govern the maximum consumption of the lamp, so that it shall not consume more than three and one-half (3½) cubic feet of gas per hour, unless otherwise ordered by the Commissioner. These governors and the gas burners shall be of such kind and selected in such a manner as

is set forth in the specifications. Checks or regulators shall
8112 be placed upon the open flame lamps by the Contractor furnishing the lanterns, cocks, tubes, burners and so on, and they shall be of such a kind as to govern the maximum consumption of these lamps so that they will not consume more than three (3) cubic feet of gas per hour at one and a half (1½) inches pressure.

9. For the information of the bidders on this contract, it is stated that as soon as possible the Department will meter a certain number of the public gas lamps within the districts of each of the Contractors furnishing gas, in order to establish the actual consumption of the gas lamps of the different types as mentioned. This will be done approximately by attaching a standard meter to about one in ten of the lamp-posts for a sufficient number of hours or nights to establish the average consumption of the lamps, and the quantity so obtained will be the consumption of gas upon which the City will pay. The pressure will also be taken, if necessary, at a point as closely as possible to the metered lamp, in order to confirm this consumption. Ample facilities and notice will be given the Contractors so they can confirm and check these tests, in order to arrive at as fair a conclusion as is possible under the circumstances, and the test will be amplified, if necessary, until results are obtained which, in the opinion of the Engineer, are fair and reasonable to all concerned.

10. In case there are two Contractors—one for the supply of gas and one for the supply of lamp, the maintenance, repair, lighting, cleaning and extinguishing the same—and dispute shall arise which will involve the illuminating power of gas, or lamp or the quantity, quality or pressure of gas supplied by the Contractor for the supply of gas, appeal must at once be made to the Engineer, who,
8113 with the Chief Gas Inspector of The City, will, by photometric test, by metering or by registry of pressure, or other tests that may be required, decide on the issue of the dispute, and their decision shall be received by both parties as final. Both Contractors may be represented at any such test and present such statements, if required, as will tend to a settlement of the question in dispute.

11. Bidders will state in their bids or estimates a price per lamp for the term of this contract, for maintaining, repairing and connecting ready for use the public lamps in the Borough of Bronx, and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, replacing and repairing of the cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-irons and lanterns now owned or hereafter acquired by The City of New York, will be furnished to the Contractor by the said City, and put in place by him as required for the amount of the bid.

11*a*. A price for furnishing, maintaining, repairing and connecting ready for use, the public lamps in the Borough of Bronx, and for other fixtures or appliances for illuminating material for each open flame gas lamp, including lighting, cleaning, extinguishing, reglazing and painting of lanterns, lamp-irons and cross-heads, the furnishing, replacing and repairing of the cocks, tubes, burner appliances, lanterns, lamp-irons and cross-heads, all the above, for each lamp, at each lamp, to be furnished by the Contractor and erected by him as required for the term of this Contract for the amount of the bid.

8114 The attention of bidders is called to the fact only one of the two proposals given in clauses 11 and 11*a* will be accepted.

12. A price for furnishing, maintaining, repairing and connecting ready for use, lanterns complete, including cross-heads, lamp-irons and improved burner appliances and incandescent mantles for gas burners to produce a light of not less than sixty (60) candle power each, at each lamp, in the Borough of Manhattan, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, replacing and repairing of the mantles, cocks and burning appliances, the replacing of cross-heads, lamp-irons and lanterns, all the above for each lamp at each lamp to be furnished by the Contractor and erected by him as required for the term of this contract for the amount of the bid.

12*a*. A price for the erecting of a lamp-post furnished by The City of New York, replacing a lamp-post now owned by other parties.

13. For the information of bidders on this contract, it is stated that all lamp-posts for use with gas lanterns to be erected in new locations will be provided for the term of this contract by The City of New York, and erected and maintained by the Contractor for supply of gas.

13*a*. That in the Boroughs of Manhattan, The Bronx and Brooklyn and part of Queens the lamp-posts for gas lamps are almost entirely owned by The City, and The City will continue to supply same. In these, or other boroughs where any lamp-posts used for gas lighting, either mantle or open flame, may belong to this Contractor or to the Contractor for supply of gas, the right is reserved to The City of New York to substitute its own lamp-posts for
8115 these if it so desires, to be maintained, by the Contractor for the supply of gas, at The City's expense.

13*b*. That where one contractor shall replace the lamp-posts owned or supplied by another, on account of a change in the contractor from the previous successful bidder to the successful bidder on this contract, then the first erection of lamp-posts by the successful bidder, lamp-post for lamp-post, replacing those that may then exist, shall be made for the price given in the bid for the erection of lamp-post. In this case The City may exercise its right to supply its own lamp-posts, and if so they will be maintained, by the Contractor for the supply of gas, at the expense of The City.

13*c*. That the cross-heads, lamp-irons and lamps used for open flame gas lamps in the Boroughs of Manhattan, The Bronx and Brooklyn are almost entirely owned by The City of New York, and The City will continue to supply same. In these or other boroughs where open flame gas lamps may belong to the Contractor, he shall furnish same, including all repairs and renewals, for the amount of the bid.

13*d*. That in all boroughs, the above conditions and reservations as to the furnishing, repairing, replacing and painting of lamp-posts, cross-heads, lamp-irons and lanterns in the above clauses, No. 11, No. 11*a*, No. 12, No. 13, No. 13*a*, No. 13*b*, and No. 13*c* shall apply as the ownership of said lamp-posts, cross-heads, lamp-irons and lanterns shall appear, but nothing in the above shall be construed that The City of New York obligates itself to supply new lamp-posts in place of those now erected, but not owned by it, unless it so desires, except under clause No. 13.

8116 14. Bidders who may bid on furnishing gas lamps, etc., on the streets, and for connecting, repairing and maintaining the same, furnishing all the items of supplies and repairs required, which are asked for in these estimates, *may also bid* on any other supplies, repairs, operations and maintenances as needed in the lighting of The City, as asked for by The City in other proposals, and reference is herewith made to the proposals for the supply of gas and to the proposals for furnishing naphtha lamps. Bids, however, must be rendered separately for each item as called for, and for each borough. The Contractor supplying gas must erect all new gas lamp-posts, except as noted in clauses 12*a* and 13*b*, and must reset such gas lamp-posts, when and where necessary, making all connections, and must repair all gas lamp-posts when ordered, particularly so far as such repairs shall relate to service and stand pipes. Contractor supplying lamps must hold The City harmless for any failure on the part of the persons supplying gas to properly supply same.

15. Should any alteration, change, replacement or any attachment be required to the whole or any portion of the lamps, except as mentioned in these proposals and specifications, for which estimates are made, in consequence of the use of improved appliances for the gas lighting under this contract, then such alteration shall be done and such attachment placed on the posts without expense to The City.

16. The right is reserved to the Commissioner to determine and designate in any locality, at any time after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such locality, during the term of 8117 this contract; also, upon such determination, to decline any estimate, or part thereof, for lighting such locality with illuminating material other than that so determined upon; also to decline all estimates for any particular locality, or all localities, if deemed for the best interests of The City so to do.

17. If the estimate of any bidder shall include any lamps for any lamp-posts with which the pipes or conductors of the Contractor for supply of gas are not connected at the time of the making of the bid, and a contract for furnishing, maintaining and repairing the lamps shall be awarded to such bidder, in that case THIRTY DAYS from the date of the execution of such contract, and such further time as may be deemed reasonable by the Commissioner, shall be allowed to such bidder in which to supply, equip and connect such

lamps on and to such lamp-posts, and all such connections shall be made by the Contractor without expense to The City.

18. No payment to such bidder, on account of any such lamps, will be made for the time so allowed, nor until the same shall have been connected with the mains or conductors of the Contractor supplying gas, nor except for the time during which all the requirements in this proposal and in the contract, including specifications, which shall be awarded and entered into under this proposal, shall have been fully performed.

19. No bid will be entertained unless the Commissioner shall be satisfied that the party or parties bidding are possessed of sufficient plant to carry out the provisions of the contract.

20. The award of any and all contracts under this proposal, and all contracts entered into in pursuance of said proposal, will
8118 be subject and subordinate to the rights of all persons, parties or corporations under contracts or agreements (if there are any such) which are now binding and obligatory upon The City of New York.

21. The number of hours the gas lamps are to be kept burning during the contract is 3950 hours per year as per time-table attached.

22. Bidders will *write out* the total amount of their estimates in addition to inserting the same *in figures*.

23. The Commissioner reserves the right to reject any or all bids or estimates if the Board of Estimate and Apportionment shall determine it is for the public interest of The City so to do.

24. Each bid or estimate shall contain the name and place of residence of the persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making a bid or estimate for the same purpose, and is in all respects fair, and without collusion or fraud; and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be, or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true; or, if the bidder is a corporation, by the oath, in writing, of an officer of such corporation, with
8119 knowledge of the facts and having authority to make such sworn statement.

25. Each bid or estimate shall be accompanied by the consent, in writing, of two householders and freeholders in The City of New York or of a guaranty or surety company, duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

26. No bid or estimate will be considered unless accompanied by money or a certified check drawn on a National or State Bank located in The City of New York, to the order of the Comptroller, to

the amount of five per centum of the amount of the bond required, as provided, in section 420 of The Greater New York Charter.

27. For particulars as to the repairs or the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications and maps on file in the office of the Chief Engineer of Light and Power Department of Water Supply, Gas and Electricity.

28. Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioner, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefore at the office of the Chief Engineer of Light and Power of the Department of Water Supply, Gas and Electricity, Room 1319, No. 21 Park Row, The City of New York.

The City of New York, January 20, 1906.

WM. B. ELLISON,
Commissioner of Water Supply, Gas and Electricity.

8120

THE CITY OF NEW YORK,

DEPARTMENT OF

WATER SUPPLY, GAS AND ELECTRICITY,

BOROUGH OF BRONX.

CONTRACT AND SPECIFICATIONS.

For Furnishing Gas Lamps, etc. on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining the same and also Lamps belonging to The City, Supplying New Lamps when required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks and Public Places in the Borough of Bronx, in The City of New York, for the term of this Contract, from February 1st, 1906, to December 31, 1906, both inclusive, as per Specifications and Proposals herein contained or hereto attached.

This Agreement, made and entered into this 14th day of May, in the year one thousand nine hundred and six, by and between The City of New York, by the Commissioner of Water Supply, Gas and Electricity, party of the first part and Consolidated Gas Co. of New York, Contractor, party of the second part, pursuant to the provisions of The Greater New York Charter.

WITNESSETH, That the parties to these presents, each in consideration of the agreements on the part of the other, herein contained, have mutually agreed and hereby mutually agree, the party of the first part for itself and its successors, and the party of the second part for itself and its heirs, successors and assigns, as follows:

8121 (*A*) Wherever in this contract the words "The City," or "The Commissioner," or a pronoun in the place of either of them is used, they shall mean and intend the party of the first part or the Commissioner of Water Supply, Gas and Electricity of the City of New York; wherever the words "Borough President" are used in this contract they shall mean and intend the President of the Borough above mentioned; wherever in this contract the words "The Department," or a pronoun in place of them is used, they shall mean and intend the Department of Water Supply, Gas and Electricity in The City of New York.

(*B*) Wherever in this contract the word "Contractor" or pronoun in the place of it, is used, the same shall mean and intend the party of the second part to this agreement.

(*C*) Whenever the word "Engineer" is used in this contract, it shall mean and be taken to mean and intend the Chief Engineer of Light and Power of the Department, or the Assistant Engineer, or other person or official, duly appointed or designated therefor, pursuant to The Greater New York Charter, as amended, by the Engineer, to inspect, test, examine and accept the supplies of lanterns, repairs or supplies, which are the subject of this contract, limited by the particular duties intrusted to him.

(*D*) The Contractor will furnish gas lamps and connect in place on the streets, etc., for the party of the first part, at the Contractor's own cost and expense, at the times and places and in the manner and under the conditions herein specified, and light, extinguish, clean, repair and maintain the said lamps and others owned
8122 by The City and supply new lamps when required, and furnish burners and appliances for improved system of lighting on the streets, avenues, parks and public places in the Borough of Bronx in The City of New York, for the term of this contract from Feb. 1st, 1906, to December 31, 1906, both inclusive, and will accept as full compensation therefor the sum or price hereinafter named, which sums or prices are the amounts at which this contract was awarded to the Contractor at the public letting thereof. The said specifications, the proposal for bids or estimates, the bid or estimate and the bond required are and shall be a part of this contract.

(*E*) The Contractor will not ask, demand, sue for or recover for any lanterns furnished, supplies delivered, repairs made, or work performed under this contract, any extra compensation beyond the amounts payable for the several classes of work and supplies herein enumerated, which shall be actually supplied at the price therefor, herein agreed upon and fixed.

(*F*) The Engineer shall inspect and test or have tested the lamps, governors, regulators, repairs and supplies furnished, and see that the same strictly correspond with the specifications hereinafter set forth, and the Engineer is hereby authorized and empowered to reject any of the said lamps, governors, regulators, repairs and supplies offered under this contract, for the reason that the same do not comply in quality, or quantity, or time or place of maintenance, with the specifications herein contained or hereto annexed.

(*G*) Whenever the Engineer shall be unable to act, in consequence of absence or other cause, then such assistant or other 8123 persons as shall be designated by the Commissioner shall perform all the duties and be vested with all the power herein given to the Engineer.

(*H*) To prevent all disputes and litigations, the Engineer shall, in all cases, determine the amount, quantity and quality of the lamps, supplies, repairs, and work, which are to be paid for under this contract, and he shall determine all questions in relation to said lamps, supplies, repairs and work, and he shall in all cases decide every question which may arise relative to the execution of this contract on the part of the Contractor, and his estimate and decision shall be final and conclusive.

(*I*) Any doubt as to the meaning of the contract, including the specifications, or any obscurity as to the wording of them, will be explained by the Engineer, and all directions and explanations required, alluded to, or necessary to complete any of the provisions of these specifications, and give them due effect, will be given by the Engineer.

(*J*) The Contractor shall commence the delivery of the lamps and other apparatus called for by this contract, and the lighting of the lamps and other services, supplies and repairs called for under this contract, as soon as he shall be ordered so to do by the Commissioner; he will carry on such contract as required from time to time, with such force and in such manner and order, and at such times and seasons, as may be directed by the Commissioner, and that he will fully and entirely perform this contract on his part on the 31st day of December, 190 .

(*K*) In case any lamp shall fail to burn continuously and give the candle power required throughout each and every night, 8124 during the term of this contract, during the hours specified in the time-table hereto annexed, or such hours as the Commissioner may from time to time prescribe, and such failure shall not be due to any act or omission of The City, its officers, agents or employees, or any act or omission of the person or corporation whose duty it shall be to supply the gas, etc., the Contractor shall and will pay to The City a sum of money equal to the charge to The City for one night's burning, if the lamp fails to burn continuously, and one-half of this amount if the lamp fails to give the candle power required for each and every night or part thereof, that such failure shall continue, which said sum, in view of the difficulty of ascertaining the loss which The City will suffer by reason of such failure, is hereby agreed, fixed and determined by the parties hereto, as the liquidated damages that The City will suffer by reason of such failure, and not as a penalty, and The City shall and may deduct and retain the amount of such liquidated damages out of any moneys which may be due or become due to the Contractor under this agreement.

(*L*) Neither an extension of time, for any reason, beyond the date fixed for the delivery of the lanterns, repairs and supplies, nor the delivery and acceptance of any such delivery of lanterns, repairs and supplies, called for by this contract, shall be deemed to be a waiver by the Commissioner of the right to abrogate this contract for abandonment or delay in the manner herein provided.

(*M*) The Contractor will employ only competent, skilful and faithful men to do the work, and he further agrees that whenever the Commissioner shall inform him in writing that any man engaged in the work is, in his opinion, incompetent or un-
8125 faithful, he will discharge him from the work and will not again employ him upon the work.

(*N*) The Contractor shall receive the following prices as full compensation for furnishing and maintaining the lanterns, apparatus and accessories, and performing the services herein provided to be performed by the Contractor, viz.:

OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CITY.

I. For maintaining, repairing and connecting ready for use the Public Lamps and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-irons and lanterns now owned or hereafter acquired by The City will be furnished to the Contractor and put in place by him for the amount of this bid, for the term of this contract, in the Borough of Bronx, to wit.:

For furnishing all the above for each lamp, at each lamp, for 258 in number of same, the sum of Fifty cents (50c.) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for Lamps in excess in number of same, the sum of Fifty cents (50c.) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

8126 For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($....) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

II. For furnishing, maintaining, repairing and connecting ready for use the public lamps, and for other fixtures and appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes, burners, burning appliances, lanterns, lamp-irons and cross-heads thereto, all the above for each lamp to be furnished by the Contractor and erected by him as required, for the term of this contract, in the Borough of Manhattan, to wit:

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

8127 For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

MANTLE GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

III. For furnishing, maintaining, repairing and connecting, ready for use, each mantle gas lamp complete with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods, regulating apparatus, cross-heads and lamp-irons, necessary for each lamp to produce a light of not less than sixty (60) candle power, and also operating it. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto. All the above for each lamp to be furnished by the Contractor and erected by him as required for the term of this contract, in the Borough of Bronx, to wit:

For furnishing all the above for each lamp, at each lamp, for all such Lamps in the Borough of The Bronx, stated to be 6013 in number of same, the sum of One 00/100 dollar ($1.00) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for Lamps in excess, in number of same, the sum of One 00/100 dollar ($1.00) per lamp, per month. 8128

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of................ Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

For furnishing all the above for each lamp, at each lamp, for .... in number of same, the sum of .... Dollars ($......) per lamp, per month.

IV. For the erection of each new lamp-post, according to the specifications, furnished by The City of New York, replacing one not now owned by it, with cross-heads if required, all in place, including painting, the sum of Eight 00/100 dollars ($8.00).

(*O*) No payment will be made or allowed on account of supply of lanterns, services, repairs or supplies for any lamp, except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

(*P*) In case the Contractor shall be unable at any time during the continuance of this contract to furnish lamps or to light any of the lamps as specified in this agreement, then the Contractor shall give immediate notice to the Commissioner of his inability to furnish said lamps or to light such lamps, stating the streets in which the lamps cannot be furnished or lighted and the cause thereof. And in case the use of any of the lamps shall be suspended or discontinued, and other lamps shall be used in consequence of such 8129 suspension or discontinuance, then the gas lamps which may have been suspended, or discontinued, shall not be re-lighted except pursuant to an order for such lighting by the Commissioner.

(*Q*) The Contractor shall indemnify and save harmless The City, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits based on or arising out of the alleged infringement of any patent or patent right, and against, and from all damages and costs to which they or any of them may be put by reason of any such alleged infringement or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under this contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the Contractor or his agents or servants. So much of the moneys due to the Contractor under and by virtue of this agreement, as shall or may be deemed necessary by the Commissioner, shall or may be retained by The City until all such suits, actions and claims shall have been settled, and evidence to that effect furnished to the satisfaction of the Commissioner.

(*R*) If the work to be done under this contract shall be abandoned by the Contractor, or if this contract shall be assigned, or the work sublet by him, otherwise than is herein specified, or if at any time the Engineer shall be of the opinion, and shall so certify in writing to the Commissioner that the performance of the contract is unnecessarily or unreasonably delayed, or that the Contractor 8130 is wilfully violating any of the conditions or covenants of this contract, or specifications, or is executing the same in bad faith, or not in accordance with the terms thereof, or if the work be not fully completed within the time named in this contract for its completion, the Commissioner shall notify the Contractor to

discontinue all work, or any part thereof, under this contract, by a written notice to be served upon the Contractor, either personally or by leaving said notice at his residence, or with his agent in charge of the work, or with any employee found on the work, and thereupon the Contractor shall discontinue the work, or such part thereof, and the Commissioner shall thereupon have the power to contract for the completion of the contract in the manner prescribed by law, or to place such and so many persons as he may deem advisable, by contract or otherwise, to work at and complete the work herein described, or such part thereof, and to use such materials as he may find upon the line of the work, and to procure other material for the completion of the same, and to charge the expense of said labor and materials to the Contractor; and the expense so charged shall be deducted and paid by The City out of such moneys as may be due or may at any time thereafter grow due to the Contractor under and by virtue of this contract, or any part thereof. And in case such expense shall exceed the amount which would have been payable under the contract if the same had been completed by the Contractor, he shall — the amount of such excess to The City; and when any particular part of the work is being carried on by the Commissioner, by contract or otherwise, under the provisions of this clause of the contract, the Contractor shall continue the remainder of the work in conformity with the terms of this contract, and in such manner as in nowise to hinder or interfere with the persons or workmen employed, as above provided by the Commis-
8131 sioner, by contract or otherwise, to do any part of the work, or to complete the same under the provisions of this article of the contract.

(*S*) If the Contractor shall not well and truly observe, perform, fulfill and keep all and si-gular the covenants and conditions hereinbefore mentioned and contained, on its part and behalf to be observed, performed, fulfilled and kept according to the true intent and meaning of these presents, then and in that case the Commissioner may and shall have the power, on the part of the said party of the first part, to declare this contract annulled and vacated, and thereupon it shall become and be henceforth null and void.

(*T*) On or after the first day of each and every month during the term of this contract, the Contractor shall furnish proof to the satisfaction of the Commissioner, that he has fully performed and fulfilled this contract in all particulars and conditions as aforesaid during the preceding month, and particularly that he has furnished the lanterns, supplies and repairs as herein specified, and that all lanterns have been cleaned each day of said month, and also that the gas burners have been lighted and the lanterns have each given an illuminating power as specified for each type, as required by this contract, during all the time that the lamps were required to be kept lighted, and also proof to the satisfaction of the Commissioner as to all extinguishments of lamps due to non-supply of gas or defective lanterns, including the location of each lamp extinguished, the date and length of extinguishment in each case, whereupon the Commissioner shall certify the fact and in his certificate state the amount to which the Contractor shall be entitled for all the 8132 duties performed by it during such preceding month, and annex thereto a requisition upon the Comptroller to pay the Contractor therefor the sum to which he shall be so entitled; and without such certificate and requisition the Contractor shall not be or become entitled to any payment under and in respect to the terms of this contract, or for the light, lamps and accessories or in respect to services which were required to be done, or should have been done, in such preceding month. On the requisitions above provided being presented to the Comptroller of The City, he shall, within thirty days thereafter, pay to the Contractor the amount thereof in lawful money.

(*U*) The City shall not, nor shall any department or officer thereof be precluded or estopped by any return or certificate made or given by the Commissioner, any Engineer or other officer, agent or appointee of The City under any provision of this agreement from at any time (either before or after the final completion and acceptance of the work and payment therefor pursuant to any such return or certificate) showing the true and correct amount and character of the work done and materials furnished by the Contractor, or any other person under this agreement, or from showing at any time that any such return or certificate is untrue and incorrect, or improperly made in any particular, or that the work and materials, or any part thereof, do not in fact conform to the specifications; and The City shall not be precluded or estopped, notwithstanding an*d* such return or certificate and payment in accordance therewith, from demanding and recovering from the Contractor such damages as it may sustain by reason of his failure to comply with the specifications.

8133 (*V*) This contract shall not be binding or of any force unless the Comptroller of The City shall indorse hereon his certificate that there remains unexpended or unapplied, as provided in The Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this contract, as certified by the officers making the same.

(*W*) The residence or place of business given in the bid or estimate upon which this contract is founded, is hereby designated as the place where all notices, letters and other communications shall be served, mailed or delivered. Any notice, letter or other communication addressed to the Contractor and delivered at the above-named place, or deposited in a post-paid wrapper in any post-office box regularly maintained by the post-office shall be deemed sufficient service thereof upon the Contractor. The place named may be changed at any time by an instrument, in writing, executed and acknowledged by the Contractor and delivered to the Commissioner. Nothing herein contained shall be deemed to preclude or render inoperative service of any notice, letter or other communication upon the Contractor personally.

(*X*) This contract shall be subject and subordinate to the rights, claims and demands of all persons, parties or corporations under contracts or agreements (if there are any such) which are valid and lawful charges and liabilities against The City of New York, and which the law requires shall be defrayed and answered unto by The City.

(*Y*) The Contractor will give his personal attention constantly to the faithful prosecution of the work; he will not assign, 8134 transfer, convey, sublet or otherwise dispose of this contract, or his right, title or interest in or to the same or any part hereof, without the previous consent in writing of the Commissioner indorsed hereon or hereto attached; and he will not assign, by power of attorney or otherwise, any of the moneys to become due and payable under this contract, unless by and with the like consent signified in like manner. If the Contractor shall, without such previous written consent, assign, transfer, convey, sublet or otherwise dispose of this contract, or of his right, title or interest therein, or any of the money to become due under this contract, to any other person, company or other corporation, this contract may, at the option of the Commissioner, be revoked and annulled and The City shall thereupon be relieved and discharged from any and all liability and obligations growing out of the same to the Contractor, and to his assignee or transferee; provided that nothing herein contained shall be construed to hinder, prevent or affect an assignment by the Contractor for the benefit of his creditors, made pursuant to the statutes of the State of New York; and no right under this contract, or to any money to become due hereunder shall be asserted against The City in law or in equity, by reason of any so-called assignment of this contract, or any part thereof, or of any moneys to grow due hereunder, unless authorized as aforesaid by the written consent of the Commissioner.

IN WITNESS WHEREOF, The Commissioner of Water Supply Gas and Electricity has hereunto set his hand and seal on behalf of The City, and the Contractor has caused its corporate seal to be hereunto affixed and its President and Secretary hereto to set their hands, and the parties hereto have executed triplicate copies hereof, one of which is to remain with the Commissioner, one other to be 8135 filed with the Comptroller of The City, and the third to be delivered to the Contractor, the day and date herein first above written.

—— ——,
Notary Public or Commissioner of Deeds.

8137 Know All Men by These Presents, THAT WE, Consolidated Gas Co. of New York and the United States Fidelity and Guaranty Company of The City of New York are held and firmly bound unto THE CITY OF NEW YORK, in the sum of Seventeen Thousand DOLLARS, lawful money of the United States of America, to be paid to THE CITY OF NEW YORK, or to its certain attorneys, successors or assigns, for which payment, well and truly to be made, we bind ourselves, and our several and respective heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

Sealed with our seals. Dated this 14th day of May, in the year one thousand nine hundred and six.

WHEREAS, The above bounden Consolidated Gas Co. of New York by an instrument in writing, under its corporate seal duly attested, bearing even date with these presents, and one part whereof is hereunto annexed, has contracted with The City of New York to furnish the Lanterns, Maintenance, Operation, Repairs and Supplies to the Public Lamps of The City of New York, as in said contract will more fully and at large appear:

Now, THEREFORE, The conditions of the above obligation are such, that if the said Consolidated Gas Co. of New York its successors or assigns, shall indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions of every name and description brought against them or any of them, including suits and actions based on, or arising out of the alleged infringement of any patent or patent rights, and against and from all damages and costs to which they, or
8138 any of them, may be put by reason of any such alleged infringement, or by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work to be done under said contract, or otherwise, or from any improper or defective material, machinery, implement or appliance used in performing the same, or from any act or omission of the said Consolidated Gas Co. of New York, its agents or servants, and if the said Consolidated Gas Co. of New York or its successors or assigns, shall well and truly, and in a good, sufficient and workmanlike manner, perform, fulfill, observe and keep the said contract, and each and every of the covenants, provisions, conditions and terms in said contract contained, or to be performed, fulfilled, observed and kept, then this obligation to be void; otherwise to remain in full force and virtue.

SPECIFICATIONS.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining same, and also Lamps belonging to the City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved System of Lighting on Streets, Avenues, Parks, and Public Places, in the Borough of Bronx, *tan,* in The City of New York, for the Term of this Contract, from Feb'y 1st, 1906, to December 31, 1906, both inclusive.

1. The lamps shall be lighted during such times as the public lamps throughout The City of New York may be required to be lighted by the regulations of the said party of the first part, in accordance with a time-table hereto annexed, marked "A," and made a part of these specifications. The Commissioner may direct and require, by notice to that effect, that all or any portion of said public lamps shall be lighted, and kept burning, at any other time or times dur-
ing the continuance of this contract; and the Contractor shall
8143 and will light the same, and continue them burning, in ac-
cordance with any and every direction of the Commissioner to that effect. If the lamps are to be lighted by means of gas, then it is expressly agreed that all the lamps shall be lighted within one hour from the time fixed in the time-table as the time for beginning; and it is also expressly agreed that all the lamps shall be extinguished within fifty (50) minutes from the time fixed in the time-table as the time for the beginning of extinguishing. It is also agreed that they shall be lighted either by means of a torch or the use of a ladder, or by such other method as may be approved by the Engineer, and that the lamp-lighters will not be permitted to climb the lamp-posts for such a purpose.

2. The Commissioner shall have the right at any time to increase or diminish the number of lamps required to be lighted by the Contractor under this contract, and the right is reserved by the Commissioner, at any time during the continuance of this contract, to increase or diminish the number of hours during which the said lamps or any portion of them are to be kept burning, and to change said time-table in any particular. All lamps ordered discontinued shall be discontinued within forty-eight (48) hours after receipt of notice by Contractor, and no charge for same shall be made after the expiration of said forty-eight (48) hours.

3. For the information of bidders on this contract, it is stated that the illuminant to be furnished to the lanterns will be illuminating gas, such gas will have an illuminating power of not less than twenty-two candles, when tested at a distance of not less than one mile from the place of manufacture, on the improved form of the
Bunsen Photometer, by means of a Bray slit, Union No. 7
8144 burner, consuming five cubic feet of gas per hour. The test-
ing candle shall be of sperm, of six to the pound, and consuming, as near as possible, one hundred and twenty grains of spermaceti per hour; and no test shall be recorded in which the candle

consumes less than one hundred and fourteen or more than one hundred and twenty-six grains of spermaceti per hour. And as regards purity, gas shall be clean and of such quality that it will not deteriorate the mantles in the mantle lamps using same so as to shorten their length of life under similar conditions. Each one hundred (100) cubic feet of gas shall not contain more than five (5) grains of ammonia, nor more than twenty (20) grains of sulphur, nor more than a trace of sulphuretted hydrogen.

4. The City shall have the right at any time to test the quality and illuminating power of the lamps and light as furnished on the street, and for that purpose at least twenty-five (25) lamps may be selected from those in actual use in each district of each Borough, by the Engineer, in each and every calendar month, and their illuminating power shall be determined photometrically by the Chief Gas Inspector or the Engineer, at The City's Laboratory, or elsewhere, at the discretion of the Engineer. The average candle-power of the lamp so tested shall constitute the basis for calculating the light furnished by the lamps burning during the month and for which the charge is made. The term "Lamp" herein means the burner complete with mantle and chimney, if any, as found set up for use in any of the streets or public places, and the test herein referred to shall be made with the uncolored clear glass globe which incloses the lamp on the street, removed, and under the same conditions of supply of gas as when in use on the street; the object of the test being to determine that the actual illuminating power, 8145 as contracted for, is given on the street by each lamp. Each lamp shall be tested with the gas furnished by the company furnishing gas to said lamp when in actual service on the street, the gas being first tested for candle-power.

The Contractor operating and maintaining the lamps tested shall replace said lamps whenever they are taken down for test, free of cost to The City, and shall always keep in stock ready for operation, at least 25 lamps of each class.

Twenty-two candle power gas is herewith defined as gas which, when tested, at a distance of not less than one mile from the place of manufacture, on the improved form of Bunsen Photometer, by means of a Bray slit, Union No. 7 burner, consuming 5 cubic feet of gas per hour, shall give 22 candle-power; the testing candle shall be of sperm of six to the pound, and consuming, as near as possible, 120 grains of spermaceti per hour; and no test shall be recorded in which the candle consumes less than 114 or more than 126 grains of spermaceti per hour.

5. The burners for open flame gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three (3) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches. The burners for mantle gas lamps in all boroughs shall be of such a kind and construction that they will burn, as closely as is practicable, three and one-half (3½) cubic feet of gas per hour, under a pressure of not less than one and one-half (1½) inches.

The lamps and burners will be of such a kind and construction that when tested, under the same conditions as exist in service on the

street, by photometric test by horizontal measurement, they shall give, the glass globe enclosing same having been removed, at least twelve (12) candle power in case of open flame lamps, and
8146 at least sixty (60) candle power in the case of mantle lamps.

The gas burners shall be of a capacity to burn at least the gas specified for each type of burners, and they shall be kept in good order and repair, and renewed whenever required by the Engineer. He shall also have same tested for consumption of gas when it is deemed necessary, and any burner not consuming the required amount of gas at the pressure specified shall be removed and replaced by this Contractor.

6. Governors will be furnished by the Contractor for the furnishing, maintaining and repairing of mantle gas lamps. Such governors will be placed on each mantle lamp and will govern the maximum consumption of the lamps so that they will not consume more than three and one-half (3½) cubic feet of gas, within a variation of pressure of five (5) inches.

Checks or regulators shall be placed upon the open flame lamps by the Contractor furnishing the lanterns, cocks, tubes, burners and so on, and they shall be of such a kind as to govern the maximum consumption of these lamps so that they will not consume more than three (3) cubic feet of gas at one and one-half (1½) inches pressure.

The governors, checks or regulators must be of such a kind and construction as shall be satisfactory to the Contractor for the supply of gas, and to the Engineer, and if the two Contractors (the one for the supply of gas, and the one for the supply of lanterns) cannot agree on a governor satisfactory to both parties, the matter shall be submitted to the Chief Engineer of Light and Power, of the Department, for decision, and on his decision the governor selected shall be placed on each of the mantle lamps.

8147 7. As soon as possible the Department will meter a certain number of the Public Gas Lamps within the districts of each of the Contractors furnishing gas, in order to establish the actual consumption of the gas lamps of the different types as mentioned. This will be done approximately by attaching a standard meter to about one in ten of the lamp-posts for a sufficient number of hours or nights to establish the average consumption of the lamps, and the quantity so obtained will be the consumption of gas upon which the City will pay.

The pressure will also be taken, if necessary, at a point as closely as possible to the metered lamp, in order to check this consumption.

Ample facilities and notice will be given the Contractors so they can confirm and check these tests, in order to arrive at as fair a conclusion as is possible under the circumstances, and the test will be amplified, if necessary, until results are obtained which, in the opinion of the Engineer, are fair and reasonable to all concerned.

7a. The party of the first part shall have the right to require that burners of a greater consuming capacity than three or three and one-half cubic feet of gas as required per hour shall be furnished to the public gas-lamps, or any portion of them, at any time during the aforesaid term of this contract.

7*b*. Sample lamps, showing all burning appliances and connections for each type of mantle or other lamp to be furnished, shall be submitted when called for by the Commissioner to the Engineer for the purposes of comparison and test. Such sample lamp shall be complete in every respect, and shall accurately represent the burner which the Contractor uses on each type of lamp under this contract, and the sample lamp, like lamps in service, shall be so com-
8148 bined and adjusted as to secure, under all ordinary variations of pressure, a candle power of not less than sixty in the case of mantle lamps and twelve in the case of open flame lamps, the glass enclosing the lamp being removed during test.

The Commissioner reserves the right to reject any bid should the sample lamp submitted be not well made or should the tests on same not be satisfactory to the Engineer and so certified by him to the Commissioner.

8. Incandescent mantles for either gas or naphtha lamps when supplied for the lamps now using same, or for lamps which may be hereafter specified by the Commissioner, shall be of the very best quality, capable of producing and maintaining under the conditions of this contract not less than 60 candle-power. Whenever the mantles become smoked or deteriorated to such an extent that at least 60 candle power is not obtained, they must be replaced by new mantles by the Contractor. The Commissioner reserves the right to have the lamps and the character of mantles furnished, tested, basing test on the same conditions as those under which they are required to burn on the streets, except that the glass globe enclosing the lamp be removed, and to reject any lamps and mantles furnished that do not comply with the above requirements as to candle power. Anti-vibrators for lamps, using incandescent mantles, should be furnished with each lamp, and samples of same should be submitted to the Engineer for approval with the sample of lamp furnished him as mentioned elsewhere.

9. The Borough President or the Commissioner shall have the right at any time to place signs designating the names of the streets on any lamp or lamp-posts situated on the street corners of any street to be lighted under this contract without further ex-
8149 pense to The City, whether the said lamp or lamp-posts shall belong to The City or not, but such sign shall not be put on in such a way as to interfere with the operation, repair or care of the lamp or lamp-post or to interfere with the light from the lamp.

If necessary, to prevent interference with the lighting, the Engineer may order that certain lamps of the older type of mantle lamps, now existing on certain street corners, shall be changed to a newer type of lamp, in which this interference does not arise.

Such glass or other street signs as are at present properly in place upon the lamps or lamp-posts shall be retained in their proper places and position.

All the glass or the globes of the lamps and street signs are to be of such a kind and kept in such a cleanly condition that not more than ten per cent. (10%) of the light of the lamps shall be absorbed or obstructed by the uncolored glass; and the lamps and street signs shall all be cleaned daily; and in each of these cleanings, all the glass of the lanterns, as well as the glass of the street signs, shall be thoroughly cleaned both on the inside and on the outside, and all dust and dirt shall be brushed from the frames.

10. The lamps are to be repaired and reglazed within twenty-four hours after any portion of the same shall be broken, and all the work or material for either of said purposes is to be furnished by the Contractor, without cost to The City.

Stained glass of a ruby color of such tint and arranged in a manner approved of by the Commissioner shall be placed on the fire. alarm signal lamps, open flame type, and shall also be required in
the tops of the open flame lanterns nearest the several fire
8150 alarm signal boxes and in the tops of the glass lanterns on
the street corner nearest said boxes. And in case any of said stained glass should be broken after being placed in the lamps, then the Contractor shall furnish and replace the same, except in the Boroughs of Manhattan and The Bronx, where mantle lamps are used for fire alarm lanterns, the glass will be provided by The City and put in place by Contractor without further cost to The City.

11. The cocks, tubes, tips, mantles, chimneys, globes, burners and checks which may become worn out or useless, or which, in the opinion of the Engineer are worn out or useless, shall be immediately replaced by the Contractor, at his own cost and expense.

12. The open flame and mantle gas lanterns, lamp-irons and cross-heads shall be painted at least once a year with one heavy coat of best paint, ground in oil in such a manner and of such a color as shall be satisfactory to the Commissioner.

Fire-alarm lanterns shall be painted as specified above. All the material shall be of the best quality, and prepared so as to present a gloss finish. While painting the lanterns care must be taken that the glass shall not be daubed or smeared with paint. All the painting is to be completed by the first day of July next, and the Commissioner is to be notified when and where the painting is to be commenced.

13. New gas lanterns are to be fitted up on lamp-posts on any street, avenue, park or public place, wherever the same may be required by the Commissioner.

New lamp-posts, when properly equipped, erected and con-
8151 nected for supplying gas by the Contractor for such supply,
will be turned over to the Contractor for the maintenance of burning appliances and lamps, and the latter shall erect and connect on each new lamp-post immediately such burning appliances and lamps as may be required under this contract.

14. All lanterns, cross-heads and lamp-irons used for gas lamps, which, in the opinion of the Commissioner, may become so worn out, broken or useless as to be unfit to be repaired, are to be removed and other lanterns, cross-heads and lamp-irons, substituted in lieu thereof, and mantle lamps substituted for open flame lamps, if required, by the Contractor as noted in the proposals.

15. All supplies, which under this agreement, may be required

to be furnished by the party of the first part, will be so furnished, but the cartage thereof shall be done by the Contractor.

16. Subject to the provisions of section 469 of the Greater New York Charter, the Contractor will, upon being required so to do by the party of the first part, erect new lamps in and along any or all the streets, avenues and public places within the limits aforesaid or adjacent thereto, of the districts for which the bid is made, and will light and connect such gas lamps to the standpipes of the lamp-posts of the City or the Contractor for supply of gas, when ordered so to do by the Commissioner.

17. The Commissioner may determine and designate in any locality, after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, in such locality, during the period above-mentioned; also upon such determination to decline any estimate or part thereof for lighting such locality with illuminating material other than that so determined upon.

8152 18. If the requirements of The City, under this contract, includes any lamps not erected and connected at the time of the making such estimate or bid, thirty days from the date of the execution of this agreement, and such further time as may be deemed reasonable by the Commissioner, will be allowed the Contractor in which to supply, erect and connect the lanterns on and to the standpipes of the gas lamp-posts. Such lamps and all such connections, material and labor shall be furnished by the Contractor without other expense to The City, except where such lamps of the open flame type belong to The City of New York, they will be furnished by said City to the Contractor and erected by him.

19. No payment on account of any such lamps will be made to the Contractor for the time so allowed, nor until the same shall have been put in complete service and connected with the mains or conductors of the Contractors for the supply of gas, nor will payment be made on account of supply of any lantern except for the time during which all the requirements herein mentioned shall have been fully performed in accordance with the specifications.

20. The Contractor shall indemnify and save The City harmless from any and all claims and suits for damages by reason of any infringement of patent rights in the use under this contract of any lantern or any burning appliances connected therewith, or for repairs or supplies to such lanterns or burning appliances.

21. In order that the Commissioner and his assistants may determine whether the gas lamps are lighted and extinguished in accordance with the time-table hereinbefore mentioned, the Contractor shall furnish to the Commissioner a map or maps showing the lamps in the district of each lamp-lighter, and designating
8153 the particular lamp at which each lighter commences to
light, and also the lamp at which he completes the lighting; and in extinguishing the lamps the lamp-lighter shall begin and finish at the same lamps as are designated for beginning and finishing the lighting; and the Contractor shall notify the Commissioner of any change which may be made in the beginning and finishing points on any lamp district during the term of this contract. The

Contractor shall furnish to the Commissioner a report daily and also weekly, stating therein the number and location of all new lamps fitted up and lighted, of all lamps relighted, and of lamps discontinued during the preceding day and week. Nothing herein contained shall be construed or deemed as granting to the Contractor any sole or exclusive right or privilege, or as preventing the party of the first part from granting the like privileges as are hereby given to the Contractor, to any other company, persons or parties whatsoever, or as preventing any person or persons, residing in or adjacent, or near to any of the said streets, avenues, or public places, or parts thereof, from erecting, in or upon his or their own premises, any building or apparatus, to light with gas or other illuminant his or their own house, store, manufactory or premises.

8154

WM. B. ELLISON,
Commissioner Dept. of Water Supply, Gas and Electricity.

C. F. LACOMBE,
Chief Engineer of Light and Power.

Endorsed: The City of New York, Department of Water Supply, Gas and Electricity. Contract. For Furnishing Gas Lamps, etc., on the Streets, and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining the same, and also Lamps belong-

ing to The City, supplying New Lamps when required, and 8156 for furnishing Burners and appliances for Improved System of Lighting on Streets, Avenues, Parks and Public Places in the Borough of Manhattan, in The City of New York, for the term of this Contract, from February 1st, 1906, to December 31, 1906, both inclusive. Consolidated Gas Co. of New York, Contractor. Dated May 14th, 1906. Assigned to..................
Approved as to form. John L. O'Brien, Ass't Corporation Counsel.
Dated ...., 190..

CITY'S EXHIBIT 7A.

No. 3.

THE CITY OF NEW YORK.

Department of

WATER SUPPLY, GAS AND ELECTRICITY.

BID OR ESTIMATE.

For Furnishing Gas Lamps, etc., on the Streets, etc., and for Connecting, Lighting, Extinguishing, Cleaning, Repairing and Maintaining such Lamps, and also Lamps belonging to The City, Supplying New Lamps when Required, and for Furnishing Burners and Appliances for Improved Systems of Lighting on Streets, Avenues, Parks and Public Places in the Borough of Bronx in The City of New York, for the Term of this Contract, from February 1st, 1906, to December 31, 1906, both inclusive.

Made this thirty-first day of January, 1906, by Consolidated Gas Co. of New York, No. 4 Irving Place, Borough of Manhattan, New York City.

8157 1. Consolidated Gas Co. of New York, do declare that the Consolidated Gas Company of New York is the only person, persons or corporation interested in this bid or estimate; and that no other person, persons or corporation than are herein named have any interest in this bid or estimate, or in the contract proposed to be taken.

2. It further declares that this bid or estimate is made without any connection with any other person, persons or corporation making a bid or estimate for the same work, and is in all respects fair and without collusion or fraud.

3. It further declares that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in this bid or estimate, or in the performance of the contract, work or business to which it relates, or in any portion of the profits thereof.

4. It further declares that the names of the persons affixed to the consent hereto annexed were written by said persons respectively,

and that said persons are householders or freeholders in The City of New York, or duly authorized officers or agents of a guaranty or surety company duly authorized by law to act as surety.

5. It has examined the contract (including the specifications) for the supplies and work, in the form approved by the Corporation Counsel, and it will contract, in the form so approved, to perform and complete the work mentioned in said contract and specifications, and furnish the supplies on the following terms, viz.:

8158 OPEN FLAME GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CITY.

I. For maintaining, repairing and connecting ready for use the Public Lamps and for other fixtures or appliances for illuminating material for each open flame gas lamp, including the lighting, extinguishing, cleaning, repairing, reglazing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, repairing and replacing of cocks, tubes and burners, the replacing of cross-heads, lamp-irons and lanterns, which cross-heads, lamp-irons and lanterns now owned or hereafter acquired by The City will be furnished to the Contractor and put in place by him for the amount of this bid, for the term of this contract, in the Borough of Bronx, to wit.:

For furnishing all the above for each lamp, at each lamp, for 95 in number of same, the sum of Fifty cents Dollars ($00/50) per lamp per month.

For furnishing all the above for each lamp, at each lamp, for lamps in excess in number of same, the sum of Fifty cents Dollars ($00/50) per lamp per month.

MANTLE GAS LAMPS—LANTERNS OWNED OR FURNISHED BY THE CONTRACTOR.

III. For furnishing, maintaining, repairing and connecting, ready for use, each mantle gas lamp complete with improved burner appliances and incandescent mantles, including cocks, tubes, burners, mantles, globes, chimneys, rods, regulating apparatus, cross-heads and lamp-irons, necessary for each lamp to produce a light of not less than sixty (60) candle power, and also operating it. The operation and maintenance to include the lighting, extinguishing, cleaning, reglazing, repairing and painting of lanterns and lamp-irons, the painting of cross-heads, the furnishing, re-
8159 pairing and replacing of cocks, tubes, burner appliances, mantles, chimneys, globes, rods, regulating apparatus, lanterns, lamp-irons, frames and cross-heads thereto. All the above for each lamp to be furnished by the Contractor and erected by him as required by the term of this contract in the Borough of Bronx, to wit.:

For furnishing all the above for each lamp, at each lamp, for all such lamps in the Borough of Bronx, stated to be 6,013 in number of same, the sum of One 00/100 Dollars ($1.00) per lamp per month.

For furnishing all the above for each lamp, at each lamp, for lamps in excess in number of same, the sum of One 00/100 Dollars ($1.00) per lamp per month.

IV. For the erection of each new lamp-post, according to the specifications, furnished by The City of New York, replacing one not now owned by it, with cross-heads if required, all in place, including painting, the sum of Eight 00/100 Dollars ($8.00).

CONSOLIDATED GAS CO. OF NEW YORK,
By W. R. ADDICKS, *Vice-President.* [L. S.]

8160 THE CITY AND STATE OF NEW YORK,
County of New York, ss:

W. R. Addicks, being duly sworn, says for himself, that the several matters stated in the above estimate are in all respects true.

W. R. ADDICKS.

Subscribed and sworn to before me this 31st day of January, A. D. 1906.

WALLACE YOUNG,
Notary Public, Kings County,
or Commissioner of Deeds.

Certificate filed in N. Y. County.

SURETIES' AGREEMENT.

In Consideration of the premises, and of One Dollar to us and each of us in hand paid by The City of New York, the receipt whereof is hereby acknowledged—

We, the undersigned, consent and agree, that if the contract for which the preceding estimate is made be awarded to the person, persons or corporation making the same, we will, upon its being so awarded, become bound as his, their or its sureties for its faithful performance; and if the said person, persons or corporation shall omit or refuse to execute such contract, if so awarded, and give the proper security within five days after the written notice that the same is ready for execution, we will pay, without proof of notice or demand, to the said The City of New York, or its successors, any difference between the sum to which such person, persons or corporation would be entitled upon the completion of such contract and the sum which The City of New York may be obliged to pay to the person, persons or corporation to whom the contract shall
8161 be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the SUPPLIES and WORK by which the bids are tested.

In Witness Whereof, we have hereunto set our hands, this 1st day of February, one thousand nine hundred and six.

Name of first surety—

THE UNITED STATES FIDELITY AND GUARANTY COMPANY.
By SYLVESTER J. O'SULLIVAN, *Manager.*

Attest:
GEO. E. HAYES,
Attorney in Fact.

The adequacy and sufficiency of the above-named sureties approved.

Dated this — day of May, 1906.

N. T. PHILLIPS,
Deputy & Acting Comptroller.

THE CITY AND STATE OF NEW YORK, *County of* ——, *ss:*

The above-named —— —— being duly sworn, says that he is a householder or freeholder in The City of New York, and is worth the sum of —— Dollars ($—), being the amount of the security required for the completion of the contract above referred to, over and above all his debts of every nature, *and over and above his liabilities as bail, surety and otherwise;* that he has offered himself as a surety in good faith, and with an intention to execute the bond required by law. 8162

State of New York, *County of New York, ss:*

George E. Hayes, being duly sworn, says that he is Attorney-in-Fact of the United States Fidelity and Guaranty Company, and that, to the best of his knowledge and belief, the foregoing is a true and correct statement of the financial condition of said Company, as of June 30, 1905.

GEORGE E. HAYES. (Signed.)

Subscribed and sworn to before me, this 1st day of February, 1906.

(Signed) LOUIS B. CAZIARC,
Commissioner of Deeds, City of New York.

Indorsed: The City of New York, Department of Water Supply,
Gas and Electricity. Bid or Estimate for Furnishing Gas Lamps,
etc., on the Streets, etc., and for Connecting, Lighting, Extinguish-
ing, Cleaning, Repairing and Maintaining the Same and also
8166 Lamps belonging to The City, Supplying New Lamps, when
required, and for Furnishing Burners and Appliances for
Improved Systems of Lighting on Streets, Avenues, Parks and Public
Places, in the Borough of Bronx, in The City of New York, for the
term of this contract, from February 1st, 1906, to December 31,
1906.

(Here follow City's Exhibits 47, 51 and 54, marked pp. 8167, 8168, and 8169.)

APPENDIX "F."

POOLING AGREEMENT AND APPORTIONMENT TABLES.

Memorandum for Pooling the Business of the Gas-Light Companies of this City, Preliminary to Negotiations for Consolidation.

On all sales by each company, the sum of one dollar and twenty-five cents ($1.25) per thousand cubic feet, to be set apart and form a general pool (to be divided every three (3) months under the direction of a committee to be appointed for that purpose, in the proportion of the actual sales made by each company, during the three (3) months, to wit: December, 1879, January and February, 1880.

The sales by the Knickerbocker Gas-light Company, however, for said three months, to be estimated and taken at the fixed amount of fifty-one millions, seven hundred and twenty-three thousand (51,723,000) cubic feet.

The price of gas to all private consumers to be two dollars and twenty-five cents ($2.25) per thousand cubic feet, except in the case of contracts now existing.

There shall be no canvassing or soliciting of customers.

There shall be no gas given away and no special inducements offered consumers.

A committee, of which one member shall be appointed by each company, shall supervise and decide all matters arising between the companies, in their relations to the pool, and shall superintend the distribution of the moneys pooled among the several companies entitled thereto, and make such regulations as shall be necessary for that purpose.

8171 For two (2) years from this date the Metropolitan Gas-light Company only to lay mains in the district between thirty-fourth (34th) street and Seventy-ninth (79th) street, Hudson and East rivers, but not where mains are already laid. After two (2) years from this date no company is to lay any mains in any street or avenue in which there are mains laid; it being the intention that no competing mains be laid.

The above to be continued for five (5) years, unless sooner terminated by consolidation.

Dated New York, *April* 5, 1880.

Page 219.

ACCOUNTS.

"35. The Undertakers shall fill up and forward to the local authority of every district within the limits of the special Act, on or before the twenty-fifth day of March in each year, an annual statement of accounts, made up to the thirty-first day of December then next preceding, as near as may be in the form and containing the particulars specified in the Schedule B. to this Act annexed.

The Undertakers shall keep copies of such annual statement at their office, and sell the same to any applicant at a price not exceeding one shilling per each such copy.

The Board of Trade, with the consent of the Undertakers, may alter the said forms for the purpose of adapting them to the circumstances of the undertaking, or of better carrying into effect the objects of this section.

In case the Undertakers make default in complying with the provisions of this section they shall be liable to a penalty not exceeding forty shillings for each day during which such default continues."

Appendix "D."

MR. YALDEN'S REPORT.

(Accountant's Results.)

151 Broadway, New York City,
December, 31, 1885.

To Hon. John I. Gilbert, Chairman; Hon. Thomas Robinson, and Hon. Michael C. Murphy, Committee of the Senate, New York:

Gentlemen: In accordance with a resolution, passed by your honorable body, that I should make an investigation of the affairs of the various gas companies of New York, from the time of their organization to the date of the transfer to the Consolidated Gas Company on November 11, 1884, I beg to submit the following as the result of my labors:

The companies so examined—the constituent companies of the present Consolidated Gas Company are:

1. The Manhattan Gas-light Company.
2. The New York Gas-light Company.
3. The Metropolitan Gas-light Company.
4. The Municipal Gas-light Company.
5. The Knickerbocker Gas-light Company, and
6. The Harlem Gas-light Company.

All of which were incorporated on November 11, 1884, under the title of the Consolidated Gas Company, and now carry on business at their respective offices and places—with one or two exceptions—as before the incorporation.

It being the desire (as I understand it) of the committee, and acting upon their instructions, I have ascertained, as nearly as practicable, the constitution of these companies and the manner in which their capital was raised, and what constituted it during their 8222 operations and at the time of the consolidation; likewise the profits and benefits derived by the stockholders of the various companies during their existence, and when they transferred their business.

To show these results I have compiled separate tables for each company, assimilated as near as practicable, giving:

The analysis of the profit and loss accounts.

An account showing the capital used in their business.

The investments on account of real estate, mains, meters, services, etc.

The particulars of sale to the Consolidated Gas Company.

An account showing the dividends paid to the stockholders, and a calculation thereon giving the difference between ten per cent. on the capital stock as paid up and the actual sum divided.

Manhattan Gas-Light Company.

This company was incorporated under the Laws of 1830, chapter 59, passed February 6, 1830, with a capital stock not to exceed $500,000, in $50 shares, and as soon as possible thereafter commenced its business. The first subscription of capital was shortly afterwards paid in. Subsequently, under the Laws of 1847, chapter 163, an act was passed April 29, 1847, providing for the increase of the capital of the Manhattan Gas-Light Co., to $1,000,000 in $50 shares, and up to January 1, 1851, the sum of $850,000 had been paid into the treasury in cash on account of the said stock of $1,000,000, and again under the Laws of 1852, chapter 50, an act was passed March 25, 1852, to increase the capital stock $1,000,000, at such time as the board of directors might prescribe.

8223 By a later act under the Laws of 1855, chapter 543, passed April 17, 1855, power was given to the Manhattan Gas-light Company to increase their capital stock $2,000,000 at such time as the board of directors might prescribe by resolution of said board, with power to adopt such resolution within six months from the passage of the act.

Under a resolution of the board this issue of $2,000,000 worth of stock was credited by a transfer of $18 per share, amounting to $720,000 (40,000 shares at $18 per share), from the surplus profits of the company, and the issue seems to have been made to the shareholders for the equivalent of their present holdings, and the remainder, viz, $32 per share was paid in in cash by the 1st of January, 1866.

To show the particulars of these transactions I have abstracted the details of the capital account on pages 661 to 664. By the books of the company it appears that no business was done by the company until about February 1, 1836, and the details of this for the period to November 11, 1884, I show upon statement, pages 665 to 670, being an abstract of the profit and loss account for the whole period of their doing business. It gives in totals, by yearly and five-yearly periods, the gross income and total cost of gas, and depreciation with dividends paid, and at the foot of such statement the tabulated amounts.

These particulars show that the company, during its business period, divided among its shareholders the sum of $25,847,675.66, which includes $1,500,000 (part of $2,000,000) of certificates, and the interest thereon paid to the shareholders out of the surplus profits, and likewise includes $720,000, before referred to as credited up for capital on account of the last issues of shares. After this the company had a balance to their profit and loss account of $876,134.67, which really represented the surplus capital to provide for
8224 the increased value of the assets, as shown by their books, beyond the amounts which these investments presumably cost.

The properties, etc., of the Manhattan Company were, on November 11, 1884, transferred to the Consolidated Company, at a largely increased value beyond that stated on the books of the former company, and in explanation of this appreciation or increased value of assets, as taken over by the Consolidated Company, the particulars on pages 671-672 will show the state of the accounts upon the books of the Manhattan Company when they were closed on November 11, 1884, and the value of same as taken over by the Consolidated Company.

The balance as shown thereon being $11,940,000, equal to the stock issued by the new company in payment of the properties, franchises, etc., of Manhattan Company.

The column on the debit side of this account, headed "Appreciation written up," and amounting to $7,093,462.11, gives in details the increased value placed upon the various properties and franchises beyond the amount of presumed cost or value stated in the books of Manhattan Company.

Statements are also given upon pages 673 to 683 of the capital investment for real estate, buildings and improvements, services and mains and meters, showing in detail the outlay, year by year, from the inception of the company to November 11, 1884, and giving the methods and forms in which the Manhattan Company treated their investment accounts.

A further statement on pages 684 to 690 is given of the capital stock and surplus profits, according to the books of the company, used in the business, and upon comparison will show that the Manhattan Company was in possession of ample capital, and
8225 sufficient to enable it to accumulate very large profits, and so pay the various dividends.

In July, 1863, this company sold to the Metropolitan Gas-light Company, New York, their real estate and station at Sixty-fifth street, together with the mains, services and meters in use above the center of Thirty-fourth street, for the sum of $685,301.02, and received therefor a mortgage for $161,500 and stock in the said Metropolitan Company 2,356 shares of the par value of $1,178,000.

This stock of the Metropolitan Company appears to have been placed in the hands of Moses Taylor and Henry Young in trust, and by them sold for the benefit of the Manhattan Company; the proceeds of this sale were used to pay the fifty-eighth dividend of the Manhattan Company.

The particulars of this sale, as far as I can ascertain at present, are not fully described in the books, but a complete investigation would no doubt reveal the exact manner in which this transaction was consummated.

In the early part of 1857, and continuing until October, 1863, the company was in the habit of transferring, at certain periods, an amount from profit and loss to the credit of depreciation account, creating a reserve fund to meet the wear and tear of the various properties and works, and during these years the amounts so charged to profit and loss amounted to nearly $1,000,000.

It seems, however, that the company having also provided for alterations and improvements by charging such expenses to the profit and loss account, subsequently by resolution of the board of directors in November, 1863, they re-transferred $756,288.51 to the profit and loss account, and the balance then left, $500,000, was together with

8226 $1,500,000, credited to the registered certificate account under date of June 1, 1867, to meet that amount of certificates before referred to. These registered certificates were paid in cash by the Manhattan Company by redemption and by installment from the period of December, 1871, to October, 1877, with interest at seven per cent. from the date of issue until payment.

I have compiled a statement, fol. 691-694, of the dividends paid by the Manhattan Gas-light Company during the period of its business, showing at stated periods the total capital subscribed in cash, and dividends paid, giving a comparison between a calculation of ten per cent. on the capital paid up and the dividends paid.

The result of this shows that, basing it upon the actual cash capital subscribed, amounting to $3,280,000, there was an excess of dividends paid beyond ten per cent. of $15,509,544.13.

In the year 1856, however, I have included in the dividend $18 per share on 40,000 shares, transferred from surplus profits to the credit of these shares, which, with the $3,280,000 cash subscribed, completes the full capital account of $4,000,000, but as the sum of $720,000 was credited to the capital as before stated, and subsequently treated as capital stock, I have deducted this from the amount of dividends, and reduced the excess of dividends over ten per cent., to $14,789,544.13.

From the foregoing statements the following are the benefits derived by the stockholders of the Manhattan Company from the operations from 1836 to 1884 on the subscribed capital as follows:

Total capital subscribed in cash................	$3,280,000
Transfer from surplus profits as before mentioned, $18 per share on 40,000 shares (last issue).....	720,000
	$4,000,000

8227 Dividends paid to stockholders as per account fol. 691 to 693, inclusive, of $1,500,000, part of the issue of registered certificates and interest at seven per cent, until payment	$25,847,675 66
Balance of depreciation account included in issue of $2,000,000 certificates....................	500,000 00
	$26,347,675 66
Deduct, credited to capital stock on account of last issue of shares (included in amount of dividends)	$720,000 00
Total dividends, certificates and interest thereon paid in cash	$25,627,675 66

Increased valuation beyond stated value of real estate, plant, works, mains, services, etc., in books of Manhattan Company, and the appraisement to the Consolidated Company.

Balances of the separate accounts................		$4,872,999 49
Appreciation	$4,764,462 11	
Franchises	2,329,000 00	
Total appreciation on assets...............		7,093,462 11
		$11,966,461 60
Liabilities of Manhattan Company assumed by Consolidated Company of which $400,000 was dividend	$620,740 78	
Deduct value of coal, lime, gas, consumers' accounts and other assets taken over.............	594,279 18	26,461 60
		$11,940,000 00

8228 For which stock in the Consolidated Company was issued to the stockholders of the Manhattan Company who therefore have received for the original investment of $3,280,000.

Dividends and certificates paid in cash...........		$25,627,675 66
Stock in Consolidated Company..	$11,940,000 00	
Less cash capital subscribed to the Manhattan Company	3,280,000 00	8,660,000 00
Total received beyond the original cash investment................................		$34,287,675 66

The New York Gas-Light Company.

This company is the oldest in New York and its business was continued for about sixty-one years with uninterrupted success and proved to be very profitable.

It was incorporated in the year 1823 with a capital of $1,000,000. Of this sum $200,000 was paid in shortly afterward. In 1824, 1825 and 1826 further sums were paid in, making a total of $495,000, and in the year ending November 1, 1837, the balance of $5,000 was received, making a total of $500,000.

In the following year a further $250,000 was paid, making a total cash capital of $750,000 which was the entire and total amount of cash capital subscribed by the stockholders.

The capital of this company was subsequently increased to $4,000,000 out of the surplus profits of the company, as follows:

8229 There was transferred from the surplus profits to the credit of stock account in the year ending January 31, 1862, $250,000, and in the year ending June 1, 1871, a further sum of $3,000,000 when the company was reincorporated under the general laws of the State.

The account 695-6 will give the particulars of the creation of the capital. The statement on page 697 to 707 gives the profit and loss account of their business for the period of about sixty-one years, the time it was in existence.

The large surplus profits necessary to create this new capital were nominally made up by appreciation of the value of the real estate, plant, etc., but the grounds or basis for so doing do not appear.

The dividends paid by this company, as detailed on pages 717-20 have been continuous from the year 1825 to 1884, and in some years at a very large per cent. per annum.

The total paid in cash to 1871 is	$11,714,078 50
And from 1871 to 1884	3,520,000 00
A further dividend paid by the Consolidated Gas-light Company	40,000 00
Making a total of	$15,274,078 50
Stock dividends or amounts transferred to the credit of capital stock account	3,250,000 00
Making the total profits paid in cash and transferred to the credit of stock account	$18,524,078 50

This company was, many years ago (similarly to the Manhattan Company), in the habit of transferring from their profit and loss account sundry items to provide for depreciation and wear and tear of property which in the aggregate amounted to a very considerable sum.

8230 Finally this was written back by appreciation to the Consolidated Company and the balance shown on the profit and loss resume on page 707 amounting to $3,647,258.19 is in fact the surplus profits of the company beyond the stock capital account.

The following gives the benefits the stockholders derived from the operations of this company:

Net profits, statement No. 1	$4,344,217 78
Net profits, statement No. 2	15,706,437 97
Profits written up direct to depreciation account	66,689 61
Profits on reorganization and consolidation	5,898,302 63
	$26,015,647 99

Paid in dividends exclusive of $40,000 paid by Consolidated Company	$18,484,078 50
Depreciation written off	3,884,311 30
Surplus remaining ($40,000 of this return to stockholders)	3,647,258 19
	$26,015,647 99

Total capital paid in in cash		$750,000 00
Transfer from surplus profits as before mentioned.		3,250,000 00
		$4,000,000 00

Balance of separate account		$4,670,642 03
Appreciations	$1,512,357 97	
Franchise	1,417,000 00	
		2,929,357 97
		$7,600,000 00

8231 For which stock in the Consolidated Gas Company was issued.

The stockholders have therefore received from their original investment of		$750,000 00
Dividends	$15,234,078 50	
Dividend paid by Consolidated Gas Company, January 26, 1885	40,000 00	
Received in shares of Consolidated Gaslight Company	7,600,000 00	
		22,874,078 50

Total return to stockholders above their original cash investment during the years 1823 to 1884 in dividends and stock of the Consolidated Company	$22,124,078 50
And a further estimated surplus yet to be divided of	47,258 19
Total	$22,171,336 69

Metropolitan Gas-Light Company.

This company was organized in 1858, under a special act of the Legislature with a nominal capital of $2,500,000.

Upon reference to the statement page 721, it will be observed that of this capital the sum of $612,700 only was received in cash and the remainder was paid for the charter and construction account.

On this latter account the sum of $1,178,000 was paid to the
8232 Manhattan Company for the purchase of the Sixty-fifth street
property, works, mains, etc. (reference to which is made under heading of that company), and was apparently issued in payment therefor at the rate of about fifty cents on the dollar.

This company commenced business about the year 1862, and was successfully carried on for the next twenty-two years, as will be observed by the profit and loss account on pages 722 to 726, notwithstanding the fact that dividends were paid upon a large amount of capital issued for property and franchises, a great part of which was issued at a large discount.

The dividend account on page 737-738, shows that the company commenced paying dividends in the year 1866, and continued doing so with the exception of the year 1873. The sum paid to stockholders in the aggregate including scrip certificates of $1,000,000 with interest thereon of $761,249.36 is $7,573,749.36, and it will be observed from the statement that this is an excess over ten per cent. upon the whole of the capital, of $1,973,949.36.

Upon reference to the capital investment account of real estate, property, etc., pages 728-724, it will be seen that although some of the property, plant, etc., was paid for by stock issued at a discount, the valuation to the Consolidated Company, including franchises, is largely in excess of the amount so charged as the purchase price of the same, and as detailed upon the account page 927. The cost (including the stock) of the various properties transferred to the Consolidated Company according to the books was $5,292,175.35, giving an appreciation between that and the appraisement to the Consolidated Company ($7,175,000) of $1,882,824.65.

At various times this company issued bonds and mortgages for
considerable sums upon their property, the interest thereon
8233 being charged in the regular way of business to the profit
and loss account before the profits were determined; the
amounts so outstanding and assumed by the Consolidated Company, were, for bonds $658,000 and mortgage $30,000, making $688,000, which was deducted from the appraisement of the property value, and stock of the Consolidated Company was issued for the net amount which, in round figures, was increased to $6,500,000, as hereafter shown.

In addition to this, however, there was a large amount of assets belonging to the company which were not transferred to the Consolidated Company but subsequently realized upon and the proceeds divided among the stockholders to the extent of $525,000, and there now still remains an undivided surplus of about $160,000.

The benefits, therefore, derived by the stockholders were as follows:

Total capital paid in in cash..................	$612,700 00
Total capital for charter......................	144,000 00
Total capital for purchase of Sixty-fifth street property	1,178,000 00
Total capital for construction.................	565,300 00
Making a total of........................	$2,500,000 00

Dividends paid to stockholders in cash..........	$6,500,000 00
Scrip and interest issued in 1870, subsequently paid off by installments	1,073,749 36
Stock in the Consolidated Company............	6,500,000 00
Making a total of........................	$14,073,749 36

8234 Brought forward	$14,073,749 36
To which must be added division of assets since consolidation, paid in cash	525,000 00
Present undivided surplus, say	160,000 00
Making a total of	$14,758,749 36
From which deduct the nominal amount of stock capital	2,500,000 00
Total received beyond original invesment	$12,258,749 36

This company claims to have incurred considerable loss by explosion and fire. By the books, it appears that the loss to the company on this account in 1865, was $108,960.22, $12,000 of which was charged to construction account for new coal sheds, and the balance to profit and loss account, less a small salvage realized upon coal.

In the purchase of the Sixty-fifth street station before referred to, the amount charged to the construction account, as representing the value of the property so taken at cost, and the par value of the stock appears to be the sum of $533,922.62.

MUNICIPAL AND KNICKERBOCKER GAS-LIGHT COMPANIES.

The above companies were organized in the year 1876 and subsequently merged and operated under one management up to the time of the consolidation, on November 11, 1884.

The Knickerbocker Company was formerly the Union Gas-light Company which passed into the hands of a receiver. It appears that the works of the Knickerbocker Company were partly built
8235 from funds supplied by the Bayard estate, and the advances
for that purpose amounted to about $1,200,000, which was secured by the lease between the Municipal and Knickerbocker Companies providing for the guarantee of the payment of interest and principal upon the $1,200,000 in bonds. At the same time the Knickerbocker Company stock was purchased by the Municipal for $50,000 in cash, the latter company transferring in trust the whole of its share capital, viz.: 15,000 shares, at $100, each representing $1,500,000 of stock.

The Municipal Company was incorporated July 7, 1876, with a capital of $500,000, and commenced operations by issuing 3,500 shares of stock, at par value of $350,000, to Mr. R. M. C. Graham, in consideration of the purchase of stock in the New York Oxygen Gas Company. Of this $350,000, $250,000 was returned to the treasury of the company, to be sold and used as working capital, leaving the actual cost to the company of the property acquired $100,000. The $250,000 stock was disposed of as follows:

For cash	$215,300
In payment of expenses	8,900
Discount on stock sold below par	25,800
Making a total	$250,000

And $150,000 of stock was issued to Mr. E. Stearns, agent, in purchase of a certain patent-right, known as the Du Moteé patent, and this transaction, with the stock issued to Mr. Graham, completed the entire issue of the original stock of $500,000. In 1877, a further increase of $1,000,000 was made on the capital stock of which $800,000 was paid in cash and $200,000 paid for the purchase of patents; and in 1879 a further issue of $500,000;; and in 1880 a further
8236 issue of $1,000,000, both of which were paid in cash, making the total issue of capital $3,000,000.

The particulars of the capital account are detailed on page 730.

To enable this company to provide additional capital for its plant and works, an issue was made in 1877, of $750,000 in bonds; $390,000 were sold for cash, and the balance, $360,000, was deposited as security for the purchase of real estate and other property, and of these bonds there remained at the time of the transfer to the Consolidated $291,000 the liability of which was assumed by the Consolidated Company.

In the last issue of $1,000,000 of stock, in 1880, there was included a subscription by the Bayard estate of three thousand five hundred shares, amounting to $350,000 a check for which was paid to the Municipal Company on March 16, 1880. The history of this transaction appears to be, that the Knickerbocker Company had instituted a suit against the Municipal Company for damages for the nonfulfillment of a certain contract, which action was settled by payment to the Bayard estate on the 16th March, 1880, of the sum of $300,000 and the $50,000 before referred to for the purchase of the Knickerbocker stock, making a total of $350,000 capital; a check by the Bayard estate for $350,000 was concurrently paid to the company as a subscription for the 3,500 shares so issued. This stock appears by the register of stockholders to have been subsequently transferred in part to the shareholders of the original Knickerbocker stock under arrangement between the parties. The above amount of $300,000 for damages was charged to the profit and loss account, and the $50,000 was charged up as an investment for Knickerbocker stock, so that in reality the company had paid damages and invested
8237 in the Knickerbocker stock at the expense of their capital account, and the transactions being concurrent, the company in reality parted with no money. In 1880, when the Knickerbocker property was acquired by the Municipal as before stated, the two companies were conducted under one management, and a separate set of books was kept showing the production and profits of each company at its respective works, as likewise the amounts paid out for improvements to works and mains, etc., and the cost of each was provided out of the Municipal funds. The separate profits of the two companies are shown in statement pages 740-739 and result in a surplus, during the operations, of $2,493,543.51 after payment of dividends amounting to $2,806,192.50.

The profit and loss account also contains a credit on June 30th, 1879, of $300,000 paid by the New York Gas-light Company for the right to manufacture gas by the process then in use by the Municipal Company.

The purchase of this patent in the first place was charged up to the "purchase of patents account," but the sum received for the right from another company was credited up to "income account." The total outlay by the Municipal Company for real estate, buildings, works, plant, services, mains, meters, etc., was $4,092,347.86, which was appraised to the Consolidated Company at $5,100,000, leaving an appreciation, including the franchise, of $1,007,652.14. The Knickerbocker Company's outlay for improvements, meters, plant, services, etc., provided for by the Municipal amounted to $810,481.15, but the works, the value of which is not brought into the books, were appraised to the Consolidated Company at $3,000,000 leaving an appreciation (subject to mortgage bonds) of $2,189,518.85. The total amount, therefore, of the two properties transferred to the
8238 Consolidated Company was $8,100,000, from which was deducted for liabilities $1,500,000, leaving a net amount of $6,600,000 of stock issued to the stockholders of the Municipal Company in consideration of the two properties, less the incumbrances.

In reference to the dividend account, page 750, it will be seen that the Municipal Gas-light Company commenced paying dividends in 1879 and for the six years ending 1884, paid to its shareholders the sum of $2,806,192.50, by way of dividends, to which must be added the stock of the Consolidated Company amounting to $6,600,000, making a total of $9,406,192.50.

To this, however, must be added division of assets since the consolidation already paid, $795,000, and a further surplus of about $137,000, making a total amount received and to be received by the stockholders of the Municipal Company for the original capital:

Cash dividends and surplus to be divided.........	$3,738,192 50
Add the stock of the Consolidated Company to represent the original investment of $3,000,000......	6,600,000 00
	$10,338,192 50
Deduct amount of stock capital paid in...........	3,000,000 00
Net benefits received in cash and stock beyond the original investment	$7,338,192 50

As before mentioned, the Knickerbocker stock was bought by the Municipal Company for $50,000, which was charged to an ac-
8239 count called "The Knickerbocker stock account." The stock itself, however, was transferred and held in the name of trustees, and arrangements with the old stockholders were apparently made by the subscribers to the Bayard stock of 3,500 shares, a part of the issue of 1880. When the Municipal Company was transferred to the Consolidated Company this stock was divided *pro rata* among the then stockholders of the Municipal Company, and taken at a valuation, to include plant, of $3,000,000, from which was deducted the bonded debt of about $1,137,000. The shareholders of the Municipal, therefore, were benefited in this transaction nearly $1,863,000, and by the profits accumulated from the manufacture, less the outlay upon the works and the cost of the stock, about $860,481.15.

HARLEM GAS-LIGHT COMPANY.

This company was incorporated in 1855 under the act entitled "An act to authorize the formation of gas-light companies," passed February 16, 1848, and during the first year of its existence, issued and received payment for $85,000 of stock. Within the succeeding four years it issued further capital to the amount of $262,900 of which $150,950 was issued in payment for construction and works. By subsequent issues at different periods the total stock capital was brought up to $2,000,000, of which $1,569,050 was paid up in cash, $150,950 was issued as above in payment for construction and works, $200,000 was credited by appreciation by resolution of the board, May 21, 1866, and $80,000 was issued in July, 1864 by way of scrip dividend.

The particulars of the foregoing are shown by the capital account, pages 751-752. In 1875 $150,000 in bonds bearing interest at seven per cent. per annum, payable one-half yearly were issued and 8240 subscribed for, and in 1879 a further $20,000 were taken up, making a total bonded debt of $170,000.

The company did not enter upon active business until the early part of 1857, and the results up to the time of their amalgamation with the Consolidated Gas-light Company are shown in yearly, and five yearly periods by the analysis of the profit and loss account pages 753-757.

An examination of the figures contained in the above-named analysis will show that the company during the twenty-seven years of its active business paid to its stockholders dividends to the amount of $2,329,917.25 (inclusive of the $80,000 scrip), and paid interest regularly on their bonds.

From the statement headed "Current Capital account," pages 761 to 764, it will be noted, that this company, whilst always commanding a steady business had not at all times ample capital at command. This arose to a great extent from a very large portion of the business of the company being the public lighting, which returned but a bare profit, if any, on the cost.

The rate of dividends paid by this company has at no time been excessive, averaging in many years considerably below ten per cent. (See Capital and Dividend Account pages 765-766).

The transfer of this company's property to the Consolidated Gas-light Company was effected at an appreciation of (in round figures) $1,313,000, on the real estate, buildings, retorts, plant, mains and services, and the franchises and rights were charged up at $469,082.54. (For the further full particulars of this, see particulars of sales to Consolidated Gas-light Company, page 758.) The statement shows $3,000,000 Consolidated stock issued, the actual amount of stock received, however, approximated $2,830,000—$170,000 8241 being retained by the Consolidated Gas Company, on account of liability assumed by them of the $170,000 bonds of the Harlem Gas-light Company, which have since been paid off by the Consolidated Company.

From the foregoing, and by reference to the annexed tabulated statements it will be seen that in a condensed form the following figures give particulars of total cash and capital investments and profits derived therefrom by the stockholders of the Harlem Company by way of dividends, and by sale under the consolidated scheme to the Consolidated Gas Company.

Total capital subscribed in cash, and issued for construction (cash)		$1,720,000 00
Issued by appreciation		200,000 00
Issued by scrip dividend		80,000 00
Total		$2,000,000 00
Total dividends paid to stockholders, as per account pages 765-766, exclusive of $80,000 scrip dividend		$2,249,917 25
Increased valuation beyond stated value of real estate, plant, mains, services, etc., in books of Harlem Company, and the appraisement to Consolidated Company:		
Balance of separate accounts		1,243,986 97
Appreciation	$1,312,733 98	
Franchises	469,082 54	
		1,781,816 52
		$3,025,803 49
8242 Brought forward		$3,025,803 49
Liabilities assumed by Consolidated Company:		
Bonded debt	$170,000 00	
Sundry liabilities	168,705 93	
	$338,705 93	
Deduct value of consumers' accounts, coal, tools, stores, materials, coke, cash assets, etc	142,902 44	
		195,803 49
		$2,830,000 00

This being the amount of stock issued by the Consolidated Company to the Harlem Company, viz.: $3,000,000, as shown by statement page 758, less liability of $170,000 assumed by the Consolidated Company on account of the bonded debt of the Harlem Company hereinbefore referred to.

The stockholders of the Harlem Company have therefore received for their original investment of $1,720,000 represented by stock of $2,000,000,

Dividends	$2,249,917 25
Consolidated stock as above	2,830,000 00
	$5,079,917 25
Deduct cash paid for stock	1,720,000 00
Received in cash and stock of Consolidated Company for the original investment	$3,359,917 25

8243 The foregoing gives a succinct history of the constituent companies of the Consolidated Company, and on page 775 give a tabulated statement showing the various capital accounts, the benefits, etc. On reference to this statement it will be seen that the total benefits derived by the stockholders from their investment have been, in cash dividends, surplus assets, and stock in the Consolidated Company $79,418,703.26, and in addition thereto the equivalent of the original stock in the stock of the new company.

On page 776 are shown the assets and liabilities transferred by the constituent companies to the Consolidated Company, but collected on their account, and liquidation of the current liabilities at the time of the transfer.

It therefore shows that the constituent companies really paid back to their stockholders the working capital of their separate concerns, which in the aggregate amounted to (say surplus assets)	$1,707,089 99
Add dividends paid for the Manhattan and New York Companies included under that head	440,000 00
	$2,147,089 89

THE CONSOLIDATED GAS COMPANY.

The various constituent companies were organized into the Consolidated Company at a par value of $39,078,000, which represents, according to the following schedule, the valuation and appraisement of the real estate, mains, services, etc., and other properties and franchises.

8244

	New York.	Manhattan.	Metropolit'n.	Municipal.	Knicker-bocker.	Harlem.	Total.
Street mains, valves, etc.	$950,000	$1,083,000	$971,000	$749,000	$744,000	$720,000	$5,217,000

PAGE BOUND VERTICAL

8245 Furthermore, a certain amount of stock was reserved by the Consolidated Company, amounting to $1,303,000, to be hereafter sold to provide working capital, and a sum of $2,329,000 was also reserved from such valuation of $37,775,000, to be disposed of from time to time in providing for the current obligations and bonds of the various companies.

This stock had not been disposed of at the time your committee commenced its labors, but some of the liabilities had been paid, viz.:

The bonds of the Harlem Company	$170,000 00
Notes of the Knickerbocker Company	450,000 00
Total	$620,000 00

The stock above referred to, and amounting to $3,647,940, was held by the treasurer in trust for the company at the commencement of your committee's sittings.

The time for the Consolidated Company to close its accounts for the first fiscal year is, I am informed, on the 31st of December 1885, therefore, the full result of the year's operations on the method it intends to pursue in closing up its accounts is not apparent. The monthly trial-balance to October 31, 1885, and profit and loss account to June 30, 1885, were, however, produced.

The profit and loss account to 30th June, 1885, showed net profits of $1,832,503.38, and left after payment of the first dividend of three and one-half per cent., $592,988.88 carried forward to a new account. This represents the apparent profits of the company, as made up from November 11, 1884, to June 30, 1885, the best season of the year.

8246 About the 24th of November last, a further dividend of three and one-half per cent. was declared, and made payable on the 15th December, which, at the time of declaration, had not been earned, and it is doubtful if sufficient was to the credit of profit and loss account on the date of payment—15th December.

From an examination of the accounts as submitted to me up to the 31st October, 1885, the seven per cent. dividend was not earned, nor can it be shown, in my opinion, that at the 31st December, 1885, if the accounts are made up upon a true basis of reserving a proper amount of depreciation and wear and tear, that the payment of this dividend is warranted by the earnings.

It having been represented by witnesses during the progress of the committee's labors that the wear and tear of the gas plant is about twelve and one-half per cent. per annum, it can readily be seen that such an amount has not been expended or provided for, even if you take the plant and works at the actual cost, instead of the appraised value.* It is further noticed that large sums have been expended and charged to plant, works, etc., thereby considerably increasing the apparent outlay for plant and increasing the depreciation in future years.

This question of reserving for repairs and depreciations is one that demands careful consideration, and should undoubtedly be a charge to expense account, for a fair proportionate sum yearly, even if the amount so set aside or decided upon, has not been expended.

In all well-conducted manufacturing interests such a course is pursued, to equalize the earnings and avoid an excessive charge in one year as against another, when the expenditure is variable, and chances of accidents occurring, entailing a considerable outlay to replace.

The Treasurer of the company has testified that it was neces-
8247 sary to borrow money to pay the dividend, and to meet that
obligation the company discounted $600,000 worth of notes
with their bankers, pledging their receipts therefor to meet them at
maturity.

From the foregoing it is evident that the profits of the company are exhausted in the payment of the dividend. It must, however, be considered that some of the obligations of the old companies have been paid off, and, there being no working capital to provide for the cash assets, excepting the credit obtained for supplies, the company, of necessity, must be a borrower, and, to provide means to carry on their business, they have contracted loans from February, 1885, which must continue unless more capital stock is subscribed, or a surplus fund created out of profits.

The stated object of consolidation being to reduce the price of gas by curtailment of expenses, centralizing their works, and manufacturing at the minimum of expense, has not, to any extent, been effected. The cost of the executive management is large (amounting to $75,000 per annum), while, in many instances, other expenses remain the same, and what has been gained by the consumers in the nominal reduction of the price of gas from $2.25 to $1.75 per thousand feet is largely accounted for by the decrease in leakage from the closing of mains formerly in use.

The fact still remains, however, that the Consolidated Company is
now paying to its shareholders, who were stockholders in the old
companies, dividends approximating in amount the dividends re-
ceived by them on their corresponding holdings in the constituent
companies; and while the consumers may have benefited by
8248 the cost of gas from reduction of expenses, no concession is
made by the shareholders.

The gas produced and distributed by the company for one year ending November 11, 1885, is estimated at 3,820,000,000 cubic feet, and has produced a profit of about sixty-five cents per thousand feet or thirty-eight and one-quarter per cent. of the average receipts ($1.70 per thousand feet) from consumers as profits.

It appears by the London gas companies' accounts that a larger quantity of gas (4,234,164,000 cubic feet) is produced by the South Metropolitan Gas Company on a capital of $11,401,800 and the price to consumers per thousand cubic feet is sixty-eight cents, while the shareholders receive a dividend of about twelve per cent. for the year 1884. The capital used to produce this quantity is $2.69 per thousand cubic feet, while in the Consolidated Company of New York upon the present capitalization $10.23 is required.

It is quite evident from the workings of this company that little relief can be extended to gas consumers beyond the present price charged, if the stockholders expect a continuous dividend of seven per cent. upon the present capitalization. Some relief might be afforded by consolidating the various works, and so curtail expenses to a minimum, and avoid the use of unnecessary mains to decrease the loss of gas, which, in the year 1883, amounted (including the consumption at works) to fifteen per cent. of the total produced. Should this be adopted, and a fair dividend paid upon the actual capital invested, the cost to consumers will be materially lessened.

The stock of the Consolidated Company is listed on the New York Stock Exchange, and considerable dealings have taken place.

8249 An investigation of the stock accounts show that while a few of the original stockholders have increased their holdings, new holders have acquired 50,662 shares out of a total of 354,300 shares allotted to the stockholders of the constituent companies. With the exception, therefore, of about one-seventh, the shares are now held by the same parties who held them before the consolidation.

NEW YORK MUTUAL GAS-LIGHT COMPANY.

This company was organizd under chapter 651, Laws of 1866.

Its original share capital was $500,000 which in 1870 was increased to $5,000,000.

The books of the company open in November, 1871, with entries tending to show that the whole of the capital of $5,000,000 was allotted as fully paid to the parties contracting to supply the buildings, materials, plant, mains, services, etc., but this seems to have been merely a technical transaction to render the capital legally issued as fully paid.

The contractors appear to have donated the stock to the treasury of the company, and it was then issued to subscribers at fifty cents on the dollar, the whole of the original buildings, materials, plant, mains, services, and real estate being paid for in cash out of the proceeds of such stock sales.

The company commenced active business toward the close of the year 1873, and during the twelve years ending December 31, 1884, after paying dividends to the amount of $3,612,500 accumulated a credit balance to their profit and loss account of $3,129,708.40, a considerable portion of which has been expended in general construction, mains, services, etc.

In 1871 the company made a first issue for cash of $220,000 on account of a total issue of $1,000,000 of first mortgage bonds,

8250 bearing six per cent. interest, redeemable at the option of the company. This issue was continued during 1872, 1873 and 1874, and the last $100,000 issued during 1878. The whole of the loan was redeemed during the four succeeding years.

In 1882 the company made a second issue of $1,500,000 six per cent. mortgage bonds, exchanging these for a like amount of capital stock at par, thereby reducing the stock capital to $3,500,000.

Part of these bonds have since been bought up by the company, so as to leave now on account of unredeemed bonds at the close of 1884, $1,296,000.

Against this, and ostensibly to meet this liability when due, the company has from time to time invested its surplus profits in United States bonds, and now hold $900,000 par value.

The company does not appear to have materially appreciated or depreciated its assets, the cost of repairs and maintenance having been periodically charged against income, thereby effecting, though in a less direct manner, the ends gained by a direct charge to depreciation.

Irrespective of the above, however, the company has, at different periods, written off the sum of $176,500 on account of patents purchased and worked, which have proved of no value.

The analysis of profit and loss accounts, page 768 gives the workings of the company in yearly periods and particulars of the dividends paid, and the subscription and repayment of first and second mortgage bond issues, will be found on page 767.

Page 770 gives particulars of the real estate investments, which will stand at the figures of the original investment, and page 771 gives particulars of the investments other than real estate.

The balance sheet page 767 gives the exact position of the company on December 31, 1884.

8251 The Mutual Company, it was originally intended should join in the consolidation, but for reasons they did not do so. The original capital of the Consolidated Company was fixed at $45,000,000, and the proportion of the Mutual being $5,922,000, the present capital of the Consolidated Company was reduced to that extent.

EQUITABLE GAS-LIGHT COMPANY.

This company was incorporated in 1882 with an authorized capital of $2,000,000, which was subsequently increased to $3,000,000; it commenced business in 1882 by the purchase of the patent rights belonging to Mr. Jermanauski for $1,000,000 in fully paid shares of the capital stock of the company; Mr. Jermanauski then donated $500,000 of this stock to the company for the purpose of providing working capital to build works, etc.

This stock was all sold at par, and paid for in cash.

In addition to the above item $190,000 in shares were issued at par in part payment on contract for the erection of works.

The remainder of the capital, $2,310,000, has all been subscribed for, payable in installments, on account of which $1,742,247.68 has been paid in cash up to November 30, 1885, $432.32 interest allowed on anticipated payments, leaving a balance still to be paid in of $567,320.

The company has issued besides $1,000,000 in coupon bonds, and owes on mortgage on its real estate and works the sum of $400,000, making the total capital upon which it is at present operating $3,832,680. On the first November, 1885, to which time the accounts were taken out, this item stood at $3,737,865.

The investments for works, etc., against this capital including the $500,000 for patents, amount to $3,381,850.10, and the difference is made up of cash in bank, value of materials on hand, and bills against consumers, due and unpaid, amounting to $350,614.90. Of this sum, however, considerable amounts are being expended for real estate (over $500,000) to provide additional works to increase production. 8252

This company did not commence to produce and distribute gas until the month of December, 1884, and has sent out during the eleven months 253,118,800 cubic feet, and is now producing a maximum of about 2,500,000 cubic feet per diem.

The various companies before referred to comprise all the gas companies doing business in New York city, exclusive of those east and north of the Harlem river.

Respectfully submitted,

J. YALDEN,
Public Accountant and Auditor,
151 *Broadway, New York.*

Net excess of dividends over ten per cent per annum	....	....	......	*$15,509,544 18			*$15,509,544 18	

NOTE.

Total Dividends paid as above	$25,847,675 66
Deduct—Stock dividend credited to stock account of new issue of shares as per resolution of board passed Oct. 30, 1855.....	720,000 00
	$25,127,675 66

As the above stock dividend is included in the amount of dividends paid during the year ending January 1st, 1856 ($905,441.67), that amount must be decreased to $185,441.67, leaving the calculations for that period as under. viz.:

YEAR ENDING	Capital paid up.	Dividends paid.	Rate per cent per annum.	Amount at 10 per cent per annum on paid-up capital.	Amount in excess of 10 per cent.	Deficiency below 10 per cent
1856 January 1	$2,050,000 00	$185,441 67	9.05	$205,000 00		$19,558 3.
And the total amounts as follows		$25,127,675 66		$10,338,131 53	$15,273,688 97	$486,144 84
Less amount at 10 per cent per annum on paid-up capital		10,338,131 53				
Less deficiency below 10 per cent per annum on paid-up capital					486,144 84	
Net excess of dividends over 10 per cent per annum		$14,789,544 13			$14,789,544 13

8371 APPENDIX "E."

SUMMARY STATEMENT OF THE CAPITALIZATION OF THE CONSOLIDATED COMPANY AND ITS CONSTITUENT COMPANIES AS TAKEN FROM THEIR BOOKS BY THE EXPERT.

No. 51 BROADWAY, NEW YORK. *March* 13, 1885.

To the Honorable Committee of the Senate, New York:

GENTLEMEN: In accordance with your instructions to investigate the accounts of the several gas companies in New York city, I have the honor to report as follows:

My attention has been particularly directed to the accounts of the following companies: The Manhattan Gaslight Company, the Metropolitan Gaslight Company, the New York Gaslight Company, the Harlem Gaslight Company, the Municipal Gaslight Company, the Knickerbocker Gaslight Company, the New York Mutual Gaslight Company, and as far as practicable, I have extracted therefrom the statistics as to quantities and cost of gas, the expense of distribution, profits, etc., and capital employed; the full particulars of which are fully detailed on the statements herewith (pages).

In many cases it has been possible to gather the information very fully for the period of ten years, from 1875 to 1884 inclusive, but in the cases of the Municipal and Knickerbocker only for the period while the former has been in existence, and in the latter company from the time it became amalgamated with the Municipal, and in these cases, as separate books were kept, they are shown separately.

A summarized statement for the ten years of five of the

8372 companies which have operated, is shown on pages

A summary of the operations of the various companies for the year 1883, is also shown on pages

On the 11th of November, 1884, all the companies before named excepting the New York Mutual Gaslight Company were organized under the name of the Consolidated Gaslight Company, with a capital of	$45,000,000
By reason of the Mutual not joining in the consolidation, the amount was reduced by	5,922,000
Reducing the original amount of stock to	$39,078,000
Of this there was apportioned to the various companies in payment of their plant, works, real estate, franchises, etc.	37,775,000
Reserving for working capital	$1,303,000

The following gives the details of the valuation:

PAGE BOUND

8373 The Consolidated company having assumed the liabilities of the several companies, the issue of stock to the various stockholders of the old companies was further reduced by the amount of such debts, and finally adjusted at $35,430,060, as follows:

Companies.	Gross value of property.	Deduction for debts.	Amount of stock to be issued.	Amended amount of stock issued per journal, fol. 21.
New York	$7,560,000	$6,600	$7,554,000	$7,560,000
Manhattan	11,940,000	....	11,940,000	11,940,000
Metropolitan	7,175,000	688,000	6,487,000	6,500,000
Municipal	5,100,000	328,000	4,772,000	6,600,000
Knickerbocker	3,000,000	1,137,000	1,863,000	
Harlem	3,000,000	170,000	2,830,000	2,830,860
Totals	$37,775,000	$2,329,000	$35,446,000	$35,430,060

The following statement will show the capital stock of the old companies, and the value of the stock in the Consolidated company given in exchange therefor:

Companies.	Capital stock.	Capital stock in the consolidated company.	Proportion of new stock to old stock.
New York	$4,000,000	$7,560,000	189
Manhattan	4,000,000	11,940,000	298½
Harlem	2,000,000	2,840,000	*142
Metropolitan	2,500,000	6,500,000	260
Municipal	3,000,000	4,750,000	158⅓
Knickerbocker	1,500,000	1,850,000	123⅓
	$17,000,000	$35,440,000	

The Knickerbocker company was purchased by the Municipal Company in 1880, which assumed its assets and liabilities, and although the works of each appear to have been since carried on separately, and distinct accounts kept, the books of the Consolidated company show an issue of stock of $6,600,000, in satisfaction and presumed payment of the value of the combined properties.

The original stock of the Knickerbocker Company, 15,000 shares ($1,500,000), is held as follows:

8374 By Chas. G. Francklyn, Oswald Ottendorfer, Harrison E. Gawtry, Philip Allen and Henry Day, as trustees	14,995 shares.
And one share in each of the names of the separate trustees	5 shares.
	15,000 shares.

ERTICAL IN BOOK

but there are liabilities of the company on bonds of about $1,150,000.

The books of the Knickerbocker prior to 1880 not being forthcoming, I am unable to state more fully the status of the company.

The results of my examination, given upon the accompanying sheets, pages —, have been extracted from the various companies' books as the accounts are made up, with the intention of showing the cost and expense of distribution of gas, and other matters pertaining to the income and expenses of the several companies, and to conform with the amount of profits made, and either paid as dividends or accumulated to the credit of profit and loss account.

The real estate and other property, works, plant, etc., accounts as standing on the books of the companies have not yet been examined, nor can I yet report in what way or manner the investments were originally paid for. It may be said that in most cases the appraisement for the transfer of the properties to the new company in excess of these figures—independently of the franchises, $7,781,000—and pending further investigation it cannot be reported whether the various accounts have borne their proper depreciations by repairs or reserving a certain sum from revenue yearly.

8375 The working capital employed by the various companies have been taken at the amounts standing on the books as shown on the statements, but while adopting these figures as a basis, some question may arise whether it is not excessive by reason of investments for real estate, etc., not actually required for the purposes or conduct of the business.

Respectfully submitted,

J. YALDEN.

8394 UNITED STATES OF AMERICA,
Southern District of New York, ss:

I, John A. Shields, Clerk of the Circuit Court of the United States of America, for the Southern District of New York, in the Second Circuit, do hereby Certify that the foregoing pages (Volume 2, Exhibits), numbered from 7682 to 8393 inclusive, contain a true and complete transcript of the record and proceedings had in said Court, in the cause entitled Consolidated Gas Company, Complainant-Appellee, against Julius M. Mayer, as Attorney General, *et al.*, Defendants-Appellants, as the same remain of record and on file in my office (Volume 2, Exhibits).

In Testimony Whereof, I have caused the seal of the said Court to be hereunto affixed, at the City of New York, in the Southern District of New York, in the Second Circuit, this 15th day of May, in the year of our Lord One Thousand Nine Hundred and eight and of the Independence of the said United States the One Hundred and thirty-second.

[Seal of U. S. Circuit Court, South. Dist. New York.]

JOHN A. SHIELDS, *Clerk.*

[Endorsed:] United States Circuit Court of Appeals for the Second Circuit. —— —— *vs.* —— ——. Transcript of Record from the Circuit Court of the United States for the Southern District of New York.

8394a Circuit Court of the United States, Southern District of New York.

Consolidated Gas Company of New York, Complainant,

vs.

Julius M. Mayer, as Attorney General of the State of New York, *et al.,* Defendants.

Before Arthur H. Masten, Esq., Special Master.

THE CITY OF NEW YORK, *ss:*

....

being duly sworn, deposes and says, that the items in the bills specified in the above schedule are correct; that the services specified and articles therein enumerated have in fact been performed and furnished, and by due authority; that the prices charged therein are reasonable and just; that no perquisites, commissions or allowances of any kind, other than as stated in the said account, have been or will be paid, directly or indirectly, in consideration of the procurement of said articles or services; and that the said bills have not been either in whole or any part paid, satisfied or as-igned, and that the full amount is now justly due.

....

Sworn to before me, ...190 .

......................,
Notary Public,

8404 I certify that I have duly examined the above account, and compared the same with the contract, and that the work done is in accordance therewith, and that payment is due thereon, as specified in the above account, as per contract.

C. F. LACOMBE,
Engineer of Surface Construction.

I hereby certify that I have examined the above account and believe it to be correct; that the articles therein specified were necessary and have been received in good condition by this Department, for the use and on account of The City of New York; that the prices charged are just and reasonable, and such services as are therein specified have been properly performed; and that the said articles have been or will be used for and applied to the service and for the purposes of The City of New York, and that the payment of the amount of said account will not exceed the unexpended balance of the sum duly appropriated by law for the purpose thereof.

..........................,
Commissioner of Water Supply, Gas and Electricity.

Received at the office of the Comptroller, in The City of New York, this .... day of .... 190.., from Edward M. Grout, Comptroller, a warrant on the Chamberlain for the sum of ..../100 Dollars, in full payment of the above amount.
$.......... ....

Endorsed: Voucher No...... Requisition No.... Department of Water Supply, Gas and Electricity. Lamps and Gas. Consolidated Gas Company. Lighting Public Lamps. Month of January, 1905. $34,664.15. Sworn to before me this 16th day of March, 1905.

(Sgn.) LOUIS ARNSTEIN,
Commissioner of Deeds.

8407 STATE OF NEW YORK,
County of New York, ss:

Colin C. Simpson, being duly sworn, says that he is the General Superintendent of Lamps of the Consolidated Gas Company, being the corporation which, on or about ....entered into an agreement with the City of New York, for the furnishing, operating, and maintaining of gas lamps in, and for lighting the streets, public buildings and parks of the Borough of Manhattan, in said City, for the term of one year from January 1, 190 .

That during the month of January, 1905, the said corporation duly performed and fulfilled the said contract in all the particulars and conditions therein described to be performed and fulfilled upon its part; and particularly that during said month it furnished the illuminating material of the quality in the said contract specified, that all the lanterns specified in the annexed bills, were, during said month cleaned three times in each week of said month; and, also, that the gas burners during said month consumed Three (3) cubic feet of gas each per hour, as required by said agreement, during all the time that the lamps were required to be kept lighted in said month.

That this deponent is able to make the foregoing affidavit for the reason that it is his duty, on behalf of said corporation, to ascertain whether or not it has complied with the particulars and conditions of the said contract; and that he has examined the books and

records of the said corporation and has received reports from its various subordinates charged with such duties, by which
8408 records and reports he is informed that the statements herein made are in each and every respect correct.

(Signed) COLIN C. SIMPSON.

Sworn to before me this 2d day of February, 1905.

(Sgn.) WALLACE YOUNG,
Notary Public, Kings County.

Certificate filed in N. Y. County.

STATE OF NEW YORK, *County of New York, ss:*

Colin C. Simpson, being duly sworn, deposes and says that he is the Gen'l Supt. of Lamps of the Consolidated Gas Company, being the corporation which, on or about .... entered into an agreement with .... for the furnishing, operating, repairing and maintaining of gas lamps in, and for lighting the streets, public buildings and parks of the Borough of Manhattan, in The City of New York, for the term of .... years from ....

That during the month of January, 1905, the said corporation fully performed and fulfilled the said contract in all the particulars and conditions therein described to be performed and fulfilled upon its part; and particularly that during said month the gas lamp-posts, charges for the removal, shifting, changing of location or repairs of which are contained in the annexed bill of the Consolidated Gas Company for said month, were removed, shifted, changed or repaired as in said bill specified; that the work was done by order of the Department of Water Supply, Gas and Electricity, and that the prices charged and the work done are in all respects in accordance with the terms of said contract.

8409 That this deponent is able to make the foregoing affidavit for the reason that it is his duty, on behalf of the said corporation to ascertain whether or not it has complied with the particulars and conditions of the said contract; and that he has examined the books and records of the said corporation and has received reports from its various subordinates charged with such duties, by which records and reports he is informed that the statements herein made are in each and every respect correct.

(Signed) COLIN C. SIMPSON.

Sworn to before me this 2d day of February, 1905.

(Signed) WALLACE YOUNG,
Notary Public, Kings County.

Certificate filed in New York County.

November 27, 1906.

The People of the State of New York, by the Grace of God, free and independent, to all to whom these presents shall come, Greeting:

Whereas, in the last section of the act entitled "An Act relative to improvements touching the laying out of Streets and roads in the City of New York and for other purposes" passed the third day of April one thousand eight hundred and seven it is recited and enacted in the words following to wit: "*And Whereas* for the purpose of duly regulating and constructing slips and basins and for running out wharves and piers it is essential that the right to the land under water below low water mark should be vested in the corporation of the City of New York Be it therefore further enacted That it shall and may be lawful for the Commissioners of the Land Office and they are hereby directed to issue Letters patent granting to the Mayor, Aldermen and Commonalty of the City of New York and their successors forever all the right and title of the people of this State to the lands covered with water along the easterly shore of the North or Hudson River contiguous to and adjoining the lands of the said Mayor, Aldermen and Commonalty within the said City of New York at and from low water mark and running four hundred feet into the said river from Bestaver's Killetje or river to the distance of four miles to the North along the easterly shore of the said North or Hudson River and also all the land covered with water along the westerly shore of the East River or sound contiguous to and adjoining the lands of said Mayor, Aldermen and Commonalty at and from low water mark and extending four hundred feet into the said river or sound from the North side of Corlaer's Hook at the northerly boundary of the lands covered with 8411 water whereof the said Mayor, Aldermen and Commonalty are now seized to the distance of two miles to the North along the westerly shore of the said East River or sound. Provided always that the proprietor or proprietors of the lands adjacent shall have the pre-emptive right in all grants made by the Corporation of said city of any lands under water granted to the said Corporation by this Act." Now Therefore in order to carry into effect the provisions contained in the said section Know Ye that we have given, granted and confirmed and by these presents do give, grant and confirm unto the Mayor, Aldermen and Commonalty of the City of New York All the aforesaid pieces or parcels or land under water situate in the said City of New York abutted, bounded and described in manner and form as in the said section as above mentioned. Together with all and singular the rights, hereditaments and appurtenances to the same belonging or in any wise appertaining. To Have and to Hold the above described and granted premises unto the said Mayor, Aldermen and Commonalty of the City of New York and their successors as a good and indefeasible estate of inheritance forever.

In Testimony Whereof we have caused these our Letters to be made patent and the Great Seal of our said State to be hereunto affixed.

Witness our trusty and well beloved Daniel D. Tompkins, Esquire, Governor of our said State, General and Commander in chief of all the militia and Admiral of the navy of the same at our *our* City of Albany, the twenty-sixth day of December in the year of our Lord one thousand eight hundred and seven and in the thirty-second year of our Independence.

8412 I have examined the within Letters-patent and do certify that the same are conformable to the order and proceedings of the Commissioners of the Land Office and in due form of law. John Woodworth, Att'y Gen'l. Passed the Secretary's Office the 26th day of December, 1807. Ben. Ford, Dep. Sec'ry.

CONSOLIDATED GAS COMPANY OF NEW YORK, Complainant,

vs.

JULIUS M. MAYER, as Attorney General of the State of New York; WILLIAM TRAVERS JEROME, as District Attorney of New York County; FREDERICK E. GUNNISON, JOHN C. DAVIES, and LUCIAN L. SHEDDEN, Constituting the New York State Commission of Gas and Electricity, and THE CITY OF NEW YORK, Defendants.

Before Hon. Arthur H. Masten, Special Master.

Report of Marwick, Mitchell & Co., Chartered Accountants.

Employed by the City of New York.

NEW YORK, *November* 26, 1906.

To Hon. William B. Ellison, Corporation Counsel, Solicitor for the Defendant, The City of New York, William P. Burr, Esq., of Counsel.

8419 GENTLEMEN:

In accordance with your instructions, we have made an examination of the Operating Accounts of the Consolidated Gas Company of New York to ascertain the cost of gas supplied to private consumers in the City of New York by that Company during the year 1905. In submitting this report, we incorporate in it our criticisms of the Company's Exhibit No. 94, a Summary of Operations for 1905, submitted by the Complainant in the above entitled action. We also submit the Exhibits and Schedules specified in the Index attached hereto.

To co-operate with and advise us on all matters requiring technical engineering knowledge during the course of our examination, a Board of Advisory Engineers was appointed, consisting of Mr. C. V. Lacombe, Chief Engineer of the City of New York, Mr. H. H. Edgerton, Gas Engineer, and Dr. W. D. Marks, Consulting Engineer. At the first meeting of this Board, Mr. Lacombe was elected Chairman. Thereafter meetings were held twice weekly. Minutes of these meetings, twelve in number, were regularly kept to record the decisions of the Board on the various subjects discussed. Copies thereof are submitted in Exhibit "A," as we have occasion, during the course of this report, to refer to them in detail.

We examined all the vouchers and payrolls, approving those which appeared to be proper charges to their respective accounts, and rejecting those which failed to meet our requirements. Those of the latter category were then scheduled and submitted to the Advisory Board of Engineers, who either supported the objections taken by us or admitted the expenditure as reasonable charges to the Manufacture and Distribution of Gas. Upon completion of this examination by the Advisory Board, we scheduled the
8420 rejected vouchers by stations; for example, all charges to 14th Street Station for Repairs to Apparatus, were included in a separate schedule. Thus arranged, these expenditures were again submitted to the Board. Their final disposition of the item is recorded in the Minutes of their meetings.

By working night and day with three shifts of assistants, we checked the postings of the Operating Ledger and satisfied ourselves that all the vouchers pertaining thereto had been produced for our inspection. We also made a thorough examination of the payroll tickets of the workmen.

We verified the output of gas by making a substantial test check of the Consumers' Ledgers in the various offices of the Company.

CONCLUSIONS.

We now submit the general conclusions at which we have arrived.

1. We find that the total cost of manufacturing and distributing the gas sold to private consumers in the City of New York by the Consolidated Gas Company during the year 1905, was 52.50 cents per 1,000 cubic feet. This cost includes a charge for depreciation of 1.71 cents per 1,000 cubic feet, the same as made by the Company in its accounts.

2. We further find that Exhibit No. 94 as submitted by the Consolidated Gas Company in support of their contention that the cost of gas for 1905 was 74.81 cents per 1,000 cubic feet, includes a

8421 number of charges which do not appear to us to be properly applicable to the cost of Manufacturing and Distributing Gas. The following is a summary of the amounts excluded by us:

	Amount per 1,000 cu. ft.	
Cost of Street Lamps	2.18	cents
Interest on Consumers' Deposits	.39	"
Interest on Funded Debt	7.32	"
Tax on Surplus Profits, etc	1.68	"
Legislative and Franchise Litigations, etc	.61	"
Contingencies, less 1.71 cents allowed as Depreciation	8.29	"
Profit added to cost of gas purchased	1.08	"
Adjustment of Gas Stove Accounts	.92	"
Sundry Adjustments	*.16	"
	22.31	cents

---

* Red ink in original.

3. The cost of manufacturing, included in the total cost of 52.50 cents per 1,000 cubic feet, amounts to 32.39 cents, contrasted with an average cost of 29.14 cents for the companies supplying gas to the Consolidated Company under agency contracts, as shown by their statements rendered to the latter Company.

DETAILED REPORT.

QUANTITIES OF GAS MANUFACTURED, PURCHASED AND SOLD.—We here submit a summary of the record of Gas Manufactured, Purchased under Agency Agreements, and sold to consumers and to the City for Public Lighting, as more fully detailed in Exhibit "B":

8422

These figures differ from those submitted by the Consolidated Gas Company inasmuch as they take into account the quantities of gas on hand at the beginning and the end of the period. In arriving at them no account was taken of the unmetered gas. This, however, would not materially change the difference here treated as a leakage.

In order to determine the different costs per 1,000 cubic feet, it is necessary to divide the manufacturing expenses by 10,657,810,000 cubic feet, the quantity manufactured; the expenses of manufactured and purchased gas by 13,589,988,922 cubic feet, and the distribution and general expenses by 13,012,384,090 cubic feet, the quantity sold to General Consumers, excluding Public Lamps and other Companies.

EXHIBIT No. 94, SUMMARY OF OPERATIONS FOR THE CALENDAR YEAR 1905.—As a matter of record, we submit in Exhibit "C" a copy of Exhibit No. 94, Summary of Operations for the Calendar Year 1905, as submitted by the Complainants, the Consolidated Gas Company of New York.

8423 In Exhibit "D" we submit the same statement, prepared by us in greater detail and adjusted in acordance with the facts brought out by our investigation.

The following is an abstract of the two Exhibits "C" and "D":

(Here follow facsimiles marked pp. 8424, 8425, and 8426.)

8427 From the above it will be observed that the Gas Company make their total Operating Cost $9,936,910.42, or 74.81 cents per 1,000 cubic feet. By eliminating certain items which do not properly apply thereto, we make the cost $6,922,738.34, or 52.50 cents per 1,000 cubic feet, a difference of $3,014,172.08 or 22.51 cents per 1,000 cubic feet. Before discussing the various items to which we have taken exception, we would explain that there is a very material difference between the methods to be adopted in determining what charges can properly be made to a Profit and Loss Account and what to a statement of the cost of an article or unit of its manufacture. The Gas Company, in the statement submitted by them, has included all the charges included in their Profit and Loss Account. In our opinion, such a procedure is distinctly wrong for the reasons that we hereafter state in referring to the items.

Accounts 1-33, Net Amount of Material and Labor, $3,101,832.24.—The net amount of Material and Labor represents the aggregate of all items of material and labor less the amounts received for Residuals sold. It is equivalent to 29.10 cents per 1,000 cubic feet of gas manufactured. We examined the items comprising this total and found them correct. In addition, we made an analysis of the Manufacturing Records, which contain in detail the manufacturing averages and results. As these will, in all probability, be of assistance to the engineers in drawing their conclusions, we submit them in Exhibit "E," as follows:

COAL GAS STATIONS.

Part "1"	14th Street Station.
Part "2"	42nd Street Station.

8428

WATER GAS STATIONS.

Part "3"	21st Street Station.
Part "4"	44th Street Station.
Part "5"	99th Street Station.

Account 34, Repairs to Apparatus.—The amount charged under this classification, together with the amounts improperly charged to Operating Expenses, being correctly Construction items, are shown by stations with the relative cost in the following statement:

Station.	Labor.	Material.	Total cost.	Per M cu. ft. mnfd., cents.	Amount rejected.	Amount allowed.
14th Street....	$28,962.02	17,919.15	46,881.17	3.55	112.50	46,768.67
21st Street.....	26,506.22	37,739.83	64,246.05	1.42	1,568.90	62,677.15
42nd Street....	13,278.16	10,306.38	23,584.54	1.90	105.00	23,479.54
44th Street....	10,838.99	11,486.08	22,325.07	.98	144.40	22,180.67
99th Street....	6,988.13	5,172.43	12,160.56	.93	203.18	11,957.38
	$86,573.52	82,623.87	169,197.39	1.59	2,133.98	167,063.41

Authority for these rejections, as detailed in Schedule "2," will be found in Minutes of Meetings dated November 10.

Account 35, Repairs to Buildings.—Under this heading the amount charged along with the amounts improperly charged against Operating Expenses, are shown in the following statement, the details being included in Schedule "3." Authority for these rejections will be found in Minutes of Meetings of the Advisory Board held on November 10.

Station.	Labor.	Material.	Total cost.	Per M cu. ft. mnfd., cents.	Amount rejected.	Amount allowed.
14th Street....	$3,323.74	1,168.47	4,492.21	.34	....	4,492.21
21st Street....	5,049.95	3,854.66	8,904.61	.19	15.00	8,889.61
42nd Street....	3,361.99	1,204.39	4,566.38	.37	48.50	4,517.88
44th Street....	2,887.04	755.01	3,642.05	.16	25.00	3,617.05
99th Street....	1,584.06	1,711.38	3,295.44	.25	....	3,295.44
	$16,206.78	8,693.91	24,900.69	.23	88.50	24,812.19

8429 Account 36, Repairs to Tools and Implements.—This account, together with the cost of manufacture per 1,000 cubic feet manufactured at each station, is as follows:

Station.	Labor.	Material.	Total cost.	Per M cu. ft. Mnfd., cents.
14th Street..........................	$1,425.54	4,427.95	5,853.49	.44
21st Street	1,510.85	1,973.11	3,483.96	.08
42nd Street..........................	3,669.75	907 86	4,577.61	.37
44th Street.	1,274.42	221.42	1,495.84	.07
99th Street..........................	710.25	107.33	817.58	.56
	$8,590.81	7,637.67	16,228.48	.15

The charges are proper ones against the Cost of Manufacturing Gas.

Account 37, Expenses.—This account is classified as follows:

Station.	Labor.	Material or sundries.	Total.	Per M cu. ft. Mnfd., cents.
14th Street..........................	$6,444.83	3,622.91	10,067.74	.76
21st Street	13,998.23	6,735.76	20,733.99	.46
42nd Street..........................	7,188.08	4,124.21	11,312.29	.91
44th Street..........................	4,669.53	3,911.02	8,580.55	.38
99th Street..........................	5,874.69	2,447.71	8,322 40	.64
	$38,175.36	20,841.61	59,016.97	.55

It is composed of proper charges to the cost of Manufacturing Gas.

ACCOUNT 38, DISTRIBUTION.—This account is made up as follows:

Station.	Labor.	Material.	Total.	Mnfd, cents. Per M cu. ft.
14th Street........................	$7,389.15	3,894.04	11,283.19	.86
21st Street	5,425.01	9,498.95	14,923.96	.33
42nd Street........................	1,916.51	....	1,916.51	.15
44th Street........................	1,825.00	....	1,825.00	.08
99th Street........................	1,855.13	51.55	1,906.68	.15
	$18,410.80	13,444.54	31,855.34	.30

8430 The charges included in this Account also appear to be proper charges to the Manufacture of Gas.

ACCOUNT 39, EXPERIMENTS.—An amount of $3,030.08, or .03 cents per 1,000 cubic feet of gas manufactured, has been charged on account of "experiments," to the Cost of Manufacturing Gas. This is, in our opinion, a legitimate charge and we have accordingly allowed it.

ACCOUNT 40, PROFIT AND LOSS ADJUSTMENT.—There is a credit balance of $7,508.39 on this account. It is made up of Sundry credits on account of sales of scrap iron, etc. It represents .07 cents per 1,000 cubic feet of gas manufactured.

ACCOUNT 41, DISTRIBUTING STATION EXPENSES.—This account, amounting to $56,538.57 or .53 cents per 1,000 cubic feet of gas manufactured, is made up as follows, and the charges are, in our opinion, proper:

	Station.					
	18th St.	63rd St.	65th St.	111th St.	Inwood.	Total.
Coal	....	....	....	2,301.03	35.31	2,336.34
Coke................	$1,226.75	1,701.25	3,451.75	3,368.10	......	9,747.85
Water	458.84	961.20	309 40	583.60	4.10	2,317.14
Superintendents.....	2,100.00	....	....	....	......	2,100.00
Boiler and Engine Room Wages......	748.62	3,484.50	3,689.13	4,521.39	.....	12,443.64
Valvemen, Wages....	1,825.25	83.20	....	822.38	730.00	3,460.83
Repairs to Buildings, Labor.............	361.41	21.00	135.59	90.12	......	608.12
Repairs to Buildings, Material	125.66	2.35	7.55	*3.89	13.30	144.97
Repairs to Apparatus, Labor.............	494.77	1,376.84	440.44	1,019.53	30.56	3,362.14
Repairs to Apparatus, Material	*381.77	1,276.62	879.27	1,099.04	3.25	2,876.41
Repairs to Tools and Implements.......	*5.58	1.29	5.16	....	......	.87
Expenses, Labor.....	7,988.21	1,521.01	1,766.24	2,603.08	......	13,878.54
Expenses, Materials and Sundries......	1,326.73	249.35	704.25	898.71	82.68	3,261.72
	$16,268.89	10,678.61	11,388.78	17,303.09	899.20	56,538.57

---

* Red ink in original.

POOR COPY

8431 ACCOUNT 42, STATION COST OF GAS.—This account represents the total of the preceding accounts Nos. 1 to 41. The amount in the accounts of the Consolidated Gas Company of New York is $3,455,091.37, or 33.17c. per 1,000 cubic feet of gas manufactured, as compared with $3,452,868.89, or 32.39c. per 1,000 cubic feet, as adjusted by us.

ACCOUNT 43, COST OF MANUFACTURING GAS UNDER AGENCY AGREEMENTS.—The Consolidated Gas Company has entered into contracts with its subsidiary companies, The Standard Gas Light Company of the City of New York, New York Mutual Gas Light Company, the Central Union Gas Light Company of New York, and the New Amsterdam Gas Company, to supply it with whatever gas it requires, a certain minimum, however, to be taken.

We append copies of the agreements—Appendix II. The principal terms of the contract with the Standard Gas Light Company are that each month it shall render to the Consolidated Company an account of its expenditures for materials and labor used in the manufacture of the gas delivered and that the Consolidated Company shall pay to The Standard Company this amount, together with an additional ten (10%) per cent. for its services and the use of its plant and appliances.

The wording of the contract with the New Amsterdam Gas Company is similar to that with the Standard Company, with the exception that it expressly states that the amount of the so-called "station repairs" is to be added to the cost and that this cost, together with the additional ten (10%) per cent. shall be in full for the services of the company, for the use of its plant and appliances, for all claims for taxes and insurance thereon, for all administrative and general expenses and of all claims whatsoever, except that the Consolidated
8432 Company further agrees that it will pay to the New Amsterdam Company interest at the rate of five (5%) per cent. per annum upon the amounts expended by the latter company in making additions to its Ravenswood Works since March 1st, Nineteen Hundred and One, for the purpose of increasing or facilitating the manufacture of gas.

The following is a statement of the quantities of gas purchased from these subsidiary companies, together with the total cost, and the rate per 1,000 cubic feet.

GAS PURCHASE

Manufacturer.	Quantity.	Cost.	Per M cu. ft., cents.	Cost plus 10%	Per M cu. ft., cents.
Standard Gas Light Co....	403,309,322	$118,775.85	29.45	130,653.45	32.39
N. Y. Mutual Gas Light Co....................	267,696,800	86,929.59	32.47	95,622.55	35.72
Central Union Gas Co....	87,976,400	24,684.64	28.06	27,153.09	30.86
New Amsterdam Gas Co..	2,173,196,400	624,069.49	28.72	686,476.44	31.59
Total Gas Purchased.	2,932,178,922	$854,459.57	29.14	939,905.53	32.05

From the above summary, details of which will be found in Schedule "4," it will be observed that in the New Amsterdam Gas Company where, according to the terms of its agreement, the method of computing the manufacturing costs most closely resembles that followed by the Consolidated Company, the cost per 1,000 cubic feet is 28.72 cents, as compared with the 32.39 cents of the Consolidated Company, a difference of 3.67 cents.

The total amount, $997,039.89, entered in Exhibit No. 94, as the cost of manufacturing gas under agency agreement, is made up as follows:

Gas purchased, as above	$939,905.53
Less: Sold to Central Union Gas Co.	1,014.68
	938,890.85
5 per cent. interest on amount expended by New Amsterdam Gas Co. on construction	58,149.04
Total	$997,039.89

8433 From the above amount, however, we have excluded the ten (10%) per cent. added to the costs as well as the five (5%) per cent. on new construction added by the New Amsterdam Company. All the companies in question are controlled by the Consolidated Company. The percentages merely represent an amount which the controlling company has arbitrarily added to the cost of gas supplied by the subsidiary companies in order to provide the proportion, applicable to such supply, of their fixed charges and dividends. They are, therefore, not an addition to the cost of gas as viewed from the standpoint defined to us, viz.: the cost of manufacturing and distributing it to the private consumers of the City of New York. Possibly some allowance for property taxes and depreciation of plant, if not already fully covered in the accounts rendered, might be added to the cost. As, however, we have not had an opportunity of making an examination of the books of the subsidiary companies we are unable to say what amount, if any, should be so added.

Account 44, Total Cost at Holder.—The total cost at holder, being the aggregate of the previous accounts, we make $4,307,328.46, or 31.69 cents per 1,000 cubic feet, as compared with $4,452,131.26, or 33.52 cents per 1,000 cubic feet, the figures arrived at by the Company, a difference of 1.83 cents.

Were the Consolidated Gas Company in a position to manufacture gas at the average manufacturing costs of its subsidiary companies, viz.: 29.14 cents per 1,000 cubic feet, it would have effected a saving of $492,008.86 in 1905.

Account 45, Expense.—This item, $490,855.36, is classified as follows:

8434	Branch Office Expenses	$423,939.22
	Expenses, Meter Shops	51,162.18
	Expenses, Street Department	15,753.96
	Total	$490,855.36

POOR COP

The subsidiary details of these amounts are as follows:

Offices.

Branch office expense.	Hester St.	Irving Pl.	42nd St.	3rd Ave.	Total.
Wages:					
General	$8,910.79	15,561.58	13,571.41	15,143.49	53,187.27
High Bills	734.05	3,060.32	1,995.92	3,265.93	9,056.22
Applications	5,178.15	7,456.49	6,102.20	8,698.11	27,434.95
Indexing	5,525.88	7,123.68	5,043.29	8,731.34	26,424.19
Regular Bookkeeping	15,235.97	22,780.86	17,724.30	23,605.12	79,346.25
P. P. Bookkeeping	1,898.43	1,768.85	1,455.33	1,892.58	7,015.19
Regular Collecting	19,787.76	27,059.91	18,793.23	29,357.53	94,998.43
P. P. Collecting	5,130.13	4,995.65	3,796.88	5,330.03	19,252.69
Stove Collecting	146.47	223.81	840.60	693.43	1,904.31
Cashier	7,268.60	8,978.83	9,064.34	10,451.71	35,763.48
Stoves	1,042.86	2,514.87	4,156.32	5,610.27	13,324.32
Indexing—Bonus	335.25	466.75	241.25	473.50	1,516.75
Incidentals	7,167.89	13,508.75	14,490.41	19,548.12	54,715.17
	$78,362.23	115,500.35	97,275.48	132,801.16	423,939.22

Shops.

Meter shop expense.	Hester St.	Ave. "A."	66th St.	114th St.	Meter repairs.	Total.
Wages	$8,114.84	7,629.56	7,750.95	9,867.89	565.81	33,929 05
Materials	1,854.16	3,555.35	3,793.91	5,501.92	2,527.79	17,233 13
	$9,969.00	11,184.91	11,544.86	15,369.81	3,093.60	51,162.18

Street Departments.

Street department expense.	Hester St.	66th St.	111th St.	Total.
Wages	$4,177.81	3,698.29	4,312.87	12,188.97
Materials	1,289.36	1,181.12	1,094.51	3,564.99
	$5,467.17	4,879.41	5,407.38	15,753.96

All these charges with the exception of those connected with the Stove Department, to which we refer more fully afterwards, we consider proper charges against the cost of distributing gas.

8435 ACCOUNT 46, DISTRIBUTING.—The amount entered under this heading, $281,524.12, is made up as follows:

A. Distribution	$258,383.65
B. Distribution: General Office Pumping Drips	16,579.27
A. Distribution: General Office Taking Pressure	6,653.98
D. Distribution: General Office	*92.78
	$281,524.12

---

* Red ink in original.

The following is an analysis of the account:

	Shops.				
	Hester St.	114th St.	Avenue "A."	66th St.	Total.
Labor:					
Setting Meters..	$5,105.77	9,731.15	4,693.67	3,029.18	22,559.77
Jobbing.	23,782.46	44,577.39	28,520.82	23,503.29	120,383.96
Burner Work...	452.95	2,097.25	1,015.50	1,464.27	5,029.97
Setting Stoves...	1,821.56	10,569.55	3,755.82	9,185.01	25,331.94
Material............	15,323.87	32,654.67	14,834.22	22,265.25	85,078.01
	$46,486.61	99,630.01	52,820.03	59,447.00	258,383.65

The cost of setting meters and stoves might properly be regarded as a construction charge, the piping, etc., installed, being more or less permanent. As, however, on account of the uncertainty of the amount of use to be got out of these installations, the asset is rather a precarious one, we would consider it good business policy to write off each year a liberal allowance for depreciation. Therefore, after consultation with the Advisory Board of Engineers, we decided that it was proper to admit the amount of this account on the
8436 ground that the expenditures of the year would, in all probability, approximate the amount which should be written off as depreciation, had the expenditure of previous years been capitalized.

"B" Distribution, General Office—Pumping Drips. This account, which is a proper charge against the cost of distributing gas, is made up as follows:

Labor:	
Hester Street	$6,228.85
66th Street	4,792.32
111th Street	5,314.60
Opening and Closing Valves...........	243.50
	$16,579.27

"C" Distribution, General Office—Taking Pressure. This account is also a reasonable operating charge and is apportioned as follows:

Labor:	
Hester Street	$1,493.63
66th Street	2,534.26
111th Street	1,387.59
Material	1,238.50
	$6,653.98

"D" Distribution, General Office. There is a small credit of $92.78 on this account. It does not call for special comment.

ACCOUNT 47, REPAIRS TO GAS STOVES.—This account is distributed as follows:

8437	Labor	$30,641.83
	Material	25,312.52
		$55,954.35

From our knowledge of gas companies and their accounts, we understand that it is almost their universal practice to conduct the merchandise or gas stove branch of the business, not so much on account of the profit that may be derived from it, but rather as an auxiliary to the gas business. They look to the profit from the sale of gas to reimburse them for any loss connected with the sale of fuel appliances. While we would prefer, for the purpose of determining the cost of manufacture and distributing gas, to eliminate all such items as the above from the accounts, we find it impossible to do so, as the accounts are so intimately connected with and dependent upon each other. We have, therefore, concluded that the best way to deal with the matter is to deduct from the distributing expenses the amount received on account of the rentals of appliances. Before bringing this credit into account, however, we deduct the amount of depreciation which the company wrote off the stoves during 1905. The amount of the credit is as follows:

Rentals received	$122,322.60
Depreciation written off	54,954.98
Net Credit	$67,367.62

The result is, that instead of a charge to operating of $55,954.35 for Account No. 47, we have a credit of $11,413.27, being the difference between the former sum and the rental less depreciation, viz.:
$67,367.62. This credit is more than offset by the charges
8438 in Account No. 45 for stoves and stove collecting, $13,324.32
and $1,904.31 respectively, in Account No. 46 for stove setting $25,331.94, exclusive of material, in Account No. 58 for general office, new business, $60,575.28, in Account No. 61 for advertising $5,590.22, and by the proportion applicable to the Stove Department of rents, taxes and other general expenses.

Account 48, Repairs to Mains.—The amount expended on this account during the year, $126,110.31, is made up as follows:

	Hester St.	66th St.	111th St.	Total
Labor	$24,995.19	32,689.87	31,202.52	88,887.58
Material	10,942.48	12,615.12	13,665.13	37,222.73
	$35,937.67	45,304.99	44,867.65	126,110.31

The following is a statement of the main mileage:

	Miles.
At December 31, 1904	815.974
Laid during year 1905	11.327
	827.301
Taken up during 1905	2.873
	824.428
Abandoned during 1905	19.834
At December 31, 1905	804.594

This gives an average mileage of 810.284 miles for 1905, maintained at an average cost of $155.63 per mile.

8439 During the course of our examination we found certain charges, in respect of relaying pavements, etc., which appeared to us to be excessive when treated as repairs. We submitted them to the Board of Engineers, and the following is an extract from the minutes of their meeting held on November 10, 1906.

"Resolved, That the attention of the Accountants and Corporation Counsel be drawn to the Repairs to Mains Account for the reason that, from lack of specific information, the Engineers are not able to decide what are Operating Charges. They are, however, of the decided opinion that outside of small repairs involving not more than $100, a considerable proportion should be charged to Construction Account."

The Street Mains Capital Account appears in the books as follows:

At December 31, 1904	$7,433,800.57
Added during year 1905	83,548.08
	7,517,348.65
Depreciation written off	90,561.54
At December 31, 1905	$7,426,787.11

ACCOUNT 49, REPAIRS TO SERVICES.—This account is distributed in the books as follows:

	Hester St.	66th St.	111th St.	Total
Labor	$11,610.68	16,935.49	17,857.20	46,403.37
Material	13,192.78	15,956.28	13,481.03	42,630.09
	$24,803.46	32,891.77	31,338.23	89,033.46

8440 The following is a statement of the number of services:

At December 31, 1904	88,685
Installed during 1905	2,745
	91,430
Cut off during 1905	4,921
At December 31, 1905	86,509

While the Capital invested is:

At December 31, 1904	$1,221,831.83
Added during year	37,797.54
	1,259,629.37
Depreciation during year	37,401.00
At December 31, 1905	$1,222,228.37

or equal to $14.13 per Service.

With a view to satisfying ourselves that the charges to both Operating and Construction were proper, we made a detailed examination of the Pay-Roll Tickets, and found that a considerable number of extensions and increases to services had been charged to operating expense instead of to construction. The labor on this work, detailed in Schedule 5, is as follows:

Branch	
Hester Street	$609.14
66th Street	107.71
111th Street	1,133.46
	$1,850.31

8441 From the fact that the material used is not recorded on these Pay-Roll Tickets, we were unable to determine what additional amount should be added on this account to the above cost of labor.

The operating charge therefore falls to be adjusted as follows:

As per Exhibit No. 94	$89,033.46
Deduct: As above	1,850.31
Charge, as adjusted	$87,183.15

or equal to 99.5¢ per average service in use during the year.

ACCOUNT 50, REPAIRS TO METERS.—The amount charged to this account during the year 1905 was as follows:

Labor	$126,069.90
Material	46,855.62
	$172,925.52

The number of meters in use and on hand during the same period was:

Ordinary meters.	December 31, 1904.	December 31, 1905.
In use	286,566	296,981
Set Locked	27,104	27,746
In Stock	1,968	2,310
At Repair Shop	17,037	19,740
At Factories	99	609
Total	332,774	347,386

8442

Prepayment meters.		
In Use	87,320	93,349
Set Locked	824	2,190
In Stock	469	435
At Repair Shop	1,069	3,825
At Factories	32	45
Total	89,714	99,844
Total Meters Owned	422,488	447,230

represented by a Capital Investment of:

	Meters.	Meter cocks & connections.	Total.
At December 31, 1904	$2,831,674.54	295,492.54	3,127,167.08
Added during 1905	171,521.04	20,216.39	191,737.43
	3,003,195.58	315,708.93	3,318,904.51
Depreciation during 1905	25,646.20	31,570.89	57,217.09
At December 31, 1905	$2,977,549.38	284,138.04	3,261,687.42

or $7.29 per meter owned, irrespective of size.

On the basis of meters in use at the beginning and at the end of the year, we estimate the average number in use to be 382,108, making an average repair cost of 45.25¢ per meter. The number of meters upon which repairs were executed was 100,780, and on this basis the repairs were $1.71 per meter. This cost does not include the up-keep of the meter repair shop and of labor employed on jobbing work. We submitted the whole facts connected with this account to the Advisory Board of Engineers and the following is an extract taken from the minutes of their meeting held on November 14, 1906.

"Resolved, It is found from the report of Messrs. Marwick, Mitchell
& Co. that the average number of meters in use during the
8443 year 1905 was 382,108, that 100,780 meters were repaired
during the year, and that the repairs to meters show three
separate items as follows:

		Average.
1. Meter Shops	$51,162.18	13.31¢
2. Repairs to Meters	172,925.52	45.25¢
3. Labor, Jobbing Work	120,383.96	31.50¢
	$344,471.66	90.06¢

The item, Labor, Jobbing Work, may include jobbing on stoves, but the amount cannot be determined. In addition, the material used on this Jobbing Work has to be added to the above figures.

The cost of Meter Shops must be included in the cost of Repairs to Meters, and would make the average cost of repairing a meter, excluding jobbing, 58.56 cents per meter in use.

We find the average cost of the Repairs to Meters as given by the Massachusetts Gas and Electric Light Commission in the year 1904, 42.5 cents. The same cost for the year 1905 was 49 cents. In the year 1904 the number of meters installed in Massachusetts was 285,765, and in 1905, 304,638. These figures include the expenditures and renewals account of a number of small companies in Massachusetts.

In consequence, on account of the obscurity and lack of definiteness of these accounts, we are compelled to pass them, but would point out the extravagance of the meter repairs of the Consolidated Gas Company of New York."

ACCOUNT 51, REPAIRS TO BUILDINGS.—The Repairs to Buildings,
outside of those connected with the various manufacturing
8444 stations, were as follows:

	Labor.	Material.	Total.
Hester Street Branch.	$28.43	62.16	90.59
Irving Place	47.07	13.90	60.97
42nd Street Branch	3.25	173.95	177.20
3rd Avenue Branch	261,06	301.77	562.83
Hester Street Shop	3.97	81.25	85.22
Avenue "A" Shop	125.20	66.34	191.54
66th Street Shop	193.39	127.42	320.81
114th Street Shop	446.26	308.88	755.14
Meter Repair Shop	1,990.68	2,965.06	4,955.74
Hester St. Street Dept	589.27	652.06	1,241.33
66th Street Street Dept	877.92	380.83	1,258.75
111th Street Street Dept	129.02	62.09	191.11
General Office	1,507.53	3,000.60	4,508.13
Stables	323.98	393.34	717.32
	$6,527.03	8,589.65	15,116.68

In Schedule 3 will be found details of the amounts rejected by us as improper charges to this account. Of these rejections, the amount of $1,618.13 is on account of work done to properties not occupied by the Company and the balance $1,227.62 as being more properly applicable to construction, all conform to minutes of meeting of the Advisory Board of Engineers of November 10, 1906.

ACCOUNT 52, TOOLS AND IMPLEMENTS.—This account, $15,610.59 is made up as follows:

	Labor.	Material.	Total.
Hester Street Shop	**$10.95**	**187.44**	**198.39**
Avenue "A" Shop	**74.54**	**390.68**	**465.22**
66th Street Shop	**123.93**	**1,225.45**	**1,349.38**
114th Street Shop	**189.41**	**387.62**	**577.03**
Meter Repair Shop	**1,090.42**	**1,358.69**	**2,449.11**
Hester Street Street Dept	**1,437.66**	**2,124.55**	**3,562.21**
66th Street Street Dept	**1,856.10**	**1,391.99**	**3,248.09**
111th Street Street Dept	**1,119.45**	**1,134.43**	**2,253.88**
General Office	**1,261.39**	**245.89**	**1,507.28**
	$7,163.85	**8,446.74**	**15,610.59**

These items we consider a proper charge against the cost of distributing gas.

8445 ACCOUNT 53, STREET LAMPS.—The amount appearing as the cost of maintenance of Street Lamps is $289,259.09, and is made up as follows:

	Hester St.	66th St.	111th St.	Total.
Labor, Fitting, Repairing	**$2,130.72**	**4,228.28**	**5,074.79**	**11,433.79**
Labor, Lighting, Extinguishing and Cleaning	**59.33**	**134.58**	**400.50**	**594.41**
Welsbach St. Lighting Co	**56,363.47**	**55,967.73**	**209,073.69**	**321,404.89**
Labor, Inspecting	**912.50**	**754.50**	**2,169.50**	**3,836.50**
Pipe and Fittings	**485.00**	**602.20**	**872.71**	**1,959.91**
Glass	**33.00**	**12.00**	**41.70**	**86.70**
Repairing Material	**1,099.32**	**1,764.08**	**986.25**	**3,849.65**
Sundries	**3,307.01**	**3,786.33**	**22,075.54**	**29,168.88**
Reverse entry for sales reserved for maintenance of City Lamps	**26,214.31**	**25,933.22**	**99,542.88**	**151,690.41**
	$90,604.66	**93,182.92**	**340,237.56**	**524,025.14**
Credits	**42,344.99**	**44,157.89**	**148,263.17**	**234,766.05**
	$48,259.67	**49,025.03**	**191,974.39**	**289,259.09**

The cost of the Maintenance of Street Lamps should not enter into the cost of distributing gas to the private consumers of the city. When considering the cost of gas, it must be clearly kept in view that, under present conditions, there are two contracts, the first with the ordinary consumer for the supply of gas for illuminating and fuel purposes and the second, with the City of New York for the supply of gas for Street Lighting. These contracts differ, inasmuch as the ordinary consumer is charged a rate of $1.00 per 1,000 cubic feet of gas consumed, while the contract with the City provides for lighting at yearly rates per lamp, varying according as the capacity of the burner varies and the reimbursing to the Company of expenditures on account of repair work and also all new work. As we have only to deal with the contract affecting the private consumers, we eliminate from our accounts the amount charged under the above heading. At the same time we also eliminate the amount of gas used in the street lamps, viz.: 270,779,677 cubic feet.

8446 This makes our devisor for arriving at the cost of distributing gas 13,012,384,090 instead of 13,283,163,767 as in Exhibit No. 94.

ACCOUNT 54, INTEREST ON CONSUMERS' DEPOSITS.—The Consolidated Gas Company, as also all other Gaslight Companies doing business in the City of New York, is empowered by law to require a deposit from every consumer in order to protect itself against loss. This deposit may be as high as the estimated consumption of gas for two months. Legal interest must be paid on the deposits and the amounts so paid during the year were as follows:

Hester Street Office	$13,411.91
Irving Place Office	9,801.11
42nd Street Office	7,247.15
3rd Avenue Office	12,258.79
General Office	8,672.56
	$51,391.52

The amount of the deposits at December 31, 1905, was $920,685.80, as compared with $835,482.86 at December 31, 1904.

The amount of this interest, in our opinion, is not a proper charge to the cost of distributing gas. The Company has the use of these deposits as working capital and were it not so would, presumably, have either to borrow a similar amount at or about the same cost or the stockholders would have to provide it.

ACCOUNT 55, BAD AND DOUBTFUL DEBTS.—These for the year 1905 amount to $82,995.11, distributed as follows:

8447	Hester Street Office	$8,982.18
	Irving Place Office	24,832.48
	42nd Street Office	20,970.90
	3rd Avenue Office	28,209.55
		$82,995.11

Bad debts are more properly a charge against "Contingencies" than against the actual cost of distributing gas. Moreover, the Company should not incur such losses, at least to any appreciable amount, in view of the safeguards they have, as referred to under heading Account 54. In order not to complicate matters, however, we admit the amount claimed, as a charge against the operations of 1905.

ACCOUNT 56, PROFIT AND LOSS ADJUSTMENT.—There is a credit balance of $29,683.92 on this account. Of this amount $17,792.19 is on account of the adjustment of inventories of materials on hand

and $5,047.50 for profit on the sale of Fuel Appliances, while the balance is composed of a large number of miscellaneous credits.

ACCOUNT 57, TOTAL DISTRIBUTION.—The total cost of distribution, as stated in Exhibit No. 94, Summary of Operations for 1905, is $1,641,092.19, or 12.35c. per 1,000 cubic feet. This we have reduced to $1,228,377.90, or 9.43c. per 1,000 cubic feet, a difference of $412,714.29, representing 2.92c. per 1,000 cubic feet.

ACCOUNT 58, EXPENSES—GENERAL OFFICE.—The charges classified under this heading are as follows:

8448

Salaries:		
General Expense		$99,807.42
Engineering, Draughtsmen and Clerks		38,211.95
Mains & Service—Superintendents		6,254.59
Bookkeeping Department		19,944.62
Collecting Department		1,400.04
Cashiers' Department		5,199.96
Street Department		1,066.60
Meter Department		9,256.74
Incidentals		67,844.31
		248,986.23
New Business—General Office:		
Fuel Department—Pay Roll	$35,787.77	
Donations of Appliances	268.44	
Pipe for P. P. Meters	3,225.58	
Advertising	3,114.22	
Commissions, Branch Offices	3,481.41	
Rents	1,500.00	
Gas Arc Commissions	9,112.55	
Incidentals	2,214.75	
Monthly Magazine "Gas Logic"	1,870.56	
		60,575.28
Claims for Damages		30,438.00
		$339,999.51

We have carefully examined this account and are of opinion that the following items should not, for the reasons afterward stated, be included in the cost of manufacturing and distributing gas during the year under review:

Legislative Investigation Expenses	$25,671.74
Miscellaneous Extraordinary Expenses	1,604.21
Claims for Damages	3,800.00
	$31,075.95

At the meeting of the Board of Advisory Engineers, held on November 7, 1906, we submitted the list of General Office Officials and Employees as detailed in Appendix III. Consideration was given, more especially to those salaries included under the classification "General Office," and the following Resolution was finally adopted:

8449 "Whereas, The members of the Advisory Board of Engineers are satisfied that a large proportion of the work covered by the General Office salaries, amounting to $99,807.42, has been devoted to Construction, Organization of New Plants, and also to the care of other investments, and

"Whereas, It is impossible from the data furnished to determine this amount accurately, the Board of Advisory Engineers submit for the consideration of Corporation Counsel and the Accountants the following resolution:

"*Resolved,* That we call this matter to the particular attention of Corporation Counsel and the Accountants, with a request that they give it consideration before finally presenting the matter to the Court."

In terms of this minute we carefully considered the question of the apportionment of the General Office Salaries, but, whilst we feel that a proportion of these charges is properly applicable to construction and other interests not connected with the cost of manufacture and distribution of gas, we are unable to state, from the data in our possession, the proper amount which should be so applied.

Included under the classification "Incidentals" are certain items of expenses connected with the present "Legislative Investigation." As this Investigation is principally for the purpose of determining the amount of profit, arising from the sale of gas to New York Consumers, which accrues to the Stockholders of the Consolidated Gas Company, we consider that the expense in connection with it should not be included as part of the cost of gas, but should rather be regarded as a charge against the margin existing between the cost and the price received. The items rejected on this account amount to $25,671.74 and are detailed in Schedule 6.

8450 In addition to the expenditures dealt with in the foregoing, there are a number of charges in respect of miscellaneous expenses of an extraordinary nature. They amount to $1,604.21, as detailed in Schedule 7 and have been rejected by us as not being proper charges to the cost of manufacturing and distributing gas during the year 1905.

We have examined the account "Claims for Damages" and find that it is composed, very largely, of payments in respect of accidents which occurred prior to the year 1905. As, however, the payments on account of the 1905 accidents will be borne by the operations of future years, we allow the charges made against the year as an offset. In Schedule 8 will be found details of several payments made on account of an accident which occurred on December 13, 1898, in connection with the erection of part of the plant. These we have eliminated, as they are not operating, but construction charges.

ACCOUNT 59, VACATIONS AND SICKNESS.—The amount expended on this account during the year 1905 was $8,175.20 and is a reasonable Operating Expense.

ACCOUNT 60, AUTOMOBILES.—The charge on account of automobiles appears to be proper. It is made up as follows:

	Street dep't.	Expense accounts.	General.	Total.
Labor	$415.74	1,344.12	622.00	2,381.86
Material	400.07	1,315.15	967.08	2,682.30
	$815.81	2,659.27	1,589.08	5,064.16

ACCOUNT 61, ADVERTISING AND LEGAL.—The following is a statement of this account as it appears in Exhibit No. 94, together with our adjustments:

8451	Exhibit No. 94.	Amounts Rejected.	Amounts Admitted.
Advertising	$11,888.56	6,020.34	5,868.22
Legal Expenses	77,425.48	52,110.55	25,314.93
Franchise Litigation	5,270.76	5,270.76	—
Legal and Arrears......	11,215.22	—	11,215.22
	$105,800.02	63,401.65	42,398.37

An examination of the Advertising Account reveals the fact that it is composed of the following items:

Henry Romeike, Inc............................	$232.30
Robert B. Livingston............................	5,512.66
F. B. Thurber.................................	3,000.00
Cash Payments	3,143.60
	$11,888.56

Henry Romeike, Inc., supplied newspaper clippings and was succeeded in this business by Robert B. Livingston. Along with his duties of supplying newspaper clippings Mr. Livingston was Editor of the Magazine, "Gas Logic." The expense was partly on account of investigation work and partly on account of general business, including New Business. In our opinion, the best method of arriving at a proper distribution is to apportion the balance equally, after eliminating $295.72 expended for furniture for Mr. Livingston. A sum of $2,724.62 has thus to be admitted as an operating charge and a similar amount rejected. The payments to F. B. Thurber, amounting to $3,000, were, we are informed, more of the nature of a subscription to the Civic Federation, and therefore must be rejected as not bearing on the cost of gas to the consumer. The cash payments of $3,143.60 were for "New Business" and other advertising and are admitted as proper charges:

The Legal Expense Account is composed of the following items:

8452

Monthly estimated charge of $4,000................	$48,000.00
Amount to adjust at close of year...................	548.88
Legislative Investigation Expenses................	28,876.60
	$77,425.48

The amount of $48,548.88, included in the accounts for general and ordinary legal expenses for the year, exceeded the amount of the actual payments by $7,705.38. This sum was insufficiently provided for prior to January 1, 1905, and had consequently to be included in the 1905 accounts. We now exclude it. Of the actual payments, $40,843.50, we also exclude $15,528.57 as not properly applicable to the cost of gas for 1905. The following are the particulars of this amount:

Sherman & Sterling, amount recoverable from Contractors	$664.40
David McClure, 1904 Account	7,850.64
H. D. MacDona, 1904 Account	143.68
H. D. MacDona, Salary as Special Counsel	3,000.00
H. D. MacDona, Investigation Work	1,274.35
Edward Carroll, Services, Gas & Electric Investigation	51.50
John G. Milburn, Counsel for Special Work	750.00
Robert P. Porter, Counsel, Municipal Ownership	1,000.00
R. Fox, Investigation Work	640.00
Fidelity Deposit Co. of Md., Bond suit 1898, Explosion of gas holder	154.00
	$15,528.57

In all we therefore reject $23,233.95 of the amount charged in respect of general and ordinary Legal Expenses. We have also to reject, for the reason already stated under heading Account No. 58, the charges of $28,876.60 in connection with the Legislative Investigation.

The charges in connection with Franchise Litigation are also a charge against the profits of the Stockholders, and therefore not applicable to the cost of gas to the consumer.

8453 The expenses in connection with the legal and arrears department of the business are legitimate expenses, and are consequently allowed.

Account 62, Real Estate Rents.—During the year 1905 the Company paid out on account of rents for Real Estate, Offices, etc., $42,674.71. This expenditure all applied to the year with the exception of a sum of $625.00 for rent of office at 44 Wall Street for the last three months of the year 1904. This amount we have consequently excluded.

Account 63, Gas Companies Mutual Aid Society.—There was paid on this account $6,413.99, and we have allowed the charge as a proper one against the Cost of Manufacturing and Distributing Gas.

Account 64, Superannuation.—During the year the Company paid $14,943.86 on account of superannuation. While, theoretically, this is not a charge against the Cost of Operating, we consider it a wise and prudent expenditure by the Company, and have consequently allowed it. A provision of this nature, in our opinion, tends to improve and maintain good relations between Employer and Employee, and reflects on the quantity and quality of the work done.

Account 65, Insurance.—The only deductions we have made from this account of $54,031.83 is in respect of the proportion of the premium on the Employers' Liability Insurance, viz.: $152.44, applicable to construction work. In Appendix "1" we submit details of the insurance carried for the year 1905. This Appendix is especially interesting in that it shows the valuations placed by the Company on the various parts of its plant for insurance purposes.

8454 ACCOUNT 66, TAXES.—This Account is made up as follows:

Taxes on Real Estate used in the business of the Company		$176,850.10
Taxes on Personal Property		88,839.00
Taxes on Special Franchises		406,909.23
Taxes on Mains, Pipes, etc.		14.91
Taxes on Income from Gas Business		70,538.02
		743,151.26
Taxes on Income from Investments in Other Securities	$5,257.48	
Taxes on Real Estate from which the Company draws Rents	2,928.85	
Taxes on Dividends in excess of 4%	120,000.00	
Interest on Unpaid Taxes	94,506.29	
		222,692.62
		$965,843.88

The first five items, aggregating $743,151.26, are proper charges to the Cost of Manufacturing and Distributing Gas, and have been allowed by us. The remaining ones, aggregating $222,692.62, have been repected for the following reasons: The Taxes on Income from Investments in other Securities, $5,257.48, is a charge against the Revenue received from them. The taxes on Real Estate from which the Company draws rents is a charge against these rents. The Taxes on Dividends paid in excess of four per cent. are not a charge against the Cost of Operations, but against the Surplus Revenue out of which this excess Dividend was paid. The interest on Unpaid Taxes must also be excluded from the cost of Operating the business If the Company chooses to contest any Taxes, the expense of such a contest cannot be levied on the consumers of the years subsequent to that in which the tax was payable.

ACCOUNT 67, CONTINGENT EXPENSE.—The amount entered under this classification is $1,328,316.37, or 10 cents per thousand
8455 feet of gas sold. It is entered in the Gas Company's accounts as a charge to Operating and as a credit to a reserve account called "Renewal and Contingency Account." It is, therefore, purely a bookkeeping entry and not an actual expenditure. At the close of 1905 the amount of $282,219.67 was debited to this reserve account, but again this did not represent any actual expenditure, but was simply a charge to the Renewal and Contingency Account and a credit to various plant accounts for estimated depreciation, as may be seen from the following authorization entered in the Company's books:

POOR CO

"*Resolved,* That the officers of this Company be, and they hereby are, authorized and directed to apply from the amount now at the credit of Renewal and Contingency Account, the sum of $282,219.67 to cover the amount of loss and depreciation in, or cost of replacement of, certain items of this Company's property specified in a memorandum signed by the Secretary of this Company, the same to be entered in detail upon its books."

Plant For the original cost of sundry plant and apparatus dismantled during the year, to make room for new plant and apparatus plus the cost of dismantling, less what was recovered from the sale of old apparatus as scrap or from its use as repair material. Also the book value of plant and apparatus sold, less the amount recovered.	$3,424.00
Mains For the book value of mains abandoned during the year and the book values of mains replaced during the year with mains of larger capacity less the value as stock of the old mains taken up.	90,561.54
Services For the book value of services taken up or cut off and abandoned in the street during the year.	37,401.00
Meters For the book value of meters condemned, lost or destroyed during the year.	25,646.20
Meter Cocks & Connections For the depreciation and replacement during the year, estimated at 10% of the book value.	31,570.89
Horses, Wagons & Harness For the depreciation and replacement during the year, estimated at 20% of the book value.	5,338.62
Office Furniture & Fixtures 8456 For the depreciation and replacement dur- the year, estimated at 20% of the book value.	8,140.87
Tools & Implements For the depreciation and replacement during the year, estimated at 40% of the book value.	24,483.65
Carried Forward	$226,566.77
Brought Forward	$226,566.77
Gas Stoves For depreciation and replacement during the year, estimated at 20% of the book value.	54,954.98
Automobiles For the depreciation and replacement during the year, estimated at 10% of the book value.	697.92
	$282,219.67

(Signed) R. A. C., *Secretary.*

In Schedule "1" we give the full details referred to in the authorization.

It will be observed that the amount entered under the heading "Mains," viz., $90,561.54, includes depreciation for the years 1903 and 1904, as well as that for 1905. The particulars are as follows:

	1903.	1904.	1905.	Total.
2" Mains..	—	68.75	—	68.75
3" " ..	$24,210.80	5,488.70	8,074.50	37,765.00
4" " ..	16,134.40	13,943.20	10,440.80	40,518.40
	$40,336.20	19,500.65	18,515.30	78,352.15

The amount applicable to years prior to 1905 is therefore $59,836.85.

The arbitrary charge of 10 cents per 1,000 feet for contingencies and renewals we have excluded from the accounts as not being a proper charge against the cost of the manufacture and distribution of gas, and in its place have substituted the amount of the actual charges made by the Company during the year for depreciation,
viz., $282,219.67, less $59,836.85 applicable to prior years, or
8457 $222,382.82, equal to 1.71 cents per 1,000 cubic feet dis-
tributed. Of this amount we have included under Account No. 67 the sum of $167,427.84, equal to 1.29 cents per 1.000 feet, and the balance $54,954.98, equal to .42 cents per 1,000 feet, being the depreciation on gas stoves, we have included, as already explained, in Account No. 47.

In regard to the sufficiency of the amount we have included for depreciation, we quote as follows from the minutes of the meeting of the Board of Advisory Engineers, held on November 24:

"*Resolved,* That the Advisory Board of Engineers recommend that the amount of $222,382.82 be accepted as the actual depreciation for the year 1905 and be incorporated in their report, and

Further, that this actual depreciation of 1.71 cents per 1,000 cubic feet of sales, added to the actual repairs made, amounting to 5.61 cents, making a total of $937,534.26, or 7.32 cents per 1,000 cubic feet, is apparently a proper and sufficient amount of depreciation and repairs for modern and large works of the capacity of the Consolidated Gas Company."

ACCOUNT 68, TOTAL GENERAL EXPENSES.—The Total General Expenses in Exhibit "94" amount to $2,871,263.53, equal to 21.62 cents per thousand cubic feet of gas distributed to general consumers. For the reasons explained in the foregoing pages, we have reduced this amount to $1,392,427.34, equal to 10.69 cents per thousand cubic feet of gas distributed, a difference of $1,478,836.19, equal to 10.93 cents per thousand cubic feet.

ACCOUNT 69, FIXED CHARGES.—In Exhibit "94" the Fixed
Charges are stated at $972,423.44, and are on account of in-
8458 terest on Bonded Debt. This charge we have excluded as
not coming within the scope of our inquiry as to the cost of manufacturing and distributing gas.

POOR CO

ACCOUNT 70, TOTAL OPERATING COST.—The total Operating Cost, as shown in Exhibit No. 94, summary of operations for 1905, is $9,936,910.42, equal to 74.81 cents per thousand cubic feet distributed. On the same basis we make the operating cost $6,928,133.70, equal to 51.81 cents per thousand cubic feet, a difference of $3,008,776.72, and 23 cents per thousand cubic feet respectively. In addition to this difference, effect has to be given to the following:

1. Discount. The practice of the Company is to charge all their accounts gross, crediting any cash discount to Discount Account. This discount should come into the credit of the accounts as a deduction from the costs. The amount applicable to operating is.....	$6,006.12
2. Wharfage. Sundry Income is received from shippers for the use of the wharfs. As the cost of running these wharfs is charged to operating, so must all revenue of this nature be credited to it......................	709.24
	6,715.36
3. Deduct. Special Deductions. It is often found necessary to make special deductions to customers, and these are a charge against operations, although not so included by the Company.....................	1,320.00
Total................................	$5,395.36

In arriving at the cost per 1,000 cubic feet of manufacturing and distributing gas, it is necessary also to take into account the amount of the leakage. This, which includes the gas used by the Company, viz., 64,077,056 cubic feet, is 300,990,555 cubic feet, and must be included as a distribution charge at the average cost of manufacture, as our method of entering the leakage differs from that adopted by the Company, inasmuch as they use, as their divisor, 8459 the quantity manufactured, less the above leakage, while we adopt, as ours, the quantity manufactured. This adjustment amounts to .73 cents per thousand cubic feet.

These differences have the effect of bringing the total cost of manufacturing and distributing gas in the City of New York to 52.50 cents per thousand cubic feet.

GENERAL.

In considering our conclusions, it should be kept in mind that in all cases where any doubt existed regarding the correctness of the Company's allocation of its charges and where we could not obtain such definite information as was required to adjust them, we allowed the figures to stand as stated by the Comapny. The following are a few of these doubtful items: No proportion of the General Office

Salaries, $99,807.42, has been charged to Construction Work or to Revenue received from Investments in other securities. Nothing has been charged to the Revenue from Street Lighting Contracts on account of general office expenses, including Distribution. The total of these expenses amount- to approximately $1,375,000. The proportion of gas sold for Street Lighting purposes is about 2% of the total. From the Minutes of the Meetings of the Advisory Board of Engineers it will be observed that a number of doubtful charges to the various repair accounts, including mains, meters and apparatus, have been conceded to the Company. All the expenditures in connection with the Stove Department have been admitted. We have allowed the total amount of the Bad and Doubtful Debts, although strongly of opinion that it is excessive if not actually avoidable. The price of 52.50 cents, as determined by us, must, therefore, be considered a very liberal allowance, one which includes a considerable margin to cover all ordinary contingencies. 8460

Yours, truly,

MARWICK, MITCHELL & CO.

EXHIBIT "A."

MEETING No. 1.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Wednesday, October 17, 1906.

Present:

C. V. Lacombe
H. H. Edgerton
Alfred W. Booraem
Wm. D. Marks
James Marwick
A. Bowman
James Hall

} of Marwick, Mitchell & Co. in Attendance.

The meeting was called to order by Professor Marks, and Mr. Lacombe was elected Chairman.

Mr. Marwick submitted a Memorandum of Vouchers which had been set aside for the consideration of the Board, to be rejected, approved or held subject to further investigation, as they determined.

It was suggested by the Board that the Accountants prepare Schedules of the expenses incurred in reconstructing the plant and equipment at 21st Street and 44th Street Stations. It was understood that such schedules would include only the more important items which would afford a fair idea of the extent of the expenditures for these purposes. It was explained by the Accountants that the preparation of such schedules and memoranda for the consideration of the Board would tend to prolong their investigation, 8461

POOR COPY

but that the advantages resulting therefrom fully justified this course if the Court was likely to concede any extension of time necessary. It was also explained by the Accountants that as all vouchers had to be checked into one Ledger, it was essential to the early conclusion of their work that access be afforded them to the Ledger and Vouchers so that they could work three eight hour shifts of men in checking it. After all the vouchers submitted to them were checked, they would require further time to carefully inspect the Ledger to ascertain whether any vouchers were missing and to investigate such cross entries as might have been made in the Ledger.

After further discussion the meeting, on the motion of Mr. Lacombe, was adjourned until Saturday, October 20, 1906 at three o'clock, afternoon. Mr. Lacombe and Mr. Edgerton retained copies of the Accountants' Schedule of Vouchers, to which exception was taken.

(Signed) C. V. LACOMBE, *Chairman.*

8462

MEETING No. 2.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accountants and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Saturday, October 20, 1906, at three o'clock.

Present:

C. V. Lacombe
Wm. D. Marks
Alfred W. Booraem
James Marwick } of Marwick, Mitchell & Co. in Attendance.
James Hall }

Mr. Lacombe in the Chair:

The Board resumed consideration of the various vouchers which had been set aside by the Accountants. After discussion, they dealt with Vouchers 37 to 98 in the Accountants' Memorandum, rejecting certain and admitting others. At this point it was decided to remit the whole question of these charges to Professor Marks, with power to pass or reject, those being rejected, however, to be submitted to the Board for final disposition.

The Accountants reported that they had prepared Schedules of the chief expenditures included in the repair accounts of the 21st and 44th Street Stations.

The Accountants also reported that they had made a test of the time labor tickets of the Street Department and found that it had been the practice of the Company to charge the extension of services to Repairs and not to Construction. These matters were also referred to Professor Marks.

8463 Mr. Marwick further explained that Mr. Addicks and Mr. Carter had met his request to be allowed to work his Accountants continuously day and night on the Operating Ledger and this work was now progressing favorably.

After a general discussion the meeting, on the motion of Mr. Lacombe, was adjourned until Wednesday, October 24, 1906, at three o'clock, afternoon.

(Signed) C. V. LACOMBE.

MEETING No. 3.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Wednesday, October 24, 1906, at three o'clock.

Present:

C. V. Lacombe
H. H. Edgerton
Wm. D. Marks
Alfred W. Booraem
James Hall of Marwick, Mitchell & Co., in attendance.

Mr. Lacombe in the Chair:

Before the Board resumed consideration of the vouchers, Professor Marks explained that for the past week he had suffered from serious indisposition and regretted he had, consequently, been unable
8464 to take up the reference from the last meeting, regarding the various vouchers which had been set aside by the Accountants. He further explained that he had now almost recovered and would give the matter his immediate attention. The Board then examined Vouchers Nos. 99 to 404. During the course of the discussion, Mr. Lacombe expressed himself strongly that the Board, in its final report, should not deal with the case of isolated vouchers but treat the subject of the classification of the expenditures in its entirety. This view met with the unanimous approval of the members of the Board present. The meeting adjourned until Saturday, October 27, 1906, at three o'clock in the afternoon.

(Signed) C. V. LACOMBE.

MEETING No. 4.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plants of the Consolidated Gas Company of New York, held at the offices of the Company, 124 East Fifteenth Street, New York City, Saturday, October 27, 1906, at three o'clock.

Present:

C. V. Lacombe,
H. H. Edgerton,
Wm. D. Marks,
James Hall, of Marwick, Mitchell & Co. in attendance.

Mr. Lacombe in the Chair:

Professor Marks explained that since the last meeting he 8465 had made a cereful examination of the first 534 Vouchers rejected by the Accountants. He approved of the rejection of some, while he admitted others as reasonable charges against the Company's Operating Expenses. The Board then took up the consideration of Vouchers Nos. 535 to 621.

After a general discussion, it was decided to adjourn the meeting until Wednesday, October 31, 1906, at three o'clock afternoon.

(Signed) C. V. LACOMBE.

MEETING No. 5.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plants of the Consolidated Gas Company of New York, held at the offices of the Company, 124 East Fifteenth Street, New York City, Wednesday, October 31, 1906, at three o'clock.

Present:

Alfred W. Booraem
James Marwick } of Marwick, Mitchell &
James Hall } Co. in attendance.

It was explained that Mr. Lacombe had telephoned stating that, owing to the fact Professor Marks was engaged as a witness, no meeting would be held until Saturday afternoon, at three o'clock. Mr. Marwick submitted copies of letters which were being sent to Mr. Carter in connection with the accounts.

(Signed) C. V. LACOMBE.

8466

MEETING No. 6.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plants of the Consolidated Gas Company of New York, held at the offices of the Company, 124 East Fifteenth Street, New York City, Saturday, November 3, 1906, at three o'clock.

Present:

Wm. D. Marks,
H. H. Edgerton,
James Hall, of Marwick, Mitchell & Co. in attendance.

Mr. Hall explained he had received a telephone message from Mr. Lacombe to the effect that he would be unable, owing to important personal business, to attend the meeting. In his absence, Dr. Marks was called to the Chair and the Board resumed consideration of the vouchers rejected by the Accountants and dealt with Nos. 622 to 734.

Dr. Marks explained that he hoped to complete his examination of the remainder of the rejected vouchers before the next meeting of the Board, and he would then be in a position to discuss more fully the present position of the work.

After a general discussion, the meeting was adjourned to the afternoon of Wednesday, November 7, three o'clock.

(Signed) WM. D. MARKS.

8467

MEETING No. 7.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Wednesday, November 7, 1906, at three o'clock.

Present:

C. V. Lacombe
H. H. Edgerton
Wm. D. Marks
James Hall, of Marwick, Mitchell & Co. in attendance.

Mr. Lacombe in the Chair:

Dr. Marks reported that he had now completed his examination of the vouchers rejected by the Accountants and that these charges were now being scheduled. This work, Mr. Hall stated, would be completed by the date of the next meeting.

Dr. Marks submitted a list of the employees on the General Office payroll and after a general discussion, moved as follows:

Whereas, The members of the Advisory Board of Engineers are satisfied that a large proportion of the work covered by the General Office salaries, amounting to $99,807.42, has been devoted to Construction, Organization of New Plants, and also to the care of other investments, and

Whereas, It is impossible from the data furnished to determine this amount accurately, the Board of Advisory Engineers submit for the consideration of Corporation Counsel and the Accounants, the following resolution: 8468

Resolved, That we call this matter to the particular attention of Corporation Counsel and the Accountants, with a request that they give it consideration before finally presenting the matter to the Court.

This resolution was seconded by Mr. Lacombe and unanimously carried.

The meeting then took up consideration of the charges made in Exhibit 94 on account of repairs to meters, and after a general discussion it was decided to allow the matter to lie on the table.

The meeting was then adjourned until the afternoon of Saturday, November 10, 1906, at 1:30 P. M.

(Signed) C. V. LACOMBE.

POOR CO

MEETING No. 8.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Saturday, November 10, 1906, at 1:30 P. M.

Present:

C. V. Lacombe
Wm. D. Marks
H. H. Edgerton
Wm. P. Burr, Assistant Corporation Counsel.
S. Roger Mitchell } of Marwick, Mitchell
James Hall } & Co. in attendance.

Mr. Lacombe in the Chair:

8469 The Accountants submitted classified schedules of expenditures which had, in their opinion, been improperly charged to Operating Expenses.

Repairs to Make.—The meeting first took up consideration of this Account and after a general discussion:

Resolved, That the attention of the Accountants and Corporation Counsel be drawn to the Repairs to Mains Account, for the reason that, from lack of specific information, the Engineers are not able to decide what are Operating Charges. They are, however, of the decided opinion that, outside of small repairs involving not more than $100, a considerable proportion should be charged to Construction Account.

The adoption of this resolution was moved by Dr. Marks and unanimously carried.

Repairs to Tools and Implements.

Whereas, In the matter of repairs to Tools and Implements it would appear that telephone sets for 14th Street Station and other small items for 21st Street Station, amounting *in cumulo* to $128.44, are obviously new construction, we would call the attention of Corporation Counsel and the Accountants to these amounts as obviously wrong, while admitting them.

Repairs to Apparatus.

Resolved, On the motion of Dr. Marks, seconded by Mr. Lacombe, that the Advisory Board of Engineers reject charges to this Account, amounting to $2,133.98, as per schedule, submitted by the Accountants, and because of lack of time to make further investigations, the admission of various items, amounting to 8470 $5,463.45. The Board specially desires to call the attention of Corporation Counsel and the Accountants to the doubt regarding the correctness of these charges to Operations.

Repairs to Services.

The charges to this Account were fully considered by the Board and, after explanations by Mr. Lacombe, it was agreed, on the motion of Dr. Marks, seconded by Mr. Edgerton, to admit as Operating Charges all the amounts rejected, aggregating $1,059.29. It was explained by the Accountants that a detailed examination had been made of the pay tickets when it was found that a considerable number of increases of services had been charged to this Account. While they had been able to determine the amount of labor employed on this work, no record could be obtained of the material used. After a general discussion, the matter was remitted to the Accountants.

REPAIRS TO BUILDINGS.

The Accountants submitted schedule of charges, amounting to $2,934.25, which they considered either proper against Construction or against Revenue from Rented Properties. After examination their rejection was duly moved and carried.

REPAIRS TO METERS.

A statement was submitted giving the average number of meters in use during the year 1905, 382,108, and the cost of maintenance, including material used in connection with jobbing labor, $344,471.66, or an average of 90.06 cents per meter. The total investment in meters, meter cocks and connections, etc., was, at December 31, 1905, $3,261,687.42, or an average of $7.20 on the basis
8471 of the number of meters owned, viz.: 447,230. The opinion was generally expressed that both the amount of this investment, and the charge for up-keep, were excessive, and the Accountants explained that it appeared to them, from an examination of the vouchers, that a large proportion of the repairs were on account of reconstruction of meters. It was finally agreed to refer the whole matter to Mr. Edgerton for a report.

DISTRIBUTION ACCOUNT.

It was explained by the Accountants that this Account had been charged with the labor and material necessary to set meters and stoves, and also with work on jobbing and burners. The accounts, however, had not, so far as the Accountants had been able to ascertain by application to the Secretary of the Company, or from personal observation, been so kept that it could be determined how much material applied to each class of work. The account appeared in the books as follows:

Labor Saving Meters	$22,559.77
Labor Setting Stoves	25,331.94
Labor Burner Work	5,029.97
Labor Jobbing	120,383.96
	$173,305.64

The material used in connection with this labor amounted to $85,078.01, and it was necessary to determine how much of it applied to the various classes of work, and it was further necessary for the Board to state whether the charges for Setting Meters and Stoves were, in their opinion, proper charges against the manufacture and distribution of gas, or were Capital Expenditures. At the rerequest of the Chairman the Accountants stated that they considered 8472 that this cost might properly be regarded as a Construction charge, the piping, etc., installed being more or less permanent. As, however, on account of the uncertainty of the amount of use to be got out of these installations, the asset is rather a precarious one, they would consider it good business policy to write off each year a liberal allowance for depreciation. After a general discussion it was resolved to admit the charge as an operating one, on the ground that the expenditures of the year would, in all probability, approximate the amount which should be written off as depreciation had the expenditures of the previous years been capitalized.

At this point it was agreed to adjourn the meeting until Wednesday, November 14, 1906, at two o'clock, afternoon.

(Signed) C. V. LACOMBE.

MEETING No. 9.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Wednesday, November 14, 1906, at two o'clock, afternoon.

Present:

C. V. Lacombe
Wm. D. Marks
H. H. Edgerton
James Hall, of Marwick, Mitchell & Co., in attendance.

Mr. Lacombe in the Chair:

8473 The meeting resumed consideration of the Repairs to Meters Account and after considerable discussion, on the motion of Dr. Marks, seconded by Mr. Edgerton, passed the following resolution:—

Resolved, It is found from the report of Messrs. Marwick, Mitchell & Co. that the average number of meters in use during the year 1905 was 382,108, that 100,780 meters were repaired during the year, and that the repairs to meters show three separate items as follows:—

		Average
1. Meter Shops	$51,162.18	13.31¢
2. Repairs to Meters	172,925.52	45.25¢
3. Labor, Jobbing Work	120,383.96	31.50¢
	$344,471.66	90.06¢

The item, Labor, Jobbing Work, may include jobbing on stoves, but the amount cannot be determined. In addition, the material used on this Jobbing Work has to be added to the above figures.

The cost of Meter Shops must be included in the cost of Repairs to Meters, and would make the average cost of repairing a meter, excluding jobbing, 58.56 cents per meter in use.

We find the average cost of the Repairs to Meters as given by the Massachusetts Gas and Electric Light Commission in the year 1904, 42.5 cents. The same cost for the year 1905 was 49 cents. In the year 1904 the number of meters installed in Massachusetts was 285,765, and in 1905, 304,638. These figures include the expenditures and renewals account of a number of small companies in Massachusetts.

8474 In consequence, on account of the obscurity and lack of definiteness of these accounts, we are compelled to pass them; but would point out the extravagance of the meter repairs of the Consolidated Gas Company of New York.

On a motion of Dr. Marks, the meeting was adjourned until Friday afternoon, November 16, 1906, at 2 o'clock.

(Signed) C. V. LACOMBE.

MEETING No. 10.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plants of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, Friday, November 16, 1906, at two o'clock, afternoon.

Present:

Wm. D. Marks
H. H. Edgerton
James Hall, of Marwick, Mitchell & Co. in attendance.

Dr. Marks explained that Mr. Lacombe had intimated to him that he would be unable to attend the meeting and desired to have it postponed until the afternoon of the following day, November 17, 1906, at two o'clock.

(Signed) WM. D. MARKS.

8475

MEETING No. 11.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plants of the Consolidated Gas Company of New York, held at the Offices of the Company, 124 East Fifteenth Street, New York City, November 17, 1906, at two o'clock, afternoon.

Present:

C. V. Lacombe
H. H. Edgerton
William D. Marks
S. Roger Mitchell } of Marwick, Mitchell
James Hall } & Co. in attendance.

Mr. Lacombe in the Chair.

Dr. Marks reported that he had applied for a permit for himself and Mr. James Hall to visit the various works and stations of the

Consolidated Gas Company of New York, and that such permit had been refused.

Dr. Marks further explained that he was writing to that effect to Assistant Corporation Counsel Burr, and Mr. Lacombe requested that his name be appended to the letter, as it coincided with his views and he considered it highly advisable that this visit be made.

In viewing these accounts and considering certain items shown, the Chairman, in order to get the matter on record wishes to ask the Accountants if he is correct in stating that certain items of material and supplies purchased are shown to go to certain stations of the company, and that, beyond that point, the Accountants cannot trace to what purpose or use they have been put. Further, from the way in which the accounts have been kept, the Accountants 8476 cannot find or obtain the records showing the charging off of these items, so that the engineers cannot check such charging as correct. Further, that the Accountants have advised us that no proper stock accounts are kept in the General Office. In reply the Accountants assured Mr. Lacombe that his understanding was correct.

On the motion of Dr. Marks, the meeting was adjourned to meet any time at the call of the Chair.

(Signed) C. V. LACOMBE.

MEETING No. 12.

Meeting of the Advisory Board of Engineers in Connection with the Examination of the Accounts and Plant of the Consolidated Gas Company of New York, held at the Offices of Messrs. Marwick, Mitchell & Company, 79 Wall Street, New York City, Saturday, November 24, 1906, at two o'clock, afternoon.

Present:

C. V. Lacombe
H. H. Edgerton
Wm. D. Marks
Wm. P. Burr, Ass't Cor. Counsel.
S. Roger Mitchell } Of Marwick, Mitchell &
James Hall } Co. in Attendance.

Mr. Lacombe in the Chair:

Dr. Marks submitted the following report on a visit made to the works and shops by Mr. Lacombe and himself.

"That the accounts of the Meter Shop and Jobbing Shop 8477 could not be obtained; that Dr. Marks and Mr. Lacombe requested permission to go to the Shops, which was granted, and met Mr. Addicks, on November 22nd; that we asked to see his Shops and the Shop Records, and after some discussion he showed us the system of 4 Irving Place. This system shows that supplies for shops were purchased and charged up by 4 Irving Place, according to their characteristics, to Distribution Account or Mains Account, and unless this material, in the reports of the Shop Superintendents, is shown to have gone to some other shops or to some other account, the amount of this bill shows as a charge against this account. In case such items have been sent to other shops or used for other accounts, the item is reported to 4 Irving Place and a general credit made to the accounts above mentioned.

The next afternoon (November 23), with Mr. Addicks we visited the Meter Repair Shop and one of the Jobbing Shops at 66th Street, and found a complete system of accounting for all material and labor used by these Shops. In the Meter Repair Shop this, of course, was nothing but repairs. At the 66th Street Jobbing Shop it was found that in addition to this, they billed consumers for repairs to stoves other than their own, and also bill for special installation of heaters and other comparatively large expenditures for the consumer, which items were credited to Distribution Account.

The criticism that is made on this system of bookkeeping is that there is no way by which any distinction can be made in the items mentioned between Distribution, Operating Expense or Construction Account, so far as we could see this being predetermined by the Main Office and, as a rule, unchanged by the Shop Superintendent. In this Shop no distinction was made in the apportionment 8478 of material to the various accounts of meter seeting, jobbing, burner work, and stove setting, although labor for these accounts is kept separately.

Application was made on or about November 10th to obtain an opportunity to examine the Shops of the Consolidated Gas Company by the representative of the Accountants and of the Advisory Board of Engineers and the delay in granting this very much interfered with and hampered their work."

The question of the Depreciation upon the works and plant was introduced by Mr. Lacombe and after discussion the following motion was submitted by Dr. Marks:

Whereas, a cross-entry on account of depreciation, amounting to $282,219.67, was authorized by the Board of Directors of the Consolidated Gas Company on January 30, 1906, for the year 1905, and

Whereas, upon investigation it proves that part of this depreciation was on account of Mains disused in 1903 and 1904, amounting to $59,836.85.

Resolved, that the Advisory Board of Engineers recommend that the amount of $222,382.82 be accepted as the actual depreciation for the year 1905 and be incorporated in their report, and

Further, that this actual depreciation of 1.71 cents per 1,000 cubic feet of sales, added to the actual repairs made, amounting to 5.61 cents, making a total of $937,534.26 or 7.32 cents per 1,000 cubic feet, is apparently a proper and sufficient amount of depreciation and repairs for modern and large Works of the capacity of the Consolidated Gas Company.

The adoption of this Resolution was seconded by Mr. Edgerton and unanimously agreed to.

(Signed) C. V. LACOMBE.

* Gas Made Registered is incomplete, this figure being to April 20.

** Gas Made Registered is incomplete, this figure being to May 12, Meter broken down, Provsion for 4 Meters.

§ This total is made up as follows:

Coal Hoist Boilers	10
Distribution Boilers	1,674
Purification	12
	1,696

‡ This total is made up as follows:

Retort House	36,159
Coal	1,890
Coke	11,321
Incidentals	2,395
	51,765

8533 AGENCY AGREEMENT.

Agreement made the 31st of December, 1902, between the Consolidated Gas Company of New York and the New Amsterdam Gas Company, corporations duly organized and existing under the laws of the State of New York.

1. The Consolidated Gas Company of New York hereby employs the New Amsterdam Gas Company as its agent, and upon the terms hereinafter mentioned, to manufacture, produce and deliver to it, for the term of five years, such illuminating gas of the illuminating power required by the laws of the State of New York, as it may require during each year for said term of five years—estimated to be equal to at least 500,000,000 cubic feet per year, and to deliver the same to the gas holders, mains or meters of the Consolidated Gas Company of New York in such quantities and at such times as may be reasonably required by it.

The New Amsterdam Gas Company agrees to manufacture, produce and deliver such gas as aforesaid as the agent of the Consolidated Gas Company of New York.

2. The New Amsterdam Gas Company shall as agent for the Consolidated Gas Company of New York, purchase all the constituent materials and furnish labor necessary for such manufacture, production and delivery and employ in such manufacture, production and delivery, its own plant and appliances.

3. At the expiration of each month the New Amsterdam Gas Company shall render to the Consolidated Gas Company of New York an account of the cost of gas materials used and the gas labor 8534 furnished in manufacturing said gas together with the so-called station repairs during said month, and the Consolidated Gas Company of New York agrees to pay to the New Amsterdam Gas Company within ten days thereafter the amount due according to the said account, together with an additional ten per cent. thereof, which shall be in full for the services of the latter company and for the use of its plant and appliances during said month, and in full also for all claims for taxes on said plant and for insurance thereon and for all administrative and general expenses and of all other claims whatsoever, except as hereinafter mentioned.

4. The Consolidated Gas Company of New York shall have the right to examine at any reasonable time during business hours the manufacturing records, books and bills of cost of the materials and labor, and also any other books, bills and papers containing records of the total cost of the gas manufactured under the terms of this contract.

5. The Consolidated Gas Company of New York further agrees that it will at the end of every period of six months during the term of this Agreement, pay to the New Amsterdam Gas Company interest at the rate of five (5%) per cent. per annum for the previous six months upon the amounts expended by the New Amsterdam Gas Company in making additions to its Ravenswood Works since March

First, Nineteen hundred and one, for the purpose of increasing or facilitating the manufacture of gas.

6. This Agreement may be terminated at any time after July 1st, Nineteen hundred and four, at the option of either party hereto, by its giving notice of its election so to do one year in advance of the date of such termination.

8535 7. If no notice of termination shall have been given under the provisions of the preceding paragraph, the Consolidated Gas Company of New York may renew this agreement upon the same terms and under the same conditions for an additional period of five (5) years, providing the said Company notifies the New Amsterdam Gas Company in writing during the last six months of the present term of its election so to do.

In Witness Whereof, The companies have caused this agreement to be executed under their respective corporate seals by their respective Presidents and attested by their respective Secretaries the day and year first above written.

8536 AGENCY AGREEMENT.

Agreement, made the 31st day of December, 1902, between the Consolidated Gas Company of New York and The Standard Gas Light Company of the City of New York, corporations duly organized and existing under the laws of the State of New York.

1. The Consolidated Gas Company of New York hereby employs The Standard Gas Light Company of the City of New York, as its agent and upon the terms hereinafter mentioned, to manufacture, produce and deliver to it for the term of five (5) years, such illuminating gas of the illuminating power required by the laws of the State of New York as it may require during each year, for the said term of five (5) years, estimated to be equal to at least five hundred million (500,000,000) cubic feet per year, and to deliver the same to the gas holders, mains or meters of the Consolidated Gas Company of New York, in such quantities and at such times as may be reasonably required by it.

The Standard Gas Light Company of the City of New York agrees to manufacture, produce and deliver such gas as aforesaid, as the agent of the Consolidated Gas Company of New York.

II. The Standard Gas Light Company of the City of New York shall, as agent for the Consolidated Gas Company of New York, and at a reasonable rate, purchase all the constituent materials and furnish the labor necessary to such manufacture, production and delivery and employ in such manufacture, production and delivery its own plant and appliances.

8537 III. At the expiration of each month, The Standard Gas Light Company of the City of New York shall render to the Consolidated Gas Company of New York on account of all expenditures for constituent materials and labor made by it, as aforesaid, during each month, and the Consolidated Gas Company of New York agrees to pay to The Standard Gas Light Company of the City of New York, within ten (10) days thereafter, the amount due, according to such accounts, together with an additional ten per cent. (10%) thereof, which shall be in full for its services and the use of its plant and appliances during the said month.

IV. The Consolidated Gas Company of New York shall have a right to examine, at any reasonable time during business hours, the manufacturing records, books and bills of cost of the said constituent materials and labor, and also any other books, bills and papers containing records of the total cost of the gas manufactured under the terms of this contract.

V. This agreement may be terminated at any time, after July 1, 1904, at the option of either party hereto, by its giving notice of its election so to do one year in advance of the date of such termination.

VI. If no notice of termination shall have been given, under the provisions of the preceding paragraph, the Consolidated Gas Company of New York may renew this agreement upon the same terms and under the same conditions for an additional period of fixe (5) years, provided the said Company notifies The Standard Gas Light Company of the City of New York, in writing, during the
8538 last six months of the present term, of its election so to do.

In Witness Whereof, the Companies have caused this agreement to be executed under their respective corporate seals by their respective Presidents and attested by their respective Secretaries, the day and year first above written.

8539 AGENCY AGREEMENT.

Agreement, made the 31st day of December, 1902, between the Consolidated Gas Company of New York and the New York Mutual Gas Light Company, corporations duly organized and existing under the laws of the State of New York.

1. The Consolidated Gas Company of New York hereby employs the New York Mutual Gas Light Company, as its agent and upon the terms hereinafter mentioned, to manufacture, produce and deliver to it for the term of five (5) years, such illuminating gas of the illuminating power required by the laws of the State of New York as it may require, during each year, for the said term of five (5) years, estimated to be equal to at least one hundred million (100,000,000) cubic feet per year, and to deliver the same to the gas holders, mains or meters of the Consolidated Gas Company of New York, in such quantities and at such times as may be reasonably required by it.

The New York Mutual Gas Light Company agrees to manufacture, produce and deliver such gas, as aforesaid, as the agent of the Consolidated Gas Company of New York.

II. The New York Mutual Gas Light Company shall, as agent for the Consolidated Gas Company of New York, and at reasonable rates, purchase all the constituent materials and furnish the labor necessary to such manufacture, production and delivery and employ in such manufacture, production and delivery its own plant and appliances.

III. At the expiration of each month, the New York Mutual Gas Light Company shall render to the Consolidated Gas Company of New York an account of all expenditures for constituent 8540 materials and labor made by it, as aforesaid, during such month, and the Consolidated Gas Company of New York agrees to pay to the New York Mutual Gas Light Company, within ten (10) days thereafter, the amount due, according to such accounts, together with an additional ten per cent. (10%) thereof, which shall be in full for its services and the use of its plant and appliances during the said month.

IV. The Consolidated Gas Company of New York shall have a right to examine, at any reasonable time during business hours, the manufacturing records, books and bills of cost of the said constituent materials and labor, and also any other books, bills and papers containing records of the total cost of the gas manufactured under the terms of this contract.

V. This agreement may be terminated at any time, after July 1, 1904, at the option of either party hereto, by its giving notice of its election so to do one year in advance of the date of such termination.

VI. If no notice of termination shall have been given, under the provisions of the preceding paragraph, the Consolidated Gas Company of New York may renew this agreement upon the same terms and under the same conditions for an additional period of five (5) years, provided the said Company notifies the New York Mutual Gas Light Company, in writing, during the last six months of the present term, of its election so to do.

8541 In Witness Whereof, the Companies have caused this agreement to be executed under their respective corporate seals by their respective Presidents and attested by their respective Secretaries, the day and year first above written.

Employees Aid Society..........................	23,454.58
Accrued Taxes..................................	1,652,593.74
Accrued Water	8,408.15
Accrued Debenture Interest.....................	397,152.00
Stove Rent Suspense Account....................	11,562.25
Special Suspense	5,000.00
	$3,357,037.95

Should you desire any further information we shall be pleased to obtain it.

Yours truly,

MARWICK, MITCHELL & CO.

8549 Circuit Court of the United States, Southern District of New York.

CONSOLIDATED GAS COMPANY OF NEW YORK, Complainant,
vs.
JULIUS M. MAYER, as Attorney General of the State of New York; WILLIAM TRAVERS JEROME, as District Attorney of New York County; FREDERICK E. GUNNISON, JOHN C. DAVIES, and LUCIEN L. SHEDDEN, Constituting the New York State Commission of Gas and Electricity, and THE CITY OF NEW YORK, Defendants.

Before Hon. Arthur H. Masten, Special Master.

Report of Marwick, Mitchell & Co., Chartered Accountants.

Employed by the City of New York.

NEW YORK, *November* 26, 1906.

To Hon. William B. Ellison, Corporation Counsel, Solicitor for the Defendant The City of New York, William P. Burr, Esq., of Counsel.

8550 GENTLEMEN:

In accordance with your instructions, we have made an examination of the Real Estate Accounts of the Companies merged on November 11, 1884, under the name of the Consolidated Gas Company of New York and of that Company from the date of the merger to December 31, 1905, with a view to ascertaining the actual cost of all Real Estate now owned by it.

Immediately upon receipt of your instructions, we made application to the Consolidated Company for all the books necessary to make this examination, and had those specified in Appendix "I" submitted to us. From this you will observe that none of the books of the Metropolitan and Knickerbocker Gas Light Companies could be found, although a thorough search of all the offices of the Companies was made.

The absence of any books would necessarily limit the scope of our investigation, but in order to make our report complete, we decided to make use of a report, prepared during the year 1885 by Mr. J. Yalden, an Accountant of New York City, and submitted to the Hon. John J. Gilbert, Chairman, Hon. Thomas Robinson and Hon. Michael C. Murphy, Committee of the Senate of the State of New York. The Knickerbocker Gas Light Company was taken over by the Municipal Gas Light Company some time prior to November, 1884, consequently, it is only necessary for us to adopt Mr. Yalden's figures in the case of the Metropolitan Company.

As the result of our examination, we have to submit the following report, together with the Exhibits now enumerated:

Exhibit "A," Real Estate transferred by the Manhattan Gas Light Co., on November 11, 1884.

8551 Exhibit "B," Real Estate transferred by the Municipal and Knickerbocker Gas Light Companies, on November 11, 1884.

Exhibit "C," Real Estate transferred by the Harlem Gas Light Co., on November 11, 1884.
Exhibit "D," Real Estate transferred by The New York Gas Light Co., on November 11, 1884.
Exhibit "E," Real Estate transferred by the Metropolitan Gas Light Co., on November 11, 1884.
Exhibit "F," Real Estate acquired by the Consolidated Gas Co. of New York from November 11, 1884, to December 31, 1905.

ORIGINAL COST OF REAL ESTATE NOW OWNED.—The following statement represents a summary of the Real Estate held by the Companies merged as the Consolidated Gas Company of New York, at November 11, 1884, together with the original cost of the same, appreciation written up in their books and the amount at which it was taken over:

	Original cost buildings and improvements.	Appreciation less depreciation prior to Nov. 11, 1884.	Appreciation on transfer to Consolidated on Nov. 11, 1884.	Taken over at
1. Manhattan Gas Light Co..................	$1,378,691.45	*21,706.00	2,806,014.55	4,163,000.00
2. Municipal Gas Light Co.	561,462.83	....	527,537.17	1,089,000.00
3. Knickerbocker Gas Light Co...........	....	....	595,000.00	595,000.00
4. Harlem Gas Light Co..	313,211.62	....	440,788.38	754,000.00
5. The New York Gas Light Co............	453,303.77	866,696.23	637,000.00	1,957,000.00
6. Metropolitan Gas Light Co................	671,301.43	739,973.14	362,725.43	1,774,000.00
	$3,377,971.10	1,584,963.37	5,369,065.53	10,332,000.00

---

* Red ink in original.

From November 11, 1884, to December 31, 1905, the Consolidated Company made certain additions and improvements to Real
8552 Estate, and the following is the present position of the Account:

Taken over at November 11, 1884, as above..................	$10,332,000.00
Additions and Improvements to December 31, 1905, less Cost to Consolidated Company of Properties Sold.................	740,296.28
	11,072,296.28
Less: Profit over Cost to Consolidated Company of Properties sold	142,378.00
Book Value at December 31, 1905	$10,929,918.28

This amount is made up as follows:

Purchase price, including Additions and Improvements to November 11, 1884		$3,377,971.10
Purchase price, including Additions and Improvements from November 11, 1884, to December 31, 1905		740,296.28
		4,118,267.38
Appreciation in Accounts of Merged Companies prior to November 11, 1884	$1,584,963.37	
Appreciation on transfer at November 11, 1884	5,369,065.53	
	6,954,028.90	
Less: Profit on Real Estate sold by Consolidated Company and Credited to Purchase Price	142,378.00	
		6,811,650.90
Book Value at December 31, 1905		$10,929,918.28

1. MANHATTAN GAS LIGHT COMPANY.—This Company transferred at the date of the consolidation real estate, as detailed in Exhibit "A," at an appraised value of $4,163,00. The properties originally cost $1,378,691.45. Prior to the transfer in 1884, they had been depreciated by the amount of $21,706.00. The appreciation added at the date of the transfer was $2,806,014.55.

The Book Value of the properties transferred was $3,351,730.74, that is including $1,994,745.29 on account of apparatus charged during the years 1877 and 1881.

2 AND 3. MUNICIPAL AND KNICKERBOCKER GAS LIGHT COMPANIES.—These Companies were organized in 1876 and operated under one management until taken over by the Consolidated
8553 Company in 1884. The following is a statement of the Account at that date. The details will be found in Exhibit "B":

Acquired from Municipal Gas Light Co.	$1,089,000.00
" " Knickerbocker Gas Light Co.	595,000.00
	1,684,000.00
Original Cost, Including Buildings and Improvements	561,462.83
Appreciation at date of transfer	$1,122,537.17

4. HARLEM GAS LIGHT COMPANY.—The books of this Company have not been kept in such a manner as would enable us to obtain reliable information. The Company was incorporated in 1856. From that date until November 11, 1884, it acquired the real estate specified in Exhibit "C," and transferred at a price of $754,000.00,

including Bulkheads and Office Buildings. We cannot find the cost of the Bulkheads and Office Buildings, but the real estate was purchased, so far as we can determine, at a cost of $163,211.62. The Bulkhead and Office Buildings were transferred at $150,000. We have assumed that they cost the same amount, and have accordingly entered the purchase price of all the properties at $313,211.62. During the year 1875 the Company transferred to the City a certain piece of property at Inwood. We have allowed credit for $23,042.32, the full amount received, as the cost could not be obtained from the books. On May 21, 1866, in accordance with a resolution of the Board of Directors, the Construction Account was charged and the Capital Stock credited with $200,000.00 on account of the increased value of works and plant over the actual cost. A proportion of this
amount would properly apply to Real Estate, but exactly
8554 what proportion we cannot determine. As the purpose of this
examination is to ascertain the actual cost, this point is not
of material importance.

5. The New York Gas Light Company.—This Company, the first to manufacture gas in the City of New York, was formed in 1823 under the title of New York Gas Light Company. In 1871 it was reconstructed under its present name. At that time the real estate was appreciated by $933,500.00, from which has to be deducted depreciation written off in previous years, $66,803.67. Again in 1884 a further appreciation of $637,000.00 was made. As a result, the real estate, as detailed in Schedule "D," which cost $453,303.77, was taken over at $1,957,000.00, an appreciation of $1,503,696.23.

6. Metropolitan Gas Light Company.—The books of this Company could not be found and we have, as previously mentioned, adopted the figures given by Mr. J. Yalden. From his report, we find that the Real Estate handed over to the Consolidated Company and detailed in Schedule "E" was appraised at $1,774,000.00, that is $1,102,698.57 in excess of the book value, which was $671,301.43. Of this appreciation, $739,973.14 was added prior to November 11, 1884, and $362,725.43 at that date.

Consolidated Gas Company of New York.—From November 11, 1884, to December 31, 1905, the Consolidated Gas Company made certain additions to the Account, details of which will be found in Exhibit "F," and they sold the following lots:

	Cost price.	Sold for	Profit.
First Avenue and 111th and 112th Streets.....	$86,000.00	118,900.00	32,900.00
20th and 22nd Streets, East River Water Front.	247,858.00	247,858.00	
15th and 16th Streets...................... ...	130,000.00	180,000.00	50,000 00
Avenue A, 62nd and 63rd Streets............	118,600.00	178,078.00	59,478.00
	$582,458.00	724,836.00	142,378.00

8555 The profit shown above is that made on the price paid by
the Consolidated Company for these properties. What they
originally cost we cannot trace, owing to the lack of definiteness in the books of the merged companies. In the case of the East River Water Front, we find that these bulkheads appeared at a valuation of $250,000. As the Company have retained certain rights and

privileges, their value could not be ascertained. We, therefore, have proceeded on the assumption that the cost price only had been realized.

During the period under review, the Company acquired certain ground at Long Island at a price of $450,000.00, subsequently transferring it to the Astoria Light, Heat and Power Company for $750,000.00, a profit of $300,000.00. This transaction is not included in the figures given by us, as the profit was transferred by the Company to the credit of Profit and Loss Account.

We shall be pleased to furnish any further information you may desire.

Yours truly,

MARWICK, MITCHELL & CO.

8578 CITY'S EXHIBIT 81.

THIS INDENTURE made this twenty-second day of June in the year of our Lord One thousand eight hundred and forty-eight between the Mayor, Aldermen and Commonalty of the City of New York, of the first part and Hezekiah Bradford of said city of New York of the second part.

WITNESSETH that the said party of the first part for and in consideration of the sum of nine thousand dollars lawful money of the United States of America to them in hand paid by the said *parties* of the second part, the receipt whereof is hereby acknowledged have granted, bargained, sold, aliened, released and conveyed, and by these presents do grant, bargain, sell, alien, release and convey unto said party of the second part, and to his heirs and assigns all that certain water lot, vacant ground and soil under water to be made land and gained out of the East River or Harbor of New York, situate, lying and being in the eighteenth Ward of the City of New York, commencing and containing as follows, that is to say BEGINNING at a point on the former high water line where the same is intersected by the line of the centre of fourteenth street, running thence southeasterly along the line of the centre of Fourteenth Street, one thousand nine hundred and fifty-six feet to the easterly side of Tompkins street as established, by law. Thence northerly along the easterly side of Tompkins street one thousand four hundred and sixty-nine feet four inches to the southeasterly corner of land granted by the parties of the first part to John Flack and Nicholas Gouverneur, by deed bearing date the first of August one thousand eight hundred and twenty-five, thence westerly
8579 along the southerly side of said lands made to Flack and Gouverneur, as aforesaid, one thousand three hundred and forty-five feet to the former high water line, thence southerly along the former high water line, thirty-three feet to the northwesterly corner of a certain piece of land granted by the party of the first part to Nicholas W. Stuyvesant, by deed bearing the date of the seventh day of March one thousand eight hundred and ten, now belonging to the party of the second part, thence easterly along the northerly side of land made to Stuyvesant and now belonging to the party of the second part, as aforesaid, five hundred and forty feet, thence southerly along the easterly end of said land made to Stuyvesant and now belonging to the party of the second part, as aforesaid, one hundred and ninety feet, thence westerly along the southerly side of said land made to Stuyvesant and now belonging to the party of the second part, as aforesaid, five hundred and forty feet to the former high water line, thence southerly along the former high water line to the point of Beginning.

Excepting, however so much of the above described premises as is required for the streets hereinafter mentioned to be made by the party of the second part, which said streets by a map or survey made by John I. Serrill, City Surveyor, dated New York May fifteenth, One thousand eight hundred and forty-eight hereunto annexed and which is to be deemed a part of this conveyance will more fully appear.

TOGETHER with all and singular the privileges, advantages, hereditaments and appurtenances to the same belonging or in anywise appertaining, and also all the estate, right, title, interest, property, claim and demand whatsoever of the said parties of the first part of, in and to the said premises and every part and parcel 8580 thereof with the appurtenances.

TO HAVE AND TO HOLD the said premises hereby granted with the appurtenances unto the said party of the second part, his heirs and assigns to his and their own proper use, benefit and behoof forever.

AND the said party of the second part for himself and his heirs and assigns does hereby covenant and agree to and with the said parties of the first part, their successors and assigns, that the said party of the second part his heirs and assigns shall and will within three months next after he or they shall be thereunto required by the said parties of the first part, or their successors, but not until he or them shall be thereunto required, at his or their own proper cost and charges, build, erect, make and finish, or cause to be built, erected, made and finished, according to any resolution or ordinance of said parties of the first part, or their successors, already passed or adopted, or that may be hereafter passed or adopted a good and sufficient firm bulkhead, wharf, avenue or street fifty feet in width along the whole of the southwesterly side of the premises hereby granted and extending to the permanent exterior line of said city being the northeasterly one-half part of Fourteenth street. Also one other good and sufficient firm bulkhead, wharf, avenue or street extending from the southerly side of land granted to Flack and Gouverneur, as aforesaid, to the northerly side of land granted to N. W. Stuyvesant, as aforesaid, and now belonging to the party of the second part, and forming and intending to form a portion of Fifteenth street. Also one other good and sufficient firm bulkhead, wharf, avenue or street, sixty feet in width, extending from 8581 the southerly side of land granted to Stuyvesant, as aforesaid and now belonging to the party of the second part to the permanent exterior line of said city being a portion of the intended new street called Fifteenth street. Also one other good and sufficient firm bulkhead, wharf, avenue or street sixty feet in width extending from the southerly side of land granted to Flack and Gouverneur, as aforesaid, to the permanent exterior line of said city, being a portion of the intended new street called Sixteenth street. Also one other good and sufficient firm bulkhead, wharf, avenue or street sixty feet in width extending from the southerly side of land belonging to Flack and Gouverneur, as aforesaid, to the permanent exterior line of said city, being a portion of the intended new street *and* called Seventeenth street. Also one other good and sufficient firm bulkhead, wharf, avenue or street eighty feet in width extending from the middle line of Fourteenth street to land formerly belonging to Flack and Gouverneur as aforesaid, being a portion of the intended new street, called Avenue C. Also one other good and sufficient firm bulkhead, wharf, avenue or street, sixty feet in width, extending from the northeasterly side of Fourteenth street to land formerly belonging to N. W. Stuyvesant, as aforesaid. Also from the northerly side

of land belonging to N. W. Stuyvesant, as aforesaid, to the southerly side of land granted to Flack and Gouverneur as aforesaid, being portions of the intended new street called Avenue B. Also one other good and sufficient firm bulkhead, wharf, avenue or street seventy feet in width extending from the middle line of Fourteenth street to the southerly side of land formerly belonging to Flack and Gouverneur as aforesaid, being a portion of the intended new street called Tompkins street. Also one other good and sufficient firm bulkhead, wharf, avenue or street bounded northwesterly by
8582 the easterly side of Avenue C, southerly by the northerly side
of Seventeenth street and easterly by the westerly side of Tompkins street. Also one other good and sufficient firm bulkhead wharf avenue or street bounded southwesterly by the northeasterly side of Fourteenth street, westerly by the westerly side of Avenue B and easterly by the westerly side of Tompkins street, which said bulkheads, wharfs, avenues or streets will more fully appear on the map hereunto annexed, and will also fill in the same with good and sufficient earth, and regulate and pave the same and also the sidewalks thereon.

AND also that the said party of the second part his heirs and assigns shall and will, from time to time, and at all times forever hereafter at his or their own proper cost, charge and expense uphold and keep in good order and repair the whole of the above described streets or avenues, which the said party of the second part hath covenanted and agreed to make, erect and build, as aforesaid, and will at all times forever hereafter obey fullfil and observe such ordinances, resolutions, orders and directions as the said parties of the first part, and their successors and assigns shall, from time to time, enact, pass or make relative thereto, and also that the said streets and avenues shall forever thereafter continue to be and remain public streets and avenues and highways for the free and common use and passage of the inhabitants of the said city, and all others passing and repassing by and through and along the same in like manner as the other public streets, avenues, bulkheads and wharfs of the said city now are and of right *out* to be, and in case default shall be made by the said party of the second part, his heirs or assigns in building, erecting, making or finishing the said bulkheads,
8583 wharves, streets and avenues as aforesaid, and fill in the same,
or any part thereof, or complying with any ordinance, resolution or order of the said parties of the first part, or their successors, when they shall be required as above mentioned, then, and in that case, it shall and may be lawful for the said parties of the first part or their successors, to build, erect, make or finish the bulkheads, wharves, streets and avenues, as aforesaid, and fill in the same and regulate and pave the said street and land, and the sidewalks thereof at the proper costs and charges of the said party of the second part, his heirs and assigns and charge to and recover in an action at law from the said party of the second part his heirs or assigns the amount thereof, together with the interest thereon, and all costs and charges of the proceedings relative to the same, or to sell and dispose of the whole of the hereby granted premises, or any part thereof, at public auction for the most that can be had for the same, and in case of any

deficiency to charge with and recover from the said party of the second part his heirs and assigns the amount of such deficiency, or to adopt and pursue any legal right or remedy that the said parties of the first part and their successors now possess or enjoy under and by virtue of any act of the Legislature of the State of New York or that may hereafter be granted to the said parties of the first part and their successors, by the Legislature of the State of New York, or to enter into and upon the whole or any part of the above granted premises, and to grant the above described premises, the right of making the said bulkhead, wharves, streets and avenues, and the right of receiving the wharfage, cranage and profits arising to and from the same in every person or persons, their heirs and assigns forever.

8584 AND also that he, the said party of the second part, shall and will pay all taxes, assessments and impositions, as well ordinary as extraordinary as now are upon or shall or may be imposed or levied upon the hereby granted premises under and by virtue of any act or acts of the Congress of the United States, of the Legislature of the State of New York, or by any act ordinance or resolution of the said parties of the first part, or their successors.

AND It is hereby further covenanted and agreed by and between the parties to these presents, and the intent and meaning hereof is, that the said party of the second part, his heirs and assigns, will not build the wharves and bulkheads, avenues and streets hereinbefore mentioned, or any part thereof, or make the lands in conformity with the covenants hereinafter mentioned until permission for that purpose shall be first had and obtained from the said parties of the first part, their successors or assigns, and will not build or erect, or cause to be built or erected any wharf or pier or other obstructions into the East River in front of Tompkins street, without the permission of the said parties of the first part, their successors or assigns first had for that purpose.

AND the said parties of the first part for themselves and their successors and assigns do covenant and agree to and with the said party of the second part, his heirs and assigns, that he the said party of the second part his heirs and assigns, observing, fulfilling and keeping all and singular the articles, covenants and agreements herein mentioned and contained and on his part to be kept and performed according to the true intent and meaning of these presents, shall and lawfully may from time to time, and at all times hereafter fully have and enjoy, take and receive and hold to his own proper
8585 use all manner of wharfage, cranage, advantages or emoluments growing or accruing by or from that part of the said exterior line of the said city lying on the easterly side of said premises fronting on the East River, EXCEPTING therefrom all such wharfage, cranage, advantages and emoluments to grow or accrue along the easterly end of the bulkhead in front of the northeasterly half of Fourteenth street, also along the easterly end of the bulkhead in front of the entire width of Fifteenth street, also along the easterly end of the bulkhead in front of the entire width of Sixteenth street, also along the easterly end of the bulkhead in front of the entire width of Seventeenth street, which shall be and hereby

are reserved for the said parties of the first part, their successors or assigns, and shall belong unto them and may be received and collected by them for their use and benefit forever.

AND it is hereby further covenanted and agreed by and between the parties to these presents and the true intent and meaning whereof is, that this present grant and every work or thing in the same contained shall not be construed or taken to be a covenant or covenants of the warranty or seizen of the said parties of the first part, or their successors, nor to operate further than to pass the estate, right, title or interest they may have or may lawfully claim by virtue of their several charters and the various acts of the people of the State of New York.

AND it is hereby further mutually understood and agreed that these presents and the estate hereby granted are upon the express condition that if, at any time hereafter, it shall appear that the said party of the second part was not on the day of the date hereof seized of a good, sure, absolute and indefeasible estate of inheritance 8586 in fee simple of and in the lands and premises on the westerly side of the premises hereby granted and adjoining the same, or if the said party of the second part, his heirs and assigns shall make default in the performance of any or either of the covenants above contained on his or their part to be observed, performed, fulfilled and kept, then, and in every such case these presents and every article, clause or thing herein contained shall be and become absolutely null and void and the said parties of the first part and their successors, shall and may forthwith thereupon enter into and upon the said premises hereby granted and shall thereafter be seized of the same with the appurtenances, full, clear and discharged of and from, any claim, right or pretence of claim, or right of the said party of the second part his heirs and assigns anything herein contained to the contrary notwithstanding.

AND the said party of the second part for himself and his heirs and assigns doth hereby covenant promise and agree to and with the said parties of the first part, their successors and assigns, that he, the said party of the second part, his heirs and assigns shall and will in all things well and faithfully comply with fulfil and perform all and every of the covenants, conditions, agreements, understandings and provisions herein contained and on their part to be kept, performed and complied with.

IN WITNESS WHEREOF to one part of these presents remaining with the said parties of the first part, the said party of the second part hath affixed his hand and seal to the other part remaining with the said party of the second part, and the said parties of the first part have caused the common seal of the City of New York 8587 to be affixed the day and year first above written.

HEZEKIAH BRADFORD. [L. S.]

Signed and Sealed and Delivered in Presence of

—— ——.

The word June on the first line of this grant written on an erasure before execution.

AUG. KIMBALL,
Clerk to the Compr.
JOHN I. SERRELL.

8588 CITY'S EXHIBIT 82.

THIS INDENTURE made this first day of May in the year one thousand eight hundred and fifty between The Mayor, Aldermen and Commonalty of the City of New York of the first part and JOHN I. V. WESTERVELT of said city of the second part WITNESSETH that the said parties of the first part for and in consideration of the sum of one thousand eight hundred and fifty dollars and seventy-five cents lawful money of the United States of America to them in hand paid by the said party of the second part the receipt whereof is hereby acknowledged HAVE granted bargained sold aliened released and conveyed and by these presents do grant bargain sell alien release and convey unto the said party of the second part and to his heirs and assigns ALL that certain WATER LOT vacant ground and soil under water to be made land and gained out of Hudson on North River or Harbor of New York situate lying and being in the Nineteenth Ward of the City of New York described and containing as follows that is to say BEGINNING at a point formed by the intersection of a right line drawn lengthwise through the center of Forty-fourth Street with the line of high water mark on the easterly shore of the Hudson River as shown on the map hereto annexed which is to be deemed a part of this conv-yance and running thence westerly along said first mentioned line eight hundred and sixty-six feet four inches to the exterior line of the (13) Thirteenth Avenue which is the permanent exterior line of said city and said river, thence northerly along said last mentioned line two hundred and sixty-one feet eight inches and one-half inch to the centre line of Forty-fifth Street, thence easterly along said centre line last
8589 named and parallel with the line first above mentioned drawn lengthwise as aforesaid through the center of Forty-fourth Street eight hundred and eighty-five feet ten inches till it intersects said line of high water mark and thence southerly along said high water line to the point of beginning as particularly described designated and shown on said map be said distances and dimensions more or less saving and reserving from out of the hereby granted premises so much thereof as forms as per said map annexed parts or portions of Forty-fourth and Forty-fifth Streets and of the Twelfth and Thirteenth Avenues for the uses and purposes of public streets avenues and highways as hereinafter mentioned. TOGETHER with all and singular the privileges advantages hereditaments and appurtenances to the same belonging or in any wise appertaining AND also all the said estate right title interest property claim and demand whatsoever of the said parties of the first part of in and to the said premises and every part and parcel thereof with the appurtenances TO HAVE AND TO HOLD the said hereby granted premises with the ap-

purtenances unto the said party of the second part his heirs and assigns to his only proper use benefit and behoof forever. And the said party of the second part for himself his heirs and assigns doth hereby covenant and agree to and with the said parties of the first part their successors and assigns that the said party of the second party his heirs and assigns shall and will within three months next after he or they shall be thereunto required by the said parties of the first part or their successors at his or their own proper costs and charges build erect make and finish or cause to be built erected made and finished according to any resolution or ordinance of the said parties of the first part or their successors already passed or
8590 adopted or that may hereafter be passed or adopted four good
and sufficient bulkheads wharfs avenues or streets which shall form so much and such parts of Forty-fourth and Forty-fifth Streets and of the Twelfth and Thirteenth Avenues as fall within the limits of the premises above described and are reserved as aforesaid from out thereof for public streets and will fill in the same with good and sufficient earth and regulate and pave the same and lay the sidewalks thereof. And also that the said party of the second part his heirs and assigns shall and will from time to time and at all times forever hereafter at his or their own proper costs charges and expenses uphold and keep in good order and repair the whole of those parts of the said Forty-fourth and Forty-fifth Streets and the Twelfth and Thirteenth Avenues which the said party of the second part has covenanted and agreed to make erect and build as aforesaid and will at all times forever hereafter obey fulfill and observe such ordinances resolutions order and directions as the said parties of the first part and their successors shall from time to time enact and pass or make relative thereto. And also that the said streets and avenues shall forever thereafter continue to be and remain public streets and avenues and highways for the free and common use and passage of the inhabitants of said city and all others passing and repassing by through and along the same in like manner as the other public streets avenues bulkheads and wharfs of the said city now are or lawfully ought to be. And in case default shall be made by said party of the second part his heirs and assigns in building erecting making or finishing the said bulkheads wharves streets and avenues by him or them covenanted herein to be built erected made and finished and in filling the same or any part thereof or in complying with any ordinance resolution or order of the said parties
8591 of the first part or their successors when required then and in
that case it shall and may be lawful for the said parties of the first part or their successors to build erect make or finish the bulkheads wharfs streets and avenues as aforesaid and to fill in the same and to regulate and pave the same and lay the sidewalk thereof at the proper costs and charges of the said party of the second part his heirs and assigns and to charge to and recover in an action at law from the said party of the second part his heirs and assigns the amount thereof together with the interest thereon and all costs and charges, of the proceedings relative to the same or to sell and dispose of the whole of the said hereby granted premises or any part thereof at public auction for the most that can be had for the same and in

case of any deficiency to charge with and recover from the said party of the second part his heirs and assigns the amount of such deficiency or to adopt and pursue any legal right or remedy that the said parties of the first part or their successors now possess and enjoy under and by virtue of any act of the legislature of the State of New York or that may thereafter be granted unto the said parties of the first part or their successors by the legislature of the State of New York or to enter in and upon the whole or any part of the hereby granted premises and to grant the same, the right of making said bulkheads wharfs streets and avenues and the right of receiving the wharfage cranage and profits arising to and from the same to any other person *person* or persons their heirs and assigns forever AND also that the said party of the second part his heirs and assigns shall and will pay and satisfy all taxes assessments and impositions as well ordinary as extraordinary as are now or shall or may hereafter be lawfully imposed or levied upon the hereby granted premises
8592 under and by virtue of any act or acts of the Congress of the United States of America of the Legislature of the State of New York or by any act ordinance or resolution of the said parties of the first part or their successors.

AND IT IS HEREBY further covenanted and agreed by and between the parties to these presents and the true intent and meaning hereof is that the said party of the second part his heirs and assigns will not build the said wharfs bulkheads or avenues and streets hereinbefore mentioned or any part thereof or make the lands in conformity with the covenants hereinafter mentioned until permission for that purpose shall be first had and obtained from the said parties of the first part or their successors and will not build erect or cause to — built or erected any wharf or pier or other obstruction in the Hudson River in front of the Thirteenth Avenue without the permission of the said parties of the first part their successors or assigns first had for that purpose. AND the said party of the first part for themselves their successors and assigns do covenant and agree to and with the said party of the second part his heirs and assigns that he the said party of the second part his heirs and assigns observing, fulfilling and keeping all and singular the articles covenants and agreements herein mentioned and contained on their part to be kept and performed according to the true intent and meaning of these presents shall and lawfully may from time to time and at all times thereafter fully have and enjoy take and receive and hold to his own proper use all manner of wharfage cranages advantages or emoluments growing or accruing by or from that part of the said exterior line of the said city lying on the westerly side of the hereby granted premises fronting on the Hudson River excepting therefrom such wharfage cranage advantages and emoluments to grow or
8593 acc*ure* from the westerly end of the bulkhead in front of the entire width of the southerly half part of Forty-fifth Street and the northerly half part of Forty-fourth Street which shall be and are hereby reserved for the said parties of the first part their successors or assigns with full power to collect and receive the same for their own proper use and benefit forever. AND IT is hereby further

agreed by and between the parties to these presents that the true intent and meaning hereof is that this present grant and every word or thing in the same contained shall not be construed or taken to be a covenant or covenants of warranty or of seizin of said parties of the first part or their successors not to operate further than to pass the estate right title or interest which they may have or may lawfully claim in the premises hereby conveyed by virtue of their several charters and the various acts of the legislature of the People of the State of New York. And it is hereby further mutually understood and agreed and these presents and the estate hereby granted are upon the express condition that if at any time hereafter it shall appear that the said party of the second part was not on the day of the date hereof seized of a good sure absolute indefeasible estate of inheritance in fee simple of in and to the lands and premises on the easterly side of the premises hereby granted and adjoining the same that the said party of the second part his heirs and assigns shall make default in the performance of any or either of the covenants above contained on his part and behalf to be observed performed fulfilled and kept there and in every such case these presents and every article clause or thing herein contained shall be and become absolutely null and void and the said parties of the first part and their successors shall and may forthwith thereupon enter into and upon the said 8594 premises hereby granted and shall thereafter be seized of the same with the appurtenances free clear and discharged of and from any claim right or pretense of claim or right of the said party of the second part his heirs and assigns anything herein contained to the contrary notwithstanding. AND the said party of the second part for himself and his heirs and assigns doth hereby covenant and agree to and with the said parties of the first part their successors and assigns that he the said party of the second part his heirs and assigns shall and will in all things well and faithfully comply with and fulfill and perform all and every of the covenants conditions and agreements undertakings and provisions herein contained and on his part to be kept performed and complied with.

IN WITNESS WHEREOF to one part of these presents remaining with the said parties of the first part the said party of the second part hath affixed his hand and seal and to the other part thereof remaining to the said party of the second part the said parties of the first part have caused the common seal of the City of New York to be affixed the day and year above written.

JOHN I. V. WESTERVELT.

Sealed and delivered in the presence of
CHAS. W. LAWRENCE.

City and County of New York, *ss:*

On this 20th July, 1850, before me came Charles W. Lawrence to me personally known who being duly sworn did depose and 8595 say he resided in the City of New York that he is personally acquainted with John I. V. Westervelt and knows him to be the individual described in and who executed the foregoing indenture; that he became a subscribing witness to the execution of the same and said Westervelt executed the same in his presence and acknowledged to him that he executed the same for the purpose therein mentioned.

JOS. C. PINCKNEY,
Commiss. of Deeds.

CITY'S EXHIBIT 83.

Grant to J. I. V. Westervelt, 45th and 46th Streets, Eleventh and Thirteenth Avenues.

8612 CITY'S EXHIBIT 85.

THIS INDENTURE MADE this twenty-seventh day of August One thousand eight hundred and fifty-three between The Mayor Aldermen and Commonalty of the City of New York of the first part and CHARLES E. APPLEBY of the second part. WITNESSETH: That the said parties of the first part for and in consideration of the sum of Four thousand nine hundred and thirty-seven dollars and fifty cents lawful money of the United States of America to them in hand paid by the said party of the second part the receipt whereof is hereby acknowledged HAVE granted, bargained and sold released and conveyed and by these presents Do grant bargain alien release and convey unto the said party of the second part and to his heirs and assigns ALL THAT certain water lot or vacant ground and soil under water to be made land and gained out of the Hudson or North River or Harbor of New York and bounded described and containing as follows that is to say BEGINNING at the point of intersection of the line of original high water mark with the line of the centre of Forty-first Street and running thence westerly along said centre line of said Forty-first Street about one thousand three hundred and thirty-eight feet eleven inches to the westerly line or side of the Thirteenth Avenue said westerly side of the Thirteenth Avenue being the permanent exterior line of said side as established by law, thence northerly along the westerly line or side of the Thirteenth Avenue two hundred and seventy-eight feet five and a quarter inches to a line running through the centre of Forty-second Street, thence easterly along said centre line of Forty-second Street about one thousand three hundred and twenty-five feet seven inches to the line of original high water mark and thence 8613 mainly in a southerly direction along said line of original high water mark as it winds turns and runs to the point or place of beginning particularly described designated and shown on a map hereto annexed dated New York June 1853 made by John I. Serrell City Surveyor and to which reference may be had said map being considered a part of this Indenture the premises conveyed being colored pink on said map be the said dimensions more or less SAVING and reserving from and out of the hereby granted premises so much thereof as by the said map annexed forms parts or portions of the Twelfth or Thirteenth Avenues Forty-first and Forty-second Streets for the uses and purposes of public streets avenues and highways as hereinafter mentioned TOGETHER with all and singular the privileges advantages hereditaments and appurtenances to the same belonging or in anywise appertaining AND ALSO all the estate right title and interest property claim and demand whatsoever of the said parties of the first part of in and to the said premises and every part and parcel thereof with the appurtenance TO HAVE AND TO HOLD the said premises hereby granted to the said Charles E. Appleby his heirs and assigns to his own proper use and benefit and behoof forever AND the said party of the second part for himself his heirs and assigns doth hereby covenant and agree to and with the said parties of the first part their successors and assigns that the said party of the second part his heirs and assigns shall and will within three months next after he or they shall be thereunto required by the said parties of the first part or their successors at his or their own proper costs and charges build erect make and finish or cause to be built erected made and finished according to any resolution or ordinance of the said parties of the first part or their successors already passed or adopted or that may hereafter be passed or 8614 adopted four good and sufficient bulkheads wharfs streets and avenues which shall form so much and such parts of the Twelfth and Thirteenth Avenues Forty-first and Forty-second Streets as fall within the limits of the premises above described and are reserved as aforesaid from out thereof for public street and will fill in the same with good and sufficient earth and regulate and pave the same and lay the sidewalks thereof AND ALSO that the said party

of the second part his heirs and assigns shall and will from time to time and at all times forever hereafter at his own proper costs charges and expenses uphold and keep in good order and repair the whole of these parts of the said Twelfth and Thirteenth Avenues Forty-first and Forty-second Streets which the said party of the second part hath covenanted and agreed to make erect and build as aforesaid and will at all times forever hereafter obey fulfil and observe such ordinance- resolutions orders and directions as the said parties of the first part and their successors shall from time to time enact and pass or make relative thereto AND ALSO that the said streets and avenues shall forever thereafter continue to be and remain public streets and avenues and highways for the free and common use and passage of the inhabitants of said city and all others passing and repassing by through and along the same, in like manner as the other public streets avenues bulkheads and wharfs of the said city now are or lawfully ought to be, and in case default shall be made by said party of the second part his heirs and assigns in building erecting making or finishing the said bulkheads wharfs streets and avenues by him covenanted herein to be built erected made and finished and in filling in the same or any part thereof or in complying with any ordinance resolution or order of the said parties of the first part or their successors when required, then and in that case it shall
8615 and may be lawful for the said parties of the first part or their successors to build erect make or finish the bulkheads wharves streets and avenues as aforesaid and to fill in the same and to regulate and pave the same and to lay the sidewalks thereof at the proper costs and charges of the said party of the second part his heirs and assigns and to charge to and recover in an action at law from the said party of the second part his heirs and assigns the amount thereof together with the interest thereon and all costs and charges of the proceedings relative to the same or to sell and dispose of the whole of the hereby granted premises or any part thereof at public auction for the most that can be had for the same and in case of any deficiency to charge with and recover from said party of the second part his heirs and assigns the amount of such deficiency or to adopt or pursue any legal right or remedy that the said parties of the first part or their successors now possess and enjoy under and by virtue of any act of the legislature of the State of New York or that may hereafter be granted unto the said parties of the first part or their successors by the legislature of the State of New York or to enter into and upon the whole or any part of the hereby granted premises and to grant the same and the right of making said bulkheads wharfs streets or avenues and the right of receiving the wharfage cranage and profits arising to and from the same to any other person or persons their heirs and assigns forever AND ALSO that the said party of the second part his heirs and assigns shall and will pay and satisfy all taxes assessments and impositions as well ordinary as extraordinary as are now or shall or may hereafter be lawfully imposed or levied upon the hereby granted premises under and by virtue of any act or acts of the Congress of the United States
8616 of America or of the Legislature of the State of New York or by any act ordinance or resolution of the said parties of the

first part or their successors AND it is hereby further covenanted and agreed by and between the parties of these presents and the true intent and meaning hereof is that the said party of the second part his heirs and assigns will not build the said wharfs bulkheads avenues or streets hereinbefore mentioned or any part thereof or make the lands in conformity with the covenants hereinafter mentioned until permission for that purpose shall be first had and obtained from the said parties of the first part or their successors and will not build or erect or cause to — built or erected any wharf or pier or obstruction in the Hudson River in front of the hereby granted premises without the permission of the said parties of the first part their successors or assigns first had for that purpose AND the said parties of the first part for themselves their successors and assigns do covenant and agree to and with the said party of the second part his heirs and assigns that he the said party of the second part his heirs and assigns observing fulfilling and keeping all and singular the articles covenants and agreements herein mentioned and contained on his part to be kept and performed according to the true intent and meaning of these presents shall and lawfully may from time to time and at all times hereinafter fully have and enjoy take and receive and hold to his own proper use all manner of wharfage cranage advantage or emoluments growing or accruing by or from that part of the said exterior line of the said city lying on the westerly side of the hereby granted premises fronting on the Hudson River with full power to collect and receive the same for his own proper use and benefit
8617 forever. EXCEPTING therefrom such wharfage cranage advantages and emoluments to grow or accrue from the westerly end of the bulkhead in front of the entire width of the northerly half part of Forty-first Street and the southerly half part*y* of Forty-second Street which shall be and are hereby reserved for the said parties of the first part their successors and assigns with full power to collect and receive the same for their own proper use and benefit forever and IT IS HEREBY further agreed by and between the parties to these presents and the true intent and meaning hereof is that this present grant and every word or thing in the same contained shall not be construed or taken to be a covenant or covenants of warranty or of seizen of said parties of the first part or their successors or to operate further than to pass the estate right title or interest they may have or may lawfully claim in the premises hereby conveyed by virtue of their several charters and the various acts of the legislature of the people of the State of New York AND it is hereby further understood and agreed and these presents and the estate hereby granted are upon the express condition that if at any time hereafter it shall appear that the said party of the second part is not on the day of delivery hereof lawfully entitled to take and receive this grant as the purchaser of the rights hereto from the proprietors of the lands and premises on the easterly side of the premises hereby granted and adjoining the same or if the said party of the second part his heirs and assigns shall make default in the performance of any or either of the covenants above contained on his part and behalf to be observed performed fulfilled and kept then and in every such case these presents and every article clause or thing

herein contained shall be and become absolutely null and void and the said parties of the first part and their successors shall and 8618 may forthwith thereupon enter into and upon the said premises hereby granted and shall thereafter be seized of the same with the appurtenances free clear and discharged of and from any claim right or pretense of claim or right of the said party of the second part his heirs and assigns anything herein contained to the contrary notwithstanding AND the said party of the second part covenants and agrees the assessment and the interest due and to grow due thereon for building the sewer in Forty-second Street assessed upon the premises hereby granted and also to pay all expenses which have been incurred by the said parties of the first part for regulating the streets embraced in this grant between the high water mark and the permanent exterior line of said city AND the said party of the second part for himself his heirs and assigns doth hereby covenant and agree to and with the said parties of the first part their successors and assigns that he the said party of the second part his heirs and assigns shall and will in all things well and faithfully comply with fulfil and perform all and every of the covenants conditions and agreements undertakings and provisions herein contained and on his part to be kept performed and complied with.

IN WITNESS WHEREOF to one part of these presents remaining with the said parties of the first part the said party of the second part hath set his hand and seal and to the other part remaining with the said party of the second part the said parties of the first part have caused the common seal of the City of New York to be affixed the day and year first above written.

Commissioner of Deeds.

CITY'S EXHIBIT 86.

THIS INDENTURE made the twentieth day of August one thousand eight hundred and seventy BETWEEN The Mayor, Aldermen, and Commonalty of the City of New York, parties of the first part, and The Harlem Gas Light Company, of the City of New York, parties of the second part, WITNESSETH, that the said parties of the first part, for, and in consideration of the covenants and agreements hereinafter contained, and of the sum of two thousand and eighteen & 33/100 dollars, lawful money of the United States, to them in hand paid, by the said party of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, Have given, granted, bargained, sold, aliened, remised, released, conveyed and confirmed, and by these presents, Do give, grant, bargain, sell, remise, release, convey and confirm, unto the said party of the second part, their successors and assigns forever All that certain piece or parcel of land, and land under water, in the Harlem River, situate lying and being in the City of New York, adjoining and in front of upland owned by said party of the second part, and bounded and described, as follows,

BEGINNING at a point where the original high water line
8620 of said river intersects the continuation of the centre line of One hundred and tenth Street, thence running easterly along the continuation of said centre line, One hundred and twenty (120) feet, to the exterior or Bulkhead line of the said City of New York, thence in a northerly direction along said exterior or bulkhead line, two hundred and sixty-five feet, and six inches (265 ft. & 6 inches) to the intersection of said exterior or bulkhead line with the continuation of the centre line of One hundred and eleventh Street, thence along the continuation of said centre line of One hundred and eleventh Street, in a westerly direction, one hundred and thirty-two (132) feet to the intersection thereof with the original high water line of said river, thence along said original high water line in a southerly direction, as the same winds and turns, and along the upland belonging to said party of the second part, to the intersection thereof with the said centre line of One hundred and tenth Street, at a point or place of beginning, being the premises which are delineated and colored pink upon the map or diagram hereto annexed, dated New York March 25, 1869, made by George William Smith, City Surveyor, which map is to be taken and considered as part of this indenture, SAVING AND RESERVING out of the hereby granted premises so much thereof as may form part of any street or streets, avenue or avenues, that may now or hereafter be signed, designated, or laid out through said premises, according to law, for the uses and purposes of public streets, avenues and highways, as hereinafter mentioned, or which are now in use as such, together with all and singular the tenements, hereditaments and premises thereunto belonging, or in anywise appertaining, and reversion and reversions, remainder and remainders, rents,
8621 issues and profits thereof. AND ALSO, all the estate, right, title, interest, property, possession, claim and demand whatsoever as well in law as in equity of the said parties of the first part of, in, and to the above described premises, and every part thereof, and the appurtenances. TO HAVE AND TO HOLD, all and singular the above mentioned and described premises, with the appurtenances, unto the said party of the second part, their successors and assigns forever. And the said party of the second part for themselves, their successors and assigns do hereby covenant and agree with the said parties of the first part, their successors and assigns, that they the said party of the second part, their successors and assigns, shall and will within three months, next after he or they shall be thereunto required by the said parties of the first part, or the Common Council of the City of New York or their successors, at their own proper costs and charges, build, erect, make and finish.

or cause to be built, erected, made, or finished according to any resolution or ordinance of the said parties of the first part, the said Common Council, or their successors already passed or adopted, or that may hereafter be passed or adopted, good and sufficient bulkheads, wharves, streets or avenues, which shall form so much and such parts of any street or streets, avenue or avenues, that may now or thereafter be designated or laid out through said premises, according to law, as fall within the limits of the premises first above described and are reserved as aforesaid from out therefrom, for public streets, and will fill in the same, with good and sufficient earth, and regulate and pave the same and lay the sidewalks thereof. AND ALSO, that the said parties of the second part, their successors and assigns shall and will, from time to time, and at all 8622 times forever thereafter, at their own proper costs, charges and expenses, uphold and keep in good order and repair all those parts of such streets, avenues and sidewalks as may now or hereafter be designated or laid out through said premises, according to law, which the said parties of the second part, have covenanted and agreed to make, erect, and build as aforesaid, and will at all times hereafter obey, fulfil and observe such ordinances, resolutions, orders and directions, as the said parties of the first part, or the said Common Council and their successors, shall from time to time pass or make relative thereto. AND ALSO, that the said streets or avenues shall forever thereafter continue to be and remain public streets and avenues, and highways for the free and common use and passage of the inhabitants of the said City of New York, and all others passing and repassing by, through and along the same in like manner as the other public streets, avenues, bulkheads and wharves of said city, now are or lawfully ought to be.

And in case default shall be made by the said party of the second part, his heirs or assigns, in building, erecting, making and finishing the said bulkheads, wharves, streets or avenues, by them covenanted herein to be built, erected, made and finished, in filling in the same, or any part thereof, or in complying with any ordinance, resolution, or order of the said parties of the first part, the said Common Council or their successors when required, then and in that case it shall and may be lawful for the said parties of the first part, or their successors, to build, erect, make, and finish, or cause to be built, erected, made and finished, the bulkheads, wharves, streets and avenues aforesaid, and to fill in the same, and to regulate and pave the same, and lay the sidewalks thereof, for and on account of and at the 8623 proper cost and charges of the said party of the second part, their successors and assigns, and to charge to and recover in an action at law, from the said party of the second part, their successors and assigns, the amount thereof together with the interest thereon, and all the costs and charges of the proceedings relative thereto, or to sell and dispose of the whole of the said hereby granted premises, or any part thereof, at public auction, for the most that can be obtained for the same. And in case of any deficiency to charge with and recover from the said party of the second part, their successors and assigns, the amount of such deficiency, or to adopt and pursue any legal right or remedy that the said parties of the first part, or their successors now possess or enjoy under and by virue of any act of the legislature of the State of New York, or that may hereafter be granted unto the said parties of the first part, or their successors by the legislature of the State of New York, or to enter into or upon the whole or any part of the hereby granted premises, and to grant the same and the right of making such bulkheads, wharves, streets and avenues, and the right of receiving the wharfage, cranage, fees and profits arising to and from the same, to any person, or persons, their heirs and assigns forever.

AND ALSO, that the said parties of the second part, their successors and assigns, shall and will pay and satisfy all taxes, assessments and impositions, as well ordinary as extraordinary as are now or shall or may hereafter be lawfully imposed or levied upon the hereby granted premises, under and by virtue of any act or acts of the Congress of the United States of America, or of the Legislature of the State of New York, or by any act, ordinance or resolution of the parties of the first part, the said Common Council and 8624 Board of Supervisors or their successors. AND it is hereby further covenanted and agreed by and between the parties to these presents, and the true intent and meaning of these presents is, that the said party of the second part, their successors and assigns, will not build the said wharves, bulkheads, avenues or streets hereinbefore mentioned or any part thereof or make the land in conformity with the covenants herein mentioned, until permission for that purpose shall be first had and obtained from the said parties of the first part, or their successors, and will not build or erect, or cause to be built, or erected any wharf or pier or any other obstruction in the river, in front of the hereby granted premises, without the permission of the said parties of the first part, their successors or assigns first had for that purpose.

AND the said parties of the first part, for themselves, their successors and assigns, Do covenant and agree to and with the said parties of the second part, their successors and assigns, that they the said parties of the second part, their successors and assigns observing, fulfilling and keeping all and singular the articles, covenants, and agreements herein mentioned on their part, to be kept, and performed, according to the true intent and meaning of these presents, shall and lawfully may from time to time and at all times hereafter, fully have and enjoy, take and receive and hold to their own proper use, all manner of wharfage, cranage, advantages, or emoluments, growing or accruing by or from that part of the bulkhead or pier line of the said city, lying on the easterly side of the hereby granted premises, fronting on the Harlem River, with full power to collect and receive the same, for their own use and benefit forever, EXCEPTING such wharfage, cranage, advantages and emoluments to grow or accrue from the bulkhead at the foot of and in front 8625 of One hundred and tenth, and One hundred and eleventh Streets, which shall be and are hereby reserved for the said parties of the first part, their successors and assigns, with full power to collect and receive the same, for their own proper use and benefit forever.

And it is hereby further agreed by and between the parties to these presents, and the true intent and meaning hereof is, that the present grant, and every word and thing in the same contained, shall not be construed or taken to be covenants of warranty or of seizin, of the said parties of the first part, or their successors, or to operate further than to pass the estate, right, title, or interest, they may have or may lawfully claim in the premises hereby granted and conveyed, by virtue of their several charters, and the various acts of the legislature of the State of New York.

AND it is hereby further mutually agreed and understood that these presents, and the estate hereby granted are upon the express conditions, that if the said parties of the second part are not on the day of the date hereof, seized of a good, sure, absolute and indefeasible estate of inheritance, in fee simple, of, in and to the uplands and premises hereinbefore described as belonging to them and adjoining the premises hereby intended to be conveyed, or if the said parties of the second part, their successors or assigns, shall make default in the performance of any or either of the covenants herein contained on their part and behalf to be observed, performed, fulfilled and kept, then and in such case, these presents and every article, clause or thing herein contained, shall be and become absolutely null and void, and the said parties of the first part, their successors and assigns shall and may forthwith enter into and 8626 upon the said premises hereby granted, shall thereafter be seized of the same with the appurtenances free, clear and discharged of and from all claims or right, or pretense of claim or right of the said parties of the second part, their successors and assigns, anything herein contained to the contrary notwithstanding.

The said parties of the second part, for themselves, their successors and assigns DO hereby covenant and agree to and with the said parties of the first part, their successors and assigns, that they, the said parties of the second part, their successors and assigns, shall and will in all things, well and faithfully comply with, fulfill and perform all and every the covenants, conditions and agreements, undertakings and provisions herein contained, and on their part to be kept, performed, and comp-ied with.

IN WITNESS WHEREBY to one part of these presents, remaining with the said party of the second part, the said parties of the first part, have caused their common seal to be attached, and to the other part thereof, remaining with the said parties of the first part, the said parties of the second part, have affixed their seal, the day and year first above written.

(Stamp)

HENRY P. McGOWN, *President.* [SEAL.]

STATE OF NEW YORK, *City and County of New York, ss:*

On this 20th day of August, 1870, before me came, Henry P. McGown to me personally known who being by me duly sworn did depose and say that he resides in the City and County of New York, that he is the President of The Harlem Gas Light Company, 8627 that the seal affixed to the foregoing instrument is the seal of the Harlem Gas Light Company and was so affixed by authority of a resolution of the Board of Directors of such Company, and that he signed his name thereto by virtue of like authority.

G. W. LAWRENCE,
Notary Public, City and County of New York.

Grant, Dated January 6, 1883.

THE STATE OF NEW JERSEY
TO
THE METROPOLITAN GAS LIGHT COMPANY OF THE CITY OF NEW YORK.

The State of New Jersey to all to Whom These Presents shall Come or may Concern, Greeting:

Whereas, pursuant to an act of the Legislature of said State, approved March 21st, 1871, entitled "A further supplement to an Act entitled 'An Act to ascertain the rights of the State and of Riparian Owners in the lands lying under the Waters of the Bay of New York and elsewhere in this State,'" approved April eleventh, one thousand eight hundred and sixty-four, The Metropolitan Gas Light Company of the City of New York, a corporation of the State of New York, being the owner of lands fronting on the Hudson River, in the State of New Jersey, where the tide ebbs a[illegible] flows thereon, and so is said riparian owner on tide waters in this [illegible]e, and desirous of obtaining a grant from the said State of the lands under water hereinafter mentioned, which lie in front of *his* said lands, did apply to the Commissioners, to wit: Thomas McKeon, Bennington F. Randolph, Amzi Dodd and Gershom Mott, and to the Governor of said State, for a grant of the lands hereinafter conveyed; And Whereas, the said Commissioners, having due regard to the interests of navigation, have agreed to grant the land hereinafter mentioned and determined that seven thousand two hundred and ninety-one dollars and
8630 thirty-five cents is a proper compensation to be paid to the State for the lands hereinafter conveyed: NOW THERE-

FORE, the said State of New Jersey by Thomas McKeen, Bennington F. Randolph, Amzi Dodd and Gershom Mott, Commissioners aforesaid, the said Governor concurring, in consideration of the premises aforesaid, and of the said sum of seven thousand two hundred and ninety-one dollars and thirty-five cents, duly paid — the said The Metropolitan Gas Light Company of the City of New York, to the said State, the receipt whereof is hereby acknowledged, doth hereby grant, bargain, sell and convey unto the said "The Metropolitan Gas Light Company of the City of New York, and to its successors and assigns forever,

ALL that parcel of land flowed by tide water, lying at Shady Side in the County of Bergen and State of New Jersey, described as follows: Beginning at a point in the high water mark of the westerly shore of the Hudson River, where the same is intersected by the division line between lands of Ezra Miller and lands of the said The Metropolitan Gas Light Company of the City of New York, and from thence running South fifty-four degrees and thirty minutes East six hundred and sixty-nine and four tenths feet to the new exterior line for solid filling established Dec. 11," 1875, by the Commissioners appointed under the authority of the act entitled "An Act to ascertain the rights of the State and of riparian owners in the lands lying under the waters of the Bay of New York and elsewhere in this State," approved April 11, A. D. 1864, and the supplements thereto; thence along said new exterior line for solid filling, South thirty-five degrees and thirty minutes West four hundred and eighty-six and nine one-hundredths feet; thence North fifty-four degrees and thirty minutes West six hundred and seventy and sixty-seven one 8631 hundredths feet to high water mark of the westerly shore of the Hudson River where the same is intersected by the division line between land of Isaac P. Smith, formerly —— Melville, and lands of the said The Metropolitan Gas Light Company of the City of New York; thence Northeasterly, along said high water mark to the place of beginning. With the right, liberty, privilege and franchise to exclude the tide water from so much of the lands above described as lies under tide water, by filling in or otherwise improving the same, and to appropriate the lands above described to its exclusive private uses.

And also, all and singular the lands under water lying between the exterior line for solid filling, and the exterior line for piers, as fixed by the Commissioners appointed under the authority of the act aforesaid and the supplements thereto, and bounded by the northerly and southerly lines of the above described tract extended easterly to said pier line, with the right, liberty, privilege and franchise of building piers alone upon the lands last above conveyed, that is to say that which lies between the exterior lines already fixed and above mentioned. And if and when said exterior lines shall be fixed at any other points or places further out into said River, also any and all lands under water lying between the present exterior lines above described and the new exterior line or lines that may be hereafter fixed, the same to be used for solid filling and for piers respectively, agreeably to the terms of such extension.

TOGETHER with all and singular the hereditaments and appurtenances thereunto belonging, and all the rights of the State in said

lands. TO HAVE AND TO HOLD all and singular the above granted and described lands covered with water, and prem-
8632 ises, unto the said The Metropolitan Gas Light Company of the City of New York, and to its successors and assigns forever.

IN WITNESS WHEREOF, the said State has caused these presents to be sealed with the Great Seal of the said State and to be subscribed by George C. Ludlow, the Governor of said State, and the said Commissioners and attested by Henry C. Kelsey, the Secretary of State thereof, this sixth day of January in the year one thousand eight hundred and eighty-three.

Deed, Dated November 18th, 1882.

Everett Peppenell Wheeler and **Lydia L.**, His Wife; **Mary Hannah Smith** and Reverend **Cornulius B. Smith**, Her Husband, and said **Everett Peppenell Wheeler** and **Mary Hannah Smith**, Individually and Heirs at Law of David Everett Wheeler,

TO

The Metropolitan Gas Light Company of the City of New York.

THIS INDENTURE, made the eighteenth day of November, in the year one thousand eight hundred and eighty-two, Between Everett Peppenell Wheeler and Lydia L., his wife, and Mary Hannah Smith and the Reverend Cornelius B. Smith, her husband, (the said Everett Peppenell Wheeler and Mary Hannah Smith as well individually and as children and heirs at law of David Everett Wheeler, late of the City of New York, Counsellor at law, deceased, as devisees under his last Will and Testament) parties of the first part; And The Metropolitan Gas Light Company of the City of New York, party of the second part; WITNESSETH, that the said Everett Peppenell Wheeler, Mary Hannah Smith and Cornelius B. Smith, three of the parties of the first part, by virtue of the power and authority to them given in and by the said last Will and 8635 Testament, and for and in consideration of the sum of eighteen thousand five hundred and sixty dollars, lawful money of the United States of America, to them in hand paid by the said party of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, and the said party of the second part, its successors, heirs, executors and administrators, forever released and discharged from the same by these presents have granted, bargained, sold, aliened, remised, relased, conveyed and confirmed, and by these presents do grant, bargain, sell, alien, remise, release, convey and confirm unto the said party of the second part, and to its successors heirs and assigns forever.

ALL that certain piece or parcel of land situate, lying and being on the west bank of the Hudson River, in the Township of Ridgefield, County of Bergen, and State of New Jersey, bounded and described as follows: Beginning at the northwest corner of a parcel of land now occupied by William Hennen, being the southwest corner of that certain parcel of land marked No. 6, on a certain Map of the Estate of Samuel Ellis, deceased, on file in the Office of the Surrogate of Bergen County, and running thence along the division fence between said land of William Hennen and said parcel No. 6, and through the centre line of the ditch, in a continuation of said partition fence, and along the dividing line between the premises hereby conveyed, or intended so to be, and the lot marked No. 5, on said Map, in a southeasterly direction, 13 chains, more or less, to the Hudson River; thence Northerly, along the said River, 495 feet, more or less, to the centre line of another ditch dividing the parcel of land hereby conveyed from the parcel of land now occu-

pied by the heirs of Hannah Ellis Miller, being Parcel No.
8636 4 on said Map; thence through the centre of said ditch and
along the dividing line between the premises hereby conveyed, or intended so to be, and the lot marked No. 4 on said Map, and in a northwesterly direction, 10 chains and fifty links, more or less, to the road leading from Bull's Ferry to Fort Lee; thence along said road in a Southwesterly direction, 8 chains and 60 links, more or less, to the point or place of beginning.

Being the same premises conveyed to the late David E. Wheeler by two separate deeds of conveyance, one from William Henry Kemp and wife, recorded in the Clerk's Office of the County of Bergen, May 4th, 1858, in Liber F-5 of Deeds, page 270, and the other from Stephen D. Vreeland and wife, dated November 15, 1854, and recorded in said Clerk's Office in Liber U-4 of Deeds, page 500, &c.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof. And also, all the estate, right, title, interest, dower and right of dower, curtesy and right of curtesy, property possession, claim and demand whatsoever, as well in law as in equity, of the said parties of the first part, of, in and to the same, and every part and parcel thereof, with the appurtenances. TO HAVE AND TO HOLD the above granted, bargained and described premises, with the appurtenances, unto the said party of the second part, its successors, heirs and assigns, to its and their own proper use, benefit and behoof forever. And the said Everett Peppenell Wheeler and Mary Hannah Smith, two of the parties of the first part, for themselves, their heirs, executors and administrators, do jointly and
severally covenant, grant and agree to and with the said party
8637 of the second part, its successors, heirs and assigns, that they,
at the time of the sealing and delivery of these presents, have good right, full power and lawful authority to grant, bargain, sell and convey the above granted and described premises with the appurtenances, in manner and form aforesaid, and that the said party of the second part, its successors, heirs and assigns, shall and may at all times hereafter, peaceably and quietly have, hold, use, occupy, possess and enjoy the above granted premises, and every part and parcel thereof, with the appurtenances, without any let, suit, trouble, molestation, eviction or disturbance of the said parties of the first part, their heirs or assigns, or of any other person or persons lawfully claiming or to claim the same. And that the same now are free, clear, discharged and unencumbered of and from all former and other grants, titles, charges, estates, judgments, taxes, assessments and encumbrances of what nature and kind soever. And also, that the said parties of the first part and their heirs, and all and every other person or persons whomsoever, lawfully or equitably deriving any estate, right, title or interest of, in or to the hereinbefore granted premises, by, from, under or in trust for them, shall and will at any time or times hereafter, upon the reasonable request, and at the proper costs and charges in the law of the said party of the second part, its successors, heirs and assigns, make, do and execute, or cause or procure to be made, done and executed, all and every such further and other lawful and reasonable acts, conveyances and

assurances in the law for the better and more effectually vesting and confirming the premises hereby intended to be granted in and to the said party of the second part, its successors, heirs and assigns forever, as by the said party of the second part, its successors, heirs or assigns, or its or their counsel learned in the law, shall be 8638 reasonably devised, advised or required. And the said Everett Peppenell Wheeler and Mary Hannah Smith, two of the parties of the first part, for themselves, their heirs, the above described and hereby granted and released premises, and every part and parcel thereof, with the appurtenances, unto the said party of the second part, its successors, heirs and assigns, against the said parties of the first part, their heirs and against all and every person or persons whomsoever, lawfully claiming or to claim the same, shall and will warrant and by those presents forever defend.

IN WITNESS WHEREOF, the said parties of the first part have hereunto set their hands and seals the day and year first above written.

Sealed and delivered in the presence of

EVERETT P. WHEELER. [L. S.]
LYDIA L. WHEELER. [L. S.]
MARY H. SMITH. [L. S.]
CORNELIUS B. SMITH. [L. S.]

On the second page the ninth and tenth, fifteenth and sixteenth lines and the words "the said" on the thirteenth line, and the word "lawfully" on the fourteenth line, and part of the seventeenth line, and the word "same" on the eighteenth line, obliterated, and the words "above granted and described premises" with the appurtenances, between the seventeenth and eighteenth lines interlined, all done before execution.

HENRY C. FREEMAN.

8639 STATE OF NEW YORK,
City and County of New York, ss:

Be it remembered, that on this 21st day of November, A. D. one thousand eight hundred and eighty-two, before me, Henry C. Freeman, a Commissioner of Deeds for the State of New Jersey, residing in the City of New York, duly appointed and qualified, personally came Everett Peppenell Wheeler and Lydia L., his wife, Mary Hannah Smith and the Rev. Cornelius B. Smith, her husband, who I am satisfied are the grantors in the within Indenture named, and I having first made known to them the contents thereof, they did severally thereupon acknowledge that they signed, sealed and delivered the same as their, and each of their free and voluntary act and deed, for the uses and purposes therein expressed; and the said Lydia L. Wheeler and Mary Hannah Smith, on a private examination by me made separate and apart from their said husbands, did further severally acknowledge that they signed, sealed and delivered the same as their, and each of their, free and voluntary act and deed, for the uses and purposes therein expressed; and the said Lydia L. Wheeler and Mary Hannah Smith, on a private examination by me made separate and apart from their said husbands, did further severally acknowledge that they signed, sealed and delivered the same as their and each of their voluntary act and deed, freely and without any fear, threats or compulsion of or from their said husbands.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, the day and year first above written.

[SEAL.]

HENRY C. FREEMAN,
A Commissioner for the State of New Jersey, Residing in New York City.

Mr. G. E. Cowperthwait, Sec. & Supt., Danbury & Bethel Gas & Elec. Light Co., Danbury, Conn.

DEAR SIR:

Your letter of Aug. 8th to the Williamsport Gas Co., Pa., has been mailed me for reply.

I am very sorry that an error of this kind could occur in my office. There is no explanation as to the difference in the price to be made, other than Danbury, Conn., takes an entirely different rate of freight from Williamsport, Pa. Furthermore, petroleum products are priced against the crude market ruling at the time the prices are made. These prices are always subject to change without notice.

I think if you will inquire into the matter of prices prevailing in your territory, you will find that your company is favorably treated. In fact, Mr. Cowperthwait, I have reason to know you have this information at hand, and that you understand that the price at Danbury is not out of line with the costs of that delivery.

Yours very truly,

C. M. HIGGINS.

CONTRACT FOR BITUMINOUS COAL.

APRIL 29, 1903.

Mr. L. B. Gawtry, Vice-President, Consolidated Gas Company, 4 Irving Place, City.

DEAR SIR:

This will confirm our conversation of this date, whereby the Coal Co. agrees to sell to the Consolidated Gas Company of New York 50,000 tons of 3/4" screened coal, to be shipped between date and April 1st, 1904, subject to strikes, car supply and all other causes beyond our control, and to be delivered to you in boats alongside your docks at your several plants.

The price to be $3.45 per ton of 2240 lbs. alongside your docks.

It is further understood that on this contract we will ship you coal from our and mines, or in the event of our inability to ship coal from these two mines, that we will ship you coal equal thereto, if not better, for gas making purposes.

Please acknowledge receipt of this letter confirming our agreement, and oblige,

Yours very truly,

—— ——.

8683 Copy.

NEW YORK, *May 1st*, 1903.

CONSOLIDATED GAS COMPANY OF NEW YORK.

DEAR SIR:

We beg to acknowledge the receipt of your letter of April 29th, and we hereby agree to purchase from you fifty thousand (50,000) tons of screened coal, to be equal in quality to the coal that we have had from you in the past, and to be delivered alongside of our docks at $3.45 per gross ton. This coal is purchased under the same conditions, *i. e.*, as to weights, etc., as heretofore; and is to be taken from your and mines as far as possible, but in the event of your inability to ship the total quantity from these two mines, the balance to be equal thereto, if not better, for gas-making purposes.

Kindly communicate with Mr. A. M. Smith, at this address, regarding details of shipments, etc.

Yours truly,
(Signed) L. B. G.,
Vice-President.

Gen'l Morris R. Schaff, C/o Massachusetts Gas Commission, Boston, Mass.

DEAR GEN'L SCHAFF:

Will you kindly write me on receipt of this whether it was Lynn or Fall River that you said had just reduced the price of gas to 85 cents? Please direct your reply to me at No. 720 Park Row Building, New York City, where I expect to be from Thursday morning until Saturday noon.

Thanking you in advance, I remain,

Very sincerely yours,

EDWARD W. BEMIS,
M. S.

B-H

Lynn, 85 cents from Oct. 1st.

CITY'S EXHIBIT 124.

ELY

Office of
The Director
C. S. S.

Department of Commerce and Labor.
Bureau of the Census.
Washington,

DECEMBER 5, 1906.

Mr. Edward W. Bemis, Supt., Water Works, Dept. of Public Service, Cleveland, Ohio.

DEAR SIR:

I have to acknowledge the receipt of your letter of November 30th, which was received in this Office December 4th. In response to your inquiry, I will say that my estimates of the population of the several boroughs of New York city were based upon their increase as shown by the State Census of 1905 over the Federal Census of 1900, assuming that the yearly increase was one-fifth of the quinquennial increase. The assumption that the island of Manhattan is not increasing in population is incorrect, as the State Census of 1905 showed an actual increase in the five years of 252,835.

Very respectfully, M. PORTER,
Acting Director.

8686 CITY'S EXHIBIT 136.

"AN ACT to amend Chapter three hundred and thirty-eight of the laws of eighteen hundred and ninety-two, entitled 'An Act to authorize the East River Gas Company of Long Island City to supply gas and electricity in the City of New York,' so as to authorize the said company to lay and maintain mains and pipes in that portion of the Borough of Queens included in the former City of Long Island City."

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Chapter three hundred and thirty-eight of the laws of eighteen hundred and ninety-two, entitled "An Act to authorize the East River Gas Company of Long Island City to supply gas and electricity in the City of New York," is hereby amended by incorporating therein an additional section between sections six and seven, to be known as section six-a and to read as follows:

6*a*. The East River Gas Company of Long Island City, its successors and assigns, shall also have the right to exercise in the portion of the Borough of Queens, included in the former City of Long Island City, as well as in the territory hereinbefore expressly included all the rights, powers and privileges hereinbefore conferred upon the said company, but subject to all payments, obligations, and restrictions hereinbefore imposed, provided, however, that no electrical franchises are by this section conferred upon the said company.

SECTION 2. This act shall take effect immediately.

8687 COMPLAINANT'S EXHIBIT 335.

This contract made and entered into this fifth day of December, 1904, between Gulf Refining Company, of Port Arthur, Texas, first party, and Queens Borough Gas & Electric Co., Rockaway Beach, L. I., second party.

Witnesseth—That first party sells and agrees to deliver to second party, and the second party agrees to purchase and receive from first party.

Article—Solar (Gas) Oil for use in their plant at Rockaway Park, L. I., N. Y.

Quantity—Bbls. Maximum 400,000 gals. Minimum 350,000 gals.

Price—Three and one-quarter cents per gallon. F. O. B. Rockaway Park, L. I.

Delivery—By Barge, at tank located at Rockaway Park, in lots of not less than 60,000 gals, nor more than—bbls., unless otherwise agreed upon.

Time—Between April 1st, 1905, and April 1st, 1906. Five days written notice to be given representative of first party at No. 507 Battery Park Bldg. before each delivery is required.

Payment—Payments shall be made on the 10th day of each month at first party's Pittsburg office for all oil delivered during the preceding month, and in case second party shall fail to pay any draft drawn by first party for bills due, first party may, if so elect, cancel and terminate this contract.

Demurrage—If delivery is by rail, second party agrees to unload cars without delay, and any demurrage accruing to be paid by second party.

Conditions—Delivery under these terms can be enforced only wherein the discharge pipe—if any be required—shall be provided by the second party of a size not less than three inches, if distance
be less than 1000 feet, or four inches if more, but in no case
8688 for more than one mile without special agreement. If by
water, the second party shall place substantial posts for tying barge and arrange suitable piling for properly fending same, with necessary platform for support of discharge pipe, tying up, etc. The first party agrees to pump oil from the tanks or barge to reservoir of the second party. Delivery may be made by rail or water, as first party may elect.

This agreement cannot be used to enforce delivery by water to second party if water at place of delivery be less than eight feet. Liability of first party ceases when shipment is delivered to Railroad Company.

In case of strike, fire, failure of railway or vessel service as public or private carriers, or any unavoidable act of God or providential cause happening to either party to this contract, the suffering party may, at its or their option, suspend terms and conditions of this contract, for a reasonable period, and no liability for damages shall attach against either party on account thereof.

This contract to be signed in duplicate by both parties hereto, and become effective only when approved by General Sales Manager of the first party; and when so approved, duplicate will be forwarded promptly to second party.

Witness the signature of first and second parties this fifth day of December, 1905.

GULF REFINING COMPANY,
Attest: By EDW. A. LYON, *Agent.*

QUEENS BOROUGH GAS & ELECTRIC CO.,
Approved: CARELTON MACY, *President.*

G. R. NUTTY,
General Sales Manager.

ROBERT W. LOWBER AND WIFE
TO
THE MANHATTAN GAS LIGHT COMPANY.

Dated 26th Dec., 1855.

DEED.

THIS INDENTURE, made the twenty-sixth day of December in the year of our Lord one thousand eight hundred and fifty-five, Between Robert W. Lowber of the City, County and State of New York, and Elizabeth G. his wife, parties of the first part, and The Manhattan Gas Light Company, of said City of New York, party of the second part, Witnesseth, That the said parties of the first part, for and in consideration of the sum of Thirty-three thousand dollars lawful money of the United States of America, to him in hand paid, by the said part*ies* of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, and the said party of the second part, their successors and assigns, forever released and discharged from the same, by these presents, Have granted, bargained, sold, aliened, remised, leased, conveyed and confirmed, and by these presents Do grant, bargain, sell, alien, remise, release, convey and confirm, unto the said party of the second part, and to their successors and assigns forever "All that certain piece or parcel of land situate, lying and being in the Eighteenth Ward of the City 8735 of New York and bounded and described as follows: Northerly by the center line of Sixteenth Street; Southerly by the center line of Fifteenth Street; Westerly by the center line of Avenue D, and Easterly by the East River; Containing eighteen (18) lots of ground numbered from six hundred and seventy-eight (678) to six hundred and ninety-five (695) both inclusive; Together with the bulkhead built along said East River from said center line of Fifteenth Street to the center line of Sixteenth Street; And also all the right, title, interest, property and claim of the said parties of the first part in and to the water rights, water front, water privileges, wharfage, cranage, rights of wharfage and cranage, land covered with water, pre-emption or other rights to land which may hereafter be gained out of the East River by reason of any Grant or Extension of said City of New York or otherwise between the center lines of said Fifteenth Street and the center line of said Sixteenth Street as continued into said East River in front of the premises hereby conveyed, as laid down in the diagram herein particular reference being thereunto han*d*;"

Together with all and singular the tenements, hereditaments, and appurtenances thereunto belonging, or in anywise appertaining,

COPY

and the reversion and reversions, remainder and remainders, rents, issues and profits thereof; AND ALSO all the estate, right, title, interest, dower and right of dower, property, possession, claim and demand whatsoever, as well in law as in equity, of the said parties of the first part, of, in and to the same, and every part and parcel thereof, with the appurtenances; To Have and To Hold the above granted, bargained and described premises, with the appurtenances,
8736 unto the said party of the second part, their successors and assigns, to their own proper use, benefit and behoof forever, Subject nevertheless to the operation and payment by said parties of the second part of a certain Indenture of Mortgage made and executed by said Robert W. Lowber to Eliphatet Nott, dated the first day of December, A. D. 1853, given to secure the payment of the sum of Forty thousand dollars and Recorded in the Office of the Register of the City and County of New York, in Liber 480 of Mortgage, at page 199, as will more fully appear, reference being thereunto had, and which is the same mortgage mentioned in a Deed of even date herewith made by the parties of the first part to the party of the second part of the Block of ground between Avenue C and Avenue D and Fifteenth Street and Sixteenth Street.

AND the said parties of the first part for themselves, their heirs, executors and administrators, do covenant, grant and agree, to and with the said party of the second part, their successors and assigns, that the said Robert W. Lowber at the time of the sealing and delivery of these presents, was lawfully seized in his own right of a good, absolute and indefeasible estate of inheritance, in fee simple, of and in all and singular the above granted, bargained and described premises, with the appurtenances, and has good right, full power and lawful authority, to grant, bargain, sell and convey the same, in manner and form aforesaid. And that the said party of the second part, their successors and assigns, shall and may at all times hereafter, peaceably and quietly have, hold, use, occupy, possess and enjoy the above granted premises, and every part and parcel thereof, with the appurtenances, without any let, suit,
8737 trouble, molestation, eviction, or disturbance of the said parties of the first part, their heirs or assigns, or of any other person or persons lawfully claiming or to claim the same. And that the same now are free, clear, discharged and unencumbered, of and from all former and other grants, titles, charges, estates, judgments, taxes, assessments and encumbrances of what nature or kind soever. And also that the said parties of the first part, and their heirs, and all and every other person or persons whatsoever, lawfully or equitably deriving any estate, right, title or interest, of, in, or to the hereinbefore granted premises, by, from, under, or in trust for them or either of them, shall and will, at any time or times hereafter, upon the reasonable request, and at the proper costs and charges in the law, of the said parties of the second part, their successors and assigns, make, do and execute, or cause or procure to be made, done and executed, all and every such further and other lawful and reasonable acts, conveyances and assurances in the law, for the better and more effectually vesting

ROBERT W. LOWBER AND WIFE

TO

THE MANHATTAN GAS LIGHT COMPANY.

Dated 26th December, 1855.

DEED.

THIS INDENTURE, made the twenty-sixth day of December, in the year of our Lord one thousand eight hundred and fifty-five, BETWEEN ROBERT W. LOWBER, of the City, County and State of New York, and ELIZABETH G., his wife, parties of the first part, and THE MANHATTAN GAS LIGHT COMPANY, of the City of New York, party of the second part, WITNESSETH, That the said parties of the first part, for and in consideration of the sum of Ninety-two thousand dollars lawful money of the United States of America, to them in hand paid, by the said party of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, and the said party of the second part, their successors and assigns, forever released and discharged from the same, by these presents, HAVE granted, bargained, sold, aliened, remised, released and discharged from the same, by these presents Do grant, bargain, sell, alien, remise, release, convey and confirm, unto the said party of the second part, and to their successors and assigns forever ALL that certain Block of ground comprising Fifty-
8741 eight Lots numbered on the diagram herein by the numbers
three hundred and seventy-seven (377) to the number four hundred and thirty-four (434), both inclusive, lying and being in the Eighteenth Ward of the City of New York, and bounded and described as follows:

Westerly by Avenue C, two hundred and six feet and six inches; Easterly by Avenue D, two hundred and six feet and six inches; Northerly by Sixteenth Street, six hundred and seventy-six feet, and Southerly by Fifteenth Street, six hundred and seventy-six feet, as laid down in said diagram, TOGETHER with all and singular the tenements, hereditaments, and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof; AND ALSO all the estate, right, title, interest, dower and right of dower, property, possession, claim and demand whatsoever, as well in law as in equity, of the said party of the first part, of, in and to the same, and every part and parcel thereof, with the appurtenances; TO HAVE AND TO HOLD the above granted, bargained and described premises, with the appurtenances, unto the said party of the second part, their successors and assigns, to their own proper use, benefit and behoof forever, Subject however to the operation and payment of a certain Indenture of Mortgage dated the first day of December, A. D 1853, made and executed by Robert W. Lowber to Eliphatet Nott, to secure the payment of the sum of Forty thousand dollars and interest, and recorded in the Office of the Register of the City and County of New York, in Liber 480 of Mortgages, at page 199, which said sum of Forty thousand dollars and interest thereon from the 1st 8742 day of December, 1855, makes part of the purchase money herein mentioned and the payment thereof hereby assumed; And the said parties of the first part for themselves, their heirs, executors and administrators, doth covenant, grant and agree, to and with the said party of the second part, their successors and assigns, that the said Robert W. Lowber at the time of the sealing and delivery of these presents, was lawfully seized in his own right of a good, absolute and indefeasible estate of inheritance, in fee simple, of and in all and singular the above granted, bargained and described premises, with the appurtenances, and has good right, full power and lawful authority, to grant, bargain, sell and convey the same, in manner and form aforesaid. And that the said party of the second part, his heirs and assigns, shall and may at all times hereafter, peaceably and quietly have, hold, use, occupy, possess and enjoy the above granted premises, and every part and parcel thereof, with the appurtenances, without any let, suit, molestation, eviction, or disturbance of the said party of the first part, his heirs or assigns, or of any other person or persons lawfully claiming or to claim the same: And that the same now are free, clear, discharged and unencumbered, of and from all former and other grants, titles, charges, estates, judgments, taxes, assessments and encumbrances of what nature or kind soever. And also that the said party of the first part, and their heirs, and all and every other person or persons whatsoever, lawfully or equitably deriving any estate, right, title or interest, of, in, or to the hereinbefore granted premises, by, from, under, or in trust for them, shall and will at any time or times hereafter, upon the reasonable request, and at the proper costs and 8743 charges in the law, of the said party of the second part, their successors and assigns, make, do and execute, or cause or procure to be made, done and executed, all and every such further and other lawful and reasonable acts, conveyances and assurances in the law, for the better and more effectually vesting and confirming the premises hereby intended to be granted, in and to the said party of the second part, their successors and assigns for ever, as by the said party of the second part, their successors or assigns, or their counsel learned in the law, shall be reasonably devised, advised or required.

And the said parties of the first part, their heirs, the above described and hereby granted and released premises, and every part and parcel thereof, with the appurtenances, unto the said party of the second part, their successors and assigns, against the said parties of the first part, and their heirs, and against all and every person and persons whomsoever, lawfully claiming or to claim the same, shall and will Warrant, and by these presents forever Defend.

IN WITNESS WHEREOF, The said parties have hereunto set their hand and seals the day and year first above written.

ROBERT W. LOWBER. [L. S.]
ELIZABETH G. LOWBER. [L. S.]

The words "successors and assigns" and "successors" on first page and the words "successors" in few places on second page interlined before signing.

Sealed and delivered in presence of

JAMES V. HYATT.

8744 STATE OF NEW YORK,
City and County of New York, ss:

On this twenty-seventh day of December, in the year of our Lord one thousand eight hundred and fifty-five, before me personally came Robert W. Lowber and Elizabeth G., his wife, to me known to be the individuals described in, and who executed the within conveyance, who acknowledged that they executed the same, and the said Elizabeth G., on a private examination by me separate and apart from her husband, acknowledged that she executed the same freely without any fear or compulsion of her said husband.

MOSES TAYLOR AND CATHARINE A., HIS WIFE,

TO

THE MANHATTAN GAS LIGHT COMPANY. DEED.

Dated 15 June, 1853.

B. W. Bonney, Counsellor, &c., 38 Wall Street, N. Y. City.

THIS INDENTURE, made the fifteenth day of June, in the year one thousand eight hundred and fifty-three, BETWEEN MOSES TAYLOR, of the City of New York, in the County and State of New York, Merchant, and CATHARINE A., his wife, parties of the first part, and "THE MANHATTAN GAS LIGHT COMPANY" in the City of New York, parties of the second part, WITNESSETH, That the said parties of the first parties, for and in consideration of the sum of Forty-two thousand five hundred dollars, lawful money of the United States of America, to them in hand paid, by the said parties of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, Have granted, bargained, sold, aliened, remised, released, conveyed and confirmed, and by these presents Do grant, bargain, sell, alien, remise, release, convey and confirm, unto the said parties of the second part, and to their successors and assigns for ever, ALL that certain piece or parcel 8748 of land, water lot or land covered with water, Situate, lying and being in the Eighteenth Ward of the City of New York, and described and bounded as follows: BEGINNING at a point on the Northerly line of Fourteenth Street, distant two hundred and twenty-eight feet and three inches; Eastwardly from the North Easterly corner of Fourteenth Street and Avenue D, and running thence Eastwardly along the Northerly line of Fourteenth Street two hundred and two feet and eight inches to the Easterly side of the Bulkhead on the East River, as now laid out and built. Thence Northerly along the Easterly side of said Bulkhead two hundred and twenty-six feet and one inch to the Southerly line of Fifteenth Street. Thence Westwardly along said Southerly line of Fifteenth Street two hundred and seven feet and one inch to land now of the parties of the second part. Thence Southwardly along said last mentioned land two hundred and twenty-eight feet to the Northerly line of Fourteenth Street at the point or place of beginning.

AND ALSO all the Bulkhead, being about fifty-four feet and six inches, now laid out and built along said East River between the centre line of and the Northerly line of Fourteenth Street; AND ALSO the said Bulkhead, being about thirty-two feet and ten inches, now laid out and built along said East River between the centre line of and the Southerly line of Fifteenth Street. AND ALSO ALL the right, title, interest, property and claim of the said parties of the first part in and to the one-half of Fourteenth Street and the one-half of Fifteenth Street to the centre lines of said streets, respectively, in front of and adjoining said premises above described, and extending to said bulkhead and in and to the one-half of Fifteenth Street to the 8749 centre line thereof, adjoining or in front of the premises lying Easterly of Avenue D, which were conveyed by Eliphatet Nott and Urania E., his wife, to said Moses Taylor by deed dated the twenty-second day of January one thousand eight hundred and fifty-two. Recorded on 14 February, 1852, and afterwards conveyed by the parties hereto of the first part to said parties hereto of the second part.

AND ALSO All the water front, water rights, water privileges, wharfage and cranage, rights of wharfage and cranage, lands covered with water and pre-emptive or other right to land which may hereafter be gained out of the East River by reason of any grant or extension of the present exterior line of the City of New York into the East River or otherwise between said centre lines of Fourteenth Street and Fifteenth Street, as continued into the East River in front of or adjoining said Bulkhead on premises, as laid down on the diagram hereto annexed:

BEING the same lot of land and premises conveyed by Eliphatet Nott and Urania E., his wife, to the said Moses Taylor by deed dated the second day of June, 1853;

TOGETHER with all and singular the tenements, hereditaments, and appurtenances thereunto belonging, or in any wise appertaining, and the reversion and reversions, remainder and remainders, rents, issues, and profits thereof; AND ALSO, all the estate, right, title, interest, dower, right of dower, property, possession, claim and demand whatsoever, as well in law as in equity, of the said parties of the 8750 first part, of, in, or to the above described premises, and every part and parcel thereof, with the appurtenances; TO HAVE AND TO HOLD all and singular the above mentioned and described premises, together with the appurtenances, unto the said parties of the second part, their successors and assigns, for ever.

IN WITNESS WHEREOF, The said parties of the first part to these presents have hereunto affixed their hands and seals the day and year first above written.

MOSES TAYLOR, [L. S.]
CATHARINE A. TAYLOR. [L. S.]

MOSES TAYLOR AND CATHARINE A., HIS WIFE,

TO

THE MANHATTAN GAS LIGHT COMPANY.

DEED

Of Block bounded by 14th Street, 15th Street, Avenue D and Tompkins Street.

Dated 19th Feby., 1852.

B. W. Bonney, Counsellor, &c., 38 Wall Street, N. Y. City.

THIS INDENTURE, made the Nineteenth day of February, in the year one thousand eight hundred and fifty-two, BETWEEN MOSES TAYLOR, of the City of New York, in the County and State of New York, Merchant, and Catharine A., his wife, parties of the first part, and "THE MANHATTAN GAS LIGHT COMPANY" of the said City of New York, parties of the second part, WITNESSETH, That the said parties of the first part, for and in consideration of the sum of Twenty-four thousand two hundred and ninety dollars, lawful money of the United States of America, to them in hand paid, by the said party of the second part, at or before the ensealing and delivery of these presents, the receipt whereof is hereby acknowledged, HAVE granted, bargained, sold, aliened, remised, released, conveyed and confirmed, and by these presents Do grant, bargain, sell, alien, 8753 remise, release, convey and confirm, unto the said party of the second part, and to its successors and assigns for ever, ALL those certain sixteen (16) lots, pieces or parcels of ground, Situate, lying and being in the Eighteenth Ward of the City of New York, designated on the diagram hereunto annexed by the numbers six hundred and fifty-one (651) to six hundred and sixty-six (666), both inclusive, and which taken together are bounded and described as follows: BEGINNING at the intersection of the Northerly line of Fourteenth Street with the Easterly line of Avenue D, thence South Easterly along the said Northerly line of Fourteenth Street two hundred and twenty-eight (228) feet three (3) inches; thence Northerly along the Westerly line of a street to be known as Tompkins Street two hundred and twenty-eight (228) feet to the Southerly line of Fifteenth Street; thence North Westerly along said Southerly line of Fifteenth Street one hundred and thirty-one (131) feet eight (8) inches to said Easterly line of Avenue D, and thence South Westerly along said Easterly line of Avenue D, two hundred and six (206) feet six *inches* (6) inches to the place of beginning be the same more or less.

TOGETHER with all and singular the tenements, hereditaments, and appurtenances thereunto belonging, or in any wise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof; AND ALSO all the estate, right, title, interest, dower, right of dower, property, possession, claim and demand whatsoever, as well in law as in equity, of the said parties of the first part, of, in, or to the above described premises, and every part and parcel thereof, with the appurtenances; TO HAVE AND TO HOLD, all and singular the above mentioned and described 8754 premises, together with the appurtenances, unto the said party of the second part, its successors and assigns, for ever.

IN WITNESS WHEREOF, The said parties hereto of the first part have hereunto affixed their hands and seals the day and year first above written.

MOSES TAYLOR. [L. S.]
CATHARINE A. TAYLOR. [L. S.]

Signed, sealed and delivered in the presence of

COMPLAINANT'S EXHIBIT 369.

PROCEEDINGS OF THE SENATE COMMITTEE OF 1886,

CONTAINED IN SENATE DOCUMENT FORTY-SEVEN OF 1886,

EXCLUDING THE REPORT OF SAID COMMITTEE, AND THE REPORT OF MR. YALDEN AND THE SCHEDULES OF APPRAISEMENTS, ALL OF WHICH HAVE BEEN HERETOFORE OFFERED IN EVIDENCE AND PRINTED HEREIN.

8806

PROCEEDINGS.

New York City, *October* 15, 1885.

The special committee of the New York State Senate, consisting of Hon. John I. Gilbert, Chairman, Hon. Thos. W. Robinson and Hon. M. C. Murphy, met at the Fifth Avenue Hotel, at 4 o'clock, p. m., this day, J. I. Gilbert and M. C. Murphy being present, by authority of a resolution of the Senate, adopted on May 15, 1885, which reads as follows:

"Whereas, It appears by the records of the Secretary of State, that the New York, Manhattan, Metropolitan, Municipal, Knickerbocker and Harlem Gas Companies are the only corporations that have consolidated, pursuant to the provisions of chapter 367 of the Laws of 1884; and

"Whereas, The total share capital of said companies, prior to said consolidation, was represented by the par value of seventeen millions of dollars; and

"Whereas, It appears in evidence, before a special committee of the Senate, that the said par value is represented in the said consolidation by a nominal share capital of $35,440,000, par value, which, it has been alleged, is beyond "the fair aggregate value of the property, franchises and rights" of the said constituent companies as required by said act; therefore,

8807 "*Resolved,* That a special committee of three Senators be appointed by the President of the Senate and directed to investigate the said consolidation and capitalization, and to report at the next session of the Legislature whether in fact said statute has been evaded, disregarded or in any manner violated, and whether the said consolidation has been capitalized on the said basis of 'the fair aggregate value of the property, franchises and rights' of its constituent companies or otherwise; and what legislation, if any, in respect to lighting companies, is required by the public interests; and that such committee have power to send for persons and papers and to employ a stenographer, counsel and experts for the purpose of aiding in such investigation.

By order.

JOHN W. VROOMAN, *Clerk.*

"*Ordered,* That Senators Gilbert, Robinson and Murphy be such committee."

On motion of Senator MURPHY, Matthew W. Tanner was appointed stenographer to the committee.

On motion of Senator MURPHY, Theodore Desrochers was appointed sergeant-at-arms of the committee.

On motion of Senator MURPHY, the subject of employing counsel and experts to assist the committee was left in the hands of the Chairman, Senator Gilbert, to select whom he pleased.

The committee, after some consultation, thereupon adjourned, to meet at the Fifth Avenue Hotel, at 5 P. M., on the 16th day of October, 1885.

Adjourned.

8808 NEW YORK CITY,
FIFTH AVENUE HOTEL, *October* 16, 1885.

The committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Michael C. Murphy.

Henry E. Tremain appeared as counsel to the committee. James Yalden, as expert accountant. Matthew W. Tanner, as stenographer.

The CHAIRMAN: I regret that one of our number, Senator Robinson, is unable to be present with us this week, but we expect him at subsequent meetings. Senator Murphy and myself thought it best to hold a preliminary meeting this evening. Just at this stage of the proceedings we would be glad to hear from any one who may be present in respect to the purpose for which this committee was organized, then we will go into executive session, if thought best, for the purpose of ascertaining the present status of the inquiry—that is, consider what has already been done, and then consider what work remains for us to do. I see that the president of the Gas Consumers' Association, Mr. Sherwood, is present, and we would be pleased to hear from him on the subject.

Mr. SHERWOOD: Mr. Chairman, and President of the Committee, the Gas Consumers' Association prepared a letter, which was sent to the presiding officer to-day, that contains the substance and the points of what I may say. In it we request that this committee shall investigate this matter thoroughly. The question of the supply of gas to the consumers of the city of New York was pretty well ventilated last winter, although the sessions closed at a late time in the winter, and brought it near the adjournment of the 8809 Legislature, which prevented that committee from going into as thorough an examination as we deemed necessary to bring out all the facts in relation to the making and selling of gas in the city of New York, so that each consumer should understand how much he was paying for it, what profit he was paying for it, and what it might be reasonably made and sold for. As an association I believe the Gas Consumers' Association is composed of substantial citizens of New York, property owners and gas consumers. The object of that association is simply that the people shall have gas supplied to them in the city of New York at a fair compensation, giving the manufacturer as fair and reasonable a profit as any other business that is carried on in the city. We hold that gas should not be any more monopolized in New York than food and clothing. It is just as much a detriment to the laboring class to have gas monopolized as to have a capitalist, like Mr. Astor, for instance, monopolize any other matter in the city of New York. The element of light, where we lengthen out the hours of the day, is a great item to the poor man who is obliged to work into the hours of the night, and if he buys his gas to work by and is paying somebody fifty to one hundred per cent. profit, we contend that as a people, that is a matter of great interest to the prosperity of the city of New York, and we come and ask you to devise some means by which every gas consumer in the city shall receive gas at a proper remuneration, and that every man who has a dollar invested in gas stock shall be thoroughly protected.

The **Chairman**: Is there any one else present who wishes to add anything on the subject? I have no doubt the committee will take
it up in the same spirit in which these remarks have been
8810 made. Just what line of inquiry, and just what method
it will be thought best to adopt is a subject for consideration, and for that purpose we will now go into executive session if desired, and of our subsequent meetings due notice will be given, so that all parties interested in the matter will have an opportunity to be heard.

Will Mr. Tremain indicate what shall be the next line of inquiry as a basis *of* start from?

Mr. **Tremain**: The actual capital of the constituent companies; the shares, and the bonds represented, actual capital in their inception, and in their subsequent enlargement.

The **Chairman**: That is the ultimate end, to see the actual capital that each company contributed to the stock of the consolidated company.

Mr. **Tremain**: Then the distribution of the share capital of the Consolidated Company to these constituent companies—the proportion, and what was done with the remainder, and the history of that share capital from the time of the consolidation to the present time. Do we cover it?

Mr. **Yalden**: I think so, with the cost of the plant and the works, etc., that stand on the books of these companies at a certain sum. In many cases no depreciation has been written off year by year to reduce that cost to the actual cost of the amount. Take the subject of pipes about the streets; it is all very well to say that they last forever. But they don't. None of the companies has depreciated the cost of laying their pipes, and that, I think, should be taken into account.

Mr. **Tremain**: I will read the second paragraph on page 9 of the report of the special Senate committee, of last winter, Senator E. B. Thomas, chairman, which is as follows:

"There was included among the items mentioned in the
8811 New York Company, 121 miles of street mains, rated at
$945,982.45. This appraisement (which yet requires verifi-

cation from the books), covers about sixteen miles more of street mains than appears by the report of the company to the department of public works for the quarter ending December 31, 1884, were in actual use by the New York Company at the time of the consolidation. It further appears that of this sixteen miles, nine miles had actually been taken up, or were abandoned by the company during the year, yet were included as part of the inventoried property on which the capitalization was based. Other instances of this kind may exist."

The CHAIRMAN: Now, if we can get at the point where we can commence, and be sure of that, and move on in a right order from that point, that is about all we can accomplish to-night. Now, where would you begin? On the whole, it occurs to me if we can begin at some point where the expert can take the work up it will accommodate you and me and everybody. What is there we can do in that way?

Mr. TREMAIN: I don't think it is worth while to expend a very

* * * The remaining portion of this discussion is not reported. The committee remained in executive session until,

On motion of Senator Murphy, the committee adjourned subject to the call of the chairman.

The chairman was authorized with the aid of counsel and expert, to proceed with the examination of books and accounts, and otherwise to prepare for further proceedings when such examination had sufficiently progressed.

TESTIMONY.

NEW YORK CITY, FIFTH AVENUE HOTEL,
November 23, 1885.

The committee met upon the call of the Chairman.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the committee.

JAMES W. SMITH, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are the treasurer of the Consolidated Gas Company of New York?

A. I am.

Q. Have you brought with you the original schedules or appraisements of properties of the constituent companies entering into the consolidation?

A. Yes, sir.

Q. Will you please produce them so that they may be marked by the committee for conve-ience.

(The books were produced and marked.)

Mr. TREMAIN: The witness produces the appraisements of the New York, which are marked "A 1," being valuation of buildings, gas producing, gas storage, coal storage, tools, fixtures, implements and betterments of every description, constituting the plant at Twentieth street and East river. "A 2," names the meters and services; "A 3," real estate. Manhattan Company, marked "B 1," "B 2," "B 3," and "B 4;" the Metropolitan, marked "C 1," book; Municipal, marked "D;" Knickerbocker, "E;" Harlem, "F."

8813 Q. In this Metropolitan you took out a paper—was not that an abstract of the book itself?

A. I believe it was.

Q. Will you please produce that? What is the latter book?

A. "C 1."

Mr. Tremain: Mark the Metropolitan "C 1," being the book—the paper in it "C 2."

Q. Since the business of the Consolidated Company has been conducted you have been its treasurer?

A. Yes, sir.

Q. And have had charge of its financial accounts and papers?

A. I have had access to them; the financial matters I have charge of.

Q. Have you made any reports whatever to anybody in writing since November, 1884, showing the financial condition of the company?

A. No, sir.

Q. Have you prepared any papers showing the financial condition of the Consolidated Company since November, 1884, to the present time?

A. No, sir.

Q. Have any such been prepared by anybody, under your direction or otherwise?

A. The books show—the balance sheets.

Q. Who has prepared the balance sheets?

A. The chief book-keeper, every month.

Q. What is his name?

A. Mr. Young.

Q. When was the last one prepared?

A. A few days ago, up to the 1st of November; just got through with them.

Q. Does the executive committee keep a minute of its meetings?

A. Yes, sir.

Q. Who is secretary?

A. The secretary of the company.

Q. Does he keep the minutes of the board meetings?

A. Yes, sir.

Q. How many books do those records comprise?

A. A book of minutes for each.

8814 Q. Has there been a paper prepared showing the financial condition of the Consolidated Company from November, 1884, to the present time?

A. A great many memorandums made by the book-keeper to bring it up to that point; as to the financial condition of the company, there has been no preparation made of that; the amount of money paid out, and the amount received.

Q. As a director of the company, have you any knowledge whatever of any paper or papers showing the operation of the company, or its financial condition between November, 1884, and the present time, except those balance sheets?

A. Only the book-keeper's memoranda.

Q. Do you testify that that is all there is on that subject?

A. No, sir; that is as far as I know; if this committee would like to have any information I would like to produce it if you will state what you want.

The CHAIRMAN: The counsel is asking what papers there are.

The WITNESS: All right, go on.

Q. I want to know what other papers there are in existence within your knowledge as director other than those balance sheets, that indicate the financial condition of the company?

A. I think I have answered the question to the best of my ability.

Q. Whether you have any knowledge showing the financial condition of the company?

A. There were bookkeepers' memorandums submitted to me.

Mr. TREMAIN: That does not answer the question.

The CHAIRMAN: Answer the question; do you know of any others?

A. I do not.

8815 Q. When the dividend was declared, or about that time, was not there a statement prepared and submitted to the board of directors?

A. No, sir; not to my recollection.

Q. Did any committee or the board of directors make a report upon that subject?

A. I don't know; I don't recollect.

Q. Will you produce here the minutes of the executive committee, and the minutes of the board of directors, and those monthly balance sheets that you refer to, and other memorandums of the bookkeepers to which you refer?

Mr. Chairman, I think the examination of Mr. Smith had better be suspended until that is done.

The CHAIRMAN: It is understood, Mr. Smith, that you will produce them?

A. Yes, sir.

Mr. TREMAIN: We would like to have them produced immediately, so that they may be examined while the committee is sitting, if practicable.

The CHAIRMAN: Now.

The WITNESS: Our minute-books are in use; there are regular meetings on Wednesdays, and a meeting of the executive committee to-day at three o'clock; on Wednesday the regular monthly meeting takes place.

Mr. Tremain: I think if the committee suspends the examination of the witness we can examine those books in a very short time.

The Chairman: How soon may we expect the books?

A. I want one book this afternoon for use; but between now and three o'clock if you want the general minute-book I can produce it.

Mr. Tremain: Please produce immediately under the direction of
the committee the minute-book of the executive committee,
8816 and the minute-book of the board of directors; and please
cause to be produced as soon thereafter as practicable the
papers that you have referred to, so that the committee may have them for their expert as soon as possible; do you accede to that, Mr. Smith?

A. Subject to the proper use of the books by the company; I should suppose there ought to be no difficulty.

Q. You will produce the books as requested, and we will protect your rights; you accede to that?

A. Yes, sir.

Q. When that dividend was declared in June was not there a recommendation submitted to the board of directors by the executive committee composed of one or more of the officers of each company?

A. I don't recollect.

Q. Was not there any thing in writing?

A. No, sir.

Q. Are there no reports of the executive committee that have been made to the board of directors between November, 1884, and the present time?

A. The minute-books of their meetings are the reports to the board.

Q. There were no reports submitted except the minutes contained in the meetings?

A. I believe that is the fact.

Thomas F. Rowland, a witness called by the counsel to the committee, being duly sworn, testified as follows:

Examined by Mr. Tremain:

Q. What is your business?

A. I am an engineer, sir, and follow an engineering business.

Q. You have had some experience in gas manufacturing, have you not?

A. Yes, sir, gas plant manufacturing.

8817 Q. Will you please tell the committee what has been your experience?

A. I built the Municipal Gas-light Company's works, at the foot of Forty-fourth street, and also the Knickerbocker works at Ninety-ninth street and Second avenue; I rebuilt the New York Gas Works almost entirely; I built the Nassau Company's works, of Brooklyn, L. I.; I built a large gas works for the Boston Gas-light Company; I have built a number of small gas works at different parts of the State; I can hardly enumerate them; I don't remember them.

Q. You have been in that line of business for many years?

A. Yes, sir.

Q. Who applied to you in 1884 to value the gas plant of the New York companies?

A. I was applied to to value the New York Gas Company by Mr. Lees; I was applied to to value the Manhattan Company, I think, by Mr. Gawtry, acting as the agent for the Manhattan Company; the Metropolitan Gas-light Company, I was invited to appraise their property by Mr. Zollikoffer, who was then president of that company.

Q. Are those the only three companies whose properties you appraised?

A. I revised the appraisement of the Municipal and the Knickerbocker; the Harlem I did not, nor the Mutual.

Q. Who invited you to appraise the Knickerbocker?

A. Mr. Gawtrey and Mr. Francklyn, I think.

Q. When you revised the appraisements what did you do?

A. The estimates were made when I was abroad. When I came home the Knickerbocker and the Municipal appraisements were submitted to me.

Q. When submitted to you whose direction was upon them?

A. Nobody's.

8818 Q. Whose handwriting was upon them?

A. I couldn't tell you.

Q. Have you seen those appraisements since?

A. No, sir. In the case of the Municipal and Knickerbocker—in those appraisements were the papers upon which I appended my statement.

Q. How particular were you when you revised that list—did you see all the properties yourself?

A. No, sir, not at that time. Taking the amounts and in making the appraisements in any case I was more familiar with them than any other person, especially the Municipal and Knickerbocker; I had rebuilt the New York, which had been a gas company almost five or six years; I commenced in 1867 to rebuild the New York Company; commenced in May, I think, worked at it almost every year until 1883.

Q. State generally what it was that you did in that respect?

A. I have built all the gas holders which they now have, taking down a number of old ones which were almost worn out; I built a building which was 200 feet wide, and about 600 feet long, in which was all their plant for making coal gas. I built them coal storage buildings whose capacity was about 60,000 tons, and which cost about $200,000; I built them new purifying houses, new condenser houses; and perhaps five years ago I took a contract to change their works from coal gas making works to water gas producing works.

Q. Go on and tell what you did under that contract to change from the facilities to make from coal to water gas?

A. It necessitated the raising of one building which had been formerly used as a coke shed, and putting a roof upon it; the building was about 70 feet wide and 200 feet long; within that build-
8819 ing I erected ten gasogenes, or stoves, where the anthracite coal is put under a process for the purpose of decomposing

POOR

water; I erected sixteen benches for the gasification of the naphtha; I provided storage capacity for, I think, 200,000 gallons of naphtha, and I put in the necessary pumps for unloading this naphtha at the dock and depositing it into the tanks, and also the pump apparatus to take it from the tanks and put it into the works where it is gasified.

Q. That was completed when?

A. I think in the spring of 1880; it might have been 1879.

Q. Prior to that time what was the capacity of the New York Company's works for producing coal gas?

A. At a maximum it would be 2,750,000 cubic feet per day, prior to the time it was changed to water gas.

Q. After it had been changed by you so as to produce water gas what, in your opinion, was its fair working capacity?

A. Three millions and a half cubic feet per day; but I afterward made an addition which made it more powerful.

Q. When was that?

A. I should say two years ago.

Q. That increased its capacity to deliver water gas?

A. Yes, sir.

Q. And in doing so you dispensed with a part of the plant which had been used for producing coal gas?

A. Yes, sir.

Q. Is not it true when works are changed from the manufacture of coal gas to the manufacture of water gas that a part of the plant thereby becomes useless?

A. It is pretty near true; it would not be advisable, although it is possible, to use all the old plant in the coal gas works; it is better to dispense with the benches which they use in making coal gas.

Q. What other part of the plant besides the benches thus 8820 becomes useless?

A. That is all.

Q. In the spring of 1884 what was, in your opinion, the fair working capacity of the New York works?

A. Four million cubic feet of gas per day; that was an easy working capacity.

Q. Suppose you were to make an estimate of the value of the benches that, having been used in the manufacture of coal gas, had become comparatively useless when the manufacture of water gas was commenced; how, in your opinion, could the value of those benches be estimated, if they had any value?

A. Without any idea of their using them again? The value of property of that character is very variable, depending entirely upon circumstances.

Q. Those circumstances being the use of those benches?

A. Not necessarily the use, but perhaps the moral effect of the abandoned benches.

Q. After 1882 had those disused benches any value at all?

A. Yes, sir.

Q. How could such value, in your opinion, be estimated; what is the method of estimating such a value?

A. One way is to find out what the cost would be to produce them

COPY

Q. That would be the best way?

A. Yes, sir.

Q. Would not you bring in then an element of depreciation since the cost?

A. Yes, sir.

Q. What would be a fair element of depreciation; take the case of the New York; where the benches had been used in manufacturing coal gas?

A. In the New York case the benches are in just as good order as when they were built, with the exception of the retorts; their displacement would cost about $360 a bench.

Q. I understood you a few moments ago to say that they were pretty nearly worn out?

A. The retorts were, but not the benches.

8821 Q. What would you strike off from the cost by way of depreciation?

A. I could not tell without referring to my books.

Q. What is the life of the benches?

A. Some go down in four months and some not in four years.

Q. What, in your opinion, is a fair percentage of depreciation to be considered in arriving at the present value of benches of that character, and to be taken from their original cost?

A. I think that twenty per cent. of the cost of a new bench, to take the benches of the New York Company, would put them in thorough order.

(By the CHAIRMAN:)

Q. When were the old benches displaced and new ones put in?

A. They were never displaced and new ones put in that position.

(By the CHAIRMAN:)

Q. Why were new benches substituted in place of the old ones?

A. 1880, for the purpose of gasifying naphtha.

Q. Was there any use for the old benches while using the new benches?

A. No, sir.

Q. Why did you substitute new benches for the old ones?

A. One reason was we were obliged to use the old benches, and could not throw them out of use until we got the water gas plant under way.

Q. What was the end in view in making the new benches?

A. To produce a different character of gas, and to produce a better gas.

Q. That is, to produce gas according to a better process?

A. Yes, sir; that was supposed to be the object.

Q. Then the new bench, in practical effect, took the place of the old bench, when the new bench was completed?

A. No, sir.

Q. Did not the new take the place of the old?

A. No; they did not produce the same result.

8822 Q. After the new benches were completed did the company use the old benches at all?

A. No, sir.

Q. Have they used them since?

A. No, sir.

Q. Then the object of changing the benches was to introduce a better method in place of the old method in manufacturing gas?

A. Yes, sir.

Q. And since that took place the old benches have been practically abandoned?

A. Yes, sir; excepting for their moral worth; the new benches played but a small part in the manufacture of gas.

(By Senator Robinson:)

Q. What do you mean by the moral worth of these old benches?

A. It is not well, perhaps, to use that word; I will withdraw the word "moral;" the naphtha which is used by the New York Gas-light Company is sold by one large corporation, and only one; if the New York Gas-light companies were kept in a condition whereby a small expenditure would enable them to sell either coal or water gas, as they elected, the moral effect upon the Standard Oil Company, it would be a check upon them.

Q. You mean that was so in 1880?

A. Yes, sir.

Q. Is it so now?

A. Yes, sir.

Q. In 1880, when this change was made, there had been a short time before successfully introduced in New York water gas which was supplied by the Municipal company, and which was in active competition?

A. Yes, sir; which would have been in competition with the New York Gas Company.

Q. They would have had to change their plant so as to manufacture water gas?

A. I don't know anything about that; I know they did change, and the Manhattan did not change.

Q. The Manhattan has facilities for producing water gas?

A. No, sir.

8823 Q. At the time you made the appraisement?

A. No, sir.

Q. As a matter of opinion, is there any other element in a gas plant besides the benches that is made comparatively useless when the plant has been used in the manufacture of coal gas, and is about to be directed for the manufacture of water gas?

A. I know of nothing unless it may be in the matter of coal storage, but so far as the plant, there is no other.

Q. Is it not true that the least storage room is required for coal?

A. Yes, sir.

Q. What is the proportion of coal, comparatively, that is used?

A. I couldn't tell you; I know only the general fact; anthracite coal is more readily obtained; they get it every few days.

Q. Does it require any more space to produce a given quantity of water gas?

A. No, sir.

The **Chairman**: And less for storage?

Mr. TREMAIN: Yes.

Q. What, in your opinion, is a fair method of estimating the value of a gas plant at the present day, irrespective of the value of real estate or lots without any buildings upon them?

A. I think its value is that sum of money to-day which it would cost to produce it.

Q. To duplicate it?

A. Yes, sir.

(By the CHAIRMAN:)

Q. Supposing one-half of the plant, by the introduction of a better method of producing gas, had become practically useless and had been abandoned, would you say that the fair value of that plant is the cost of producing it?

A. If the plant had been abandoned I should say it was worth simply the price of the old material; and in the case of the New York Gas-light Company's benches, it had simply been put out of commission, and I should say it was worth what it would cost to produce them.

8824 Q. What do you mean by out of commission?

A. I mean not using; I would rate a depreciation of it at twenty per cent.

Q. Has the new method of producing gas proved to be better than the old method?

A. I could not answer that question?

Q. Have you any reason to believe the expectation that it would be better has not been realized by the public?

A. No, sir.

Q. Some of the presidents testified in the last examination that it was better?

A. My opinion is that it is very much better.

Q. You think the new method is a great improvement on the old method?

A. Yes, sir.

(By Senator MURPHY:)

Q. Because of its cheapness in manufacturing?

A. Not so in that, but on account of its greater power of brilliancy.

Q. You say that the fair method of estimating the value of a gas plant is the cost to duplicate it?

A. Yes, sir, at present.

Q. I want to follow that along and ask you your opinion whether by duplicating it you did not mean the duplication of a plant of equivalent working capacity with a less expenditure?

A. Well, no; I mean it would be possible to produce a plant worth half the money, which in the estimation of some people would be the equivalent, but not in the estimation of others; I mean to reproduce that thing as it existed.

Q. Whether it is not, in your opinion, a fair method of estimating the value of a gas plant, irrespective of the cost of the lots and real estate; is it not a fair method of estimating the value of a gas plant to value it according to its producing capacity?

A. I don't know what you mean; any thing is fair that gentlemen agree to; it is not a professional way of doing it; as an engineer I say no.

8825 Q. Have you had any experience in arriving at the commercial value of a gas plant?

A. Yes, sir, I am a builder.

Q. Do you say that it is not in any sense fair to estimate the value of a gas plant by estimating it according to its producing capacity?

A. I say it is not fair to do that thing from an engineering standpoint; it seems not to be fair to me from a commercial standpoint; do I understand your question that the gas producing power is the value?

Q. Yes; is not that one element in measuring its value under any circumstances?

A. Yes, sir.

Q. In your opinion is there any other element to measure the commercial value of a gas plant?

A. I suppose it would boil down to the same thing—its ability to make money.

Q. Now, upon what basis did you make an estimate of the valuation of the Manhattan property, for instance, that you had appraised, taking, to begin with, the gas plant of the Manhattan?

A. Well, we measured the buildings; we found out how many brick there were in the buildings to produce them; we found out how many piles were under the buildings; and in that general way we endeavored to find out all the material in those buildings, and estimated that at about the price it would cost to-day to put those buildings up.

(By Senator Murphy:)

Q. Did you make your estimate of the price it would cost to put up those buildings to-day, based on the price it would cost when they were built?

A. Yes, the present cost.

Q. You say you estimated the brick and piles and material with regard to what you thought it would cost to do it to-day?

A. Yes, sir.

Q. Was there any comparison made as to the cost at the time they were built, and what it would cost to build them to-day?

A. No, sir.

8826 (By Mr. Tremain:)

Q. Is it not true that the cost of erecting a gas plant to-day is very much less than it was twenty years ago?

A. I couldn't tell you.

Q. Is not that true?

A. It is not true that the same character of work can be produced very much cheaper to-day than twenty years ago.

Q. An old-fashioned plant you mean?

A. No, sir, I do not mean that.

Q. Can the old-fashioned plant be made cheaper?

A. No, sir, only a different character and poorer; some parties would charge double what others would; some people think that because the more money is expended and the more durably built, the cheaper in the end.

Q. Is not it a fact that the same thing to build now costs less than it did twenty years ago?

A. No, sir, I am getting more now.

Q. Is it not true you can manufacture a plant for much less to-day than it did twenty years ago?

A. I don't know.

Q. You do know it would not cost any more now than twenty years ago?

A. No, sir, I think not.

Q. With reference to the Manhattan, who participated in the appraisement?

A. My son, Mr. Hill, Charles H. Corbett, William Deming, Charles Rowland, Mr. Trautwein; these gentlemen are all engineers; I also had clerical help in my office.

Q. Who from the Manhattan Company?

A. Nobody.

Q. Who handed you the schedule?

A. Albert M. Smith.

Senator MURPHY: I move that when those books are brought here they be retained in the possession of the committee until we get through with them.

8827 (A vote was taken and the committee were unanimously in favor of the motion.)

Q. Who handed you the schedules?

A. Mr. Smith gave me the schedules of the Manhattan.

Q. These other papers being marked "B 1," "B 2," and "B 3?"

A. No, sir.

Q. What did you do with the papers he handed out?

A. He handed me a schedule of the property; I had copy made, I think, and gave it back to him.

Q. Did you write any thing upon it before giving it back to him?

A. No, sir.

Q. Did you make a copy of it?

A. This is a copy of it; substantially a copy.

Q. Did you make this copy?

A. No, sir; my clerk made it; it was made under my directions; this is my handwriting on that (witness indicating).

Q. Are those the ones you gave back to Smith?

A. No, sir; the one I gave back to Smith was the one he gave me.

Q. Did not the schedules he handed you have some figures upon it of dollars and cents?

A. No, sir; I never got the slightest idea of valuation from him of the Manhattan Company; I know of my own knowledge its value; and that is true of the Knickerbocker and the Municipal; I had no intimation whatever of the Metropolitan Company, as to the supposed value of their property.

Q. You appraised the real estate?

A. No, sir; not of any of the companies.

Q. I observe your appraisement of the mains and meters and services?

A. No, sir; I know nothing about them; I never was invited to appraise them.

Q. Your appraisement in all the companies is limited to the gas plant?

A. Yes, sir.

8828 Q. The buildings are considered a part of the gas plant; will you please state to the committee what, in your opinion, are the items comprising a gas plant proper?

A. I think all the apparatus necessary for the production of gas; I think the buildings which covered it are a portion of the plant; I think the buildings in which are stored the raw material may be considered a portion of the plant; and also the storage holders for the finished material; the office buildings and apparatus used for keeping a record of the works we have never considered as a part of the plant; we call it a betterment or office, and I have so described it here, I believe.

Mr. **Tremain**: Witness reads from Exhibit "B." "The foregoing $1,916,355, setting forth the present value of the buildings, as a gas producing and gas storage plant, coal storage, fixtures, tools, implements and betterments of every description * * * comprising the property of the Manhattan Gas-light Company, known as the Eighteenth street station, has been carefully revised and corrected by me, and I believe the same to be a just and true value therof."

Q. Is that appraisement you made of the Manhattan Company's property, irrespective of, and without the knowledge of their cost?

A. Yes, sir.

Q. The cost it would take to put it there at that time?

A. Yes, sir.

Q. When you made that estimate did you take into consideration the difference between these old works and new works?

A. Yes, sir; they were not new.

Q. Did you estimate what it would take to put a new building there?

A. Yes, sir.

Q. Was there any new apparatus in the Manhattan at all?

8829 A. That is a relative term; some apparatus twenty-five years' old there was there, and other not more than five or ten years.

Q. Was all the apparatus of the Manhattan in use?

A. No, sir; not when we were there.

Q. What part of the Manhattan plant was not in use when you were there?

A. Some of the benches; we were there in the summer, and I suppose not half of the apparatus was in use which is necessary to run in the winter.

Q. Was there any part of the Manhattan that you saw which was not in use during the year?

A. I couldn't tell you.

Q. Did not you see some things on the schedule of the Manhattan plant which were in fact comparatively useless?

A. I saw nothing on the schedule which was not useful.

Q. Do you know how the value of the mains, meters and services were arrived at?

A. No, sir.

Q. Are you a director of any gas-light company?

A. One in Florida.

Q. In Brooklyn?

A. No, sir.

Q. Are you a stockholder in any of the companies?

A. In the Consolidated, and no other.

Q. How long was you in the Municipal?

A. I was one of the original promoters who built that works; always in it.

Q. When did you build the Municipal and the Knickerbocker works?

A. I built two gas works for the Municipal Company; the first one in 1876.

Q. Where?

A. On the block bounded by the North river and Forty-sixth street, and by property on the east—I don't know whose, and by Forty-fifth street on the south; that works was of a half a million cubic feet daily capacity.

Q. For water gas?

A. Yes, sir; in 1877 I built the works for the same company
8830 in the next block south, bounded by the North river,
Forty-fourth and Forty-fifth streets.

Q. What capacity were they?

A. The buildings were large enough for three million cubic feet daily capacity; the apparatus for a one and a half million one was put in; subsequently another million and a half was added.

Q. Making a capacity of three millions?

A. Yes, sir.

Q. From and after what time?

A. The spring of 1880.

Q. Each of these constructions under a contract?

A. Yes, sir; a number of contracts, I think.

Q. All payable in stock?

A. No, sir; not a dollar payable in stock; I never made a contract with a company in the city of New York whereby I ever received a dollar's worth of stock to my recollection.

Q. Bonds?

A. I have received bonds in one case.

Q. Which case?

A. The Municipal.

Q. Which year?

A. I think 1878, when the final payment was due.

Q. That is all the work which you have done for the Municipal?

A. That is all I did for them there; I built the Knickerbocker works as well.

Q. You had completed these other contracts for producing this capacity of three and a half millions before you entered upon the Knickerbocker?

A. No, sir.

Q. When did you enter upon the Knickerbocker construction?

A. I partially built it in 1871.

Q. What was its capacity in 1871?

A. No capacity, for the reason the enterprise failed; the work was stopped and the property sold to other parties.

Q. Do you remember whom it was sold to?

A. Yes, sir.

8831 Q. Whom?

A. I think the Cutting estate had a hand in the purchase of it; I have no knowledge only by hearsay.

By the Chairman:

Q. You understood it was purchased by the Cutting estate?

A. Yes, sir; that is all I know about it.

Q. This was where?

A. Ninety-eighth and Ninety-ninth streets, Second avenue to the river.

Q. What was done at that time when the work was abandoned?

A. I had filled the property in two feet above high-water mark; I built a retort-house, two tanks, I built a condenser, a purifying-house and one set of purifiers, a meter-house, and I put in a meter; and after having done that the payments were stopped; and they made a compromise with me and I abandoned the work.

Q. About what time was that?

A. I think that all occurred in 1871.

Q. Please tell the total amount that was paid you, as near as you can recollect?

A. I said I never made a contract in the city of New York and took stock; that is not true; I made a contract to take the land at Ninety-eighth street, and put thereon a gas producing works, coal gas, which should be capable of making a million feet of gas a day; and my price in stock was $1,150,000; I had a contract with one of the gentlemen of the company, whereby he agreed to give me fifty cents on a dollar for every share of stock which I would deliver to him, and my object, of course, was to sell him the whole of it and get the cash for my work, $575,000, the cash valuation; the scheme failed, he became financially embarrassed, and did not take all the stock which I got.

Q. Now those contracts were in writing.

A. Yes, sir.

8832 Q. You have that contract with the Knickerbocker Company?

A. No, sir; there was no Knickerbocker Company at that time.

Q. With whom did you have that contract?

A. Henry J. Davidson; he took the contract from the company, and I took it from him.

Q. The Knickerbocker was started under a different name?

A. Yes, sir.

Q. What was the name?

A. The Union Gas-light Company.

Q. Who was this gentleman with whom you entered into the contract to purchase some stock?

A. C. S. Bushnell, of New Haven.

Q. He failed?

A. Yes, sir; he was to take my stock, and did take a portion of it, but failed.

Q. With whom was the compromise made that you speak of?

A. I think it was with Davidson; the name of the company was then the Union Gas-light Company of New York, I think.

Q. Do you know at that time whether any bonds had been issued by the Union Gas-light Company?

A. No, sir; I do not know.

Q. Did you surrender the stock back when the compromise was made?

A. No, sir; I think I have some of the stock yet; the company was defunct.

Q. What became of the property?

A. It was sold, as I understood it.

Q. By Davidson?

A. No, sir.

Q. It was sold to whom?

A. By hearsay; to Mr. Cutting.

Q. R. F. Cutting?

A. So I understood, but I don't know any thing about it.

Q. Did you subsequently do some more work on that property?

A. Yes, sir.

Q. When did that begin?

A. Eighteen hundred and seventy-seven; I would not swear exactly to that date; perhaps it was 1878; I made a contract with the Municipal Company of New York, or rather with the president, Mr. Charles G. Francklyn. 8833

Q. Have you that contract?

A. I have it at home, but not with me.

Q. You have no objection to submitting it to the committee?

A. No, sir; I will do so.

Q. In pursuance of that contract, what did you do?

A. I took this establishment which had been turned into another gas works since I first built it, and built over.

Q. What was the producing capacity?

A. Not over 400,000 cubic feet a day, I should judge.

Q. Under the control of the Municipal?

A. No, sir; it was being run by Mr. McKenzie when the Municipal purchased it; he had an apparatus in that place making gas for the Knickerbocker.

Q. Was Mr. Francklyn an officer of the Knickerbocker at that time?

A. No, sir.

Q. Who were the officers?

A. The president, R. N. Graham, and secretary, John Sickles.

Q. Was that contract to be paid for in stock, bonds or cash?

A. Cash; and it was paid by the Municipal in cash.

Q. What was the total cash amount?

A. Between $400,000 and $500,000.

Q. And that payment was made in 1878 or 1879—the last payment?

A. Yes, sir; it was made as the work progressed—made in installments—the last payment was made when the work was completed.

Q. What did you do at that time, and how were the works when you stopped your work and got your pay?

A. I put up a new gas-holder for the storage of illuminating gas, of about 300,000 cubic feet capacity; and I erected a gas-holder for the storage of water gas and apparatus which is necessary for 8834 that process; and put up a building about sixty feet wide and about seventy-five feet long, with an iron roof—a fire-proof building—I put in then six gasogenes or stoves for making water gas; I put in two steam engines for producing heat in the stoves; two others to operate the exhausters; and machines necessary to move the gas through the works'-pumps; I put in a new set of purifiers, new scrubbers; I furnished about 400 horse power boilers; I think there were five of them; I built a complete range of benches, twenty-eight, if I remember right, and generally put the works in a good condition for the production of gas; my contract was to produce 2,000,000 feet per day—the last transaction; at that time the producing capacity had not been tested up to over two million because they had not the storage capacity—they had no place to put the gas.

Q. Did you build a holder subsequently?

A. Yes, sir; two years ago; I took out two holders which I had previously built some ten years ago; the tanks were leaking, and I put the tanks in thorough order and made them deeper; I put in a three-lift holder instead of two lift ones, making a difference of fifty per cent. in storage capacity; since that time they have produced 2,400,000 feet in twenty-four hours.

Q. What, in your opinion, was their proper fair producing capacity in 1882?

A. Two million cubic feet.

Q. It would not exceed that under any circumstances—a fair use of the works?

A. No, sir.

Q. Was that a fair condition of the works in 1884?

A. No, sir; I took down two gas-holders; their producing capacity is measured by their ability to take care of the product.

Q. In 1884 what was their producing capacity?

A. Two million four hundred thousand feet per day.

8835 Q. Was it being used at that time for that amount?

A. I think not at that time.

Q. Is it not true that the plant was not used for producing at that time?

A. When I appraised it, it was at work, in 1884.

Q. What is the total amount that you received for work on those Knickerbocker works up to the time of the appraisement?

A. I couldn't tell you here; I can tell you to-morrow.

Q. Please do so. It was less than a million, was it not?

A. No, sir, more than a million.

Q. Your recollection?

A. My recollection is that I have received over a million dollars since I commenced to build upon that property.

Q. Is it, or not, the fact when you appraised these works in 1884, any part of them that you had previously constructed had been abandoned or removed besides these two holders you have referred to?

A. Nothing else.

Q. Was any part of the plant then useless?

A. No, sir; the gas companies never use precisely the same plant in two consecutive months' work; in the summer they do not use it all, but in the winter they are using all of their plant.

Q. When did you see those works after the time you appraised them?

A. The other day when I was up to see the explosion—Hell Gate explosion; I think it was the tenth of October.

Q. Is there any period during the past year when that plant has not been used?

A. No, sir.

Q. Was there any time that the gas was made elsewhere and conveyed to the Knickerbocker holder?

A. Yes, sir.

Q. When?

A. I should say in 1881, from the time the Municipal Company bought it, until two years ago.

Q. Where was the gas made?

A. At the Municipal gas works.

8836 Q. And conveyed to the holders of the Knickerbocker?

A. Yes, sir.

Q. And stored there, and dealt out from there?

A. Yes, sir.

Q. That was the condition when you commenced to work there in 1882?

A. Yes, sir, and remained so until 1883.

Q. Now did you do any other work for the Municipal except those two works?

A. No, sir, I think not; I don't remember any thing else.

Q. When you went to the Knickerbocker works to appraise them in 1884, had there been any other work of any extent done there except the work which you had constructed?

A. The company had built an office; I don't know whether I appraised it or not; I couldn't say without looking; I did not appraise the Knickerbocker works, but simply revised them.

Q. Did you se- the works?

A. Yes, sir.

Q. If there had been any other work done at that time except your work, what was it?

A. They had built this office and the coal storage shed, and I think something in the way of improving their dock, but what I couldn't say.

Q. That is all you observed?

A. Yes, sir, except what I did.

Q. The coal-sheds—were they very expensive?

A. It is a brick building with the roof having a railroad track and cars on top for depositing the coal.

Q. You saw the Municipal works some time during 1884?

A. Yes, sir.

Q. Had there been any work except yours done there?

A. Yes, sir; considerable building.

Q. What building had they done that you did not yourself construct in the works?

A. They built a very large gas-holder tank.

8837 Q. What other work?

A. Coal-sheds.

Q. What other work?

A. I don't know of any thing.

Q. The apparatus was substantially your construction?

A. Yes, sir; they built the dock.

Q. So far as the apparatus was concerned it was yours?

A. Yes, sir, I built the gas-holder, but not the gas-holder tank.

Q. Who built it?

A. Armstrong & Moran.

Q. Did you estimate its value?

A. No, sir.

Q. You included an estimate of its value when you revised it?

A. Yes, sir; I estimated its value at the time the appraisement was submitted to me.

Q. Who submitted the Municipal appraisement to you?

A. Mr. Gawtry, and I think Mr. Allen was in the room; I was sent for.

Q. When was it you were sent for?

A. I think it was in October.

Q. When you got there who did you see?

A. Mr. Gawtry and Mr. Allen.

Q. What did Mr. Gawtry tell you he wanted you to do?

A. To look it over and see if it was all right.

Q. The paper he submitted to you was a different paper from the one in the book?

A. I think it was in sheet form.

Q. Were there any figures on the paper?

A. Yes, sir.

Q. What did those figures relate to?

A. The value of the article they were set opposite.

Q. What were they explained to you to represent?

A. Nothing; they represented the value of the property.

Q. How do you know that?

A. Because I made it, the property, and received the money; I was in Europe at the time this appraisal was made; Mr. Gawtry was in my office, and probably got some of the information from my books. 8838

Q. Did you write the values on that schedule?

A. Yes, sir.

Q. Were they different from the schedule which was submitted to you?

A. No, sir, I think not.

Q. Who prepared this one—Exhibit "D" relating to the Municipal?

A. I did; that is my handwriting.

Q. And Exhibit "E" also?

A. Yes, sir.

Q. Who prepared those books?

A. Those books were prepared in the office of the Municipal Company; I don't know who prepared them.

Q. Those figures you went over to see if they corresponded with those lists?

A. Yes, sir; and then I wrote that statement on here; this was on September 8th; I came home from Europe the last of August; I will correct it and make it September instead of October.

Q. You did not appraise any piers or bulkheads, the real estate of the Municipal or Knickerbocker?

A. No, sir.

Q. Nor any thing else except the gas plant; was any part of the Municipal structure changed at any time from a coal plant to a water plant?

A. No, sir; it was always a water gas plant, it was constructed so originally; when the Knickerbocker was originally designed it was proposed to use coal in the production of gas. After it was sold, and Mr. McKenzie became the engineer, he used a part coal and a part water gas, mixed in the two; it has never been any thing else but a water gas works under its present ownership.

Q. Or under the Municipal ownership?

A. Yes, sir.

Q. How much of the benches became comparatively useless by that change?

8839 A. None; there never were any benches constructed until I constructed them for the water gas in 1878.

Q. When did those works begin to produce gas—the Knickerbocker works—do you know?

A. No, sir.

Q. You think they produced gas in 1878?

A. Yes, sir.

Q. Did you build the Metropolitan?

A. No, sir.

Q. Did you estimate its value?

A. Yes, sir.

Q. Did you estimate the values of the Metropolitan properties upon the same basis which you have described, in which you estimated the others?

A. I tried to, yes, sir.

Q. You did not include the real estate, or piers, or bulk-heads?

A. No, sir.

Q. What was the producing capacity of the Metropolitan works when you made the valuation?

A. I don't know.

Q. Who submitted to you the list for that appraisal?

A. Mr. Zollikoffer, and the man who had charge of the Forty-second street gas works.

Q. Did these schedules have any figures on them at the time they were submitted to you?

A. No, sir.

Q. You were not made acquainted with the costs?

A. No, sir.

Q. You valued them irrespective of the costs?

A. Yes, sir.

Q. Did you observe any plant there that was useless?

A. No, sir, but lots of it out of commission, or use.

Q. Had the plant been used to make coal gas before?

A. Yes, sir.

Q. When was the change made?

A. No change has been made, to my knowledge; they simply used a little oil in four benches that was intended for use in making gas; the engineer's name which I could not think of was Streiker.

8840 Q. What did you do with the original papers that the Metropolitan representatives submitted to you?

A. The inventory I returned.

Q. Did you make a statement to the Metropolitan?

A. Yes, sir.

Q. Did you make any other statement to the Metropolitan except the one I have shown you?

A. No, sir; I made an explanation to Mr. Zollikoffer; he thought I had not valued his property high enough; I convinced him.

Q. What did you say to him?

A. I couldn't tell you; I wrote a letter to him on that subject in answer to his letter.

Q. Have you a copy of the letter?

A. Yes, sir; at home.

Q. What was your information in respect to the figures?

(By the CHAIRMAN:)

Q. You will produce that letter, will you?

A. Yes, sir.

Q. I show you Exhibit "C 1," and it is produced by Mr. Smith as being the schedule of appraisement of the property of the Metropolitan Company that entered into the consolidation; I suppose it was your appraisement; I want you to look at it; did you ever see it before?

A. I have seen a copy; this is a copy evidently of what was submitted to me, with no figures attached to mine.

Q. What did you do?

A. I put the figures in; the valuation of every item.

Q. Is this Exhibit "C" also in your handwriting?

A. No, sir; I never saw it before.

Q. Is there any certificate of yours in that book?

A. I don't know.

Q. Had you signed a certificate in form the same as signed for the Municipal?

A. Yes, sir.

Q. Please turn in that book to the items which you did appraise, and state the class of items?

A. Store-room, 18x52 feet.

8841 Q. State from where you commenced to appraise, and where you ended?

A. On page 36.

Q. And appraised all the items down to and including what page?

A. I don't want to say that this is a true copy of what I had, but I think it is.

Q. Do you remember the figures of your appraisement?

A. No, sir.

Q. Do you remember the total at which you appraised the plant of the Municipal?

A. I do not; if I can refresh my memory in some way.

Q. Let me suggest the figures; $2,041,000, or about that?

A. No, sir; that is doubtless inclusive of something I did not appraise.

Q. Wherever we find your certificate, then those are your figures?

A. Yes, sir.

Recess until three o'clock.

MONDAY, *November* 23, 1885, 3 p. m.

Examination of Mr. ROWLAND resumed:

Q. What was the subject-matter of difference between yourself and Mr. Zollikoffer, touching the valuation of his company's property?

A. My recollection is there were some few items which he thought I had undervalued.

Q. Of what character?

A. I don't remember what the items were; I objected to altering the valuations which I had given him unless I was authorized to revise all the valuations; and the explanation which I gave him by letter, he wrote me was satisfactory.

Q. Why was it necessary to revise them all in case you revised his figures in that respect?

A. I had delivered them all and I did not think it was right in the sight of the other parties to make a different valuation without having the opportunity to look over the valuations of the other companies.

8842 Q. Have you arrived at the valuations in all cases on the same basis?

A. Yes, sir.

Q. And that basis was on the basis you have already stated?

A. Yes, sir.

Q. In respect to the depreciation of the gas plant, what, in your opinion, is the fair average life of a gas retort?

A. Two years.

Q. And the fair average life of the other apparatus constituting the gas plant?

A. I have no opinion about that, sir; as in my experience of about eighteen years I don't remember any plant having been worn out; in many cases we have taken out but replaced it by a larger one, and in some cases it has proved more effectual.

Q. Taken what out?

A. Gas-holders, condensers and purifiers.

Q. When you take out a gas-holder and put in another one, what do you do?

A. Take it down and rework the iron and sell it to some other company as a new one.

Q. When you take it down has it any value for some other building?

A. No, sir; only to work over; and it requires the expenditure of cleaning the sheets, putting them up, and re-riveting them.

Q. In your opinion is there any depreciation in the value of mains and pipes after they have lain for years?

A. There must be a depreciation as all things wear out; but I cannot conceive how long it would take to wear out a set of mains; I have seen mains replaced by new ones, which have been in the ground for thirty years, and just as good as those replaced.

Q. Is not there a constant wear, especially at the joints?

A. No, sir.

Q. Is not that your experience in this city?

A. No, sir; I think this is the best pipe city in America.

8843 Q. How would you arrive at the value of mains and pipes that have been laid for some years?

A. By estimating the cost of reproducing.

Q. At the time of the estimation?

A. Yes, sir.

Q. That means the gas-mains themselves, and the cost of laying them and opening the streets for that purpose?

A. Yes, sir.

Q. The material of which the mains are made is what?

A. Cast iron entirely in New York.

Q. In that respect the mains would cost more than they would thirty years ago?

A. The cost of mains varies every year; iron is not as low as it was thirty years ago.

Q. The iron of the Manhattan system would cost more than it would fifteen or twenty years earlier to lay it?

A. Yes, sir, the cost of laying the mains now I think would be much larger than it was fifteen years ago.

Q. In what respect?

A. Because labor is very much higher.

Q. For laborers in the street?

A. Yes, sir.

Q. Skilled labor higher?

A. Yes, sir, higher than it was fifteen years ago.

Q. Yes?

A. Fifteen years ago I paid $2 a day for a first-class machinist, and he was thoroughly educated in his business.

Q. The labor required in laying mains, I am speaking about?

A. It requires a man who is rather more skilled than an ordinary laborer, and I think that that character of labor is from thirty to fifty per cent. higher than it was fifteen years ago.

Q. Look at that a moment; what would a laborer employed in excavations in mains receive in 1884, and prior to that time?

A. The difference between $1 and $1.50.

Q. An apprentice—such partially skilled labor as is employed?

A. In about the same ratio.

8844 (By Senator ROBINSON:)

Q. Have you any pay-rolls you had fifteen years ago?

A. Yes, sir.

(By Senator MURPHY:)

Q. You made the remark a moment ago that you employed thoroughly skilled machinists at $2 a day; such a man is capable of building a steam engine, and running it after it is built; do you mean to say that such a man you employed at $2 a day fifteen years ago?

A. No, sir; he may be a thoroughly skilled machinist, but not competent to run an engine.

(By the same:)

Q. A flange turner you might classify as a machinist?

A. No, sir, we do not class him as such; he is simply a flange turner, and nothing else.

Q. Have you ever been informed what the difference is between your appraised value of the plant of the Manhattan values and its actual cost?

A. I have never had the slightest intimation given me.

Q. That circumstance would have no weight in forming your opinion?

A. It ought to have no weight.

Q. If you are now informed what that cost was would it change the opinion you have already given?

A. I think not, sir.

Q. As a matter of opinion simply, and in order that the committee may weigh the opinion you have already expressed, I will ask your opinion on a hypothetical case—Whether it would be a fair method of estimate to take the cost of the plant that you have appraised and deduct twenty per cent. from it for wear and tear and depreciation during the time it has been in use since it was purchased?

A. I think it would not be fair, sir.

Q. Would it, in your opinion, be a fair method of estimate to take the cost of such a plant as you saw in the Manhattan and add 8845 twenty per cent. to that cost and thus arrive at its present value—would that be fair?

A. I don't know whether it would be fair or not, as I know nothing of the basis; I know nothing under what conditions this property was purchased; I think a fair valuation is, that sum of money which it would cost to produce it now, and that sum of money at which it can be sold in the market.

Q. Then are we right in assuming it to be your opinion now that the value of the plant that you appraised of the Manhattan would have brought in the market, if sold, $3,646,403?

A. If that is the sum I appraised it at I think it could be sold for that sum of money; I think that I could furnish a purchaser on condition that the balance of the property can be purchased at as fair a valuation.

Q. You mean by that the real estate?

A. Yes, sir; and their system of mains.

Q. Their mains, services, real estate—and that is all you mean?

A. No, sir; I mean their privileges—their right to open the streets, if they have any, and their right to do business.

Q. You regard those as an element in the valuation?

A. Yes, sir.

Q. Suppose you included that and their right, or assumed right, to furnish the New York community with gas—would the exclusion of those elements make any difference, in your opinion, and your figures?

A. I cannot conceive that the property is worth any thing except what it is worth for old material, under this condition unless applicable for the purpose for which it was built.

Q. So that you include in all the estimates you have made, and in the figures in evidence over your signature, the conditions of doing business in the city of New York—the right to open the streets 8846 for that purpose and supplying the community with gas, as an element for the valuation of that property?

A. No, sir; that is my valuation of that property for the production of gas in the manner which it was used at the time I made the appraisal.

Q. And for each respective company?

A. Yes, sir.

Q. That includes its right to lay pipes and operate them and all that?

A. That is of no use except to have the right to open the streets.

(By Senator Robinson:)

Q. You didn't take into account what it would cost to lay a main of the same kind through the streets only?

A. No, sir; I estimated what the apparatus was worth to that company who were using them at the time.

(By the same:)

Q. And that would depend upon how much money the company is making out of the business?

A. I don't know that.

Q. I find here many items upon which I would like to ask you whether they could not be duplicated for less money; for instance, for the retort house, etc., $6,124?

A. Yes, sir; the Manhattan Gas-Light Company—I believe that

that was a fair valuation of that property at that time; what may be there now I am not familiar with.

Q. Could not that item be duplicated for less than that sum?

A. I think not.

Q. Here is an item—purifying apparatus, elevator, eight purifiers, etc., $59,084?

A. That is for two sets.

Q. Have they no valuation except for the purpose of supplying gas?

A. No, sir; only their weight in old iron.

Q. Your valuation included that?

A. Yes, sir; for purifying gas.

Q. Gas-holder tanks, etc., $198,000?

A. A number of tanks.

8847 Q. 1, 2, 3, 4, 5, and 6, $198,000—you can answer the same as to that?

A. Yes, sir.

Q. Then these gas-holders, purifiers, $198,000, you answer the value is for old iron?

A. I say they have no value except for the purpose of purifying gas; I do not say that in that place they could be sold.

(By Senator Robinson:)

Q. So you say it would cost that to duplicate them?

A. Yes, sir; I say that is a fair valuation.

Q. It would cost that to put others in their place?

A. Yes, sir; as good as they are.

Q. I find an item here of $28,444, coal yard No. 2; what does that refer to?

A. An apparatus for taking the coal from the vessel and carrying it along to the yard, and carrying it across the yard, and piling it in the yard; it is quite a complicated piece of machinery; it requires an engine and boiler; it is useful for no other purpose only the storage of coal.

Q. I find a similar item as to coal yard No. 3; I suppose you answer the same as to that?

A. Yes, sir.

Q. I find here item for gas-holders and tanks?

A. Two gas-holders and frames, $52,000.

Q. Those then in use?

A. Yes, sir.

Q. Any gas-holders over there not in use at that time?

A. Not any; they may not have been in use; there was no gas-holder which was not useful for the storage of gas.

Q. Flagging, bridge stone, etc., and iron covered building, how did you arrive at their val-es?

A. Measured them.

Q. On the whole you valued it as a running concern?

A. Yes, sir.

Q. And its capacity to produce gas supply?

A. To produce gas; we did not come to the supply.

8848 Q. With what other works in the city of New York have you had any transaction?

A. No other; oh, the Harlem gas works.

Q. What did you do to the Harlem, and when did you begin?

A. I began there in 1869 or 1870—the winter.

Q. Was that the Harlem Company then?

A. Yes, sir; I built them a gas-holder, and also built them a gas-condenser; in January, 1884, I enlarged their works with another gas-holder, tank and purifying-house, with two sets of purifiers and some new condensers, scrubbers and steam engine, boiler and exhauster; it was in the spring or summer; I think the contract was taken in January.

Q. What was the producing capacity of those works before you commenced there in 1884?

A. I have no idea.

Q. What was the producing capacity when you completed them?

A. I couldn't tell you; John Belmore had charge of these works at that time.

Q. Did you see any of the engineers' reports?

A. No, sir.

Q. The work that you had to do?

A. I saw the report and this engineer recommending this improvement.

Q. Who showed you that?

A. I think Mr. Morse showed it to me.

Q. Did you have any connection with Rutter?

A. No, sir.

Q. What was the total amount of money that covered the improvement of these works in 1884?

A. I couldn't tell you; I was not in the country when that work was done; I can give it to you from my office.

Q. Do you remember when you ceased to work there in 1884?

A. About the 1st of November.

8849 Q. Was that contract in writing?

A. I think so, but I couldn't say; it no doubt was.

Q. And with the Harlem Company?

A.. Yes, sir.

Q. What were the Harlem works doing at that time, in 1884, when this work was done?

A. They were manufacturing gas and selling it, I think, in the districts all above Seventy-ninth street.

Q. East and west?

A. Yes, sir; they were in competition with the Knickerbocker gas works, who supplied gas in about the same district.

Q. Had both companies their mains laid?

A. Yes, sir; but the Knickerbocker Company had not so many laid as the Harlem.

Q. Is it not true that they were both supplying on the same streets in 1884?

A. Yes, sir, but in different pipes though.

Q. That was the time when the price was uniform by reason of the pool, which the committee will find in the proceedings, from 1880 until the consolidation; there was a competition price to 1880 which resulted in a pool, and while the companies were competing, yet the price was the same in all the streets?

(By the CHAIRMAN:)

Q. The competition consisted in getting each other's customers?

A. Not only that, but the quarterly statements were made upon a basis established by a stipulated agreement.

Q. So that when you entered upon this work in '84 they were supplying some of them with gas in the main streets?

A. Yes, sir.

Q. Describe the work; what was the territorial area, and what did the Harlem works consist of?

A. I couldn't say; I never was in the works half a dozen times in my life; I have no knowledge of their area; they were located on First avenue and One Hundred and Twelfth street.

8850 Q. Have you been there since the summer of 1884?

A. No, sir.

Q. You don't know whether they have been shut down or not?

A. No, sir.

Q. Did you make any estimate of the Harlem?

A. No, sir; I never was invited to.

Q. Have you any knowledge which is sufficient to enable you to form an opinion as to what was the value of the gas plant of the Harlem in 1884?

A. No, sir, not the slightest.

Q. Did you make any appraisement of the Mutual Company?

A. No, sir.

Q. Have you ever been in their works?

A. No, sir, not in their buildings.

Q. Did you have any transaction in relation to their construction of the Mutual works?

A. No, sir.

Q. And also the Equitable?

A. No, sir.

Q. Did you construct the Nassau works in Brooklyn?

A. Yes, sir, in 1872.

Q. Have you been to work on them since then?

A. No, sir.

Q. Would it be convenient to produce the figures you have referred to to-morrow?

A. Yes, sir.

Mr. TREMAIN: We will dispense with the further examination of Mr. Rowland until that time then.

JAMES W. SMITH, being recalled by the counsel to the committee, testifies as follows:

Examined by Mr. TREMAIN:

Q. Have you brought with you all the balance sheets that you alluded to this morning which have been made by the book-keepers of the Consolidated Company between November, 1884, and the present time?

A. Yes, sir.

8851 Q. Have you ascertained definitely whether there are any other papers having reference to the financial condition of the company during that time?

A. I think you will find in connection with these balance sheets every thing you will want.

Q. I want to know whether there are any other papers in existence on that subject?

A. There are no other papers to my knowledge.

Q. Is there a finance committee?

A. Yes, sir.

Q. Who comprise it?

A. Percy R. Pyne, Henry Day, John T. Huggins, H. E. Gawtry and the president *ex-officio*.

Q. When was that committee created?

A. At the organization of the company, or shortly after.

Q. The committee has not been changed since the fall of 1884?

A. No, sir.

Q. Has it made reports in writing?

A. Not to my knowledge, except the minutes of such meetings as they have held, which are reported to the board of directors—the monthly board meetings.

Q. Is there a book containing their report?

A. Yes, sir.

Q. Are there any other reports of that finance committee except the record as shown in their minutes?

A. No, sir; the secretary of that committee is the secretary of the company.

Q. Can you send for that book so I could get it this afternoon?

A. I don't think I could; I have no messenger here; if you will send one of your messengers down with me I will try to get it.

Mr. Tremain: We will send a messenger for you while you are on the stand.

The Witness: If you will wait until morning I will send it.

The Chairman: We will send down for it.

(By Mr. Tremain:)

Q. It is the book of the finance committee; is there any 8852 other committee that reports or has reported to the board of directors since last November?

A. I think several matters in relation to the business of the company have been reported.

Q. Designate the members of this committee who have acted?

A. I could not; it is all on the minutes of the board.

Q. Whether there has been a substitution?

A. I think not.

Q. Is there among those papers a paper showing the financial condition of the company during 1884?

A. Eighteen hundred and eighty-five; I think what you want, sir, is here.

Q. I want your testimony whether there is, or is not?

A. I will answer that in the affirmative, sir.

Q. Those papers may as well be handed to the expert. The stock is registered in the Farmers' Loan and Trust Company?

A. Yes, sir.

Q. Is all the stock that has been issued to stockholders of the Consolidated Company a matter of record in the Farmers' Loan and Trust Company?

A. I presume so.

Q. Don't you know?

A. I don't know that I do.

Q. Don't you know whethere it is, or it is not?

A. I don't know but there have been some omissions in their books; it has been sent down to be recorded.

Q. Is it not a fact that some stock has been issued by the Consolidated Company which is held by the owners or held as collaterals, which is not registered in the Farmers' Loan and Trust Company?

A. No, sir.

Q. There is also a record of the same ownership in the office at Irving Place and Fifteenth street?

A. Yes, sir.

8853 Q. Have you still in your custody, or in the custody of the company, the original list of stockholders transmitted to Consolidated Company from the constituent companies at the time of the consolidation?

A. I think we have the original lists.

Q. In what books will they be found to have been entered?

A. Our stock ledger.

Q. In any other books?

A. The stockholders of the constituent companies—there is a book showing the stock in the old companies, and the amount to which they are entitled in the new.

Q. And also the subsequent transfers in the new?

A. Our transfer books will show the result of the transfers.

Q. Will you place those books at the disposal of the expert this afternoon?

A. No, sir.

Q. Will you produce them here to-morrow morning?

A. No, sir; I think the company should be represented by counsel in the matter, and not have demands made upon us for purposes entirely outside of this investigation; I don't see what difference it makes whether John Jones holds one thousand shares or one share; and I would respectfully ask that this company be allowed the privilege to consult with counsel in the matter before any action is taken upon it.

Mr. TREMAIN: The question and answer are suspended and a new question asked. State what committee, if any, of the board have had the direction of the sale of any stock reserved for the working capital of the Consolidated Company since November, 1884?

A. There is no committee.

Q. State what officer?

A. There is no officer.

Q. State what disposition, if any, has been made of any of the stock not issued to the stockholders, recited in those schedules submitted by the constituent companies which you have designated? 8854

A. The stock is in the custody of the treasurer of the company; all of that stock which you have referred to; it has not been sold nor hypothecated in any way whatever.

Q. Do you mean to state that no stock whatever has been issued by the Consolidated Company since the consolidation except to the parties named in these schedules submitted by the constituent companies?

A. No, sir, I do not mean to say that.

Q. Then to whom as well has any stock been issued by the Consolidated Company?

A. To the treasurer of the company.

Q. Who is he?

A. Myself.

Q. State the total amount that has been issued to James W. Smith, treasurer?

A. $3,647,940.

Q. What book or books, or papers show the disposition that has been made of that stock by James W. Smith, treasurer?

A. There is no book, paper or any thing else showing that.

Q. You mean to say there has been nothing whatever?

A. No, sir.

Q. Is that in one certificate?

A. No, sir, several certificates.

Q. Have you got those certificates?

A. I have them in my custody.

Q. Will you produce them?

A. No, sir.

Q. Will you please state how many certificates there are carrying that $3,647,940?

A. There are two blocks issued; one for the amount reserved for the working capital and one to pay the indebtedness of the old companies as it matured; I think there may be twelve or fifteen certificates altogether, in 3,000 and 5,000 shares and so on.

Q. Have you not an account or a book in which you keep an account, or in which you have proposed to keep an account of that stock and its disposition? 8855

A. No, sir.

Q. Has any of the indebtedness assumed by the Consolidated Company been paid?

A. Yes, sir.

Q. Have some of the bonds been paid?

A. Yes, sir.

Q. Which company's bonds have been paid?

A. The Harlem Company's bonds, and the notes of the Knickerbocker Company which were secured by mortgage.

Q. What other companies?

A. That is all.

Q. No other indebtedness has been paid off by bonds or notes?

A. Nothing of that yet; nothing for which this stock is reserved.

Q. Have any other company's bonds been paid, or notes, are you sure about that?

A. I think not, sir.

Q. What is the total amount of the Knickerbocker indebtedness that was so paid?

A. Four hundred and fifty thousand dollars.

Q. To whom was that paid?

A. To the holders of the notes.

Q. What books will show that in the Consolidated Company, to whom they were paid?

A. I think our check book will show; it was paid in two sums.

Q. Name them.

A. One on the American Exchange Bank of $330,000; a Mr. Brown, a connection of Mr. Cutting's, to whom they were originally issued, $120,000; I think there are only two checks.

Q. What other payments besides those were made?

A. The Harlem; that was paid to the registered holders of the bonds.

Q. In different sums?

A. Yes, sir.

Q. Don't you know the principal men to whom the payments were made?

8856 A. I think there were from twenty to twenty-five holders of those bonds? The book of the registered bonds would show that.

Q. Against that fund $3,647,940, to meet what payments?

A. The notes of the Knickerbocker Gas-light Company, and the bonds of the Harlem Company.

Q. It was to meet those payments and other payments like that that this item of three millions and odds was issued to James W. Smith, treasurer?

A. Yes, sir; a portion of it.

Q. All of those payments were covered by that stock?

A. No, sir; the payments were not covered by it.

Q. Well, some of them were?

A. No, sir; the payment was made by drawing a check on the bank where he had the money.

Q. Was that stock which was issued to you reserved in part or for all those payments?

A. It was reserved to meet them.

Q. Do you mean you held stock to meet payments, and that payments were made as contemplated, and that you kept no account of those payments as against that stock; is that what you mean the committee to understand?

A. I don't want them to understand any thing.

(By the CHAIRMAN:)

Q. Is the way General Tremain puts it the truth of the matter?

Q. If you don't understand the question I will repeat it; is it true that you have got no account of those payments of the bonds of the Harlem, and the notes of the Knickerbocker, in connection with an account of this block of three millions of stock which was issued to you as treasurer?

A. It is.

Q. You testify that there is no book or paper that will show the number of payments that have been made on account of that issue of that three million block of stock?

8857 A. These papers that I have here I think show it—the balance sheets; there is no book—there is no occasion for a book.

(By Senator ROBINSON:)

Q. Is there any book or paper that will show it?

A. I believe I answered the question that the check-book will show it.

Q. Is there any other paper that will show it?

A. No, sir, not that I know of.

Q. Are there any books of the Knickerbocker Company that will show that indebtedness?

A. I think not; nor the Harlem either.

Q. Is it true the check-book will not show to what particular account these payments are to be charged?

A. I testified that the check-book will show that.

Q. Will the check-book show that they are charged against this block of stock?

A. No, sir.

Q. Is there any thing in the Consolidated office, of books or papers, that will show?

A. No, sir.

Q. Is there any thing that will show that, any paper of this block of stock in the Consolidated Company?

A. No, sir.

Q. Has this indebtedness been paid out of the general earnings of the company?

A. Partially so; the general receipts of the company.

Q. Was the dividend of June paid out of the general earnings of the company at that time?

A. Yes. sir.

Q. Where will that account be found?

A. In the balance sheets.

Q. Will you now produce before this committee those original schedules of the shareholders, that were submitted by the constituent companies and were made the basis of the issue of the consolidated stock, and also the stock ledger showing what stock was issued, and the stock transfer books, showing what stock was transferred?

8858 A. I would respectfully ask the committee the privilege to consult with counsel, and I make a very respectful request to that effect.

(By Senator MURPHY:)

Q. How long a time would you require to consult with counsel?

A. I think I could see him to-morrow morning.

Mr. **Tremain**: My suggestion is, that the answer of Mr. Smith now puts the committee in the position of having issued a subpœna *duces tecum*, and not having it responded to. He asks now that the books be not brought here until he has consulted with counsel.

The **Witness**: Allow me to say that these books should not be brought here; they are very large and bulky, and I think the committee will deem that it will be better to have them examined at the office; if the counsel will show to the satisfaction of the committee that those books enter into the scope of this inquiry in any way whatever, I think there will be no difficulty about it.

The **Chairman**: The Court of Appeals has decided that the witness is not entitled to be represented by counsel; that is the settled law now of this State.

The **Witness**: At the same time I do not suppose this committee is going to ask for books which are not of any possible use or benefit to them for the purpose of this investigation; the same question came up last year, and Mr. Thomas decided it made no difference as to whom the stock was issued to.

The **Chairman**: The subpœna did not cover these books?

Mr. **Tremain**: No, sir.

The **Chairman**: Therefore he is not in contempt; you ask to have them produced, do you?

Mr. **Tremain**: Yes, sir; at the same time it would be satis-
8859 factory if the expert was permitted to examine them at the
company's office instead of bringing them to this room; with a view to avoid the necessity of finally bringing the books into this room, will you assent to their examination by the expert under the direction of the committee at the company's office, for the convenience of the company?

The **Witness**: And also the committee.

Mr. **Tremain**: And the committee; what do you say to that?

The **Witness**: If counsel will advise it I shall be very glad to have you do it at the office; I am not a lawyer, and I think I ought to have, at least, an opportunity to consult counsel.

Mr. **Tremain**: I think his request is not unreasonable.

The **Chairman**: It is understood that the witness will produce the books; there is no dispute as to what these books are which are called for?

The **Witness**: No, sir; if it is decided by counsel that we shall produce them, we will make no opposition.

Q. What are the dates of those payments of the Knickerbocker and Harlem indebtedness to which you have just alluded?

A. They show approximately on the balance sheets; the Knickerbocker notes I think are in March, or about that time, and the Harlem indebtedness matured on November 1st; and it is paid; with the exception of $3,000 of the Harlem, they were all paid within fifteen days of the first day of the present month.

Q. When was the Knickerbocker paid?

A. March or April; I think it was in March, or a good portion of it.

Q. Have you the rough memoranda minutes that were made by the secretary of the board?

A. No, sir.

8860 Mr. TREMAIN: I suggest that the examination of Mr. Smith be suspended now until he shall respond to this subpœna *duces tecum,* and that he be deemed a witness on the stand and not yet dismissed, because we shall wish to ask him some questions after the expert shall have made some further investigation.

The CHAIRMAN: We will merely suspend his examination until to-morrow morning.

Q. The Metropolitan schedule does not seem to be the original upon which Mr. Rowland made his certificate; do you know where the original is?

A. No, sir.

Q. Is that the original book which the Metropolitan Company submitted?

A. Yes, sir.

Q. Where is there any authentication that it is the Metropolitan book?

A. There is no authentication.

Q. Where is Mr. Rowland's certificate?

A. I don't think I ever saw it; I don't think it was ever submitted to the company; I have never seen it.

Q. That is the identical book upon which the basis was had?

A. Yes, sir.

H. E. GAWTRY, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are secretary of the Consolidated Company?

A. Yes, sir.

Q. You was in the Municipal Company before that?

A. Yes, sir; I was vice-president.

Q. And for how long?

A. I don't remember whether it was two or three years.

Q. You are actively engaged as one of its officers?

A. Yes, sir.

Q. You are in the office all the time?

A. Pretty much; yes, sir.

8861 Q. You have acted as secretary of the executive committee, for all the committees of the Consolidated?

A. Most of them I think.

Q. For what committee have you not?

A. I don't know as there is any committee I have not acted as secretary for.

Q. Did you keep a memorandum of the minutes of the board before you wrote them in the book?

A. They were all taken in memoranda at the time and as soon as they were copied in the book they were destroyed.

Q. They were destroyed from week to week?

A. Yes, sir; as fast as they were copied in and the papers have been destroyed from month to month.

Q. Were they destroyed before the minutes of the board meeting were read over?

A. No, sir; they were not entered until they were read over and approved.

Q. Did you keep any memorandum book of what was done at the board meetings?

A. Nothing beyond that.

Q. What other books are there containing the records of any committees or any officers, or any records of any character whatever of the operations of the Consolidated Company?

A. There are none but these three books, the minutes of the board of trustees, the executive committee, and the finance committee.

Q. The contract with the Farmers' Loan and Trust Company in respect to registering its stock; is there such a contract?

A. I never heard of it.

Q. When did you first have the stock registered at the Farmers' Loan and Trust Company?

A. I don't remember the date.

Q. Was it before the stock was listed?

A. I don't know.

The committee adjourned to Tuesday, November 24, 1885.

8862 NEW YORK CITY, FIFTH AVENUE HOTEL,
November 24, 1885.

Second Day.

The committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the committee.

THOMAS F. ROWLAND, being recalled, testifies as follows:

Examined by Mr. TREMAIN:

Q. You have brought with you the contracts referred to in the testimony of yesterday?

A. Yes, sir.

Q. Referring to those contracts, please state the figures representing the total amounts paid you for the works specified yesterday, which you constructed, beginning with the work which you did in 1871?

A. I have no contract; I have what appears to be a copy of a contract made at that time; the original, I presume, is with the other parties; this contract was made with Henry J. Davison.

(By the CHAIRMAN:)

Q. With Davison as the representative of some company?

A. Davison personally.

Q. Under a contract in November, 1871, with Henry J. Davison you constructed certain works in the Union Gas-light Company's works at what place?

A. I agreed to construct at Ninety-eighth street, between First and Second avenues.

Q. As the result of that contract you entered upon the work?

A. Yes, sir.

8863 Q. And received in total for that work how much?

A. That I have not got here.

Q. This contract is for $1,250,000—was it completed on your part?

A. No, sir; about half completed.

Q. And about half the contract price received?

A. Yes, sir.

Q. Take the next one, if you please?

A. In the order of the dates?

Q. Yes; that is the most convenient; this represents the work done on the Knickerbocker Company, then under the name of the Union Gas-light Company; witness produces a contract made between himself and the Municipal Oxygen Gas-light Company of New York, dated June 13, 1876; this is a contract under which work was done.

A. Yes, sir, between Forty-fifth and Forty-sixth streets, and being the works now used by the Municipal Company.

Q. Under this contract there was paid you how much?

A. One hundred and sixty thousand dollars.

Q. The sum specified in the contract was paid you?

A. Yes, sir; whatever it was specified in the contract they paid me.

Q. Now take the next one; the stenographer will note that this contract provides that Mr. Rowland shall furnish ready for service upon the property of the Municipal Oxygen Gas-light Company, located on the North river, between Forty-fifth and Forty-sixth streets, buildings, tanks, gas-holders and gas-making plant, of such form and dimensions as to be capable of the daily production of half a million cubic feet of gas manufactured by the Tessi-du-Motay process, according to an accompanying schedule, and for the
8864 payment in consideration of $165,000, which the witness says was paid; now the next one, referring to the previous paper, the contract first produced, and dated November 29, 1871, how much, if any, of the payment of about $750,000 was in stock of this Union Gas-light Company?

A. All they paid under that contract was paid in stock.

Q. When you speak of $750,000 you mean stock at its par value?

A. Yes, sir.

Q. Take the next one; the witness next produces a contract dated April 26, 1877, between himself and Charles G. Francklyn, acting for the Municipal Gas-light Company; whereby the witness agrees to construct upon the property of that company, located on the North river, between Forty-fourth and Forty-fifth streets, four gas-holder tanks and a gas-holder of 375,000 cubic feet working capacity.

A. Four tanks and one gas-holder.

Q. According to details described in the contract?

A. Yes, sir.

Q. And for which payments were to be made in all amounting to $155,000?

A. I think that was the sum stated in that paper I received.

Q. And also the sum of $37,000 for an additional gas-holder?

A. Yes, sir.

Q. Did you also build the additional, calling for the payment of $110,000?

A. In case of building three additional gas-holder tanks, I did not at that time do it; but I did it subsequently.

(By the CHAIRMAN:)

Q. Under this contract?

A. Under another contract; under this contract I received only $155,000 and the $37,000.

Q. Making $192,000 under those contracts?

A. Yes, sir.

Q. The next one in chronological order is what?

A. Dated May 28, 1877.

Q. The witness produces a contract dated May 28, 1877,
8865 between himself and Charles G. Francklyn, acting for the
Municipal Gas-light Company, under which he did work on
the same properties.

A. On the same properties as last mentioned, where the four tanks were put in.

Q. You did not increase its capacity by this?

A. That is building simply the gas works; the other is building simply the storage tanks.

Q. This contract calls for the building of gas works, under which payments were provided for to an extent in all of how much?

A. Three hundred and eighty-two thousand dollars.

Q. Is that the total?

A. I think that is the total that was paid—$382,000.

Q. These payments were made in money and not in stock?

A. There was $40,000 paid in bonds of the Municipal Company, and all other payments were made in money; I think the bonds applied to both contracts.

Q. All the rest was in cash?

A. Yes, sir.

Q. Go on and produce the rest of the papers relating to the Municipal Company. The witness next produces——

A. That contract provides for two of those gas-holders.

Q. Dated April 19, 1878, covering one of the gas-holders already shown?

A. That provides for two; it states for two gas-holders.

Q. And for a payment of $216,000 in all?

A. Yes, sir; I did all that work and received that payment.

Q. Was that payment in stock, bonds or money?

A. I received $40,000 in bonds, and all other payments which I have ever received have been in cash.

Q. The next one was an agreement, dated February 20, 1880, be-

POOR

tween himself and the Municipal Gas-light Company of
8866 New York, providing for the construction of a gas-holder of
two million cubic feet capacity, and for the payment under it
of $186,500; you did that work and received that money?

A. Yes, sir.

Q. The witness produces a contract, dated April 24, 1880, between himself and the Municipal Gas-light Company, providing for the construction of a gas-holder similar to the holder now in Forty-fourth street, and for the payment of $39,000?

A. Yes, sir, I did that work and received that money; those are all the written contracts I had with the Municipal Company.

Q. Did you do other work for the Municipal Company which was alluded to yesterday which was not covered by the contract?

A. Yes, sir.

Q. Can you state the amount paid you for that other work?

A. No, sir; not definitely.

Q. Well, approximately?

A. Twenty thousand dollars; I built a boiler-house for a set of boilers and did other work.

Q. What else?

A. Three-thousand five hundred dollars for a water tank.

Q. What else?

A. Repairs from year to year which, I think will average about $1,000 a month, or $12,000 a year, since 1877, up to November, 1884.

Q. Have you covered by your testimony all the work substantially which you did on the Municipal works?

A. All I think of now.

Q. Do you know of any work being done?

A. Yes, sir; $18,000 more; I put in a railway track and elevators for lifting coal.

Q. Does that cover all the work which you did and all the payments you received?

A. I think so; I don't remember others at present at that works.

Q. From your knowledge of these works, please state
8867 whether any other substantial works of construction or of re-
pairs has been done on the Municipal works by anybody else
except by you between 1877 and 1884?

A. Yes, sir; there has been substantial work done.

Q. Tell that which has been done which you did not do?

A. About $10,000 was paid to Smith & Sayres Manufacturing Company for putting in new blowers; I took out two condensers because they were too small and I put in two new ones for about $24,000, and those old condensers I took in part payment.

(By the CHAIRMAN:)

Q. For how much.

A. I believe I allowed $1,000 for the two condensers; they cost about $10,000 when they were built.

Q. Do you mean $1,000 each?

A. Yes, sir; the water got plugged in them and they were not large enough.

Q. Do you know of any other?

A. The retorts have been renewed, I believe, entirely, once.

Q. At about what cost?

A. About $400 a bench; and there are thirty of those benches, I think, a cost of at least $400 each, amounting to about $12,000.

By the CHAIRMAN:

Q. The old retorts, what did you do with those?

A. Threw them in the yard; they were not of any value.

Q. How long had those retorts been in at that time?

A. I think they had been run about thirty months.

By Mr. TREMAIN:

Q. That makes about $14,000 or $15,000 for that work?

A. I should say so.

Q. Do you know of any other work?

A. No, sir; I only know of work continuously going on.

8868 Q. So far as the construction of the gas plant is concerned your familiarity with those works would enable you to say whether there has been any other substantial gas plant except what you have described in your testimony?

A. I would not say that there has not been; I don't remember of any other; I don't remember now of any other expenditure; they had a French condenser put in by Morrison & Tacker of Philadelphia; I think they were the parties; it cost them about $5,000; they paid $3,300 for the condensers; putting it in and making the connections cost about $5,000.

Q. What year was that?

A. I should think it was 1880.

Q. You have been, by reason of making repairs, pretty familiar with those works?

A. Not personally; I have not been in the habit of going there; my assistants go there.

Q. Do you remember any other substantial piece of construction at those works?

A. No, sir; I can't say that I do.

(By the CHAIRMAN:)

Q. In your judgment what you have stated covers substantially the whole?

A. Yes, sir; that is as near as I can recollect.

Q. That covers the Municipal?

A. Yes, sir.

Q. Now let us take the next one?

A. I have given you the foundation of the Knickerbocker; I believe, sir, that paper sets forth the first operation after that as far as I am concerned.

Q. The witness produces *at* the next contract after the first one produced, a contract dated April 1, 1880, between himself and the Knickerbocker Gas-light Company of New York; this contract provides for the construction of buildings, tanks, gas-producing apparatus, pumps, connections, miscellaneous construction as described

8869 in the contract, and for a brick tank for the reception of a gas-holder removed from Forty-fifth street, all to be constructed on the property located between East Ninety-seventh and Ninety-eighth streets on Second avenue, and for the payment in consideration $415,000 in all?

A. Yes, sir.

Q. Was that work done and the payments made for that amount?

A. Yes, sir.

Q. That is what you referred to yesterday?

A. Yes, sir.

Q. That is on the same property covered by that contract between the Union Gas-light Company and yourself?

A. Yes, sir; I wish to have the statement made yesterday corrected.

Q. The witness desires to correct his testimony of yesterday according to these figures as stated here in the contract?

The CHAIRMAN: You only got it $1,000 out of the way; I think you did pretty well.

Q. When was that work completed under this contract now produced?

A. I couldn't tell without getting the date; it was completed in December of 1880, I think.

Q. Has any other work been done there since?

A. Yes, sir.

Q. Was that money paid?

A. Yes, sir.

Q. In cash?

A. Yes, sir.

Q. Who made that payment?

A. It was made at the Municipal office.

Q. From time to time?

A. Yes, sir; I can't say who by; I was not in the habit of collecting the money.

Q. Current amounts under that contract I suppose were received?

A. Yes, sir.

Q. What other work was done at that place?

8870 (The witness produces a contract dated February 7, 1884, between himself and the Municipal Gas-light Company; this contract provides for the construction of two gas-holder tanks upon the same property.)

A. That is for re-construction; they were old tanks.

Q. Re-construction of two gas-holder tanks, what else?

A. And two gas-holders; that's all.

Q. And for payment in consideration thereof of the total sum of what amount?

A. One hundred and sixty thousand dollars and the displaced material.

Q. That $160,000 was paid to you?

A. Yes, sir; in money.

Q. By which company?

A. At the office of the Municipal Company; presumably by that company.

Q. The old material you refer to in part payment it was worth what?

A. About $10,000; it was two gas-holders of two-thirds the capacity of these new ones.

Q. The new ones cost how much?

A. The new ones and the tanks cost $160,000.

By the CHAIRMAN:

Q. The old ones were worth about $10,000?

A. Yes, sir; those tanks had been in about nine years; the reason why they were not worth any more was they were entirely eaten up; at the time they were built, and the original company failed, nobody gave them any care; the water was leaking out of the tanks, and the air circulated through the tanks, and when a gas-holder is subject to the action of dampness and air I have known them to be eaten badly inside of a year.

Q. Their value then was for old iron only?

A. Yes, sir.

Q. As a fact, such tanks do wear out?

A. I have never seen one wear out.

8871 Q. As a matter of fact such tanks do become unfit for use?

A. It would seem so, but that is not my experience.

Q. You have not any doubt but they become unfit for use?

A. They do by being left open; but not if properly treated.

Q. As a matter of fact they do become unfit for use?

A. No, sir; there is not one in one thousand that is thrown out unfit for use if properly treated.

Q. For one reason or another they are superseded?

A. Yes, sir.

Q. And when so thrown out have no value except for old iron?

A. Yes, sir; they have value.

Q. For what?

A. To be removed to other places for use.

Q. Still their value would be very greatly diminished?

A. Yes, sir.

By Mr. TREMAIN:

Q. If you were valuing such property as that on those works, for instance to-day, in order to estimate them, would you require them to be appraised as to whether you would value them for use at that place, or to be put up for some other gas works; that would be an element of your estimation of the value?

A. Yes, sir; I should estimate them for use at the place where I found them unless otherwise ordered.

Q. If for some other place it would be a different standard of value?

A. Yes, sir.

Q. So that when you value property you mean for use at that place?

A. Yes, sir.

Q. What other work have you done—take one of the other works?

A. This is the Harlem.

Q. Witness now produces a contract dated March 12, 1884, between himself and the Harlem Gas-Light Company, the only contract with the Company? 8872

A. That is the only one we seem to have; we did have another contract.

Q. Having refreshed your recollection, are you able to say you did yesterday describe substantially all the work you did?

A. Yes, sir.

Q. This contract provides for the construction upon the property at One Hundred and Eleventh street and First avenue, of a gas plant capable of producing 3,000,000 cubic feet of gas per day?

A. That is not true, sir.

Q. Then correct me; this contract provides for the construction at One Hundred and Eleventh street and First avenue of what?

A. Of gas-making machinery, which, in so far as it goes, is to be capable of handling 3,000,000 cubic feet per day of gas, said gas having been produced by other machinery; that contract was written when I was abroad.

Q. Does that cover all this contract?

A. Yes, sir.

Q. And for payment in consideration thereof of $188,795?

A. Yes, sir.

Q. All the work was done and the money received?

A. Yes, sir.

Q. And subsequently there was received——

A. Previously.

Q. For work done on that same property on another contract?

A. Yes, sir; amounting to about $36,000.

Q. When was that done?

A. Eighteen hunndred and seventy.

Q. Did you do any other work between 1870 and 1884 on those works?

A Yes, sir.

Q. The work which was done in 1870, has it not been described in some of these other contracts?

A. No, sir.

Q. With whom was that work contracted for?

A. With the Harlem Company.

8873 Q. Was any other work done by you on the Harlem property?

A. No, sir; except the gas-holder and the condenser which cost $8,000; that is all the work I have done there.

Q. That makes about $233,000?

A. Yes, sir.

Q. Now do you know of any other work of construction that has been made or performed for the Harlem property?

A. I know that other work has been done there.

Q. A gas-holder was built by Starr & Co., of Camden, N. J., in 1870, in the tank located alongside of one I put my gas-holder in; each one of us had a contract of about the same amount of money.

Q. Do you know of any other work?

A. No, sir.

Q. So far as your knowledge extends, your testimony has now described the work of construction at this property?

A. Yes, sir; so far as I know.

Q. Has that covered the buildings—your testimony?

A. It covers the buildings which I put up—two buildings I put up.

Q. Who made that contract?

A. I did.

Q. Are there any other buildings put up by anybody else?

A. Yes, sir.

Q. What are they?

A. Retorts, purifying-houses, and, I think, a condenser-house and a boiler-house, and coal sheds.

Q. Do you know when they were built?

A. No, sir.

Q. You found them there in 1884?

A. Yes, sir; this gas-holder, which I put up, was not on that property; it was on the next block; I did not have occasion to go into the Harlem works.

Q. Does that cover all?

A. I told you I received a letter from Mr. Streiker.

Q. Who brought the letter?

8874 A. The engineer; and that is the letter he handed me, taking an exception to my estimate of the value of the property.

(By the CHAIRMAN:)

Q. Within the last fifteen years have great improvements been made in the apparatus used in the methods employed in manufacturing gas?

A. That, sir, is a very mooted question; engineers do not agree upon that subject; my judgment is that there has been.

Q. In consequence of such improvements have prior kinds of apparatus been superseded by more recent, and supposed to be better apparatus, to a considerable extent?

A. No, sir; I don't know that they have been superseded; as cities have grown, and greater requirements have been made for gas, the works have ben enlarged, and in these enlargements some new and perhaps novel ways in the way of making gas have been employed; but the old ones have not been thrown out of use; that is my experience.

Q. Is it not a fact that there is among gas producing interests a strong prejudice in favor of the old methods?

A. As a class, yes, sir; there are some exceptions to that; I am simply a maker of gas machinery.

(By Senator MURPHY:)

Q. Which is the most healthful, gas made by water, naphtha or by coal?

A. Neither one is healthful.

(By the SAME:)

Q. Which is the most healthful of the two, or the least injurious?

A. I think, sir, that gas made from the decomposition of water is a more deadly poison than that made from coal; both being poisonous.

Q. Witness produces a letter and says that this is a letter he received at the hands of Mr. Streiker?

A. It was left at my office in my absence.

Q. You suppose he represented Mr. Zollikoffer?

8875 A. Yes, sir; I have written a letter since to Mr. Zollikoffer in response to this.

Q. Have you a copy of it?

A. Yes, sir.

Q. We will mark it Exhibit "G, November 24;" I will read the r-ply, and Mr. Rowland will please make a copy of that letter for the committee?

A. I will; here is an answer from Mr. Zollikoffer.

Q. Please make a copy of that also and send them to the Chairman to-morrow; I observe that your estimate stated in the letter of October 6, 1884, to Mr. Zollikoffer, names the figures $1,798,269?

A. Yes, sir.

Q. As the total of your appraisement?

A. Yes, sir, that was the total.

Q. Will you state what that covers in the Metropolitan Company?

A. I could not do that; I can give you the details of it.

Q. What does it cover—the meters?

A. No, sir.

Q. Nor mains, nor services, nor real estate lots?

A. No, sir.

Q. Does it cover the office building?

A. Yes, sir, the office at the works, I mean.

Q. Does it cover all the property between Forty-first and Forty-second streets between Tenth and Eleventh avenues?

A. Yes, sir.

Q. Does it cover all the property between the Eleventh avenue and Hudson river between Forty-first and Forty-second streets?

A. Yes, sir.

Q. Does it cover all the property between Sixty-fifth and Sixty-sixth streets, Tenth and Eleventh avenues?

A. Yes, sir; all the apparatus.

Q. Does it cover all the property between Sixtieth and Sixty-first streets Avenue A. East river?

A. Yes, sir.

Q. And all the property between Sixty-second and Sixty-third streets, in Avenue A?

A. No, sir.

Q. Does it cover any of it?

A. Block No. 4.

8876 Q. Is that your copy?

A. Yes, sir.

Q. Please turn to Avenue A, and First avenue, Sixty-second and Sixty-third streets?

A. Yes, sir.

Q. Total appraisement of that is how much?

— hundred and three dollars.

Q. It is not $164,525?

A. No, sir.

Q. Take another, Avenue A and First avenue, Sixtieth and Sixty-first streets?

A. We have no such property in our valuation.

Q. Tenth and Eleventh avenues, Forty-first and Forty-second streets?

A. One million one hundred and eighty-three thousand seven hundred and sixty-one dollars.

Q. Is it not $1,269,920?

A. No, sir.

Q. Tenth and Eleventh avenues, Forty-first and Forty-second streets, $8,250, is that right?

A. Twelve thousand two hundred and fifty dollars.

Q. It is not $8,250?

A. No, sir; that is somebody else's valuation.

Q. Now take Tenth and Eleventh avenues, Sixty-fifth and Sixty-sixth streets?

A. Four hundred and forty-three thousand four hundred and seventy-five dollars.

Q. Is it not $387,448?

A. No, sir.

Q. Those valuations did not include the lots?

A. No, sir.

Q. But did include the buildings?

A. Yes, sir.

Q. Show me the recapitulation of the Metropolitan in this book of yours; I see you have street mains there—did you value those?

A. No, sir.

Q. How did it happen you put them on your book?

A. I don't know whether my boy put them in there or not.

Q. Was this a copy made after the consolidation?

A. No, sir; it was made in September.

8877 Q. I observe that the copy of the street mains in this book at page 83, foots up the same as mentioned in Exhibit "C 2;" you can't explain that?

A. No, sir.

Q. Your recapitulation of the property you did value is as follows?

A. On the property of the Metropolitan that I valued, yes, sir.

Q. Your recapitulation of the property of the Metropolitan is as follows: "Block No. 1, $1,183,761; block No. 2, $12,230; block No. 3, $443,475; block No. 4, $158,803; total, $1,798,269." This is from page 83 of the book containing the copy of the valuation made by Mr. Rowland?

James W. Smith, being recalled, testifies as follows:

Examined by Mr. **Tremain**:

Q. The expert of the committee is ready now to enter upon the examination of the books called for yesterday—is it convenient for the company that they be examined at the company's office, or will they be produced here?

A. It would be much more convenient to have them examined at the company's office.

Q. The expert is ready to go to work immediately; then the books are deemed to be before the committee for that purpose now?

A. Yes, sir; for that purpose.

Q. Have any loans been made by the Consolidated Gas Company since November, 1884—any money been borrowed?

A. Yes, sir.

Q. How many such loans have there been.

A. I think three.

Q. When was the first?

A. I could not tell without reference to the books; I think I could tell if you would show me those papers.

Q. Who are they made of?

A. Borrowed of the City Bank.

8878 Q. Do you remember the amounts?

A. The first was, I think, $400,000.

Q. The second?

A. Two hundred thousand dollars.

Q. The third?

A. Three hundred thousand dollars.

Q. Notes of the company given in each instance?

A. Yes, sir.

Q. Are there any other notes of the company out?

A. No, sir.

Q. Are those demand notes?

A. They were; they are not out now; not all of them.

Q. They are call loans?

A. They were.

Q. Any of those notes outstanding now?

A. Yes, sir; the last loan of $300,000.

Q. Those loans were made without security?

A. The notes of the company made on the credit of the company without any other security.

Q. What committee acted authorizing those loans, if any?

A. The finance committee, or the majority of the members.

Q. The finance committee was composed of Messrs. Pyne, Day, Huggins and Gawtry?

A. Yes, sir.

Q. With the president *ex-officio*!

A. Yes, sir.

Q. And secretary?

A. The secretary is one of the number.

Q. Give us those dates, if you can, Mr. Smith; can you tell about what period those large loans were made; from your recollection about when were they made?

A. I think I can; I think the first one was in January or February, for the sum of $400,000.

Q. And the next one was $150,000, at about what time?

A. Two hundred thousand dollars.

Q. At about what time?

A. June or July.

Q. And the last one was for $300,000?

A. Yes, sir; in September.

8879 Q. When was the first loan paid off—about when?

A. My impression is it was paid in the same month in which it was borrowed—within thirty days of the time.

Q. Do the books show?

A. Yes, sir.

Q. And show what interest was paid?

A. Yes, sir.

Q. Was it two per cent.?

A. I think it was.

Q. When was the next loan paid off?

A. I think it was paid off in one or two sums, and within sixty days of its negotiation.

Q. When was the last loan paid off?

A. That has not been paid yet.

Q. Were the proceeds of one loan used in part to pay off the next?

A. No, sir.

Q. The dividend was declared in the meeting in May?

A. Yes, sir.

Q. Why was it necessary to authorize money to be borrowed at or about that same time, as the minutes imply?

A. I don't understand that there was any money borrowed at or about that time; it might have been; if it was, it was for the general uses of the company.

(By the CHAIRMAN:)

Q. Was not the second loan made at or about the same time that the first dividend was paid?

A. It might have been, sir; not at the period he spoke to me about; it might have been about the time the dividend was paid or being paid, but not at the time the counsel made it.

Q. I call your attention to the resolution of the board passed January 28, 1885, by which the finance committee was authorized to borrow money from time to time as might be required to pay the balance due to the constituent companies and their maturing obligations assumed by the consolidation—what, if any thing, was done pursuant to that resolution? 8880

A. The loans that I have just stated.

Q. That is all; were those all the transactions that were had pursuant to that resolution?

A. That is all I recollect, sir.

Q. Who conducted the business relating to those transactions, yourself?

A. Yes, sir.

Q. Did you make the negotiations?

A. Yes, sir.

Q. With whom?

A. The officers of the bank?

Q. With Mr. Pyne?

A. At three different times; once or twice with Mr. Pyne, and once or twice with Mr. Palmer.

Q. Was not the original arrangement made with Pyne?

A. I don't think so; I think he was absent from the city at the time of the negotiations of those loans.

(By the CHAIRMAN:)

Q. You mean to say that you think not all of the loans were negotiated with Pyne?

A. I know they were not, but I could not tell which; I don't recollect; there were three loans; two were made with one party, and one with another, and which the two were made with I don't recollect.

Q. Was not the first loan made with Pyne?

A. I don't recollect.

Q. The minutes of the finance committee at a meeting February 3rd, where you made a report, and immediately afterward the chairman of the committee is recorded as stating that Mr. Pyne would loan the amount required on call at two per cent. per annum—does that refresh your memory so as to say that the original loan was made with Mr. Pyne?

A. No, sir; the negotiation was made with the City Bank, with one of the officers.

Q. Mr. Pyne is an officer of that bank?

A. Yes, sir.

8881 (By the CHAIRMAN:)

Q. Is Mr. Palmer also an officer of that bank?

A. Yes, sir, he was the cashier, and I think he is yet.

Q. Both officers of what bank?

A. The National City Bank.

Q. I call your attention to a resolution directing the officers of the company to take the necessary steps to have the stock of the company listed at the Stock Exchange; did any of the constituent companies, to your knowledge, have their stock listed before that at the Stock Exchange?

A. Not that I know of.

Q. Don't you know none of them were ever listed before?

A. I think not.

Q. They were not listed on the Stock Exchange?

A. I think not; I think they required them to be registered before listing.

Q. At a meeting of February 25th a resolution is found approving the recommendation of the executive committee to close the works of the Harlem station at One Hundred and Eleventh street, and directing them to be closed—was that done?

A. To the extent of the recommendation, yes, sir, so far as the manufacture of gas was concerned.

Q. No gas was produced?

A. It was gradually closed so far as the manufacture of gas was concerned.

Q. Is there any gas in the holders there?

A. Yes, sir.

Q. That is made where?

A. At the Ninety-ninth street station—the old Knickerbocker works?

(By the CHAIRMAN:)

Q. So that now no gas is manufactured at the Harlem works?

A. Not at the One Hundred and Eleventh street station; we adopted the plan of naming them stations.

8882 Q. The One Hundred and Eleventh street station is what was formerly known as the Harlem works?

A. Yes, sir.

Q. As matter of fact, how many gas-holders are in use and contain gas there?

A. All of them, sir, I think.

PAGE 53—MINUTES BOARD OF DIRECTORS.

The following preamble and resolution were presented:

"WHEREAS, The articles of agreement between the consolidating companies, dated September 29, 1884, under which this company was organized, provided that 13,030 shares of the capital stock of this company should be retained to the use of this company, and be disposed of for the purchase of supplies as a working capital; and

"WHEREAS, Money is required to cover the cost of supplies, and for the general purposes of the company.

"*Resolved*, That the shares remaining unsold, of the number so retained to the use of the company, viz.: 12,899.40 shares, be issued to the treasurer, to be disposed of, or pledged for loans, under instructions of the finance committee, and that the money received therefor be applied to the purpose of the company under the direction of the same committee."

Also the following:

"WHEREAS, This company has retained, pursuant to such agreement of consolidation, 23,580 shares of stock, in lieu of, and as satisfaction of certain liens and indebtedness of the consolidating companies, unpaid by them,

"*Resolved*, That all such shares not hereinbefore issued, viz.: 23,580 shares be issued to the treasurer, to be by him disposed 8883 of or pledged, under the direction of the finance committee, to provide means to pay such outstanding indebtedness or obligations as have already been purchased, or may be from time to time purchased, or paid for or off by this company, as contemplated by such agreement.

"Carried unanimously."

Q. The property has not been sold, has it?

A. No, sir.

Q. Nor rented?

A. No, sir.

Q. On page 53 of the minute-book I find a resolution reciting that money is required to cover the cost of supplies, and for general purposes of the company, and directing that the shares not heretofore issued, 23,580, be issued to the treasurer, to be by him disposed of, or pledged, under the direction of the finance committee; prior to that time had any shares been issued to the treasurer? That resolution is dated April 22, 1885.

A. There had not.

Q. In a resolution adopted at the same date there is this pharse: "*Resolved*, that the shares remaining unsold of the number retained for the use of the company, 12,890, 40-100 be issued to the treasurer to be disposed of, or pledged." Were they ever issued?

A. Yes, sir.

Q. In one certificate?

A. No, sir.

Q. How many certificates?

A. From three to six, I think.

Q. Where are those certificates?

A. In the possession of the company.

Q. In your possession?

A. Yes, sir, as treasurer.

Q. Will you produce them?

A. I should be very glad under this demand, for the protection of those shares, as they represent some $3,600,000, if the committee would relieve me from bringing those shares here.

8884 Q. Will you produce them to the expert at the company's office—that is what I mean?

A. Yes, sir, with pleasure.

(By the CHAIRMAN:)

Q. It seems that on the 22d of April certain stocks had been retained by the company for its own use; is that correct?

A. Yes, sir.

Q. How many shares at that time had been so retained?

A. The resolution recites it correctly.

Mr. TREMAIN: I will have this resolution copied.

The CHAIRMAN: He says the minutes will show; we will take a copy of the minutes.

Q. By the terms of this resolution it appears that some of the stock had, previous to that date, been issued—do you wish to make any correction of your testimony?

A. No, sir; I will explain that; that was taken by the constituent companies, the small amount there, the discrepancy, if so, I presume to make a more even division of the percentage of the shares in the new from the old; I think this is about $13,000.

Q. Was that done under a committee adjustment, the settlements of these accounts by which these amounts are arrived at?

A. By representatives of each of the companies.

Q. Who were an adjusting committee who acted for that purpose?
A. Yes, sir.
Q. It commenced to act when—in the fall of 1884?
A. I think at once upon the consolidation.
Q. When did they cease to act—they are acting still?
A. No, sir; they have not taken any action in several months.
Q. Their work is not all completed?
A. Substantially I think it is.
Q. Who comprised that committee?

8885 A. Thomas K. Lees, representing the New York company; James W. Smith, representing the Manhattan Company; Oscar Zollikoffer, representing the Metropolitan Company, I think Charles G. Francklyn, representing the Municipal Company; H. E. Gawtry, representing the Knickerbocker Company; John H. Morse, representing the Harlem company.

Q. That committee met always in Irving Place?
A. Yes, sir; at the office of the company.
Q. The board meetings have been held at 52 Wall street?
A. Latterly.
Q. Always?
A. I think not; I think the meeting when we organized was not.
Q. Since, you always meet at 52 Wall street?
A. I think we had one or two meetings of the board there; for the last few months we have met at 52 Wall street.
Q. At whose office?
A. In the directors' room of the City Bank, with one exception, and then we met in the directors' room of the New York Life and Trust Company.
Q. At what other place than 52 Wall street did you meet?
A. No other place.
Q. This committee on adjustment, were you present at any of its meetings?
A. Yes, sir.
Q. As treasurer you have to be present?
A. As one of the committee.
Q. Who acts as secretary of the committee?
A. Mr. Gawtry.
Q. They keep minutes of their doings?
A. Yes, sir.
Q. An especial account is kept by you as treasurer of the company in liquidation of each of the constituent companies?
A. Yes, sir.
Q. You collected the assets that went to the credit to each of the constituent companies on the various accounts from time to time?
A. Some of them; yes, sir.

8886 Q. And utilized those assets with the general fund of the Consolidated Company?

A. Put to the credit of the constituent companies.
Q. Of the constituent companies, and issued stock based upon it?
A. No, sir.
Q. Did you arrive at the different amounts of each of the constituent companies?

A. Yes, sir.

Q. And they varied from time to time?

A. Yes, sir; but they were credited with the amount of the final adjustment; they were credited at once; the liabilities and assets of the old companies were assumed by the Consolidated Company according to the articles of consolidation.

Q. When was the first account adjusted between the Consolidated Company and any of the constituent companies; when was the first account of any company adjusted, if it has ever been adjusted?

A. I think in January.

Q. What company?

A. Of all of them; they were gradually brought up in different items, so that a final adjustment was made of all the companies.

Q. With all of the companies?

A. I think so.

Q. For what purpose has this adjusting committee since met?

A. I don't think they have met since that time.

Q. What papers will show that action of that committee?

A. I presume the minutes of that committee.

Q. Are all of those accounts closed out?

A. In that way, each of them.

Q. All of the accounts which were the subject-matter of that committee?

A. No, sir.

Q. Which are open?

A. I think there are balances on each of them.

Q. Is any one closed?

A. They are all closed so far as the constituent companies are concerned.

8887 By the CHAIRMAN:

Q. And were closed at what time?

A. In January.

Q. At the time they were closed how did you treat the assets of the several constituent companies?

A. At that time, at the moment of the consolidation they were treated as the property of the Consolidated Company.

Q. Supposing one of the companies has an account with one of its customers of $400,000; how did you treat that account—an uncollected bill?

A. Those accounts were turned over with all other cash assets; they were credited with the amount allowed as so much credit.

Q. The same as if it had been cash or any thing else—you treated all those uncollected accounts as so much cash?

A. All those that were transferred to the company; I think all of the companies, with the exception of the Metropolitan, did turn over their cash assets, and received the amounts to which they were entitled.

Q. Now about the customers' account?

A. That was treated as a cash asset.

Q. Without regard to whether they were collectible?

A. Yes, sir; that was a matter that the committee ruled upon, as to how much cash they were entitled to be credited with.

By Mr. Tremain:

Q. Did not the Consolidated pay on account of the Manhattan Company in December, 1884, a dividend of $400,000 to the Manhattan stockholders?

A. They paid it in January.

Q. That was a dividend of what per cent.?

A. Ten per cent.

Q. That was out of the surplus assets which were turned over
8888 to the Consolidated Company by the Manhattan?

A. Yes, sir, amounts collectible.

Q. Do you know what those consist of?

A. Principally accounts against consumers of gas.

Q. Are you not mistaken in testifying that these accounts are closed with all the companies? Look at your trial balance of October 31, 1885, in the statement of assets and liabilities, and explain the entries of credit balances to the New York Gas-light Company of $2,000; the Manhattan, $10,000; the Municipal Gas-light Company, $30,000?

A. The New York Company, $1,000 is held to pay a liability, as stated by them to the adjustment committee, for a tax on their dividend.

Q. Which is in dispute?

A. Not at all, sir; payable on the 15th of January next.

Q. What about the other thousand?

A. The other thousand is held to meet the contingent liability of the result of a suit against the company for personal damages.

Q. The Manhattan, $10,000?

A. Held to pay a liability to the State tax on their franchise.

Q. Thirty thousand dollars of the Municipal Company?

A. That is held subject to meet some liability unadjusted, comprising a suit.

Q. There is an item in November of the Metropolitan Company, $23,753?

A. The result of the balance due that company in the accounts.

Q. Has that been finally adjusted?

A. It was adjusted in January.

Q. By whom?

A. By that committee.

Q. And assented to by the Metropolitan?

A. Yes, sir.

Q. What has the committee on works and manufactures done by the board of directors appointed?

A. Nothing more than appears upon the minutes.

Q. Did they ever do any thing?

A. Yes, sir. I think they have had some meetings.

8889 Q. Who else besides Mr. Pyne is on the committee?

A. I don't recollect; I could not give the complete number.

Q. Do they ever do any thing at all? Give the names of some of them.

A. I could not give you the names.

Q. Is there anybody else except Mr. Pyne?

A. Yes, sir, you will find it in the minutes.

Q. What did Mr. Pyne report when he reported on the committee of works and manufactures?

A. I don't recollect.

Q. Do you remember any topic that the committee on works and manufactures mentioned at any time?

A. Not sufficiently to quote in words, or the substance of it.

Q. Don't remember any subject-matter?

A. No, sir.

Q. What did the committee do, comprised of Mr. Pyne, Mr. Day, Mr. Sloan, who, from the minutes, appear to have been appointed to devise means to effect a consolidation—what did they ever do?

A. Whatever appears on the minutes, I presume.

Q. Do you know, of your own knowledge, of their doing any thing?

A. No, sir, I never was before the committee.

Q. Did you ever hear of their making a report?

A. I don't recollect of it.

Q. Do you know the subject-matter that they had up before the committee at any time, or that they reported as having had up at any time?

A. I don't recolect.

By the CHAIRMAN:

Q. As an officer of the company you do not know what either of those committees reported?

A. No, sir.

8890 Q. Or that they did any thing—do you say that?

A. No, sir, I do not.

Q. Do you remember whether or not they did do any thing?

A. I do not remember; I was not present.

Q. I find on page 58, at a meeting held July 22d, the following resolution:

"Mr. Zollikoffer offered the following:

"*Resolved*, That that portion of the minutes 'that it is not expedient that the secretary should furnish copies of the minutes to any person or officer of this company,' offered by Mr. Sloan and passed by the executive committee on the 7th of July, be stricken out; said resolution having been offered and adopted in violation of any rights as an officer and chairman of the executive committee, and denying to me such information as I think necessary for the discharge of my duties, which on motion, was laid upon the table."

Q. Do you remember who participated in that discussion when that was adopted?

A. I do not, sir.

Q. That occurred as stated in the minutes here?

A. You have the minutes before you.

Q. Was this resolution offered and laid upon the table?

A. You have the minutes there.

Q. Did that occur as stated?

A. If you will allow me to refresh my memory I presume I can answer; that resolution was offered and took effect, to my recollection, without discussion.

Q. At a meeting held October 22d, some reports are referred to as having been presented, whether they were in writing, viz.: The chairman of the finance committee presented a report, which was offered, and ordered placed on file; is that in writing?

A. I should say so, sir.

Q. Will you produce that?

A. If that is the fact, I will.

8891 Q. Also with regard to the action of the executive committee constituting the committee in salaries; will you produce that?

A. What is the disposition made of the last two reports?

Q. The finance committee's report was that one was ordered placed on file; the other one accepted and the committee discharged; it was referred to the committee on works and manufactures; there was also a schedule of claims against the various constituent companies—has such a schedule been furnished?

A. No, sir; not in pursuance of that resolution.

Q. Of any of the companies?

A. Not in pursuance of that resolution.

Q. Is there such a schedule of claims against the various constituent companies?

A. I think there is.

Q. Will you produce that to the expert?

A. I will so far as I can find them, with an explanation if I do not find them.

The CHAIRMAN: The meeting was when?

Mr. TREMAIN: October 28th.

Q. Can you tell whether $167,000 of bonds of the Harlem Company were paid in pursuance of a recommendation or direction of the executive committee, to that effect, which was adopted at a meeting of October 22d?

A. They were paid $167,000, being the balance of $170,000 assumed by the Consolidated Company.

Q. Is there a dispute concerning the total bulkheads of the same property of the Consolidated Company.

A. Not that I know of, sir.

Q. What was the matter that was referred to counsel in that particular?

A. I think in relation to the proposed action of the department of docks to lay out a street on the east side of the town which was to take a large amount of our property.

8892 Q. Don't you know of any dispute in respect to that total amount of bulk-heads?

A. No, sir.

(By Senator MURPHY:)

Q. That street known as the exterior street, on the East river, on Avenue A?

A. Yes, sir.

(By the SAME:)

Q. A bill of that character was introduced in the Senate a year ago, and also two years ago?
A. Yes, sir.

Mr. TREMAIN: I propose that this examination be suspended until the expert makes examination, if you will deem that Mr. Smith is excused until to-morrow, or possibly next day.

H. E. GAWTRY, being recalled, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are the secretary of the committee of adjustment?
A. Yes, sir.
Q. Has that committee had any meeting since last January?
A. I think so; I am not sure as to the date they ceased.
Q. They have adjusted all of their accounts?
A. Yes, sir, as far as their duties went.
Q. Are there any books or papers showing their official adjustment of the constituent companies, showing the official adjustment by the committee?
A. I think there is such a memorandum.
Q. When was it made?
A. I couldn't tell you.
Q. Have you the minutes of that committee?
A. I have.
Q. Will you produce them?
A. I can do so, yes, sir.
Q. Is there more than one book?
A. No.
Q. That committee required the unanimous action of its members before adjusting an account?
A. I don't remember whether that was the rule, or whether it was an understanding, or whether it was actually so.

8893 Q. Did the committee adopt that as its guide?
A. I don't know of any except such as are in the minute-book.

Q. Do you know of any instance where a difference had arisen between the representatives of the constituent companies whose accounts were under consideration and any other members of the committee?
A. I don't remember any special difference; of course there was a question of difference of values coming up all the time.
Q. How did the difference of values arise?
A. One man would think his property was worth so much, and it was open for discussion, and we would discuss it as to whether it was or not.
Q. How would the result be determined?
A. I presume by a vote; the minutes will show that.
Q. That is, the representatives of the other companies would pass upon the values of the dissenting representatives?

A. No, sir; it was more a matter of agreement.

Q. Of the things which were done, was there an agreement between you all?

A. Yes, sir.

Q. Beside the papers you have referred to as containing the statement of the adjustment of the accounts, are there any other papers which would show the adjustment?

A. Nothing outside if the general books of the companies.

Q. How shall I designate the adjustment?

A. It is in the mintue-book proper; the originals have been destroyed; it is what is known as the adjustment; that contains every thing outside of the books of the consolidated companies.

(By the CHAIRMAN:)

Q. Did they not submit their claims sometimes in writing??

A. Nothing except the schedules; I believe you have all those papers.

Q. Schedules and claims? No?

8894 A. What kind of claims do you allude to? These schedules, as I understand it—we have got there every thing that relates to the property of the consolidated companies.

Q. What was the character of the claims that came before this adjustment committee to liquidate?

A. Some lawsuits as mentioned against the New York and Municipal that came before the committee so as to decide how much should be set aside; that is one item; and the question of supplies of material.

(By the CHAIRMAN:)

Q. On hand, of the several companies which were turned over to the Consolidated Company?

A. Yes, sir.

Q. That is the values were fixed on the items, were they not, at the time of consolidation?

A. Yes, sir; they were agreed upon by the adjustment committee.

(By the CHAIRMAN:)

Q. His question was, were those items agreed upon at the time of the consolidation, November, 1884?

A. On or about that time; whether they were done immediately before or immediately after, I don't remember.

Q. Such items were specified in arriving at the total values according to which each constituent company went into the consolidation; how, then, did any difference subsequently arise in reference to those values? That is what we are asking you about now?

A. The supplies were not included in the original schedules.

Q. Then the subject-matter of difference that came up before your committee to consider were items of properties not included in the original schedules?

A. Yes, sir.

Q. As the result of your deliberations, stock was issued, or payments made?

A. Payments were made; no stock was issued to my recollection for that purpose.

8895 Q. You remember that the consolidation agreement provided that stock might be retained to meet such payments as might arise from the result of the determination of the adjustment committee, in consequence of those adjustments?

A. I believe that it contained something of the kind; I am not familiar with that part of the business.

Q. Was that done?

A. I don't know.

Q. Don't you sign the stock certificates?

A. Yes, sir.

Q. Whether as the result of the determination of the adjustment committee any stock was ever issued in payment for amounts to be paid in consequence of those adjustments?

A. I don't know; my impression is that not a share was ever issued.

Q. When you sign a stock certificate you know the occasion of its issue?

A. Yes, sir.

Q. You signed certificates, did you not, for stock that was issued to the shareholders of the constituent companies?

A. Yes, sir.

Q. And you also signed, did you not, a certificate, or certificates for stock which was issued to James W. Smith, treasurer of the Consolidated Company?

A. I think I did, because the stock certificates are signed both by the secretary and treasurer; in my absence the treasurer might sign.

(By the CHAIRMAN:)

Q. Would the treasurer sign the certificates to himself?

A. He would in my absence; it requires two signatures.

Q. Did you sign a certificate to James W. Smith, treasurer, or certificates amounting to $3,000,000?

A. I don't remember whether I did or not.

Q. Did you receive any direction or authority to issue such certificate?

A. There was such an authority given by the board of trustees that such stock should be issued.

8896 Q. Have you any means of ascertaining now whether you signed any stock certificates in payment of the whole or in part for payments to be made in discharge of obligations of the constituent companies?

A. I signed no certificates except they were issued to shareholders of the company, or this one lot to the treasurer in trust.

Q. By the terms of the consolidation there was allowed as a deduction for the debts, various sums to various companies; for instance, the sum of $137,000, for debts owed by the Knickerbocker and assumed by the Consolidated Company, and by the terms of the agreement the Consolidated Company were at liberty to retain stock sufficient to discharge any such assumed indebtedness; can you testify, or have you any means of ascertaining whether you have signed any certificates for any such indebtedness?

A. I have not signed any such, to my knowledge and belief.

Q. There was allowed under that provision, and of the character of the allowances described in the previous question, the following sums: The New York Company, $6,000; the Metropolitan Company, $688,000; the Municipal Company, $328,000; the Knickerbocker Company, $1,137,000; The Harlem Company, $170,000; making in all a deduction of the debts from the share capital of $2,329,000; whether any of that stock has in fact been issued to anybody?

A. I will correct my answer; I believe that that amount which was issued included the amount set apart of the bonds as well as for the working capital.

Q. There was allowed under that provision and of the character of the allowances in the previous question, the following sums: The New York Company, $6,000; Metropolitan, $68,800; Municipal, $328,000; Knickerbocker Company, $1,137,000; Harlem
8897 Company, $170,000, making in all a deduction of the debts
from the share capital of $2,329,000—has any of the stock been issued of the $2,329,000?

A. Yes, sir.

Q. Some of it has been issued?

A. Issued to the treasurer.

Q. Has it all been issued?

A. I don't know without referring to the books.

Q. Now what book will tell? Some of it has been issued; has it all been issued?

A. I will have to refer to the books.

Q. What books will tell?

A. The ledger of the Consolidated Company.

Q. The stock ledger?

A. No, sir, the general ledger.

Q. What place will tell that fact?

A. The capital stock account.

Q. Now in addition to that stock thus permitted to be withheld for a deduction for debts there was reserved for working capital, shares equal to $1,303,000—has any of that stock been issued?

A. I believe it to be included in the amounts issued to the treasurer.

Q. Now in addition to that stock thus permitted to be withheld for a deduction for the debts, there was reserved for the working capital, shares equal to $1,303,000—has any of that stock been issued—of the $2,329,000?

A. I think that is the amount, if I remember right, which was issued to the treasurer.

Q. Then, to the best of your recollection, all of the stock which it is entitled to issue thus under any circumstances, has been issued?

A. Unless there is some stock from the constituent companies which has not been sent in.

Q. Unless some of the stock due to shareholders has not been issued, then all the stock authorized to be issued has been, to your belief, issued?

A. Yes, sir.

8898 Q. Can you say how much of the $2,329,000 reserved for the deduction of debts has actually been paid off?

A. I think the $450,000 of notes due by the Knickerbocker and $170,000 of bonds of the Harlem have been paid off.

Q. Have the bonds of the Knickerbocker been taken up, all of them?

A. No, sir.

Q. Do you know the amount outstanding now?

A. The original amount was $750,000 of the Knickerbocker, $687,000 were outstanding at the time of the consolidation; there were some sixteen or seventeen bonds purchased on the 1st day of June, according to the trust deed of the Knickerbocker Company—this last June.

Q. Those two companies, the Knickerbocker, $450,000, and the Knickerbocker, $687,000, amounting to $1,137,000, which was reserved?

A. Yes, sir; out of that there was fifteen, sixteen, or seventeen bonds which were purchased under the mortgage-trust; every year there is a payment to be made on them.

Q. Has the indebtedness, $328,000 reserved for the Municipal Company, been paid?

A. A large portion of that was what remained of the first mortgage bonds of the Municipal Company, and those have not been paid; I don't remember what the balance was.

Q. How much was that large portion?

A. At the time of the consolidation it was about $291,000.

Q. Has that been paid yet?

A. No, sir.

Q. The balance of the indebtedness you think has been paid?

A. I don't know.

Q. The $687,000 of the Knickerbocker—no part of that has been paid?

A. No, sir.

Q. The New York Company's item of $6,000, has that been paid?

A. I am not positive; it was a mortgage on some piece of property.

8899 Q. You were a member of the committee of the constituent companies prior to the consolidation, was you not?

A. Yes, sir.

Q. How long did that committee exist?

A. I think about four years.

Q. Did the Mutual have a member of the committee?

A. Yes, sir.

Q. Who was he?

A. I think Arthur Leary.

Q. That committee kept minutes of its doings?

A. I don't remember.

Q. Was not you the secretary?

A. No, sir.

Q. Who was?

A. I think Mr. Smith.

Q. Do you remember when the values were under consideration by that committee in 1884, the values of the properties of the several companies?

A. I would like to state, there is a little confusion in regard to the committee; the committee the counsel is asking about now was not in existence for four years; the same set of men were of the committee you speak of; I received the values of the property and know they were in existence; I could not tell how long, probably six months.

Q. When did they begin?

A. I could not tell you; I think in the summer of 1884.

Q. They were the same men as the members of the pooling committee?

A. Yes, sir.

Q. You was a member of that committee?

A. I was.

(By the CHAIRMAN:)

Q. When you said you didn't know whether any records were made or not you then referred to the pooling committee?

A. Yes, sir.

Q. Don't you know that the minutes of the pooling committee have been in evidence, and many extracts made and put in this book?

A. I don't remember.

8900 Q. What did you call that committee?

A. I am not sure I was a member of the committee.

Q. Give the names of each one comprising that committee, which was formed in the summer of 1884?

A. Mr. Lees, Mr. Zollikoffer, Mr. Smith, either Francklyn or I—I can't say which—and either Mr. Leary or Kennedy—I don't remember which—and Mr. Morse.

Q. What did you call that committee—how was it styled?

A. I don't know as it ever had any name.

Q. What was the first thing that the committee did, to your knowledge?

A. I can't remember.

Q. The last thing?

A. The main business of the committee was looking out values of property, and talking about the matter of consolidation.

Q. What was the last thing the committee did?

A. I suppose the last action of the committee was *d*eporting upon the fact that they had arrived at a basis upon which the company would consolidate.

Q. Was that the basis upon which you did consolidate?

A. Yes, sir.

Q. How, in arriving at that basis, did you estimate the value, so-called, over and above the values, so-called, of the properties, rights and franchises of the constituent companies to the amount of $7,781,000, including the Mutual?

A. That was based upon the amount of business done by the companies, if I remember right.

Q. Give the particulars?

A. I don't remember.

Q. You mean the number of cubic feet of gas?

A. Of gas sold.

Q. How did you get at that—by taking the register, or index of the number of feet produced at the holder?

A. Not the index of the number of feet at the holder; we took the actual number of feet of gas sold.

8901 Q. You took the total amount of gas as reported from the consumers' meters?

A. Yes, sir.

Q. Did not that include street lamps?

A. I believe it did; they are the sales of the company.

Q. Is not that taken at the works, from the index for the street lamps?

A. No, sir; we take an estimate of each lamp.

(By the CHAIRMAN:)

Q. That gas consumed in the public streets is not measured?

A. No, sir, the contract provides that we shall furnish to each burner of a street lamp 12,000 feet each year.

Q. You took the gas product and measured that, not by indexes at the place of production, but by the meters of the consumers?

A. We did not take the gas product; we took the gas sales; that is not an intelligent question; leave out the word "gas product;" the gas made at the works and the gas delivered to the customers is a very different thing; if you will use the word "sales," that will be more intelligent.

Q. Whether the business was based on the product or receipts?

A. The receipts had nothing to do with it.

(By the CHAIRMAN:)

Q. What receipts had nothing to do with it?

A. The money received from the gas sold; the amount of dollars and cents did not enter into the question at all.

Q. State what did form that basis?

A. It was the sales of each one of the companies for a certain period.

(By the CHAIRMAN:)

Q. Measured a certain number of feet of gas?

A. Yes, sir.

(By the SAME:)

Q. Consumed on the streets of the city?

A. Yes, sir.

Q. There is a great difference between the amount of gas in the holders and that consumed?

A. Yes, sir; I should say the average of the difference was over fourteen per cent.

8902 Q. In making this basis for an estimate you did not take the product at the holders in arriving at the number of cubic feet?

A. I think not; all that matter you have in that book before you, I suppose; I have not refreshed my memory on this thing for months.

Q. Now having ascertained the business of each company, what was the next step in arriving at this figure, $7,781,000?

A. I don't remember.

Q. Don't you remember how it was done?

A. I do not.

Q. What was the process of arithmetical calculation?

A. I don't know.

Q. Have you any knowledge on that subject?

A. No, sir.

Q. Is your memory capable of being refreshed by any memorandum?

A. I should want the sales of each company for the time, whatever it was.

K. Given sales for each company for a given period of time, what next?

A. Take the amount of capital over and above the valuations and apportion it.

Q. That is to say you agree on what the capital should be first?

A. No, sir; after the valuations were finished we did.

Q. And the difference between the valuation and the agreed capital was made the subject of estimate and apportionment among the various companies?

A. It was made the subject of apportionment among the various companies.

Q. And after that estimate and apportionment the amount arrived at was put down, and it was upon that basis which you have stated that the capitalization of the Consolidated Company was arrived at?

A. I believe that was so.

8903 Q. The original amount upon which this calculation was made was a capital of $45,000,000, including the Mutual?

A. I think so; I should have to see those figures to refresh my memory.

Q. Take this book (presenting book to witness).

A. Including the Mutual, $45,000,000, yes, sir.

Q. Then it is true that the figures found apportioned to the various companies, viz.: the New York, $1,417,000; the Manhattan, $2,329,000; the Metropolitan, $1,863,000; the Municipal $1,175,000; the Knickerbocker, $528,000; the Harlem, $469,000; comprising the amount of the capital apportioned by that agreement to the several constituent companies,—was the result of an estimate arrived at in the method you have described after the total valuations of the properties had been fixed at $29,994,000?

A. I think so; of course that did not come out in even thousands.

Q. Of course the valuations did not come out in even thousands and the fractions were disposed of by omissions or by adding to other items?

A. That is my impression.

Q. In some the fractions of thousands were made more, and in a few cases, less?

A. That is my recollection.

Q. Can you state whether a calculation was made fixing the percentage of the apportionment to each company for capital by reason of rights and franchises, etc?

A. I believe so.

Q. Do you remember those percentages?

A. I do not.

Q. Any of those calculations extant?

A. Not to my knowledge.

Q. Who had the papers upon which they were made, and who made the calculations?

A. That is a difficult thing for me to answer; no doubt that all of us did more or less figuring upon it.

(By the CHAIRMAN:)

Q. Did not some one have what papers there were upon 8904 which the figures were made?

A. Not the rough memoranda; there was nothing except the ordinary rough calculations.

(By Senator MURPHY:)

Q. A compilation made from those memorandums?

A. That is it.

(By Senator MURPHY:)

Q. The compilation was made from those fragmentary memorandums?

A. The basis was agreed upon some way on an ordinary calculation.

Q. The minute-book of that committee—where is it?

A. I don't know; I haven't seen it.

Q. Did I understand you Mr. Smith was the secretary?

A. Yes, sir.

Q. Will you ask him to hand that to Mr. Yalden?

Senator MURPHY: What do you mean by the minute-book?

Mr. TREMAIN: This committee kept a record of its doings.

Q. Did that committee keep any minutes of its meetings and its proceedings?

A. I don't remember.

Q. Who was its chairman?

A. Mr. Lees.

Q. Who was its secretary?

A. I think Mr. Smith; I wouldn't be positive.

Q. Did that committee agree to invite Mr. Rowland to make any appraisement?

A. Rowland made some appraisements and whether he was invited by the committee proper I don't know.

Q. Whether the committee agreed to invite Mr. Rowland to make some appraisements?

A. I don't know.

Q. Did the committee agree to discuss the propriety of inviting anybody to make the appraisements?

A. There was such a discussion.

Q. Did the committee come to any agreement as to how the real estate should be valued or by whom appraised?

A. I don't remember.

8905 Q. Was there any thing said by the committee on that subject, the appraisement of real estate?

A. Yes, sir, there was a talk about it, and whether the committee came to any conclusion I don't remember.

Q. Any thing said as to how the mains, meters and services should be appraised or valued?

A. Yes, sir.

Q. Was any conclusion arrived at by the committee on that subject?

A. I think the committee took charge of the valuation of the mains and services; I don't think it did have any thing to do with the valuation of the meters.

Q. Did the committee itself, without the aid of any experts or outside assistance, arrive at a valuation of the mains and valves and services?

A. I believe they did.

Q. Do you know how they arrived at that valuaton?

A. There was a general discussion among the committee as to the value of a given sized main, say; and I suppose the views of the different members harmonized, and a valuation was reached.

Q. Was it on the basis of the cost?

A. I think not.

Q. Was it on the basis of the number of miles of mains actually laid?

A. No, sir.

Q. Did it, or not, include any mains that had been abandoned or unused, or that had been unused for a considerable period?

A. I presume not; I don't know that there are any such mains.

(By the CHAIRMAN:)

Q. You don't know that any abandoned mains were not taken into account?

A. I don't know of there being any abandoned mains any way.

(By Senator MURPHY:)

Q. You don't know of any existing at the time of the consolidation?

A. No, sir; I never heard of any.

8906 (By the CHAIRMAN:)

Q. Were there any unused mains at that time?

A. I think not, sir.

Q. You only know about the mains of the Muncipal and Knickerbocker Companies; do you know about any other mains?

A. No, I can't say that I did at that time, I do now.

By the CHAIRMAN:

Q. You don't recollect that any inquiry was made on the subject at that time?

A. I don't know; no such mains were in the amounts.

Q. Do you recollect whether there was any inquiry made at the time of the consolidation?

A. Yes, sir, there was; it would be a very natural one to make.

Q. Who made such inquiry?

A. I couldn't tell you.

(By Senator MURPHY:)

Q. The company would make such an inquiry if any existed?

A. Yes, sir; the abandoned mains would be taken up and used for other purposes.

Q. Presume there were abandoned mains, and if so the company would make a claim on the consolidation for their value?

A. I don't think there were; it would be a very easy matter for the old companies to show.

Q. Was there an estimate made before the committee to ascertain the value of the mains?

A. I don't know that there was; I looked into it myself for my own satisfaction.

Q. You assume that each company looked into the matter of the mains of such constituent companies?

A. I don't know how the others did.

Q. How was the value of the mains arrived at in dollars after you had ascertained the extent of the mains of each company?

8907 A. From the fact that it would cost so much to replace them; I think that is the way they were arrived at; I don't remember distinctly; I think that was it.

Q. As to meters, how was their value arrived at?

A. The price-list, I believe, of the manufacturer was taken, and enough added to that to cover the lead connection and meter-cocks that go with the meters.

Q. After getting the number of meters of each company?

A. Yes, sir; and the size.

Q. And as to the services, the valuation, how was that ascertained?

A. I believe the valuation was arrived at what it would cost to put a service of a given size in the ground.

Q. As to the bulk-heads, piers and water rights, how was that arrived at?

A. I don't remember.

Q. Do you remember what member of the committee gave special attention to that?

A. I do not.

Q. Office buildings, do you know how they were arrived at?

A. No, they went into the real estate; belonged with the real estate.

Q. A part of the real estate; have you given all the information you are able to give to the committee as to the methods of arriving at the value of the properties, rights and franchises of the constituent companies entering into the consolidation?

A. I think I have; yes, sir.

Q. Do you remember when in the summer this committee began to operate—this valuation committee?

A. I don't remember.

Q. About when?

A. I should think it was the early part of the summer.

Q. What else, after the committee got together, did they agree upon—what the combined capital should be?

A. No, sir.

Q. When was that done?

A. Some time toward the first of November, I should say from recollection.

8908 Q. Was it before or after the schedules had been prepared?

A. After.

Q. Was it before or after Rowland's reports?

A. I think that is answered in the previous question; the schedules could not have been prepared; I do not know that Rowland made any reports to the committee.

Q. Then the schedules you refer to are not the ones I refer to; which ones do you mean?

A. Those that are on the table; my recollection is no valuation of the capital was arrived at until these all were completed.

Q. Was not there a preliminary agreement of the consolidation that was prepared prior to the agreement which was finally executed and filed in the public offices?

A. You mean such a draft filed in the office of the company?

Q. No; prior to the time the form of agreement on file was made, was there not a preliminary agreement respecting consolidation?

A. I don't remember any such.

(By the CHAIRMAN:)

Q. Do you remember whether there was or not?

A. No, sir.

Q. Will you testify there was not?

A. To the best of my knowledge and belief I will.

Q. Was there any handed to the committee—I mean this valuation committee—or to the pooling committee that had been in existence, writings suggesting schemes of consolidation?

A. I believe there was—memoranda; no full agreement of any kind.

Q. Memoranda as to proposed basis of agreement?

A. No, sir; it was on a piece of paper written out.

(By the CHAIRMAN:)

Q. Memoranda of a proposed agreement proposed to be acted on?

A. There was some proposed discussions upon paper; there was no formal document.

8909 (By the CHAIRMAN:)

Q. Do you mean to say there was no memorandum, covering the scheme of the proposed consolidation, submitted to the committee until the agreement was submitted, which was finally signed and executed?

A. Not that I recollect of.

Q. Do you not remember of the pooling committee passing a resolution to submit a plan as a basis for each of the companies entering the consolidation?

A. I do not remember.

Q. Was not you on such a committee yourself?

A. No, sir, I was not; I don't remember of any such committee.

Q. Do you remember who were?

A. I don't remember any such committee.

Q. Do you remember, at a meeting of the committee—the pooling committee—held November 23, 1883, the following resolution with regard to reporting a plan:

"*Resolved,* That the report and plan of the sub-committee on consolidation, as submitted at the last meeting, has the approval of the representatives of the New York, Manhattan, Municipal, Harlem and Knickerbocker Gas-light Companies."

A. I don't remember.

Q. Do you remember that there was a meeting December 17, 1883, at which the following resolution was passed:

"*Resolved,* That the plan for a consolidation accepted by this committee be referred as a basis to the committee of one from each company, to report a plan in full detail for the consolidation of all the companies here represented, with power to call in legal counsel, and that this plan be reported to this committee for approval on the call of the chairman."

8910 Do you remember that?

A. This subject of consolidation had been before the committee for a period of four years; I don't remember the occasion.

Q. Having refreshed your recollection by referring you to a copy of the minutes at pages 107 to 114 of the appendix to the Senate committee's report which was made last spring, I ask you whether you have at any time seen any of the papers that are referred to in these minutes as being reports of plans for consolidation?

A. I presume I saw those papers.

Q. In whose custody did you see them last?

A. I have not seen them since they were presented at the meeting.

Q. Who presented them at the meeting?

A. I suppose it is designated here.

Q. To whom were they presented?

A. I presume the chairman of the committee.

Q. His name was Lees?

A. Yes, sir.

Q. Have you any information as to where those papers are now?

A. No, sir.

Q. Have you heard those reports spoken of at any time since December, 1883?

A. I don't remember.

Q. Was there any committee appointed to carry out the resolution that was passed December 17, 1883, or any means whatever adopted to carry it into effect?

A. I don't know, sir; the minutes would show if there was, I presume.

Q. You say that the minutes should show if there were?

A. Yes, sir; I have no recollection.

Q. At a meeting June 12, 1884, it seems to have been determined that the representatives of each company should submit schedules and plans of their respective companies—do you remember when that was first done?

A. I do not, sir.

8911 Q. Is there anybody else on this committee who would have any more accurate knowledge of its transactions than yourself?

A. In answer to that previous question if you will read the clause at page 114——

Q. I have.

A. I do not remember with the exception of that; I don't know as to the last question.

Q. Are there any other papers upon the subject of consolidation by way of a proposed preliminary agreement, that are in existence, or in any way relating to the consolidation, that were made prior to November 10, 1884, that you know of, anywhere?

A. Nothing, except those.

Q. Or are there any such papers in existence that you have any information of, anywhere?

A. No, sir.

Q. Do you know of any such papers having been destroyed?

A. No, sir.

(By the CHAIRMAN:)

Q. Or have you heard of their being destroyed?

A. No, sir.

Q. Did you see any such papers in Mr. Lees' hands at any time?

A. I saw nothing in his hands except what were in the committee.

Q. Did you see any such papers in James W. Smith's hands at any time?

A. No, sir.

Q. Did you see any such papers in Mr. Francklyn's hands at any time?

A. Not more than any of the others; I don't remember any such papers; I would like to state in regard to the question of what General Tremain calls the committee on valuations; I testified it was in the summer of 1884; I am a total blank as to the date; I see in referring to the pooling committee that the subject was up in that committee right along; I may be all wrong about it.

8912 Q. The business that the committee had to do with the adjustment of values was entirely separate as to the values of the committee of the pooling agreement?

A. I believe they were.

Q. You were one of the trustees under a trust agreement with the Municipal, dated March 23, 1880?

A. I was one of the trustees; I don't remember the date.

Q. You, together with Francklyn and Ottendorfer, Allen and Day, assigned 14,995 shares in the Knickerbocker Company?

A. Yes, sir.

Q. You voted on that stock?

A. Yes, sir.

Q. What did you do with that stock?

A. That stock was assigned to the holders of the Municipal Gas-light Company as their interest may appear.

Q. When was that done?

A. About the time of the consolidation.

Q. Was it made in one certificate?

A. Yes, sir.

Q. To whom was the certificate assigned?

A. To the shareholders of the Municipal Gas-light Company as their interest may appear.

Q. Was that the way the certificate was assigned?

A. Certainly; the assignment was made to the people to whom it belonged, and the certificate went with it.

Q. Do you mean to say that the trustees executed a written assignment?

A. That is my recollection of it.

Q. What was done with the certificate itself?

A. It was canceled first, and I suppose it is at No. 4 Irving place.

Q. You were the secretary of the Municipal Gas-light Company?

A. No, sir.

Q. Were you not?

A. No, sir.

Q. Who was the secretary?

A. Philip Allen.

Q. Were you an officer of the Knickerbocker?

A. Yes, sir.

8913 Q. The president?

A. Yes, sir.

Q. When was that certificate, 14,995 shares issued?

A. I could not tell without referring to the books.

Q. Well, do you know what year?

A. My impression is it was 1880; I am not quite sure.

Q. Who issued it—whom was it assigned by?

A. I don't remember.

Q. When was this assignment, that you speak of, made?

A. About the time of the consolidation.

Q. Who signed the assignment?

A. I suppose the trustees, but I don't know.

Q. You signed it for one?

A. I think I did.

Q. Mr. Day signed it?

A. I don't know.

Q. When was the last meeting of the board of directors of the Knickerbocker Company?

A. In the early part of November, 1884.

Q. Have you the record of that meeting?

A. I have not.

Q. Where is it?

A. I suppose at Twenty-sixth street and Fourth avenue, at the Municipal office; I have not seen it since last spring.

Q. You agreed to the valuations of the Knickerbocker Company as they are stated in the articles of agreement of consolidation?

A. I did.

Q. You signed for the Knickerbocker Company?

A. Yes, sir.

Q. How did you get at the value of the real estate, $480,000?

A. My recollection is we took the values of the surrounding property there.

Q. Who made the valuations?

A. I think Francklyn and I.

Q. Who made the valuation of the Knickerbocker plant?

A. Mr. Rowland.

Q. Who else besides Mr. Rowland?

A. I don't remember.

8914 Q. Who furnished the figures to Rowland upon which he made his estimate of the valuation of the plant?

A. I have never heard of any figures being furnished him?

Q. Are you sure about that?

A. I never heard of any figures being furnished him.

Q. Do you know, or do you not, that figures were furnished him?

A. I would be perfectly willing to testify no figures were furnished him; a schedule was furnished.

Q. Did that schedule, representing the figures, represent the cost in the valuation of the items on the schedule?

A. Not to my knowledge.

Q. Who gave him that schedule?

A. I don't know.

Q. Did you?

A. I might have done it.

Q. Did you prepare the schedule.

A. No, sir.

Q. Did anybody else make these values?

A. Using Rowland's name, representing himself and his staff, I would say.

Q. You mean by your testimony to imply that possibly Rowland's representatives may have made figures?

A. They may have.

Q. You don't know whether Rowland made the original figures himself, or simply revised them?

A. I do not know the fact.

Q. How did you get at the value of the services?

A. We knew how many there were, and in one of these two committees an agreement was reached as to the value of each service.

Q. What was that agreement?

A. I don't remember; those books will tell it all.

Q. No; they will not show any such agreement; they show the value of the services as finally agreed upon, but they will not show the basis as to which the services were estimated.

A. I don't know.

8915 Q. You have stated each company knew just what the services were; how did you get at that figure, $181,000, in the Knickerbocker?

A. By the actual record of the number.

Q. How did you get at the figure, $181,000?

A. The price per foot was agreed upon.

Q. What was it?

A. I don't know; that book will show you, if I am not mistaken it will show the record of the services; there is the number of each size that the company has, and the price they were put in at. (Handing the book to the Chairman.)

Q. You refer now to the Knickerbocker only?

A. Yes, sir.

Q. Was it at the same rate by which all of the other companies' services were estimated?

A. Yes, sir.

Q. How much did you say it was?

A. So much for one size, and so much for another.

Q. How did you get at the value of the meters in the Knickerbocker at $69,000?

A. Took the list price and added to it the cost of the lead connections and the cocks.

Q. Was that the way the price was estimated with all the companies?

A. Yes, sir.

Q. How did you get at the figures $744,000 in the Knickerbocker for the price of the mains?

A. The price of each sized main was agreed upon, and we knew the number of feet.

Q. How did you get at the figure $115,000 for bulk-heads, pier and water rights?

A. I don't remember.

Q. About the Municipal—how did you get that item in that valuation of bulk-heads, piers and water rights—$200,000?

A. I don't remember.

Q. How did you get the item of the valuation of the real estate, $889,000?

A. That was done from the valuation of the surrounding property.

8916 Q. Who made that valuation?

A. I think Mr. Francklyn and I.

Q. Who made the valuation of the plant of the Municipal Company, $1,804,000?

A. I find here the valuation $1,797,527 made by Mr. Rowland.

Q. Did anybody else make any valuation of the plant?

A. Not that I know of; not that I can recollect.

Q. How did that figure become $1,804,000? Do you know?

A. I do not.

Q. I refer to page 30; how do you explain that difference?

A. I can't explain it, sir.

Q. How did you get at the value of the services in the Municipal at $103,000? The same as you did in the Knickerbocker?

A. Yes, sir.

Q. And of the meters the same?

A. Yes, sir; there is only a difference of $7,000 and not $20,000.

Q. Yes; can you explain that last item, $6,000?

A. We had two photometer rooms, and quite an expensive laboratory.

Q. Did you ever see Mr. Rowland's valuation of those rooms of the Metropolitan, or of the Manhattan?

A. No, sir.

Q. Or of the New York?

A. No, sir.

Q. You observe your valuations of those items is larger than theirs?

A. Yes, sir.

Q. Any explanation to make?

A. The laboratory is much more expensive; I don't know about his valuation of their laboratory; the laboratory is pretty expensive, and that is the chief part of this item.

Q. Where are the original stock-books of the Knickerbocker?

A. I think at 360 Fourth avenue.

Q. Of the Municipal, extending back to 1865?

A. At the same place; I don't know as to that length of time; extending to 1877.

8917 Q. The stock-books of the Municipal, are they to be found there?

A. They are there, at Twenty-sixth street and Fourth avenue.

Q. Have you the stock books of the Knickerbocker since the organization of that company?

A. I don't know how far they go back; I have all that were turned over to us at the time the purchase was made in 1880; I think they are at Twenty-sixth street.

The committee hereupon adjourned to Wednesday, November 25, 1885.

NEW YORK CITY,
FIFTH AVENUE HOTEL, *November* 25, 1885.

The committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the committee.

SAMUEL SLOAN, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are one of the directors of the Consolidated Gas Company?

A. Yes, sir.

Q. And prior to that which of these constituent companies was you associated with?

A. The Manhattan and New York.

Q. Were you a director in both?

A. Yes, sir.

Q. Were you a member of any of the committees that were formed for the purpose of taking into consideration the question of consolidation, prior to November, 1884?

A. No, sir.

8918 Q. Were you interested in any other of the constituent companies than those two?

A. No, sir.

Q. Since the organization of the Consolidated Company on what committee have you acted?

A. I am on the standing committee; the executive committee.

Q. And any others?

A. No, I think not, sir; I am on the standing executive committee; there are special matters that have been referred to special committees, one I think, now in existence; I have been on that committee; we call it the working and manufacturing committee; it is appointed looking to the reduction of expenses and economy of manufacture.

Q. Who comprised that committee?

A. Mr. Pyne, Mr. Day, Charles G. Francklyn and myself.

Q. Are there minutes of that committee's work?

A. Yes, sir.

Q. Who has them?

A. Mr. Gawtry.

Q. Minutes of their meetings?

A. Yes, sir; I refer to that, sir.

Q. Where did that committee meet?

A. They have met at the directors' room of the City Bank for the convenience of the committee down town.

Q. Do you remember when their first meeting was, about what time?

A. No, I do not; I think we have been two or three months—I am not sure about it—going on with the work.

Q. Did that committee make any written reports to the board of directors?

A. They reported one report.

Q. When was that?

A. I think the September or October meeting—I forget which—the September meeting.

Q. They made other reports verbally, didn't they?

A. Yes, sir; and asked to be continued; some difficulty in 8919 the way of getting what we wanted.

Q. On what special topic did they report—which was in writing?

A. It was our intention as fast as possible to reduce the expenses and economize generally in the management of the company; some questions arose as to dispensing with one of the works, looking to that object, and otherwise reducing the expenses of the company.

Q. Was there any plan of reduction in writing submitted to your committee?

A. Yes, sir, two; ex-President Roome and Mr. Zollikoffer gave their views.

(By the CHAIRMAN:)

Q. In writing?

A. Yes, sir.

Q. Who has those papers?

A. I think the chairman of the committee, Mr. Pyne, must have them.

Q. You think Mr. Gawtry has that written report of the committee?

A. I think he has as secretary.

Q. Mr. Gawtry did not remember any thing about any thing that that committee ever reported; what other subject-matter, if any, was before that committee on work and manufacture?

A. Nothing else; the object of the consolidation was to cheapen the production of gas and its distribution; that matter has been before us more or less, and resulted in the appointment of this committee, and that committee met with a difference of opinion between the ex-officers, but that committee submitted their report in writing as far as they could, and they still have the matter in charge, intending to cut down expenses in other ways.

Q. So far as you have gone, the reduction in the expenses is effected in what ways?

A. It is not effected to satisfy me; we really had not accomplished any thing as I would have wished.

8920 Q. What have you accomplished?

A. This report was laid upon the table and has not been acted upon yet; one of the points at issue was the closing of one of the companies to lessen the expense which would be required to keep the works running, and which at that time we thought was not justifiable, and the matter was laid over on that account.

Q. Then it is not yet decided whether that work, whatever it is, will be suspended or not?

A. The committee reported that the large expenditure required at this time did not justify taking the matter up.

Q. As a matter of fact have you suspended any of the works?

A. No, sir, we did not consider it safe to do so.

Q. I understood you to say that it was the object of the consolidation to secure cheap gas?

A. That is my object.

Q. Please explain to the committee how, if that was the object, it was aided in its purpose by increasing the capital stock?

A. The capital stock in the adjustment between the companies the values of the respective properties, was put in upon the statements which the respective interests agreed upon in this committee which had charge of the matter; of course the larger the capital the less dividends to be expected.

Q. What was the price of the Manhattan in 1884?

A. I could not recollect; I think the Manhattan went up over 300.

Q. Three hundred and twenty in the fall of 1884?

A. I don't recollect; I have been in the Manhattan and New York, and keep my interest yet, and was satisfied with my investment; but in the consolidation we looked for the cheapening of gas in a large output.

8921 Q. The price of the Manhattan during the summer of 1884 was between 300 and 320?

A. My memory don't serve me.

Q. What would be the proper way for the committee to ascertain the price of that stock during the summer of 1884?

A. I suppose the price in the stock list.

Q. Was it listed always?

A. I think so, but I am not sure about that.

Q. If we should call a broker accustomed to dealing in that kind of stock we will have no difficulty in making it out?

A. I think not.

Q. How would an increase of capital of the combined companies from about $17,000,000 to about $39,000,000 aid in furnishing cheaper gas to the public?

A. The output would be greater and we would have to take less dividends and probably less profits, and the capitalist would not do as well as he did before; but it was really to meet the outcry about the price which was the chief object.

Q. I think there was a surplus of the manufactured plant in the city of New York on the 11th of November, 1884?

A. I am not prepared to say that; we always thought that with the Manhattan and New York every new company was bothering and interfering with us.

Q. Do you mean to say that the capital stock was increased from $17,000,000 to $39,000,000 for the purpose of satisfying the popular outcry against the high price of gas?

A. I mean to say that by the consolidation of interests we thought the values were properly adjusted; I don't think that by capitalization there is more to be done.

Q. Your answer is not to my question?

A. I should say the capitalization power simply is not what we relied upon for the cheapening of gas.

8922 By the CHAIRMAN:

Q. Very well, that answers that; let me ask you whether, in your judgment, on the 11th of November, 1884, there was more gas plants in and for the city of New York than was needed, and than could be economically worked?

A. I think there was.

Q. There was more capital invested in the manufacture and distribution of gas on the 11th of November, 1884, in the city of New York than was nececsary?

A. In one sense there was, and in another sense the same capital put with all the works consolidated would have worked more economically.

Q. I mean in a plain business sense?

A. No, sir.

Q. There was more capital invested in the manufacture and distribution of gas on the 11th of November, 1884, in the city of New York than was necessary for the economical supply of the city of New York with gas?

A. No, sir. I think not.

Q. If there was more plant at that time than was needed, how can it be that there was more capital invested in the business than was needed—will you explain that?

A. I cannot explain that.

By Mr. **Tremain**:

Q. Will you explain how it tended to cheapen the supply of gas to the consumers of the city by capitalizing the so-called Harlem properties and franchises at $3,000,000?

A. I know nothing about the details of the adjustment; I am simply a director, and was not on the committee, and voted the report of the adjustment committee.

Q. As a director of the Manhattan and New York, you simply voted?

A. Yes, sir; accepting that adjustment.

8923 Q. Then there was a report in writing of the adjustment committee?

A. I think there was; some action that brought it about; I am not sure about it, because when the board of directors meet once a month these papers are put before us and we act upon them at the time.

Q. What papers upon that subject were put before the board of directors of the Manhattan during the early part of the year 1884?

A. I don't recollect.

Q. Do you recollect of any papers being put before the board of directors at any time in 1884?

A. No, sir.

Q. Do you remember of attending any meeting when that subject was up before them on that matter?

A. I attended pretty generally all the meetings.

Q. Did you ever see any papers on that subject?

A. The usual course of the proceedings at the board meeting was for the officers to present their views, and whatever was brought before us we acted upon; I don't recollect what, for I don't charge my mind with those matters.

Q. There appears to have been filed in the Secretary of State's office an agreement of consolidation that is dated September 29, 1884, which says: "The directors or trustees of the company shall enter into this agreement and the stockholders shall, on or before November 10th, 1884, sanction and approve this agreement by a vote of two-thirds of the stockholders"—and it appears to have been executed by the Manhattan Gas-light Company, and to have been approved at a meeting of stockholders of the Manhattan Gas-light Company, November 5th, 1884; were you present at that meeting?

A. No, sir.

Q. You gave your proxy to somebody else to vote upon it
8924 at that meeting, didn't you?

A. I presume I did; I usually do such things.

Q. To whom did you give it?

A. I don't recollect.

Q. Did you ever read or see that agreement?

A. I don't think I read it; I presume I saw it.

Q. Did you ever see any other paper on that subject?

A. I have no recollection other than the resolution usually passed under such circumstances.

Q. Did you ever see any memorandum or calculations of the respective values of the properties of the various companies, or estimated values?

A. I don't recollect except incidental conversation and I couldn't call that to mind as to what that was.

Q. Then, if I understand your testimony, you say you don't recollect having seen any paper on that subject?

A. No, I do not, and yet I may; but I would not like to swear I have seen it; still I may have seen it.

Q. Were you a member of the pooling committee?

A. No, sir.

Q. You received Consolidated stock for Manhattan stock at the rate of 2.98½, did you?

A. At the rate that others received it, sir.

Q. How long have you held your stock in the Manhattan?

A. I couldn't tell you; I bought the first shares from Moses Taylor years ago, went into the direction, and added to my interest afterward.

Q. Is it in your opinion a fair item in fixing the price of gas to consider a reasonable dividend upon stock as an element?

A. I do, sir.

Q. If that is the case how does it tend to lessen the price of gas to consumers if a reasonable dividend is to be paid upon a cap-
8925 ital of $39,000,000 instead of $17,000,000?

A. It depends upon the result of the new action; we cannot determine that without trying it.

(By the CHAIRMAN:)

Q. That is your answer to that question?

A. Yes, sir.

Q. That is as full an answer as you can give—that is as well as you can explain it?

A. Yes, sir.

Q. Has any thing been accomplished in that direction?

A. I am sorry to say, very little; I am hopeful, though.

Q. Upon what grounds have you hope?

A. I cannot answer that question without personally consulting some of my associates.

Q. Why was it necessary to make a consolidation such as was made for the purpose, as you think, of cheapening gas? Why could not that same object have been accomplished by the several companies without this consolidation upon such a basis?

A. I really believe it could; the difficulties that are in the way of consolidating the property—I think it could have been accomplished quite as well one way as the other; it remains to be seen, however.

Q. Asking your opinion and judgment, rather than evidence as to the fact, and for the information of the committee, is there, in your opinion, any public purpose to be subserved by maintaining the present capitalization of the so-called Consolidated Company?

A. Certainly there is, yes, sir; this capitalization you speak of has a capitalization of values properly adjusted; the property has been adjusted, and its values have been fairly adjusted between the respective companies.

Q. I didn't ask that.

A. I only wished to be permitted to make my explanation.

8926 Q. I asked your opinion as a public-spirited citizen, whether you thought there was any public purpose to be subserved by maintaining this present capitalization?

A. I do; I think it will work its way out in the end; but it is a tedious route; there is a great deal to go through with.

Q. Do you think it is fair that the public should be charged as an element in the price, a seven per cent. dividend on $39,000,000?

A. I do, if that is the present capitalization, and if the company has earned it.

Q. Do you know how the valuations of these various properties were arrived at in the consolidation?

A. I don't know the detail.

Q. Was not it explained to the board of directors of the Manhattan?

A. The board had a committee on adjustment of the interests of each, and they were months arriving at its adjustment.

Q. When did that begin?

A. I couldn't tell you; several months ago.

Q. It begun before the act authorizing the consolidation was passed, did it not?

A. I think they were justified in the laws as they then existed.

The Chairman: Strike out the answer to the last two questions and take a new answer to each question.

The Witness: Through the medium of the adjustment committee, that is my answer.

The Chairman: That is not the principal question.

The Witness: The adjustment committee which was appointed, one from each interest, met from time to time.

Q. You are answering the questions as if asked through whom these adjustments were effected—the question is how it was effected.

A. I couldn't tell in any other way except through the committee; they made their report in proper time, and the board acted upon it.

8927 Q. That is not an answer.

A. I couldn't tell; I don't know how it was; I was not on the committee.

Q. Did not the committee which was appointed for that purpose make a report to the board of directors of the Manhattan Company indicating how it was done?

A. I am not aware of any report being made; the facts in a general way may have been stated, and I thought it was best.

Q. What facts were stated?

A. I don't recollect.

Q. How heavy was your interest in the Manhattan and the New York?

A. I forget what they were respectively; in the consolidated interest I think I have about one thousand shares.

Q. Whether having an interest as heavy as you have just described in these two companies you have approved and voted for consolidation without any knowledge at the time of the basis of the capitalization that was agreed to. Do you want the committee to understand that?

A. No, sir.

Q. I did not suppose you did. Now have you any recollection of the basis?

A. I have not, sir.

Q. Please tell the committee who are the men who will explain that basis to the committee from actual experience?

A. I suppose the officials of the respective companies.

Q. Name them—whom you refer to.

A. The president of the Manhattan and the president of the New York—General Roome and Mr. Lees ought to know.

Q. Did General Roome represent the Manhattan on the committee of adjustment?

A. It was Mr. Smith.

Q. Do you know who represented the Knickerbocker in that adjustment?

A. No, sir.

Q. Or the Municipal?

A. No, sir.

8928 Q. Or the New York?

A. I think Mr. Lees did.

Q. Do you know who represented the Harlem?

A. I do not.

Q. The Metropolitan?

A. I think Mr. Zollikoffer; I don't know that, but I think so.

Q. Have you been on the finance committee, or any committee of the Consolidated, whatever?

A. The executive committee only.

Q. Will you please tell the committee what was the necessity of an executive committee authorizing loans and pledging the securities of the Consolidated?

A. The duties of an executive committee—they are the working committee; when the officers require any instruction they usually get it from that committee.

Q. Do you remember about any loans being authorized?

A. No, sir, not now.

Q. Some loans were authorized, the records show?

A. Yes, sir, whatever they were.

Q. Some of them were to pay for the debts of the old companies?
A. Yes, sir; and I guess the most or all of them; the bonds of some companies have been paid, I think; I am not sure about that; the treasurer can tell.
Q. If you recollect the purpose for which the authority was given to raise these loans?
A. For that purpose I should think, the last loan was for the payment of bonds, I think, I am not sure; no, I don't think it was—the minutes will show; my memory may be at fault.

(By the CHAIRMAN:)

Q. Have you any recollection of the purpose for which either of the three loans were effected by the officers of the Consolidated Company?
A. I think it was for the adjustment of the different interests, the payment; and I am not sure but what they had to borrow some money as it stood then for the first dividend; I am not sure about that.

8929 (By the CHAIRMAN:)

Q. Have you now any distinct possible recollection on the subject?
A. I have not.
Q. Were you present when the dividend was declared?
A. Yes, sir.
Q. Was there any report read before the board upon which it voted a dividend?
A. The general statement was made that the dividend had been earned.
Q. Has no officer presented any report upon that subject?
A. I don't think there has.
Q. You are aware that the Harlem works have been shut down?
A. Yes, sir.
Q. Is it the purpose to close any others?
A. I couldn't tell you; we are agitating it.
Q. Is it the purpose to sell the Harlem properties?
A. I don't know.
Q. You have not made any loan to the Consolidated?
A. No, sir.
Q. Has your bank?
A. No, sir; where I am a director they have; that is done by the officers: I know nothing of the details of it.
Q. You are not on the committee there?
A. I am a director only; the officers do as they please.
Q. What officers make these loans?
A. The president and cashier.
Q. Name them.
A. Mr. Pyne and Mr. Palmer.
Q. I want to repeat a question to you and ask you whether you wish this committee to understand that owning as you do a substantial block of stock in the Manhattan and New York Companies, and being a director in both of them, you voted for and approved, and promoted this consolidation, without ever having examined any

paper by way of report, or otherwise exhibiting the properties and proposed values of the constituent companies that were to 8930 compose it, and the basis upon which the consolidation was had?

A. I do, sir; emphatically.

Q. In that respect you relied upon the judgment of your associates?

A. Yes, sir.

Q. Whose judgment did you rely upon in that respect?

A. I don't think that I could say that exactly; I relied generally upon those that I associated with—the other directors of the Manhattan and the New York—and then the market values of the securities; it is a question with me whether I shall sell my stock or continue in a general way.

Q. Will you designate by name the associates you relied upon?

A. I had rather not do that; I rely upon my own judgment generally rather than upon anybody else.

Q. Well, now assuming the value, at the time, of your Manhattan stock to have been 320, and that the proportion of the consolidated stock you received for the Manhattan was, as shown by the books, 298½ for each share of the Manhattan, and assuming the price of the consolidated stock at that time, immediately after it was listed, to have been about eighty-four, which is the price at which it was quoted, there would have been an actual loss on every share of the Manhattan which you exchanged, of 215; explain how that transaction happened?

A. I may have made a great many mistakes; that is one that might have happened; I looked at the future of the enterprise and its results; it may not be as I anticipated; the future must take care of that.

Q. Did not that future depend upon a dividend upon the consolidated stock, and an enhancement of the price of the consolidated stock above eighty-four?

A. Well, that would be a natural consequence.

8931 Q. Do you want the committee to think that it would be your judgment in favor of the consolidated stock at that time?

A. I don't think I thought very much of those circumstances then; I went into this thing with a hopeful view as to the future; it would have been better for me to have sold at 320 those stocks and gone out.

Q. As a man of experience in large affairs, and particularly in gas companies in the city of New York, will you tell the committee whether in your opinion the present situation is calculated to reduce the price of gas to consumers?

A. I think it will if we are permitted to go on with our enterprise and make the necessary economies and changes which will develop themselves.

Q. None of which have been made this past year.

A. No, sir; we have not had much else to do but wait upon your honorable committee.

(By the Chairman:)

Q. You mean by that that you have been preparing for this examination?

A. No, sir; but their time has been taken from their duties.

Q. Preparing for this examination?

A. No, sir; it don't require any preparation.

Q. But not much time has been taken in actual attendance before the committee; it must have been in anticipation of it?

A. Oh, no; perhaps I ought not to have made such a remark, Mr. Chairman; the officers have complained of being called away.

The Chairman: Such a statement should not have been made to the committee.

The Witness: I beg to withdraw it, Mr. Chairman.

The Chairman: It is withdrawn.

Q. Do you expect a ten per cent. dividend on the consolidated stock?

A. No, sir.

8932 Q. Do you expect a seven per cent. dividend?

A. I don't know; I hope so.

Q. You paid three and one-half per cent.?

A. Yes, sir.

Q. Do you know whether a dividend in December is warranted?

A. That is my impression; I hope so, at least.

Q. If you are aware that in order to pay a dividend of ten per cent. for the first year, one and a half millions in economics to which you have referred would have to be attained, would it in your judgment be practicable?

A. No, sir; I don't think it is practicable or reasonable.

Q. You can't get any such economics, can you?

A. No, sir.

Q. Before a dividend is declared is it or is it not reasonable, in your opinion, to allow a certain sum for depreciation of the plant?

A. Yes, sir.

Q. Are you aware that that has not been done?

A. I would be under the impression it was done; well-managed companies would always do that.

Q. Do you know whether it was done?

A. I do not.

Q. As a director you would insist upon its being done if you had the power?

A. I don't know.

Q. That would depend upon circumstances?

A. Yes, sir.

Q. Have you any papers at all relating to this consolidation?

A. None whatever; I attended the monthly meetings and heard the statements and worked for the dividends.

(By the Chairman:)

Q. If instead of making the proper allowances for the depreciation in the value of the property of the company which would in effect reduce the dividend, and the company should neglect to do that, 8933 and should borrow money which would in effect diminish the dividend, would that be conducting the business, in your judgment, according to a legitimate business method?

A. No, sir; I would say I got into this thing in good faith looking at it in the light of an investment rather than the diminishing of the price of gas.

The CHAIRMAN: The stenographer will please note that yesterday the minute-book of the finance committee was produced by Mr. Gawtry, and left with the Chairman.

OSCAR ZOLLIKOFFER, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are a director in the Consolidated Company?

A. Yes, sir.

Q. And what officer are you?

A. Chairman of the executive committee and second vice-president.

Q. And also manager of the Metropolitan branch?

A. No, I have not been appointed yet; I generally take charge of it.

Q. You are president of the Metropolitan?

A. I was.

Q. You was also a member of the pooling committee from 1880 until the time of the consolidation?

A. Yes, sir.

Q. Was you also a member of the committee on consolidation that was formed in the year 1884 with a view of consolidation?

A. Yes, sir.

Q. Who are your associates on that committee?

A. One from each of the other companies.

Q. Name them.

A. Mr. Smith for the Manhattan, Mr. Lees for the New York, Mr. Moss for the Harlem, Mr. Gawtry for the Knickerbocker, and Mr. Francklyn for the Municipal.

8934 Q. Did anybody represent the Mutual?

A. Mr. Kennedy for a time, but not to the end.

Q. Who represented the Harlem?

A. Mr. Moss; I don't know exactly whether he was regularly appointed, but he attended the meetings as such.

Q. What did they call that committee?

A. The pooling committee.

Q. No, the other committee.

A. I don't know of any other name that they have.

Q. During the sessions of the pooling committee do you remember plans of consolidation having been under discussion?

A. They were repeatedly.

Q. Do you remember any written plan of consolidation?

A. Not at all well—there were minutes kept in the regular minute-book, and they submitted also papers—statements.

Q. What was the first paper of that kind that you remember of?

A. I would have to look over my memorandum before I could give any correct reply; they were considered, as much as I know, to be kept by Mr. Smith, who acted as secretary.

Q. By that you refer to what?

A. The minutes of the daily proceedings.

Q. In addition to the minutes, were there statements of valuation?

A. I took a copy for myself from the statements; the same as you find submitted from them; mine is only a copy for myself.

Q. When was that?

(Witness here presented a book to the counsel.)

Mr. TREMAIN: Witness produces a book and states that it is a copy which he retained for himself.

The WITNESS: The different values of the Metropolitan Company—the property and values as they existed before the consolidation.

8935 Q. And according to the schedules that have been submitted here?

A. I am not positive that every thing has been agreed finally as to the value to the same point, but I suppose it was.

Q. I wish to ask your best recollection about any plans of consolidation that you remember having seen or heard read anterior to the preparation of these schedules?

A. There were so many, and I have differed with so many, that I don't know exactly which were adopted from time to time; the minutes must show all that.

Q. The minute-book of the pooling committee shows that there was before the consideration of the committee with a view to consolidation in the year 1884, and also in the year 1883, one or more plans of consolidation—do you remember that?

A. Yes, sir.

Q. Do you remember who had those writings—was it not Mr. Smith?

A. Mr. Smith.

Q. Have you personally any of those writings or plans, or copies of them?

A. I may have; I don't know for certain; I would have to look over again my drawers or papers.

Q. You understand now what papers I allude to?

A. Yes, sir; it must show them to be in the hands of Mr. Smith; he has been secretary of that committee.

Q. If you have any copies you will produce them subsequently?

A. Yes, sir.

Q. Will you please refresh your recollection by looking at Exhibit "C 1," and say whether you have ever seen that before? (Book shown witness.)

A. I suppose that is an exact duplicate.

Q. Of what you have produced?

A. I suppose so.

Q. Have you Mr. Rowland's certificate?

A. I think we have; I must see my son who keeps those 8936 papers; I suppose it was given either at the office of the Consolidated or in the office of the Metropolitan branch; I think it is correct in the duplicate, as much as I recollect.

Q. I observe exhibit "C 1" bears date August 5, 1884, and Exhibit "C 2," a recapitulation of it, bears similar date?

A. Yes, sir.

Q. Do you remember how long before August, 1884, these schedules were prepared with a view to consolidation?

A. For several months; I could not agree at once—they negotiated for several months, but I couldn't tell exactly for how long.

Q. The schedules that were the subject-matter for final consolidation were prepared several months prior to August, 1884?

A. Negotiating or agreed about—agreed on one part and then another part; in that way.

Q. Agreed on different items?

A. Yes, sir; one company and then another company.

Q. The schedules of the companies were agreed upon several months before they were acted upon in November?

A. Yes, sir.

Q. They were the subject-matter of negotiation?

A. Yes, sir.

Q. Was not each company informed of the properties of each of the other companies by these schedules in whole or in part, for the purpose of consolidation?

A. Yes, sir.

Q. Were they not informed also of their values?

A. Yes, sir, in the same way.

Q. Do you now remember that that was the case as early as the year 1883?

A. I could not possibly say; maybe the negotiation was planned unknown to me for a long time, but I couldn't say how long.

Q. Allow me to refresh your recollection by calling your attention to a part of the proceedings at a meeting of the pooling 8937 committee in December, 1883. (Reading from a resolution.) Can you now not say that the schedules as the basis for consolidation exhibiting the properties and their values, were prepared during the year 1883, and submitted?

A. A similar resolution was passed at the pooling committee, and the minutes ought to show it.

Q. These are the minutes?

A. I know that such a thing was passed, but I don't recollect the date.

Q. When that resolution was passed had not these schedules been prepared?

A. I don't think so; I think they were afterward prepared.

Q. Had not something been prepared exhibiting the values of the properties of the various companies?

A. Maybe; I don't know exactly when; a great many statements were submitted and we could not agree upon them, and then they would come up again until they were finally agreed upon.

Q. When were they finally agreed upon—was it when this resolution was passed?

A. There was a resolution that we should try to consolidate but there was no values fixed; nothing of that kind; nor particulars arranged.

Q. With that exception it was substantially agreed upon in December, 1883?

A. I did not consider it agreed upon until I consented to it and I never consented to it except on the final.

Q. Please look at Exhibit "C 2," and tell me whose writing that is?

A. A part of it is my writing.

Q. What is that paper?

A. A preliminary paper; whether this was adopted or not I couldn't say without comparing notes together; at home; but this paper was submitted.

Q. It was dated August, 1884.

(By Senator Robinson:)

8938 Q. Did not other companies submit the same kind of figures to you during 1883?

A. I suppose so; I have not the least doubt but they did.

Q. And submitted them to your company?

A. No, sir; to the pooling committee.

Q. Of which your company had a representative?

A. Yes, sir.

Q. This estimate of their value of the different companies was submitted to the pooling committee as early as 1883?

A. Yes, sir; this is August, 1884.

(By Senator Robinson:)

Q. Is it your recollection that that is the first paper that you submitted to this pooling committee?

A. No, sir; from time to time I submitted one or another; this is only one; I don't know whether we had some before or after.

Q. This was submitted in August, 1884?

A. Yes, sir.

Q. Whether or not you submitted any of that kind before August, 1884?

A. I couldn't tell; I would have to look over the papers.

Q. I find on another exhibit that you had a meeting as early as 1883; I find you was present at a meeting in December, 1883, for a plan of consolidation of these companies?

A. Yes, sir; I was present.

Q. Up to that time had not you drawn some of these schedules, or these proposed schedules, to take with you to some of those meetings?

A. I suppose so; I have not the least doubt of it.

Q. Did not others bring some too?

A. Yes, sir; but they took them back again.

Q. They brought them there to make a basis?

A. Yes, sir; most every one did bring them.

Q. What became of those papers?

8939 A. Some of them we left there; the others,—a great many took them back again with them; changed them from one meeting to another.

(By the CHAIRMAN:)

Q. Did you submit a number of schedules of this sort and leave them with the secretary of the pooling committee?

A. As a general thing, we left them there; it was only a preliminary paper; I think they were all left with the secretary.

Q. Would you expect him to have them now?

A. Yes, sir; if they were in my hands I would have them?

Q. Who valued your real estate, finally?

A. Mr. Rowland.

Q. No, the real estate?

A. Mr. Lewis J. Phillips.

Q. Who valued the real estate of the Manhattan?

A. I couldn't tell exactly who did; informally we had it also done.

Q. Who valued the real estate of the New York and Harlem?

A. I really couldn't say; we had different estimates submitted, and finally they submitted one which was adopted; the value for the New York and Manhattan; ours was valued by Mr. Phillips.

Q. Harlem was valued by whom?

A. I don't know.

Q. During those talks in 1883 the total capital of the properties of the consolidated companies was a subject-matter of conference, was it not?

A. Yes, sir.

Q. And that was upon the basis of the Mutual being in the consolidation?

A. Yes, sir.

Q. In respect to the values—who selected these gentlemen to make the valuations?

A. I think each company had its own selection.

Q. When was it first proposed that they should be appraised?

8940 A. The minutes must show that; the minutes of the pooling committee must be there.

Q. The minutes of the pooling committee don't show any agreement in respect to appraisements; they do show that in December, 1883, it was agreed that they should consolidate and "that the plan for consolidation accepted by the committee be referred as a basis to the committee of one from each company to report a plan in full detail for the consolidation of all the companies, with power to call in legal counsel;" that was at a meeting held in December, 1883; don't you remember some occurrences, during the year 1884, in respect to appraisements of the property?

A. I recollect that it was agreed that we should have one man to appraise one style of gas works and another one to appraise the other style of gas works—I mean coal gas works and water gas works.

Q. About when was that understanding arrived at?

A. I couldn't tell exactly when, but I suppose about March or April.

Q. Who were named as competent men for that purpose?

A. We named William Palmer—our company named him; and others proposed Mr. Rowland; I think it was left to each one of the companies; for instance, the Mutual did not employ either of these two.

Q. Whom did they employ?

A. I couldn't tell; they submitted that this is the statement, and that no other shall stand.

Q. Kennedy submitted such a statement?

A. Yes, sir; their own valuation.

Q. That valuation included all the real estate and plant?

A. Yes, sir; I think so; as much as I know.

Q. You remember about when that was?

A. That was either June or July probably.

8941 Q. How did it happen that Rowland finally appraised the Metropolitan property after you had proposed Palmer?

A. Palmer could not get through so quick as the other; it took a great deal more time, and the company wanted to finish the business quicker.

Q. What gentlemen wanted to finish the business quicker?

A. All of them, I think; most of them; I couldn't exactly recollect; Mr. Palmer appraised the Manhattan too.

Q. He appraised the gas plant of the Manhattan, did he not?

A. Yes, sir.

Q. What else did he do?

A. I don't know whether anybody else did it, but he did it just as I know.

Q. Did you see his appraisement?

A. I saw part of it; not the full; I never saw it completed.

Q. In whose hands did you see it?

A. At the time of the meeting it was submitted.

Q. What meeting?

A. The meeting of the pooling committee.

Q. Do you remember its date?

A. I couldn't tell by heart.

Q. Do you remember the basis by which the value of the rights and franchises, so-called, were arrived at?

A. I don't recollect exactly how; partly by value of stocks as they sold; but I don't know what else.

Q. Don't you think that the price of gas is capable of being cheapened, or likely to be cheapened to consumers of the city, by maintaining this consolidation?

A. I am not sufficiently a judge, but I think competition is always the best thing.

Q. Then this has a tendency to destroy competition?

A. To make it cheaper.

Q. It tends to destroy competition, does it not?

A. Yes, sir.

8942 Q. Do you remember the value of your Metropolitan stock —I mean its salable value in 1884—about what it was worth?

A. It sold at 245 and higher; I bought it myself at 245 100 shares —I paid that for 100 shares; it was before the consolidation; I could not give the date of it.

Q. What was the business advantage, in your opinion, for the Metropolitan to enter into this consolidation upon the basis it did enter it?

A. I may be prejudiced, but I say none whatever.

Q. If, independent of your interests as stockholder or as a director in the Metropolitan, you can express an opinion, what is the public benefit to the gas consumers in the city of New York in entering into this consolidation?

A. That it may prevent too often interrupting the streets by the laying of mains by small companies.

Q. That is all the substantial benefit?

A. That is the main benefit, I think.

Q. In your opinion, by that consolidation was the price of gas to consumers likely to be cheapened?

A. I could not possibly decide on that.

Q. If 100 shares of the Metropolitan stock at the time, or about the time of this consolidation, were worth 250, and 100 shares of the Consolidated stock were worth the price of eighty-four, and the Consolidated was given for the Metropolitan at the rate of 260, as it appears it was given according to the books, there would appear to have been a loss of over $3,000 on 100 shares of stock?

A. Yes, sir.

Q. At the price at that time?

A. Yes, sir, and that has actually been the fact.

Q. In that respect the Metropolitan stockholders at that time were the losers?

A. So far; yes, sir.

Q. Why under those circumstances, and under the circumstances you have already described, did you as an officer of the Metro-
8943 politan, execute this consolidation agreement?

A. Well, I thought that the majority of my directors—their judgment should be mine.

Q. Have you made any propositions or efforts toward inducing the Consolidated Company to lower the price of gas?

A. In a general way.

Q. Has that subject been under consideration by the Consolidated Company at any of the meetings of its directors or its committees?

A. You mean of the original committees, for instance, like myself, selected for the Metropolitan, or the conference pool.

Q. I am speaking since November, 1884; has that been a topic of consideration by any of the directors of the Consolidated or its committees, informally or formally?

A. Yes, sir.

Q. Have any papers been prepared or submitted to any of the directors or officers of the Consolidated Company on that subject?

A. It was moved in conference in the meeting to reduce the price to 175, and to 150 to large consumers, and was passed and adopted.

Q. That appears by the minutes of the Board?

A. Yes, sir.

Q. That does not change the price that previously prevailed, does it, 150 to large consumers?

A. That has been adopted since the consolidation.

Q. That was done in November, 1884, and immediately after the consolidation?

A. Yes, sir.

Q. What was the reason that the price should be lower to large consumers than it was to the general public?

A. It was more advantageous to furnish large consumers; it requires only one meter and one service to a large consumer and the same to small consumers.

Q. Does that make a difference of sixteen per cent. in the
8944 saving?

A. I don't know whether it is exactly sixteen per cent., but it is decidedly a saving; and it would be cheaper to the company to furnish the big ones at 150 than the small ones at 175.

Q. Immediately after the consolidation has there been up to the present time any consideration by the directors of the Consolidated Company, or by its committee, formally or informally, any proposition to reduce the price of gas still further?

A. It was mentioned but no action taken.

Q. When was it mentioned?

A. I couldn't give you any dates—perhaps two months ago.

Q. Who opposed it—anybody?

A. I couldn't tell you.

Q. Who favored it, if anybody?

A. I don't remember; it was not passed; that is the majority was not in favor of it.

(By the CHAIRMAN:)

Q. You don't remember who favored it or who opposed it?

A. I don't remember; no decided action was taken.

Q. The majority was against it?

A. No action was taken; it was left uncompleted.

Q. What was the reason that there is no note of that consideration found upon the minutes of the board?

A. It was only perhaps a motion made and considered and not in regular shape.

Q. At a meeting of the board of directors, held July 22, 1885, which is found on page 28 of the minutes of the board, I find a resolution:

"Mr. Zollikoffer offered the following:

" '*Resolved*, That that portion of the minutes that it is not expedient that the secretary should furnish copies of the minutes to any
person or officers of this company, offered by Mr. Sloan and
8945 passed by the executive committee on the 7th of July, be
stricken out; said resolution having been offered and adopted in violation of my rights as an officer and chairman of the executive committee and denying me such information as I think necessary for the discharge of my duties,' which on motion was laid upon the table."

Q. Do you remember an occurrence of that kind?

A. I should say so.

Q. What was the occasion of it?

A. I wanted to take copies of the minutes myself.

Q. Who didn't want you to take copies?

A. I think Mr. Sloan; I don't recollect who it was.

Q. Did you take copies finally?

A. I was forbidden; I did not take any since.

Q. Are you the chairman of the executive committee?

A. Yes, sir.

Q. Can't you take copies of the minutes of your own committee?

A. It appears not; I have not taken any legal steps to ascertain.

Q. Have you read the minutes of that committee?

A. I read them always.

Q. Do they tell of the proceedings of the committee?

A. I suppose so; I never saw any thing that was missing; they always submitted them to me.

Q. In the minutes of the executive committee concerning a meeting held July 7, 1885, at page 41, it is recorded, "moved and seconded that it is not expedient that the secretary should furnish copies of the minutes to any person or officer of this company," which was carried, Zollikoffer protesting and voting in the negative; do you remember that occurrence?

A. Yes, sir.

Q. Was there any debate on that subject?

A. Well, there was a short debate; I expressed my views.

Q. Who expressed any other views?

8946 A. I couldn't tell exactly who it was; several made remarks that it was not expedient; I didn't ask them to give me the minutes; I took them myself.

Q. Did they say why it was not expedient?

A. No, sir.

Q. Were Mr. Francklyn and Mr. Lees present?

A. I don't remember.

Q. It appears from the minutes that Messrs. Francklyn, Lees, Rutter, Sloan, Smith and Zollikoffer were present; do you remember of any papers whatever being submitted to the board of directors of the Consolidated Company touching the price of gas, or a proposition to lower it, or a proposition to cheapen the cost of its manufacture and supply—any papers whatever on those topics?

A. When?

Q. Since November, 1884?

A. It was discussed; I don't recollect any papers with it; there might be.

Q. Do you not remember some papers having been prepared and submitted specially on that subject?

A. I do not recollect it.

Q. Have you attended all the meetings of the board?

A. Except one.

Q. And of the executive committee?

A. Every one, I suppose; there might be one or so that I did not.

Q. In your opinion, are the gas consumers of the city in any way benefited by the increased capitalization which has attended this consolidation?

A. I can't say positively that they are; I am not positive about it.

Q. Assuming the necessity of paying dividends upon this enlarged capital, is there any probability, so long as it stands, in your opinion, of the price of gas to consumers becoming smaller?

A. Well, it depends on further competition.

8947 Q. If the consolidated companies met with further competition you mean to say it may be obliged to reduce the price of gas?

A. Yes, sir.

Q. The dividends then will disappear?

A. Well, in my view of it.

Q. So long as there is no competition and dividends are declared upon this enlarged capital there is no probability that the price of gas will be reduced, is there?

A. Well, the increase of gas consumers will be enormous, and therefore it would increase in proportion with the capital; it would not be too small in proportion.

Q. If the increase should be very great—I mean the increase of consumption, more works would be necessary, would they not?

A. Yes, sir.

Q. And it would require larger capital to build them?

A. The present capital would be large enough to build more works.

Q. You mean out of the working capital?

A. Yes, sir.

Q. You mean to say that sufficient stock has been reserved and issued to Mr. Smith, treasurer, for that purpose?

A. No, sir; I mean that the capital is large enough.

Q. You mean the nominal capital of the Consolidated Company is largely in excess of that which is required to meet the present demand of gas consumers in the city of New York—that is true?

A. I don't take it that way; I don't think I am a sufficient judge of that.

Q. You have said, however, you think that the capital is adequate—is not that on the presumption that some of it may be made available for increasing the works?

A. I think the capital is large enough to increase the works to a much larger production.

8948 Q. Are you aware that all of the capital has been issued except what has been reserved for working capital, and held by Treasurer Smith?

A. I suppose that is kept as a reserve for future increase.

Q. Is not that for future indebtedness of the company, $1,303,000?

A. Expressly reserved for future increase, I suppose.

Q. Don't you know that the only part of this entire capital that is reserved for the possible future wants over and above indebtedness is $1,303,000?

A. It was so at first.

Q. Has that been increased in any way since?

A. Not that I know of.

Q. No stockholders have contributed to that fund?

A. No, sir.

Q. So that any possible sum that may be utilized for the enlargement of the gas-producing works for the Consolidated Company without increased capital is in this sum of $1,303,000?

A. As much as I know that is so.

Q. Do you mean to say in your opinion that that sum is sufficient to enlarge the works, and for the probable expenditures necessary in this city for gas for many years to come, and to build additional works and gas plant?

A. In all those things it depends very much on what kind of a demand there will be; I think the whole property and everything is sufficient for a large increase.

Q. Do you remember any report of the committee on works and manufacture to the board of directors of the Consolidated on the subject of reducing the cost of gas?

A. No, I don't recollect any; it was mentioned repeatedly I guess, only on discussion.

8949 Q. Do you know of any curtailing of the expenses in conducting the business which has been conducted by the constituent companies that has been attained by reason of this consolidation?

A. Well, I think they have made reductions.

Q. Of what character?

A. At one branch—the Harlem gas works being abandoned in order to save some repairs and expenses and—we have had the intention to do some more.

Q. Of the same sort?

A. The same thing; to have some of the plant given up.

Q. Why should not such property as that then be sold?

A. There are two reasons; one is if there was hereafter an increase they would be very glad to have it again; then it is difficult for a gas company to buy land where it is known it is going to be used for a gas company; every owner asks enormous prices for it; they don't wish to have gas companies adjoining.

Q. Do you not think that if the Metropolitan Company were left alone in the conduct of their business as it was conducted before the consolidation that they could have paid a reasonable dividend to their stockholders and reduced the price of gas to consumers below what it can possibly be had of the Consolidated, with profit to that company?

A. Well, I could not exactly say anything positive about that; I might have that impression, and I have that impression; but there are a great many that always interfere in a business of that kind; I mean fresh competition in one locality where another one is already located brings down the price; therefore my opinion is always that competition is always the sole life of business, and that it is the only thing that brings it to a standard.

Q. Assuming that you had a fair production?

A. I don't know what is fair.

8950 Q. Assuming you had such a production as would enable you to supply the territory to be supplied, exclusive from interference by any other company?

A. We have had a great many ups and downs already in our company; that shows me that it is uncertain what you can do.

Q. In your opinion is the price of gas likely to be any cheaper by this consolidation than it would have been if continued in the Metropolitan?

A. I suppose not.

Q. Have you no memorandum whatever, or has any officer of the Metropolitan any memorandum relating to the basis of consolidation?

A. We must have, because we submitted it to our board.

Q. Will you bring such a memorandum before the committee?

A. Yes, sir; we have the same in the general office.

Q. Any memorandum relating to the consolidation which was submitted to the board. Will the books of the Metropolitan Company show the cost of its plant and real estate?

A. The cost and expense from time to time was added to it; yes, sir.

Q. Your company bought some of the property of the Manhattan, did it not?

A. Yes, sir.

Q. What year was that?

A. Eighteen hundred and fifty-nine, I think, or 1860.

Q. Eighteen hundred and sixty-three?

A. Yes, sir; perhaps so.

Q. It was paid for in stock?

A. Yes, sir.

Q. Of the Metropolitan?

A. Yes, sir.

Q. Issued at par?

A. Yes, sir; it was then at fifty cents.

Q. They took it at fifty cents on the dollar?

A. Something like that.

Q. The price of the property was fixed on that basis?

A. I think so.

Q. Also the bonds?

A. Par, cash.

Q. Was not that cash raised by the bonds?

A. No, sir; we had no bonds at that time.

8951 Q. Was not there a bond and mortgage of $165,000?

A. There was a mortgage.

Q. That was turned into cash?

A. Yes, sir.

Q. They were all paid finally?

A. Yes, sir.

Q. That stock became par and over?

A. Yes, sir.

Q. And it was held by the Manhattan Company?

A. It was divided between the stockholders of the Manhattan Company.

Q. Do you know how it was divided?

A. We bought from them all their services and meters in our district, and that was a consideration, and paid in a mortgage bond.

Q. Do you know the total?

A. I couldn't say.

Q. One million one hundred and seventy-eight thousand dollars for stock?

A. Yes, sir.

Q. Was not that stock sold and divided among the stockholders of the Manhattan?

A. It was delivered to them; what was done after that I don't know.

Q. What was the cost of the property thus sold to the Manhattan?

A. I think the amount of what you mean was $1,178,000.

Q. That property did not cost $1,178,000?

A. Yes, sir.

Q. Is not it a matter of fact it did not cost the company but $600,000?

A. Our company?

Q. Yes.

A. I don't think so.

Q. Please look at your books and see if that is not so. The expert thinks that that is the substance of that transaction.

A. All the meters and the services and pipes that we bought from the Manhattan Company were valued at so much, and then the real estate was valued at a certain amount, and then we had to sell the stock at the then market value.

8952 Q. The cost of that property, on the books of the Metropolitan which was thus transferred, being part of the gas producing plant and real estate of the Manhattan, was $685,301.02; that is made up of real estate, $105,000; Sixty-fifth street station, $213,000; mains, services and pipes, $327,500; also meters, etc., $34,801, making in all $685,301.02—that is what the Manhattan charged the Metropolitan for that property; $1,178,000 was paid for it by a bond and mortgage. What do you know about the $500,000?

A. The stock sold at fifty cents in the market, and by and by it increased its value.

Q. Where is the difference charged to?

A. We had no authority then to issue so much stock; it was in order to have peace with the company.

Q. Was not the difference charged to construction account?

A. I couldn't tell you; most likely it was charged to somewhere.

Q. That increased the cost of the works just to that extent?

A. Yes, sir; but we afterward reduced the cost of carrying on the works, and kept them in repair, and we made the full value up; the business of the company was carefully managed, and had increased in value.

Q. Who got the benefit of this $500,000 of stock—the Manhattan stockholders?

A. Yes, sir; at first.

Q. Did your company get it in any way?

A. It remained in our company.

Q. That $500,000 was added to the value of their plant and real estate when it went into this Consolidated Company?

A. Long before; it made their capital so much more.

Q. When you added betterments to that plant you charged those as they were made from time to time also against cost of construction?

A. Whatever was entirely new we charged to construction account, and we put some to repair account.

8953 Mr. TREMAIN: I think it would save a little time if Mr. Zollikoffer will get those memorandums he has been asked about now.

Q. Have you a sufficient memory of all the things we have asked you for?

A. I wish you would write down what you want.

The witness' examination was here suspended.

Recess to 2:30 o'clock.

Hearing Resumed.

NEW YORK, *Nov.* 25, 1885, 2 p. m.

PERCY R. PYNE, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are a director of the Consolidated Company?

A. Yes, sir.

Q. What of its constituent companies were you interested in?

A. In the Manhattan and the New York.

Q. You were one of the directors of the Manhattan?

A. Yes, sir.

Q. And of the New York also?

A. Yes, sir.

Q. You are a member of the finance committee of the Consolidated Company?

A. Yes, sir.

Q. And of the executive committee?

A. No, sir.

Q. You were also represented in the Metropolitan?

A. As a shareholder I had an interest.

Q. You were one of its directors?

A. For many years prior to its consolidation.

Q. You were in the board of direction of the Manhattan?

A. Yes, sir.

Q. And of the New York?

A. Yes, sir.

Q. You are familiar with the details of the consolidation from 1880 to 1884?

A. Yes, sir.

8954 Q. You know about the discussions preceding the consolidation?

A. Yes, sir.

Q. Have you any memorandums relating to those discussions or to the basis of them?

A. No, sir.

Q. Did you ever have any?

A. No.

Q. Have you any reports of committees upon that subject of consolidation?

A. No, sir.

Q. Never had any?

A. No, sir; I understand you as to the formation of the company?

Q. Have you any papers at all relating to the subject-matter of consolidation?

A. No, sir, I have papers relating to the carrying out the work of the present organization of the company and its working details since last November.

Q. Have you any memoranda whatever on the subject of consolidation?

A. None whatever.

Q. Made prior to November last?

A. No, sir.

Q. Did you ever have any?

A. No, sir.

Q. Did you ever see any such papers?

A. No, sir.

Q. Were none ever submitted to the board of directors of the Manhattan Company?

A. I have no recollection personally; the terms of the consolidation were submitted to the board, and they were then submitted to the stockholders; the articles of agreement of consolidation were acted upon by the respective boards—acted upon by the committee on consolidation; they came to the respective boards and then they were submitted to the stockholders.

Q. Was there not a committee on consolidation appointed by the Manhattan board?

A. Yes, sir.

Q. When was that appointed?

A. This was long ago; I could not give the date.

Q. About 1880 or 1881?

A. I would not give the exact year; I don't remember.

8955 Q. Your best recollection?

A. I have not any.

Q. Is it not true that that subject-matter was before the board, particularly after the pooling agreement was formed, and frequently thereafter—the subject of consolidation?

A. The committee reported substantial progress but reported verbally.

Q. Didn't that committee report as early as during the year 1883?

A. Not as a finality; the reports were continuous; they reported progress over and over again.

Q. In 1883?

A. I could not tell you.

Q. It was a year or two prior to the consolidation?

A. Some time.

Q. Were any of those reports in writing?

A. All the reports which I have recollection of were verbal.

Q. Have you any recollection whatever of any report in writing?

A. The first report I recollect any thing about was the report of the committee on consolidation, which came to us in a shape for us to act upon and vote.

Q. I find in the records of the meeting of December, 1883, a note of a plan of consolidation which had been accepted by the committee, and which was referred to another sub-committee, as a basis for a consolidation. Does that refresh your memory?

A. No, I can't say that it does.

Q. Are you perfectly sure that no paper was ever presented to the board of directors on that subject prior to the fall of 1884?

A. I have no recollection of it.

Q. Have you any recollection substantially of any of those verbal reports that were made by the committee on consolidation to the board of directors of the Manhattan Company at any time prior to the year 1884?

A. I recollect that reports were made verbally.

8956 (By the CHAIRMAN:)

Q. Have you any recollection?

A. I have none; I have no special recollection with reference to it.

Q. Who is the individual that ever made such a report at any time to your recollection?

A. It was made by the members of the committee, I think Mr. Smith and Gen. Roome.

Q. To the best of your recollection, then, no report was made to the board of directors of the Manhattan Company prior to the fall of 1884 upon the subject of consolidation except a verbal report, and such reports were made by Mr. Smith or Gen. Roome?

A. Yes, sir.

Q. Is there any member of the board of directors who would be specially familiar with the substance of such reports, other than Mr. Smith or Gen. Roome, to whom you would refer the committee for that?

A. The report at large? I can't particularize any one; the board had appointed their committee to refer—the reports being made at the general meeting of the board; I can't remember.

Q. Have you any information yourself as to the basis on which the agreement of consolidation was arrived at prior to the summer of 1884?

A. No information except what is set forth in the articles of agreement.

Q. You did not have any thing else except that relating to the basis—I mean the formal articles of agreement?

A. Those are the only ones we ever assented to.

Q. Was any thing ever said upon the subject of the total capital for a consolidation prior to November, 1884?

A. Yes, sir.

Q. As a matter of time when did you first hear that broached?

A. I should think about a month before that.

8957 Q. Don't you know the papers were dated September 29?

A. No, sir.

Q. Don't you know, as a matter of fact, that the subject-matter of capital was discussed early in that year?

A. I was not on the adjusting committee; I could not tell; all my relation to it was in the board.

Q. Was it ever discussed with you except in the board?

A. No, sir.

Q. Did you ever hear that subject-matter discussed except in the board?

A. Yes, sir; certainly.

Q. You had heard the subject-matter of consolidation mentioned, and you had urged it for years?

A. Yes, sir.

Q. During all that period was the subject-matter of capitalization ever alluded to?

A. I could not tell you.

Q. During the period that you had heard this subject discussed touching consolidation you had heard the subject of capitalization alluded to?

A. Yes, sir.

Q. By whom?

A. The members of the board; I said as near as it could be done I was in favor of it on equitable grounds.

Q. Do you remember a plan of capitalization alluded to?

A. In detail?

Q. You know what a plan means?

A. Yes, sir.

Q. Did you hear a plan of capitalization alluded to?

A. Yes, sir.

Q. What plan did you hear first?

A. The only plan I heard was the capitalization of the company upon an equitable basis in regard to the value of its properties.

(By the CHAIRMAN:)

Q. Did you hear any thing said during the period referred to by Mr. Tremain, as to what would be an equitable plan or basis of valuation?

A. No, sir.

8958 Q. When did you first hear any thing respecting a plan of valuation?

A. On the report of the committee it came to me.

Q. Was that report in writing?

A. I mean the articles—the terms which the committee agreed upon and brought to the board for action.

Q. Was there ever any report in writing signed by any of the board of directors?

A. As an agreement of consolidation?

Q. Was there ever any report in writing signed by any of the board of directors?

A. I have no knowledge of any.

Q. So far as you know this last scheme, resulting in the agreement of consolidation, arrived at its perfection in the articles of agreement with out any preliminary papers whatever that ever came before the Manhattan or to your information?

A. Yes, sir.

(By the Chairman:)

Q. Relating either to the valuation or the method of making it; is that true?

A. I heard general desultory remarks or conversation, and nothing else.

(By the Chairman:)

Q. You say you never saw any preliminary plan of consolidation or valuation in respect to either its amount or the method by which it should be reached?

A. I heard from the committees from time to time their report of progress; that's all I heard on the subject.

Q. When is the first time you heard any figures named in that connection?

A. On the report of the committee to the board.

Q. Did you ever consider whether $3,000,000 was a proper and fair valuation for the property, rights and franchises of the Harlem Company?

A. That was considered by the committee and not by me.

8959 Q. Did you ever consider whether $3,000,000 was a proper and fair valuation for the property, rights and franchises of the Harlem Company?

A. I considered it so; the committee reported that they had investigated and I believed it to be correct.

Q. You considered it to be so at that time?

A. Yes, sir.

Q. And not before that?

A. I had no knowledge of that company except through the committee.

Q. You mean to say that prior to the time in November?

A. Or when the committee reported.

Q. You had no knowledge of the values upon which the consolidation was proposed to be based?

A. No knowledge.

Q. No knowledge or information?

A. No.

Q. Did you ever see such papers for instance as Exhibit C. "I." (paper presented to witness)?

A. I believe I never saw that paper.

Q. Did you ever see a paper similar to this, representing the properties of the companies?

A. I have no recollection; I was not on that committee.

Q. You voted to consolidate with a capital of the amount of the fair aggregate value of the property, rights and franchises of the constituent companies?

A. I did most emphatically.

Q. As an item of that capitalization it appears that for the property, rights and franchises $7,781,000 of the capital has been awarded out of a total of $39,078,000. Will you please state to the committee what in your opinion, as a director of the Manhattan and as a director of the Consolidated, that part of the capitalization is based upon?

A. I think the valuation of the franchises made by the committee
and by comparison with what I got for my own stock, which
8960 I certainly would not have sold for less than I got stock for—
I mean my old stock in the old company—I would not have
sold my stock that day for what I got out of the Consolidated Company.

The Chairman: That is not responsive.

Mr. Tremain: I think the answer better stand and let the question be repeated to him; he was asked for his opinion; have you any other answer to give, asking for your own opinion?

A. When I saw the adjustment which was made upon those different companies coming in, those which I had personal knowledge of, I considered they put in but fair valuations, including their property, rights and franchises; I could have sold my old stock for more than I got in the Consolidated when I got it.

Q. You think the valuation was brought up to the market value of the Manhattan stock?

A. It represented it but I didn't think it was brought up in the sense in which you mean it; it represented it.

Q. You think the valuation was brought up to the market value of the Manhattan stock?

A. No, sir; it corresponded nearly with the value, the market value of the stock at the time of consolidation.

Q. Do you mean to say inasmuch as the stock of the Manhattan was at that time worth about 320 in the market, that for that reason the capital was so adjusted that you should receive for the new stock at the rate of 298 and ½ for one share of Manhattan?

A. I did not get that; it was worth 320.

The Chairman: That is not an answer; repeat the question.

Q. Do you mean to say inasmuch as the stock of the Man-
8961 hattan was at that time worth about 320 in the market, that
for that reason the capital was so adjusted that you should
receive for the new stock at the rate of 298 and ½ for one share of the Manhattan?

A. I did not receive it so.

Q. That is not what you mean to say?

A. The valuation appeared to me to be fair.

The Chairman: Repeat the question.

Q. Do you mean to say inasmuch as the stock of the Manhattan was at that time worth about 320 in the market, that for that reason the capital was so adjusted that you should receive for the new stock at the rate of 298 and 1-2 for one share of the Manhattan?

A. I don't mean that it was or *ought* up to that; it was not brought up to meet a market value, but a valuation of course; it did correspond to the market value.

The CHAIRMAN: Then you do not mean to be understood just that way; repeat the question.

Q. Do you mean to say inasmuch as the stock of the Manhattan was at that time worth about 320 in the market, that for that reason the capital was so adjusted that you should receive for the new stock at the rate of 298 and 1-2 for one share of the Manhattan?

A. No, sir; I don't say so.

Q. Was the stock, at that time, worth 320 in the market?

A. I don't know; it may have been so; I think the value of the stock was in the neighborhood of 300.

Q. When?

A. Long in the early part of 1884.

Q. When was it 320?

A. I don't know; I have got my stock and that is all I know about it; I couldn't tell whether it was up or down.

Q. Assuming the value of the Manhattan stock at that time to have been 300, and that you received, as appears by the books, 298 and 1-2 in shares of the new stock for the old, and that the new
stock at that time was worth as it appears to have been
8962 quoted at eighty-four; it appears, therefore, by such a trans-
action to be a loss on one share by the transfer, or about $50;
will you please tell the committee where there was any profit to yourself as a stockholder of the Manhattan?

A. There was none.

Q. Was there ever any consideration, as a stockholder, to do it?

A. No, sir.

Q. Were there any public reasons that influenced your action as a member of the board of directors of the Manhattan Company in accomplishing this consolidation?

A. As a member of the board of directors there was unquestionably.

Q. What public advantage then appeared likely from this recapitulation of $17,000,000 to about $39,000,000?

A. To reduce the price of gas.

Q. Now, will you please state to the committee how, in your opinion, the price of gas to consumers was to be reduced by this enlargement of capital from the capital stock of the constituent companies, which was then $17,000,000, to a capital represented by $39,000,000 in the consolidation?

A. The original capital being simply nominal the values were transferred at a fair price to the Consolidated Company; I mean to say this, that unless we could take some measures to check the constant tendency for new additional gas companies, with new capital, that we never would get the price of gas down.

Q. If you didn't prevent competition it would be impossible to reduce the price of gas?

A. Yes, sir.

Q. You thought that by creating a monopoly for furnishing it that, therefore, the price would be low?

A. We could not create a monopoly; it is the constant addition of capital to keep the price up.

8963 Q. In your opinion is not a reasonable dividend a fair element in the cost of gas?

A. Certainly.

Q. Do you think that the companies forming the constituent companies, at the time of this consolidation, and which appeared to be capitalized at a nominal capital of $17,000,000, were paying enough to make it a reasonable dividend?

A. Yes, on the value of the property; not on the nominal capital.

Q. Do you think there was being paid in 1884 a fair dividend on the $17,000,000 of gas capital represented by the share capital of these constituent companies?

A. Taking that capital at the market price I do.

Q. Do you think that there was being paid in 1884 a fair dividend on the $17,000,000 of gas capital represented by the share capital of the constituent companies?

A. Certainly.

Q. Will you say it tended to lower the price of gas by necessitating as an element of its cost a dividend on a nominal share capital of $39,000,000 instead of $17,000,000?

A. That capital representing the value, and with an element of competition from time to time, I do.

Q. Do I understand you to say that you think it is a fair element in the cost of gas to include a dividend upon the difference between the share capital of $17,000,000 of the constituent companies then represented and the share capital of $30,078,000?

A. If the share capital represents the actual capital I do.

Q. Do you think it is a fair element in the cost of gas to charge the public with a dividend upon the accretions of value which you say existed between $17,000,000 and $39,000,000 because of the absence of competition?

A. The reduction of the dividend being made equal to it I do.

8964 Q. What in your opinion would be a fair and reasonable dividend upon the actual capital invested in a gas plant?

A. In the gas plant, the gas process being constantly liable to change, I should think ten per cent. would be considered a reasonable dividend.

(By the Chairman:)

Q. Does the money and the market value at the time of other property, if there be any put into a concern, represent the actual stock of that concern? Would it, or would it not, represent it?

A. I want to answer the question properly; if you say the present market value——

(By the Chairman:)

Q. I mean the question as it is put?

A. It does so in the Consolidated Company.

Q. Does it make any difference whether it was consolidated or not?

A. I mean to say this, if we bought lots forty years ago and paid

$200 a piece for them and could to-day sell them for several thousand dollars $7,000 a piece, that is the value of what they are worth; if you will put it at the present time; I could not answer it; will you say the existing market value instead of at the time? I don't know how to answer it.

(By the CHAIRMAN:)

Q. Would this be your answer: "Yes, it would, plus the increase, if any, of the value of the real estate, if any was put into the concern?"

A. That increase in value and other properties acquired by the company?

Q. What other properties?

A. Mains and meters, and we are putting in new additional mains.

Q. Do you put in better mains than you had before?

A. New; they are calling upon us all the time for new.

8965 Q. My question covers that; does the money and the market value at the time of other property (if there be any put into a concern, represent the actual stock of that concern? Would it or would it not represent it?

A. It would in valuation of real estate and assets.

Q. What do you mean by assets?

A. All the properties of the companies; if the property was bought a great while ago at a low price the present value should be represented.

(By the CHAIRMAN:)

Q. Is the property put into a gas concern the capital of that concern, in your opinion?

A. Yes, sir, provided the valuation is correct.

(By the CHAIRMAN:)

Q. Is the property put into a gas concern the capital of that concern, in your opinion?

A. Of course it is.

Q. Do we understand that in your opinion the capital of a gas company consists of money that was put into that company and the accretions of value of it ensuing therefrom?

A. And the value of its business.

Q. It constitutes a part of its value. Does it constitute a part of its capital—does it constitute the capital?

A. Yes, in connection with its good-will and franchise.

Q. Would not the good-will and franchise be valued separately from the property in ascertaining such capital in that way?

A. I should think so.

Q. How would you value the property if you were going to value it separately from the good-will?

A. At its actual value; I should get appraisers, disinterested men, to look into and report upon it.

8966 Q. And if their appraisement appraised the property upon the condition that it should be used as a going concern at the place of appraisal would you still add the good-will to the value?

A. I would separate it from the business.

Q. And if their appraisement appraised the property upon the condition that it should be used as a going concern at the place of appraisal would you still add the good-will to the value?

A. I would add the franchise.

Q. How would you arrive at the value of the franchise?

A. By examination and appraisal of competent parties.

Q. You held stock in both of these companies for a great many years?

A. Yes, sir.

Q. You are presumed to have some knowledge of the value of the franchises. You assented to this agreement of consolidation for these reasons, as you have explained. What in your opinion is a fair method of ascertaining the value of the franchises of the Manhattan and New York Companies at the time of this consolidation, if they had any so-called franchises?.

A. The report of experts.

Q. Who would be an expert?

A. The officers familiar with the gas business.

Q. And you would not be an expert?

A. No, sir.

Q. Have you any opinion as to the value of the franchise?

A. I think the franchises was valued very low.

Q. Have you any opinion of your own?

A. I have no separate opinion from the valuation arrived at.

Q. You have no opinion of the value of the franchises separate from the business?

A. Separate from the transaction itself; I mean the terms of consolidation.

8967 Q. Have you any independent judgment as to the value of the franchise of the Manhattan on the 10th of February, 1884, apart from whatever other people may have put it—acting upon your own judgment?

A. No; no separate opinion.

Q. Would it be a fair, reasonable method of arriving, in your opinion, at the fair aggregate value of the property, rights and franchises for the purpose of consolidation, and of the Manhattan and New York Companies to value the street mains, valves, etc., at what it would cost to replace them, to value the meters and services according to their size and by well-established rules and prices, and the value of real estate according to what the lots would bring in open market, and the value of the plant according to what it would cost to duplicate it, to be used as a going concern at the place where it is found and appraised; is that way fair in your opinion in arriving at the fair aggregate value of the property, rights and franchises?

A. That is a very difficult question to answer; I am really not competent to judge; incompetent to answer the question.

Q. Have you held that stock in the Manhattan since 1837?

A. No.

Q. You have not held it any year it didn't pay a dividend except one?

A. We have been without dividends *a* considerable of the time;

I was not a stockholder then when it didn't pay a dividend; I am speaking from information.

Q. There is not any year except one that it didn't pay a dividend, which was about forty years ago?

A. I could not say.

Q. What year were you without a dividend?

A. I could not tell.

Q. Whether there was such a time when it didn't pay a dividend?

A. Yes, sir.

8968 Q. When?

A. The beginning of the company, years ago.

Q. For how long a time?

A. I could not tell.

Q. They were organized in 1831 and they have paid a dividend every year except one to the present time; have you thrown all the light that your experience enables you to give upon this subject of capitalization?

A. I would like to give my reasons why I believe it is for the interest of the public to consolidate.

Q. Would it be a fair, reasonable method of arriving, in your opinion, at the fair aggregate value of the property, rights and franchises for the purpose of consolidation and of the Manhattan and New York Companies, to value the street mains, valves, etc., at what it would cost to replace them; to value the meters and services according to their size and by well-established rules and prices; and the value of the real estate according to what the lots would bring in open market, and the value of the plant according to what it would cost to duplicate it, to be used as a going concern at the place where it is found and appraised; is that way fair in your opinion, in arriving at the fair aggregate value of the property, rights and franchises?

A. I wish I were a lawyer so I could tell how to answer the question I am asked.

Q. Is the question obscure?

A. It is on the subject of capitalization.

Q. Would it be a fair, reasonable method of arriving, in your opinion, at the fair aggregate value of the property, rights and franchises for the purpose of consolidation, and of the Manhattan and New York Companies, to value the street mains, valves, etc., at what it would cost to replace them; to value the meters and services according to their size and by well-established rules and 8969 prices, and the value of the real estate according to what the lots would bring in open market; and the value of the plant according to what it would cost to duplicate it, to be used as a going concern at the place where it is found and appraised; is that way, in your opinion, fair in arriving at the fair aggregate value of the property, rights and franchises?

A. Those are not my reasons for capitalization; I have not given my reasons for capitalization.

Q. Is there any thing else you have to say to this committee on the subject of capitalization?

A. Yes, sir.

Q. You cannot separate the price of gas from the subject of capitalization?

A. You cannot reduce the price of gas——

The Chairman: He is asking if there is any thing further you wish to say on the subject of capitalization.

Q. By that I mean the capital which is represented by the share capital of $17,000,000 and the share capital of the Consolidated Company; is there any thing else you desire to say respecting that capitalization?

A. The capitalization of the companies with which I was originally connected, being nominal, is only fairly represented in the capital of the Consolidated Company.

Q. Is it a fact that the share capital of the Manhattan at the time of consolidation which was represented at $4,000,000, was merely nominal?

A. The nominal value of the property it held.

Q. Is not that all the money that was paid in?

A. The value of the property forty years ago and the property as worth to-day is a different thing.

8970 Q. I understand you to say that the capital of the Manhattan as represented by the share capital was merely nominal and to refer to value in 1884?

A. Only nominally represented its value; the share capital of the Manhattan did not represent its true value, which was much greater.

Q. How did it become so much greater than $4,000,000?

A. It became greater by the increased valuation of property from what it was forty years ago.

Q. What increased in value except the real estate?

A. The increase of value in real estate.

Q. What else, if any other?

A. I think you have the books before you and you can tell pretty well.

Q. Is not that the only element of its property that did in fact increase in value during this long period?

A. I think a very large amount that was in construction.

Q. Do you not know that the construction was paid for by the consumers in the price of gas?

A. No, sir. The original construction, do you mean?

Q. I mean all the construction?

A. There was a capital that was not paid by the consumers.

Q. Don't you know it was kept up, and all the repairs and betterments were paid for out of the price of gas; don't you know that fact?

A. Yes, sir; I suppose so.

Q. What other element of the property of the Manhattan Company, except the real estate, became enhanced in value?

A. Its business became greatly of more value.

Q. I speak of property, sir?

A. You cannot separate the company from its franchises and tools any more than you can the carpenter from his hammer. What would the carpenter do without a hammer?

8971 Q. What other element of property of the Manhattan Company, except the real estate, increased in value?

A. That forms the largest portion of the increase.

Q. Do you not know that the taxes and assessments on the real estate were paid for out of the price of gas?

A. Out of the proceeds of the business of the company.

Q. Do you know what the original cost of the real estate was.

A. No, sir.

Q. The original cost of the real estate appears from the books to have been $865,668.51. The real estate appears to have been valued for the purpose of consolidation at $4,000,163. That represents to that extent an increase of the value of the property that you allude to in this so-called nominal capital?

A. That represents the value of the real estate, I suppose, at the time it was made.

Q. Is not that what you mean by nominal capital?

A. Nominal is in the sense of what it stands for; for instance a silver dollar.

Q. It stands for what it cost on the books, does it not?

A. The cost of the real estate of course.

Q. Having shown you one element, as it appears from the papers already in evidence, where the value of property is estimated, as it is claimed to have been seriously enhanced as the basis of this capitalization, is there any other property of the Manhattan that was enhanced above its cost?

A. Yes, sir, I think the cost of construction and the plant very greatly in excess of what it stands there.

Q. Do you think the plant was worth, at the time of the consolidation, more than what it cost?

A. Why, yes.

(By the CHAIRMAN:)

8972 Q. The mains and retorts were worth more?

A. Yes, sir, the whole property.

Q. Worth more than when built, the mains and retorts, is that what you mean?

A Yes, sir.

(By the CHAIRMAN:)

Q. Is the capital of a business concern what is put into it; for instance, a mercantile establishment; is that what it means?

A. I should say yes.

Q. What had been put into the Manhattan Company prior to this consolidation; how much, if any?

A. I have not got the books here for forty years.

Q. You don't know how much?

A. The books will show.

Q. About how much?

A. I can't tell you.

Q. Do you know whether any was put in?

A. The books will show.

Q. Do you know whether any thing had been put into the Manhattan Company prior to this consolidation?

A. I am unable to answer your question.

Q. Now, when you speak of the nominal capital of the Manhattan you don't know then whether that was more or less than its actual capital, do you?

A. That was the amount of its actual stock.

Q. Do you know whether the $4,000,000 was more or less than the actual stock at the time of consolidation?

A. That represented the capital stock.

Q. That is not my question; was $4,000,000 more or less than the actual capital of the Manhattan at the time of this consolidation?

A. That was the actual existing capital stock of the company.

8973 Q. Do you not know as a fact that while $4,000,000 was the nominal capital stock that of that a considerable portion—about $720,000—was not paid in?

A. I don't know; the books will show.

(By the Chairman:)

Q. Do you know whether or not any part of this $4,000,000 of capital stock was derived from the earnings of the company and received therefore from the gas consumers of the city?

A. I have no knowledge of any thing of the kind.

Q. Do you know?

A. I don't and I don't believe so.

Q. Were you a shareholder in 1855?

A. I think so, yes, sir.

Q. Did you receive a script dividend about that time?

A. If you will give me the book I will tell you; the book will show whether I did or not.

(By the Chairman:)

Q. Have you been a shareholder thirty years?

A. About.

Q. Do you remember that there was an act passed by the Legislature authorizing the Manhattan to increase the capital stock from $2,000,000 to -4,000,000?

A. I don't know.

Q. Do you know whether or not you were a member of the company at the time when this capital was $2,000,000 or less?

A. I could tell you by referring to my book but I could not tell you without.

Q. Do you think it would be right for the gas consumers to contribute to the capital stock of the company and then pay enough so that the stockholders should realize say ten per cent. dividend on the capital stock so increased?

A. I don't know of any consumers who have contributed to the capital stock in that way; I think all business is entitled to a fair, reasonable profit.

Q. Do you think it would be right to charge a consuming public

8974 such a price that from the proceeds additions may be made from time to time to the capital stock and then enough to realize what you call a reasonable per cent., say ten per cent. on the capital stock so increased?

A. I don't know of any such contributions being made.

Q. Suppose there were any?

A. It is not a supposable case.

Q. You can't suppose that anybody would be willing to charge in that way; is that what you mean?

A. I don't know that anybody has contributed to the capital stock.

Q. Supposing they had, would it be right?

A. I could not say.

Q. At the time of the consolidation you held 980 shares of the New York, or thereabouts?

A. No, I did not.

Q. You took 980 shares of the new Consolidated Company for your New York holdings?

A. Yes, sir.

Q. You took 975 shares for your holdings in the Manhattan?

A. I can't recollect what I took.

Q. And 80.60-100 for your holdings in the Metropolitan?

A. Yes, sir, I think so.

(By the CHAIRMAN:)

Q. Whether the reduction in the price of gas has been co-existent with the increase of competition?

A. No, sir.

(By Senator MURPHY:)

Q. Do you think from your thirty years' experience as a stockholder and owner of gas stock that the companies can, if they should be put under State authority or municipal authority, reduce the price of gas and at the same time make it profitable?

A. I have not given that attention so as to say; I mean to say this, if one company supplied the city of New York that gas could be supplied cheaper; in London they have two companies, one on each side of the river, with a population of five and a half
8975 millions; what they regulate there is dividends; you cannot increase on the price.

Q. What was the objection of the gas companies to the legislation of last spring, recommended by the last Senate committee, if you think that a proper method of regulating was to regulate the dividends; what was the objection?

A. I don't know; I did not make any objection; I did not see any objection.

(By the CHAIRMAN:)

Q. You would limit the dividend upon the capital, of course?

A. The dividends to-day ought to be regulated with regard to the valuation of the property, and not the costs forty years ago.

(By Senator MURPHY:)

Q. You have not seen the gas accounts of London. There a dividend has been declared of ten and fifty-seven hundredths per cent.?

Mr. TREMAIN: On a certified capital.

The WITNESS: On the consolidated stock I would be perfectly willing to receive ten per cent. dividend.

Q. It seems by the accounts that the Manhattan Company has been paying for upwards of twenty years an average dividend of eighteen or nineteen per cent. during that period. Why could not the Manhattan have reduced the price of gas?

A. Because the price of gas did not represent the property.

FIFTH AVENUE HOTEL, NEW YORK,
FRIDAY, *November* 27, 1885—3:30 p. m.

Hearing resumed.

Mr. TREMAIN: The stenographer will note that Mr. James W. Smith appears and produces and leaves with the committee
8976 some papers called for during his examination.

I would suggest to the Chairman that Mr. Francklyn's examination be suspended for the present to allow Mr. Day to be examined.

HENRY DAY, a witness called by the counsel to the committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are one of the directors of the Consolidated Gas Company?

A. Yes, sir.

Q. And prior to that you were interested in the Municipal and Knickerbocker Companies?

A. Yes, sir; both of them.

Q. In any other of the constituent companies are you interested?

A. Not in this city.

Q. When did you first become associated with the Knickerbocker, in what year?

A. I would not be able to give that; I should think about five years ago.

Q. Some time prior to 1880, was it not?

A. I could not remember the date; I can remember the circumstances; it was at the time the Knickerbocker was sold out by the parties then controlling it.

Q. At the time the Knickerbocker was allied with the Municipal you first became connected with the Knickerbocker?

A. Yes, sir.

Q. How long before that had you become connected with the Municipal?

A. Sir, I should think two years.

Q. Did you conduct the transaction between the Knickerbocker and the Municipal Companies in any respect?

A. As counsel I gave my advice in regard to it.

8977 Q. Were you a director in the Municipal at that time?

A. Yes, sir.

Q. And did you not act as a director in the conduct of those negotiations and transactions?

A. I did to a certain extent whenever there was a meeting of the board and a vote passed; I acted as director then.

Q. What papers in March, 1885, did you have in your custody respecting the Knickerbocker or Municipal Companies?

A. Well, sir, I am not able to state in detail and confining it exactly to a date.

Q. March, 1885?

A. Do you mean papers that belonged to the two companies—title papers?

Q. Any papers?

A. I think there was a large number of title papers of the Knickerbocker Company, a large box full of them; and I think there were in my office a good many papers or leases which concerned the Municipal Company, but what they are in detail I am not able to state now.

Q. Were all the papers relating to the transactions between the Knickerbocker and Municipal Companies between 1879 and 1884 at your office?

A. I think not any of the original papers.

Q. Or copies of them?

A. If you will give me a chance to look and see I will tell you every thing I have got; I can't remember; I have a large package of papers but precisely what they are I could not say; my rule was to send the originals to the companies for them to have the custody of.

Q. How did it happen that you had the original lease in March between the Knickerbocker and Municipal, and also other original papers?

A. It happened in this way: Frequently I would send for those papers for some purpose for an examination, and they may not have been sent there; I don't remember; they were often kept some time before they were returned to the companies.

8978 Q. Have you any originals in your office now?

A. I have not looked at it for a year; I have a younger man a partner; he takes the charge of those.

Q. Your subpœna, I think, calls for some such papers?

A. I think not, sir; I have not read it through; I went to the wrong place instead of coming here at first; on examination I see it refers to papers, sir; I have no objection to produce any thing I have got, and if you will allow me to produce them Monday morning, any thing I have the custody of, I will be happy to do it.

Q. On the understanding then that you will send them to the Chairman?

A. I would like to know what papers; I have got a box of title papers; if you gentlemen care to see those, referring to real estate transactions, I will produce the papers.

Q. You prepared or caused to be prepared under your direction the agreement between the Knickerbocker and Municipal Companies?

A. Yes, sir, I did.

Q. And also the agreement between R. F. Cutting and the Municipal?

A. I don't think there was any between the Knickerbocker proper; I think it was a transaction between the holders of the stock of the Knickerbocker Company; I would not be positive about that; most of the papers were papers between the holders of stock and bonds of the Knickerbocker Company and other parties to the transaction.

Q. Now, when was the first transaction relating to bonds of the Knickerbocker of which you have any knowledge?

A. The first knowledge and first transaction was at the time the two companies were united in their interests, whatever that was.

Q. In 1880?

8979 A. Yes, sir, the first time I heard of bonds, I examined the titles and found a quantity of bonds outstanding of the Knickerbocker Company.

Q. What was the amount of those bonds that you thus found outstanding?

A. I think it was one and a half millions; it was certainly a million and two or three hundred thousand dollars; and I think it was but one and a half millions, which was the full amount of the mortgage.

Q. Who did you find held the bonds up to the full amount of the mortgage?

A. The estate of Cutting's grandmother, some old lady, to whom they were executed.

Q. Elizabeth Cutting?

A. No, Mrs. Bayard; her estate held all these bonds.

Q. Did you make an injuiry or cause an inquiry to be made at that time concerning the validity and amount of that outstanding indebtedness?

A. Yes, sir.

Q. Of whom did you inquire?

A. The officers of the Knickerbocker Company and their counsel.

Q. The names?

A. I could not tell you now; I talked with William Bayard Cutting about it.

Q. The trustee?

A. Yes, sir, and his brother, Robert Fulton Cutting, and their counsel—his name escapes me now; they assumed the mortgage, the parties did, that took the title, and all the bonds.

Q. Who took title?

A. I think the stock was transferred.

Q. There was no transfer of the real estate?

A. I think not; there was a paper between the parties which recited the mortgage and bonds.

Q. Will you refresh your memory?

(Book containing the report of the last Senate investigating committee, pages 162 and 163, presented to witness).

8980 A. I think that is it; I think the amount of the mortgage was $1,200,000, as it is herein given; and the gentleman that I consulted with was Mr. Cardoza, who was a witness to this agreement.

Q. That was in connection with the transaction of the purchase of 15,000 shares of the stock of the Knickerbocker Company, was it not?

A. I don't remember how much stock it was; it was in connection with the purchase of this stock of the Knickerbocker Company and the transfer of that stock.

Q. By whom was the stock owned?

A. I don't remember.

Q. Did you see the certificates?

A. I don't think I did; I don't remember to have seen them.

Q. Who did see the certificates?

A. I don't know but I did, but there is a great deal of detail about these things and I can't remember it.

Q. Please omit the details and tell the transaction acquiring the Knickerbocker property?

A. The most of my conversation was sometimes with Mr. Francklyn and then with Mr. Cutting and then Mr. Cardoza, and then with the officers; when these titles were passed I was present, and I think I was present when the stock was passed over; I think I examined it but I don't remember it.

Q. To whom was it passed over?

A. Mr. Ottendorfer, Mr. Francklyn, and I could not say who the others were without looking at some papers.

Q. Who individually received their stock or the certificates?

A. I presume I did as counsel for the company; turned it over to some one of this committee, but who it was I don't remember; I mean to say one of these trustees.

(By the CHAIRMAN:)

Q. You were one of the trustees.

A. Yes, sir.

Q. Why should you turn it over to any one else?

A. It was to some one of this committee as custodian.

8981 Q. You had it in your hands; what did you do with it?

A. It went into the hands of one of the trustees who, I suppose, put it at the office of the Municipal Company.

Q. Why should you, being one of the trustees, pass it over to one of the co-trustees?

A. The reason is I have a thousand and one papers in my office and it would be unsafe to leave them there; these papers were sent to the office of the Municipal to be kept; I have not seen them since, but I presume they are there.

Q. Have they been produced when you were on committees there?

A. I would not say that; I think I have not seen it since; I have not seen the stock since—when this consolidation took place this stock by these trustees was all transferred to the Consolidated Company for the benefit of the stockholders of the Municipal Gas-light Company; I signed all the transfers, I think.

Q. Anybody else?

A. I have a recollection of some names ahead of mine on the certificate.

Q. Did Mr. Ottendorfer sign it?

A. I think he did.

Q. Did Mr. Gawtry sign it?

A. I believe he did.

Q. Did Mr. Francklyn sign it? He was the president?

A. I am in doubt about it; I would not swear to it.

Q. Did Philip Allen sign it?

A. I have the same to say; the stock can be produced; it is somewhere in the company.

Q. Was it one certificate or more?

A. My impression is there was one or two certificates; I think one, a small one, was in the name of myself, to constitute me as a director of the company; and for the balance of the stock another certificate was issued; the other was in the name of all the trustees.

8982 Q. That certificate may have been issued at the time the trust was established?

A. I think it was.

Q. Prior to the issuing of that one certificate, where was the stock?

A. In the names of the former holders of the stock, but who they were I could not tell you.

Q. When this transaction was closed that stock was acquired from the former owners?

A. Yes, sir.

Q. In what block was it acquired and from whom?

A. That is beyond my recollection.

Q. Have you any recollection about the transaction whatever that will enable you to say where that stock came from?

A. Yes, sir.

Q. Give it.

A. That the largest amount of that stock stood in the names of one or two of these gentlemen as the executors of Mrs. Elizabeth Bayard.

Q. They also holding the bonds?

A. They held a large amount of bonds; I don't wish to say this certainly; it is only an impression which I have.

Q. How much of it is the question?

A. The books ought to show.

Q. Which books?

A. There ought to be some books showing the stock of this Knickerbocker Company; I don't know where they are.

Q. You certainly would not have approved the title to 15,000 shares of stock for the entire ownership of the Knickerbocker Company if, as counsel in the transaction, you had not been informed who owned the stock?

A. No, sir; I had fair evidence who was the owner of the stock, but I don't recollect it all.

Q. Was there an agreement of transfer, signed by those who owned the stock, other than the indorsement of certificates?

8983 A. I think not; I don't remember of any other paper than a guarantee that I insisted upon some of these gentlemen giving us.

Q. That related to the indebtedness?

A. Yes, sir; I was perfectly satisfied about the stock.

Q. Did you testify anybody else held any of that stock except the same parties who owned these bonds?

A. No, sir.

Q. Is there any paper or book or writing, of any character, that will refresh your recollection?

A. There ought to be a transfer, a stock-book of the Knickerbocker Company.

Q. Did you see such a book?

A. I don't remember the detail of that.

Q. Would you have approved as counsel of this transaction if you had not seen such a book?

A. If such a gentleman as Bayard Cutting told me and showed me a certificate of the Knickerbocker Company, that was as good as a stock-book, and better; the certificate is the real title and not the stock-book proper; and I probably saw the old stock certificates; I think I did, but I could not say whose name they were in.

Q. Are you confident they were all owned by the same party?

A. No, sir.

Q. Who did you pay any money for that certificate?

A. There was considerable money paid at the time, but to whom it was I don't remember.

Q. Do you remember that $50,000 was paid for that stock?

A. Well, I don't remember exactly how much was paid for the stock; there was a large amount paid in the transaction.

(By the CHAIRMAN:)

Q. Is it your best recollection it was $50,000, or about $50,000?

A. It is that it was more than that; I think there was $350,000 of money paid out at that time; precisely to whom it was paid or on what it was paid I don't remember; I know that amount of money was paid in some way.

8984 Q. For what, this Knickerbocker stock?

A. Yes, sir.

Q. And also on account of indebtedness?

A. Either $300,000 or $350,000 was paid in addition to the mortgages which were on the property at the time, and it cost with what was on it, over one and a half million of dollars; that is perfectly certain, but just the details of that I can't give; I can't carry five years of business in my mind; I am able to recollect the large amounts better than I am the details.

Q. Do you remember to whom those papers were made?

A. Either to the Cuttings or those parties that were there at the time the title was passed.

Q. By passing the title you mean the delivering of the certificates?

A. Yes, sir.

Q. Do you remember to whom the money was paid?

A. I think it was paid either to the Cuttings as executors, in some way or other connected with the estate.

Q. Which particular Cutting was there that day and took the money?

A. I believe Bayard Cutting was there, and if he said he was not I would think I was not right but would believe he was.

Q. Was R. Fulton Cutting there?

A. I would not say that he was, but during the transaction I think he was there.

Q. Then that money was paid to one of the Cuttings, to one or the other of these gentlemen, was it not?

A. I don't know; I think it was.

Q. Was Mr. Stephens there?

A. Who is Mr. Stephens?

(By the CHAIRMAN:)

Q. William A. Stephens, the president of the Knickerbocker Company?

A. I believe he was; I think Mr. Stephens and John Sickels, the secretary, were both there.

8985 Q. Did they receive any of that money?

A. I don't think they did; I don't think they had any authority to receive the money which was given for the stock; as I understand, it was a transfer of the stock.

Q. That transaction then substantially was the transfer of the stock and all the property of the Knickerbocker subject to an express indebtedness, with a guarantee that such indebtedness should not exceed a fixed amount, and the payment of money on such transfer?

A. As far as I know it that was the transaction; I don't know any other thing connected with it.

Q. Was any money paid at that time to reduce that indebtedness?

A. I think not; I know there was not any money paid to reduce it.

Q. Did you subsequently acquire any interest in any part of that indebtedness or that payment?

A. No, sir, never.

Q. When, if ever, was that indebtedness reduced?

A. I would have to give you now my best recollection; I think the mortgage was so drawn that it became payable in installments; a certain number of bonds were payable each year, and when those became due from time to time the Municipal Company made the payment; that is my recollection.

Q. Unless the indebtedness was reduced in that way it has not since been reduced to your knowledge?

A. No, sir, not at all; the indebtedness that was paid by the Municipal in that way was assumed by the Consolidated Company when the consolidation was made.

Q. Being a director of that company you would know if since its assumption any of it had been discharged?

A. Well, sir, I don't carry the detail of that in my mind;
8986 I know the fact that it has not been paid except in that way,
paying off the bonds as they became due; and the other
assumed by the Consolidated Company.

(By the CHAIRMAN:)

Q. Were any bonds paid by the Municipal after this transaction which you have given and before the consolidation was effected?

A. My impression is that there were some of the bonds that became due, a few of them each year, but I can't carry that in my mind distinctly.

Q. Then you are not able to swear that any of them were paid during that time?

A. I have a recollection that money was paid.

Q. Do you recollect that any such bonds were paid during that time?

A. I would be willing to swear more positively if you would allow me to look and see; my impression is that some of them were paid; I would not swear to the amount; I have the impression but I would not swear to any thing more.

Q. Are you willing now to swear from your present recollection that any of those bonds were paid during the time designated by me in my previous question?

A. I would not say; I have not a distinct recollection of the occasion but I do have the impression.

Q. Whether from your present recollection you are able to swear that any of those bonds were paid by the Municipal during that time?

A. I should not like to say; that is, that I recollect.

Q. You would have to say no then?

A. Yes, sir.

Q. The answer to that is no?

A. My impression is that at the meeting of the board that question of paying off some of these installments came up when I have been present.

Q. And further than that you don't know?

8987 A. No, sir; if I could be allowed to examine the books of the Municipal to refresh my recollection I could state positively.

Q. What books of the Municipal will show this transaction; designate the books which will refresh your recollection?

A. I should suppose the cash-book and the check-book would show it.

Q. What books of the Knickerbocker, if any?

A. I don't say that the Knickerbocker books would show it.

Q. Did you ever see the books of the Knickerbocker?

A. I think I have seen some.

Q. Did you ever see the stock-book?

A. I never asked for it.

Q. You were a member of the board after the amalgamation?

A. I never had occasion to see it.

Q. Do you know anybody who would be likely to have any more information on that subject than yourself?

A. Yes, sir.

Q. Who?

A. Mr. Gawtry ought to know more about the books, if there are any; my recollection is that when we took this property there were only a very few books in the whole concern.

Q. If Mr. Gawtry is unable to tell us, can you suggest some other individual, except Mr. Gawtry, who can?

A. No, sir.

Q. What information did you obtain in closing this transaction as to the basis of issuing this $1,200,000 of bonds secured by mortgage?

A. I ascertained that they had a large amount of real estate; that they had works erected on that real estate; that they had mains laid down—I don't know how many miles of mains, but a good many; that I knew they had a basis for a capital in that.

Q. Did you inform yourself as to any other basis than that for the issue of such bonds?

A. No, sir; I did not go into the organization of the company, except to see that they had filed their certificates properly.

8988 Q. Did you not go into the validity of those bonds as an existing indebtedness sufficient to inform yourself generally concerning the cause of their issue?

A. No, sir.

Q. Did you not ascertain that those bonds were in part issued to take up a preceding indebtedness arising from the construction of the works, more or less, and that the balance were issued for something else?

A. I would not like to say that I remember that.

Q. Will you not testify that you acquainted yourself at that time with what the facts were in respect to that before approving the assumption of this $1,200,000 indebtedness?

A. No, sir.

Q. Do you mean to testify that this indebtedness was assumed regardless of how it was created?

A. Yes, sir; I would like to say that I considered that the property that they showed to us, the real estate, its mains, meters and its works, were worth all or more than the price that was paid for it in addition to the indebtedness upon it; and that we considered that the indebtedness had not been given for any thing near what the property was worth.

Q. That is to say, you considered that it was worth more than $1,500,000?

A. Yes, sir.

Q. How much more did you consider it worth?

A. A good deal more; worth more to us probably than to anybody else inasmuch as they were competitors with us.

(By the Chairman:)

Q. Did a part of the value of the Knickerbocker property to the Municipal consist of the fact that by acquiring the property of the Knickerbocker the Municipal would get rid of a competitor and of competition?

A. I think not, sir. Our chief object was to get their territory.

8989 Q. The question is the chief part?

A. It is my recollection that there was some agreement between the two companies, that one should not come below a certain line and the other would not go above it; by abrogating that agreement, that was worth something to the Municipal because it extended their territory.

Q. Now, perhaps you can answer directly the question; did a part of the value of the Knickerbocker property to the Municipal consist in the fact that by acquiring the property of the Knickerbocker, the Municipal would get rid of a competitor and of competition?

A. As it then stood there would be no competition; we got rid of the agreement so that we entered into their territory.

Q. You know what the question means and to what it relates, and you have an opinion as to whether that entered into the value of the thing. I would like an answer to that question?

A. Would it not answer if I gave the statement as the fact is?

Q. No.

A. I didn't think they were our competitors then.

Q. Your answer is not to the question?

A. I think I would be justified in answering no; if you will follow it up they were not then competitors as I understood.

Q. Either actual or prospective competitors? Did this purchase in fact remove a prospective competitor?

A. I think not, sir.

Q. Did it in effect get rid of an agreement which would have resulted, if carried out, in a competition with the Municipal?

A. If it had not been made, perhaps you mean?

Q. No, which if carried out would have resulted in a competition with the Municipal?

A. The agreement, if carried out, prevented competition; that is my recollection.

8990 Q. That agreement was prior to the purchase?

A. Yes, sir.

Q. At the time of the purchase there was an existing agreement?

A. Yes, sir; when we took that property in that way it abrogated the agreement and enlarged our area.

(By Senator MURPHY:)

Q. It was to the effect that one company should not encroach upon what they believed to be the property of the other?

A. Yes, sir; it left us free to go on to the property.

(By Senator ROBINSON:)

Q. That agreement which existed prior to the purchase restricted the territory which it should occupy?

A. Yes, sir.

Q. Is there any record of that agreement in the Municipal office?

A. I don't recollect; I was told there was such an agreement.

Q. About what year was that agreement?

A. You must not ask me to carry those things in my mind; I have, perhaps, a thousand such agreements in a year.

(By Senator ROBINSON:)

Q. You think you have seen it?

A. Yes, sir; I am very confident I have.

Q. You think you have seen it, and it was in writing?

A. Yes, sir.

Q. Do you think it was in the office?

A. I am not positive about that; I am a lawyer and I know how it is; I would not like to be put in an improper position; my honor is at stake; if there is such a paper you shall have it; I don't mean to conceal any thing.

Q. Is it not a fact that when this purchase was made, as you have detailed, the Knickerbocker was not making gas, but gas was being furnished to it by the Municipal Company under an agreement in writing?

A. It is my impression they didn't stop making gas until that day; a verbal arrangement was made that this should be 8991 carried out, and we would furnish them the gas, and it was carried out afterward.

Q. That verbal agreement is at page 51 or 61?

A. There is where you would catch me again.

Q. About when was this agreement; the purchase was in March, and the agreement under which the Municipal furnished gas to the Knickerbocker was in February; how long anterior was it that this agreement was that it should not encroach; the paper will show it?

A. I don't remember that paper about not furnishing them gas; while we were talking over this thing we agreed to furnish them gas; I did not read the paper; they had agreed between themselves.

Q. Were you ever present at the meeting of the board of directors of the Consolidated Gas Company when any statement was presented respecting the financial condition of the company?

A. I think there has not been any statement that I recollect; the matter was so recent, and the facts about the consolidation were so fresh in our minds that we didn't need any such reports or statements, and we knew exactly how the properties stood and what we got; there has been a great deal of confusion and the committee has not been able to work up to the ordinary methods of doing the business.

Q. A dividend was declared last May?

A. Yes, sir.

Q. Was there a written statement made before the board when that was declared?

A. No, sir—there was a statement; I asked them whether they had made enough money to declare this dividend, and the treasurer showed the statement that they had.

Q. Who made the statement?

A. The treasurer; he said there was money enough earned 8992 to make a dividend of three and a half per cent. and something more.

Q. The dividend was voted without any further statement being presented?

A. Yes, sir.

Q. Any member of the board ask for further particulars?

A. No, sir.

Q. Any committee appointed to ascertain if the finances would admit of it?

A. No, sir.

Q. As a matter of fact, don't you know that the finance committee never recommended any dividend in May or October?

A. I have no recollection.

Q. You have no recollection of that?

A. No, sir; I think it is not the duty of the finance committee to recommend it; as a member of the finance committee I said I knew how the finances stood.

Q. The subject of a dividend never was mentioned?

A. Not by the finance committee.

Q. They never made a report on that subject?

A. Not as I recollect.

Q. You think that dividend has been earned within the last six months?

A. Yes, sir.

Q. How do you know if you never made an examination?

A. How can I tell anything except from what the officers tell me; I trust my officers.

Adjourned until Saturday, November 28, 1885, at 11 A. M.

NEW YORK CITY, FIFTH AVENUE HOTEL,
November 28, 1885.

The Committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain appears as counsel to the Committee.

8993 JOHN H. SHERWOOD, a witness called by the counsel to the Committee, being duly sworn, testified as follows:

Q. It is in view of an incident yesterday that you make your statement as a witness, and as any other witness would make it, and thus repeal what you yesterday stated to the Committee?

A. I think in view of the public attack that was made by Mr. Ottendorfer on me yesterday, stating that half a dozen gentlemen would make such and such assertions, that I made such remarks at Kaaterskill Hotel as he attributed to me, I think they should be put on trial, and that he should bring those gentlemen here to testify; I only made a slight reply to Mr. Ottendorfer yesterday, and I would prefer that personalities in this matter should be kept out; the subject which you are investigating is one of great importance to the public; it seems to me that you are fishing for a minnow this morning, when sharks are to be caught in the water; I am ready to answer any questions.

(By Senator MURPHY:)

Q. I think the only question to be answered is in reference to the charge Mr. Ottendorfer made; he stated that he was informed by reputable citizens that you made a statement which he represented yesterday, and that he could produce the witnesses to substantiate it, that you said the gas company had spent $130,000 at the Legislature last winter, and that they would be forced to spend $500,000 more the coming session?

A. That statement, made in that shape here, is a distortion of facts and untruthful.

(By the CHAIRMAN:)

Q. We have nothing to do with personalities; but it was intimated that somebody had knowledge in relation to corrupting legislators who were in opposition to the gas bill, so called, of last winter; if the witness has any disclosures on that subject which can lead to ascertaining the truth about it, and to the correction of the abuse that is believed to have existed and which ought to be prevented by all proper means, if the witness has any knowledge which can contribute to that result, we would like it? 8994

A. I never have asserted or claimed that I had any personal knowledge of such facts; you say, if it is believed to have existed; I say that it was believed and is believed now that such means were used; the papers were full on the subject; almost every paper; as the president of the Gas Consumers' Association, hearing so much on the subject, it would be impossible for me to go back and tell you which or what gentleman has said these things to me; but I suppose it is within the knowledge of every gentleman in this room that this subject was notorious here last winter—the subject of gas legislation.

Q. Has any one represented to you that he knew anything touching this matter.

A. Yes, sir.

Q. I don't mean whether he had read newspapers or heard people talk, but whether he heard any one represent that he knew about it?

A. Yes, sir, these things: that matter has been stated to me as persons usually state a subject of that kind in conversation with any other person; I didn't go to Albany but once this last winter, and then I was ordered out of the Assembly chamber before I had been there five minutes, and I made up my mind it was not a good place for me, and I didn't go there again; now if you ask me who told me, or said to me that money was being used up there, I can give you a great many names; I will not say that they told me; it was their personal knowledge—personal knowledge is pretty hard to get at. 8995

Q. Have any of the men who are interested as stockholders in these companies, or any member of this Consolidated Gas Company, or stockholder made any statement to you to the effect that money was being used at Albany?

A. Yes; that was in the conversation between myself and a friend of mine, who is a stockholder of the Consolidated Gas Company.

Q. When was that?

A. It was on the piazza of the United States Hotel, at Saratoga, last summer; it brings me in conflict with personal friends to go into this matter, and I don't think it is necessary.

Q. Was he in a position to know any thing about it, whether it was so or not?

A. No; he is a manipulator of stock or manager of the gas company.

Q. Was he director in any of the other companies at any time?

A. I don't know.

Q. Was he in a position that he would be likely to know whether there was money used or not?

A. No, sir; I don't think he would.

Q. You gathered from the talk, what he was saying to you was simply the effect of the newspapers on the subject, a rumor, talk?

A. No, sir, but that it was what he considered to be a part of the scheme for effecting gas legislation.

(By the CHAIRMAN:)

Q. That he gave you to understand that the purchase of legislative votes was a part of their scheme for effecting legislation?

A. Yes, sir.

Q. I would like to know what he said then?

A. It was a casual conversation here last summer; I met Charles G. Landon on the steps of the United States Hotel; he asked
8996 me how I got on with the gas fight; I told him I was not in that now; he says, "if you want cheaper gas why don't you make it yourself;" I says, don't you know I cannot lay an inch of gas-pipe in the city of New York, and I could not supply the gas, and is it possible that you, a large owner of gas stock, do not know that a law was passed in 1883 to prevent any other parties except the present gas companies from laying a foot of gas-pipe in the city of New York, and he said, "no, I never heard of such a thing," and I said, I tell you it is so, and he said, very well, if you say it is so I will believe it and I will put you right at the club; for gentlemen have asked me why you was not man enough to go out and make gas yourself, and he said "I will bring that matter up at the club;" in my conversation with Mr. Landon, I advised him to talk with his associates and see if we could not have a fair adjustment of this gas question, and he said, that he wanted nothing beyond a satisfactory condition of affairs; I says to him, I believe you will be safer to co-operate with the gas consumers of New York than to go to Albany for legislation, and he said "I believe so too;" I said it was reported that it cost a great deal of money at Albany last winter, and he said, "legislation has always cost us money and we expect to pay for it;" that is the substance of the conversation.

(By Senator ROBINSON:)

Q. In this talk at the Kaaterskill Hotel, did you say that your folks proposed to go to Albany and make it cost this gas consolidation money to get legislation?

A. That is utterly untrue.

Q. Did you state anything like it?

A. If you want me to state the circumstances from memory, as near as I can, I will try and give it between me and Mr. Harker; of course I have not tried to think of it until yesterday.

8997 Q. I understood Mr. Ottendorfer to say that the effect of your remark was, your intention to procure legislation which would induce them to spend money to prevent it?

A. I think the substance of Mr. Ottendorfer's assertion yesterday was that the Gas Consumers' Association and myself were making a raid upon the gas monopoly of this city.

Q. You utterly disclaim that?

A. Yes, sir; in conversation with Mr. Harker at the Kaaterskill Hotel, I told him I thought it was a great piece of folly to go to Albany and spend money as I had reason to believe they had last winter, and that I believed it had cost the Consolidated Gas Company in the neighborhood of $200,000 last winter, and if you go there another winter I hope it will cost you half a million; I have been called by one of the largest owners of gas stock in this city a thief, and I have been called a raider, now I shall survive that, and I am willing to submit my action in this matter to the public, and abide the consequences.

Q. You think the trouble will be with the public and not this gentleman?

A. Yes, sir.

(By Senator **Robinson**:)

Q. You say you was shut out of the Assembly chamber?

A. Yes, sir; it was on the floor; a gentleman came and told me there was a resolution passed and that I must go out.

(By Senator **Murphy**:)

Q. Do you know whether there was a call of the house at the time you was excluded from the chamber?

A. I don't think there was.

(By Senator **Murphy**:)

Q. If there was no call of the house, you had a right there.

A. My associates all went out with me into a public room; I am not conversant with the rules of the Assembly chamber; I was
8998 told there was such a resolution passed.

Senator **Murphy**: It was a standing rule of the house.

The **Chairman**: I think it is due to the house to say that it was probably a rule of the house being enforced.

Mr. **Tremain**: The Assembly had been under a call of the house and the call of the house was suspended, and that of course opened it, but it was not opened and the debate proceeded.

Senator **Murphy**: The Speaker of the Assembly evidently forgot to order the house to be opened.

The **Witness**: I was told that I was excluded from the Assembly chamber, and I went out from there.

Henry Day is recalled and testifies as follows:

Examined by Mr. **Tremain**:

Q. Have you brought all the papers in your custody or control of which you have any knowledge relating to the Knickerbocker Gas-Light Company?

A. All that I have under my control and that I had in my office while this Committee has been existing; there are other papers which I have knowledge of which are not here.

Q. What papers have you knowledge of that are not here relating to the Knickerbocker Company?

A. Two or three contracts that I didn't think of, that I have some memoranda of; that I know have existed, and that I have seen them.

Q. Of what date?

A. There is a paper dated November 16, 1880, between the Knickerbocker Gas-light Company and the Municipal Gas-light Company.

Q. Which you didn't have?

A. I think I did find that one.

8999 Q. That which you didn't find?

A. That paper is here; I have got that paper.

Q. What are the papers that you produce—the dates?

A. There is another paper which I have, dated August 2, 1883; that is the one; the McKenzie and Sayre Manufacturing Company to the Knickerbocker Gas-light Company, giving them the privilege of certain renewed patents which the Knickerbocker had purchased of that firm; this paper is dated August 2, 1883; there is an agreement, dated February 13, 1880, between the Municipal Gas-light Company and the Knickerbocker Gas-light Company, in relation to furnishing gas, which I have not got; there is a third paper, dated March 11, 1880, between the Municipal Gas-light Company and the Knickerbocker Gas-light Company, which refers to a contract dated September 25, 1876, and agrees that the Municipal may lay mains and send gas north of Fifty-ninth street, in consideration of $300,000; that is the matter which I referred to yesterday.

Q. To whom was that paper given by you?

A. That was returned April 29, 1883; I sent it to the company.

Q. Have you brought any and all papers that you know of relating to the Municipal Gas-light Company?

A. I think that all the papers that relate to that are here; I don't know of any other papers of the Municipal that I have seen which are not here; I think it is proper that I should explain my testimony of yesterday, arising out of a better knowledge that I got from the contract in respect to the $300,000; I find that there was a contract made in 1876 between the Knickerbocker Gas-light Company and the Municipal Gas-light Company to this effect: The Municipal assigned rights to the Knickerbocker Gas-light Company to use 9000 their water gas patents for illuminating gas to be distributed north of Fifty-ninth street, and gave an exclusive right to all the Tessie-du-Motay patents, such as the Municipal were making gas from at that time; there was a further agreement that between Thirty-fourth and Fifty-ninth streets they should have the privilege, but not the exclusive privilege of using those patents.

Q. That is what the Municipal gave the Knickerbocker?

A. Yes, sir, gave those rights.

Q. Now, what did the Knickerbocker Company do in return for that?

A. They gave them a royalty of five cents a thousand upon all the gas they should manufacture under those patents and distribute, with the privilege that they might satisfy the royalty by paying at any time $50,000; now, sir, in 1879, the Knickerbocker Company commenced a suit against the Municipal Gas-light Company upon that contract; they asked for an injunction to restrain the Municipal going north of Fifty-ninth street with their mains; the Municipal took the ground, as they would not use this patent and were acting under the McKenzie and Sayre patent, they had a right to go into that territory north of Fifty-ninth street; they commenced a suit and asked for an injunction from laying any pipes, as they said we were about to do, in 1880, until the negotiations were completed between the Knickerbocker and the Municipal for the transfer of stock; as a part of the consideration I preferred that this $350,000 should be made up in this way; I was counsel for the Municipal; I said to my client, this $350,000 which you, the Municipal, are about to pay to them it is possible that if any of the stockholders of the Municipal Company should object to this, your paying, they may hold you responsible; I prefer, as there is a suit pending against you,
9001 you should settle that and take the $300,000 and settle that
claim and open the right for you to go north of Fifty-ninth street and leave only $50,000 to be paid into the stockholders of the Knickerbocker; that, I said to my client, will relieve the directors of any claim that the stockholders of the Municipal would make; it was only another method of paying them a portion of that $350,000; it was a lawyer's method of shielding his clients.

Q. To whom was that $350,000 paid?

A. I think $300,000 was given to the Knickerbocker for these damages, to settle this suit.

Q. To whom?

A. I could not say to whom the check was given.

Q. Was it paid in a check?

A. Yes, sir, I know it was, but how it was drawn I could not say; it was given in the office of the company.

Q. Who represented the Knickerbocker in the closing of that transaction?

A. Mr. Sickels and Mr. Stephens, and the Cuttings were there.

Q. Were both?

A. I should be very confident to say that they were both there.

(By the Chairman:)

Q. When this transaction which you have now stated was completed what was the status of the Knickerbocker and Municipal with reference to each other; the instant this was done where did it leave them?

A. It left the Knickerbocker with its stock all transferred to five different men who acknowledged themselves as trustees, holding it for the Municipal Company in order that the corporation should

not be dissolved; the Municipal was left in this way: They had advanced $300,000 in order to get rid of this claim that they made upon this territory north of Fifty-ninth street so that they could go in, and there was an agreement made to that effect, and
9002 which I executed; here is the agreement opening the territory and giving up all claims for damages; both parties then were to use the territory in common, and $50,000 was advanced by the Municipal toward purchasing this stock.

(By Senator ROBINSON:)

Q. The real transaction was that $300,000 does away with all damages and lets them into this territory, and they buy the stock?

A. Yes, sir.

Q. Who advanced this $350,000?

A. The Municipal.

Q. Did the Municipal at or about that time increase its capital stock at all?

A. I don't think they did at that time; they did afterward; they were obliged to build very largely.

Q. What was the nominal share capital of the Municipal Company in 1879?

A. Those facts I don't carry in my head; I think they started with $500,000 and increased to $1,000,000, and then $1,500,000, and then to $2,000,000, and then to $3,000,000; I don't know the dates.

Q. Don't you know in 1879, its capital stock was nominally $2,000,000?

A. I don't recollect at that time; If you say anybody has testified to that I should believe it; I don't remember the dates.

Q. You were counsel for the Municipal Company from 1879 to 1883?

A. Yes, sir.

Q. Do you remember that you took proceedings to increase this capital stock in 1880, from $2,000,000 to $3,000,000?

A. I remember that fact, but I don't remember the date.

Q. Were those proceedings instituted and determined upon before this transaction respecting the Knickerbocker stock?

A. I could not say; in my own mind I had no reference to the Knickerbocker transaction at the time that was done, but I don't know what the officers had.

9003 Q. You know what was done with the million of stock, the result of this increase?

A. Yes, sir; I think I do.

Q. To whom was it issued?

A. The stockholders were allowed to come in and take *pro rata* in the first place, and take the shares which were held, and I think that was all taken up; it was paid for in cash.

Q. What was done with that $1,000,000?

A. We enlarged the works of the Municipal largely; we had to build them all over, and we had to build or enlarge the works of the Knickerbocker at one time; we had spent at the time that we closed this transaction with the Knickerbocker $400,000 and $1,100,000 in putting down mains in their district, and improving the works, and then the works of the Municipal were built over after that.

(By the CHAIRMAN:)

Q. When the Knickerbocker was transferred to the Municipal they manufactured gas by what process?

A. This McKenzie and Sayre process; they had the original patents, and this agreement—there were some improvements they had made, and I drew a contract giving them the right under those additional patents which they had got.

Q. At the same time the Municipal was making gas by what process?

A. By what is called the Du-Motay process, or water gas.

Q. Now, when these works were improved and enlarged, what process was used?

A. The Du-Motay process; all the works were cleaned out, and these new works, entirely new, were put in.

Q. What was done with the old works?

A. I think for old iron; generally those retorts were good for nothing, except for old iron.

Q. Who was the contractor under whom that reconstruction was effected; you say that this $1,000,000 was realized when the
9004 stock increased?

A. Yes, sir.

Q. In cash?

A. Yes, sir.

Q. And that some of the money was spent in enlarging the works?

A. Yes, sir; on the Municipal and also on the Knickerbocker; laying mains I ought to say, because we were extending our mains all over the city.

Q. Who was the man who did that work and received that money?

A. No man received the whole of the money, but Rowland & Company, of Hunter's Point, did the work on both the Knickerbocker and Municipal.

Q. Was any other money expended on the works of the Municipal or Knickerbocker at or about that time, except through Rowland?

A. I don't know.

Q. Any considerable amount, as a director; you have knowledge?

A. I have no knowledge of any bills being brought before the committees from other persons; I remember of his bills being very large ones.

Q. Can you tell me, Mr. Day, how much of that $1,000,000 was spent on the Knickerocker in proportion to the amount spent on the Municipal?

A. I don't know personally of the expenditure of any money; that is done by the officers.

Q. Did anybody have any more knowledge on that subject—did Mr. Francklyn?

A. Mr. Francklyn or Mr. Gawtry; somebody ought to tell you; I think if you put the question in writing, and ask, they will tell; I am interested in that, and if there has been any taken out of it, I have been cheated; I am talking about the increased capital; I am more interested in that than any gentleman here, and I will undertake if the Committee desires to know any specific facts as to 9005 where money has gone; I am a director and in honor bound, if the money has been spent, to try and find it out; I would like to know exactly what you would want because there is a multitude of books, but specific facts I will endeavor to give you honestly and fairly; I have more right on account of my position; I am not only a citizen but a director; you are acting for me just as much as for anybody else.

Q. If you can tell us how to find any books except the ledger in the Knickerbocker Company please do so?

A. I don't believe there are any more; when I was managing their business I asked them once if there were any more books and they didn't appear to have any more; they had a lease of this property from the Knickerbocker to the Municipal; the Municipal did all the business.

Q. Under that lease there appears to have been so-called rent paid; to whom was that $75,000 a year paid?

A. I don't know; if it was paid it was paid to these trustees and they turned it back to the Municipal.

Q. To whom was it paid?

A. I don't know; I don't believe it was paid as a matter of fact; if it was it was only passed around and came back.

Q. Who paid the interest from 1880 on these bonds?

A. The Municipal Company paid it.

Q. Was that in addition to this rent?

A. Yes, sir.

Q. Was that interest paid regularly?

A. Yes, sir.

Q. To whom?

A. To the Cuttings as attorneys or executors of Mrs. Bayard; she died while these bonds were in existence.

Q. You mean that this rent might have been paid to one of the trustees and it went back to the Municipal, and you were one of the trustees?

9006 A. Yes, sir; I never heard of the rent being paid over although there was a form of a lease in order to keep the existence of the two companies and the proper status of the companies, as it was proper we should have a lease to show that it was by the consent of the Knickerbocker, and if there was ever an accounting we should have to account for that rent and the interest and we should have to pay it back.

Q. What special privileges did the Knickerbocker Company own, if any, at the time the Municipal acquired this interest in 1880?

A. They had under one of these contracts the exclusive right to use the territory and distribute gas north of Fifty-ninth street.

Q. Under a contract with whom?

A. The Municipal Company.

Q. With that exception what other privileges, if any, did the Knickerbocker at that time enjoy?

A. They had the privilege—not exclusively—of laying mains and distributing gas between Thirty-fourth and Fifty-ninth streets; that was not exclusive.

Q. That was under a contract of 1876 with the Municipal?

A. Yes, sir.

Q. With this exception, what other privileges, if any, did the Knickerbocker enjoy at the time of this tranaction in 1880?

A. They had I think, three different corporate charters, one of which was an exclusive one to lay mains in the Central park; we have that right now.

Q. What is the chapter of that act or year?

A. I can give it by and by, but not now.

Q. Was it 1869?

A. I think it is earlier than that.

Q. It never has been used?

9007 A. No, sir; but we got it from the Knickerbocker, and I examined the title all through, and also one or two charters they had.

Q. That is one; what other, if any?

A. They had a charter of what is called the Anthracite Gas Company, and then it was changed into another, and they had under that the right to lay mains all over the city; I think it was called the Anthracite Gas Company at first, and it was changed into the Union.

Q. That the Knickerbocker Company had acquired the right of the Union Gas-light Company under its charter with the city?

A. I think it was the right acquired by the Anthracite Gas-light Company.

Q. Did that company ever in fact do any business?

A. I think not.

Q. The Anthracite?

A. I don't know, it is so far back; I never heard whether they did or not.

Q. You never knew of it if they did?

A. No, sir.

Q. Now, what other privileges of any kind did the Knickerbocker enjoy, if any, in 1880, at the time of this transaction?

A. They had the McKenzie and Sayre patents for manufacturing, and the exclusive right for this city; our company has discontinued manufacturing under them, but they held the exclusive right to the city of New York under these patents.

Q. What other privileges or rights of any kind did the Knickerbocker in 1880 enjoy?

A. I don't remember of any others.

Q. Is there any other legislation by special act or contract with the city that the Knickerbocker then had that you have not mentioned?

A. I don't remember of any thing more.

9008 Q. Did they acquire, subsequent to 1880, any other so-called privileges or franchises—the Knickerbocker?

A. Yes, sir, a right in four or five patents that came from the McKenzie and Sayre Manufacturing Company, and which they turned over to us in 1880.

Q. Was any money paid in that transaction?

A. No, sir, but if any improvements were made they should have the advantage of them.

Q. Those improvements were not utilized?

A. No, sir.

Q. With that exception, did the Knickerbocker acquire any other rights or privileges?

A. I don't remember of any thing else.

Q. Is there any method in your judgment by which this Committee can ascertain how much the real estate of the Knickerbocker cost?

A. Yes, sir; I should think so; I think the Cuttings would know who bought it; they ought to; I don't know of anybody else who would know.

Q. At the time of this transaction in 1880, was any other inquiry made by any officer or representative of the Municipal Company, in respect to the value or cost of the real estate and plant of the Knickerbocker Company at that time?

A. I did not do it as a director, nor as counsel; I don't know whether the other officers did it; if they did their duty they did, but I cannot say whether they did or not.

Q. Have you any opinion as to what the value at that time was, what the real estate and plant cost?

A. No one can tell what the cost was of their pipes and meters and manufacturing apparatus, and their bulk-heads and their filling in and their real estate, no one except the man who was inside, and then an officer who was acquainted with their books; it would be impossible; I could only give what was reported to me by their officers as the value of this property.

9009 Q. You mean in 1880?

A. Yes, sir; the time that it was bought.

Q. Who made any statement to you?

A. I talked with the president and secretary.

Q. Name them?

A. Mr. Francklyn and Mr. Gawtry; and then I talked with the Cuttings about it, and I formed my opinion as to what it was worth.

Q. What Cutting was it?

A. William Bayard Cutting, and also Robert Fulton Cutting.

Q. Well, now, did you have anything to do with arriving at the values of the so-called Knickerbocker properties at the time of the consolidation?

A. I saw estimates of the property on paper, how many lots they had, what they were, and the value of the lots; and the bulk-heads and mains I had some consultation in regard to that.

Q. How early in point of time was the first one in regard to that?

A. I don't remember of any values put upon that at all until about a year before the consolidation.

Q. The latter part of 1883?

A. I should think that embraces all the period that we considered values.

Q. The latter part of 1883?

A. I should think that year would cover all our talk on that subject.

Q. When did you first hear the total amount—the aggregate of the proposed capital?

A. It was during that year.

Q. You remember who first named $45,000,000?

A. I think Mr. Smith, the present treasurer; I think he was the first man who spoke about the forty-five millions.

Q. You think that was the latter part of 1883?

A. It was during the time that we considered consolidation; I could not give the dates any closer than that.

9010 Q. You remember a good many occasions when the pooling committee were considering that subject?

A. Yes, sir.

Q. You remember reports of the sub-committee of the pooling committee on that subject which were made from time to time on the subject of consolidation?

A. I don't remember any written reports brought in; I don't know that there were any committees upon that subject except towards the last when the company was asked to bring in values, and we would compare and see what the others thought of it.

Q. There appears to have been a report made to the pooling committee in November, 1883, which was referred to [illegible] a resolution adopted at that meeting, "*Resolved,* that the report and plan of the sub-committee on consolidation as submitted at the last meeting has the approval of the representatives of the New York, Manhattan, Municipal, Harlem and Knickerbocker Gas-light Companies"—does that refresh your memory so as to enable you to say that there were considerations?

A. I don't remember now what sub-committee there was or who was on it.

Q. Do you not remember it was definitely determined during the latter part of 1883 that there should be a consolidation?

A. I would not like to state the date when that was agreed upon; I am indefinite as to the time; I would say that the question of consolidation was the prime question at the time the pooling committee went into operation; they went into that pooling for that purpose; all this before that were the preliminary steps for the purpose of bringing them all into consolidation; there was talk about it little by little and scarcely anything was done until toward the last year.

9011 Q. The last year was 1883?

A. I should think it was from 1883 to 1884; I should judge that that was the time when the thing was talked about most.

Q. At a meeting at which you are recorded as being present, in December, 1883, it appears to have been voted, "That the plan for a consolidation accepted by this committee be referred as a basis to a committee of one from each company to report a plan in full detail for the consolidation of all the companies here represented, with power to call in legal counsel, and that this plan be reported to this committee for approval on the call of the Chairman"—do you remember that occurrence?

A. I should not remember it unless you read it.

Q. Who was the legal counsel who was called in, if any?

A. I was one of the counsel and Mr. H. H. Anderson was another.

Q. Were there any others?

A. I think not.

Q. As a result of calling in counsel under that resolution was the act chapter 367 of the Laws of 1884 drafted, "An act to authorize the consolidation of manufacturing corporations," passed May 28, 1884?

A. I don't think that act was drafted by calling in counsel by this pooling committee.

Q. Was anything done by counsel who were called in under that resolution?

A. I would like to know if I am to be examined as counsel for those companies and to tell the secrets of my clients committed to me; I don't think you ought to ask me questions of that sort.

Q. You are not asked to state any communication or interview of yourself or anybody else that can fairly be deemed privileged communications; you are simply asked what, if any thing, counsel did under that resolution?

9012 A. I think counsel under that resolution simply arranged the methods of the union of these two companies and drew an agreement in regard to the companies, and how they should come in, that these two companies ought to sign.

Q. Was such an agreement drafted?

A. Yes, sir.

Q. Was there more than one such agreement?

A. I think there was only one agreement about consolidation.

Q. And that is the formal one that now exists?

A. I think so.

Q. When you commenced to draw these various agreements that were not signed the law of 1884 was not enacted?

A. No, sir; it is not so; the law of 1884 had been passed six months before there was any attempt to draw any agreement.

Q. Who drafted that act?

A. I had a hand in it.

Q. Do you testify that that act was not drafted until after the articles of agreement were first prepared?

A. Yes, sir; that is so; that I believe to be so.

Q. As the result of employing counsel under this resolution of the pooling committee that was agreed upon in December, 1883?

A. When was the act passed, sir?

Q. I have not the date; it is chapter 367 of the Laws of 1884; I have not got the Session Laws here; was not the act drafted and subsequently became a law and known as chapter 367 of the Laws of 1884?

A. No, sir; it was not.

Q. When was that act first drafted?

A. I don't remember when it was first drafted; I think it was a year before it was passed.

Q. It was drafted in 1883, then?

A. I think it was.

9013 Q. Was it drafted before amendment of the charter of New York city known as the Consolidation Act, which prohibits the laying of mains in the city of New York by gas companies, except by the consent of two-thirds of the owners of property fronting on the streets?

A. It was not drafted before that.

Q. Was it drafted immediately after the passage of that act?

A. No, sir; I had no reference to that act you just read.

Q. Did you draft the other act?

A. No, sir; I never knew of it until I heard of it.

Q. Then this act of 1884 must have been drawn in the summer of 1833, or thereabouts—or late in the spring?

A. Yes, sir; I think it was.

Q. You remember whether it was drawn before the Legislature of 1883 adjourned?

A. Well, sir, I can't remember about that; my impression is now that it was drawn a whole year before it was passed.

Q. Who assisted as counsel in the drafting of that act besides yourself?

A. Mr. Anderson.

Q. Who else?

A. No one.

Q. As passed is there any change in that act?

A. Yes, sir; almost every section was altered after it went from my hands.

Q. When did it pass out of your hands?

A. My impression is that it was the Legislature of the year before, but I would not be certain about it, and I never saw or heard of it again until it was passed; some Senator took it in committee and altered almost every section of it.

Q. Who told you that?

A. I don't remember who did tell me that; somebody said when it was in the committee a certain Senator objected to a great many clauses, and it was amended; I think the amendments were made openly—I don't know.

9014 Q. Do you remember what any of those changes were to which you have alluded?

A. I don't know; there were quite a number, but I don't remember what they are; I didn't know about the changes until the bill was passed, and I compared it with the paper I had.

Q. You retained the draft of it?

A. Yes, sir.

Q. Will you show that draft to the Committee?

A. I have not any great objection; I don't wish to have you make public my professional secrets, because I would never have another client if I should do so; if you would like to see that original draft, I will produce it.

Mr. Tremain: I think it might aid the Committee if you produce it.

The Chairman: It strikes me that the suggestion as to professional confidence is hardly proper here, because the question refers to a paper that has been made public.

The Witness: I prefer to produce the paper rather than have you think there is any secret lying back, but I would prefer that you would not publish my drafts and throw them out to the world unless you find something very bad.

Q. To whom did you give that act after it had been prepared and agreed upon by yourself and associate counsel?

A. Senator Jacobs.

Q. Did you subsequently to that delivery have any conversation with anybody about that act prior to its passage?

A. I don't remember of any conversation, but I may have talked with my own clients about it.

Q. With Mr. Francklyn or the president, General Roome?

A. No, sir.

Q. With Mr. Gawtry?

A. I don't remember.

9015 Q. Do you mean individually when you speak of your clients? It was to ask the name of the individual to whom you alluded when you said you might have talked with your own clients?

A. I don't remember any specific occasion or person that I talked with about that bill; I only made the answer which I did because in the course of two years in matters of that kind I could hardly help talking with somebody, but I don't remember who.

Q. Was this draft of the articles of agreement made before the act was actually passed, but after it was drafted?

A. They were drawn long after the act was passed, the articles of agreement, I think at least six months, or more.

Q. Now in respect to the selection of appraisers, what action, if any, was taken by yourself toward the selection of the others at the time of the consolidation, or before?

A. My recollection is that each company first brought in their own appraisement, and I think that the appraisements of some of the companies were disagreed to, and that there was some arrangement made by which other parties should be called in to make an appraisement which should have that standing similar to arbitrators between all the parties—as to whether that went through or whether it was done afterward, I can't say.

Q. Do you remember the circumstance that the Knickerbocker and the Municipal representatives proposed that their values should be about $8,000,000 in the consolidation?

A. I don't remember the exact amount.

Q. Do you remember that somebody objected to it?

A. I remember that somebody objected to all the appraisements all around; that is relatively—one would say "if you say our property is worth so much it is worth more than you put upon it." It 9016 was a difficult question where there were five corporations to settle the values and put it into a consolidation; it was the most difficult thing in all the transaction.

Q. Do you remember how the amount $7,781,000 was arrived at?

A. Yes, sir. Was that the amount of the Municipal?

Q. No sir.

A. What was the amount that the Municipal went in for in the consolidation?

Q. Five million one hundred thousand dollars, and the Knickerbocker $3,000,000. Do you know how the item $7,781,000 of the so-called rights and franchises, etc., of the Knickerbocker in the total capitalization was arrived at? Can you give me the general basis on which that item was founded?

A. The general basis that I considered to be adapted for the purpose of arriving at the value of the franchise was this: That we should take the values of our stock in market at the time; if the capital, for instance, of the Municipal was $3,000,000, if it stood at 200 it would be worth over $6,000,000; then taking out of that the values of the real estate and the works, the franchise ought to be the difference; that was my view generally.

Q. How was that difference apportioned among the various companies?

A. Well, they apportioned it as well as they could; one had to come down and another had to add a little; they were a long time agreeing upon it, taking all the capital of the companies at their fair valuation in the market and taking out its real estate and its personalty, then the rest of it was the value of the franchises; that, I think, is the law; that is to say, we are taxed on that basis.

(By the CHAIRMAN:)

Q. What basis did you actually adopt?

A. We considered that these properties that were worth, some of them 320, that the franchises must be exceedingly valuable; the Manhattan was worth 320.

9017 Q. The New York, what was that worth?

A. I don't know.

Q. The Metropolitan was worth how much?

A. I don't know anything about the quotations except one or two of them.

Q. The Harlem?

A. I don't know.

Q. How much did you say the Metropolitan was worth?

Mr. TREMAIN: He did not say.

A. I don't know; I think it was selling for about 220 then.

Q. Mr. Zollikoffer says he paid 245 for some about that time; how did you arrive at the gross sum of $45,000,000 as the proposed consolidation by which other values should be gauged?

A. Well, sir, I will tell you a littlee how it came about in the way in which it was put to me; I shall only do it by referring to an example; it is an actual occurrence; the Manhattan people said "our stock is worth 320;" and if the stock is put in at market price into the Consolidated, "we ought to have the new stock at par to measure our capital, at 320, high enough, so that if we simply get on our new stock seven per cent. interest we will be satisfied," and we will not be satisfied with less.

Q. That was actually the basis upon which the proposed capital was stated?

A. As a general rule they said there ought to be enough so that it will cover the fair value of this stock in the market, so much at par.

Q. So that seven per cent. of the new proposed capital should be the dividends on the new stock?

A. I would not like to say that; it is not fair for me to reason the thing out.

Q. It is a fact that the market value of such stock is based upon the dividend it does pay?

A. Yes, sir.

9018 Q. The Manhattan was worth 320 because it had paid such large dividends, twenty-one per cent. at that time?

A. I know they said that they would not receive an equivalent if they did not get $12,000,000--three for one.

Q. Their capital was $4,000,000, and the new was capitalized at about $12,000,000?

A. That is about it; they said they did not expect to get over seven per cent., and they ought to have the stock par for that.

(By the Chairman:)

Q. Supposing the company had charged and received from the consumers of gas such a price as would enable the stockholders of the company to receive an annual dividend of fifty per cent. upon the capital invested, that would proportionately increase, would it not, the market value of the stock of that company?

A. Yes, sir.

Q. Then the theory of this consolidation was this: that if one of the constituent companies has charged the gas-consuming public a price large enough to enable the company to receive an annual dividend of fifty per cent., we must have stock in the new company at par to be equal to the value of the stock of that company and such an annual dividend, that would be it?

A. Yes, sir; that is the theory; may I be allowed to make a statement?

The Chairman: If you will reserve it until we get through with this inquiry.

Q. Don't you know that such a dividend as contemplated by that answer cannot be paid with the price of gas substantially reduced below its present increase?

A. No, sir.

Q. Seven per cent. on $39,000,000?

A. The companies have declared a dividend for a year, and they have earned it; that I believe to be the fact; I know that to be the fact as a director.

9019 Q. Don't you know if the price of gas for this year had been $1.50 a thousand, such a dividend could not have been earned—such a dividend as they have declared?

A. I believe, and I say under oath that they earned it.

Q. I ask you if the price of gas had been $1.50 a thousand whether such a dividend would have been earned?

A. I think it would; I have not made any figures about it.

Q. You mean that during the past year consumers of gas in the city of New York have paid to the Consolidated Company such a price as has enabled that company to make a dividend of seven per cent. upon an amount of stock increased upon the theory as already stated?

A. Well, sir, the question is a little confusing.

Q. You mean that during the past year the consumers of gas in the city of New York have paid to the Consolidated Company such a price as has enabled that company to make a dividend of seven per cent. upon an amount of stock increased upon the theory as already stated.

A. May I make an explanation after I answer the question? I want to have my answers clear and definite; I say, yes; I mean by that I think the gas company has made seven per cent. absolute profit upon its capital, and has earned it all.

Q. Do you remember during the progress of the proposition to consolidate that the values of the so-called franchises were apportioned to the various companies under a plan of this kind; I read from a proposed inchoate plan submitted among other papers by James W. Smith, the following paragraph:

"When all of the values are fixed and determined upon, the amounts thereof shall be aggregated and the difference between the total thereof and the amount of the capital of the new com-
9020 pany, as heretofore fixed, shall be deemed to be the value of the good-will and franchises of the several existing companies and shall be divided between them in proportion to their individual sales of gas as adjusted and confirmed by the present committee of one of each company, to the gross amount of sales by all the companies so adjusted for the period from October 15, 1882, to October 14, 1883, and the sum thus divided shall be added to the schedule value of each of the existing companies, and shall together form the capital of the new company."

Do you not remember the fact to be that the values of the so-called rights, franchises, etc., were apportioned upon that basis?

A. I don't know but that is so, but I don't remember any more than what you read there.

Q. You don't remember that they were apportioned upon any other basis?

A. I have given what was stated here, the argument used in regard to the franchises.

Q. The element of stock was of course considered in addition to what I have just read?

A. The gas which they distributed would show the value of their capital; if one company that year distributed twice as much gas as another, of course its stock would be worth a great deal more.

Q. Referring to the act which was drafted in 1883, and passed in 1884, who had charge of the necessary expenses attendant upon the introduction and passage of that in the Legislature?

A. The necessary expenses there you mean, at Albany?

Q. Anywhere in that connection?

A. I didn't pay any expense to anybody; I gave it to Senator Jacobs and asked him to present it.

Q. Who did in behalf of the company?

9021 A. That I don't know anything about. I asked Senator Jacobs to take charge of the thing, and he said he would do it.

(By Senator MURPHY:)

Q. Was the bill introduced in the Senate or the Assembly?

A. In the Senate by Senator Jacobs.

Q. It was not moved?

A. I don't know.

Q. Was the bill which was introduced in the Assembly passed first or was the Senate bill moved after it was introduced?

A. I don't know; I asked him to take the bill and push it along as fast as he could, and he introduced the bill.

Q. Who represented the pooling committee or consolidation interests in expenses attendant upon the inception of that act in the Legislature?

A. I don't know any thing about any such expense in the pooling committee.

Q. Did any body attend in the interest of that act before the Legislature?

A. I don't know that they did; I gave the bill to Senator Jacobs and asked him to do all that was necessary to push the bill through.

Q. Do you know anybody in the city of New York who was interested in the passage of that act, or who took any interest in aiding its passage?

A. No, sir.

Q. Did you ever hear any name mentioned?

A. No, sir.

Q. Did you ever hear the name of O'Brien mentioned in that connection?

A. No, sir; I never heard his name mentioned.

Q. Was the matter of the passage of that act ever considered before the pooling committee?

A. No, sir; not to my knowledge.

Q. Have you any knowledge who introduced that bill in the Assembly?

A. No, sir; if you are asking for any arrangement at Albany, or money paid, now I don't know any thing of the kind.

9022 (By the CHAIRMAN:)

Q. If that was done, it was not done with your knowledge?

A. No, sir; I don't know any thing about it.

R. F. CUTTING, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You was at one time interested in the bonds of the Knickerbocker Gas-light Company?
A. Yes, sir.

Q. You are still a holder of some of those bonds?
A. Yes, sir.

Q. When did you first become interested in those bonds?
A. As far as my memory serves me I commenced to be interested in the fall of 1878 or the beginning of 1879; I can't answer with certainty without referring to papers.

Q. Had you any interest directly or indirectly before that time?
A. No, sir.

Q. How did you begin then to be interested?
A. Through taking an interest in the formation of the company to be called the Knickerbocker Gas-light Company.

Q. What interest did you acquire in that company?
A. In the shape of bonds and stocks.

Q. Yourself, and who was associated with you in acquiring that interest?

A. I was acting at the time as the representative of an estate.

Q. What estate was that?
A. On the part of my grandmother's estate; I was one of the executors.

Q. What estate?
A. Elizabeth Bayard.

Q. Did the Knickerbocker Company buy property of the estate of Elizabeth Bayard?
A. No, sir.

9023 Q. What was the relation of Elizabeth Bayard to the Knickerbocker Company in 1878 or 1879?
A. Simply that her estate provided the funds for the inauguration of the company; I was one of her representatives, and my brother, William B. Cutting, and my cousin, M. B. Brown.

Q. You three were associated as a unit in that transaction?
A. Yes, sir.

Q. What was that transaction?
A. The first transaction was the purchase of certain properties that had been the property of the Union Gas-light Company.

Q. Whom was that contract of purchase made with?
A. With the representatives of the Union Gas-light Company, assignees.

(By the CHAIRMAN:)

Q. The receiver?
A. Receiver.

Q. What is his name?
A. There were three, if I recollect right—one was Appleby; one was Redfield, or a name similar to that; I could not answer exactly the names.

Q. Charles B. Appleby?

A. I believe that is the gentleman.

Q. Did you buy it at a public or private sale?

A. A private sale.

Q. What did you buy?

A. We bought the property comprising land in Ninety-eighth and Ninety-ninth street, First to Second avenue; and such property as remained between First avenue and the water line of the Harlem river; and also between Ninety-eighth and Ninety-ninth streets.

Q. What was the total cash paid for that property?

A. I don't remember, sir.

Q. To whom was it paid?

A. To the receivers, if I remember right.

Q. Who made the payment?

A. William A. Stephens, trustee for certain persons interested in the purchase of that property.

9024 Q. Who were the persons besides those you have named?

A. Pierrepont Morgan, I think, had a small interest; William A. Stephens and John Sickles.

Q. Stephens was acting under a trust?

A. Yes, sir; I think so.

Q. Who has that writing?

A. I don't know.

Q. Have you a copy?

A. I am not certain; I am not even sure that he was acting under an instrument in writing, but I presume he was.

Q. The person for whom he was acting contributed to him the funds from which he made the payments?

A. Yes, sir.

Q. As the result of that transaction was all the money paid at once or were there securities given for a part of the property purchased?

A. I don't remember definitely.

Q. Give your best recollection as to the amount paid in that purchase?

A. My impression is—it might be very far from correct.

The CHAIRMAN: It is subject, of course, to correction.

Q. You may give your best recollection, and if in error, you may correct it?

A. My recollection is that the sum paid was $2,000, but my impression is very vague indeed; I remember well, it was a sum supposed to be comparatively insignificant to the value of the property at the time.

Q. Do you know to whom the title was taken?

A. Well, I don't remember whether in the name of William A. Stephens, trustee, or to the Knickerbocker Gas-light Company; I presume to the Knickerbocker Gas-light Company.

Q. At that time were there any constructions upon that property?

A. Yes, sir; there were several large buildings; a retort house, and another very large structure needed on the property; beside the docks, and also two gas-holders.

9025 Q. Were they then being used for producing gas?

A. No, sir; I don't think they had ever been used.

Q. Were there any mains that had been laid then, and which were included in the purchase?

A. Practically I think none; I think the Union Gas-light Company had laid a few feet of mains.

Q. Did this purchase include the stock of the Union Company as well as the property?

A. It included the franchise—well, it must have included the stock.

Q. Was the Knickerbocker Company then organized?

A. Yes, sir.

Q. Who were its officers?

A. Mr. Stephens, John Sickles, myself and Mr. Brown; I was a director.

Q. Who were the other directors?

A. Stephens, Sickles and Brown.

Q. Who else?

A. Mr. Howes; he had a small interest in the company also; I had forgotten him entirely.

Q. When you bought this property of the Union Gas-light Company it was free and clear?

A. Yes, sir.

Q. What did you do with the property when you bought it?

A. The Union immediately put in the machinery for gas making and to lay mains.

Q. At the time of this purchase how much capital stock of the amount of the Knickerbocker Gas-light Company—what was its capital prior to the purchase?

A. The capital stock was $1,500,000; I don't remember that any of it had been actually issued.

Q. Now after this purchase—did the Knickerbocker Company make a mortgage on those premises?

A. Yes, sir.

Q. And issued bonds.

A. Yes, sir.

9026 Q. And did they also issue all that capital stock, $1,500,000?

A. Yes, sir.

Q. That was done?

A. To the best of my recollection.

Q. It was done while you was a director?

A. Yes, sir.

Q. And prior to 1879?

A. I couldn't say; I don't remember when the operation was commenced; it might have been in 1879; it was done, however, immediately after the first operation.

Q. To whom was that stock issued?

A. I think it was all issued in the name of William A. Stephens as trustee.

Q. Except enough to qualify the directors, of course, was there not?

A. Yes, sir.

Q. To whom were the bonds issued?

A. William A. Stephens, trustee.

Q. Up to the time that these bonds and that stock had been issued the estate of Elizabeth Bayard, through yourself as its representative, and being associated with the other parties in interest, had advanced the sum of $282,000?

A. I think so.

Q. Prior to 1880 how much money in all had been advanced by William A. Stephens, trustee, for yourself and associates?

A. I couldn't answer that without refreshing my memory as to what the circumstances were.

Q. I think we will take your best recollection up to the 1st of January, 1880.

A. Money was being advanced by Mr. Stephens to the company the whole time, as the mains were being laid, and every month, of course, adds to the total.

Q. Do you know what the total was up to January, 1880?

A. I couldn't tell you how much of the whole amount was advanced up to that time.

Q. When advanced after that?

9027 A. There were advances made up to the time the Knickerbocker sold to the Municipal.

Q. The amount?

A. Something over $1,200,000.

Q. How much of that was advanced through you, either from the estate of Elizabeth Bayard through you or otherwise?

A. It is a matter of private business which I do not wish to have ventilated unless it is absolutely necessary.

Q. Here is a company that has been capitalized and upon which the public are being charged the price of gas to pay a dividend upon a capital of three millions of dollars; so far as the committee has been able to ascertain, there are no books to show except the customers' ledger.

A. William A. Stephens up to that time used for the purpose of the Knickerbocker Gas-light Company something over $1,200,000.

Q. Inasmuch as the stock has been distributed to the parties now holding it, if you will indicate whether there are any book or books of the Knickerbocker Gas-light Company that will throw any light upon this transaction it would aid us very much; how long did you continue to hold any interest in that company?

A. Until the sale of the company to the Municipal Gas-light Company.

Q. Then what did you receive, bonds?

A. Yes, sir.

Q. And stock of the Municipal Company?

A. Yes, sir.

Q. And you have transferred that stock into the stock of the Consolidated Company?

A. Yes, sir.

Q. And you and your associates hold more or less of that stock to-day?

A. I don't hold a single share.

Q. You did at the time of the consolidation?

A. Yes, sir.

9028 Q. You also hold these bonds which have been assumed by the Consolidated?

A. Yes, sir.

Q. You are aware that the stock has been reserved to take them up or pay them?

A. No, sir, I am not aware of it.

Q. Those bonds are secured by a mortgage?

A. Yes, sir.

Q. Who is the trustee of the mortgage?

A. I believe I am one, but I am not certain about it.

Q. How much of this money, $1,300,000, was in fact advanced by the estate of Elizabeth Bayard, or by yourself?

A. I can only answer as far as my recollection goes; well, I should say about—do I understand that the committee want that information?

The CHAIRMAN: It seem- to be possible that it will supply a link which we shall need.

A As far as I can remember, I should say it was about $1,150,000, or a little over that.

Q. Of the $1,200,000 advanced?

A. I may be entirely in error; it is a good many years, and I have discharged it from my mind altogether.

Q. Were there not two sets of bonds issued?

A. Yes, sir.

Q. The first set?

A. Seven hundred and fifty thousand dollars.

Q. When were those issued?

A. I should say in 1878.

Q. To your best recollection they were issued in 1878?

A. I should think so.

Q. The other block of bonds were how much?

A. Four hundred and fifty thousand dollars.

Q. To your best recollection they were issued when?

A. About 1879.

Q. About the time of the improvements made by Mr. Rowland on the works?

A. I think not.

9029 Q. They were issued about the time those improvements were made on those works?

A. They were issued for money that had been actually expended by William A. Stephens.

Q. On the works?

A. Yes, sir; we never knew Rowland at all; any thing that he did was an additional expense over and above that $450,000.

Q. When the first issue of $250,000 was made of bonds were they all given to you personally?

A. If I remember, I said I was one of the trustees; I think my brother was trustee of the mortgage, and I think the bonds were all placed in his hands—$750,000.

Q. How much stock was placed in his hands at that time?

A. I don't know.

Q. How much stock did that transaction contemplate should be issued at the time?

A. I don't remember.

Q. When the $450,000 issue of the bonds was made, who received those bonds—the same gentlemen?

A. Yes, sir.

Q. How much stock was then issued to them.

A. I don't remember.

Q. What stock was it that they then received—Knickerbocker stock, was it not?

A. Yes, sir.

Q. Do those two issues exhaust all the shares of the Knickerbocker capital?

A. If I remember rightly, yes; some shares went other ways.

Q. How many?

A. The promoters of the company received certain stock; I refer to Messrs. Stevens and Sickles; I don't remember the total number of shares thus apportioned.

Q. Is there any book or books that will give us that information?

A. I think not.

Q. Is there any member of the board of direction that would be likely to have any more knowledge on that subject?

A. Mr. Stephens should have a better knowledge of that transaction than I have recollection of.

9030 Q. Well, it was less than $300,000 par value?

A. Yes, I should say it was.

Q. How much less?

A. My impression is that it was about 1,500 shares.

Q. Representing $150,000 at par?

A. Yes, sir.

Q. And all the balance of the stock was issued to the parties who took the bonds?

A. Yes, sir.

Q. You continued to hold that stock until the Municipal Company acquired it?

A. Yes, sir.

Q. You remember a transaction in March, 1880, do you not, when the Municipal Company bought all that stock?

A. Yes, sir.

Q. You gave a guarantee that the indebtedness should not exceed $200,000, did you not?

A. Yes, sir.

Q. How much money was paid in closing that transaction?

A. I don't remember.

Q. Were you present when the transaction was closed?

A. I don't think I was; there was quite a number of meetings held about that time, but I don't remember being present at the final transaction.

Q. Do you remember being present at an occasion when Mr. Day was present at the close of that transaction?

A. I remember of meeting Mr. Day several times; I don't recollect any special occasion, though.

Q. You remember a payment of $50,000 that was made about that time?

A. I do not remember distinctly.

Q. What is your best recollection about that circumstance?

A. My recollection is so exceedingly vague upon the matter, I can't give it.

Q. Do you remember a payment of about $350,000 about that time?

A. I don't remember with any distinctness.

9031 Q. What is your best recollection about that circumstance?

A. There was a cash payment made; my recollection of the final transaction fails me a good deal.

Q. Give your best recollection about it?

A. I really can't give any thing definite what the features of that final transaction were.

Q. How much stock of the Municipal Company, if any, was passed over in closing that transaction?

A. I don't remember.

Q. Do you remember the fact, that some was passed?

A. Yes, sir.

Q. How much did you get of that Municipal stock, as a result of that transaction?

A. As a representative of the estate of Mrs. Bayard?

Q. In any shape.

A. If I remember rightly we received 3,550 shares; I may be incorrect there too.

Q. Was that for the estate of Elizabeth Bayard, or for the associates with yourself and William Bayard Cutting?

A. For the estate alone.

Q. How much did you get for yourself?

A. None.

Q. How much did William Bayard Cutting get?

A. No stock at all.

Q. Do you mean that in this whole transaction that neither yourself nor William Bayard Cutting had any personal interest whatever, either in cash, stock or bonds?

A. None whatever.

Q. And at no time receiving any?

A. No, sir.

Q. Yourself nor your brother?

A. No, sir.

Q. The transaction was entirely a transaction of that estate?

A. Yes, sir.

Q. The accounts of the estate will show, will they not, the amount of stock received?

A. They kept no ledger, and I don't know that there are any figures whatsoever.

Q. You was an executor?

A. Yes, sir, and William Bayard Cutting.

9032 Q. Will not the account of the estate show the number of shares of the Municipal stock that the estate acquired by reason of this transaction?

A. I could not answer that.

Q. Was you an attorney in this transaction?

A. Yes, sir.

Q. Having a power of attorney?

A. She was alive at that time.

Q. Did she give you power of attorney?

A. Yes, sir.

Q. Is it your best recollection of that transaction when the property was passed to the Municipal Company that you retained your bonds and parted with all your Knickerbocker stock, and received Municipal stock to the extent of three thousand five hundred and fifty shares?

A. Yes, sir.

Q. Now where did the $350,000 payment come in—who received that?

A. I don't know, sir; I don't remember what the circumstances of that payment were.

Q. Do you remember the fact that a suit was brought for damages, so called, by the Knickerbocker against the Municipal Company in 1879?

A. Yes, sir.

Q. Did you have anything to do with instituting that suit?

A. If I remember rightly; yes, sir.

Q. Do you know that that suit was settled at the time of this transaction or sale?

A. Yes, sir.

Q. And you think there was a payment of $50,000 made in cash at that time?

A. I did not say that I thought so; I don't remember.

Q. As an officer of the Knickerbocker Company at that time have you no information whatever as to the disposition made by the Knickerbocker Company of the sum of $300,000 or $350,000, which it appears in evidence here was paid by the Municipal Company to the Knickerbocker Company at the time this transaction was closed? 9033

A. I don't remember the disposition of that.

Q. Did Elizabeth Bayard, or her estate, receive any part of that $350,000?

A. I don't remember.

Q. Has any money whatever been advanced by or through you to the Knickerbocker Company in excess of the amount, and still remaining unpaid to you in excess of the amount of bonds which you now hold?

A. Yes, sir.

Q. How much?

A. I don't remember the actual figures.

Q. Has it all been repaid with the exception of the bonds which you now hold?

A. No, sir.

Q. Give your best recollection of what sum remains unpaid or unreturned?

A. My best recollection will not carry me with any certainty; there was a considerable sum expended—over $1,200,000.

Q. And advanced by the estate of Elizabeth Bayard?

A. Yes, sir.

Q. Give your best recollection of how much?

A. My recollection is exceeding vague; perhaps between $30,000 and $40,000.

Q. You continued to hold that block of 3,550 shares of the Municipal Company's stock until the consolidation?

A. Yes, sir.

Q. How soon after the consolidation did you dispose of the stock?

A. I don't remember how soon after; some time after.

Q. Has the trust of William A. Stephens for himself and his associates in the transaction you have just described ever been closed by any accounting or agreement?

A. I think so, yes, sir.

Q. When did that occur?

A. I don't remember the date.

9034 Q. What year?

A. About the time of the sale of the Knickerbocker to the Municipal, or soon thereafter.

Q. Is there any thing in writing on that subject in your custody or possession?

A. Not that I know of.

Q. Why do you say that it was closed by any accounting or agreement?

A. I take it for granted in a matter of that kind it would have been closed as a business transaction, and perhaps no recollection of it.

Q. How could it have been closed without the distribution of securities or moneys that were received by Stephens or his associates for distribution at the time of the closing of that transaction?

A. It probably was not closed until after that.

Q. Have you any recollection whatever of any subsequent accounting or agreement, by which such trust was closed?

A. I don't remember, sir.

Q. When did Elizabeth Bayard die?

A. In 1882.

Q. Did you continue to act under her power of attorney up to that time?

A. Yes, sir.

Q. Did you do any thing toward having that trust closed up before her death?

A. I don't remember, sir.

Q. State your best recollection what, if any thing, you did do from February, 1880, up to her death, in respect to any of these securities for this indebtedness?

A. The question is rather indistinct.

Q. State what, if any thing, you did do under that power of attorney, between February, 1880, and up to her death in 1882, respecting these securities for indebtedness?

A. What indebtedness do you refer to there?

9035 Q. It is clear you held certain bonds which you say did represent an indebtedness, and the question is intended to refer to any securities you have mentioned relating to that transaction?

A. The securities were held in absolutely the same way they were received.

Q. State what, if any thing, you did do under that power of attorney between February, 1880, and up to her death in 1882, respecting those securities for that indebtedness, what you did?

A. Nothing.

By the CHAIRMAN: The counsel refers to the indebtedness—the bonds of the Knickerbocker Company.

A. They were simply held in the estate of Mrs. Bayard?

(By Senator ROBINSON:)

Q. That you held them; the bonds?

A. Simply as representative of Mrs. Bayard's estate.

Q. You held them up to her death?

A. Yes, sir.

Q. Did you hold the Municipal stock?

A. The stock was all held.

Q. Did you take the shares as her attorney?

A. Yes, sir.

Q. Did you hold them as her attorney up to the time of her death?

A. Yes, sir.

Q. You had the certificates?

A. Yes, sir; every one of them.

Q. Did you have any money received from this transaction up to the time of her death?

A. It passed into the bank balance of the estate.

Q. Did you keep that account as her attorney?

A. Yes, sir.

Q. In what bank did you pass that money?

A. The American Exchange Bank.

9036 Q. Can you refresh your recollection from your bank account and tell the Committee how much cash passed to the credit of the estate of Elizabeth Bayard when this transaction was closed in 1880?

A. Yes, sir.

Q. Will you please do so?

A. Certainly.

Q. After 1882 after her death, did you continue to hold these bonds and this stock—you held it personally?

A. Yes, sir.

Q. You have got the bonds yet?

A. Yes, sir.

Q. You continued to hold the Municipal shares until you exchanged them?

A. Yes, sir.

Q. And then you sold them?

A. Yes, sir.

Q. Do you hold any relation to that estate now?

A. As an heir.

Q. Who is the executor?

A. W. B. Cutting.

Q. Anybody else?

A. No, sir.

The Committee hereupon adjourned to Tuesday morning, December 1st, at 11 o'clock.

FIFTH AVENUE HOTEL,
NEW YORK CITY, *December* 1, 1885.

The Committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

H. E. Tremain, Esq., appears as counsel to the Committee.

JOHN C. JACOBS, a witness called by the counsel to the Committee, being duly sworn, testified as follows:

Examined by the CHAIRMAN:

Q. I believe you wish to make a correction as to what Mr. Day testified to?

A. Yes, sir; I wish to submit some correspondence I have had with Mr. Day, upon the subject of the evidence which he gave here Saturday last, I think; I addressed Mr. Day the following letter:

9037 BROOKLYN, *November* 30, 1885.

Henry Day, Esq.:

DEAR SIR: I see in the newspaper of Sunday, a statement made by you before the Senate Committee on the gas business, that you delivered the proposed consolidation act to me as a Senator, and asked me to introduce it in the Senate, and it is assumed I did not introduce it. I presume you did not intend to do me an injustice.

The facts are, that you came to Albany, and left me a bill, and asked me to introduce it after I had examined it. I made no promise about introducing the bill, but after keeping it a few days and examining it carefully, I returned it to you with a letter stating my reasons for not introducing it, which I did not do, as the record will show.

I ask, if upon reflection you find my statement to be true, that you will kindly give me a letter to that effect which I may be allowed to use.

Yours truly, JOHN C. JACOBS.

Q. Did you send that letter to Mr. Day?

A. Yes, sir.

Q. Did you receive a reply from him?

A. Yes, sir; the following is his reply:

120 BROADWAY, N. Y., *November* 30 1885.

Hon. John C. Jacobs:

DEAR SIR: I have your letter of the 30th inst. On reflection, I believe you are right in your statement that you returned the bill to my office, which I had left with you, and declined to introduce it. This fact had entirely escaped my memory when before the Committee, or I should have so stated it.

Yours very truly, HENRY DAY.

Q. When was that letter received?

A. Yesterday afternoon.

9038 Q. Are these originals, or copies.

A. This is Day's letter, the original; mine is a copy.

Q. You will put in evidence a copy of your letter, which you say is a true copy, and this which you say is the original?

A. Yes, sir.

Q. You was a member of the Senate in 1884?

A. Yes, sir.

Q. Did you know or hear of the passage of any bill, or the presentation of any bill in the Senate which you at the time understood to provide for the consolidation of the gas companies of the city of New York, or any bill having any relation whatever to that matter?

A. No, sir.

Q. Did you know of the passage of any such law except as you have heard it talked about since, and out of the Senate?

A. No, sir; that is all.

Q. You have been a member of both branches of the Legislature for a good many years?

A. Yes, sir; nineteen years, I think.

Q. It was a matter of surprise to you when you learned that there had been any bill passed, looking toward consolidation of the gas companies of the city of New York?

A. Yes, sir; it was.

(Senator MURPHY:)

Q. In the amendment of general laws it is almost impossible to discover what the object is except you are told, or except by the most expert lawyer and legislator?

A. Yes, sir; and then the most expert lawyer cannot discover the meaning of some legislation in the amending of general laws.

Q. To your mind such amendments are much more dangerous to the public than special legislation?

A. I regard it much more so than special legislation; in special legislation one knows what he is introducing; but in other matters one must take the word of the person who requests the amendment.

9039 Q. And the attention of the locality affected by it is not called to the subject-matter of the proposed amendment?

A. Never.

Q. In your letter which you have put in evidence you state that you examined the bill which Mr. Day put into your hands and found objections thereto, and for that reason returned it to Mr. Day?

A. Yes, sir.

Q. What was that bill?

A. I could not tell you; I could not tell you the title, but my impression is it was an act authorizing the consi*l*dation of corporations or manufacturing corporations, I could not tell; it was something of that general title.

(By Senator Murphy:)

Q. To amend the general law of 1848.

A. I couldn't tell, I paid very little attention to it, I saw there were objections to it and returned it.

Q. Do you now recollect what your objections were to it?

A. I don't; they were stated in this letter to Mr. Day; the letter will show if I can find it.

Q. Did you see Mr. Day at Albany in relation to the matter?

A. Yes, sir; he called on me at my house in Albany; I kept house there that year.

Q. Did he tell you what the object of the bill was?

A. I think not.

Q. Or the interest he had in it?

A. I cannot recollect well enough to state; it is a matter I did not charge my mind with; I think he said it was a bill which was of importance to him and some of his friends.

Q. Do you remember whether he told you in what way it was important?

A. No, sir; I asked him to leave the bill and I would look into it and let him know what I would do about it; I looked into it and found objections and returned the bill.

9040 Q. Did any one else besides Mr. Day talk with you about the bill or the object of its passage?

A. No, sir; that was the first and last I heard of the matter; Mr. Day didn't even answer my letter to him; it didn't require an answer, perhaps.

Q. Do you know who did introduce the bill?

A. I don't.

Q. Do you remember any thing about its consideration in the Senate?

A. No, sir.

Q. Do you know what committee it was referred to?

A. No, sir.

Q. Have you any recollection with reference to the history of the bill in the Senate?

A. None whatever; I don't know what it was or how I voted upon the bill.

Q. Did you retain a copy of your letter to Mr. Day at the time you returned the bill?

A. No, sir; because I am not in the habit of doing so.

Q. Have you any memoranda by which you can refresh your recollection as to when this bill was handed to you?

A. It is possible I may have something among my papers.

Q. What is your recollection?

A. I think it was early in the session; it was not as late as the middle of the session.

Senator MURPHY: The better way to get at the time this bill was introduced would be to get the number of acts that were introduced amending the general manufacturing law; it is just as the Senator has testified; it would be almost impossible to tell whose act it was; they don't amend the title of the general manufacturing act, only a section of the general law to apply to the legislation they are seeking for.

The WITNESS: If that bill was intended to be the gas bill it never was introduced in the Senate; there was no bill like the one sent to me introduced and passed afterward, for the reason I think it may be an amendment to the general law. 9041

Senator ROBINSON: Mr. Day testified that nearly every section of the bill which he put in was amended.

Q. When was this bill offered to you?

A. It is pretty safe to say, within six weeks after the organization of the Legislature.

Q. You retained it how long?

A. Not over a week; my clerk took it to Mr. Day and delivered it to him in person.

Q. It being the bill to provide for the consolidation of companies you would hardly be able to state that the same bill was not introduced and referred to a committee?

A. There is no bill which I can find that would contain such provisions.

Q. Have you examined chapter 367 with a view to compare it?

A. No, sir; I don't know what it is.

Q. It may be the same bill under a modified form?

A. It may be.

CHARLES G. FRANCKLYN, being recalled, testifies as follows:

Examined by Mr. TREMAIN:

Q. The expert reports that he has not been able to find or to receive from any official of the Municipal or Knickerbocker Companies any of the books except the customers' ledger; state to the committee where those books, including the stock book, are?

A. I don't know.

Q. When did you last see them?

A. I have no doubt they are in the office or somewhere about; I have not seen them for years, they are either in the Consolidated office or the branch office.

Q. Will you deliver them to this committee?

9042 A. They are not in my possession; they can be had, there is no doubt about that.

Q. Do you mean to say that the books of the Knickerbocker can be had?

A. You have had all there are, I believe; the customers' books, there are no other.

Q. When did you last see the stock of books of the Municipal?

A. I can't remember.

Q. You are president of that company and you are a director in the Consolidated?

A. I am.

Q. Will you deliver or cause to be delivered to this committee all the stock books of the Municipal Company?

A. I will do my best.

Q. Why has it not been done before?

A. It never was asked for; I have been asked to produce Knickerbocker books, and they do not exist; I cannot make books for the Committee.

Q. The inquiry has reference now to the Municipal stock books?

A. I presume they are in existence.

The CHAIRMAN: The answer about the Knickerbocker books the stenographer will strike out, because it was not relative to our inquiry.

Q. Can you send a messenger and have those books brought here now, and your examination will be suspended for that purpose?

A. I don't know where they are; I can send a messenger to two or three places and find out.

Q. We want the stock books of the Municipal Company?

A. I don't know of any except the certificate book.

Q. And the transfer book?

A. The transfer book.

Q. There was a stock certificate book?

A. I suppose so.

Q. Don't you know?

A. I suppose there are.

Q. Was there a stock transfer book?

A. I presume so.

9043 Q. Don't you know?

A. I don't know that I ever saw it.

Q. Who kept it?

A. Mr. Allen, the secretary.

Q. How many of those books were there?

A. I don't know.

Q. You know there were some, don't you?

A. Yes, sir.

Q. Was there a stock ledger?

A. Yes, sir.

Q. How many were there?

A. It seems to me you have all those books; you have had the stock ledger?

Q. The question is, was there a stock ledger?

A. Yes, sir.

Q. Where is that now, at the Consolidated office?

A. I don't know.

Q. Will you send for that?

A. If the committee so order.

Q. Do you remember preparing or having prepared under your direction at the time of consolidation, or shortly afterwards, a schedule of the cash assets of the Municipal Company?

A. I don't recollect.

Q. What were the cash assets of the Municipal that were turned over to the Consolidated Company?

A. I don't remember; the books will show, I presume; when they were turned over there was a memorandum of some sort; I don't remember what they were.

Q. Was there a memorandum of some sort given to the treasurer of the Consolidated at that time?

A. I really don't know; I presume there was.

Q. Didn't you sign such a memorandum as president of the Municipal?

A. I may have; I don't recollect that.

Q. Did you receive the money for them?

A. As president?

9044 Q. As anybody?

A. I don't remember whether I did or not.

Q. Did you receive stock for the cash assets?

A. Well, no; I think not.

Q. What did you do with the money you received?

A. Distributed it among the stockholders.

Q. What books of account will show it?

A. I think the Municipal dividend books will show it.

Q. Will that show the total amount received from the Consolidated for the cash assets?

A. I think so.

Q. What is your best recollection of that amount?

A. Some six hundred thousand dollars; I don't recollect exactly.

Q. When was that payment made by the Consolidated to you?

A. It was not made to me; it was made to the company.

Q. When?

A. Some time in January, I think.

Q. Were there any cash assets whatever in the Municipal beyond those that were paid for by the Consolidated?

A. I really don't remember whether the Consolidated ever had those or not.

Q. That don't answer the question?

A. I can't distinguish between those and any others.

Q. Were there any cash assets of the Municipal Company which the Consolidated Company didn't receive?

A. I don't know.

Q. Were there any cash assets of the company of which you are president that the Consolidated did not receive?

A. I don't know.

By the Chairman:

Q. You don't know whether or not the Municipal Company of which you are president turned over to the Consolidated Company all of their assets?

A. I don't remember.

Q. Have you any knowledge or recollection of any other disposition of any of the cash assets of the Municipal Company?

A. At what time?

9045 Q. At any time. I refer to assets which there were at the time of the consolidation, the then existing cash assets?

A. Yes, sir.

Q. Have you any knowledge or recollection of any other disposition of any of the cash assets of the Municipal Company existing at the time of the consolidation?

A. I am not sure about the time.

By the CHAIRMAN:

Q. What I suppose Mr. Tremain wants to find out is, the sum of $50,000 which was paid to you personally were any of those assets?

A. I don't know what they came out of; there was $50,000 paid to me as salary for eight or nine years.

Q. Paid to you when?

A. About the time when the Municipal affairs were closed up.

Q. Before or after the date of consolidation?

A. I don't remember.

Q. Was not that payment between November 11, 1884, and February 1, 1885?

A. I should think it was, but I don't remember exactly.

(By the CHAIRMAN:)

Q. If so, out of what funds did it come?

A. Out of the assets of the Municipal Company.

Q. That had been turned over to the Consolidated Company?

A. I don't remember whether they were turned over or not.

Q. Whose check was it you received?

A. The check of the Municipal Company.

Q. Now, having thus refreshed your memory, the question is——

A. I object to the remark "Having refreshed my memory."

Q. I will take that back; are you able to refresh your recollection so as to answer now whether there were any assets of the Municipal Company that were not turned over to the Consolidated Company?

A. I stated already that I don't recollect whether any of

9046 them were turned over; there may have been and there may not.

Q. Do you mean to say you don't recollect whether or not any assets whatever belonging to the Municipal were turned over to the Consolidated?

A. I mean I don't recollect.

Q. Don't you remember, as a fact, that an agreement was signed by the Municipal, pursuant to which certain assets of the Municipal were transferred, or were to be transferred, to the Consolidated?

A. I remember of its being discussed, but whether it was done or not I don't know.

Q. You put your signature, did you not, to the articles of agreement that were filed on November 11?

A. I believe so.

Q. You are recorded as signing that agreement for the Municipal Gas-light Company of New York City "by Charles G. Francklyn, president;" you signed that paper, didn't you?

A. I presume so; my signature is there.

Q. Prior to that time had you turned over any assets whatever to any officer of the Consolidated Company?

A. I don't remember.

Q. After that time did you turn over any assets whatever to any officer of the Consolidated Company?

A. I don't remember.

Q. You received eight or nine thousand shares of the Consolidated stock, didn't you?

A. I did.

Q. Eight thousand eight hundred shares?

A. I don't remember the figures.

Q. What did you give for that stock when you received the Consolidated, what did you surrender?

A. Forty-two hundred shares of the Municipal stock.

Q. Any thing else?

A. Not that I know of.

Q. Did you pay any money for this Consolidated stock?

A. No, sir.

9047 Q. After you signed this agreement, November 11, did you receive any assets whatever of any kind or any money belonging to the Municipal Company?

A. Yes, sir; I received a dividend on my stock.

Q. You received this eight thousand eight hundred shares, when?

A. I don't remember whether it was in the fall or after; the check-book will show.

Q. Did you receive any other?

A. No, sir.

Q. Do we understand you to testify that you don't remember the Municipal Company's transferring any other assets whatever to the Consolidated Company; is that your testimony?

A. I don't remember whether they did or not.

Q. Then that is your testimony?

A. Yes.

Q. Did you retain assets out of the Municipal Company in your own hands?

A. No.

Q. Did you receive any consideration in the way of stock or money from the Municipal Company or from the Consolidated Company in any way connected with the assets of the Municipal, except the $50,000 which you have mentioned?

A. No.

Q. Did you not owe the Municipal Company large sums of money at or about the time of its consolidation?

A. Yes, I think I had a call loan with them; I forget the amount.

Q. More than one?

A. There might have been separate amounts; I don't remember.

Q. Were those loans paid off before the consolidation agreement?

A. I don't remember when they were paid, but they were paid.

Q. To the best of your recollection, what was the amount of those loans outstanding at the time of the consolidation agreement?

A. I should say between $80,000 and $100,000?

Q. No more than that?

A. I don't think so; there may have been more.

9048 Q. Did that sum cover all the loans then outstanding in which you had either directly or indirectly any interest?

A. Yes, sir.

Q. Did you pay those loans to the Consolidated?

A. I think I paid them to the Municipal, but I am not certain about it.

Q. When?

A. I can't remember.

Q. Were there any other loans at that time outstanding, besides yours, owing to the Municipal at or about the time of the consolidation?

A. I don't remember if there were any or not.

Q. Do you not remember that you paid all your loans after the consolidation?

A. I don't remember, no.

Q. What is your best recollection as to when you paid off your loans?

A. The books will show, I can't remember these dates.

Q. Do you not remember that you did not pay off your loans until after you had received your certificates of Consolidated stock?

A. I don't.

Q. Is that the fact?

A. I have already said I did not know the date I paid them; I said no three or four times to the same question practically.

Q. It is not merely as to when it was, but relative to the time of consolidation?

A. I don't remember.

Q. Don't you know you did not pay them until after you received your Consolidated stock?

A. I don't know.

Q. Do you not know as a fact that you did not pay them until after you signed the Consolidated agreement?

A. It was after that, I think.

Q. Do you not know that it was after you had received your Consolidated certificates and sold some of your stock?

A. I don't remember it; it may have been.

9049 Q. Do you testify that your loans did not exceed $18,000 or $20,000?

A. I said $80,000 to $100,000.

Q. I beg your pardon; do you testify they did not exceed $100,000?

A. No, I do not.

Q. Did you have more than one such loan at that time outstanding?

A. I don't remember in what way they were divided in the books.

Q. Did they all stand in your name?

A. Yes, sir.

Q. Were there not some in which you were interested that did not stand in the name of Charles G. Francklyn?

A. Not as I know of.

Q. Was there not one to the amount of $40,000 in addition to the sums which you have already mentioned?

A. There may have been.

Q. What is your best recollection?

A. I don't remember.

Q. Did you have any conversation with any officer of the Consolidated Company in respect to the payment of those loans?

A. Not to my recollection.

Q. To whom, if anybody, did you pay those loans?

A. I think I must have paid them to the Municipal Company.

Q. Paid them to yourself as president?

A. No, paid them to the Municipal Company.

Q. To what individual did you make any such payment?

A. I made it to the Municipal Gas-light Company.

Q. To what individual, if anybody, did you make any such payment?

A. I don't know.

Q. Did you pay it in currency?

A. No.

Q. Paid it by check?

A. Yes, sir.

Q. Have you got the check?

A. I don't know; I suppose so.

9050 Q. Will you produce that check or any other check by which you paid it or assumed to pay your loans, or any other loans in which you are interested, to the Municipal Company; have you any such checks?

A. I presume I have.

Q. What is your best recollection?

A. I don't usually keep any checks; I have the stubs of the check book.

Q. Do you not keep your checks when they are returned?

A. I do for a while.

Q. On what bank was that check drawn to pay any such loan?

A. The bank of New York, or the Chase National Bank.

Q. You had personal accounts in both banks during 1884 and 1885?

A. Yes, sir.

Q. Who had charge of the making of the loans by the Municipal Company in 1884?

A. Mr. Gawtry and Mr. Allen, generally.

Q. Did you not have any thing to do with them?

A. Very little except to borrow some money occasionally.

Q. At whose request was a loan of $250,000 made to the Central Trust Company by the Municipal?

A. It was a part of the assets deposited there.

Q. You kept an account there, did you?

A. We deposited that.

Q. The Municipal kept an account there?

A. They made a special deposit, and they had our assets a short time before distribution; we made a deposit with the Central Trust Company to get some interest on it.

Q. Was that money turned over to the Consolidated Company?

A. I don't remember.

Q. Who was authorized to sign checks on that fund thus deposited with the Central Trust Company?

A. Mr. Gawtry, Mr. Allen any myself.

Q. Could not that money be drawn out of the Trust Company without all three signatures?

A. Two of them.

9051 Q. Do you know what was done with the money which was deposited in the Central Trust Company?

A. I could not tell you the Central Trust Company's business.

Q. Did you sign any checks drawing it out?

A. I think not; I don't know; I think Mr. Gawtry signed them in my place.

Q. Where is the check-book—with the Central Trust Company?

A. I don't think we had a check-book; they issue deposit receipts and they are returned when the money is paid on them.

Q. For that fund there was a certificate of deposit issued?

A. Yes, sir.

Q. In whose name?

A. The name of the Municipal Company.

Q. Was it in fact checked against at all?

A. No.

Q. How many such certificates were there to represent that fund?

A. I don't remember whether it was one or two.

Q. You received those certificates of deposit?

A. They were put in the Safe Deposit Company.

Q. Are they there now?

A. No, sir; they were delivered to the Central Trust Company I presume when the deposit was drawn.

Q. Who was it paid to?

A. The Municipal Company.

Q. To you personally?

A. No.

Q. To whom?

A. I presume the check was drawn to the order of the Municipal Company.

Q. You mean the Central Trust Company's check was drawn to the order of the Municipal Company?

A. I presume so.

Q. Who received that check?

A. I presume Mr. Gawtry or Mr. Allen.

Q. What was done with it?

9052 A. I suppose it was deposited in the bank; either the Chase or the First National Bank, to the credit of the Municipal Company.

Q. Did they have accounts in both banks?

A. Yes, sir; I think they had it at that time.

Q. And you had personal accounts in both banks besides?

A. No, sir.

Q. In which bank did you have an individual personal account?

A. The Chase Bank.

Q. In any other?

A. The Bank of New York.

Q. In any other bank did you have an individual account?

A. Not at that time, I don't think.

Q. In 1884 or 1885, we are asking?

A. I think not.

Q. Then you think that the check of the Central Trust Company for the payment of this loan was deposited in the Chase National Bank, to the credit of the Municipal Gas-light Company?

A. That is my belief.

Q. Who was authorized to and did draw any checks on the Chase National Bank against the deposits or credits of the Municipal Gaslight Company in February, 1885, if any one?

A. I presume the officers of the company; I don't remember of anything special.

Q. That is no answer at all, with all respect to the witness; if you don't know say so; here is a fund of $250,000; you are the president of the company; you say it was deposited in a bank where your company had credit; if anybody drew any check on that fund who did it?

A. If anybody did, it was done by either Mr. Gawtry, Mr. Allen, or myself.

Q. Did you personally sign any checks on the Chase National Bank for this deposit of $250,000, which, you say, it was made for?

A. I said I presumed it was made there; I don't know whether it was made there or not, and I don't remember of signing any checks myself.

9053 Q. Where are the return checks of the Municipal Company?

A. I don't know.

Q. Can you tell what became of that money—that fund of $250,000?

A. Yes, sir; it was divided among the stockholders.

Q. Your source of knowledge as to how that money was deposited?

A. I know the dividend of the Municipal Company was declared and paid to all the stockholders; that was a part of it.

Q. Is that the way you have any knowledge of what became of this particular $250,000?

A. Yes, sir.

Q. What was the total amount in money that you say was divided among the stockholders?

A. Six hundred thousand dollars and odd; I forget the exact amount.

Q. Was it all deposited in one bank?

A. I think it was.

Q. What bank?

A. The Chase National Bank.

Q. And when was that deposit made?

A. I can't tell you.

Q. During what period was it made?

A. I suppose between November and the time it was paid out; I don't remember that.

Q. It was paid between November, 1884 and February, 1885, was it not?

A. I think so.

Q. To that extent the assets of the Municipal Company were not transferred to the Consolidated, were they?

A. I said before I did not recollect whether they were transferred or not; if they were transferred, they were transferred back again for the payment of the dividend.

Q. What book will show such distribution among the stockholders of this $600,000?

A. I think it was nearly $700,000 and something; there is a regular dividend book which I believe contains all the particulars.

9054 Q. What book or books will show the distribution of that $700,000 and odd?

A. The dividend book.

Q. Did the board of directors of the Municipal Company meet and direct that distribution?

A. They did—excuse me; I think the matter was left to a committee for final distribution.

Q. Who comprised the committee of the board of directors having charge of that distribution of $700,000?

A. Mr. Ottendorfer, Mr. Day, and I think Mr. Gawtry, and myself, and I don't know but there was another one; I forget exactly.

Q. Do you know where that dividend book now is?

A. I do not.

Q. When did you last see it?

A. At the time of the dividend.

Q. Was the dividend paid in checks?

A. Yes, sir.

Q. Where are the return checks?

A. I don't know.

Q. You got your check on your 400 shares?

A. Yes, sir.

Q. What did you do with it?

A. Deposited it in my bank.

Q. Did you sign any receipt for that other than the indorsement on the check?

A. I did.

Q. Did all the stockholders, when that $700,000 was distributed, sign receipts in the dividend book?

A. I think separate receipts.

Q. Those were filed in the office?

A. I presume so.

Q. Will you produce them?

A. Those are not in my possession; the secretary can produce them.

Q. That is Mr. Gawtry?

A. Mr. Allen.

Q. The secretary of the Consolidated?

A. Of the Municipal Company?

9055 Q. What security, if any, did the Municipal Company have for their loan in which you were interested to the amount of between $80,000 and $100,000?

A. Various stocks and bonds; I don't remember exactly what.

Q. Name any of them?

A. I can't think of any at the moment.

Q. Was there any security except stock of the Municipal Company?

A. Yes, sir.

Q. What?

A. I don't know that there was any stock of the Municipal.

Q. Name any security?

A. I can't without my papers.

Q. What book or books of the Municipal will show the record of any such security?

A. I think they kept a small book showing all those things.

Q. Who kept it?

A. Mr. Gawtry or Mr. Young.

Q. Were there loans outstanding at that time to anybody else besides yourself, or in which you had any interest?

A. Yes, sir.

Q. To what amount?

A. I don't remember.

Q. What security was there for any such loans?

A. I should have to refer to papers before I could tell you.

Q. What papers?

A. Books in the office.

Q. You mean the record of loans which you have referred to as having been kept by Mr. Young?

A. Yes, sir.

Q. Did he keep a record of the securities which were collateral?

A. I presume so.

Q. Don't you know?

A. I don't know as I ever saw it.

Q. Don't you know who in your company kept the record of collaterals?

A. No.

9056 Q. You have testified that there was about $700,000 of cash assets which, if they were transferred to the Consolidated Company by the Municipal, were, as you say, re-transferred and distributed; were there any other assets of any kind whatever of the Municipal Company that were transferred to the Consolidated Company?

A. I think not.

Q. Was there any material of any kind whatever belonging to the Municipal Company that was transferred to the Consolidated Company?

A. Yes, sir; I think so.

Q. Do you not call that assets?

A. I suppose they are assets.

Q. Were there no customers' deposits that they turned over to the Consolidated Company?

A. I believe so.

Q. Do you call such an item assets?

A. Yes, sir.

Q. Were there any book accounts, being a balance due from customers to the Municipal, transferred to the Consolidated?

A. I believe there were.

Q. Do you call them assets?

A. Yes, sir.

Q. Were they not transferred?

A. Yes, sir, they were.

Q. What was the total amount, expressed either in kind or in dollars, of material that was transferred from the Municipal to the Consolidated after the agreement was signed?

A. I have said already it was somewhere in the neighborhood of $700,000 or more.

Q. That particular sum which you have mentioned will include, will it not, the material?

A. Yes, sir.

Q. How much more than $700,000 was that sum?

A. The figures are before you and they are not before me.

Q. No, they are not before me?

A. I don't recollect the exact sum.

Q. As much as $800,000?

A. I should think so.

9057 Q. And more than that?

A. No, I think not.

Q. Was not the stock issued for that?

A. Who by?

Q. By the Consolidated?

A. No, sir.

Q. You are sure about that?

A. Yes, not to my knowledge.

Q. How much of that was for material turned over?

A. I don't remember.

Q. What book or account of the Municipal books or papers will show that?

A. I don't know.

Q. Who represented the Municipal board on the price or prices for such material?

A. I think I had a hand in it.

Q. And who represented the Consolidated?

A. I think it was done by the adjusting committee, if I remember right.

Q. Was there a schedule of such material made up?

A. I believe so.

Q. Who has it?

A. I don't know.

Q. When did you last see it?

A. I don't remember when I last saw it.

Q. Will you please send for those books and have them brought here immediately that were indicated in the early part of the examination today, and we will suspend your examination until they shall be produced?

A. If you will state what they are.

Q. They are all the stock books of the Municipal, stock and transfer books, stock ledger and check books of the Municipal; if they are at the expert's disposal he will go there?

A. They are at his disposal there.

PHILIP ALLEN, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

9058 Examined by Mr. TREMAIN:

Q. You were the secretary of the Municipal Gas-light Company?

A. Yes, sir; I was.

Q. You have heard Mr. Francklyn's testimony about the books, have you not?

A. Yes, sir.

Q. Do you know of any collateral loan book?

A. No, sir.

Q. Did you ever see or hear of such a thing?

A. No.

Q. Is there any book or books of the Municipal Company that ever did exist that relate to loans?

A. No.

Q. Did you ever have anything to do with the making of the loans?

A. Yes, sir.

Q. What part did you have about it?

A. I occasionally went down town and received securities for loans.

Q. Where?

A. Down town.

Q. Where?

A. Wall street, and wherever it happened to be.

Q. Where?

A. It depended upon whom we were getting the loan from, to anybody's office where it happened to be.

Q. Did you get receipts?

A. No, sir, checks.

Q. Were not the securities written on the back of the envelope?

A. Yes, sir.

Q. What became of them?

A. They were deposited in the Safe Deposit Company in a box.

Q. What record did the company have that you had received those securities?

A. Practically none.

Q. What, if any, record did the company have from you?

A. Practically none.

Q. What do you mean?

A. If they asked me for them, I could give them; I never kept any memorandum further than was on the back.

Q. Still it was a customary thing for you to make loans upon collaterals?

A. Yes, sir.

9059 Q. Did you make a variety of such loans during the years 1882, 1883 and 1884?

A. Yes, sir.

Q. Were any loans made by anybody else except yourself?

A. Yes, sir.

Q. By whom?

A. Mr. Gawtry.

Q. Who else?

A. I can't recollect any one else, sir.

Q. When Mr. Gawtry made loans did he bring a record of the collaterals that were received to the office?

A. Not that I am aware of.

Q. Then these loans were made without any record of them?

A. Except the amounts and the rate of interest.

Q. In what book was the original entry made on that subject?

A. I don't know; I am not a bookkeeper.

Q. What were your duties in the office at that time?

A. Various; kept the minutes and signed the certificates of stock, and kept the stock books.

Q. Did you have charge of making all the deposits?

A. No, sir, I did not.

Q. Who did?

A. The office messenger took them down town.

Q. Who had charge of making them out?

A. They were made up by one of the cashiers.

Q. Who?

A. I could not tell you; I suppose one man sometimes, and sometimes another.

Q. Whose business was it to take charge of the bank account?

A. I could not say exactly who it was.

Q. Who took charge of the bank accounts—yourself?

A. I indorsed the checks sometimes—usually.

Q. When loans were paid off, did you indorse the checks?

A. Either Mr. Gawtry or myself.

Q. Did you go down town then and get the securities and deliver them?

A. Sometimes.

9060 Q. When you didn't, who did?

A. Mr. Gawtry.

Q. Anybody else?

A. No, sir.

Q. Do you remember what security there was for loans to Mr. Francklyn of about $80,000 or $100,000 in the year 1884?

A. I don't.

Q. Do you remember of any other occasion of a loan to Francklyn on collateral security?

A. Yes; he had loans on collateral securities.

Q. Do you remember of any securities?

A. No.

Q. Did you receive the securities in any instance from Mr. Francklyn?

A. Yes, sir.

Q. Did you deliver up any securities to Mr. Francklyn after the consolidation?

A. I don't know; I don't recollect whether I did; as to particular ones I received or delivered them to I could not tell you.

Q. Do you remember a loan to Mr. Francklyn of $40,000?

A. I remember there was one.

Q. Do you remember that it was paid off after the consolidation?

A. No, sir.

Q. Did you ever see any of the books of the Knickerbocker Company?

A. We kept them in the office, yes, sir.

Q. Did you ever see any books except the customers' ledger?

A. I have seen all the books.

Q. Did you ever see any books prior to 1880 of the Knickerbocker Company; any whatever?

A. No, sir; never.

Q. When did you last see the stock books of the Municipal Company—what stock books did you ever see of the Municipal Company?

A. Customers' ledger, stock transfer books, and book of certificates.

Q. Any others?

A. No, sir.

Q. When did you last see them?

A. The last time I ever looked at them was making them up, closing the books, before the consolidation, except I may
9061 have seen the backs of them as they were in the office.

Q. Are those books at the disposal of the experts now?

A. Certainly.

Q. Is there any difficulty about those books, or any books of the Municipal Company, being immediately examined by the expert and his assistants?

A. Not that I am aware of.

Q. Who else was employed in the office of the Municipal during the year 1884, the particular men?

A. Gawtry was the vice-president, I was the secretary, and Mr. Young was there.

Q. He was there attending to business all the while?

A. Yes, sir.

Q. Where does he live—Mr. Young?

A. In Brooklyn somewhere, but where I don't know.

Q. What is his business?
A. It was then bookkeeper.
Q. What is his business now?
A. He is employed by the Consolidated Gas Company.
Q. At what place?
A. I could not tell you.
Q. When did you last see him?
A. About ten days or a fortnight ago; somewhere about that time.
Q. You own Consolidated stock now?
A. No, sir; I do not.
Q. Are you a director?
A. No, sir.
Q. Are you employed in any way by the Consolidated Company?
A. Yes, sir; to take charge of the Twenty-sixth street office.

(By the CHAIRMAN:)

Q. Formerly known as what?
A. The Municipal—the old Municipal office.
Q. Mr. Young is employed in the same office, is he not?
A. No, sir.
Q. He is employed at No. 4 Irving place, in the general office?
A. I believe he is.
9062 Q. Don't you know the fact?
A. I believe he is.
Q. Have you seen him there at work?
A. Yes, sir.
Q. Have you been there in the office within a week?
A. I was there yesterday afternoon.
Q. He was not there?
A. I did not see him there.
Q. Do you remember that you are one of five trustees under the trust agreement, dated March, 1880?
A. Yes, sir; as to the date, I don't know.
Q. I refer to the trust of 14,995 shares of the Knickerbocker stock?
A. Yes, sir.
Q. Did you ever do any thing in respect to that trust further than by accepting it and signing a trust agreement?
A. Yes, sir.
Q. What was the first thing you did?
A. I don't quite understand you.
Q. Who is in charge of that station, at Twenty-sixth street?
A. The office?
Q. Yes, sir.
A. I am.
Q. You have all these books in your charge, the stock books of the Municipal and the check books?
A. They are in the office.
Q. Are they locked up?
A. Yes, sir.
Q. If you are in charge of those books and that office your examination will be suspended in order that you may go to that office with the expert so that they may be examined there?
A. Very well.

H. E. Gawtry, a witness, recalled by the counsel to the Committee, testifies as follows:

Examined by Mr. Tremain:

Q. Do you remember about any loan book of the Municipal Company?

A. No, sir; there never was any such book.

Q. No record kept of collaterals?

A. Nothing except what was in the safe deposit vault or on the back of the envelope, if it was an envelope.

9063 Q. Anybody else except yourself and Mr. Allen have access to that vault?

A. No, sir.

Q. Were any receipts given for the collaterals before they were delivered up on payment of loans?

A. I think not.

Q. In 1880, when the Knickerbocker was purchased and the guarantee of indebtedness given did you personally make any inquiry or see any records pertaining to that indebtedness of $1,200,000 as alleged?

A. No, sir.

Q. You are cognizant of that transaction?

A. Of the purchase of the Knickerbocker Company, yes, sir; I believe there was a guarantee that the floating debts should not exceed $450,000.

Q. And what else?

A. That is the only guarantee that I know of.

Q. Did you ever make any inquiry concerning what that floating debt was?

A. No, sir.

Q. Did you ever make any inquiry concerning the $750,000 of additional indebtedness of the Knickerbocker Company at that time?

A. I was informed that there was a mortgage on the property; I think the lawyer gave me the information.

Q. Who gave you that information?

A. Henry Day.

Q. Anybody else?

A. No, sir.

Q. As an officer of the Municipal Company, purchasing property subject to that indebtedness, did you make any investigation whatever concerning the indebtedness either of the $450,000 or of the $750,000 at that time?

A. I don't think I was an officer of the Municipal Company at that time.

Q. What were you?

A. Manager of the company at that time.

Q. Did you make any inquiry whatever about that?

A. No, sir, I had nothing to do about it.

Q. Were you present when that transaction was closed?

A. No, sir.

9064 Q. Do you know who conducted that transaction for the Municipal Company?

A. I do not.

Q. Do you know where the stock came from that was given to Mr. Cutting?

A. I do not.

Q. Did you contribute any of your Municipal stock?

A. I did not.

Q. Was any schedule of that floating indebtedness of $450,000 ever presented to the Municipal Company?

A. I don't know.

Q. Did you ever see any list of that indebtedness?

A. No.

Q. Did you ever have any information directly or indirectly in respect to the amount of that indebtedness?

A. Nothing beyond the fact that the total indebtedness of the company was $1,200,000.

Q. Did you ever have any information of any schedule of that floating indebtedness?

A. Never heard of it.

Q. Did you ever hear of any inducement leading the Municipal Company to assume that indebtedness and keep the property subject to it?

A. No, sir.

Q. Do you know what the inducement was?

A. Never heard of any.

Q. Do you know about any loans that Mr. Francklyn charged to himself personally, or any which he was interested in in 1884, from the Municipal Company?

A. I do.

Q. You know the total amount of those loans in the summer of 1884?

A. If you will allow me to refresh my memory with papers—the Municipal books will show the records exactly.

Q. Except the collaterals?

A. I don't think they will show the collaterals.

(By the CHAIRMAN:)

Q. No record made and preserved in the office of the Municipal Company of any collateral securities in connection with loans made by the company? 9065

A. I think there was a memorandum of this loan; I am not quite sure.

Q. Made and preserved in the company?

A. At the time the loan was paid, I think it was; I am not sure.

Q. Who kept it?

A. Probably in the safe.

Q. In a book?

A. No, sir, not to my recollection.

Q. Who kept that record?

A. I presume I did.

Q. Is it there now?

A. I could not tell you.

Q. You know the fact whether there exists or not any record of collaterals to loans that were outstanding in the summer of 1884.

A. I don't know; if there is such a record it is in the Twenty-sixth street office and it can easily be obtained.

Q. In what shape?

A. I don't know.

Q. Any memorandum?

A. Probably.

(By the CHAIRMAN:)

Q. Do you say there was no record of that made except memoranda?

A. That is my recollection.

Q. Did you destroy any such?

A. I probably did when the loans were paid off, as being of no value; I don't remember of having done so, however.

Q. Was that generally done when the loans were paid off?

A. Yes, sir.

Q. What books will show when Mr. Francklyn's loans that were outstanding at the time of the consolidation were paid?

A. The cash book.

Q. Do you remember when they were paid off?

A. I do not; as a matter of record that will show.

Q. Will the cash books show when other loans that were then outstanding were paid off?

A. Yes, sir.

Q. Will it show the sources of money by which they were paid?

A. Yes, sir.

9066 Q. What were the sources?

A. Francklyn's check.

Q. Any other?

A. From anybody else who had a loan.

Q. What was done with the money?

A. Deposited to the credit of the company.

Q. Where?

A. In either the Chase Bank or the First National Bank.

Q. Are either of those bank accounts that were in the name of the Municipal Company closed?

A. I think they are both open to-day.

Q. What was the amount of assets of the Municipal Company that were not turned over and retained by the Consolidated Company?

A. The gross amount of assets of the Municipal Company at the time it wound up was $800,000; that of course included any thing that was turned over in the shape of collections, or which the Consolidated Company paid the Municipal Company.

Q. How much did the Consolidated Company pay the Municipal Company?

A. If you will produce those papers of the adjusting committee that I left with you a few days ago——

Q. Refresh your recollection by looking at the schedules of materials and supplies on hand November 11, 1884, of the Municipal

Gas-light Company; how much in all did the Consolidated Company pay the Municipal for its assets after the consolidation agreement?

A. These papers—the amount don't seem to be in here; I could not tell you without reference to the books; it is a matter very easy to get at.

Q. Is this a proper answer; the Consolidated Company paid the Municipal Company in addition to its schedule values, the two sums mentioned there for materials and also the amount of book accounts?

A. Yes, sir.

9067 Q. Any thing else?

A. Nothing that I know of.

Q. And the two amounts which are shown by the schedule of materials and supplies are first, of the Municipal Company, $61,289.50; second, Knickerbocker Company, $45,711.35; we understand you to say, in addition to those two sums, the Consolidated Company paid the Municipal Company the amount of the outstanding customers' accounts?

A. The amount agreed upon.

Q. Was the amount agreed upon—the exact amount shown by the books?

A. No, sir; some allowances were made for bad debts.

Q. That is shown by the books?

A. Yes, sir.

Q. Any other items?

A. Not to my knowledge; there may have been some small accounts.

Q. That was paid not in stock but in cash?

A. I believe all in cash.

Q. Were there any other payments whatever made by the Consolidated Company to the Municipal?

A. No, sir.

Q. From what source was the payment of $50,000 made to Mr. Francklyn?

A. Out of cash belonging to the Municipal Company.

Q. After the consolidation?

A. I don't remember what date it was.

Q. Don't you remember whether it was after the consolidation was agreed upon?

A. I don't know; I could not tell you.

Q. It was after the schedule of values was made up?

A. I think probably about that time.

Q. That was turned over to the Consolidated Company and paid back?

A. No, sir; there was no cash turned over to the Consolidated Company by the Municipal Company.

Q. What was the last dividend paid to the stockholders of the Municipal Company in 1884?

A. I think it was in October, 1884.

9068 Q. Was it not fifteen per cent. on the stock?

A. Yes, sir.

Q. I ask prior to the consolidation?

A. Yes, sir, I think it was in October.

Q. Do you remember the total amount of dividend that went up to that time, during 1884?

A. I do not.

Q. The total percentage?

A. That is fifteen per cent. on the capital stock.

Q. Was that prior to the consolidation in 1884, to the best of your recollection, that the Municipal had paid fifteen per cent. dividend?

A. I presume so.

Q. What percentage has been distributed since that last dividend?

A. Twenty-six and a half per cent.

Q. And when was the distribution?

A. The latter part of February, 1885.

Q. That makes forty-one per cent. distributed during that year?

A. No, sir.

Q. During eleven or thirteen months?

A. I could not tell you what date in 1884 it was payable without referring to the papers.

Q. This dividend of twenty-six and a half per cent. which was paid to the stockholders of the Municipal was of course earned prior to the consolidation, November, 1884?

A. Yes, sir, it was the surplus that the company divided among the shareholders.

Q. That included the Knickerbocker assets, did it not?

A. Yes, sir.

Q. Are you a stockholder in the Consolidated Company now?

A. Yes, sir.

The CHAIRMAN: We will suspend your examination, Mr. Gawtry, until some future time, in order to enable the expert to make the examination.

9069 R. F. CUTTING, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. Have you brought any memorandum—original memorandum or books relating to the transaction of the purchase of the Knickerbocker stock by the Municipal Company?

A. I have the transcript of entry; I will correct my statement which I made the other day; I did not myself conduct the negotiation; it was conducted by W. B. Cutting, but I was cognizant of what was going on at the time; I said that the Knickerbocker received 3,500 shares of stock, in which I was practically correct; I had forgotten about the $350,000, which Mr. Day said had been paid to the Knickerbocker Company at that time; I didn't do the clerical work on the books; that is a transcript made by Mr. Brown from Mrs. Bayard's books.

Q. Who kept that book?

A. At the time M. B. Brown was keeping it.

Q. Did you make any memorandum in respect to that transaction at that time?

A. No, sir; none whatever.

Q. Didn't you receive a deposit of some money?

A. No, sir.

Q. Prior to that time hadn't you personally made payments?

A. Personally?

Q. Yes, sir; have you not personally made payments?

A. No, sir; the estate had made advances.

Q. Hadn't you personally?

A. No, sir; not a cent.

Q. Hadn't you personally made the payments which constituted these advances?

A. You mean drawing the checks; I don't recollect who they were drawn by; all three of us may have drawn them, and they may have been drawn by W. B. Cutting or by Mr. Brown.

9070 Q. Prior to that time were not all the advances made by check?

A. I think so.

Q. Were all the checks drawn on the same bank?

A. Yes, sir; the American Exchange Bank.

Q. Who kept that check book?

A. At that time Mr. Brown.

Q. Do you know the total amount of those checks?

A. I said the other day it was something over $1,150,000.

Q. When was the first check drawn, $280,000?

A. I believe $291,000; I answer from memory.

Q. When was that?

A. I think some time in the fall of 1878.

Q. When was the last check drawn?

A. I think it was—well Mrs. Bayard's estate, as you remember, gave a guarantee that the floating debt should not exceed $450,000.

Q. You gave that personal guarantee, did you not?

A. No, sir; and it didn't exceed that amount, but I don't remember when the last check was drawn.

Q. Is there any schedule of that indebtedness—the $450,000?

A. Not that I remember; there was at that time.

Q. Who had such a schedule?

A. The schedule, I think, was in the hands of William A. Stephens, trustee.

Q. If you will turn to page 163 of the appendix you will find your personal guarantee, and see whether you wish to correct your testimony?

A. Yes, sir; I do correct it; then I had forgotten the matter altogether.

Q. You did personally guarantee that indebtedness?

A. It is very evident from this statement.

Q. By making that guarantee didn't you see a schedule of the indebtedness?

A. Yes, sir—I don't remember it.

9071 Q. Who prepared that schedule?

A. Mr. Stephens, trustee.

Q. Had a second mortgage then been made?

A. I am not sure; I don't think it had been.

Q. It was made for the purpose of covering that indebtedness?

A. I think so.

Q. And it was a part of this transaction to make that second mortgage; was it not?

A. As far as I can remember, yes, sir.

Q. Had the $750,000 of bonds on the first mortgage then been issued?

A. I think so.

Q. Did you have them personally?

A. No, sir.

Q. Who did?

A. They were held by myself, I think, and others as representatives of Mrs. Bayard.

Q. Who individually?

A. They were simply held in my safe belonging to Mrs. Bayard, to which all three had access—W. B. Cutting, M. B. Brown, and myself.

Q. When were the other 450 shares delivered, and to whom?

A. They were delivered to Mrs. Bayard—her representative.

Q. Who?

A. I don't remember whether I received them, or one of the other two.

Q. How long after this guarantee was it when they were received?

A. Well, I answer almost immediately.

Q. You have them yet?

A. No, sir; they have been paid.

Q. All of them?

A. Yes, sir.

Q. The $450,000?

A. Yes, sir.

Q. Were there any notes to represent that $450,000 before the mortgage?

A. Yes, sir.

Q. This mortgage was substituted for these notes?

A. Yes, sir.

9072 Q. Were they surrendered when these bonds were given; these 450 bonds, were they 450 bonds of $1,000, or were they 45 notes?

A. Forty-five notes and a second mortgage, but they were not coupon bonds.

Q. Nor $1,000 bonds neither?

A. No, sir.

Q. Are they paid?

A. Yes, sir; I think they have been paid the first of March, the last.

Q. Now, the $750,000, is that paid?

A. No, sir.

Q. Have you those bonds?

A. Yes, sir; with the exception they have been taken up by the sinking fund.

Q. Have you refreshed your recollection what individual received that $50,000 and the $300,000 which was paid at the time of this transaction?

A. Yes, sir.

Q. State your personal recollection of it?

A. My recollection of the transaction goes nothing beyond what I have here, the entry in Mrs. Bayard's book, but I can give what I think was the practical utility of it.

Q. What is wanted is your recollection of the transaction; refresh your recollection by any thing you choose?

A. The item I have here does not refresh my recollection; it recalls one or two circumstances, but I am not sure I am correct.

Q. Who received the money?

A. It was received by Mrs. Bayard, $350,000.

Q. Who paid it to her?

A. The Municipal Gaslight Company.

Q. Through whom?

A. I suppose its president.

Q. Who?

A. I don't know; I have no record.

Q. What did she do with the money?

A. Returned it to the Municipal Gas-light Company.

Q. Did she deposit it to her own credit in the bank?

A. Yes, sir; and then drew her check to the order of the Municipal Gas-light Company.

Q. To whom was that check given?

A. I don't remember.

9073 Q. Who signed the check?

A. I am not sure whether Mr. Brown—I think it was signed by Mr. Brown on the same date, the account is in the entry that I have.

Q. What is the memoranda that enables you to be sure about this?

A. It is an extract from Mrs. Bayard's cash book.

Q. Well, read it; in whose handwriting was that extract made in that cash book?

A. Mr. Brown's which is as follows:

Memo. from Mrs. Elizabeth Bayard's cash book.

March 16, 1880. To Municipal Gas-light Company, exchanged checks with them in carrying out Municipal G. L. stk. sale...........................	$350,000.00
March 16, 1880. By Municipal Gas-light Company, received two of their checks in exchange for one of mine	$300,000.00 $50,000.00
	$350,000.00

Q. The foregoing extract is copied from Mrs. Elizabeth Bayard's cash book, is it not?

A. Yes, sir; the word "mine" means Mrs. Bayard's, and it means $350,000 check.

Q. The check that was received was signed by Mr. Francklyn as president of the Municipal Company, was it not?

A. I suppose so.

Q. Do you remember on what bank it was drawn?

A. No, sir.

Q. Do you remember who indorsed that check for deposit?

A. Mr. Brown, I suppose.

Q. Do you remember to whose order the two checks in exchange of $300,000 and of $50,000 were drawn?

9074 A. I suppose they were drawn to the order of Mrs. Elizabeth Bayard; Mrs. Bayard only gave one check to the order of the Municipal Gas-light Company.

Q. Who indorsed that check?

A. I don't know.

Q. Where is that check?

A. I suppose among the canceled checks of Mrs. Bayard of that period.

Q. On what bank was that drawn?

A. On the American Exchange Bank.

Q. Who has those return checks?

A. I presume they are in our office, if preserved, but I don't know whether it is preserved.

Q. It is only four or five years ago.

A. We don't generally keep them that length of time; if you desire it, I will try and look it up if I can.

Q. It is either in your custody or Mr. Brown's?

A. It is in the custody of one of us three.

Q. We desire that check?

A. Very well; I will look it up and see if I can find it.

Q. Now, are you correct in respect to the number of Municipal shares of the Municipal stock you then received?

A. I believe I said thirty-five hundred and fifty, which should have been thirty-five hundred; that's all.

Q. Do you remember whose certificates they were?

A. No, sir; I don't.

Q. Do you remember how many certificates there were?

A. No, sir; I don't remember.

Q. Are those original certificates which they issued, as I understand you to say, and that you surrendered last fall to the Consolidated Company?

A. Yes, sir; as belonging to Mrs. Bayard.

Q. How many of them did belong to Mrs. Bayard at any time?

A. I don't remember the exact number, but the bulk of them belonged to her.

9075 Q. Was any distribution whatever made of those thirty-five hundred certificates prior to the time that you surrendered them to the Consolidated Company?

A. Yes, sir; they were divided *pro rata*, I believe, among the various stockholders of the Knickerbocker Company.

Q. Were they not divided by Mr. Stephens under this trust agreement?

A. No, sir.

Q. Who made that distribution?

A. The estate of Mrs. Bayard, her representatives, through Mr. Brown, I believe.

Q. Where is the list of persons who participated in that distribution?

A. I don't believe there is any, sir; there were only three or four; it was a matter of only a pencil figure; I don't think there was a list kept.

Q. Your recollection of what that distribution was in fact?

A. I can only state it was a *pro rata* distribution of the number of shares of stock held by William A. Stephens, trustee, and John Sickels, John W. Ambrose, Mr. Howes, Pierpont Morgan and Mrs. Bayard.

Q. How much did Mrs. Bayard retain of that block, about 2,400?

A. I could not tell you exactly, but I should say about that number.

Q. You have said that Mr. Stephens was trustee for several parties in interest who made advances covering all this guarantee indebtedness, and the estate of Mrs. Bayard made advances to the extent of about $1,150,000; what else besides this advance of $1,500,000 was Stephens trustee for?

A. I don't think he was trustee for any thing else.

Q. Who else was interested in the trust except the Bayard estate?

A. I don't think that anybody else was interested at all in that trust; I didn't know that I had stated anybody else was; I don't remember that he acted for anybody else now; he may have, though.

9076 Q. To what extent did he have any interest in that guaranteed indebtedness—I mean Mr. Stephens?

A. He had no personal interest.

Q. Nor did John Sickels, did he?

A. Not as far as I remember, sir; not that I know of; I don't recall.

Q. Neither he nor Sickels had any interest except in this Municipal stock that was distributed, as you have described?

A. That is all I remember, sir; instead of 2,500 shares, I would state that is 2,400 shares.

(By the Chairman:)

Q. You will have your evidence stand about 2,400 shares?

A. Yes, sir.

The Chairman: The stenographer will make this read "2,400" shares in the witness's evidence.

Q. Were you a stockholder to any extent in the Municipal Company prior to this transaction?

A. What transaction, sir?

Q. This of March, 1880, the sale of the Knickerbocker?

A. No, sir; I had no interest whatsoever.

Recess until 4 o'clock p. m.

TUESDAY, *December*, 1885, 4 p. m.

Hearing resumed.

Mr. TREMAIN: Mr. Cutting, the last witness, sends the following check in response to a demand upon him to produce the same:

"No. 728. NEW YORK, *March* 16, 1880.

The American Exchange National Bank, 128 Broadway.

Pay to the order of Municipal Gas-light Company three hundred and fifty thousand dollars. $350,000.

E. BAYARD,
By R. FULTON CUTTING,
Attorney."

9077 This check being indorsed "for deposit Municipal Gas-light Company, Charles G. Francklyn, president. Indorsement guaranteed. Chase National Bank."

CHARLES G. FRANCKLYN, being duly recalled, testified as follows:

Examined by Mr. TREMAIN:

Q. Look at the check now shown you, dated March 16, 1880, and see if it bears your indorsement?

A. Yes, sir; it does.

Q. You deposited that check, did you, to the credit of the Municipal Gas-light Company?

A. I don't know as I did; I indorsed "for deposit."

Q. With the expectation that it should be deposited, and for all you know it was?

A. Yes, sir; I believe so.

Q. That check appears to have been paid?

A. Yes, sir.

(Check read in evidence as heretofore set forth.)

Q. At or about the time this check was given, you drew a check of the Municipal Gas-light Company for $350,00-, and signed one, did you not?

A. I don't know whether it was one or two checks.

Q. One of $300,000 and one of $50,000?

A. I don't know whether I signed it; it was drawn.

Q. To whom did you give that check?

A. I think *it* to Mr. Day.

Q. Were you present when that transaction was closed with Mr. Cutting?

A. Yes, sir.

Q. Mr. Day was present?

A. I think he was.

Q. Representing the Municipal?

A. Yes, sir.

Q. Who else was present?

A. I think Mr. Allen was there and Mr. Stephens and Mr. Cutting, Mr. Sickels, I think, but I am not sure.

Q. You issued, did you not, on or about March 16, 1880,
9078 3,500 shares of the Municipal stock?

A. Yes, sir.

Q. You deemed this check a payment at par for that stock, did you not?

A. I did.

Q. There was no other payment for that stock, was there?

A. Not any.

Q. You remember the check of March 13, 1880, for $300,000, issued by the Municipal Company and signed by you?

A. No, I don't remember it.

Q. Do you not remember a circumstance of a check of $300,000 being made on the Chase National Bank by the Municipal Company, about March 13, 1880, in connection with this transaction?

A. No, I don't recollect it.

Q. If such a check is found do you remember the purpose for which it was issued?

A. No; my recollection of it is that there were either one or two checks drawn with regard to this transaction; I don't know of any other check with reference to this transaction.

Q. Do you remember a sum of $300,000 being paid by the Municipal Company to anybody else except to the representatives of the Bayard estate at or about March 13, 1880?

A. I do not.

Q. To the best of your recollection there was no other such transaction or check?

A. Not that I know of.

Q. Now, if such a check was drawn at or about that time did it have relation to this transaction?

A. It did not.

Q. Did it have any relation to a settlement of any claim for damages that the Knickerbocker was making against the Municipal Company?

A. There was a check of $300,000 paid in settlement of damages.

Q. To whom?

A. Paid to the Cuttings—to the Cutting estate—given to
9079 Mr. Day; it was to settle a suit and to pay $50,000 for the Knickerbocker Company.

Q. Was that all there was of that transaction?

A. Yes, sir; and Cutting was to pay the company $350,000 for thirty-five hundred shares of stock.

Q. With whom was the arrangement made?

A. With Bayard Cutting.

Q. As the result of that transaction thirty-five hundred shares of stock was given to the Bayard estate?

A. For that $350,000.

Q. And those thirty-five hundred shares was part of the issue of a million dollars when the capital was increased from two millions to three millions?

A. I think so.

Q. Who was paid $50,000 at that time, if any one?

A. No one that I know of except the Cutting estate.

Q. The Cutting estate?

A. Mr. Cutting or the estate.

Q. In your testimony before the last Senate committee on March 4, 1885, you are reported as saying that the stock of the Knickerbocker was acquired by the Municipal in 1880 and paid for out of their surplus earnings with $50,000; to whom was that $50,000 paid?

A. Mr. Cutting.

Q. It was part of the $350,000, was it not, of the check of the Municipal for which this was received in exchange?

A. Yes, sir.

Q. This being the check last above quoted; who, if any one, paid to the Municipal Company a balance of $650,000 of that increased capital from $2,000,000 to $3,000,000?

A. The stockholders took a good deal of it at par; I don't know how much; the books will show exactly.

Q. What became of this money that was represented by this check last above quoted when deposited to the credit of the Municipal Company?

9080 A. Three hundred thousand dollars of it in the settlement of a suit which the Knickerbocker had against us.

Q. Had not that previously been paid?

A. It might have been dated the day before or the day after; I don't know which.

Q. What was the purpose in the Municipal arrangement of an exchange of checks on the 16th of March, 1880, of $350,000?

A. I think that has already been explained; Cutting purchased thirty-five hundred shares of stock and paid for them; the Municipal used the money which Cutting paid to settle the suit which the Knickerbocker had against the Municipal Company and purchased the fifteen thousand shares of stock—$350,000 paid in and $350,000 drawn out; you cannot make any more than that out of that transaction.

Q. What was the purpose of this exchange of checks for $350,000 that appears to have taken place on the 16th of March, 1880? Why were those checks exchanged?

A. Perhaps for convenience in business, I suppose.

Q. Was it not for the purpose of having it appear that the stock was subscribed for at par?

A. It was subscribed for.

W. B. CUTTING, a witness *sworn* by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You were present on or about the 16th of March, 1880, when the transaction was had between the Municipal Company and the Bayard estate, were you not?

A. Do you mean the passing of these checks?

Q. Yes, sir.

A. I cannot say that I was; I don't remember of it.

9081 Q. When was the first knowledge you had of that transaction?

A. It was some time in the late winter or early spring of 1880.

Q. From whom did you gain that knowledge?

A. I think Mr. Francklyn.

Q. Did you conduct a negotiation with Francklyn upon that subject?

A. I did, sir.

Q. Were all the results of that negotiation reduced to writing?

A. I don't know that they were.

Q. You had some understanding with Francklyn in the performance of which this transaction was carried out?

A. Yes, sir

Q. And that understanding was arrived at, was it not, early in March, 1880, or about that time?

A. I should think a little before that time—thereabouts.

Q. You understood that Mr. Francklyn was acting for himself or the Municipal Company?

A. I acted with him personally, sir.

Q. Did he say anything to you during these negotiations about the increase of the capital stock of the Municipal Company?

A. I believe he did; yes, sir.

Q. What did he tell you about that?

A. Well, I could not say what he told me as to the amount; I understood there was to be an increase, however.

Q. And of that increase did he say that some of it should be at his disposal for the purpose of this transaction?

A. I so understood it.

Q. You understood, didn't you, that you should have a part of that stock?

A. I understood that the Knickerbocker stockholders should have a portion of the Municipal stock; I did not care where it came from.

Q. As finally arranged between you what was the understanding between you and Francklyn?

9082 A. The details of the negotiation you would like to have?

Q. Yes, sir.

A. My remembrance of it is that we were to sell to Francklyn a majority of the stock of the Knickerbocker Gas-light Company, with the privilege that all the stockholders were to participate upon the same terms, on the debt being assumed, or left as it was; there was no agreement, I believe, as to the guarantee of the debt; the first mortgage to be left as it was, and the second to be secured by a second mortgage not to exceed $400,000, and that the Municipal stock should be paid for by the Knickerbocker at the rate of thirty-five shares for one hundred and fifty, there being an understanding between Francklyn and me that what work was necessary to complete the Knickerbocker, to make the mains, etc., should be done.

Q. At whose expense?

A. At the future stockholders'.

Q. Of the Municipal?

A. I assumed it to be borne by the future stockholders of the Municipal Company after the Knickerbocker should become the owners in it; what was necessary to put the property and works in condition.

Q. Who was to advance the money?

A. The party who should buy the stock of the then Knickerbocker stockholders.

Q. Who had purchased for the Municipal Company; that is, as you understood it?

A. Yes, sir; but the negotiation was between Mr. Francklyn and myself; I understood that the Municipal took it.

Q. And that the Municipal Company was to pay for those improvements upon the Knickerbocker works?

A. Yes, sir.

Q. Was there any substantial deviation from that understanding in the consummation of the transaction? 9083

A. Not in result; no, sir.

Q. The result then was, was it not, that for fifteen thousand shares of stock of the Knickerbocker Company thirty-five hundred shares of the Municipal stock were issued?

A. Thirty-five hundred shares were received.

Q. I should have used that term, "that you received."

A. The stockholders of the Knickerbocker did.

Q. You received it?

A. No, sir; I don't think I did.

Q. It was either yourself or Stephens, was it not?

A. I have an impression it was Mr. Brown; he received it for the estate of Elizabeth Bayard, who held a majority of the stock; and I believe it was distributed by Brown, or perhaps with the assistance of Stephens, among the stockholders of the Knickerbocker Company.

Q. You mean all above that which was apportioned to Mrs. Bayard?

A. Including her; she was a stockholder.

Q. Was there $50,000 in addition to that stock also received?

A. No, sir.

Q. Your arrangement didn't contemplate anything of that kind?

A. No, sir.

Q. You didn't receive any such check, did you, for $50,000?

A. Yes, sir.

Q. From whom?

A. I could not say.

Q. Have you any recollection as to who it was received from?

A. I have not; it was not in addition to the thirty-five shares of stock.

Q. Independent of any other consideration, do you not remember to have received a check of the Municipal Company, dated on or about March 13, 1880, and drawn to the order of Mrs. Elizabeth Bayard for $50,000?

A. I think there was such a check received; yes, sir.

9084 Q. Was that in pursuance of the arrangement of Francklyn?

A. Yes, sir.

Q. Did that check go on deposit to the credit of the estate of Bayard?

A. Of Mrs. Elizabeth Bayard, yes, sir.

Q. And did you also receive a check for $300,000 of the same tenor?

A. Yes, sir.

Q. That also went on deposit?

A. When I say "I" I mean the estate.

Q. And it was drawn against two checks that this check dated March 16, 1880, was drawn?

A. Yes; this dated March 16, and you mentioned the other, March 13; I would say the transactions were drawn simultaneous.

Q. Were there any other checks received by the Bayard estate at or about that time than the two checks, the one of $50,000 and the one of $300,000, from the Municipal?

A. No, sir.

Q. In respect to closing this transaction did any other money pass either way?

A. I think not; no, sir.

Q. Was that the whole transaction?

A. Yes, sir.

Q. No property passed of any kind whatever?

A. The property of the Knickerbocker Gas-light Company went with the stock.

Q. No other property except the certificates of stock?

A. No, sir; yes, I think I ought to change that answer; there was an abandoned suit for damages against the Municipal Company.

Q. That has been covered as a part of the transaction. There was an agreement that the suit should be abandoned?

A. Yes, sir.

Q. There was no other property that should pass?

A. No, sir; there was no other; that is my recollection of that transaction.

Q. Did you direct that suit to be instituted?

A. No, sir.

9085 Q. Who did?

A. The directors of the company, I presume.

Q. You knew when it was instituted?

A. I could not say that I did.

Q. Don't you know, as a matter of fact, that Mrs. Bayard had already advanced money before that suit was commenced?

A. I don't.

Q. When did you first know of that suit?

A. I could not tell you that, sir; I don't remember.

Q. Who first told you of that suit?

A. I could not say, sir.

Q. Were you a member of the board of direction of the Knickerbocker Company?

A. No, sir.

Q. Your brother was?

A. Yes, sir.

Q. Do you know on what that suit was founded?

A. I can give you my impression that it was an old contract between the Knickerbocker Company and the Municipal, by which the Municipal Company agreed to dispose of the right to use their process to the Knickerbocker Company above Fifty-ninth street, I think; that suit was brought for damages for a breach of that contract by the Municipal Company.

Q. Did you ever hear anybody advising that $300,000 could be recovered in that suit?

A. No, sir.

Q. Was that ever suggested when this transaction was closed in your hearing?

A. I don't remember whether it was or not.

(By the CHAIRMAN:)

Q. I understand you have heard of no such suggestion being made?

A. I don't remember; I presume when you say "when the transaction was closed," you mean my transaction with Francklyn?

Q. March 16?

A. Do you mean when the transaction was closed that it was when these checks were passed?

9086 Q. Either time?

A. I think when the checks were passed there was something said.

Q. By whom?

A. I think by Mr. Day, but I would not be sure; of course I knew when the checks were passed that the Municipal Company had undertaken Francklyn's contract.

Q. Did you make a contract in writing with Francklyn?

A. Yes, sir.

Q. The memorandum—have you the duplicate?

A. It has been destroyed long ago; it was a memorandum on a half sheet of note paper.

Q. Signed by Francklyn?

A. Yes, sir.

Q. You have given us the substance of it already?

A. Yes, sir.

Q. At that time when you commenced to negotiate with Francklyn was not all the stock of the Knickerbocker Company which was not owned by the Bayard estate held in trust?

A. No, sir.

Q. How was it held?

A. By some individual holders.

Q. Whose names have been already mentioned?

A. My brother most of it, and the McKenzie and Sayre Manufacturing Company.

Q. How much did they have?

A. I could not say.

Q. Didn't Stephens hold it in trust for them?

A. I don't think he did; I think he was trustee of the Bayard estate only.

Q. Did you proceed to buy that up, those outstanding shares, before this transaction was closed?

A. No, sir.

Q. On the faith of this agreement with Francklyn did anybody proceed to procure those outstanding shares?

A. All the stockholders were notified of the agreement, and notified to participate.

Q. How were they to participate?

9087 A. By receiving thirty-five shares of the Municipal for every one hundred and fifty of the old stock.

Q. Was not that stock procured and held in trust prior to March 16, 1880, for the purpose of closing this transaction?

A. I don't think so.

Q. There appears to have been a trust agreement executed on or about March 23, 1880, which recites that a block of 14,995 shares of the capital stock of the Knickerbocker Company have been procured; was not that practically accomplished, by agreement or otherwise, prior to the time these checks passed?

A. Yes, sir; there was an agreement to that effect, I should think, before those checks passed.

Q. With all the stockholders of the Knickerbocker Company?

A. Yes, sir; I think so.

Q. And in pursuance of that agreement the shares were subsequently procured and enlarged under this trust?

A. I don't know about that trust; I don't remember it; I don't think I was a party to that.

Q. But the trust was apparently the result of your delivery of that block of stock?

A. I don't know where it went, sir.

Q. What I want to know is, when you became ready to make that delivery what you remember about that?

A. I don't remember; I could not state from actual memory.

Q. You substantially had the control of 15,000 shares or you could not have closed this transaction on March 16?

A. Yes, sir; I think that is true, otherwise the check would not have been for $350,000, unless the whole stock had been delivered.

(By the CHAIRMAN:)

Q. This recites that all the stock of the Knickerbocker except five shares had been transferred to these gentlemen as trustees on

9088 or about March 23, 1880?

A. I don't know that fact; it is the first time I have heard of it; really I cannot remember of it.

Q. There was, therefore, was there not, an apportioning among the stockholders of the Knickerbocker Company, exclusive of the estate of Bayard, eleven hundred shares of the Municipal stock?

A. I could not say, sir.

Q. Well, was the estate of Bayard represented, or in any way interested in the stock held by these five trustees under the agreement or trust of March 23, 1880?

A. I know nothing of the agreement except what I have heard now; I suppose Mrs. Bayard's estate would all have an interest before that check was given.

Q. So that after that time the Bayard estate had no interest and received no advantage or benefit of any kind from the Knickerbocker stock?

A. No, sir, except what it derived as holder of the Municipal Gaslight Company's stock.

Q. You transferred that Municipal stock into Consolidated stock, did you not?

A. Yes, sir, such portion as I inherited from Mrs. Bayard as one of the heirs.

Q. Did you have any other transaction of any kind whatever with the Municipal Company or with Mr. Francklyn?

A. Well, do you mean growing out of this matter?

Q. I mean of any kind whatever?

A. I decline to answer that.

Q. Did you not make a loan to Francklyn?

A. I decline to answer that; that is a matter of personal business of my own, and I don't see the use of testifying to it before the Committee.

Q. Within a few months anterior to March, 1880, had you made any loans to Francklyn, directly or indirectly?

A. I have no remembrance of ever having done it.

9089 Q. Either before that time or afterward?

A. No, sir, I don't remember of it.

Q. Did you purchase any other Municipal or Knickerbocker stock of Francklyn as principal or as representative at any time? — I don't think I ever did, no, sir.

Q. You know what the price of Municipal stock was in March, 1880?

A. Approximately 170, sir; it may have been 150, and it may have been 180; it is simply guess work.

Q. Between March, 1880, and the time you parted with the stock of the Consolidated Company did you have any transaction whatever with Mr. Francklyn?

A. Well, Mr. Chairman, I don't see the necessity of these questions.

Senator MURPHY: It refers to private business connected with gas companies, does it not?

The CHAIRMAN: The question simply calls for yes or no.

A. I presume I have.

(By the CHAIRMAN:)

Q. Your answer will be yes to that?

A. I don't say yes, but I presume I have; I had just leave say yes to it; I have had business with him; yes, sir.

Q. Did those transactions involve the payment or passing of any money?

A. I don't remember, sir.

Q. Did this transaction involve the delivery of any securities?

A. I believe not.

Q. Either to or from yourself?

A. I believe not, sir.

Q. Did this transaction directly or indirectly concern any of the securities of any of the gas-light companies of New York?

A. No, sir.

Q. Did you make any loans to Francklyn on any gas collaterals?

A. I must say I did not do it.

9090 Q. Was there any such transaction by the Bayard estate or by your brother?

A. Not to my knowledge, sir; the checks which we received were not in addition to the stock.

Q. I understand it as you say; then, as I understand your testimony, it is that the stockholders of the Knickerbocker received no other or further money consideration, or any other consideration whatever, than the Municipal shares at the rate of thirty-five of the Municipal for one hundred and fifty of the Knickerbocker?

A. Yes, sir; that was the practical result of the transaction, and nothing else—3,500 shares for 15,000 shares; the transaction was that the stockholders were to receive in the proportion of thirty-five of the Municipal for one hundred and fifty of the Knickerbocker, or 3,500 for 15,000.

Q. Do you know how soon after November 11 you exchanged that Municipal for Consolidated stock?

A. I don't know; the stock books of the Consolidated Company will show that.

Q. How long after you acquired the Consolidated stock did you continue to hold it?

A. I hold some of it now.

Q. I understood your brother to say that he has sold his?

A. I presume by that he has.

Q. The block has been divided between the representatives of Mrs. Bayard?

A. Yes, sir.

Q. Have you sold any part of yours?

A. Is that a fair question?

(By the CHAIRMAN:)

Q. It is proper.

A. You have traced the transaction through the Municipal Company and the Knickerbocker, and it comes into the hands of third parties.

(By the CHAIRMAN:)

Q. You have received your part of the Consolidated stock, and you have a part of it still?

A. Yes, sir.

(By the CHAIRMAN:)

Q. And have sold a part of it too?

A. Yes, sir.

9091 Q. So far as you are concerned through whom did you make the sales?

A. I don't remember, sir.

Q. Were they all sold through the same party?

A. I could not say.

Q. You don't know of an understanding between the holders of the Consolidated stock, since the consolidation, with a view to its sale?

A. I don't.

Q. Or with a view to raising money upon it?

A. No, sir.

Q. Any of this stock used for such purposes?

A. No, sir.

Q. Have you had your certificates all the time?

A. Yes, sir.

Q. Can you name any of the houses through which you made sales?

A. I could by referring to my books.

Q. Have you several accounts with several brokers?

A. I have no accounts through any.

Q. Did you sell that through brokers?

A. Very likely.

Q. Did you give any to Francklyn to sell?

A. No, sir.

Q. Please look at your books to see through whom you made those sales?

A. I should decline to answer that.

The CHAIRMAN: If the Committee thinks the questions are proper I shall sustain them, and if the witness declines you can anticipate our duty in the matter as well as we.

The WITNESS: Yes, sir.

Examination suspended.

9092 FIFTH AVENUE HOTEL,
NEW YORK, *December* 2, 1885.

The Committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the committee.

JOHN SICKELS, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are secretary of the Knickerbocker Gas-light Company?

A. I was.

Q. From what time to what time?

A. From its organization until it was transferred to the Municipal Company; I can't tell you the dates; the organization papers will show that.

Q. Did you perform any services whatever after March, 1880?

A. Not after the transfer.

Q. Who were the officers in 1876, when it was first organized?

A. I could not tell you without referring to the papers.

Q. Mr. Stephens?

A. No, sir, he was not there in 1876; for two or three years prior to 1880 Stephens was the president and I was the secretary and a director; George Howes, M. B. Brown, R. Fulton Cutting comprised the board.

Q. Did you ever see any books showing the transactions of the Knickerbocker Company during these years?

A. Yes, sir.

Q. When did you last see those books?

A. The day of the transfer to the Municipal Company.

Q. What did you see done with them?

A. I wrote books up, the records of the last meeting, at the time of the transfer?

9093 Q. Was there a ledger?

A. Yes, sir.

Q. Was that written up?

A. Yes, sir, I wrote up all the books; there was a ledger and a transfer book.

Q. Journal or day book?

A. Certificate book and transfer book.

Q. Do you mean stock ledger?

A. Yes, sir.

Q. I mean the general ledger?

A. There was no general ledger.

Q. Didn't the company keep a ledger and cash book?

A. Yes, sir, but I don't think they were ever after in my control.

Q. When did you last see them?

A. I don't think I ever saw them; that is to say, in my control to examine them.

Q. When did you see the books without examining them?

A. I could not tell.

Q. While you were there as secretary was there not a cash book?

A. Yes, sir, it was kept by Stephens.

Q. Was there any kind of a ledger?

A. I think there was.

Q. Was there a journal or a day book?

A. I think the cash book showed all the disbursements, and the bills were the vouchers.

Q. You say the cash book showed the disbursements?

A. There was a check book which you might say was a journal; it would show the disbursements, and then the bills or the notes, whatever were paid, those were kept, the vouchers, and they were handed over by the treasurer to those that furnished the money.

Q. And who was that?

A. The money would be received from the Messrs. Cutting.

Q. Is there any account in the case of what that total amount was?

A. Nothing more than I could generalize, about $1,150,000. 9094

Q. Up to what time?

A. Up to March, 1880.

Q. Will not the check book show all of those moneys?

A. I think it will, every dollar.

Q. What bank?

A. The American Exchange Bank.

Q. Where is that check book?

A. I could not tell you.

Q. When did you last see it?

A. I think on the day of the transfer.

Q. Who had it then?

A. Mr. Stephens could tell.

Q. You signed the statement of debts of the Knickerbocker Company on March 11?

A. Yes, sir.

Q. What information, if any, did you have before you at that time respecting that indebtedness?

A. I knew it to exist.

Q. You mean to say you had personal knowledge of a $750,000 mortgage?

A. Yes, sir.

Q. Did you sign the bonds that were issued?

A. I signed them as secretary.

Q. Can you say when those bonds were issued?

A. There were $750,000 of bonds printed, and as the money was required for carrying on the work then the bonds were issued, and at different dates from the times we started until the transfer; I think that is the way.

Q. Was the money received by the company dollar for dollar?

A. Yes, sir; there was not a dollar of bonds issued that did not represent money spent.

Q. Was it spent before the Cuttings had received the bonds?

A. No, sir; if we wanted $100,000 we would fill up the bonds, then issue them, and the Cuttings would furnish the money to the treasurer, who would furnish the whole amount, if it was $100,000, say.

9095 Q. This floating indebtedness of $450,000, for which a mortgage was made in March, 1880, and which appears to have been represented by forty-five different notes of $10,000 each, made at or about that time, was exhibited to you in what way?

A. Every dollar of it was spent.

Q. At that time?

A. That was the indebtedness that was due; we made it nominally $1,200,000; that included the bonds; the $450,000 was the money that had been expended in material and labor.

Q. Do you know what was the capacity for production of the Knickerbocker works in March, 1880?

A. At that time the works were in ruins—the inside work—the oil had taken fire and set fire to the works and it blew up.

Q. It was not then used for producing gas?

A. It had been up to the time of the fire, and the fire occurred a few days before the transfer; before the money was paid the Municipal Company took the property of the manufacturing department in ruins?

Q. Was it all injured?

A. No, sir, not a dollar; some of it.

(By the CHAIRMAN:)

Q. You say the Municipal took the Knickerbocker property in ruins?

A. They accepted the property as it stood.

Q. How did it stand?

A. The retort house, and the generator and the different machinery there was in ruins; the oil had got fire and blew it up.

Q. At the time the Knickerbocker works were not capable of producing gas?

A. No, sir, not at that time—allow me to correct that; we had some benches that were making 100,000 feet, and the hydrogen generator; we had some benches in the manufacture of coal gas; those were there.

9096 Q. You think that their condition at that time would render them capable of producing from 100,000 to 150,000 feet per day?

A. Yes, sir.

Q. You was not then producing it?

A. Yes, sir, we were mixing gas then and selling it.

Q. As a matter of fact what was the extent of the mains that were then laid?

A. We had about sixty-eight miles of mains laid.

Q. Were they in good order?

A. There was never any such pipe laid down in the United States in any gas company; it was the only gas company that had a thirty-inch main.

Q. Were these mains then in order?

A. Yes, sir.

Q. Is there any record of the services and mains then in use by the Knickerbocker?

A. That could be found at the works, that was in charge of a man who works where the gas is sent out; I could not tell you the exact number of meters, we had some 2,000 meters, I think, set, and how many were in use I could not tell you.

Q. You mean by "set" ready for use?

A. Yes, sir.

Q. How many in use?

A. There was a large number; I could not tell you.

Q. About 600?

A. I think there were.

Q. How many services; is it your best recollection there were about 600.

A. I think more than that; I should say six hundred, and I should judge more than that.

Q. That is your best recollection?

A. Yes, sir; it is some time ago; I could not tell you.

Q. Was there any appraisement of the value of the Knickerbocker property at that time made by any one?

A. All the negotiations were outside of Stephens and myself; we knew nothing about it.

9097 Q. Were you interested in the transaction in question?

A. Yes, sir.

Q. State the extent of your interest at that time in the transaction? You held some stock first in the Knickerbocker?

A. Yes, sir; my interest was 250 shares of the Knickerbocker stock.

Q. For that interest you received what as the result of that transaction?

A. Nothing.

Q. Didn't you receive Municipal stock?

A. Not until after March; then I did.

Q. For that two hundred and fifty shares of Knickerbocker stock you received how much Municipal stock?

A. I think I received about the same amount.

Q. You didn't receive Municipal stock at the rate of thirty-five shares of Municipal for one hundred and fifty shares of Knickerbocker, did you?

A. No, sir; I think I received the value of the amount of the face; that is, $25,000 worth for $25,000 worth of the Knickerbocker.

Q. You mean $25,000 of Municipal at par?

A. No, money; I received the money from Cutting.

Q. You turned over your Knickerbocker stock to Cutting and received the money for it?

A. Yes, sir; I received the stock and turned it back to him in settlement of another matter.

Q. You sold your Knickerbocker stock to Cutting?

A. No, sir; I owed him some $10,000 or $11,000 for another interest, and Cutting took my stock; I forget at what price, and gave me the difference in money.

Q. You did in effect sell him your Knickerbocker stock by the satisfaction of a debt and the balance in money?

A. Yes, sir.

Q. Was that transaction based on the market price of the Municipal stock?

A. I think he gave me more than that for the stock at that time.

9098 Q. But the estimate was based on that?

A. Yes, sir.

Q. I would like to know what was the price of the Municipal stock at that time, as near as you remember it?

A. I think it was about $1.80.

Q. As to your holdings, were there two hundred and fifty shares in your name?

A. No, sir; all the stock was held in trust; I think the stock was in my name, 250 shares, and I think Stephens was the trustee and held the stock, still I am not positive about the amount.

Q. Who else held any stock except yourself, Mr. Stephens and Cutting?

A. Mr. Ambrose and Pierpont Morgan; Stephens held for Ambrose.

Q. Do you know what Morgan received?

A. I could not tell you; I think it was all *pro rata;* he received stock, I think, but I don't state that as being positive.

Q. You have not had any interest in gas stock since then?

A. Not in any of these companies.

Q. Or in the Consolidated Company?

A. Nothing, no, sir.

Q. What, if any, contracts did the Knickerbocker Company have up to March, 1880, with the constituent companies?

A. None.

Q. What if any patents did they own?

A. They owned one patent, the McKenzie and Sayre; they acquired that at the time the Cuttings bought it, in May, 1878.

Q. Was money paid for that or stock?

A. Money; there was an agreement to use that patent and to construct the works; the right to use the patent was paid for through the construction account.

Q. Construction of works?

A. Of the manufacturing works.

Q. Construction of the apparatus?

A. Yes, sir.

9099 Q. In 1878?

A. Yes, sir, or 1880; it ran along there.

Q. That agreement was with whom?

A. McKenzie and Sayre Manufacturing Company and the Knickerbocker Company.

Q. Who had the construction?

A. McKenzie, the patentee.

Q. Who was the engineer?

A. He was the engineer.

Q. He was the engineer who constructed the works?

A. Yes, sir; of the manufacturing department.

Q. Was he paid in stock or cash for that?

A. I think in cash.

Q. That is a part of this $750,000?

A. Yes, sir, and the $450,000; the $750,000 were coupon bonds, and the $450,000 were represented by notes; all the payments to McKenzie were covered in those two amounts.

Q. Who has that contract?

A. I think it is among the company's papers; it naturally would be in the hands of the Municipal.

Q. Have you a copy of it?

A. No, sir.

Q. Do you know the total payments called for by that contract—do you recollect, I mean?

A. No, I could not tell you without reference to the books.

Q. What books?

A. The books of the Knickerbocker.

Q. What account?

A. The account that showed the disbursements.

Q. Mr. Yalden, do you find any such book?

Mr. Yalden: No, sir.

Q. Do you remember any other contract made between the Knickerbocker Company and anybody else for construction?

A. There was a contract made with the Warren Foundry Machine Company.

9100 Q. About what was the total amount of payment called for by that contract?

A. I think it was about $400,000.

Q. That was for what?

A. Pipes.

Q. Was that paid?

A. Yes, sir.

Q. Do you remember any other contract?

A. One made with Mills & Ambrose for laying the pipes.

Q. How much was that?

A. I think about $400,000.

Q. Do you remember any other?

A. One made with the Goodwin Meter Company of Philadelphia.

Q. For 2,000 meters?

A. Yes, sir.

Q. What amount was called for to pay that?

A. Between $70,000 and $90,000.

Q. Do you remember any other contract?

A. The others were small; they were open purchases, the materials, they didn't go into the hundreds of thousands of dollars.

Q. The total amount was what?

A. There was the oil, the pipes and cocks, etc.; I think it would go to quite $150,000 for the whole.

Q. All of those were represented by these two amounts of guaranteed indebtedness?

A. Yes, sir; I want to correct that; there was a large amount paid for filling in and repairing the dock, and I think that was in the neighborhood of $100,000.

Q. To whom was that paid?

A. Mills & Ambrose.

Q. Was not that included in the amount you have mentioned?

A. No, sir.

Q. Are you sure it was as much as that?

A. Yes, sir, I think it was, I think there was one amount of over $30,000, and then it ran along as the needs of the company required it; I think it would go up to about $100,000.

9101 Q. Was the stock ever offered for subscription?

A. No; the whole stock was issued for the payment of the property; there was a large property there, some $1,200,000 had been spent on that property when it went into the hands of the receiver.

Q. All of the stock of the Knickerbocker Company was issued for the property?

A. Yes, sir.

Q. When it was organized?

A. Yes, sir.

Q. You had previously issued the stock of the Knickerbocker Company, and it was all issued for property that was purchased with that stock, the property being the old Union property?

A. Yes, sir, the stock of the Knickerbocker was issued for the properties formerly belonging to the Union Gas-light Company.

Q. Are there any other books relating to the stock of the Knickerbocker Company except the books that are here?

A. I don't know what books are here.

Q. Look at them (witness looked at books)?

A. This is the stock ledger of the Knickerbocker Gas-light Company in my handwriting; and this is the transfer book.

Q. When was that book opened?

A. August 25, 1876.

Q. What book is that?

A. The stock ledger marked "H. 1."

Q. This other book, when was it opened?

A. August 10, 1876, marked "H. 2."

Q. How many check books were there?

A. One check book, I think, sir; if I recollect it correctly there was an ordinary check book for opening an account which you will get at the bank, and there was then one made especially for the companies' use, I don't know of any others.

9102 Q. Do you remember which officer of the Municipal Company took those books?

A. I think the counsel of the company, Mr. Day; he was present.

Q. Do you remember where this transaction was closed?

A. At the office, 35 Pine street.

Q. Whose office?

A. The Knickerbocker Company.

Q. Was the cash-book there?

A. It was in the hands of the treasurer, Mr. William A. Stephens.

Q. What officer of the Municipal Company was that given to?

A. I couldn't tell you.

Q. Were there any other books of the Knickerbocker Company at that time in existence?

A. Besides those you have mentioned?

Q. Yes.

A. No, I don't think there was any; there might have been the letter-book.

Q. With the exceptions of these books which have been marked "H. 1," and "H. 2," there were no other books except the minute book of the board and two check books, a cash-book and a letter-book; do you remember any others?

A. No, sir.

Q. No general ledger?

A. No, sir.

WILLIAM A. STEPHENS, a witness called by the counsel to the Committee, being duly sworn, testified as follows.

Examined by Mr. TREMAIN:

Q. You was the president and treasurer of the Knickerbocker Gaslight Company from 1876 to 1880?

A. From 1878 to 1880.

Q. When the properties of the Knickerbocker Company were turned over to the Municipal, you was cognizant as a party to that transaction, as its president?

A. I was not to the fact that it was turned over to the Municipal Company at that time; I knew that the stock had been sold and transferred.

9103 Q. At that time, please state to the Committee what books of the Knickerbocker Company existed in addition to those that are now before us here, the stock-ledger and the stock-register of transfers?

A. No other books of the Knickerbocker Gas-light Company.

Q. What book or books did exist at that time, exhibiting the amounts paid for construction of various kinds, and for pipe, materials and labor, and moneys expended in and about the Knickerbocker works; just specify the books?

A. There was a cash-book kept by me as trustee, in the interest of Mrs. Elizabeth Bayard's estate, which embraced all of those items which you have just referred to; there was also a check-book kept in my name in trust for that account on the American Exchange National Bank; there was also a bill book, showing the notes which were issued, which formed a part of the item of $450,000, which has been referred to in this testimony.

Q. That is all the books that there were?

A. All that I can think of.

Q. And the vouchers representing those payments; did you have them?

A. The cash-book was given by me to Mr. Brown, as the representative of Mrs. Elizabeth Bayard, as one of the representatives; the cash-book was given by me to him, and the voucher; I am informed that they were afterward delivered by Mr. Sickles to Mr. Brown; that is hearsay; I believe they were.

Q. Is it a fact, between 1878 and March, 1880, in addition to the amount advanced by that estate, there was advanced to the Knickerbocker Company the sum of $50,000, by Pierpont Morgan, represented by bonds?

A. There was $50,000 of bonds sold to Pierpont Morgan for cash, at par and accrued interest directly.

9104 Q. Was that sale made by the Knickerbocker Company directly, or was it a part of the $750,000 previously issued to the Cuttings?

A. The $50,000 which Morgan received was a part of that $750,000 of bonds issued under the first mortgage; the cash for it was received and expended.

Q. Do you know what stock Pierpont Morgan received?

A. Five hundred shares.

Q. When was that issued to him?

A. It was delivered to him at the time he took the bonds, prior to 1880; all the stock belonged to individual stockholders, and it was held by me in trust, to represent them.

Q. And out of that block five hundred shares of Knickerbocker stock was given to Mr. Morgan; is that right?

A. If I am correct, that five hundred shares of stock, delivered to Morgan, was from a small lot of stock which we designated as treasury stock—stock to be used for special purposes.

Q. Nothing more was paid for it?

A. No, sir.

Q. Have you any papers of any kind whatever, relating to the Knickerbocker Company, of moneys expended on its works?

A. None whatever; they were all surrendered by me.

Q. Or to the Municipal Company?

A. Or to the Municipal Company.

Q. How much stock of the Municipal Company did you personally receive for your Knickerbocker interest; or, if money, how much money?

A. I received my *pro rata* share of 3,500 shares of Municipal stock; I cannot recollect the figures.

Q. Did you receive in the proportion of thirty-five shares of Municipal, for 150 shares of Knickerbocker?

A. Yes, sir; I received that from Mr. Brown.

Q. Did you subsequently part with your Municipal stock?

A. Yes, sir.

9105 Q. How long did you hold it?

A. A very little while.

Q. You parted with that to the Cutting estate?

A. No, sir; I sold it in the open market.

Q. State the total you represented?

A. I don't think I held any in my own name, except a sufficient amount to qualify me; it was all held in my own name in trust; all of which I was interested in for myself and others.

Q. That includes the Cuttings?

A. No, sir; I transferred before the Municipal stock was received; I transferred all that I held in trust to Mrs. Bayard.

Q. It appears, in evidence, that 3,500 shares of Municipal stock was issued in March, and received by the Bayard estate, and that about 2,500 shares of that block was retained by the Bayard estate, the balance of 1,100 elsewhere apportioned, some of it to Sickles; the question is how much to yourself and to anybody else?

A. I should have to refer to my memoranda, as to myself, to be exact, and that which was apportioned to others I have no means of knowing; I furnished Brown with the amount of stock held by others.

Q. How much did you hold personally; how many shares?

A. I think I held personally, representing 625, or approximately that.

Q. Did that represent Howe's interest?

A. No, sir.

Q. Did that represent Ambrose's interest?

A. No, sir.

Q. You know the amount of their interest?

A. I think 250 shares for J. W. Ambrose; that is all I know of; and I think the McKenzie and Sayre Manufacturing Company also held 200 shares of Knickerbocker stock, and I am not certain as to the amount.

9106 **Samuel J. Young**, a witness called by the counsel to the Committee, having duly affirmed, testified as follows:

Examined by Mr. **Tremain**:

Q. You were a book-keeper in the Knickerbocker Company?

A. No, sir.

Q. In what company were you a book-keeper?

A. I have kept books in the Municipal Gas-light Company from its original organization until January, 1877, and from June, 1877, until November 11, 1884.

Q. And since that time where have you been kept?

A. At the office of the Consolidated Gas-light Company.

Q. In what capacity?

A. As a clerk.

Q. Having any particular matters in charge?

A. Any I was told to do.

Mr. **Tremain**: I suggest that your examination be suspended until we approach another topic.

James Yalden, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. **Tremain**:

Q. Under the direction of this Committee you have made an examination of certain of the books of the Municipal Gas-light Company, with a view to ascertain what they may show touching its capitalization?

A. I have.

Q. Which books have you thus examined or had examined under your direction?

A. The ledgers, the journals, the books subsidiary, and the stock ledger and transfer book.

Q. The examination that you made extended over what years?

A. From 1876 to 1884.

9107 Q. It is proper to state the Municipal Company was organized in 1876 with a nominal capital of $500,000, and that subsequently its capital was increased in 1877, to $1,500,000; in 1879, to $2,000,000, and in 1880, to $3,000,000; those amounts being nominal share capital; please tell what the books you have examined show in respect to the payments of money touching this capitalization?

A. With regard to the first issue of $500,000 in 1876, on account of that there was $215,300 paid in cash, $100,000 on account of purchase of property, $150,000 for purchase of patents, and $34,700 given for salaries and providing for discounts on certain shares that were sold below par; the next issue of $1,000,000, in 1877, was subscribed for $800,000 in cash, and $200,000 paid for patents; the next issue of $500,000 in 1879, was wholly subscribed for in cash; the next issue, in 1880, was subscribed for in cash; the last issue of $1,000,000, however, the cash received therefor includes the $350,000 for the 3,500 shares allotted to the Bayard estate for the 3,500 shares referred to in Mr. Cutting's testimony yesterday.

Q. If in fact it was paid you mean?

A. It is assumed to be cash, for the reason it was passed through the cash book.

Q. You find that amount drawn out also?

A. Yes, sir.

Q. And concurrently with the payment in?

A. Yes, sir.

Q. And paid out to whom?

A. It was paid out in two amounts; $300,000 in settlement of a claim for damages in a suit by the Knickerbocker Company against the Municipal Company, which was charged to profit and loss account of the Municipal Company, and another check for $50,000 purporting to have been given for the purchase by the Municipal Company of 15,000 shares of the Knickerbocker Gas-light Company;
9108 the latter amount was charged to a special account and stands to the debits of that account at the company's expense November 11, 1884.

Q What is that account?

A. It is called Knickerbocker Gas-light Company's stock.

Q. What became of that item of $50,000 in the adjustment account between the Consolidated and the Municipal?

A. That was incorporated with the value of property and brought into account with the Consolidated Company as against the stock that they received from the Consolidated Company.

Q. Please state to the committee the total amount of moneys paid by way of dividends or distribution to the stockholders of the Municipal Company, during the period covered by your examination of these books, and as shown by these books up to the time of the consolidation?

A. The profit and loss account of the Municipal and Knickerbocker, of the former company from 1875 to 1884, and of the latter company from 1880 to 1884, shows that they paid away on their capital, as before stated, the sum of $2,806,192.50 for dividends in that period.

Q. If you can give the items of that $2,000,000 by years it would be desirable?

A. In the year 1879, $90,000; the year 1880, $353,742.50; 1881, $712,450; 1882, $600,000; 1883, $600,000; 1884, $450,000; that makes the total above referred to.

Q. What else have the stockholders of the Municipal Company received first in money and then in stock of the Consolidated?

A. They received $6,600,000 of stock in the Consolidated Company.

Q. What else in money did they receive by way of distribution?

A. Twenty-six and a half per cent. per share, called distribution of the assets since November, 1884, amounting to $795,000.

9109 Q. That is included in your first item?

A. No, sir; they have received the sum of $795,000, twenty-and a half per cent., $26.50 per share for the distribution of the assets collected other than those transferred to the Consolidated Company.

Q. So that in round figures it is a correct statement, is it not, to say that the stockholders of the Municipal Company have received in money upon their shares $3,600,000 in addition to the shares of the Consolidated stock apportioned among them?

A. Certainly, that is so.

Q. Now, referring to the items upon which this Consolidated stock was based did you make an examination of what is shown by the books respecting the cost of the following items; the plant, real estate, street mains, valves, etc.?

A. I did.

Q. In a schedule found at page 30 of Appendix "D" in the report of the last Senate Committee, appeared the details of values of the constituent companies at the time of consolidation?

A. Yes, sir.

Q. For the purpose of making a comparison between those values and what you may have found shown by the books touching the items which are enumerated, did you make an examination?

A. I have.

Q. State its results in respect to each of the items?

A. The balance as standing, the amount standing as representing the cost of the various investments of the Municipal Company, are as follows:

Q. Lump each item?

A. The outlay of the Municipal Company for the various amounts represented in the table on page 30, before referred to, amount in the aggregate to $4,092,347.86, and the sum of the valuation
9110 on page 30, including the franchise, is $5,100,000, therefore
making an appreciation on that account of $1,007,652.14.

Q. Is not that exclusive of any Knickerbocker items except expenditures made by the Municipal on the Knickerbocker properties after 1880?

A. It is quite independent of any expenditures on the other company.

Q. State what appears by the books of the Municipal Company—its total expenditures upon the Knickerbocker property since 1880 that appear to have been?

A. On account of works, mains and sundries the Municipal Company have expended on the Knickerbocker $810,481.15.

Q. And is that item included in the aggregate of items you have previously just given?

A. No, it is not.

Q. Hence, the total expenditures as shown by the books for those items you have designated, namely, for construction, plant, and other properties, is what figure, the two together?

A. Four million nine hundred and two thousand eight hundred and twenty-nine dollars and one cent, the total expenditures on the two companies' works.

Q. So far as the books exhibit is there any other item to be added to that amount in order to represent the actual aggregate expenditures upon the Municipal property or Knickerbocker properties that enter into the consolidation?

A. No, there is nothing further.

(By the CHAIRMAN:)

Q. Do you mean to say that the entire sum put into the Municipal Company amounts to $4,902,829.01?

A. That is the two together; the amount of money used by the Municipal in the increase of their works and the addition of the Knickerbocker.

Q. Do you mean to say that the property that the Muni-
9111 cipal held on the day next prior to consolidation, including
the Knickerbocker, which had previously been merged in the Municipal, cost the sum last mentioned, and no more, as shown by the books?

A. As shown by the books that was the amount of money they expended, but I take it that the value of the Knickerbocker property, whatever that may be, when it was transferred, is not incorporated there.

Q. Does that include the $1,200,000 indebtedness of the Knickerbocker that was assumed?

A. Oh, no, not that at all.

Q. Can you state how much the Municipal Company had expended in any way upon the works and property which it had at the time of consolidation, which would include of course the Knickerbocker works?

A. Yes, sir; the Municipal expended on their own $4,092,347.86 and upon the Knickerbocker Company's works and plant $810,481.15.

Q. Then what had their total property cost them?

A. Without the value of the Knickerbocker Company $4,900,000 in round numbers.

Q. The whole property that the Municipal had at the time of consolidation cost them how much?

A. Four million nine hundred and two thousand and odd dollars.

Q. How much had the Municipal Company put into the property which it had at the time of the consolidation?

A. Four million nine hundred and two thousand dollars.

Q. What has the Municipal Company, the stockholders as such, taken out of the concern that includes the twenty-six and a half per cent. which was paid after the consolidation but paid from assets of the Municipal remaining in their hands at the time of consolidation and not transferred?

A. In cash $3,601,000.

9112 Q. Have they taken out any thing else?

A. No.

Q. What do they claim to have left in their possession as their own property?

A. The stock, $6,600,000, the total amount $10,201,192.50 and something over yet to come.

Q. What?

A. It depends upon how much the remaining assets are worth, perhaps $30,000 or $40,000.

(By the CHAIRMAN:)

Q. Then since and including the year 1876 they have put in a little less than $5,000,000?

A. A little less than $3,000,000; their capital stock is only $3,000,000.

(By the CHAIRMAN:)

Q. How much did the stockholders put into this concern irrespective of what they got from the public?

A. Nothing; but there was a surplus left after the payment of dividends; they paid for stock $3,000,000, assuming it was paid all in cash.

Q. That is all they have ever put in?

A. Yes, sir.

Q. They have actually taken out of the Consolidated how much?

A. Three million six hundred and one thousand dollars.

Q. And have got left in Consolidated stock how much?

A. Six million six hundred thousand dollars, assuming the Consolidated stock to be worth par.

Q. How much did the shareholders put into the concern and pay for their stock?

A. The capital stock of the Municipal Company was paid in in cash by sundry shareholders, $2,165,000; $350,000 by the Bayard estate in the manner as before explained; $100,000 of stock was given for the original purchase of the property; $350,000 given for the purchase of patents; $8,900 given in payment of salaries; $25,800 was the discount on stock sold at different rates below par.

9113 Q. Is that all that the stockholders of the Municipal Company ever put into the concern?

A. Yes, sir; that's all they ever put into the concern.

Q. And have drawn out upwards of $6,000,000, and have got their $3,000,000 of stock besides?

A. Certainly; in point of fact the actual cash that went into the company's coffers from the stockholders for the use of the company was $2,165,000.

Q. In point of fact the expenditures in and for property to the amount you have already stated were made from ordinary receipts, so far as they are in excess of that sum, $2,165,000.

A. So far as they are in excess.

Q. The construction of the works and the acquisition of properties has been paid by the current receipts?

A. Yes, sir; out of profits made and reserved beyond the dividends made which were at the end of the trading nearly two and a half million dollars.

Q. Explain the whole thing, that last item you gave, so that it shall appear more clearly what you mean?

A. The balance left from the profits of the company after paying the dividends is in round figures $2,500,000, November 11, 1884; that amount added to $3,000,000 of capital has provided the sum for the outlay on works and plant, $4,900,000, and $800,000 in round figures divided among the stockholders since November 11, 1884; and the balance represents future assets to be collected, and other small amounts standing as assets on their books, and various expenses and costs of liquidation in suit; now we must go further than that; there are some liabilities outstanding of the Municipal Company, $328,000.

Q. Were they not assumed by the Consolidated?

A. Yes, sir; but they were incorporated in the Municipal accounts.

9114 (By the **Chairman**:)

Q. Is there any thing of that evidence which modifies or varies the statement already made by you?

A. Yes, sir; there is a sum of $328,000 owing by the Municipal Company for outstanding bonds, the proceeds of which have been used in the general construction and working of the company's business, as before stated, and that is really an addition to the capital and surplus, and went to provide an additional working capital.

Q. That indebtedness appears to have been assumed by the Consolidated Company, does it not, and to have been included in the $6,600,000 of stock apportioned to the Municipal?

A. No, it is not included; it is deducted before the $6,600,000 was given; the total amount of the plant of the two companies was $8,100,000, and there was $1,465,000 deducted from that for debts, and the Municipal Company got $6,600,000 worth of stock for the total value of all their property, less the indebtedness.

(By the **Chairman**:)

Q. Which indebtedness the Consolidated Company assumed?

A. Yes, sir, and assumed so much of the stock when it was due.

(By the **Chairman**:)

Q. I don't see how that modifies your previous statement as to what the stockholders of the Municipal Company put into the concern and what they took out of it, and what is now left in their hands of the stock of the Consolidated Company assigned to them in the act of consolidation?

A. That statement goes to confirm my previous reports upon that, that the Municipal Company's stockholders received $6,600,000, and that they have received as the value of their assets, less their liabilities.

Q. You mean it is the net value?

9115 A. Yes; the course they pursued was $1,800,000, as they appraised them, and they had $1,500,000 liabilities; the Consolidated say then "we will assume them but deduct it."

(By the CHAIRMAN:)

Q. Then the answer is that it does not modify it but rather confirms it?

A. Yes, sir.

Q. Is this testimony which you are now delivering the result of recent examinations, or had you made any such examination when you testified last March?

A. No, I had not; the result of this examination is the result of my labors within the last few days.

Q. Will you now please prepare appropriate tables or digests of the figures showing the results that you have just testified to, so that the Committee shall append it, if they choose, to your testimony?

A. Yes, sir, I will.

Q. Is there any item of depreciation written off in arriving at those results?

A. Nothing very substantial; the depreciation was generally charged to repairs, which was only $27,000 written off the depreciation.

Q. So that in arriving at those results there is no more depreciation allowed in the books than about that sum?

A. No, under that heading, that is all; in my account last March the Municipal Gas-light Company wrote off for repairs a depreciation, $235,000, page 346.

Q. Did you investigate that item?

A. Yes, sir, and ascertained that they had spent that amount of money for repairs; it is an equivalent to writing off the amount for depreciation and spending the amount as they required it; I will correct my figures; the depreciation written off is $53,000 and not $27,000; I took the wrong figures.

(By the CHAIRMAN:)

9116 Q. The cost of repairs then has been made from time to time and came out of the earnings of the company?

A. Certainly.

Q. The money with which bonds have been paid for came out of what?

A. The earnings of the company, and I presume a part of the surplus.

Q. So that the dividends paid have been over and above all those expenditures and earnings?

A. Yes, sir; the dividends paid have been the cash that they have had left that they didn't want for any other purpose.

Recess until 4 o'clock p. m.

FIFTH AVENUE HOTEL, NEW YORK,
December 2, 1885—4 p. m.

(Hearing resumed.)

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the Committee.

THOMAS RUTTER, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. **TREMAIN**:

Q. You are the president of the Harlem Gas-light Company?

A. Yes, sir.

Q. And you are also a director in the Consolidated Gas-light Company?

A. Yes, sir.

Q. Were you present the other day when a dividend was declared?

A. I was.

Q. Was any financial statement submitted to you?

A. There was not, except a verbal statement which was made by the treasurer.

9117 Q. Was the vote to declare a divident unanimous?

A. It was.

Q. What directors were absent, if any?

A. Mr. Pyne; he was the chairman of the finance committee; Mr. Zollikoffer was absent—I am not sure about that.

Q. When did you first hear consolidation considered and valuations referred to for that purpose?

A. I don't remember exactly when that occurred; the question of consolidation was discussed three or four years before it actually took place.

Q. What is your best recollection as to the time that valuations were first considered?

A. I should say six or seven months before the time of consolidation the committee were at work; I am not positive as to that.

Q. Were you on the sub-committee which was appointed by the pooling committee to consider consolidation?

A. No, sir.

Q. Who represented your company on that sub-committee?

A. Mr. Moss.

Q. What, if any thing, did you, as president of the Harlem Company, have to do in respect to the Harlem property entering into that consolidation?

A. Nothing; as a member of the committee Mr. Moss occasionally consulted with me as to values, etc.

Q. When did you first arrive at values in the Harlem Company for the purpose of negotiating for consolidation?

A. I could not tell you the date.

Q. Was it in 1883?

A. I can't tell you whether it was in 1883 or 1884.

Q. Were there any papers or memoranda in existence respecting values other than the schedules which formed the final basis of the consolidation agreement?

A. Not that I know of.

9118 Q. When were the schedules prepared?

A. They were being prepared at the time or immediately after the committee was appointed of one from each company.

Q. It was appointed some time in 1883; in December, according to the pooling minutes?

A. Eighteen hundred and eighty-three or eighteen hundred and eighty-four; I could not tell you the date.

Q. The sub-committee which you referred to, the committee which had power to call in legal counsel?

A. Yes, sir.

Q. Your schedules of appraisements were prepared immediately after that committee was formed?

A. Yes, sir, after that committee was formed.

Q Were there at that time valuations affixed to those schedules by any of the Harlem directors?

A. No, sir; it was left entirely in the hands of that committee.

Q. To anybody else but Moss on that committee?

A. Except occasionally when he consulted with me about prices.

Q. So that we understand you as testifying that the Harlem Company prepared schedules of its property but did not affix to those schedules valuations?

A. We made an inventory of our property.

Q. Did you put valuations to it?

A. Those values were placed there by this committee of which Moss was a member; I presume they did; I don't know from actual knowledge.

Q. Did those values differ from the values affixed upon the schedules finally?

A. I can't give you a different answer from that; I was not at the meeting; there were some changes made no doubt.

9119 Q. Can you say whether there was any substantial change in the values affixed to your properties at the time of consolidation from what those values were as originally represented by the Harlem Company?

A. The figures were cut down; I know that.

Q. Are those original schedules in existence?

A. I could not say; I don't think they are; I don't know whether they are or not.

Q. When did you last see them and with whom?

A. I don't know as I ever saw them; that is, the schedules made by the committee; I would like to correct that; I saw them but when I could not say; of course I saw those figures when they were submitted to me by Moss.

Q. Were you not a member of the pooling committee?

A. No, sir, not at all.

Q. Well, the original schedules that were appraised and were submitted to the Consolidated Company, and that formed the immediate basis of consolidation, are supposed to be now before the committee, and marked exhibits "F, J, S, G." I suppose that is it; is that it? (Paper handed to witness.)

A. That is it, because it is in Mr. Moss's handwriting.

Q. Were those the schedules which formed the final basis?

A. I don't know; it does not seem to cover the ground fully.

Q. What else was prepared?

A. I don't know; there evidently was one.

Q. Look at this and see if this is not it? (Paper handed to witness.)

A. This is another of the same character; it does not cover the ground fully; it is a detailed statement of the different values of the property we had; Mr. Moss can give you all that information correctly.

9120 (Witness refers to paper marked Inventory of the Harlem Gas-light Company, November 10, 1884)

Q. Was there not submitted to the Consolidated Company an appraisement of all your property?

A. I think there was.

Q. Who appraised it?

A. We made an appraisement, at least Mr. Moss did, and made his statement, which was referred to the committee, and then a valuation was made upon his figures; there were appraisers employed for the purpose; their names I can't give you; I don't know; these figures were revised when they were presented to the committee; they were cut down when they thought the figures were too high.

Q. There is a total of $2,500,000; is not that the whole of it?

A. You ask me about the figures, which amount to $1,300,000.

(Witness refers to a paper marked "Exhibit F.")

Q. That schedule covers the Harlem property, does it not?

A. Yes, sir.

Q. Is not that the paper which formed the immediate basis of the consolidation agreement?

A. That did, I think.

Q. Was there any other property owned by the Harlem Company except as detailed in this schedule?

A. I think this covers the whole thing; there may have been another paper; I would not vouch for that.

Q. What you question is, whether there was any other property of the Harlem Company which is covered by that paper or in which it was recapitulated at the end?

A. I could not answer that except in this way, that I don't know.

(By the CHAIRMAN:)

Q. There was no other to your knowledge at all events?

A. I have an impression that there was another paper.

9121 Q. Then it seems there was another paper covering property, was there?

A. I don't remember any other paper, yet I have an impression that there was another paper upon the same subject, but I am not positive about that.

Q. Of what importance is any other paper?

A. Except to get the valuations, to increase the values and bring them up to the point that we went into the consolidation; there is something in these figures I don't really understand.

(By the CHAIRMAN:)

Q. That creates an impression upon your mind that there is another paper?

A. Yes, sir.

Q. This paper recapitulates the valuations of mains, meters, services, works, real estate, etc., at $2,530,917.46; the total capitalization apportioned to the Harlem Company by the consolidation appears to have been $3,000,000?

A. Yes, sir; a little over, I think.

Q. The difference being about $469,000; can you state how that was arrived at?

A. I cannot.

Q. Have you no information whatever upon that subject?

A. No.

Q. Were you not consulted respecting it before you signed the consolidation agreement?

A. No, I don't recollect that I was; it was left entirely to the committee.

Q. Was there any meeting of the board of directors of the Harlem Company at which the matter was considered?

A. No, sir.

Q. Were you present at the meeting of the stockholders of the Harlem Company when that subject was voted upon?

A. Yes, sir, it was not discussed at all there.

Q. Was that vote chiefly by proxy?

A. Yes, sir; the vice-president held them and I held them.

Q. How many did you vote on?

A. I could not tell you.

9122 Q. Didn't you vote on two-thirds yourself?

A. I could not tell you the number.

Q. Didn't Moss and yourself substantially cover by your votes more than two-thirds of the proxies?

A. Moss did not vote; he had not the power to vote; it was Rodman and myself.

Q. Didn't the vote of yourself and Rodman cover more than two-thirds of the stockholders?

A. Yes, sir; I guess it did.

The CHAIRMAN: Strike out what refers to Moss's voting.

Q. Do you testify that the valuation of the Harlem properties was arrived at, so far as this difference of $469,000 was concerned, without any special consideration of that item?

A. No, I would not say that; I have no doubt it was considered, but not by me.

Q. You cannot explain that to the committee?

A. No, sir; had I been a member of the committee I might have been able to answer these questions.

Q. Was there any other property of the Harlem Company or assets of any kind whatever, that were not turned over to the Consolidated Company, or that were distributed among the stockholders of the Harlem Company after the agreement of consolidation; I will refresh your recollection by a paper which bears your signature?

A. I think every thing was turned over.

Q. Was it not paid by the Consolidated Company afterward?

A. I mean this, that we had uncollected bills, and we had stock on hand, coal, etc., which was all turned over by the gas company; the adjustment committee had that in charge.

Q. Didn't the Consolidated Company distribute those assets to the stockholders of the Harlem on account of the Harlem Company?

A. I think they did.

9123 Q. What was the total amount of assets so distributed?

A. I could not tell you.

Q. Does not that paper enable you to say?

A. This is a schedule rather of the indebtedness of the company, a balance due under contract to Rowland, a balance due on bonds, etc., and other indebtedness of the Harlem Gas-light Company.

Q. That paper does not enable you to state what the amount of payments were?

A. No, sir; this states what the company owed at that time and what was transferred to the Consolidated Company who took care of them.

Q. This statement is marked Exhibit I. Was the distribution to the stockholders of the Harlem that was made at or about the time of consolidation, or shortly after, made by the Harlem officers or the Consolidated Company on account of the Harlem in adjustment? What was the fact?

A. I don't recollect at this time how that was done.

Q. In substance do you know the percentage of distribution thus made?

A. No, sir; that is shown by the records.

Q. What?

A. The Harlem books will show.

Q. Whether those payments were made by the Consolidated or the Harlem?

A. I think that that payment was made by our company.

Q. Was any dividend made by the Consolidated to the Harlem stockholders?

A. There was a dividend of the reserved assets which was made by the Consolidated Company.

Q. Thirty-two thousand dollars?

A. Yes, sir; I don't recollect the percentage or the exact amount.

Q. In addition was there any other dividend about that time made by the Harlem Company?

A. A very small one.

Q. What period did it cover?

A. It happened to be left over.

9124 Q. When was that paid?

A. Shortly after the consolidation took place.

Q. You are aware, are you not, that legislation affecting the gas companies of the city of New York was proposed last winter?

A. I only know from what I saw in the papers; I have no other knowledge of it.

Q. No other knowledge than what you saw in the papers?

A. No, sir.

Q. Do you know what the provisions of the proposed bill were?

A. No, sir.

Q. Do you know any thing about it?

A. Absolutely nothing about it.

Q. And didn't down to the adjournment of the Legislature?

A. No, sir; the only knowledge I had was what I saw in the newspapers.

Q. From the papers did you know what the proposed legislation was?

A. No, I did not; I saw that the matter was talked of in the Legislature; that's all.

Q. You heard the matter was talked of and knew it was talked of?

A. In the newspapers.

Q. You knew nothing about it yourself; then of course you were neither friendly nor hostile to the legislation?

A. I took a neutral stand on that point.

Q. Entirely indifferent to the whole thing; then you could not give us your opinion as to the wisdom or unwisdom of the proposed legislation?

A. No, sir.

Q. And yet you are president of one of these constituent companies?

A. Yes, sir.

Q. And director of the Consolidated Company?

A. I had nothing to do with it whatever, that bill at the Legislature.

9125 Q. In your opinion as a business man, experienced more or less in manufacturing and supplying gas, is the dividend a fair element in ascertaining and fixing the price at which it should be supplied to the public?

A. I think it is.

Q. Is there any fair reason in your opinion why that dividend should not be limited and thus the price of gas limited?

A. I don't think there is any fair reason for it—which I can give at least.

Q. What, if any, contracts existed of the Harlem Company, I mean at the time of the consolidation, that were assumed by the Consolidated Company?

A. There were contracts for coal and supplies generally, and also for the addition of our works, which were about completed at the time of consolidation.

Q. The contracts were with whom?

A. The contract for extending the works was with Mr. Rowland.

Q. With whom were the others?

A. The coal companies, the West Penn. Coal Company and the Westmoreland, and there was a company in Western Virginia, it is the Murphy's Run Company, contract for coal.

Q. What other contracts?

A. There may have been a few, but not great contracts.

Q. Were there any other contracts except for materials?

A. Not that I am aware of.

Q. Any for services outstanding?

A. Not that I am aware of.

Q. Were there any other contracts made?

A. No; in regard to contracts you mean people employed by the year?

Q. Yes, sir?

A. Mr. Moss was employed by the year as vice-president and manager; all those services ceased at the time we went into consolidation.

Q. Were not the contracts for salaries outstanding for a longer period?

A. No, sir.

9126 Q. Were there no contracts for salaries whatever that were assumed by the Consolidated?

A. Nothing but what I mention.

Q. Were there any made after the consolidation by the Consolidated?

A. They may have fixed salaries for the management of their offices; I don't know that.

Q. Don't you know of any salaries that were fixed or agreement made and approved by the Consolidated Company after the consolidation?

A. I think not.

Q. Don't you know of any with respect to any of the officers or employees or agents of the Harlem Company?

A. There were not.

Q. Don't you know the fact that there were such contracts in relation to the officers of the other constituent companies?

A. I have no data to form an opinion from.

Q. Did you ever hear that matter come before the board of directors of the Consolidated?

A. No; no recollection of it.

Q. Did you ever vote as a member of the board of directors upon any such contract?

A. There may have been a salary for some officer; I think there was; I can't recollect what it was now.

Q. Do you not know that there were some indebtednesses assumed at the time of consolidation and contracts of that character?

A. I think there were some contracts that were made by the other companies and assumed by the Consolidated Company; but there were none with reference to the Harlem.

Q. None whatever?

A. No, sir.

OSCAR ZOLLIKOFFER, being duly recalled, testified as follows:

9127 Examined by Mr. TREMAIN:

Q. When your examination was suspended you was asked to refresh your recollection by referring to your own memorandum or papers; now do you remember how early you submitted the memorandum of values of the properties of your company, for the purposes of consolidation?

A. October 17, 1883.

Q. Were not the values of the properties and of the other companies, at that time, submitted or considered?

A. They were not quite ready; we had many postponements; many times one was ready and the other was not ready; October, 1883, it was first reported to the board; there was a resolution whether we should consider it or not; I think it was in the beginning of July.

Q. When did you first know, if at any time, that legislation was necessary in order to effect consolidation?

A. I must say I am disappointed; I had a paper and I cannot find it; I don't trust to my memory entirely.

Q. Where is it; at home?

A. I think it is at home, or in my overcoat; I cannot find it.

Q. You can answer that question in the morning, and I will ask you another one on another subject; was the subject of values of the property of the Knickerbocker or Municipal Company, or either of them, considered at any of the meetings of the committee when you was present?

A. Yes, sir.

Q. What, if any thing, was said in your hearing in respect to those values?

A. A difference of opinion; some thought it was higher than it ought to be, and others thought it was not too high.

Q. You know the basis upon which it was valued finally?

A. It was more an agreement than any thing else.

9128 Q. Will you tell the Committee what was the basis by which the values of rights and franchises, so called, were arrived at?

A. I think more or less by the amount of sales of gas, by the quantity sold.

Q. Were you on the committee of appraisement?

A. No, sir.

Q. Did you personally have any thing to do with appraising any of the other properties except your own?

A. None, except our own; afterward in debate, naturally we came together; one thought this was too high, and the other thought to the contrary.

Q. Prior to the actual consolidation in November, 1884, were any steps taken to reduce the price of gas after the pool had been formed?

A. I don't think any steps were taken; but recommendations were made repeatedly.

Q. By whom?

A. Principally by myself.

Q. And who else?

A. I think the Manhattan was favorable to it too.

Q. As the result of investigation by the previous committee, legislation was proposed. Do you remember whether any officers or directors of the Consolidated Company expressed any opinions in respect to that proposed legislation?

A. I think it was spoken of repeatedly, but I don't know that a decided opinion was made.

Q. As an officer of the Consolidated Company at that time, and as president of the old Metropolitan Company, did you inform yourself as to what that proposed legislation was, so as to form an opinion as to its wisdom?

A. I read it all attentively as much as I could.

Q. Have you any opinion to express to this Committee as to the expediency of legislation, such as was then proposed?

9129 A. In respect to controlling the different gas-works, or in what respect?

Q. To such legislation as was proposed, founded on the principle of limiting the price of gas by restricting dividends?

A. Yes, sir; well, I read that too; but I think it works both ways; if a limit should be agreed upon, it ought also to be on a basis to secure protection to the parties as far as competition is concerned; it ought to be working both ways; a minimum ought to be fixed, as well as a maximum.

(By Senator Robinson:)

Q. Do you approve of legislation fixing the price of gas to a certain per cent. dividend on the capital actually invested?

A. I think always, in every thing, competition is the true thing; that brings it down to a level.

Q. But in competition, competitors can enter into a pool to keep the price up?

A. Yes; for a certain time, and competition can go against the pool, and be successful too.

Q. What are your views upon a legislative act which shall limit the price of gas to a certain per cent. dividend upon the actual capital invested in its production and distribution?

A. It would be beneficial to the stockholders, provided always a sufficient capital is allowed for making improvements, because they have always to be made.

Q. Assuming there should be a sufficient capital allowed for working capital and improvements, would you favor legislation that should regulate the price of gas upon a certain per cent. dividend of the capital actually invested for its production?

A. I have no objection, but I think if you have two companies adjoining to each other, they have one or the other the reputation of being the best; I am in favor of competition, and have always found it was the best in various kinds of business.

9130 Q. Assuming a fair protection, have you any opinion as to the wisdom of legislation that limits dividends on actual working capital?

A. In the gas business there are a great many chances, ups and downs; we are exposed to accidents which other companies are not; in any case we lose heavily; therefore I say a company of that kind ought to have a fair limit of capital, and fair allowance for working.

Q. Would you have the allowance made for working capital include sums to be used in extending and enlarging the works of the company?

A. Yes, a certain percentage would allow a regular increase in proportion to the demands for gas.

Q. You would increase the works of the company, the plant, out of the earnings of the company, rather than by the increase of the capital stock of the company?

A. Yes, sir, by the earnings; take our case for instance, a very poor company; at first everybody thought we must break, still it was economy and application at the proper time, and finally we succeeded.

Q. You are in favor of that system that will allow a fair dividend and sufficient working capital to keep the property in as good condition as when you took hold of it?

A. Yes, sir.

Q. You mean in the original capitalization to reserve sufficient capital to cover reasonable increase, and then keep the works in good running order from the business?

A. Yes, sir, and all the increase can be provided for.

Q. Would you enlarge and extend the works out of the earnings of the company, and not by the issue of new stock?

A. The business must increase naturally, and if in laying out $2,000,000 for half the city, for the whole city lay out $4,000,000; it is on that principle.

9131 Q. Where do the $2,000,000 come from, really?

A. To issue new stock; the earnings are sufficient if you have it above a certain limit, and if it is not sufficient, then to authorize an increase of capital.

Q. To extend the works either from the earnings of the company or additional capital?

A. Yes, sir.

Q. Do you think that the working capital of the company ought to be increased out of the earnings of the company, or out of the new capital, or both?

A. I think the stockholders, it ought to be left with them to increase according to the needs of the business.

Q. Increase what?

A. Increase the capital.

Q. Do you think the company ought to have the right to go on extending its works, and building new plant, and laying new mains, etc., out of the earnings of the company?

A. Yes, sir; out of the earnings, a part, if they have a surplus.

Q. Whether they should have the right to do that, the unlimited right to do it?

A. They should in my opinion; if business is good, capital will come; it will be offered at the lowest rate.

Q. And if they should enlarge their works?

A. I think after all it ought to be left to the company to manage its own business; I was never afraid to show any stockholder of our company any thing, but that they should always have the right to come in and see, and why should not the Legislature have the same right at any time; I have no objection to bringing it before the Legislature; I could have no objection whatever; certain parties in high standing ought to be appointed, say a committee of three people who are disinterested.

Q. In such a case as suggested to you, do you think that enlarge-
ment of capital for the purpose of enlarging the works, cov-
9132 ering more territory for instance, should be provided for by
new capital subscribed and paid in, or profits on gas?

A. I would limit the profits of gas to a certain amount, to cover all expenses and everything, and then I would have no objection to increasing its capital according to its necessities, and it should be certainly paid in.

Q. Do you think it is an unreasonable exercise of legislative power to limit the dividends to the capital?

A. I don't think it is any thing wrong, but I say every thing ought to work to all sides favorably.

Q. Was there anything in your opinion substantially wrong or radically inexpedient in the bill proposed last winter by the Senate Committee?

A. I must say I don't recollect all the items of it; I will read it over, perhaps, to-night.

(By Senator Robinson:)

Q. You are speaking of a fair surplus working capital, and being allowed to charge enough for gas so as to keep the works improved; whether or not you think it is a fair dividend; that in 1876 a company put in $3,000,000, and from 1876 to 1884 they charged such a price on gas that their dividends amounted to $3,601,000; is that a fair price for gas?

A. I don't like to say it is or no; I think it was against policy.

Q. Was not the price of gas to allow such dividends for eight years upon that capital simply an outrage upon the consumer?

A. I think it was too much, and always expressed myself to that effect, but I don't want to have a fight with any one of them on that account.

Q. Whether or not a gas company so located that by a capital of
$3,000,000 in 1876 they charged such a price for gas, that in eight
years they took out in dividends $3,601,000; has not the price
9133 of gas to these consumers been simply outrageous?

A. I know our company had no such profits on gas; we had nothing of the kind.

Q. You don't believe in legislation allowing such dividends on stock as that?

A. I don't think it should be allowed; it ought to be limited to an extent; I would make a pretty fair limit.

Q. After they have taken out $3,601,000 in dividends, is it a fair appraisement to turn a property which costs but $3,000,000 over into a company at a valuation of $8,000,000 to pay upon that stock?

A. I don't like to—I don't know how they came to; perhaps they were over wise.

Q. If it was done, was it a fair appraisement in your opinion?

A. If it was done under fair rules; if a man has a chance to buy cheap property and afterward it becomes high, he should be allowed its full value; it is policy I say; these companies would have made more if they had kept their prices down; at the time when the appraisements were made they were in such a position that it had a good income, and therefore had a regular value.

Q. Having paid such a price for gas in eight years, they received in dividends $3,601,000; was the fact that they had paid such enormous dividends taken into account in appraising its value? Was it on that basis?

A. Well, if it had its value, I don't know what it hangs on, whether it was partly made in real estate or whether it was made from the gas profits; I don't know where these gains were made.

Q. On account of its large dividends, your idea is that legislation ought to be so as to allow the company to make a fair dividend upon the property and money actually invested, together with a reasonable amount for working capital?

9134 A. I think at the time, if this was left to the company as they were before the consolidation, it would be right and proper; but here is a property that had its value; each one of those companies at the time could have sold to other companies at its value.

Q. Was not a large element in that value made up of the fact that they had charged such prices for gas that they could make those enormous profits?

A. Certainly that was one of the things; but our people all knew, every one of us, if you will read the minutes of our executive committee, that in every meeting I made the proposition to reduce the price of gas for two years.

Q. Don't you know as a gas director that the value of these privileges comes from the fact that they have been for years charging such a price for gas as to make these enormous dividends?

A. Yes, sir; allow me to say this; that the gas companies were for years and years exposed to every thing, and if they had a good business one week, the next week they had a poor business.

Q. This price of gas was kept up by all the companies going into a pool to keep it up?

A. Yes, sir.

Q. In the city of New York was not the price of gas kept up through this pooling arrangement?

A. It is so throughout the country; it was a business that had its risks.

Q. Was not this price kept up by this pooling being kept up?

A. Yes, sir, here.

Q. As a result in part these large dividends took place?

A. Yes, sir.

Q. Can you name any other business as stable and solid in its risks?

A. I think the railroads are; if you let the gas companies alone they will come down.

9135 (By the CHAIRMAN:)

Q. Up in capital and down in rate per cent., is that the result in consolidation so far?

A. I don't speak of consolidation, I only speak of business in its actual ways.

Q. Do you think that the fact that unreasonable charges have been made by gas companies is a reason for increasing the capital stock on which the public is expected to pay such an income as will give them what you call a reasonable per cent. of profit on this new and increased capital?

A. I think that the property what was on hand in the several companies had actually its market value.

Q. If your company had not entered into the consolidation, and its capital had remained as it existed prior to the consolidation, in your opinion, could it have furnished gas to its consumers cheaper than is now furnished to the same consumers, by this so-called Consolidated Gas Company?

A. I think it might be a little cheaper to the consumer; of course I consider every additional office as more expense.

Q. Could it not have been furnished to the customers of the Metropolitan Company considerably cheaper than is now furnished; and you have paid ten per cent. dividend upon the old capital of the Metropolitan?

A. I suppose so.

(By the CHAIRMAN:)

Q. It is not unreasonable for a gas company to charge the public such a price for gas as will enable the company to receive an annual dividend of twenty per cent.?

A. I think it is; but still it depends on the solidity of the position of the gas company, whether it is for a short time, or whether it is permanent.

Q. If such profits were so unstable and uncertain as to make such a profit reasonable, then that must be taken into account in estimating the value of the property?

A. Yes, sir.

9136 Q. And would greatly reduce its value?

A. Yes, sir; if not guarded.

Q. You would not hardly expect such property, unstable as that, to be worth par?

A. No, sir; if unstable as that I would not consider it worth par.

Adjourned until December 3, 1885, 10 A. M.

FIFTH AVENUE HOTEL,
NEW YORK, *December* 3, 1885.

Met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the Committee.

JOHN P. HUGGINS, a witness called by the counsel to the Committee, being duly sworn, testifies as follows:

Examined by Mr. TREMAIN:

Q. You are a director in the Consolidated Company?

A. Yes, sir.

Q. Prior to that were you a director in the Metropolitan Company?

A. Yes, sir.

Q. How long have you been connected with the Metropolitan Company?

A. I can't say exactly; somewheres in the neighborhood of twenty-five or thirty years.

Q. Have you been interested in any other of the constituent companies?

A. Yes, sir; the Harlem, and I had a little in the Manhattan.

Q. You transferred it all into Consolidated stock?

A. Yes, sir.

Q. You continue to hold the same amount now?

A. I hold all of my own stock; I had two hundred shares which was in trust; every dollar of my own stock I hold.

9137 Q. Were you present at the last meeting of the board of directors?

A. No, sir, you had me here.

Q. Do you know anything about the proposition to declare a dividend at that meeting?

A. No, sir.

Q. Did you understand that was to be voted upon at that meeting?

A. No, sir, I did not know positively.

Q. Have you heard any thing about it?

A. Yes, sir.

Q. From whom?

A. We talked it over at the meeting of the finance committee.

Q. Who is "we"?

A. Myself, Mr. Gawtry, Mr. Pyne—Mr. Day was absent; we didn't recommend any dividend.

Q. When was that?

A. It was at a finance committee a week ago last Monday, I think.

Q. Why didn't you recommend any dividend?

A. The finance committee have never recommended a dividend; they examine the thing and refer the whole thing to the board of directors.

Q. Is it not a fact that you never made any report on the subject whatever to the board of directors?

A. I don't think we did.

Q. Is it not a fact that you didn't formally refer it to the board of directors?

A. I don't think we put it in writing; no, sir, we did not.

Q. Was there any difference of opinion in the finance committee as to whether the dividend of December should be declared or not?

A. I don't think there was any talk much about it; we merely took it up and wanted to know whether they would declare a dividend.

Q. Did they have any statement of the earnings before them?

A. Yes, sir.

Q. Any other statement except the balance sheet of October 31st?

A. I think not; we examined the bills, etc., and compared them with the book accounts. 9138

Q. What has that got to do with the dividend?

A. Nothing, only to see whether we earned it or not; the finance committee is supposed to examine every thing.

Q. You did not, did you?

A. We spent a day and a half there.

Q. State specifically what books and papers you examined?

A. I did not myself; I had the list of bills and called them off; I examined no book myself; Mr. Pyne and others had the books.

Q. During the year has it been the custom to submit lists of all the bills to the finance committee?

A. Yes, sir.

Q. Who compared those lists of bills?

A. I don't know; the copy was before us and the bills all there; who the clerk was who wrote them up I never asked.

Q. Was it done under the direction of the secretary or treasurer?

A. I don't know; the secretary was there.

Q. The secretary had the list and had the bills?

A. Yes, sir; it was on loose paper or law paper, or something of that kind.

Q. Giving the names?

A. Yes, sir.

Q. And what they were for?

A. Yes, sir.

Q. Did you have such list before you in every meeting of the finance committee?

A. Yes, sir, all that I have ever been to; I have been absent most of the time in the country.

Q. Is there any book in which those lists appear?

A. Not to my knowledge.

Q. Were not those lists prepared every month?

A. I think so, every month.

Q. Were they known as monthly lists of bills?

A. Well, I suppose so; I took them to be such.

9139 Q. When was the first one, in January or earlier?

A. I was not here at the first meeting; I don't think I have been to more than two or three finance committee meetings; the first was some time last summer, I think.

Q. Were such lists then presented?

A. The sheets of paper with memorandums upon them.

Q. Did the finance committee audit all these bills on those lists, or only a part of them?

A. These bills are mostly paid before they come to the finance committee; bills for labor and all that sort of thing have to be paid every week, I think.

Q. How about supplies?

A The same, I think.

Q. Including coal?

A. Yes, sir.

Q. Who are the parties of whom any coal has been purchased during this year?

A. I don't remember the names of those coal companies.

Q. At a uniform price?

A. Yes, sir; I don't remember the price now.

Q. Was it always uniform?

A. I think so, yes, sir.

Q. Had you any opinion yourself as to whether the dividend should or should not be declared?

A. Yes, sir.

Q. On what was your opinion based?

A. On the earnings.

Q. Where did you get your information?

A. From the balance sheet, or papers that were presented to us there.

Q. You have not stated that any paper was presented to you on that subject except the balance sheet of October 31st. You formed your opinion on that?

A. Yes, sir.

Q. What was your opinion?

A. That we could pay a dividend.

Q. To what amount?

A. Three or three and a half per cent.

9140 Q. Based on earnings?

A. Yes, sir.

Q. Are you not aware that that sheet exhibits earnings only of $400,000 during that six months?

A. I don't remember what the sheet shows.

Q. Have you any recollection about it?

A. No, sir; I did not charge my memory with it at all.

Q. And yet you based your judgment on that balance sheet?

A. Yes, sir; with some other things that Mr. Smith told us.

Q. What did he tell you?

A. I don't remember what he told us the earnings were.

Q. You cannot tell us anything more than you have on what you based your judgment that a dividend was proper?

A. No, sir.

Q. In order to pay a dividend of three and a half per cent. on what did you found an opinion that it could be paid without intruding upon the working capital or borrowing funds?

A. I could not tell you what it was unless I could have papers to examine.

Q. Did Mr. Smith make any statement whatever in respect to earnings?

A. Yes, sir.

Q. In addition to the balance sheet which was before you?

A. I am not positive, but I think he did.

Q. And you have no recollection what that statement in substance was?

A. No, sir.

(By the CHAIRMAN:)

Q. He is not sure that there was any made?

A. I am not positive that there was.

Q. You were connected with the Metropolitan Company so long we should like to have your opinion as to advantages first to the public, the customers of the Metropolitan, and second to the shareholders of this consolidation; please tell what advantage, if there was any, ensuing to the customers of the Metropolitan Company or calculated to follow as the result of consolidation? 9141

A. We thought that the gas could be made cheaper if it was all under one head; we thought we could sell it cheaper.

Q. Was there any advantage to the shareholders?

A. We never thought it would be any advantage to the Metropolitan shareholders; that is, some of the directors did not; I did not for one.

Q. Was it the idea of consolidation if gas could be supplied cheaper to consumers that there should be any diminution in the advantages to the shareholders?

A. No, sir; I don't know; the most of our shareholders were in favor of consolidation; I don't know what their ideas were.

Q. You expected the same advantages as the other shareholders?

A. Well, I was in hopes to get the same advantages.

Q. The consolidation would not have been entered into by the shareholders of the Metropolitan except in that expectation?

A. No, sir; it would not have been entered into at all by me; I was opposed to consolidation, although the majority of them requested it and I went along with them.

Q. The stock of the Metropolitan appears to have been exchanged for stock of the Consolidated at 260?

A. About that.

Q. Was not that less than the debt?

A. No, that was the exact amount.

Q. For 100 of the Metropolitan you got 260 shares of the Consolidated stock?

A. Yes, sir.

Q. With Metropolitan stock at 260 and Consolidated stock at 84, which was the price when the exchange was actually effected, what was the advantage to your stockholders?

A. I could not see any; still they requested it and they got it.

Q. What was the last dividend declared by the Metropolitan?

9142 A. That I don't remember; that I would have to refer to the books for; I think five per cent.

Q. For what portion of the year?

A. I don't remember; the books will show.

Q. Don't you remember?

A. No, sir.

Q. If it was five per cent., was it for the whole or a part of the year?

A. A part; it strikes me it was for six months; the books show.

Q. Didn't you have regular times for declaring dividends?

A. We declared the dividends when we had the money; we used to declare it twice a year; some years we have not received a dividend.

Q. Will you say that your company has failed to declare a dividend in any year for the last thirty years?

A. Yes, sir.

Q. When?

A. In the early part of the company I held stock there for a long time before I ever got a dividend.

Q. How many years is it since you did not receive a dividend?

A. I could not say.

Q. In 1880 did you receive as shareholder of the Metropolitan a dividend of eighteen and seventy-eight one-hundredths per cent.?

A. I could not tell you without referring to the books.

Q. In 1883 did you receive twenty per cent.?

A. I could not tell you; I don't remember.

Q. Will you now say that you received less than that?

A. I could not tell you for my life what dividend I received in any one year.

Q. The books show you received twenty per cent.; if the books say a dividend of twenty per cent., that is correct?

A. Yes, sir.

Q. You would not be surprised if they showed that?

A. I would not.

Q. If the Metropolitan had sought to cheapen the price of gas they might have done it and thereby reduced their dividend 9143 far below twenty per cent. and yet have received a fair income from their investment, might they not?

A. That depends upon what you say is a fair income.

Q. Say yes or no to it?

A. It would reduce the dividend.

Q. If the Metropolitan had sought to cheapen the price of gas they might have done it and thereby reduced their dividend far below twenty per cent. and yet have received a fair income from their investment, might they not?

A. Not in my opinion.

Q. Then, in your judgment, the gas company ought to receive a dividend of twenty per cent.?

A. I think they had, with the risks they have to take.

Q. If the Consolidated chose such a rate to pay on their capitalization, say a dividend of twenty per cent., what, in your opinion, would the price of gas come to?

A. I don't know.

Q. It would have to be increased very greatly above its present price, would it not?

A. I think it would.

Q. It would be more than double to pay twenty per cent.?

A. I should think so.

Q. Then the gas consumers would have to pay a great deal more than they are now paying to give the company a fair investment?

A. They would, to pay twenty per cent.

Q. Is it your idea when the Consolidated Company only pays seven per cent., it does not pay a fair return on their investment?

A. If they could get it every year, I would be satisfied with it.

Q. Your theory would be to increase the price of gas twenty per cent., so that the company could receive such a dividend on the stock?

A. No, sir.

9144 Q. Is there any reason, in your opinion, why the large amount of property of the Consolidated Company should not be sold, and have so much of its capitalization reduced, and thus save dividend?

A. I never have given that a consideration; I don't know; if they could concentrate their works all in one place, as their works are now scattered as they are, it requires about all of them to do their business.

Q. In your opinion, as a director in the Metropolitan, could not the Metropolitan have furnished gas to its consumers cheaper to-day, without having entered into that consolidation, and yet have given a fair return on its stock?

A. No, sir; I think if the Consolidated is worked properly, and some of these works could be dispensed with, it could be made cheaper than with the individual gas companies, as is shown by the Harlem.

Q. Why should a dividend be paid on that property then from the price of gas?

A. We have the property, and it may be all necessary.

Q. If you could reduce the plant?

A. If we could concentrate it.

Q. That means reducing it?

A. If we could put it under one head.

Q. Would consolidation result in a reduction of the amount of plant required for the production and the distribution of gas?

A. If we could concentrate the works all in one place or two places they could be run for less money.

Q. Is it a matter of fact that consolidation will produce the legitimate result in reducing the amount of plant required for the manufacture and distribution of gas?

A. I think it will in time.

Q. Then would it not properly reduce the amount of capital to be employed in the business?

A. I don't know as it would.

Q. Is it not your opinion that it would?

A. No, sir.

9145 Q. You think it would not?

A. No, sir.

Q. Would the reduction of the plant cause an increase of the capital?

A. No, sir.

Q. You think it would not cause a reduction of the capital?

A. No, sir.

Q. As a matter of fact consolidation has resulted in more than doubling the capital, has it not?

A. Well, there is more capital.

Q. Is that right?

A. Yes, I think so.

Q. What was the objection, if any, that you have heard expressed to the proposed legislation recommended by the Senate Committee last year?

A. I heard no objections to it, sir.

Q. Don't you know there were objections expressed to that measure?

A. No, sir.

Q. Didn't you yourself ever make the remark that these interests had to be protected at Albany?

A. No, sir; I did not.

Q. Did you never hear of anybody say that the interests of the Consolidated Company had to be protected at Albany?

A. I heard Sherwood say so.

Q. Anybody besides Sherwood?

A. No, sir.

Q. Didn't you ever say to O'Connell that you had interests that you are accustomed to have protected at Albany?

A. No, sir; I don't know such a man.

Q Did you ever say to anybody that you had interests that were looked after at Albany?

A. No, sir.

Q. Do you know anything about it; did you ever hear anybody say any thing about protection of gas interests at Albany?

A. Yes, sir.

Q. Anybody besides Sherwood?

A. No, sir.

(By the CHAIRMAN:)

Q. Never heard the subject alluded to by anybody except him?

A. No, sir; I may have heard people talk around at the
9146 hotel; I have often heard people say to me "Go up to Albany
with your boodle," that was a mere matter of joke; I don't
suppose they seriously meant any thing of the kind, sir.

Q. That was not the way you were in the habit of doing it?

A. Not my way of doing business.

Q. Did you ever say to any of the stockholders that the company expected or its friends expected to send money to Albany every little while and expected that you would have to do so again?

A. I have no recollection of saying so; I don't know that there was any money sent to Albany.

Q. Whether you ever made such a statement to any stockholder?

A. No, sir; I have no such recollection that I ever did make any such remark; or of talking with a stockholder about it.

Q. I understand you to say that people occasionally spoke to you in a joking way about taking boodle up to Albany?

A. Yes, sir.

Q. For the purpose of bribing legislators?

A. I suppose so.

Q. Whether in your opinion it is a joking matter and whether you think the law is right that pronounces bribery a crime on the part of him who offers and him who takes it?

A. I do.

Q. Do you think it is a very serious crime?

A. I do.

Q. Do you regard it as a very serious crime and that the man who commits it commits a felony?

A. I do.

By Mr. Tremain:

Mr. James W. Smith, the treasurer of the Consolidated Company, produces to the chairman the original lists of shareholders of the constitutent companies, viz., of the New York, Manhattan, Metropolitan, Municipal, Knickerbocker and Harlem.

9147 John H. Moss, a witness called by the counsel to the committee, being duly sworn, testified as follows:

Examined by Mr. Tremain:

Q. You was an officer of the Harlem?

A. I was a manager and a director.

Q. You were in charge of the Harlem station?

A. Yes, sir.

Q. And in the employ of the Consolidated Company?

A. Yes, sir.

Q. That employment was arranged for at the time of the consolidation?

A. It was not; I have not received any special appointment; I have continued as I under-tand it.

Q. Did you have a contract with the Harlem?

A. No, sir.

Q. You are its practical manager at the works and of its business generally?

A. Of the office and of the distribution of gas.

Q. You continue to perform the same duties now that you did prior to the consolidation of the Harlem?

A. With the exception of the works I do; those having been discontinued, I have nothing to do with them.

Q. What date were those discontinued?

A. I think early in March last.

Q. Since that time have they produced any gas at all?

A. No, sir; a portion of the plant is now being used—the holders.

Q. The gas being brought there from where?

A. The Ninety-ninth street station.

Q. Is it the old Knickerbocker works?

A. Yes, sir.

Q. No other part of the plant is being used?

A. Well, we use the engine and boiler and some pumps that are requisite in keeping the tanks filled with water.

9148 Q. You use the mains and services of the old Knickerbocker?

A. Yes, sir.

Q. And meters?

A. Yes, sir.

Q. How long have you been connected with the Harlem?

A. Since the latter part of June, 1879.

Q. What was the condition of their works at that time?

A. Very dilapidated.

Q. Were they producing gas?

A. Yes, sir.

Q. About what quantity?

A. About five or six hundred thousand feet a day at that time; their capacity was one million feet a day.

Q. In their condition at that time, was that their actual capacity?

A. Yes, sir; they could not have produced any more at that time.

Q. When were they increased to a larger capacity?

A. There was a gradual increase; it was a matter of necessity; the growth of the district required a gradual increase.

Q. Have they bought anv more lots?

A. Not since that date.

Q. The increase has taken place on the same lots?

A. Yes, sir.

Q. By construction of plants there?

A. Yes, sir.

Q. Have those lots been filled in?

A. The original property has been filled in east of First avenue.

Q. The expense of that filling in?

A. I had no connection with the company at the time they were filled in; they were filled in from First avenue east to the bulkhead, which is now about 100 feet east of the line of Avenue A; this is based upon my recollection of the formation of the country there, the marsh.

Q. Please state about the distance between First avenue and Avenue A?

A. Well, it is 650 feet about; it may vary a few feet; some of the blocks are longer than others.

9149 Q. These works the land extends from—give the outside boundaries?

A. Near Second avenue the line is shorter on One Hundred and Tenth street than it is on One Hundred and Eleventh; on One Hundred and Eleventh it is about two hundred feet east of Second avenue; on the south by One Hundred and Tenth street; on the west by this gore line east of Second avenue; on the north by One Hundred and Eleventh street, and on the east by the East river; there is other property there, but none on the water.

Q. The other property is bounded how?

A. On the north by One Hundred and Eleventh street, with a gore line running through to One Hundred and Twelfth street; a frontage there of about seventeen feet, and another line running back that is within seventy-five feet of One Hundred and Eleventh street, and then east to First avenue. And another piece, the western boundary is First avenue, the north boundary 175 feet about north of One Hundred and Eleventh street, and that line extends about 110 feet, I think, into the block; then there is a frontage on One Hundred and Twelfth street of fifty feet, and the line on One Hundred and Eleventh street is, I should think, about 300 feet—I am not sure of that line. That is as near as I can recollect, a description of the property of the works.

Q. This part, the first described plot, east of First avenue, that was filled in, it was filled in some years ago?

A. Before I went there.

Q. Do you know who did that?

A. Not to my knowledge.

Q. You have lived in New York long enough to be familiar with that locality, and to know how it was done?

A. Yes, sir; my information is that it was filled in by the gas company.

9150 Q. Was it all done before you went there?

A. Yes, sir.

Q. In what part of the records of the company would be found that expense?

A. It would be found only in the expense account.

Q. It would in the pay-rolls?

A. Yes, sir; it would be in the pay-rolls.

Q. And in the purchase of animals and carts and implements?

A. Yes, sir.

Q. You would probably find it in the construction account, would you not?

A. No, it is not in construction account.

Q. Charged up to expense account?

A. Charged up to expense account.

Q. Building the docks the same?

A. Well, the building of the docks was a special bargain; I think that is in the construction account.

Q. Did you have any thing to do in keeping these accounts?

A. I did not.

Q. Who did?

A. Well, I was one of the committee on accounts while I was there; it was my business to examine the accounts, to see that every thing was correct.

Q. Who was president of the company when you first came there?

A. Mr. Wakeman.

Q. In the construction account were the mains, meters, services and pipes included?

A. Not all. In the construction account, after 1879, the mains were included, and I think a portion of the meters; the services were not, the meters were continued in the construction account.

Q. Did you have a general construction account?

A. There was one.

Q. Did that include all the work done on the property?

A. It depended upon the character of the work.

9151 Q. Such work as filling in the bulk-heads—was it charged to expense account?

A. Yes, sir.

Q. The buildings and retorts were charged to construction account?

A. The original were.

Q. Were any salaries placed in construction account?

A. I think they were all taken out.

Q. When were they taken out?

A. I am not sure of the year; I think it was in 1883.

Q. Do you remember being paid for patents and royalties?

A. Not since I have been there; there was a charge in there.

Q. Do you notice the charge of $12,450 in 1876 for patent?

A. Before I went there there had been some used, as for instance, manufacturing illuminating gas with oil or naphtha.

Q. Who first said any thing to you about valuing the property for consolidation?

A. I have no recollection who it was said it first to me. It fell to my lot from my position. I was a committee of one to represent the Harlem Company in carrying out the agreement.

Q. In 1884 you was on the pooling committee?

A. I was a member of the pooling committee.

Q. When did you first prepare a schedule of the properties of the Harlem, with a view to consolidation?

A. I think it was early in 1884.

Q. Wasn't it in 1883?

A. No, I think not.

Q. Do you remember a resolution of the pooling committee directing the employment of counsel to carry out the plan which was passed in December, 1883?

A. I have no special recollection of such a resolution.

Q. Do you not remember that the capital was a subject matter of consideration during the year 1883? I will refresh your recollection by referring you to an extract from the minutes.

9152 A. You are fixing the time; I cannot say. I say early in 1884 is the first I recollect.

Q. Pages 111 and 112 of the testimony of last year?

(Pages 111 and 112 of last year presented to witness.)

A. If that is a copy of the minutes, it was then, at that time it was done.

Q. Isn't it your best recollection that the subject of capital for the proposed consideration was considered in 1883?

A. That is a question that I do not know as I can answer yes or no. The question of capital was considered at various times; that is all I can remember.

Q. These minutes would indicate it was considered prior to December, 1883?

A. Yes, sir.

Q. But I want the direct testimony whether it was or not?

A. I cannot fix the exact time when that subject was first considered.

Q. The witness says according to his best recollection the capital for the proposed consolidation was considered prior to December, 1883. Do you remember when the proposed capital of $45,000,000, was first suggested?

A. No, I do not.

Q. When you first prepared your schedules of the Harlem properties were values appended to those schedules?

A. Yes, sir.

Q. What did you do with those schedules, those originals?

A. I think they are in the possession of the Consolidated Gas Company.

Q. Are those the identical ones that were submitted finally when the agreements were signed?

A. That is the only schedule I made of it.

Q. Did you have more than one?

A. No, sir.

Q. Were the values always the same from the time they were first fixed by you?

9153 A. From the time they were first approved of by the Committee.

Q. Are those values that you put down the actual values that were finally accepted?

A. Yes, sir, to the best of my recollection.

Q. Who, with you, appraised the property of the Harlem Company?

A. I had the advice of an engineer, Mr. Belmore, in reference to the property; that was based upon the actual cost of the work which was then in construction and not yet completed.

Q. The valuation was made on the basis that it was to be completed?

A. Yes, sir.

Q. Were there no assets of the Harlem Company retained and distributed among its shareholders?

A. Yes, sir.

Q. To what extent?

A. I think it was one and a half per cent.

Q. On what?

A. The capital of two million dollars.

Q. Was this paper marked "Exhibit F" the schedule you alluded to?

A. Yes, sir.

Q. Was there any other?

A. No other except a copy of that which I have on file at the office.

Q. What was this prepared for, dated November 10, 1884 (paper presented witness)?

A. This is the adjustment of the cash assets after consolidation agreement; it left us the coal and gas on hand; the gas we had sold and various other things that could not enter into the original agreement; the schedule is what we call the cash assets.

Q. Were those cash assets turned over to the Consolidated Company?

A. Yes, sir.

Q. Stock was issued to them in addition to the stock apportioned at the rates named in the consolidation?

A. No, sir; the Consolidated Company paid cash for that property or its equivalent.

9154 Q. Then, in addition to the stock of the Consolidated Company, apportioned among the stock-holders of the Harlem Company, the Consolidated Company paid cash to the Harlem Company for distribution among the Harlem stockholders the sum shown here in this paper?

A. I couldn't tell without seeing it.

Q. We want to know what the amount was?

A. They assumed certain liabilities which were deducted from this, if I remember rightly.

Q. This paper may refresh your recollection?

A. That embraces the cash liabilities.

Q. And are they shown by this paper marked "Exhibit J"?

A. Yes, this shows what the Harlem Gas-light Company owed payable in cash at the time.

Q. That paper, marked "Exhibit J," showing the statement of indebtedness of the Harlem Company, exhibits, does it not, the amount of indebtedness that was assumed by the Consolidated Company to be set over against the cash assets shown by this inventory, which foots up $162,126.24?

A. Yes, sir.

Q. So that setting off the indebtedness shown by "Exhibit J," amounting to $86,379.65, there must appear that there has been paid by the Consolidated Company in cash for distribution among the Harlem stockholders the sum of $75,746.59, is that correct?

A. The question is not correct; it was not paid over for that purpose.

Q. If that is not correct, state what the fact is in respect to it?

A. It was paid over, for it was owing the Harlem Company for cash assets transferred to them, and not for distribution among the stockholders.

Q. Is it not the fact that that sum of $75,746.59 was paid over by the Consolidated Company to the Harlem Company, in 9155 addition to the stock that was distributed to the shareholders of the Harlem Company, at the rate of one hundred and forty-two shares of the Consolidated for one hundred shares of the Harlem?

A. To the best of my recollection, yes.

Q. Have those accounts been finally settled between the Harlem and the Consolidated Company?

A. As far as I know, they have; the payments were to be made almost immediately; the Consolidated made some of the payments for us.

Q. That did not affect the transaction?

A. Not at all; it was equivalent to paying the money over to us, if they paid our debts.

Q. Were you interested in any other company except the Harlem?

A. No, sir.

Q. Do you remember what the stock of the Harlem was worth at the time of consolidation or in the summer of 1884?

A. I heard of some being sold at 130.

Q. With stock of the Harlem Company at 130, and exchangeable, as it was exchanged for stock of the Consolidated Company at the rate of 142 shares of the Consolidated stock for 100 shares of the Harlem stock, and with the price of Consolidated stock as it was some time after the exchange, at about eighty-four, what was the advantage, if any, to the shareholders, in that transaction, in view of an arithmetical calculation showing the apparent loss of over $2,000?

A. There would be none; there would be an apparent loss of that.

Q. In what was the expected advantage to the shareholders of the Harlem Company in this achievement?

A. The expected advantage was to make the stock of more permanent value than the Harlem Gas-light Company's stock had been.

Q. Do you think that has been done?

A. I do.

9156 Q. In that respect, you think it has been advantageous?

A. I do, to the Harlem Gas-light Company.

Q. Does not that advantage depend upon the liability of the Consolidated Company to pay a dividend of say seven per cent. upon its stock as now issued?

A. Well, the answer to that question would be yes, although it was not at the time—the question was not raised in the Harlem Company at all.

Q. Are you not aware that the ability of the Consolidated Company to pay seven per cent. on its present capitalization depends upon keeping the price of gas at something not less than its present figures?

A. At the present time.

Q. Were you present when the last dividend was declared?

A. I have nothing to do with the Consolidated Gas Company other than I have stated. If I may be allowed in reference to that question about the dividend, I would like to state that the Harlem Company could not make any dividend at all at 1.75; consequently their benefit is different from that of any other company.

Q. That is caused by the expensive system of distribution that that territory necessitates?

A. Yes, sir, and the necessity of lighting the city lamps which is one-third of the business.

Q. There was a great waste in lighting the city lamps?

A. Yes, sir; there is an extraordinary leakage occasioned by the new streets and building new buildings with the connection of the street sewers undermining our mains. Filling in breaks them off.

Q. For the $2,000,000 of capital stock of the Harlem Company, there was allowed $2,840,000 par value shares of the Consolidated Company?

A. Yes, sir.

9157 Q. Who appraised the real estate of the Harlem?

A. That was done between myself and the vice-president.

Q. Mr. Rodman and yourself?

A. Yes, sir; the values were based upon the price asked for certain property in our neighborhood at that time.

Q. Were you aware at the time of the cost of that real estate to the Harlem Company?

A. Well, no, I have never figured up the cost.

Q. You was aware that all expenses of taxes and assessments were charged to expense account, were you not?

A. Yes.

Q. They were all paid from earnings?

A. Yes, sir; they were paid from earnings.

Q. It is observed that the books of the company show the cost of the real estate to have been $159,000 in round figures and that expenses of taxes, assessments, etc., were paid as you state?

A. Yes, sir.

Q. Your valuation seems to have placed the real estate at $704,000.

A. Yes, sir; that covers quite a number of years, and great changes in property and in the valuation of property in that neighborhood.

Q. With that exception, is there any other substantial item in the appraisement of the properties of the Harlem Company in excess of the cost of such property as it stands upon the books of the company?

A. I think not; it was not intended to be. I have an impression that a portion of the plant is valued less than it cost.

Q. It ought to be?

A. I think not as long as it is maintained in working order.

Q. It is maintained in working order by adding to it from time to time?

A. Not that I refer to.

Q. Yearly expense?

A. Yearly expense to preserve it, but not added to it. The holders are in good condition, just as good as new.

9158 Q. All the plant, as a matter of fact, it has required a yearly expenditure?

A. Precisely.

Q. Is there any fair depreciation to be written off, year by year, in estimating profits?

A. I think not.

Q. Why not?

A. I am speaking in reference now to our company, that the repairs were made in the expense account; the maintenance of work.

Q. The reason you think there should be no depreciation written off is because it has kept up the repairs?

A. Yes, sir.

Q. Does that amount to the same thing?

A. It is equivalent to it.

Q. In any case, the expenditure is written off as it is made?

A. Yes, sir; and charged as an expense.

Q. What is, in your experience, a fair average of depreciation?

A. I could not say, because the expense varied with various years; my experience is too short to tell; the works have been brought up from one million cubic feet to two million since I have been there, and the greater part of that expense has been charged to expense account.

Q. Assuming the works to be in fair running order, I understand, it costs some amount to keep them so?

A. Certainly.

Q. What would be a fair average per year, in a series of years, per cent.?

A. I could not tell that.

Q. As a man of experience in gas manufacture, would you not say that some per cent. should do?

A. Not if it was carried on as we carry on ours; for we charge them all to expense account, as we go along.

Q. If you should do that, do you not think that the amount of expense during a given time, would, in due season, equal the original cost?

9159 A. Yes, sir; but in one instance you take the expense out of the earnings, and in the other you would be knocking it off the value of the property.

Q. You are engaged in increasing your capacity all the time?

A. Yes, sir.

Q. And that is the reason you do not feel like expressing your opinion?

A. I never figured it up; I could not give an opinion without having made a calculation.

Q. Don't you know about what percentage of expense has attended the maintenance of your works?

A. No, I don't.

Q. Did you receive any grants from the Sinking Fund Commissioners of the city for land under water?

A. I could not tell you, the property was all acquired before I was there; I understand there was a purchase of certain rights; I think there was a deed showing that.

Q. That would appear in the cost of real estate on the books?

A. It ought to.

Q. That grant was for one dollar from the city, wasn't it?

A. I don't know.

Q. Do you know of any contracts whatever, that the Harlem Company had, at the time of consolidation, with the city?

A. Contract for lighting the city lamps; that is the only one I recall.

Q. What other special privileges, if any, did the Harlem Company then enjoy?

A. Well, I don't know that they enjoyed that much as a privilege;

but they had the privilege of furnishing the city with gas when they wanted it.

Q. What other, if any?

A. That is all, except the right to do business in the city.

Q. That is to say, they had only such rights as the Legislature gave it?

A. Such as were conveyed in their charter; they had no special rights.

9160 Q. Do you know how this item, $469,000, in rights and franchise of the Harlem Company was arrived at?

A. It was upon the assumed valuation of all the rights and franchises of the company; and the right to sell gas in the city.

Q. How was that parcel *or* apportioned to the Harlem?

A. Because of their right to sell gas to the city.

Q. Their proportion of the difference between the total valuation of the properties of all the companies and the proportion of capitalization?

A. Less a certain amount reserved for working capital.

Q. And that was apportioned to the Harlem Company, according to the amount of gas sold by them for a year or two previous?

A. The sales of a certain year was taken as a basis.

Q. From October, 1882, to 1883?

A. October, 1882, to October, 1883.

Q. During the years 1878, 1879 and 1880 was the Harlem Company subject to competition?

A. It was; the opposition did not begin until 1879.

Q. Then what was it?

A. The Knickerbocker Company began to make gas in that district and lay its mains in a portion of that same territory, and the price of gas was put down in 1878 first, and we had to put it lower; the competition caused it; we sold it as low as 125 to some parties and to 225 after the pool was made.

Q. You paid a dividend in 1882?

A. No, sir, not in 1882.

Q. The books show it?

A. Then we paid it in 1882 and 1883 if the books show it.

Q. They do; the pooling operation in 1880 resulted in increasing the price of gas in the city of New York?

A. Yes, sir; until that price was put up the Harlem Gas Light Company did not pay its expenses.

9161 (By the CHAIRMAN:)

Q. The pooling operation was entered into with a view to ultimate consolidation, was it not?

A. Yes, sir.

Q. In order to render the combination more permanent and effective—is that correct, more stable and effective?

A. I presume that was the reason.

Q. How did it happen that you did not certify, with your co-appraisers, the values of the Harlem properties; I find no certificate among the papers?

A. Well, I don't know; perhaps it was an inadvertence; there is a certificate on the cash assets.

Q. With the others?

A. I don't know.

Q. You say the Knickerbocker Company interfered with you by its competition in 1879?

A. Yes, sir.

Q. Do you not think that if the Knickerbocker had continued from that time on an active competitor instead of becoming absorbed by the Municipal, as it was absorbed and the pooling combination formed, that the price of gas to consumers would have been below its present figure?

A. I do not.

Q. Why not?

A. I am answering now for our district; I cannot say for anybody else.

Q. What territory do your mains cover?

A. North of Seventy-ninth street, from there to King's bridge; not all of the territory is piped.

Q. How much is not piped?

A. I think very nearly one-half; the streets are not opened yet; six to seven miles of mains we are laying every year, we are laying nearly one mile a month since the first of May.

Q. Are half of the streets that are opened piped?

A. Nearly all the streets except those that have been opened for the last year or two.

Q. All that has been done from earnings?

A. No, sir, that has been done from capital stock.

9162 Q. Do you know how much cash capital was paid in?

A. No, I could not answer that question; I presume a greater part of it is cash capital.

Q. Do you know how much money was received for bonds?

A. The books say $170,000.

Q. Was all the money that the books show to have been received for bonds actually received?

A. I think the books show that.

Q. Was that during your management?

A. No, sir, before; I think the books show that the money was actually received from the bonds.

Q. All those bonds held by one person?

A. No, sir.

Q. Do you know who held them?

A. Held among various parties.

Q. The company paid interest on these bonds up to the time of consolidation?

A. Yes, sir.

Q. And charged that to expense account?

A. Yes, sir.

Q. And the consolidation has since taken them up?

A. Yes, sir.

Q. They had reserved stock enough to do that?

A. Yes, sir.

Q. Do you know who had the sale of that stock thus reserved for that purpose?

A. The Consolidated Gas Company.

Q. Do you know to whom that stock was sold?

A. No, sir; I do not know that it was sold.

Q. You know nothing more about the payments of the capital and its expenditure except as the books show?

A. That is all.

Q. And the expenditure for mains, construction and plant and other outlays were made from the sources of capital stock or from loans or from earnings?

A. Yes, sir; only three sources.

James W. Smith, being duly recalled, testified as follows:

9163 Examined by Mr. Tremain:

Q. It has been testified here that at the meeting of the directors of the Consolidated Company, on the 25th of November, a dividend was declared upon your statement that the company had earned it; you made an oral statement to the board of directors upon that occasion. What did you say?

A. I did to that effect. I said that the earnings of the company would warrant a dividend of three and a half per cent. payable on the 15th of December, which was six months from the last dividend.

Q. What else did you say upon that subject?

A. I think that was all, sir.

Q. Did you make any statement of figures whatever?

A. No, sir.

Q. On what did you base your statement?

A. Upon my knowledge of the business.

Q. I call your attention to the balance sheet dated October 31, 1885, and to the appearances thereby indicated that during the period from June 1st since the payment of the last dividend the earnings appear to have been $426,094.87, and that the amount paid in satisfaction of the former dividend appears to have been $1,240,000. Was anything said on either of those items at that meeting by anybody?

A. No, sir.

Q. In view of the fact that it takes over a million of dollars to pay such a dividend of three and a half per cent., and that the earnings up to October 31st appear to have been only $426,094.87, how was the dividend from earnings?

A. At the time you speak of, starting from the earnings, there was a surplus of earnings represented to the credit of profit and loss.

Q. That amount appears on this balance sheet to have been $594,539.08?

A. Yes, sir.

9164 Q. Even considering that amount thus carried over those six months as earnings, the total would be $1,020,632.95, which is less than the amount required to pay the last dividend, which was at the same rate; explain, then, how it was that the company had earned a dividend?

A. Because the balance sheet, which you have mentioned as of October 31st, showed the earnings of the company up to the 20th of October only, and in addition to which they show the total expenditures to which could be fairly added the total amount of expenses of all kinds, of material and everything, between the 20th of October and the 31st of October, because they are charged up as against the cost of gas production and distribution, thus leaving the unindexed gas sold between the 20th of October and the 31st of October as the total profit, as against which there is no charge to be made; in addition to which the amount of profit during the heaviest portion of the year, when our heaviest business is being done, from the 1st of November to the 24th of November inclusive; and, in addition to which, the amount of profit during the period between the 24th of November and the 15th of December, which is six months' dividend at the end of the year; all of which led me to believe, and which I know, amounts to a considerable in excess of the dividends to be declared.

Q. That is, those several items that you have just enumerated were estimated by you as capable of admitting a dividend based on estimated profit, provided that dividends should not be paid upon the 15th of December—is that what you mean?

A. As far as it goes; I had within my absolute knowledge that the earnings on the 24th of November exceeded the sum required to pay three and a half per cent. dividend.

9165 Q. In that estimate how much did it exceed?

A. Up to what point?

Q. The date of the declaration.

A. About $315,000.

Q. When was it expected that such a sum would be realized—this excess?

A. What sum?

Q. The sum necessary to pay.

A. It had been already realized, as I stated, at that time, or nearly so. It would be realized long before the payment of the dividend.

Q. Not more than a few days before, would it?

A. I think so; yes, sir, probably not realized.

Q. In that estimate that you have just given, how much, if any, is allowed for depreciation?

A. The entire depreciation during that time.

Q. You mean to say all that you have actually expended to keep the works up?

A. Yes, sir; that is the amount of depreciation.

Q. But nothing else?

A. Nothing else.

Q. Are you not aware that there was not thus written off for depreciation and repairs from June 30th, to October 31st, any larger sum than $110,000?

A. If that appears to be the amount on the balance sheet, I was aware of it.

Q. It appears on this balance sheet that there was such depreciation between November 11, 1884, and June 30, 1885, of $216,000; and from June 30, 1885, to October 31, 1885, $110,000, making a total of $326,000 for that appearing. Is it a fact that no farther or other sum, in your judgment, in the conduct of the business is necessary to be expended during the ensuing year than another $326,000?

A. I think that might safely be taken as a basis of judgment; it might be more and it might be less, for the sum required.

9166 Q. In your opinion, is that a proper allowance for depreciation and repairs on a gas plant, costing or valued at $12,000,000?

A. I think I should estimate it more to be on the safe side if I was required to estimate it.

Recess until 3 o'clock.

THURSDAY, 3 P. M.

Hearing resumed.

J. YALDEN, being recalled, testified as follows:

Examined by Mr. TREMAIN:

Q. You have had some experience, have you not, in the matter of accounts and arriving at what are, in fact, profits and losses and capital as shown by accounts?

A. I have.

Q. Please state whether you have had experience, and if so, of what character in relation to the proper charges to be made by way of expense or towards depreciation of capital invested in a plant, in a working concern, and whether your experience is of a character to enable you to form an opinion as to what are proper items of expense, or what is a proper amount of depreciation, if any, to be accorded to capital invested in a plant, for the purpose of producing and supplying gas?

A. Well, in the case of a gas company generally, gas companies, as a rule, are so large that it is not always necessary or advisable with regard to the question of writing off an amount for depreciation, if more than that depreciation is equivalent to the average life of the plant; and if the average amount of expense required to repair the plant is equivalent to such depreciation each year, and is charged to expense account, there is no object in charging a stipulated sum to expense for depreciation but in the case of a company where the wear and tear is not evenly distributed yearly, it is proper that 9167 an amount should be reserved by writing against expenses equivalent to the average wear and tear and the amount expended for repairs, and permanent expense should be charged against it; for if there is any balance in one year, of course, it will be expended the next or the year after; for instance, if the average wear and tear is twelve and a half per cent., and if less amount than that is expended in any year, it is bound to be expended in the subsequent year or years, and at the end of the term, say eight years, being twelve and a half per cent., it will be found that the amount expended for repairs, etc., making the works as good as new, will be equal to the amount of their original cost.

Q. That is, assuming eight years to be the life of a plant?

A. Yes, sir.

(By Senator ROBINSON:)

Q. You say twelve and a half per cent.?

A. I think if the works are substantially put up, twelve and a half to fifteen per cent. should be a fair depreciation.

Q. What have you found to have been the practice in these respects in general, in the accounts of the several gas companies now under investigation; I am asking for the character of the accounts which you have been examining in these companies?

A. In years gone by my memory serves me that my former statement of twelve and one-half to fifteen per cent. is a fair depreciation for a gas plant; but if you will look at my statement made last March, on page 58, you will notice that the seven companies expended for repairs to works and depreciation, in the year 1883, the sum of $740,683.26, and that in proportion to the cost of the plant, the actual cost, I mean, is about twelve and a-half per cent., or a little over.

9168 Q. You mean that that figure is about twelve and a-half per cent. of the cost of the plant?

A. To those seven companies, yes.

Q. That is to say, as found upon the books, in making the examination of those seven companies, concerning the business of one year, 1883, you found such an allowance?

A. Yes, sir, in all for the seven companies. I will demonstrate it by this Manhattan Company.

(By the CHAIRMAN:)

Q. The cost of repairs in any year, for one company, would not give any sufficient basis on which to form any calculation, would it?

A. Yes, sir; one gas plant wears out just as much as another.

Q. But not at some periods as much as others in the same plant; you would not have to repair as much the first year as the tenth?

A. No, sir; I have incorporated the seven companies. It would not be fair to take one company as against one plant.

Q. If you take seven companies at different times, your idea is it furnishes something?

A. Yes, sir; I will farther demonstrate it by pointing out to you with the Manhattan Company's plant in the ten years ending 1884, there was expended $1,626,247.56 for repairs to the works and depreciation. Now, the cost of the plant of the Manhattan Company upon which they have spent over $1,600,000, in ten years, was about $2,400,000.

Q. You think that illustrates what you were just stating?

A. When you come to consider the cost of meters I must correct that testimony. In this depreciation account, in lieu of one million six hundred and odd thousand dollars written off for the Manhattan, it should be in round figures $2,030,000, as against a plant costing $2,400,000.

9169 Q. Thus illustrating that in less than ten years a plant costs its value over again?

A. Yes, sir, in less than ten years.

Q. Now, in respect to this matter of expense or depreciation, tell the committee whether there is any recognized standard of principle by which such matters are conceded regular in professional circles?

A. Yes, sir, in this way; in the depreciation of the plant; in factories and manufacturing business generally, the calculation is invariably made upon the life of the plant, and the way that accounts of that nature are generally treated is to credit by charging the profit and loss such an amount as is equivalent to the amount standing to the debit or the cost of such plant; it would be in this way: that if the life of the plant is ten years, and it was stated it cost $200,000, the expense would be charged with $20,000, and reduce the cost of the plant on their books to $180,000; and it would follow on the next year the addition in the nature of a permanent improvement; and then at the subsequent year the ten per cent. of the balance then standing to the debit of the account would be written off and what remained would be the fair average value of the worth of the plant.

Q. Indicate to the committee some standard literature, if any there be, that establishes the principles you have stated?

A. There is a small book called "The Depreciation of Factories and their Values," by Matthewson, which treats very fully of the depreciation of factories and machinery and refers to gas companies.

Q. Do you know what the custom is in respect to the certification of capital, or certification for dividends in the companies that are engaged in supplying the city of London with gas?

A. Yes, sir.

9170 Q. Do they follow these principles?

A. Yes, sir.

Q. On such registered certification?

A. They do.

Q. The uses in that respect with regard to the capital and dividends?

A. It is regulated by law to the amount of what they are to spend in the formation of their companies; the plant, etc.; and no capital can be increased except by cash subscription. Before authority is given to increase that capital evidence must be shown that it is necessary to increase the plant and the business; and as to dividends, they are not allowed to be paid unless they are absolutely earned.

Q. In determining whether they are earned or not, is an account taken of the depreciation of the property?

A. Yes.

Q. How is that depreciation reckoned?

A. The depreciation is taken and written upon the principle I have before related.

Q. Is that ascertained and approved by an officer or officers charged with that duty?

A. Yes, sir; it is.

Q. State what the usage is in that respect under the law for the regulation of gas companies as conducted in the city of London, having special reference to the certification of capital and of dividends?

A. The certification for capital in this way; an increase of capital being applied for, it can only be done under an act of Parliament, and the committee on the bill must be satisfied that such a capital is required, and is necessary, and when it is granted the published balance sheets that are certified to must show conclusively that the money has been actually spent in the way that permission was given; the amounts are published half-yearly, and after being made up they are certified to by the president of the company and other 9171 responsible officers and the engineers; and lastly by the accountants who are the auditors, that the dividend has been fairly earned, and is proper to be paid.

Q. Firms are established for such service?

A. Yes, sir; there are recognized firms; the persons making these audits are the public accountants who are chartered by the government and belong to the Institute of Accountants in England.

Q. Then the law provides for the increase of capital both as to when it is necessary and proper, and as to the amount and as to its expenditure?

A. Yes, sir.

Q. And as to dividends, the law defines the basis on which it is to be declared?

A. Yes, sir.

Q. Which basis puts a limit upon it practically?

A. Certainly.

Q. Does that have any practical effect to prevent the watering of stock?

A. Certainly it does.

Q. Does it secure an actual capital as a basis upon which dividends can be declared?

A. Certainly, that was the intention of the act.

Q. So that the law puts a limitation upon the capital, its amount and upon the dividend, how declared and its amount?

A. With regard to the first three points, it does; and in the case of gas companies, it does; the gas company's stockholders, they are to have a dividend of ten per cent., a fixed dividend.

Q. Does that system protect the consumers against unreasonable and exorbitant charges?

A. Yes, sir.

Q. Is it your observation that it accomplishes the proposed end? Have you the means of knowing about that?

A. Yes, sir; I have been through it years ago; I remember the time that gas in London, before this consolidation took place, 9172 was something double the price it is to-day; before the consolidation of the companies in London took place, before this system obtained.

Q. This governmental supervision has, in effect, reduced the cost of gas very greatly?

A. Yes.

Q. It gives a reasonable profit upon a stable basis?

A. Yes.

Q. It makes profits both reasonable and stable?

A. Yes, certainly.

Q. You formerly lived on the other side, and did for many years?

A. Yes, sir.

Q. Have the several companies in London a limited territory of operation?

A. Yes, sir.

Q. A limited portion of the city?

A. Yes, there are only three of them in London.

Q. Each company secured in its own territory?

A. Yes; no two companies can lay pipes in the same streets, unless there is absolute demand for them.

Q. So that the effect of this governmental regulation, which has proved a security of operation, coincident with the consolidation thereby established, has been to reduce the profits of gas about forty per cent.?

A. Forty to forty-five per cent., and it is beneficial alike to stockholders as well as the consumers.

Q. Do you know what the usage naturally established is in respect to distributing dividends on capital, whether the distribution is made on all the capital that may be authorized, irrespective of whether it is in part raised or not, or whether the dividends are limited to the capital as actually raised and invested in property?

A. The formation of these companies is generally by a stock capital with borrowing powers, which means, that as against so much stock capital they can issue so many bonds at the cheapest rate of 9173 interest they can obtain money for; in the year 1883 the three companies of London had raised upon bonds about eight and a half million dollars, about forty per cent. of their total capital employed, which was subject to a certain rate of interest, less than what the stock of a shareholder received, which was a fixed charge, of course, against the property of the company—really a mortgage against the property of the company.

Q. It did not swell the capital at all?

A. No; it was capital raised by loans.

Q. The dividends are based upon capital?

A. Yes, sir; the ten per cent.

Q. The ordinary capital as used, is exclusive of these bonds?

A. Money derived from them; the operation of that is to reduce the price of gas; supposing the whole of the amount was subscribed for, the consumers would have to pay more for their gas if the whole capital employed was of stock capital at ten per cent., than they would naturally have to do if half the working capital is stock at ten per cent., and the other half loaned capital bearing four per cent. interest.

Q. I would like to know how these bonds were discharged, whether out of earnings?

A. No; they are renewed again; they are generally sold at a premium, and in one case here, where the bonds sold at a rate of interest of four to seven per cent., they realized a premium of about $860,000, which the law compels to be spent in building the works and plant.

Q. Does this power of affecting loans on bonds result in reducing the amount of stock capital in works on which stock capital the dividend is based?

A. It does not result in reducing the amount of capital, used in building the works, but it operates in reducing the interest paid on the whole of the capital.

9174 Q. With this loaning power, can they have a smaller stock capital than they can have without it?

A. Yes, sir.

Q. Does this power of affecting loans on bonds result in reducing the amount of stock capital in works on which stock capital the dividend is based?

A. Certainly.

Q. Now, have you made an examination of the balance sheet of October 31 of the Consolidated Company and of the balance sheet immediately preceding the first dividend of that company, with a view of ascertaining what, in fact, are the profits of that company during its first year of operation?

A. Yes, sir; I have examined the balance sheet to the 31st of October last.

Q. It has been stated here to-day by the treasurer of that company that the figures as they appear on those balance sheets, in his opinion, as reported to the board of directors there was earned a seven per cent. dividend on the capital of the Consolidated Company so far as its stock has been issued up to December, 1885; what is your opinion on that subject from an examination of those sheets?

A. Well, upon paper, I think upon examination of the books, as these papers state it, I think the seven per cent. has been earned; but there is this question in my mind, whether an amount charged off for repairs has any thing at all to do about the average depreciation of the plant.

—. What is the amount charged off for depreciation and repairs?

A. Three hundred and twenty-six thousand dollars to October 31; $216,000 for the first seven and one-half, and $110,000 for the last four months.

Q. Have they written off and made allowance for a sufficient amount of depreciation?

A. No, in my own opinion, they have not.

9175 Q. What per cent. have they written off—you have stated it should be from twelve and a half to fifteen per cent.?

A. Well, for the period, which is eleven and a half months, two and two-thirds per cent. on the value of their plant, as it stands in the Consolidated Company's books, according to their own appraisement; that is not the cost according to their appraisement of the values; they have depreciated instead of appreciated, only spent for the first eleven and a half months about two and two-thirds per cent.

Q. If that is a correct appreciation, don't you think that plant must be much less than twelve million?

A. If they are right, I am wrong; that gives the life of the plant forty years.

Q. Have you any doubt of their having got the appraisal of the property too high, or their depreciation too small; it is one or the other?

A. Certainly, they have one too high or the other too low; even at this cost, that amount of money is not a fair depreciation.

Q. You have ascertained from the books the actual cost of that plant?

A. Yes, in every company; look at page 58 and you will see.

Q. What have you to say in respect to that depreciation of $326,000, in comparison with the depreciation that appears by the books of the same constituent companies for the year 1883 to have been, in total, $740,683?

A. It does not show the same appreciation, on comparison.

Q. State what it did show?

A. The year 1883 by the books of the companies, it cost the seven companies for repairs, $740,683, and the same companies incorporated under the consolidation company in the year 1884 have apparently spent only $326,000; but some allowance must be made in these figures for one or two of the works that are shut up, and then it will even show a very large difference. 9176

Q. Would it be any more than one-half of the actual depreciation, making that allowance for the year 1883?

A. No.

Q. It would be less than half?

A. Yes, I think it would.

Q. According to the balance sheet of October 31, 1885, is it not true that up to the dates therein expressed, the dividend of three and a half per cent., the dividend since June, had not been earned?

A. Certainly, if you consider this depreciation to be a fair charge, as I consider it should be.

Q. Your answers, as last above given, are based upon the trial balance dated October 31, 1885?

A. Yes, sir; they are.

Q. Before passing to another topic, I wish to recur a moment to an item in the capitalization of the Municipal alluded to in your testimony yesterday. Is it not the fact that of the increased capital of the Municipal from $2,000,000 to $3,000,000 there was issued stock of the par value of $350,000, namely 3,500 shares for which, in fact, no money was paid to the Municipal Company?

A. In fact, there was not. The Municipal Company paid $300,000 to the Bayard family for damages and $50,000 for the purchase of the Knickerbocker stock, while concurrent with it came back the same amount from the Bayard estate to the company for subscription to 3,500 shares.

Q. So that it is not the fact to state that $1,000,000 of that capital thus increased was paid up?

A. No, sir; it never enriched the coffers of the Municipal Company in any way.

Q. In fact, did it not deplete the Municipal Company to the extent of 3,500 shares?

A. Certainly it decreased their assets taking out of their 9177 surplus capital charged to profit and loss and they assumed a liability to the stockholders for it in return.

Q. So that while apparently in some of the books there was an increase of capital and of cash and an issue of stock represented, yet, in fact, there was an actual loss of money, was there not, from the Municipal Company, as the result of that transaction, of precisely $350,000.

A. No, there was no loss of money; the transaction had the effect of creating additional capital at their own expense.

Q. There was a loss of 3,500 shares and the assumption of the debt?

A. Yes, the Municipal Company paid for it in the shape of these damages in this action.

Q. Was that, in effect, an increase of the stock out of the proceeds of the earnings of the company?

A. Certainly; the depletion of the company's assets at the expense of increasing the liability of the stock holders.

Q. It increased the capital?

A. Yes, sir.

Q. Without increasing its assets?

A. It depleted the assets.

Q. So that, in effect, it was a depletion of the assets, and increase of the dividend capital?

A. Yes, it was taken out of their surplus and put into their capital stock; it was to the benefit of parties who took the 3,500 shares.

Q. The consumers paid for that capital?

A. Yes, they paid for it in damages.

Q. The consumers paid for that capital?

A. That was the effect of it.

The following is an abstract of the claim upon which this payment appears to have been based according to the papers already 9178 produced in evidence by Mr. Day, viz.: "Summons and complaint in this suit in Supreme Court by the Knickerbocker Company against the Municipal Company; summons dated August 23, 1879, and the answer served in October of that year."

Mr. Tremain: The counsel for the committee claims that upon the papers it does not appear there was any justifiable claim of any merit upon which the damages of $300,000 could in any point of view have been fairly awarded.

New York, *December* 12, 1885.

Under a resolution of the Committee at its last session, Senator Murphy was appointed a sub-committee to take testimony during the recess of the Committee, which adjourned to the call of the chair.

The sub-committee, consisting of Senator Murphy, convened at parlor D R, Fifth Avenue Hotel, New York city.

H. E. Tremain present as counsel for the Committee.

THOMAS K. LEES, a witness, being duly sworn, testified as follows:

Examined by Mr. TREMAIN:

Q. Where do you reside?

A. I reside at 67 Pineapple street, Brooklyn.

Q. And your present occupation?

A. I am vice-president of the Consolidated Gas Company.

Q. Prior to that time you were president of the New York Gaslight Company?

A. Yes, sir.

Q. Is your place of business at the office of the Consolidated Company in Irving place?

A. Yes, sir.

9179 Q. Are you there every day?

A. Most every day.

Q. Were you at the meeting of the board of directors on the 25th of November?

A. Yes, sir.

Q. And were you at the office the ensuing week?

A. Not all of it; no, sir.

Q. When did you receive the dispatch that your attendance was desired here?

A. I never have received any dispatch until I got the subpœna yesterday.

Q. Did you not know that your attendance was desired?

A. I did not know it.

Q. Were you not told in your office that word had been left for you at your office?

A. No, sir.

Q. You were a member of the pooling committee, were you not?

A. Yes, sir.

Q. And you were examined before the Senate Committee last year?

A. Yes, sir.

Q. You were not examined concerning the items of valuations in the capital of the Consolidated Company last year?

A. I don't remember what I was examined upon.

Q. Do you remember seeing the bill that was proposed by the Committee last spring?

A. I saw the bill; yes, sir.

Q. Did you have some conversation with your fellow directors, or any of them, about that bill?

A. Nothing special, that I remember.

Q. Well, did you have any conversation with them about that bill?

A. I could not say that I did or did not; it was a year ago; I have conversed on various subjects, every day almost; I can't remember them; it is very probable I did have.

Q. Did you express any opinion in respect to that bill?

A. I cannot tell you whether I had a conversation; I don't know whether I did or not.

9180 Q. When did the New York company first propose any list or schedule of its properties, with a view to consolidation?

A. I couldn't tell when it was; I don't know.

Q. When did you first do that?

A. I can't tell you what I did two years ago, or one year ago; it was some time prior to the consolidation; that is about all I can say.

Q. More than a year prior, was it not?

A. I would not say that it was; I don't know.

Q. Do you not remember that some memoranda of such property was prepared during the pooling committee?

A. No, I do not; I have no recollection of any thing being presented at the pooling committee on that subject.

Q. Were you not a member of the sub-committee of the pooling committee to consider that subject?

A. I don't know but I was; I don't remember a sub-committee on that subject; there may have been one; I cannot tell; I kept no memoranda of any thing.

Q. Is there anywhere in existence to-day any paper whatever, or book, containing lists of schedules of some or of all of the properties of the New York Gas-light Company, which was prepared by any of its officers or clerks or by any one else to your knowledge during the years 1880 and 1885?

A. A schedule of last year, 1884, on which the consolidation was perfected, I think is on file somewhere; I don't know where.

Q. Is that the only one you know of?

A. That is the only one I know of.

Q. Were there no papers on which that was prepared or based?

A. Memorandums, possibly.

Q. Whose memoranda?

A. Anybody's belonging to the committee; they made their own memorandums; papers laid on the table, and every member made figures.

9181 Q. Indicate any one of such memoranda relating to the New York properties?

A. I don't know of any existing.

Q. Do you mean to testify that any papers from which the schedules that were finally filed, as you narrate, were prepared, are not now in existence; is that your testimony?

A. I don't know of any.

Q. Have they been destroyed?

A. Not recently; if they ever existed, they were never perfected; like all memorandums, they were probably torn up and thrown into the waste basket, when they became useless.

Q. Is that your best recollection in respect to any memoranda of any kind on which those schedules of the New York properties were based?

A. I don't know of any memorandums on which they were based.

Q. Who first prepared, or caused to be prepared the schedule you speak of in respect to the properties of the New York Company?

A. I can't say; it is possible I did.

Q. Don't you know as a fact that it was prepared under your direction?

A. It is very possible; I don't know it as a fact.

Q. What clerk prepared it?

A. I can't tell you that any one prepared it; I may have prepared it myself; I don't know anything about it.

Q. Don't you remember that you prepared it yourself?

A. I think it is very possible that I presented a blank schedule, and when it became a part of the general schedule, the blank was of no use and was destroyed, so far as I know.

Q. Where did the material come from to enter into that schedule, where did you get it?

A. From the books of the company, digging it out—from the valuations; the books show, or at least I suppose that they do;
9182 I have not seen the books within two years; I don't know any thing about the contents of them, except a vague recollection; I should suppose, naturally, I would go to the books to get the base.

Q. Who was the chief book-keeper of the New York Company during 1883 and 1884?

A. Mr. Clark.

Q. What is his first name?

A. William J.

Q. Where is his place of business?

A. Number 157 Hester street.

Q. He is there every day, isn't he?

A. I presume he is.

Q. Isn't he under your orders?

A. No, sir; not under my orders.

Q. Hasn't he charge of that station?

A. No, sir; not specially; I have an oversight over it as I have over all of them.

Q. Are you not under contract with the Consolidated Company?

A. Contract for what?

Q. Any contract with the Consolidated Company?

A. Of the New York Company?

Q. Are you not under any contract?

A. Me, personally?

Q. Yes?

A. Yes, I have had a contract—not with the Consolidated; I had a contract with the New York Company.

Q. In writing?

A. No.

Q. By resolution of the board?

A. By resolution of the board.

Q. The substance of which was what?

A. That I should receive a salary of $10,000 a year for ten years.

Q. That resolution was passed in the fall of 1884, was it not?

A. Yes, sir, the fall of 1884.

Q. And that obligation was assumed by the Consolidated, was it not?

A. Yes, sir.

9183 Q. You are, therefore, under contract with the Consolidated, are you not?

A. You have got the facts.

Q. It is true that that obligation still exists by the consolidation?

A. Yes, sir; they assumed all the contracts of the New York Company.

Q. And you have not canceled that obligation?

A. No, sir.

By Senator MURPHY:

Q. In other words, you are still under contract with the New York Company, and because of the consolidation of the New York Company with the other, you were transferred as a portion of the stock; that is it?

A. Yes, sir.

Mr. TREMAIN: Yes, but the Consolidated Company is under an obligation to pay him $10,000 a year for ten years because of adopting the obligation of the resolution of the board of the New York Company.

Senator MURPHY: He became a portion of the property of the New York Company?

The WITNESS: Yes, one of the chattels.

By Mr. TREMAIN:

Q. Do you remember the date of that resolution?

A. No, I do not.

By Senator MURPHY:

Q. What were the conditions of your transfer to the Consolidated Company?

A. My personal transfer?

Q. Yes.

A. No conditions at all; all there was about it; by resolution of the board of directors of the New York Gas-light Company I was continued at a salary of $10,000 a year for ten years.

Q. For what purpose?

A. The consideration of twenty odd years of service—the company going out of existence at that time.

9184 By Mr. TREMAIN:

Q. Who is the manager of the New York branch of the Consolidated?

A. It has no manager.

Q. Who attends to the business of the Hester street office, at its head?

A. Mr. Doane.

Q. The full name?

A. George W. Doane.

Q. He was secretary of the New York Company?

A. He was treasurer of the New York Company.

Q. What was the date of the resolution of the New York Company?

A. I couldn't tell you, as I said before.

Q. Wasn't it in October, 1884?

A. I couldn't tell you whether it was September or October.

Q. Will you please get the resolution and send a copy of it here to put in your testimony?

A. I can get it.

Q. Did Mr. Doane prepare any schedule of the properties of the New York Company?

A. It is possible he may have done so.

Q. Don't you know whether he did or not?

A. I don't know whether he did or not.

Q. That there may be no mistake about your testimony, do I understand you to mean that, to the best of your recollection, there is no memoranda or paper of any kind whatever except in the regular books of account of the New York Company, showing any of the items of its properties set forth in the schedules on file with the Consolidated Company and utilized as its basis in part of capitalization or consolidation?

A. I don't know whether there is or not; I haven't any; that is all I can say to that.

Q. Is it the best of your recollection that no such papers were ever made or do now exist?

9185 A. I don't know of any existing; I don't know that any were ever made; I think it is likely they were made and destroyed at the time they became a part of the consolidation; that would be the natural course.

Q. In which of the constituent companies were you a stockholder?

A. In the New York.

Q. Only?

A. Only.

Q. Holding how many of its shares?

A. I don't remember how many I did hold at that time; some thing over one hundred, but I don't remember how many.

Q. You received Consolidated stock for it?

A. Yes, sir.

Q. Still hold it?

A. Still hold it.

Q. Do you hold any more than you then held?

A. Yes, sir; I have bought some since.

Q. Whom did you buy it of?

A. I cannot tell you; I bought it in the street; I bought it of any one that came along with it; I don't remember whom I bought it of.

Q. Did you buy it before April, 1885?

A. That I don't know; I don't know whether I did or not; I think likely I bought some before and some since.

Q. Did you ever sell any?

A. I never sell.

Q. Did you appraise yourself, any of the property of the New York Company in 1884?

A. I think I did.

Q. Who with you appraised any of it?

A. I couldn't tell; I made inquiries of one and another as to the values of some of the properties; not only my own but others.

Q. Did you appraise any of the real estate?

A. I made inquiries in regard to the value of real estate.

Q. Who appraised your plant if anybody?

A. I think Mr. Rowland appraised it; that is my recollection; either he did, or was consulted in regard to it.

9186 Q. Did you request him so to do?

A. Yes, I requested assistance from his office in regard to fixing the values of some of the mechanical parts of it.

Q. Didn't you request Mr. Rowland to make an appraisement of the plant of the New York Company?

A. It is very probable I did.

Q. Did you ever request him?

A. I can't say whether I requested him or whether I asked him to help me; I think he did make the appraisement; I am under the impression that he did make one.

Q. Who made the appraisement of your real estate?

A. I have already testified that I made pretty much all that myself, with such information as I could get.

Q. Who was it conducted the business in respect to fixing all the valuations that were fixed of the New York properties at the time of the consolidation; was it not yourself?

A. In regard to the values of all the New York property?

Q. Yes.

A. It is very probable I did.

Q. Isn't it your best recollection that the business was conducted under your direction?

A. Naturally it would be, as president of the company.

Q. And as a fact it was, wasn't it?

A. I don't know of anybody interfering with me in regard to it; at the same time I cannot state as a fact what occurred a year and a half ago; my memory is not good on time.

Q. Then your recollection is that this occurred a year and a half ago at least?

A. At least that; still it may have been a year and a half; it is now December; the consolidation was effected in November; that is thirteen months, and there were sixty days advertising; that carries it very near a year and a half, I guess.

9187 Q. The schedules were prepared early in the summer; were they not?

A. I am not aware of it.

Q. When were they prepared?

A. My impression is they were not prepared until the fall, after we came back from our summer vacations, all of us; that is my impression.

Q. When did you first hear the total capital proposed?

A. That I could not tell.

Q. Did you state to Mr. Rowland, or did you hear anybody say any thing to him on the subject of how he was to appraise the plant of the New York Company?

A. No, sir.

Q. Was it appraised regardless of its cost as it stood on the books?

A. So far as he was concerned, he never knew what it stood at on the books; that is, I cannot conceive how he would know.

Q. Do you know?

A. Do I know what?

Q. Do you know how it stood on the books?

A. No, sir; I couldn't tell now; I have no recollection of the figures.

Q. Did you ever have that ascertained as president of the company?

A. That I couldn't tell you; the valuation on the books, I knew, had nothing to do with the valuation of the property.

Q. What bulk-heads or piers, or water rights so-called, did the New York Company own in 1884?

A. They owned from center line of Twentieth street to the center line of Twenty-second street on the East river, excepting Twenty-first street; Twenty-first street being in between that, the city claimed as a roadway.

By Senator MURPHY:

Q. Half of each block and one entire one?

A. The whole of each front between Twentieth and Twenty-first and between Twenty-first and Twenty-second the property covered two entire blocks on the river.

9188 Q. I understand you to say half of one pier?

A. No, sir; from the center of Twentieth street.

Q. Does that center go down to the pier, or just the street?

A. There are no piers; we had the water-front.

Q. The bulk-head?

A. The bulk-head, the water-grant, out to Avenue C.

By Mr. TREMAIN:

Q. That property was acquired by the New York Company when?

A. I could not tell you; long before my time.

Q. A great many years ago?

A. I have been there twenty-four years, and it was before my time.

Q. Your earliest recollection fixes the water-front at what point, in respect to Avenue A or B?

A. Out to Avenue C; 1,000 feet out beyond where it is filled in now; or 600 feet.

Q. The line runs beyond Avenue C now?

A. Oh, no, sir; it only runs to Avenue B now.

Q. The land runs to Avenue B?

A. Yes, a part of Avenue B; Avenue B runs up to one portion of the property; and if continued would run out into the river again before it leaves us.

Q. Your earliest recollection fixes the land extremity at what point on Twenty-first and Twentieth and Twenty-second?

A. I cannot tell you; I cannot remember those figures.

Q. About what point?

A. I don't know how to get at it, how to describe it.

Q. How much has been filled in?

A. Within my recollection?

Q. Yes.

A. I don't know that any has, in my recollection.

Q. Well, has any?

A. I don't know that there has; I did not go up there in my early days; I only kept books in my early days.

9189 Q. To the best of your recollection, has any been filled in during your connection with the New York Company?

A. I couldn't say whether there was some filled in in the first part or not; I didn't go to the works; had no connection with them, and I didn't know what was being done there.

Q. Whatever was filled in was charged in the expense account to labor and materials, was it not?

A. It would have been charged, I should suppose, but I cannot tell you whether there was any filled in or not; if there was any filled in it naturally would be charged to labor; there would be no material.

Q. When was this water-grant, that you speak of, from the city made?

A. I have said it was so many years before my time I couldn't tell you.

Q. You did not state when the grant was made; you stated when it was filled in?

A. You just asked me when it was filled in.

Q. No; when was the water grant from the city made?

A. Made to us?

Q. Yes.

A. It was made years before I went there; I couldn't tell you when.

Q. You went there when?

A. The beginning of 1861.

Q. Nothing was paid for it, was there?

A. I can't tell what was done before I went there.

Q. Don't you know what the books show?

A. I never looked to see; I don't know anything about it; I only knew we were in possession of it.

Q. What was then the capital of the company?

A. At that time?

Q. Yes.

A. Seven hundred and fifty thousand dollars at that time.

Q. In 1861?

A. In 1861.

Q. Since that time the stockholders have not paid in any cash, have they?

A. No, sir.

9190 Q. The company was reorganized in 1871, was it not?

A. Eighteen hundred and seventy-one.

Q. Under the general laws?

A. The general laws of the State.

Q. The general gas-light laws?

A. Yes, sir.

Q. At that time a new capital was fixed for the new company, was it not?

A. It was organized with a new capital.

Q. Of $4,000,000?

A. Yes, sir.

Q. That capital was distributed among the stockholders of the old company?

A. *Pro rata.*

Q. At the rate of four shares for one, was it not?

A. Yes, sir; two shares of $100 for one of $50; being $4 of new capital, for $1 of old capital.

Q. Your shares were exchanged in the Consolidated Company at the proportion of 189 shares of Consolidated stock for 100 shares of New York stock, were they not?

A. Eighteen hundred and sixty-nine 6-10 I think was the proportion.

Q. What was the stock of the New York Company selling for in the summer of 1884?

A. That is a difficult thing to tell.

Q. Don't you know about?

A. No, I do not.

Q. Over 300, wasn't it?

A. Oh, no; if it had been I would have sold out and left it; it was 160 or 170; somewhere along there; 160, perhaps; I should think 160 was all it was worth, and all it would sell for at that time, on an average; Mr. Smith suggests that I should make a correction as to the conditions of the contract; he has possession of the contract that I should state, in the testimony, what the condition was, that I was to render my best services in return for it; it is not a gratuity.

Senator MURPHY: That is why I asked you the question—why you got $10,000, and you said it was for past services.

9191 The WITNESS: The contract was for past services, but I work for that money, and I earn it, I think.

Senator MURPHY: That will go as a portion of the record, that you work for $10,000.

The WITNESS: And I am obliged to give my best services, and, if I die, it stops.

Mr. TREMAIN: Is there any contract now in writing?

The WITNESS: A copy of the resolution covering that ground.

Senator Murphy directs the witness to attend at a subsequent meeting to be held at the same place, at eleven o'clock on Thursday, December 17, and the witness agrees to attend at that time, and to bring a copy of the resolution above mentioned.

Adjourned to Wednesday, December 16, 1885, at 11 a. m.

NEW YORK, FIFTH AVENUE HOTEL,
December 16, 1885—2 p. m.

The Committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain, Esq., appears as counsel to the committee.

J. YALDEN, being duly recalled, testified as follows:

Q. You are prepared to give evidence with reference to the financial history and condition of the several constituent companies?

A. Yes, sir.

Q. I call your attention to the Manhattan?

A. Yes.

9192 This company was incorporated under the Laws of 1830, chapter 59, passed February 6, 1830, with a capital stock not to exceed $500,000, in $50 shares, and as soon as possible thereafter commenced its business. The first subscription of capital was shortly afterward paid in. Subsequently, under the Laws of 1847, chapter 163, an act was passed April 29, 1847, providing for the increase of the capital of the Manhattan Gas-light Co., to $1,000,000 in $50 shares, and up to January 1, 1851, the sum of $850,000 had been paid into the treasury in cash on account of the said stock of $1,000,000, and again under the Laws of 1852, chapter 50, an act was passed March 25, 1852, to increase the capital stock $1,000,000, at such time as the board of directors might prescribe.

By a later act under the Laws of 1855, chapter 543, passed April 17, 1855, power was given to the Manhattan Gas-light Company to increase their capital stock $2,000,000 at such time as the board of directors might prescribe by resolution of said board, with power to adopt such resolution within six months from the passage of the act.

Under a resolution of the board this issue of $2,000,000 worth of stock was credited by a transfer of $18 per share, amounting to $720,000 (40,000 shares at $18 per share), from the surplus profits of the company, and the issue seems to have been made to the shareholders for the equivalent of their present holdings and the remainder, viz. $32 per share was paid in in cash by the 1st of January, 1866.

To show the particulars of these transactions I have abstracted the details of the capital account on pages — to —. By the books of the company it appears that no business was done by the company until about February 1, 1836, and the details of this for the period 9193 to November 11, 1884, I show upon statement, pages — to —, being an abstract of the profit and loss account for the whole period of their doing business. It gives in totals, by yearly and five-yearly periods, the gross income and total cost of gas, and depreciation with dividends paid, and at the foot of such statement the tabulated amounts.

These particulars show that the company, during its business period, divided among its shareholders the sum of $25,847,675.66, which includes $1,500,000 (part of $2,000,000) of certificates, and the interest thereon paid to the shareholders out of the surplus profits, and likewise includes $720,000, before referred to as credited up for capital on account of the last issue of shares. After this the company had a balance to their profit and loss account of $876,134.67, which really represented the surplus capital to provide for the increased value of the assets, as shown by their books, beyond the amounts which these investments presumably cost.

The properties, etc., of the Manhattan Company were, on November 11, 1884, transferred to the Consolidated Company, at a largely increased value beyond that stated on the books of the former company, and in explanation of this appreciation or increased value of assets, as taken over by the Consolidated Company, the particulars on page — will show the state of the accounts upon the books of the Manhattan Company when they were closed on November 11, 1884, and the value of same as taken over by the Consolidated Company.

The balance as shown thereon being $11,940,000, equal to the stock issued by the new company in payment of the properties, franchises, etc., of Manhattan Company.

9194 The column on the debit side of this account, headed "Appreciation written up," and amounting to $7,093,462.11, gives in detail the increased value placed upon the various properties and franchises beyond the amount of presumed cost or value stated in the books of Manhattan Company.

Statements are also given upon pages — to — of the capital investment for real estate, buildings and improvements, services and mains and meters, showing in detail the outlay, year by year, from the inception of the company to November 11, 1884, and giving the methods and forms the Manhattan Company treated their investment accounts.

A further statement on pages — to — is given of the capital stock and surplus profits, according to the books of the company used in the business, and upon comparison will show that the Manhattan Company was in possession of ample capital, and sufficient to enable them to accumulate very large profits, and so pay the various dividends.

In July, 1863, this company sold to the Metropolitan Gas-light Company, New York, their real estate and station at Sixty-fifth street, together with the mains, services and meters in use above the center of Thirty-fourth street, for the sum of $685,301.02, and received therefor a mortgage for $161,500 and stock in the said Metropolitan Company 2,356 shares of the par value of $1,178,000.

This stock of the Metropolitan Company appears to have been placed in the hands of Moses Taylor and Henry Young in trust, and by them sold for the benefit of the Manhattan Company; the proceeds of this sale were used to pay the fifty-eighth dividend of the Manhattan Company.

The particulars of this sale, as far as I can ascertain at present, are not fully described in the books, but a complete investigation 9195 would no doubt reveal the exact manner in which this transaction was consummated.

In the early part of 1857, and continuing until October, 1863 the company was in the habit of transferring, at certain periods, an amount from profit and loss to the credit of depreciation account, creating a reserve fund to meet the wear and tear of the various properties and works, and during these years the amounts so charged to profit and loss amounted to nearly $1,000,000.

It seems, however, that the company having also provided for alterations and improvements by charging such expenses to the profit and loss account, subsequently by resolution of the board of directors in November, 1863, they re-transferred $756,288.51 to the profit and loss account, and the balance then left, $500,000, was together with $1,500,000, credited to the registered certificate account under date of June 1, 1867, to meet that amount of certificates before referred to.

These registered certificates were paid in cash by the Manhattan Company by redemption and by installment from the period of December 1871, to October, 1877, with interest at seven per cent. from the date of issue until payment.

I have compiled a statement, fol. —, of the dividends paid by the Manhattan Gas-light Company during the period of its business, showing at stated periods the total capital subscribed in cash, and dividends paid, giving a comparison between a calculation of ten per cent. on the capital paid up and the dividends paid.

The results of this shows that, basing it upon the actual cash capital subscribed, amounting to $3,280,000, there was an excess of dividends paid beyond ten per cent. of $15,509,544.13.

9193 In the year 1856, however, I have included in the dividend $18 per share on 40,000 shares, transferred from surplus profits to the credit of these shares, which, with the $3,280,000 cash subscribed, completes the full capital account of $4,000,000, but as the sum of $720,000 was credited to the capital as before stated, and subsequently treated as capital stock, I have deducted this from the amount of dividends, and reduced the excess of dividends over ten per cent., to $14,789,544.13.

From the foregoing statements the following are the benefits derived by the stockholders of the Manhattan Company from the operations from 1836 to 1884 on the subscribed capital as follows:

Total capital subscribed in cash................	$3,280,000
Transfer from surplus profits as before mentioned, $18 per share on 40,000 shares (last issue).....	720,000
	$4,000,000
Dividends paid to stockholders as per account fol. — to —, inclusive, of $1,500,000, part of the issue of registered certificates and interest at seven per cent., until payment......................	$25,847,675 66
Balance of depreciation account included in issue of $2,000,000 certificates......................	500,000 00
	$26,347,675 66
Deduct, credited to capital stock on account of last issue of shares (included in amount of dividends)	$720,000 00
Total dividends, certificates and interest thereon paid in cash..................	$25,627,675 66

9197 Increased valuation beyond stated value of real estate, plant, works, mains, services, etc., in books of Manhattan Company, and the appraisement to the Consolidated Company.

Balances of the separate accounts		$4,872,999 49
Appreciation	$4,764,462 11	
Franchises	2,329,000 00	
Total appreciation on assets		7,093,462 11
		$11,966,461 60
Liabilities of Manhattan Company assumed by Consolidated Company	$620,740 78	
Deduct value of coal, lime, gas, customers' accounts and other assets taken over	594,279 18	
		26,461 60
		$11,940,000 00

For which stock in the Consolidated Company was issued to the stockholders of the Manhattan Company who therefore have received for the original investment of $3,280,000.

Dividends and certificates paid in cash		$25,627,675 66
Stock in Consolidated Company	$11,940,000 00	
Less cash capital subscribed to the Manhattan Company	3,280,000 00	
		8,660,000 00
Total received beyond the original cash investment		$34,287,675 66

9198 (The witness continued:) I have compiled the statement of dividends paid by the Manhattan Company from 1836 to 1884; the former date is when the first capital was paid in.

Q. What have you compiled?

A. A statement of dividends paid by the Manhattan Company during the period of its business, giving a comparison between ten per cent. on the capital paid up and dividends paid; the result of these sheets is, that basing it upon the actual cash capital subscribed, $3,280,000, there was an excess of dividend beyond ten per cent., $15,509,000, the profits over and above ten per cent.; they really paid in round numbers about $15,000,000 more than ten per cent.; $3,280,000 and $720,000, making $4,000,000; the total dividends paid to stockholders amount to $25,847,675.66; the balance of depreciation account included in the $2,000,000, making a total of $26,347,675.66; deducted from that, the capital stock on hand, last issue of stock, leaves the total dividend of $25,062,675.66.

Q. That sum is equal to ten per cent. upon the investment actually made plus about $15,000,000?

A. Yes, sir, the increase of valuation beyond the stated valuation of real estate, plant, etc., in the books of the Manhattan Company, and appraisement of the Consolidated Company, $4,872,999.49; that is the total of what they cost.

Q. That is a difference between what two things?

A. The purchase and what was sold; the purchase of the property, real estate and plant, they sold for a million of dollars to the Metropolitan Company; the appreciation—the amount they were valued at—to the Consolidated Company, in addition to that, $7,093,462.11; $11,940,000, the equivalent of stock issued to the Manhattan Company by the Consolidated Company; the cash capital, $3,280,000; total, $34,287,675.66.

9199 Q. You have spoken of registered certificates; state what they are.

A. The registered certificate is simply one given by the Manhattan Company instead of dividend which represents the accumulation of profits that they had made and which had not been divided in dividends; these certificates, amounting to $2,000,000, were given in the year 1863.

Q. That they had $2,000,000 in 1863 which might have been distributed as dividend among the stockholders of the Manhattan Company, but instead of doing that, they issued these to those stockholders?

A. Yes, sir; the same amount which would have been distributed to them in the form of a dividend.

Q. Did they, during the same year, pay a dividend as divided in the regular way?

A. Yes, sir.

Q. How much dividend did they pay that year?

A. Five hundred and twenty-five thousand dollars.

Q. In the form of dividends?

A. Yes, sir, in 1863 the actual cash capital paid in was $2,780,000 and they transferred from their profits at that time a further amount, $720,000, making three and one-half millions; that year they paid dividends in cash equal to $525,000.

(By Senator Robinson:)

Q. That dividend was on the original $2,700,000?

A. Yes, sir, and they issued at the same time certificates bearing interest at seven per cent. to the amount of $2,000,000.

Q. Which were, in effect, dividends represented by profits accumulated paid by installments at the convenience of the company with interest at the date of payment; now, about your per cent.—what per cent. was it?

A. The two together is equal to seventy-two and one-half per cent. of the actual capital of $3,500,000; and upon the actual cash capital paid in of $2,780,000 which was distributed that year, it was ninety-eight per cent.

9200 (By the CHAIRMAN:)

Q. In 1863 there was in effect distributed among the stockholders of the Manhattan Company ninety per cent. of the amount of cash capital stock actually paid in?

A. Yes, sir; in cash dividends and stock certificates.

Q. Does that finish your report of the Manhattan?

A. Yes, sir.

Q. So that, if for purposes of computation, you add to the cash capital theretofore paid in the accumulated surplus profits represented by $720,000 and treat the capital as if $3,500,000 there was in the year 1863 distributed in cash certificates subsequently paid with interest an entire dividend of about seventy-two per cent. upon such capital so estimated?

A. Yes, sir.

Q. How do you find the item of cost of the plant distributed in respect to the cost of real estate, and did you examine the books with a view of ascertaining exactly what the lots themselves cost the company, independent of plant or structures upon them?

A. Yes. I thoroughly dissected all those items and examined their books from 1831 to 1834 and ascertained what moneys had been paid out from time to time in respect to those properties.

Q. Did you separate the cost of the plant—services, meters, street mains, valves, etc., and office buildings and office furniture and all other expenses so as to be able to tell the committee what the real estate which is given in the schedules of appraisement at the figure of $3,563,000 cost the company as it appears by its books?

A. That is all got out and tabulated on the "A 10" and "A 11."

Q. As a result of that tabulation and examination, is it not true that all of the lots comprising the real estate valued in those 9201 schedules of appraisement for consolidation purposes at $3,563,000 and also the value of bulk-heads, piers, water rights, etc., specified in the same schedules of appraisement at $425,000, and also including the item of office buildings of $175,000, and an item of office furniture, $20,000, and the laboratories, photometric rooms, etc., $5,000, making in all an amount of $4,163,000 as a result of those five items in the schedule of appraisement with a view of comparing those five items with the actual cost of the lots as they appear on the books of the Manhattan Company?

A. Yes, sir.

Q. Is it not true that those lots cost the sum of $865,668.51?

A. Yes, sir.

Q. So that the items I have just specified that are represented by a capital of $4,163,000, appear to have cost $865,668.51?

A. That is so, but it should not include the two items of $20,000 for office furniture and $5,000 for the laboratories.

Q. Is it the fact that it appears from the books, as it apparently does, according to page "A 11" that the lots at Irving Place and Fifteenth street cost $25,000?

A. It did according to the books.

Q. At what amount is that stated in the appraisement schedules?

A. One hundred and seventy-five thousand dollars.

Q. What year was that appraisement?

A. I am afraid I could not tell you without the books. It was in the early part of the company's existence, thirty or forty years ago.

Q. Is it not a fact that the books show that the taxes and assessments were charged to expense account?

A. Yes, sir.

Q. And paid for by current earnings?

A. Yes, sir.

9202 Q. Is it not the fact that the lots at Eighteenth street and North river, that cost $22,986, are valued in the appraisement schedules at $74,738?

A. I could not tell you. In the aggregate I can tell you what it cost, as against its value. They charged everything up to two accounts, under the heads of North river and East river property.

Q. So that, in these two accounts, the items for structures, plant and lots were intermingling?

A. Yes, sir; but I dissected and got the results on "Sheet A 11."

Q. Now, following the comparisons farther, what do you find to have been the cost of the plant,—which, separate from the street mains, meters, and services, appears to have been valued in the schedules at $3,623,000?

A. Three million, six hundred and twenty-three thousand dollars. If you add to that $3,000,000, for office furniture and laboratory, they cost $2,550,309.72.

Q. What are they valued at, total, in the appraisement?

A. Three million, six hundred and forty-six thousand four hundred and three dollars.

Q. What is there on the books to represent that assumed appreciation, of anything, of about $1,090,000?

A. Nothing.

Q. Is it not true that the total amount appearing on the books of the company to have been expended for the construction of buildings and improvements, not plant and apparatus, is only $513,022.94?

A. That is correct.

Q. If it be assumed that such buildings and improvements are real estate, the cost of which is not charged to any other account—even then the real estate would not appear on the books to have cost more than the sum of $4,378,691.45?

A. No, it would not.

Q. But the fact is, is it not, that this first item of $513,022.94 has been paid for out of current earnings?

A. No, capital and earnings.

9203 Q. In your report you did not state that any amount appears by the books to have been paid for in special privileges and franchises; do you find any such item?

A. There is nothing of that kind in the Manhattan Company.

Q. Or for patents?

A. No.

Q. No expenditures of that character appear?

A. Not specifically stated, no; if there are, they are charged in construction, and are minor sums.

Q. But you did not discover any?

A. No, sir.

Q. How did you find the item of depreciation treated upon the books you have alluded to in your report; please explain that item as it appears in your tables more fully, and how the company in their accounts treated it?

A. Well, several years ago the Manhattan Company reserved an amount of profits to meet depreciations, and at the same time apparently continued to make all necessary repairs and additions at the expense of revenue, thereby charging, in point of fact, the depreciation twice over; later on when they discovered this to be so, they credited back the sum of nearly $800,000, to their profit and loss account, and divided up $500,000 of that reservation in the certificate which I previously mentioned.

Q. About what year?

A. About 1863; so in reality at the expense of revenue the works were presumably in good working order and practically as good as new at the time they were transferred to the Consolidated Company.

Q. Is there any thing in the books respecting this item of depreciation that leads you to change the testimony you have already given as to what is proper in that respect?

A. No; I think the study of their figures will approve my figures in the custom of this company.

9204 Q. Excluding the item appearing in the Consolidated schedules of appraisements of rights, franchises, etc., of $2,329,000, what do you find by the books of the company to have been the actual cost of the properties that appear in those schedules to have been valued at a total of $9,611,000?

A. What is represented in the figure of $9,611,000 cost the company $4,873,000, in round figures.

Q. And no more?

A. No more; it could not.

Q. So that for the alleged appreciation of $4,738,000 nothing whatever appears upon the books?

A. Nothing whatever, no representative value.

Q. Do we understand from your report that upon a cash contribution as and for capital of $3,280,000 in all paid in at various times, there has been paid out to the stockholders in cash, in all amounting to $25,627,675.66, regardless of any stock certificates in the Consolidated Company?

A. Yes, sir. That is the aggregate sum that they have received in cash, exclusive of the sum of $720,000 that went into the capital. That $25,000,000 is the actual sum paid in cash by way of dividends and certificates.

Q. Is it also exclusive of the certificates of stock of the Consolidated Company held by the stockholders of the Manhattan Company after exchanging their shares?

A. It is.

Q. The nominal or par value of which is $100 for each share?

A. It is, and to make it clear the present stockholders hold that amount of stock in addition to $25,000,000 that they have received.

Q. What amount?

A. Eleven million nine hundred and forty thousand dollars.

Q. It has already appeared in the testimony that, in addition to the current dividends paid by the Manhattan Company to its shareholders during the year 1884, those shareholders received a
9205 so-called extra dividend or a contribution of some sort realized
from the assets of the Manhattan Company, and that an amount of about $400,000 was distributed among the shareholders of the Manhattan Company shortly after the consolidation, do you find either on the books of the Manhattan Company or on the books of the Consolidated Company any item exhibiting such payments or distributions?

A. There were entries in each company's books in reference to that, and the sum of $400,000 that you allude to is the last dividend that was paid to the stockholders of the old Manhattan Company that was paid by the Consolidated Company and subscribed to November 11, 1884, which was paid for by the Consolidated Company from the realization of assets of the Manhattan Company amounting to $594,000, which consisted of customers' balances, coal, lime and other supplies.

Q. So that in addition to the valuation stated in the schedules of the appraisements, there were enough assets of the Manhattan Company to yield the sum of $549,000?

A. Yes, sir.

Q. And out of that sum there was paid this distribution of $400,000 to the stockholders of the Manhattan?

A. Yes, sir.

Q. What became of the balance of $190,000?

A. That went to pay the current liabilities of the Manhattan Company, taxes and other things, as it appears on statement "A 10."

Q. Was that $400,000 in effect a dividend paid to the stockholders of the Manhattan Company?

A. Yes; it was ten per cent. on their stock and paid from the assets of the Manhattan.

Q. It had not been capitalized in the Consolidated?

A. No, sir.

Q. It was transferred to them?

A. Yes.

9206 Q. They collected them and paid them back to the Manhattan?

A. Yes, sir.

Q. Whether or not it was the diminution of the working capital in the combined properties, to the extent of that distribution of $400,000?

A. Practically that is the effect of it; it was the working capital divided among shareholders.

Q. Is there, as appears by the books, yet a small sum or small percentage to be divided among those same Manhattan shareholders, or is the entire bulk of the assets represented by this $590,000 now exhausted?

A. By these figures the liquidation of the Manhattan is practically effected.

Q. Does that correspond with the accounts of the adjusting committee?

A. Yes, sir; these figures are based upon the figures of that committee.

Q. Do you not find it to be true that the adjusting committee have not concluded their adjustments in respect to all the constituent companies?

A. I do not know but they have; I think they have as far as the Consolidated is concerned; the accounts of the Consolidated Company in each of the constituent companies are balanced off as far as the Consolidated books are concerned; the individual constituent companies having so adjusted their affairs as against their own stockholders.

(By the CHAIRMAN:)

Q. In your report what do you mean by the presumed cost of plant, work, etc.?

A. By that I mean the original outlay for the property plus its additions and improvements, less its deterioration or depreciation; thererfore, the balance represents the fair value of its cost or worth.

Q. Then, by presumed cost you really mean what is equivalent to actual cost?

A. Actual cost.

9207 Q. Have you made an examination of the Metropolitan Company's books also?

A. I have.

Q. Are you able to give evidence to the committee in a similar manner?

A. Yes, sir.

This company was organized in 1858, under a special act of the Legislature with a nominal capital of $2,500,000.

Upon reference to the statement marked "C1," it will be observed that of this capital the sum of $612,700 only was received in cash and the remainder was paid for the charter and construction account. On this latter account the sum of $1,178,000 was paid to the Manhattan Company for the purchase of the Sixty-fifth street property, works, mains, etc. (reference to which is made under heading of that company), and was apparently issued in payment therefor at the rate of about fifty cents on the dollar.

This company commenced business about the year 1862, and was successfully carried on for the next twenty-two years, as will be observed by the profit and loss account on pages C — to —, notwithstanding the fact that dividends were paid upon a large amount of capital issued for property and franchises, a great part of which was issued at a large discount.

The dividend account on page C —, shows that the company commenced paving dividends in the year 1866, and continued doing so with the exception of the year 1873. The sum paid to stockholders in the aggregate including scrip certificates of $1,000,000 with interest thereon of $761,249.36 is $7,573,749.36, and it will be observed from the statement that this is an excess over ten per cent. upon the whole of the capital of $1,973,949.36.

9208 Upon reference to the capital investment account of real estate, property, etc., page C — to —, that although some of the property, plant, etc., was paid by stock issued at a discount, the valuation to the Consolidated Company, including franchises, is largely in excess of the amount so charged as the purchase price of the same, and as detailed upon the account marked "C —," the cost (including the stock) of the various properties transferred to the Consolidated Company according to the books was $5,292,175.35, giving an appreciation between that and the appraisement to the Consolidated Company ($7,175,000) of $1,882,824.65.

At various times this company issued bonds and mortgages for considerable sums upon their property, the interest thereon being charged in the regular way of business to the profit and loss account before the profits were determined; the amounts so outstanding and assumed by the Consolidated Company were for bonds $658,000 and mortgage $30,000, making $688,000, which was deducted from the appraisement of the property value and stock of the Consolidated Company was issued for the net amount which, in round figures, was increased to $6,500,000, as hereafter shown.

In addition to this, however, there was a large amount of assets belonging to the company which were not transferred to the Consolidated Company but subsequently realized and divided among the stockholders to the extent of $525,000, and still remains an undivided surplus of about $160,000.

The benefits, therefore, derived by the stockholders of this company for:

9209 Total capital paid in cash	$612,700 00
Total capital for charter	144,000 00
Total capital for purchase of Sixty-fifth street property	1,178,000 00
Total capital for construction	565,300 00
Making a total of	$2,500,000 00
Dividends paid to stockholders in cash	$6,500,000 00
Scrip and interest issued in 1870, subsequently paid off by instalments	1,073,749 36
Stock in the Consolidated Company	6,500,000 00
Making a total of	$14,073,749 36
To which must be added division of assets since consolidation, paid in cash	525,000 00
Present undivided surplus, say	160,000 00
Making a total of	$14,758,749 36
From which deduct the nominal amount of stock, capital	2,500,000 00
Total received beyond original investments	$12,258,749 36

This company claims to have incurred considerable loss by explosion and fire. By the books, it appears that the loss to the company on this account in 1865, was $108,962.22, $12,000 of which was charged to construction account for new coal sheds, and the balance to profit and loss account, less a small salvage realized upon coal.

9210 In the purchase of the Sixty-fifth street station before referred to, the amount charged to the construction account, as representing the value of the property so taken at cost, and the par value of the stock appears to be the sum of $533,922.62.

Q. I understand you that the stockholders of the Metropolitan paid in $2,500,000?

A. In cash and patents and construction and franchises.

Q. Now, about when was that put in and how much each year?

A. That is shown in "C1."; it was put in in the years 1860, 1861, 1862 and 1863.

Q. I understand you from that investment they have actually taken out $8,258,000 and odd dollars?

A. Yes, sir.

Q. They have left in their hands what?

A. Six and a half million dollars in the Consolidated stock.

Q. Reckoned at par?

A. Yes, sir.

Q. The amount taken out as you have given it includes $160,000 that is ready for and awaiting distribution?

A. Certainly; that is so.

Q. Have you made an examination of the books of the Metropolitan Company with a view to ascertaining the cost as it appears from those books of the real estate, and of the plant and of the items specified in the schedules of appraisement or the totals therefor?

A. I have.

Q. Will you please refer to the item resulting from your previous compilation of the appraisement of the schedules of $5,312,000, being the total of the appraised values of the plant, real estate, etc., of the Metropolitan Company, and state what those items appear on the books to have cost that company?

A. Five million two hundred and ninety-two thousand one hundred and seventy-five dollars.

Q. Does that cost represent money actually expended?

A. Not wholly so.

9211 Q. In so far as it does not represent money actually, detail?

A. It represents $3,405,000 in money and about $1,887,000 in stock, the greater part of which latter amount was given at the rate of fifty cents on a dollar; hence, the reason why the appraisement so nearly approaches the actual stated cost in the books.

Q. That is to say, what appears to have cost $1,887,000 actually did cost $943,500?

A. Yes, sir.

Q. If that which did cost $943,500 was added to the actual cost $3,405,000, wouldn't the total cost thus appear to be $4,348,500?

A. Yes, sir; it would be $994,000 less and the appreciation would be 994,000 more.

Q. If the appreciation was thus $943,500 more than the difference between the cost as stated in that way on the books and the appraised value of the items comprehended by the figure 5,312,000 would be the sum of what?

A. Two million eight hundred and twenty-six thousand three hundred and twenty-four dollars and sixty-five cents.

Q. Is there any thing upon the books of that company to represent an expenditure of such a sum or any part of it?

A. No, there is not.

Q. Is there any thing on the books of that company to represent property resulting from that sum or any part of it except as you have stated that stock was issued for property?

A. No, sir.

Q. Is there any thing on the books of that company to represent an expenditure for so-called rights and franchises, etc., in addition to the expenditures that you have, immediately preceding this question, detailed to compare with the item stated in the appraisement schedules of rights, franchises, etc., $1,863,000?

A. There is nothing beyond the $144,000 that was given for the charter.

9212 Q. Isn't that already included in the expenses you have mentioned?

A. Yes. There is nothing entered on the books of the Metropolitan for the rights, privileges and franchises.

Q. Whatever there has been expended, if any thing, for any such assumed property, appears in the expense resulting in the sums you have already stated, do they not?

A. They do.

Q. Then, as we now understand you, the figures you have above given of $2,826,324.65 include an appreciation for rights, franchises, etc., so called at an estimate of $1,863,000, as stated in the appraisement schedules?

A. Yes, it does.

Q. Referring to the statement in your report just read and to the figures on page "C5" and to the appraisement schedules, it is observed that the total net appreciation is stated by you at $1,882,824.65, and that in the appraisement schedules there is an allowance made for so-called rights, franchises, etc., of $1,863,000, thus leaving an actual apparent net appreciation of $19,824.65—is that correct?

A. That is correct.

Q. Will you explain whether you found anything upon the books of the Metropolitan Company in reference to such a comparatively small appreciation—and by the word comparative, I mean in comparison with the appreciation found with the result of other companies as testified to?

A. Yes. That arises from two causes mainly; first, that the cost of the property is entered at its then double value by reason of stock being given at fifty cents on a dollar. There is nearly $1,000,000 charged up, and, secondly, as I am informed, the Sixty-fifth street property was cut in two by the New York Central Railroad, and what was left was useless to them for the purposes of their business in consequence of their being deprived of their water front.

9213 Q. Which occasioned a depreciation to the front of how much?

A. Five hundred and ninety-eight thousand seven hundred dollars and eighty-six cents.

Q. If that depreciation last mentioned had not occurred as shown by the books, there would have been an actual appreciation in comparison with the cost, in all, of what amount as represented by the appraisement schedules?

A. Well, about two and a half million dollars. The actual sum is $2,481,525.51.

Q. Have you prepared a summary of the accounts of the constituent companies so as to show the results in respect to each of the companies in the same manner as the results you have just shown concerning the Manhattan and the Metropolitan Companies?

A. I have.

Q. Will you please produce them so that the committee may examine them to-night and examine you farther upon them on another occasion?

A. I will.

Adjourned until December 17, 1885.

NEW YORK,
FIFTH AVENUE HOTEL, *December* 17, 1885.

The committee met pursuant to adjournment.

Present: Hon John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain appears as counsel to the committee.

THOMAS K. LEES, being duly recalled, testified as follows:

9214 Examined by the CHAIRMAN:

Q. Did you bring the resolution of the New York Company, referred to in your evidence, on Wednesday of last week?

A. I brought a copy of it. (Witness produces a paper which he says is a copy of that resolution.)

(By Senator MURPHY:)

Q. This is a copy of the resolution which you testified to the other day that you was employed under?

A. Yes, sir.

Q. Can you aid the committee in ascertaining how the sum of $45,000,000 was reached as the capital of the several constituent companies, including the Mutual, which afterward declined to enter into the consolidation?

A. Only by examination of the schedules; if I had them I might possibly.

Q. What schedules do you refer to?

A. The schedules of consolidation in the hands of your committee.

Q. Was the $45,000,000 reached by adding up the original appraisals of the several companies, or was it fixed as the aggregate amount prior to such valuations, if you remember?

A. I do not think it was fixed prior to that.

Q. Do you know how that was?

A. No, I do not.

Q. I see that the capitalization of your company was changed in 1871 from $1,000,000 to $4,000,000?

A. Yes, sir.

Q. When that change was effected was any new capital contributed to the concern?

A. No, sir; it was the abandonment of the charter and the organizing under a general law on a new valuation.

Q. Without any change of intrinsic values?

A. It was the same property.

9215 Q. Prior to that time, the company existed by virtue of a special charter, and at that time you were organized under a general gas law passed in 1848?

A. I don't remember the date of its passage; it was the law at the time.

Q. What special privileges had the company, under its special charter, prior to 1871?

A. I don't know what they had had; it had originally exclusive rights in the city for a few years, but they had expired long before I went there.

Q. Are you able to say that it had any special rights or privileges derived either from the city or the State at the time of the change in 1871?

A. I think it had from the city; I cannot say what; it had right, certainly, to lay mains in the streets.

Q. In passing out of the old condition into the new, did you carry with you, as a company, any special rights, if there were any, which you had theretofore possessed?

A. Yes; I think that law under which it was incorporated by virtue of the act it carried over.

Q. Do you remember what, if any rights and privileges, were transferred prior to the subsequent organization?

A. I do not remember any thing special, sir; I know we had a water grant from the city to keep and fill in lots in Twenty-first street, purchased from the city, but when I don't know.

Q. Where were those water rights—designate by streets and river?

A. Between Twenty-first and Twenty-second streets, east of Avenue A. Another party had the same right to fill in the block below, and we bought that afterward so it now extends from Twentieth to Twenty-second street.

Q. There are no other rights that occur to you?

A. The right to occupy the street with our pipes.

Q. That was derived from the city?

A. Yes, sir.

9216 Q. From the common council of the city—when was that obtained?

A. I could not say; a portion of it must have been taken twenty-five years ago.

Q. Was it an exclusive right?

A. It was at the beginning, but that expired long before my time.

Q. Is the right which you enjoy concurrent, at the time of consolidation, with rights on the part of other companies?

A. I suppose it to be so.

Q. What process was employed by the New York Company in the manufacture of gas?

A. The Tessie-du-Motay.

Q. Is the same process now employed in the same works?

A. Yes, sir.

Q. According to the plan of increasing the capital stock, which was adopted by the New York Company in 1871, or the plan adopted by the constituent companies in 1884, as a matter of theory, at least, would it not be possible to increase the capital stock engaged in the manufacture and distribution of gas to an unlimited extent?

A. I think the stockholders would have something to say about that and object to it.

Q. According to the plan of increasing the capital stock which was adopted by the New York Company in 1871, or by the plan adopted by the constituent companies in 1884, as a matter of theory
t least, would it not be possible to increase the capital stock en-
ged in the manufacture and distribution of gas to an unlimited ex-
nt?

A. That is a matter of theory, sir; I do not know whether it would
e possible or not.

Q. Don't you know it would be?

A. I do not think it would be.

Q. As a matter of fact, would it not be possible to increase it to an unlimited extent?

A. I think not.

Q. What is to hinder it, as a matter of fact?

A. I do not know as a matter of fact; I do not think
9217 it would be possible for I don't think the people would take the stock.

Q. You did, in 1871, multiply the stock by four?

A. Yes, sir.

Q. And in 1884 multiply it by, at least two?

A. Nearly two.

Q. Wasn't it more than two, take it as a whole?

A. I could not say about that.

Q. Then, so far as your company is concerned, without any new contribution to the capital stock of the company, its share capital was increased, as a matter of fact, four-fold in 1871?

A. Yes, sir.

Q. And in 1884 it was multiplied by 1 89-100?

A. Yes, sir; share capital.

Q. Now, upon the same theory, it would be possible, would it not, for the present Consolidated Company to consolidate with—for example, the Equitable Company, and make a new appraisal whereby the aggregate capital of the new company would be still farther increased, might it not?

A. I am not a lawyer.

Q. On the same plan which was adopted that would be?

A. I think the law provides for that; I think it could be done under that law as it stands.

Q. If, from what was done in effecting the consolidation in 1884, it would be lawful also to make a new consolidation and a new appraisal whereby the capital stock should be still farther increased?

A. Is it fair to put me to that question, as a lay-man; I think it is possible, it might be so, and there may be legal objections I know nothing about.

Q. Do you see any reason why, if what I have stated could be done, there might not be still another consolidation, for example, with the Mutual, or with some company hereafter to be formed, and a new appraisal made, and stock still farther increased without the addition of any new capital stock? 9218

A. It is a thing I have not given a thought; I do not know whether it can be done or not.

Q. Do you see any reason why a new company might not be formed for the very purpose of effecting a new consolidation with a new appraisal and a fresh increase of capital stock upon the theory adopted in the consolidation of the companies in 1884?

A. I do not know whether it could be done or not.

Q. At the time of the consolidation were the several constituent companies manufacturing gas of equal power and extrinsic value per thousand cubic feet?

A. There was a difference in the quality of the gas.

Q. The gas manufactured by one works would be intrinsically worth more than gas manufactured at some other works in the city.

A. That was what we all said.

Q. Is it a matter of ascertained fact that the gas manufactured by some of these works is intrinsically better than that manufactured by others in the city of New York?

A. I do not think there is very much difference in them now.

Q. Is it a matter of ascertained fact, and not a matter of opinion, or a statement for the purpose of effecting a sale, that the gas manufactured by some of these works is intrinsically better than that manufactured by others in the city of New York?

A. I do not know really; it is a matter of dispute to this day.

Q. If the gas manufactured at some of the works should have a thirty-candle power, and the gas manufactured at other works should have nineteen-candle power, is it equitable and right that a thousand feet of each of those should be sold to the consumer at the same price?

A. I cannot answer that.

9219 Q. How many distinct gas works are now operated by the Consolidated Company?

A. I think five.

Q. Are they operated by the same process?

A. No, sir.

Q. Are they of equal quality?

A. I have no knowledge.

Q. Has the quality of gas manufactured at each of these five works been ascertained by some scientific process?

A. The city examiner does just that.

Q. Have you never examined or ascertained the result of that examination?

A. I have no data on the subject; it has been ascertained; I do not think I ever saw the figures; they have been published in the "City Record," but I have not seen it for months and months and I don't remember.

Q. If such examinations have been made, you have no recollection that you have ever known the result of the same?

A. I never have examined them.

Q. You have no recollection that you have?

A. No, sir.

Q. No recollection you have paid any attention to it?

A. No, sir.

Q. How long have you been engaged in the manufacture, in any way, in the city of New York?

A. I have been connected with the gas company twenty-four years.

Q. And yet have given no attention to the quality and comparative value of gas manufactured by the several companies?

A. I have paid no regard to that since the consolidation.

Q. Before the consolidation did you?

A. I looked at that occasionally.

Q. Have you any reason to think that the quality manufactured at the several works has been changed since the consolidation?

9220 A. I do not think it has.

Q. Assuming the quality of gas manufactured by these several companies to remain as it was prior to the consolidation, what do you say as to the cost of manufacture at these several works as shown by these official examinations and reports; have you any knowledge?

A. No comparative knowledge as shown by that record as correct.

Q. There is an officer whose duty it is to test the gas made at these several works, and make a report in regard to the same?

A. Yes, sir, in the city.

Q. What is the name of his office?

A. Gas examiner; E. G. Love is his name.

Q. In fixing the price of gas that ought to be paid by the consumers in different parts of the city, do you regard it as a matter of entire indifference as to the different qualities, if there be a difference in gas, furnished to consumers in different parts of the city?

A. Yes, there is no attention paid to that whatever.

Q. And should be none?

A. Yes; some are twenty-five candle power; there is no attention paid to that whatever.

Q. And should be none; that is the answer?

A. Yes, sir.

Q. Why not?

A. It is impracticable to make a price for every candle power.

Q. Wherein is the difficulty; is the practicability difficult?

A. There might be a variation in the candle power in any two hours of the day.

Q. It would be impracticable to fix it with absolute mathematical accuracy?

A. That is what I mean.

Q. There would be no doubt about that?

A. No, sir.

9221 Q. Supposing the average lighting power of gas in one section of the city is much less than the average lighting power of gas furnished at another works for a different portion of the city, should the consumers of gas in those two sections of the city pay the same price for a thousand cubic feet of their gas?

A. I do not know how it can be avoided; I do not see how it can be helped.

Q. Supposing the lighting power in one section was twice what it is in another section, where the gas is manufactured at different works, is there any practical difficulty in saying that one shall pay more than another?

A. That is practically difficult, sir, because it cannot be made always in a fixed quality nor for a fixed cost.

Q. Are you not attempting to adjust it to a scale of mathematical accuracy—is that where the difficulty is?

A. That is one difficulty.

Q. What other?

A. Some people like one better than another.

Q. You mean to say some like gas with less lighting power rather than gas with a greater lighting power per thousand cubic feet?

A. I do not say that; some like a whiter gas and some complain of smoke of richer gases, and they are liable to get it.

Q. Other things being equal, is not the value of a thousand cubic feet of gas measured by its lighting power, its real value?

A. Other things being equal, yes.

Q. What other things enter into and affect the value of a given quantity of gas?

A. Freedom from smoke; a lighter gas smokes less and some people like it better, particularly if they have pictures about the room.

Q. Freedom from smoke is one thing; what else?

A. That is the principal thing.

9222 Q. Does that freedom from smoke sustain any fixed relation to the lighting power of gas; is there more or less smoke according to the power of gas?

A. A richer gas has more smoke and carbon in it.

Q. Could you detect the difference in the smoking?

A. Yes.

Q. So you could say, from your own observation, that the richer gas has more smoke than feebler gas?

A. Yes, sir; if it is too much too rich, it is sure to smoke; some like a lighter gas, for it has less illuminating power and is not so likely to smoke for that reason.

Q. Is there any way by which the smoke in this richer gas can be prevented?

A. Yes, sir; leave out the oil and make it lighter.

Q. You mean a feebler gas?

A. Yes, sir.

Q. Is there any way by which smoking can be prevented in a richer gas and still retain the light?

A. Not if it is too rich.

Q. What was the candle power of gas manufactured by your New York Company at and prior to the consolidation?

A. About twenty-five candles, if I remember; twenty-four or twenty-five.

Q. That was what it was at the time of the consolidation?

A. Yes, sir.

Q. For how long a time had it been so high as that?

A. Since 1880.

Q. Prior to that what had been its candle power—your company?

A. From sixteen to twenty-four.

Q. The average about what?

A. I do not know how it would average; the latter part of the time it was running up; the average I should think about twenty.

Q. At the time of the consolidation it was about twenty-four?

A. Twenty-four or twenty-five.

9223 Q. Was that a better gas than it was when it was twenty-candle power?

A. Yes, sir; I should think it was.

Q. Increase the power, increase in the value you receive?

A. Yes, sir; I changed the process and it came out a better quality of gas.

Q. Better in proportion to the increase of power?

A. No, better light; I had to get rid of that smoke by changing burners; if the burners are too large they must be cut down; the fault is in the gas; if it is too rich it will smoke any way; at times uneven.

Q. If some of the companies, at the time of consolidation, were manufacturing gas of an inferior quality, would not the effect of consolidation be to perpetuate a product of that quality of gas as against competition with a superior article?

A. No, I do not think it would.

Q. As a matter of fact, was that not one of the reasons which induced the New York Company to enter into the consolidation?

A. No, sir.

Q. Are you able to say whether or not that was a reason which entered into the minds of some of the directors of the companies?

A. I do not know what others did; I never thought such a thing.

Q. It did not occur to you, you say?

A. I said it.

Q. The agreement to enter into the consolidation was made, wasn't it, on the 29th of September, 1884?

A. I do not remember the date, whether it was or not; it was about that time.

Q. This resolution by which you were made secure in the enjoyment of $10,000 a year, bore date the same day?

A. You have the dates.

Q. This bears date September 29, 1884, so that it did not make much difference to you personally, what kind of gas was made, or what the price was?

A. Yes, sir; it made considerable.

9224 Q. You would be made secure of the $10,000 to start with?

A. Yes, sir.

Q. As a stockholder, you would be interested?

A. Not that; I would have some little pride, for it was a business I have been in for twenty-five years.

Q. What was the total amount of shares in the New York Company held by yourself or some member of your family?

A. I do not remember; 200 or 300 shares altogether.

Q. Wasn't it between 400 and 500, on recollection?

A. I think not; my wife had about 158, and I had about the same; if there is some standing on the book, it was transferred to somebody else.

Q. How does it happen there is 100 shares more standing in your name?

A. It is held by somebody else; I would get an order from the country, and until it is paid for, I take it in my own name; I held it, but it did not belong to me.

Q. You held it for somebody prior to consolidation?

A. Yes, sir.

Q. When the consolidation was effected and the stock distributed, was that which you held for somebody issued to you, in your name?

A. Issued to me and transferred a block issued to me and divided.

Q. Prior to 1880 what was the candle power of the New York gas?

A. I could not tell you.

Q. Wasn't it always lower than nineteen?

A. No, my impression is it would average about seventeen or eighteen candles; the contract with the city was sixteen, I think.

Q. Have you that contract now?

A. It has been renewed.

Q. Don't you know the candle power was raised in the contract with the city?

A. I did know it was afterward raised to the London standard.

9225 Q. There is no practical difficulty in manufacturing gas at a fair uniform candle power?

A. Not if it is all made on one plant entirely.

Q. How much expenditure was made by the New York Company on their plant at or about the time it commenced to manufacture gas by a new process which you have described to be the Tessie-du-Motay process, water-gas process? How much was expended, if any thing, and when?

A. I think that process cost us something over $600,000 for the process, plant and works.

Q. That money was expended during 1880 or 1879?

A. Both years.

Q. Was a part of that expenditure a payment of $300,000 to the Municipal Company?

A. Yes, sir.

Q. Was that paid in cash or stock?

A. Cash by installments.

Q. Extending over what period—when was the last payment?

A. I could not tell you.

Q. Extending over about how long a period?

A. It might be six months or twelve; I should not think it was over that.

Q. Was any part of the plant or apparatus sold at the time of that change?

A. No, sir; I think not.

Q. State what was done at the works in connection with effecting that change?

A. A new plant was put inside of the old works.

Q. The old plant was thus rendered useless?

A. No, sir, to take up gas if ever it is necessary and reserve it.

Q. You have not used it since?

A. A part of it.

Q. How much?

A. I couldn't tell you how much.

Q. You have not made any considerable quantity of coal gas since?

A. No, sir.

9226 Q. And the plant that had been adopted to coal gas has been held in reserve during the time since water gas commenced?

A. A portion of it.

Q. For which the $300,000 was expended?

A. Not entirely.

Q. How much?

A. I could not tell you; it has been out of my head for the last five years.

Q. You have two works?

A. No, sir; one; Twenty-first street and East river.

Q. And all that was done in respect to that was at these particular works?

A. Yes, sir.

Q. The same retorts used?

A. No, sir.

Q. The same meters were used?

A. Yes, sir.

Q. The same benches used then as now?

A. Retorts and benches are identical; I have answered that.

Q. Are they used now?

A. No, sir.

Q. The accounts that have been taken from your books indicate the sum of about $290,000 expended for plant, apparatus, etc., about 1880, about the time of this change, and that the amount altogether for that purpose was about $440,000, and after the depreciation had been written off, $290,000 appears still charged for that expenditure. Can you tell the Committee what is represented in property by that expenditure, at about the time of this change you refer to in 1880?

A. I have no idea.

Q. As a matter of fact, have you given any practical attention to the manufacture of gas for the last five years?

A. No, I have not given very much.

Q. You have attended to the business of the company?

A. I am the president, and have oversight of every thing.

Q. What is the name of the engineer at your works?

A. William T. Lees, my son.

9227 Q. How long has he been there in that capacity?

A. About five years.

Q. Are the engineers' reports made at stated periods?

A. No, sir.

Q. Is there any officer or subordinate who makes stated reports to the company concerning the quality or cost of manufacture of the gas produced?

A. No, sir.

Q. Do you have engineers' reports?

A. Yes, sir, daily; for instance, use so many pounds of coal?

Q. Do you have the gas tested at the station?

A. Yes, sir.

Q. Is that recorded?

A. Yes, sir.

Q. Are those records sent to the company?

A. They used to be sent to Hester street; I do not know what becomes of them now.

Q. You mean to say that the New York works and the distribution of their product has continued, without the quality of gas being gauged and recorded from time to time for the information and action of the board of directors in fixing the price, or for other business purposes?

A. I have never seen any such.

Q. That is the fact?

A. That is what I suppose to be the fact.

Q. That still continues?

A. I said at the Hester street office such reports used to come in to me every day; they are made in the office.

Q. Is that the only report that is made?

A. Yes, sir; except the daily send-off or manufacture.

Q. Does the business continue under the Consolidated Company in the same methods that it was conducted before the consolidation, so far as the New York branch is concerned?

A. The manufacturing department does.

Q. The distribution department does?

9228 A. No, sir; they make the returns to the Consolidated Company; it did not before; the distribution of gas I have nothing to do with.

Q. As a matter of fact, the gas which is delivered by the New

York branch works is produced and delivered in the same meters as it was before the consolidation, whether it has continued now as it was before.

A. The manufacture is the same, and I said the distribution through the pipes is the same.

Q. You say that the distribution through the pipes is the same; is not distribution to the consumers the same?

A. Yes.

Q. As a matter of fact, the only difference from the general conduct of the business is in the methods of reports and the persons to whom they are made?

A. Yes, sir.

Q. Prior to 1880, during your long experience as a managing officer of the New York Company, upon what principle was the price of gas fixed, if any, by your company?

A. I could not tell you; I do not remember what was done and said.

Q. Isn't it true that it was not fixed on any principle?

A. I could not say how it was fixed.

Q. It was always fixed arbitrarily by your company without regard to its cost or the capital involved?

A. I could not tell you how it was fixed.

Q. Did you ever hear those elements considered in fixing the price of gas?

A. I do not know what I heard five years ago; I could not tell you sir.

Q. About what was the price of the New York stock early in 1884?

A. I could not tell you whether it was 150 or 160, or 140 or 120, somewhere along there, I cannot remember.

9229 Q. What contract, if any, existed at the time of the consolidation between the New York Company and the engineer or superintendent of those works?

A. None.

Q. Was any resolution passed in respect to any other officer of the company than in respect to its president?

A. Not that I am aware of.

Q. Was there any agreement made between the company and any other of its officers or employees?

A. I am not aware of any.

Q. You are one of the vice-presidents of the Consolidated Company?

A. Yes, sir.

Q. Do you not know that there was a similar agreement with each of the officers of the Consolidated Companies?

A. With some of them.

Q. With whom is there not?

A. The Harlem.

Q. There is a similar agreement relating to the vice-president from the Manhattan Company, is there not?

A. No, sir.

Q. The vice-president of the Consolidated Company from the Manhattan Company?

A. He is the president.

Q. There is a similar agreement with an officer of the Manhattan Company who is now an officer of the Consolidated?

A. Yes, sir.

Q. Of the same amount as in your agreement?

A. The same amount.

Q. And also with a representative of the Metropolitan Company?

A. Yes, sir.

Q. And also with the representative of the Municipal and Knickerbocker?

A. The Municipal but not the Knickerbocker nor the Harlem.

Q. Which of the officers of the Municipal?

A. Mr. Gawtry.

Q. He is now the secretary of the Consolidated Company?

A. Yes, sir.

Q. The total of that liability amounts to $400,000, payable at various times?

A. It depends upon how long we live.

9230 Q. The contingency is only upon that?

A. Yes, sir.

Q. The total of that liability amounts to $400,000, contingent only upon life; that is correct, isn't it?

A. Yes, sir.

Q. It having already appeared that the capital stock of the New York Company has been increased from $750,000 to $7,560,000 without the contribution of any new capital by the stockholders; it is true, is it not, that such has come from the earnings of the company?

A. The increase has come from the earnings of the company?

Q. And those earnings have come from the consumers of gas?

A. Not entirely.

Q. Have they chiefly?

A. Those are the earnings; the increase came largely from the improvement in real estate, and in selling down-town property and in buying property up-town.

Q. Has not, by far, the larger part of that increase come from the consumers of gas?

A. Probably.

Q. Then, in effect, the consumers are made to increase the capital stock of the company for the benefit of its stockholders, are they not, and then the consumers are required to pay a price for gas based largely upon this increased capitalization?

A. I do not think it is so.

Q. Why not?

A. I do not think there is any thing to bear it out.

Q. Why not; you have given me the facts and I have got them before me; you said a large portion had been made by investment; is not the price of gas fixed in part with a view to obtain what you call a reasonable profit on the capital invested in the concern?

A. In part yes.

9231 Q. Then, the increase of capital stock from whatever source it comes tends, does it not, to increase the price of gas?

A. It seems not; it is a matter of opinion of course.

Q. Taken as a proposition by itself, do you or do you not think that the increase of capital stock tends to increase the price?

A. I think it does not and I think it has not.

Q. You mean to say that if, for instance, $17,000,000 capital was sufficient to supply the city of New York with gas, that the price charged the customer would not be likely to be less than if that capital stock were increased to $50,000,000?

A. It has not had that effect.

Q. That is not an answer to my question at all?

A. It depends entirely upon condition of affairs.

Q. The stenographer will strike out the last answer; you mean to say that if, for instance, $17,000,000 capital was sufficient to supply the city of New York with gas, that the price charged the consumer would not be likely to be less than if that capital stock were increased to $50,000,000?

A. I could not say.

Q. Then you do not see why you should not want just as much profit to distribute on a capital of $17,000,000, as on a capital of $25,000,000 or $35,000,000?

A. I do not say that; it has not been the effect of that; that is what I argue upon.

Q. You mean to say that what you call a fair dividend to be distributed upon a capital stock of $17,000,000, would not be less than a dividend distributed upon a capital stock of $35,000,000 or $50,000,000?

A. The amount of this would vary the rates very considerably.

Q. What do you think is a fair per cent. for you to receive now from the Consolidated stock which you hold?

A. In the present state of the market about six or seven per cent.

9232 Q. It already appears that the actual capital contributed by the stockholders is only $750,000?

A. That is over sixty years ago.

Q. Supposing that that had remained the same, would you think that a fair per cent. would be about eight or nine times six or seven per cent.?

A. It could not have been the same; the profits from real estate were reserved to build the works and extend the works.

Q. Then the consumers build the works?

A. Yes, sir.

Q. And the stockholders own it and get the benefit of it, don't they?

A. Yes, sir; if they get anything.

Q. Do you think it is right to require the consumers to pay a dividend upon the capital stock which they themselves have created?

A. I have not given that very much thought.

Q. Not prepared to give an opinion upon it?

A. No.

Q. Do you know what the present candle power is of the gas produced by the New York works?

A. About twenty-five.

Q. How does it happen that the photometer report of Dr. Love fixes in the first week of December every day at twenty-two and a fraction of one?

A. I could not say.

Q. Is he likely to be correct about that?

A. He is not in my employ; I know nothing about it.

Q. Have not you any opinion as to his correctness?

A. No; he is able to stand for himself; he may possibly agree with our examiner; I do not know; I have not compared them.

Q. The extract from the photometer report for the week ending December 5, 1885, by Dr. E. G. Love, gas examiner, as I said, in the "City Record," and for the week ending November 30, New
9233 York gas is reported at 22.13, 20.03, 22.35, 22.12, 22.47,
22.30, as taken at the successive six days, the average being 22.23; do you testify that the candle power of your New York gas is more than that?

A. I don't testify; the last account I had of it was about twenty-five.

Q. You used to make it at about sixteen for the city contract?

A. Yes, sir.

Q. Did you ever run it up to twenty-four when you made coal gas?

A. I do not remember.

Q. Whether you have delivered gas as a business?

A. Never.

Q. Would it be practicable to make coal gas of that illuminating candle power?

A. It could be done and delivered.

Q. Could you make it satisfactory to any consumer?

A. I do not know; I never tried it.

Q. Don't you know it has not been done with coal gas?

A. I do not know.

Q. Don't you know it has not been done with coal gas in this city as high as twenty-four?

A. I never did it.

Q. It would cost a great deal to do it?

A. I should think it would.

Q. Would it not cost a great deal more to make coal gas of the illuminating power of twenty-four candle than to make water gas of the same illuminating power?

A. I do not know what it would cost to make twenty-four candle; I couldn't tell you what it would cost; I never made it; naturally it would.

Q. Was that one of the reasons why the New York had to change its method of manufacture from coal to water gas?

A. It might have been; I do not think it was; I am not certain.

Q. You know that at the time you made the change other companies in this city were delivering gas of much higher illuminating power than the power delivered by the New York Company? 9234

A. Some were and some were not.

Q. The Manhattan only was not?

A. The Harlem.

Q. Isn't it true that only the Manhattan works produced gas of a lower illuminating power than the New York?

A. I couldn't tell you whether it was the only one or not. The following is an abstract from Dr. Love's report before mentioned, showing the average illuminating power for the same week, of the following companies, viz.: Manhattan, candle, average, 18.04; New York Company, candle, average, 22.23; New York Mutual, candle, average, 29.28; Municipal Company, candle average, 28.12; Equitable, candle, average, 33.04; Metropolitan, candle, average, 21.16; Knickerbocker, candle, average, 24.16.

Recess until 3 p. m.

DECEMBER 17—3 p. m.

Hearing resumed.

JOHN P. KENNEDY, a witness called by the counsel to the Committee, being duly sworn, testified as follows:

Examined by Mr. TREMAIN:

Q. You are the president of the Mutual Gas-light Company?

A. I am, sir.

Q. That company was organized under a special act of the Legislature, passed in 1866, was it not?

A. It was.

Q. Can you furnish the committee with the names of the original members that, in fact, did organize that corporation, those who acted in forming the organization?

A. Yes, sir.

9235 Q. And you will do so?

A. Yes, sir.

Q. Your action commenced in what year?

A. I became a director in the company in 1872, after the completion of the works.

Q. You were engaged in the construction of the works?

A. Yes, sir.

Q. What was the name of your firm?

A. Hoey, Kennedy & Company.

Q. Are there any book or books in existence that will show what those works cost?

A. I do not think there are; my partner died before the works were finished, and I think the books are out of existence.

Q. Have you any books or vouchers that will show that?

A. No, sir.

Q. Were the payments for those works paid in stocks?

A. Stocks were originally issued to the firm?

Q. To what extent?

A. Five million dollars, but a portion of that stock was returned to the company to be sold by them and the fund turned over to us, which was done.

Q. At what rate?

A. Fifty per cent.

Q. Was the entire amount of $2,500,000 thus realized?

A. Yes, sir.

Q. Was any more?

A. Not at that time; subsequently it became necessary to enlarge the works and there was an issue of bonds made of $1,000,000, which were sold.

Q. One moment—the question was, any more realized? Was it intended to relate to the stock?

A. No, sir; there was no more.

Q. Subsequently there was an issue of bonds?

A. Yes, sir.

Q. To what extent?

A. One million, which was sold at par.

Q. In what year?

9236 A. I think that was the year after the works were started; it was commenced in 1870, and finished in 1872; I think it was the first or second year after they were sold by the company; I was a director

Q. Who was then its president?

A. I think Garrison.

Q. Who was its secretary?

A. Charles Place.

Q. Who took those bonds from the company?

A. The parties in interest took the majority of them.

Q. You mean the directors?

A. Yes, sir.

Q. Garrison took the most of them.

A. No, sir; he took his share; they were divided around *pro rata* among the stockholders and directors; they were sold at par.

Q. Are those bonds still outstanding?

A. No, sir; they were paid off about three years ago.

Q. Are there any bonds outstanding?

A. Not of that issue.

Q. Have any since been issued?

A. Yes, about three years ago some were issued.

Q. To the extent of what amount?

A. One and a half million dollars.

Q. Secured by a mortgage?

A. Yes, sir.

Q. They are still outstanding?

A. The most of them.

Q. One million three hundred thousand dollars?

A. A little less than that, $1,296,000, I think, still outstanding.

Q. Now, with the exception you have stated, nothing else has been received by the treasurer of the Mutual Company, for the present outstanding stock, representing its capital and bonds that are unpaid?

A. I think not.

Q. Was any part of the present outstanding bonds, amounting in all to $1,296,000, issued to replace any part of the $1,000,000 of bonds that was first issued?

A. No, sir.

9237 Q. Was any part of those bonds issued to stockholders for stock held by them?

A. It was all issued in that way, sir.

Q. And what stock thus became turned in, so to speak, to the treasurer of the company; what amount of stock?

A. I got my stockholders to relinquish thirty per cent. of their stock, which would make one and a half millions on five millions, and for that thirty per cent. of stock I issued six per cent. bonds in lieu of them, so that when the stockholders brought their stock they received that, and their stock was canceled, thus making three and a half millions instead of five millions.

Q. That was, in effect, a distribution of one and a half million to those stickholders?

A. Yes, sir.

Q. You have now stated all the securities representing the properties of the company that have been issued, and that are now outstanding?

A. Yes, sir; that is my conviction.

Q. Now, will you please state the real property that is owned by the Mutual Company, and how long it has been owned?

A. You refer to the real estate?

Q. No, sir, the location and what it is?

A. The first purchase we made was from Avenue D to the pier-head line of East river, between Eleventh and Twelfth streets, which were 206 feet front by about 800 feet to the pier-head line; the second purchase was that property known as the Novelty Iron Works, that extended adjoining this lot, and also a piece on the westerly side of Avenue D, extending west 440 feet by about 206 feet, making two blocks and a half of a block about.

Q. These are still owned by the company?

A. Yes, sir.

Q. That is all the real estate?

A. Yes, sir.

9238 Q. Has any been sold since it was originally acquired?

A. No, sir.

Q. Can you state the cost of the real estate to the company?

A. Well, sir; I think it was about $880,000 as near as I can remember.

Q. Eight hundred and eighty-two thousand five hundred and fifty dollars?

A. I think so.

Q. Can you state what was the actual cost of the works which your firm constructed, and for which the stock to your firm was issued?

A. No, sir.

Q. Can you state approximately?

A. You mean what the cost was to the contractors?

Q. Yes, sir.

A. I think the contractors got about $1,500,000 out of each profit, counting the stock at fifty cents on a dollar.

(By the CHAIRMAN:)

Q. They got two and a half million dollars?

A. That was the proceeds from the sale of the stock.

Q. Do I understand you that that was about $150,000 more than it cost to build it?

A. Something like that; I could not be positive; of course, we made a fair profit; we did not build for glory; we made a fair contractor's profit.

Q. What amount of money has been spent in increasing the capacity of those works since that time?

A. A good deal; I could not say; Mr. Yalden has all the figures, and I am perfectly willing to give his figures, his testimony.

Q. Then the amount shown by the books to have been expended since that time went, according to your testimony, for the increase in the producing capacity?

A. Yes, sir, and for improvements; I always tried to keep in advance in the newest plans or method of gas making.

Q. The present capacity of those works is about what?

A. I suppose I could make five or six millions of feet there in twenty-four hours.

9239 Q. Are the works not capable with a small expenditure, so as to increase that capacity very largely?

A. Yes, sir.

Q. As a result of your practical experience, what would be the approximate cost of increasing that capacity there?

A. I will say, to bring that capacity to eight millions of feet, from $1,000,000 to $1,200,000 would do it.

Q. One million to one and a quarter million would make four million cubic feet of gas more?

A. Yes, sir; I say that to venture; though I never figured it.

Q. What would it cost to duplicate your present producing capacity at the place of production?

A. To duplicate what we have got now it would cost considerable less than when it was built; they were built on the top wave when everything was the highest, just after the war; every thing was very high at that time, labor and materials; the company that succeeded took advantage of low prices.

Q. Is it not a fair statement to say that your present producing capacity, at the place of production, could be dpulicated now ot from sixty to sixty-five per cent. of its original cost to your company?

A. Not so wide a difference as that.

Q. Well, at seventy per cent.?

A. I would be willing to say eighty per cent.

Q. You think, do you not, it would be considerable less than eighty per cent.?

A. No, sir; twenty per cent. is a great deal on an amount of that kind.

Q. Is the daily product now five million?

A. No, sir; three million; when I say five million I mean a maximum figure; I think I would be safer to put it at four million; I would like to put it at four million instead of five; the works as they now stand.

9240 Q. So that, as we understand your testimony, the present maximum producing capacity is about four million cubic feet per day?

A. Yes, sir.

Q. And that that capacity is capable of being about doubled by the expenditure of about one million to one and a half million dollars?

A. Yes, sir.

Q. As we understand your testimony, the total amount that has been expended in constructing the works which are capable of the present producing capacity, is covered by the following moneys, viz.: two and a half millions, the proceeds of stock awarded to contractors, and one million dollars in bonds, making in all three and a half million dollars, to which should be added the sum of six hundred thousand dollars subsequently spent for betterments on the property, making in all for the present cost, as it now stands four million one hundred thousand dollars?

A. Yes, sir.

Q. Now that item of six hundred thousand dollars for betterments, which you have mentioned; is it or is it not for the purpose of keeping the property in repair and good working condition, or improving it from time to time so as to keep it up to the necessities of the business?

A. No, sir; the bulk of that was expended for street mains and enlargement of the works and alterations of the works; I made gas of almost every kind of process in order to get the acme of the matter, and it has cost us a great deal of money; and it would be impossible for me to tell just how it was spent; the repairs of the works, of course, have to go on from month to month.

Q. You would not call any part of that item expense account?

A. I think that would be called construction.

9241 Q. You would not call any substantial part of that item substantially an expense account?

A. No, sir; construction account, permanent construction.

Q. This expenditure that you have just spoken of, this last item has been accomplished from the earnings?

A. Yes, sir.

Q. Upon a plant of a producing capacity of about four million cubic feet per day such as you have described, what would be a fair percentage of annual expense to keep it in running order as a going concern, or what should be allowed, by way of depreciation, as representing such an expense, in your opinion?

A. I think ten per cent. would cover it, sir.

Q. As a matter of fact, how have you found it in your experience of ten years with that particular company?

A. I could not answer that, sir, intelligently; I presume Mr. Yalden's account there would show that.

Q. You have, of course, seen the tables that were prepared last spring, by Mr. Yalden, the expert, which were before incorporated in the report of the former Senate Committee?

A. Yes, sir.

Q. By those tables it appears that there was expended or written off as depreciation concerning the works of the Mutual Company, from the year 1876 to the year 1884, in all, the sum of $616,341.43. Have you found any inaccuracy in these figures?

A. No, sir.

Q. That is for nine years, and is, therefore, correct, is it not?

A. I think so, sir.

Q. Now, Mr. Yalden, if you will give us that percentage, it will be convenient at this place in the testimony?

A. The fact is we did not criticise Mr. Yalden's work but took it for granted that it was all right.

9242 Q. Assuming that to be correct, it was proper that the depreciation was about fifteen per cent.?

A. Whatever it is, is correct; I was only, of course, approximating to it.

Q. I make it about fifteen per cent., the depreciation; that which was expended in repairs or written off?

Mr. Yalden: I make it between fifteen and sixteen per cent.

A. I did not think it was so much as that; I thought it was about ten just from my impression.

Q. Assuming those figures to be correct, it would appear that there had been expended for the purposes of keeping the plant in run-ing order, or appropriated for that purpose by way of depreciation written off, a sum about equivalent to fifteen per cent. per annum on the actual cost of the plant?

A. Yes, sir.

Q. As a man of experience in manufacturing gas, isn't that a fair item to allow for depreciation of expense, in considering capital, and profits and cost of production, about fifteen per cent.?

A. I think so.

Q. It would not be safe to go much under that for any practical purpose?

A. I do not think it would, for I hold I have conducted my business very economically.

Q. Then you must have some opinion as to how the economies of other plants have been conducted, if you think yours has been conducted very economically.

A. Well, sir, the fact is, I have had so much to do to attend to my own business, I have not given much attention to my neighbors.

Q. Why have you an opinion that your business has been conducted economically in that respect?

A. For the reason that I am a practical constructor of gas
9243 works and I attend to every detail of the business myself; that is what I mean by that.

Q. If your producing works and the operations of your company had been united with the other constituent companies and formed a part of the consolidation, is it your opinion that that business would have been conducted any more economically?

A. I wouldn't like to say.

Q. Is that item of fifteen per cent. likely to be more economically conducted?

A. That would depend upon whether the consolidated companies reduce the number of their works; the depreciation would be less.

Q. If they did not?

A. I do not think it would be any less, sir.

Q. In fact, so long as the production of gas continues at the various works of the constituent companies which were established before the consolidation, the item of depreciation or expense of keeping the works in running order, is likely to be substantially the same as it was before the consolidation?

A. Most undoubtedly.

Q. You have schedules prepared for consolidation?

A. Yes, sir.

Q. Where are those schedules?

A. I have them somewheres, sir, among the archives of the office.

Q. Will you send them so that the committee can look at them?

A. Yes, sir.

Q. What candle power of gas did your company produce in 1880 about?

A. Well, sir, I think we made at that time our gas—I wouldn't be sure though; I think we made about twenty-five or twenty-six candle gas; the company made gas then from Virginia pine wood and naphtha and coal; subsequently I changed it to water gas.

Q. When was that change made?

A. About that time, sir, in 1880.

9244 Q. Active competition about that time?

A. Yes, sir.

Q. Your company was engaged in it?

A. Yes, sir.

Q. You competed with the coal gas companies?

A. Yes, sir.

Q. The Manhattan and the New York?

A. Yes, sir.

Q. The price of gas went down?

A. Yes, sir, very seriously.

Q. It was kept up by the pool afterward?

A. Yes, sir; after a fight there is always a settlement.

Q. From 1879 to the consolidation, was it not?

A. Yes, sir.

Q. Without that truce your company could have served your customers with gas at a much less price than was actually charged and with profit to the shareholders?

A. Well, I do not think I would like to admit that.

Q. You cannot help admitting it, if it is true?

A. At that time I was paying my stockholders six per cent.

Q. If that is not true, you can say so?

A. That would depend upon the amount of dividend.

Q. Do you really depend upon the amount of dividend?

A. Yes, sir.

Q. Assuming the stockholders got six per cent. dividend on the par value of the stock, couldn't the gas have been furnished by your company, during that truce, at a much lower price than was actually charged?

A. Well, I think it is probable.

Q. Assuming the div-dend should have been paid on the stock, and assuming the stock to have been paid for at fifty per cent. on a dollar, couldn't the price have been still farther lowered?

A. With a small capital, no doubt.

9245 Q. As a matter of fact, the cost of gas to the consumer is largely dependent, is it not, on the rate of dividend, and on the capital on which it is to be charged?

A. That is the whole story in a nut-shell.

Q. Now, with reference to the interest of the consumer exclusively, what advantage, if any, was promised or was likely to accrue, or is yet likely to accrue from the consolidation of the constituent companies into what is known as the Consolidated Gas Company?

A. You are putting me in a hole, asking me such questions as that; I do not want to criticize my neighbors; I run my own machine, and I am willing to let them run theirs; I do not like to express my opinion, if I can evade it.

Q. You will please observe that my question used the word ex*clusively*, so as to call for your opinion solely with reference to the interests of the gas buyers, and not to the holders, of its securities; the question relates exclusively to the interests of the gas consumers, and I cannot see why you hesitate in that respect?

A. I do not think it requires any great stretch of talent to answer that question.

Q. Now, with reference to the interests of the consumer exclusively, what advantage, if any, was promised or was likely to accrue, or is yet likely to accrue, from the consolidation of the constituent companies into what is now known as the Consolidated Gas Company?

A. I do not think it would be to their interest.

Q. Is it not really to the interest of the Mutual Company, as an apparent competing company, to maintain the integrity of the Consolidated Gas Company, in order that the price fixed by it may likewise be maintained. This question relates to those interested 9246 in the stock of the Mutual Gas-light Company, and asked with reference to their interests in your opinion?

A. No, sir; I don't think so.

Q. Why not?

A. Because we have no interest with them at all, in any way, shape or manner, except as would naturally be between different companies in the same business.

Q. Is it not the interest of the Mutual Gas-light Company's stockholders that the present price of gas should be maintained?

A. Of course it is.

Q. So long, therefore, as it is necessary to include in the cost of gas an item sufficient to pay a dividend on $39,000,000 of capital instead of a previous capitalization in the same companies of $17,000,000, that company is not likely to reduce the price of gas?

A. No, sir.

Q. So long, therefore, as that company maintains the present price of gas, it is not likely, is it, that the Mutual Gas-light Company will voluntarily reduce its price?

Q. Nor the Equitable Company?

A. No, sir.

Q. So that the practical operation in the city of New York, of the Consolidation, is that the price of all the companies would be maintained equivalent to the Consolidated Company's price?

A. Why, certainly.

Q. The net income of the Mutual Company is no less this year than it was last year?

A. Yes, sir; very much less.

Q. Is the gross income less?

A. Yes, sir.

Q. The price of gas is different?

A. Yes, sir, but our business is falling off by reason of that Equitable Company.

Q. But not by reason of the Consolidated Company?

A. No, sir.

Q. The Equitable is in your territory?

A. Yes, sir; my pipes extend from Bowling Green to
3247 Sixty-seventh street on the North river and on the East river.

Q. There is no limit of territory?

A. No, sir.

Q. Under your contracts with the city, if you have any, and under your legislative organization, there is no restriction of the Mutual Company?

A. None whatever.

Q. Your outstanding bonds of $1,296,000 will fall due in a year or two?

A. They are five-twenty bonds; if they are called in during the first five years, we pay five per cent. premium on time; if they allow them to remain until the expiration of five years, we can call them in at pleasure at par and interest.

Q. You stated a moment ago where your pipes ran in the city. Where did you get the right to do that?

A. From the board of aldermen.

Q. Do you pay any thing for those rights now?

A. Only in the shape of taxes; we pay about $70,000 a year taxes.

Q. You pay nothing for the right of way on the streets?

A. No, sir; none of the companies do that but the Equitable.

Q. The Equitable is the last contract that was made?

A. Yes, sir.

Q. And it is the only corporation that pays for the right of way?

A. Yes, sir.

Q. It is the last contract of any kind that has been made between the city and gas company?

A. Yes, sir.

Q. Now, it appears that with the price of gas as it did exist up to this year your company, in addition to paying its dividends, accumulated a surplus of about $3,130,000?

A. I am not aware of that, sir.

Q. Or a sinking fund or credit to profit and loss account, as you may choose to style it, isn't that the fact?

A. I think that must be a mistake.

9248 Q. The surplus earnings was three millions and something, last spring, after paying the dividends?

A. Oh, yes, that is probable.

Q. Then, there is a sum of about $3,130,000 which represents earnings after paying dividends?

A. Not after paying dividends.

Q. Yes, after paying dividends; that includes the investment?

A. I have got it now; that is correct.

Q. And part of that sum is invested?

A. Yes, sir.

Q. About how much is invested in United States bonds?

A. Eight hundred and thirty thousand dollars.

Q. The balance is how invested?

A. The balance must be in the works.

Q. The general assets of the company?

A. Yes, sir.

Q. You remember the rates of your dividends for the last few years?

A. Yes, sir.

Q. The last three years?

A. Ten per cent. on $3,500,000 capital in addition to the interest on the bonds; the two together would be about eight per cent. on the capital; we paid ten per cent. on the stock and six per cent. on the bonds.

Q. What you paid on the bonds is charged into the interest account and is thus written off before this item of surplus earnings is stated?

A. I fancy so.

Q. You recognize the copy of an account which you handed a former committee and which has not been printed?

A. Yes, sir.

9249 By Mr. Tremain: Which is as follows:

INCOME ACCOUNT.

DR.

To net earnings	$7,756,627 64

CR.

By interest	$786,321 04
Bonds paid first series	1,000,000 00
Mortgages paid	397,500 00
Construction	986,682 45
Dividends	3,525,000 00
New bonds bought	204,000 00
U. S. governments bought	812,152 71
Gas stock bought	14,626 00
Sundry accounts due us	3,784 27
Cash on hand	26,561 17
	$7,756,627 64

Q. That investment is more than $800,000 in government bonds is it not?

A. Eight hundred and twelve thousand dollars.

Q. There is another item, $204,000.

A. Those are our issue that we retired; that $204,000 was a part of that $1,500,000; that is the redemption.

Q. What else is there?

A. United States governments, $812,152; we have now $830,000 at par.

Q. What other investment is there?

A. We have $14,626 of our own stock.

Q. The par value of what?

A. That is it; when I made the exchange I found it necessary to buy some stock and we had that over.

Q. With the present current earnings, the bonds outstanding of your company are capable of being paid off, are they not, in view of your present investment holdings by the year 1887?

9250 A. Yes, sir; that would be the expiration of five years.

Q. And there would be left an outstanding share capital nominally amounting to $3,500,000 upon which dividends would continue to be paid?

A. Yes, sir.

Q. Assuming a dividend of ten per cent. upon such share capital account and earnings at the present price of gas, $1.75 per thousand feet, there would, in a few years, be a very considerable accumulation of money or funds, unless there was a serious falling off in the account of the Mutual Company's business, or else a very serious increase in the material and labor?

A. Yes, sir.

Q. In the absence of those contingencies it would not take but a few years to accumulate your capital over again of $3,500,000?

A. I don't know about that.

Q. Is not that the inevitable logic on the basis of past business?

A. Yes, sir; at past prices but not at present prices.

Q. At present prices of gas, isn't that so?

A. Half a dollar in one case and seventy-five cents in another is a very serious inroad to profits.

Q. There has been no increase in the cost to the Mutual Company of producing its gas since last spring?

A. No, sir; none whatever; if you will notice by my account you will see that every year I have been reducing the cost of production.

Q. You have it as low as forty-five cents in the holder?

A. Yes, sir; that is a point that puzzles every one and misleads them.

Q. We don't care for that; if there is any thing that should really be explained to render the situation different than what was reported upon before, I have no doubt that this committee would give attention to it; wasn't the accounts put into the last committee so 9251 analyzed as to give the cost of producing it per thousand?

A. Yes, sir.

Q. The cost of manufacturing and putting it into the holder is one thing and the cost of distributing it is another?

A. Yes, sir; the public will hear people say that gas can be made for fifty cents per thousand; they say that is what it costs the company; they ought to add the cost of distribution which is greater than the cost of production.

Q. Is the cost of collection equal to the cost of distribution?

A. The collection comes into the distribution as a part of the expense.

Q. Are you not aware, in the tables covering ten years' business of the New York Mutual Company, that the cost of distribution for ten years is uniformly less than the cost of gas in the holders per thousand feet? (Referring to page 52, 2d column of the appendix of the last Senate Committee's Report.) You had better give those three items for one year, if you wish to make an explanation?

A. That is correct, because it is taken from the book.

Q. In view of the explanation you have just made, and to correct a misapprehension that exists, it is the fact that it appears by the books that the cost of gas in the holder for the year, for instance, 1884, was forty-six and one-half cents, and of the cost of distribution per thousand feet was forty-one and three-fifths cents and that the amount to be written off for expense and repairs is eleven and seven tenths cents and that the net revenue from gas was $1.36, the total income was $2.36.

A. That is correct.

Q. You were a member of the pooling committee?

A. I was, sir.

9252 Q. By the minutes of that committee you appear to have been present at many of the meetings when the subject of consolidation was under consideration?

A. I was, sir.

Q. It appears by a resolution of that committee which was adopted at a meeting held in December, 1883, that a plan of consolidation had been accepted by the committee and was referred to a subcommittee with power to call in legal counsel, to carry it into effect, and that you was present at that meeting—do you remember it?

A. I think I do, sir.

Q. It also appears by those minutes that you was present at meetings held many months before when the same subject was under consideration?

A. Yes, sir.

Q. How early in those meetings were any plans or schedules of property with a view to consolidation, submitted by any of the members of the committee?

A. The matter of consolidation was brought up frequently, and was brought up early in our meetings; after we had our battle and the truce was offered I was sent for to meet a committee of the other companies with a view to coming to some settlement of our difficulties; and I was appointed on a committee to meet these gentlemen; we discussed the subject of settlement; some time after this a proposition for consolidation was suggested and was considered; but I did not view it with favor, and told the gentlemen that I did not want to enter into that matter; I did not think it was politic to do so; but as I was there a member of the committee, I felt it my duty to see what there was of it, and I acted with the committee in good faith, but prefacing my assent to the matter by stating that what ever I should do or say there should not be binding on my company in any manner whatever; that with regard to going into the 9253 consolidation, with them, I would submit it to my directors, and if they accepted it, all right, and if they rejected, that would be the end of it; I think the active business of the consolidation did not occur until the beginning of the last year, 1884.

Q. Do you remember that there was submitted about that time some schedules of property?

A. Well, sir, it was not at the beginning of the year.

Q. When was it?

A. I think it must have been two or three months in the year, as I recollect.

Q. It was during the spring?

A. I think it was.

Q. When did you first know that an act of the legislature was in contemplation with a view to consolidation?

A. I did not know anything more about it than you did until I saw it in print.

Q. Did you see it in print before September 29, 1884?

A. I think I did.

Q. Where?

A. I think it was published in pamphlet form.

Q. The act was?

A. I think it was.

Q. Who published it?

A. I do not know.

Q. Where did you see it?

A. I think I saw it in my office first.

Q. In the summer?

A. I would not be sure.

Q. We would like to see that pamphlet, if there is such a pamphlet in existence; have you it?

A. I do not believe I have; I am not quite sure; I can inquire and see.

(By Senator MURPHY:)

Q. Was the pamphlet other than the simple act itself as it appears in the Session Laws?

A. I think so; it was a paper-covered book, about that size.

Q. Very thick?

A. No, sir; about three-quarters of an inch thick; it had some other laws connected with it.

9254 Q. The statute of 1884 was never printed in such a book, to your knowledge?

A. No, sir; I never saw but one copy; it is about three-quarters of an inch thick.

(By Senator MURPHY:)

Q. It must have contained other matter?

A. I never knew anything about it until I saw it in print; didn't know that any such law was enacted.

Q. Whose schedules did you see or did you know were prepared for consideration as early as the spring of 1884?

A. I saw them all.

Q. The New York and all the constituent companies?

A. Yes, sir; all the constituent companies.

Q. Was any conversation had in your presence as to who should appraise those properties?

A. Yes, sir.

Q. By whom?

A. Well, Mr. Rowland for one, made some appraisements.

Q. By whom was the conversation had?

A. We had a conversation about it; all the members of the companies talked about the plant and method.

Q. What, if anything, was agreed upon formally or uniformally in respect to the method of valuations?

A. Well, the method of valuation was like this,—to ascertain the value of each plant, the value of the street mains and meters, and all the appliances.

Q. Was any thing said as to how the value of the works and plant was to be arrived at—take the New York Company—Rowland who valued the plant?

A. The plan was to obtain experts that were competent to value them.

Q. Was any thing said as to the principle of valuation which those experts should follow?

A. No, sir; they were to give what, in their judgment, would be a fair valuation.

9255 Q. And that was a valuation of the plant as a going concern, or in respect to its producing capacity?

A. I mean the latter.

Q. Who said any thing on that subject?

A. Oh, I don't know; we all talked it.

Q. Did Mr. Lees say any thing about it?

A. Yes, sir.

Q. Did Mr. Gawtry say anything about it?

A. Yes, sir; he had his plant to value the same as Lees, and by the same party, I believe.

Q. Did Francklyn say any thing as to the principle of valuation?

A. Well, I don't remember.

Q. Did Mr. Smith of the Manhattan?

A. Yes, sir; he took charge of the Manhattan valuation; he had that done by Mr. Farmer, who was a gas engineer and constructor.

Q. Before those valuations were made, I understand you to say, do I, that there was a general agreement as to the princip*al* of appraisement?

A. I do not know as to that; we had no principle only to get at what would be a fair valuation of the machinery and pipes in the street.

Q. Regardless of cost?

A. Oh, no; we took them at what would be a fair cost; for instance, how would you reckon to make such an estimate; you would put it at what it would cost to put it there, wouldn't you?

Q. Whether the agreement of the men among the parties in interest called for an appraisement of value according to what it would cost to put the plant there, or according to its producing capacity?

A. It was what it would cost to put it there; to duplicate it.

Q. So that to the best of your recollection, the principle of valuation that was united upon by the officers of the constituent companies as a basis was what it would cost to put the plant there?

9256 A. Yes, sir; that is it; then the real estate was appraised by real estate men.

Q. So that your answer to the previous question relating to the plant has no relation to the appraisement of lots as such?

A. No, sir; that came under two different experts.

Q. Have you any knowledge as to whether the valuations of the real estate, so called, were made to include any of the structures thereupon that by law are deemed real estate, but whether it relates exclusively to the value of the lots without structures?

A. To the value of the lots without structures.

Q. That, in fact, was the supposed basis of the real estate valuation, so called?

A. Yes, sir.

Q. And the basis of the valuation of the plant was what it would cost to duplicate it?

A. Yes, sir.

Q. When you speak of what it would cost to duplicate, do you mean what it would cost for a plant equivalent to the plant to be appraised?

A. No, sir, to duplicate every thing as it was without reference to any thing else.

Q. Without reference to whether it was really necessary to produce a given capacity or not?

A. Yes, sir.

Q. And without reference to whether the plant, or any part of it, had been superseded or rendered more or less useless by reason of the change in the method of production?

A. Yes, sir.

Q. So that the properties that were laid aside as useless, or comparatively so, caused by the change of production in the same works from coal gas to water gas were to be appraised or valued according to what it would cost to duplicate them as they stood?

A. Just as they stood.

9257 Q. In your opinion, would that be a fair way to buy a gas plant for present actual business purposes?

A. No, I don't think it would; if I was going to buy one, I should want to get a modern one, of course.

Q. In your opinion, would that be a fair method of arriving at the value of a gas plant?

A. Everything that was appraised there was competent to perform the service; nothing that was thrown out as useless was appraised; everything that was appraised was an absolute gas-producing machine in some way or other.

Q. The question is not quite answered yet?

A. Your question was whether there were any articles appraised there that had become obsolete or useless for the purpose of gas making?

Q. No, sir; I understood you to say that the basis of appraisement or valuation was to appraise or value all the properties regardless of their present usefulness in producing gas so long as they are found to exist as part of the plant, either coal or water gas producing works, and that they were to be appraised according to what it would cost to duplicate them instead upon the principle of what it would cost to duplicate works adequate to give a producing capacity by more modern construction?

A. That was the principle.

Q. Whether as a practical experienced man, you can give this committee the information that such a method is a fair method of determining the actual values of a gas producing plant?

A. I don't know of any other way to answer the question but this, that if I was to appraise property of that kind, with a view of purchasing it, for the purpose of making gas, I should purchase that of the most modern type of machinery for that purpose.

9258 Q. If you were valuing it for the purpose of purchasing you would not value it on any other basis than the basis you have just now stated?

A. No, sir.

Q. Is there any other fair basis for an actual valuation, in your opinion?

A. Well, that I am not prepared to say, for this reason, take, for instance, coal gas, just now, at this present time, rather old-fashioned. Now, the plant of the Manhattan Company is perhaps as fine a one of the kind as exists, and I must take this view of it, that should this naphtha which we are now using give out—and there has been a great deal of speculation on that subject, whether it would hold out—the companies would be obliged to go back to making coal gas; and in that event, then the Manhattan works would be as good as any other. You see the dilemma I am in to answer that question.

Q. If that should occur, what do you say as to the plant of the Manhattan?

A. The plant of the Manhattan would have a large value, for this reason, that they can be converted into a water gas works, and almost all the appliances used excepting a very small percentage of them; I could take those works and convert them into water gas works for a very few hundred thousand dollars.

Q. You know that that was done in the New York Company for about $600,000?

A. I do, and I would like to have had the contract.

Q. That included the patent?

A. And then I would like to have had the contract. The Manhattan works would not be useless for the reason that every thing pertaining to them could be worked in—gas holders, purifiers, scrapers and exhausters, all of which would be necessary.

Q. To appraise that property at its fair actual value, would you, as a practical man, apply any other basis or principle of valuation than the basis you have stated of what it would cost to produce a given quantity of gas per day? 9259

A. No, sir.

Q. Now, applying that as a basis and exclusive of the mains, meters, valves and services, and referring only to the works proper, so to speak, as a plant of a producing capacity, in your opinion, was the fair actual value of such a plant as the Manhattan, $400,000,-000?

A. Well, sir, I looked over the schedules at the time; I looked at them all and I thought it was a very fair appraisement of the value of the plant; that is, with a view of duplicating it.

Q. That is, with a view of buying the things and placing them there?

A. Yes, sir.

Q. Upon the basis of duplicating the capacity of the works, do you answer the same?

A. Yes, sir; it would amount to the same thing.

Q. Do you mean to say that, as a practical man, to purchase the property you would give a valuation of the plant of the Manhattan of $4,000,000 or thereabouts?

A. Well, I don't remember the valuation, sir.

Q. Or in other words, near that amount?

A. I remember a comparison was instituted of the various plants; they were all read over and discussed.

Q. As early as the spring of 1884?

A. I think it was, although I wouldn't be certain. It took a long time to get the thing up.

Q. What do you say of that as an appraisal to purchase the value of the plant of the Manhattan upon the basis of its producing capacity, to furnish the gas; say either $4,000,000 or $3,000,000?

A. Well, everything was taken separately—gas holders were taken at so much apiece, and tanks, etc.

Q. Strike that out, Mr. Stenographer?

9260 A. It would be impossible for me to approximate to an amount so large as that; I could not answer that question. I could only say that the companies were all estimated upon the same basis of valuation.

Q. That basis was on what it would cost, estimating material and stuff on hand?

A. Yes, sir.

(By the CHAIRMAN:)

Q. That might be a very different thing, getting at its real value, as a purchaser would look at it?

A. Yes, sir.

Q. All you were looking after was to get it relatively right?

A. Yes, sir; compare my own with the others.

Q. To see that they were on the same basis?

A. Yes, sir.

Q. The ultimate object was to get it relatively right?

A. Yes, sir; to get it relatively right.

Q. The appraisement was very difficult from a purchaser?

A. Yes, sir; if the company desired to sell out there would be two parties to the affair.

Q. One of which would look to see whether this particular piece of machinery—what it would cost?

A. Yes; and in this case there was only one party.

Q. And he was the seller?

A. Yes, sir; there was no one there to bid them down.

Q. How can this committee ascertain that the prices which the seller fixed for himself, and at which he did sell, was or not a fair price in relation to its actual value?

A. I think it was a fair appraisement; but, whether we could sell it for that, that is another thing.

Q. Fair to each other?

A. Yes, sir.

Q. No one would pay the cost of a thing which has become partially superseded by some better thing?

A. No, sir; those things were estimated fully.

9261 Q. Yes, that is the trouble; isn't there a well recognized rate of capitalization to produce a thousand cubic feet or a given quantity of gas, up to one or two million capacity per day?

A. Well, I have never figured in that way; I know what you mean.

Q. Is there a well recognized equivalent?

A. Well, I think that all companies vary in that; I think the cost of a thousand cubic feet varies just as much as any thing else; you take a plant in New York city and compare it with a plant in Brooklyn or any other provincial town, and it is a very different affair.

Q. You do not live in Brooklyn?

A. I have been an owner in a gas company there.

(By Senator MURPHY:)

Q. You say provincial in speaking of Brooklyn?

A. I said provincial town in comparing Brooklyn, for the reason that men can work cheaper there than in New York city.

Q. What, in your opinion, would be a fair capitalization for a plant to produce a given quantity in New York city, say for a plant that would produce four million cubic feet per day?

A. It would be in round numbers, as near as you could make it, $4,000,000.

Q. And what, in your opinion, would be a fair enlargement of that capitalization to produce eight million cubic feet—about one and a quarter more million.

A. More than that, sir; for this reason, that you are to build a plant which is competent to produce four million of feet per day; you would be obliged to duplicate it to make four more million.

Q. But in originally building it, if you had provided for a possible enlargement, it would not cost so much?

A. My plant was amply large and I would not have to
9262 duplicate it to that extent; it is just fitted to four million now,
but I have more capacity than that; therefore I stated I thought I could do it for that; that is an opinion; for every thousand cubic feet per day it is a million of dollars as near as you can get it.

Q. In the plan of consolidation, the proposed capitalization of the Mutual Company is set forth at $5,922,000?

A. Yes, sir.

Q. Which included an allowance for so-called rights and franchises, etc.?

A. Yes, sir.

Q. How much in that estimate is included for so-called rights, franchises, etc.?

A. I forget. You have that statement, have you not?

Q. No, sir.

A. I thought you got those schedules.

Q. They wouldn't have this amount; they would have the gross amount?

A. I cannot recall, sir, what it was.

Q. Is *is* not the fact that the amount will be shown by taking the total valuations of your properties from the total share capital allotted to your company?

A. Yes, sir; that would be made a part of the $5,922,000.

Q. Do you remember how that amount was arrived at in this allotment to the several constituent companies?

A. No, I don't.

Q. It has been stated here that it was arrived at, according to the business of the constituent companies, for a designated year, ending in the fall of 1883. Is that your recollection?

A. I think it was, sir; that part of the business I didn't have much to do with.

Q. Because you didn't go into the consolidation finally?

A. No, not that; there was a good many things I didn't know about.

Q. Who did know about them?

A. The other constituent companies.

9263 Q. Who was the prime mover of this consolidation scheme? Who urged it?

A. The Manhattan and New York and Municipal were the active parties in it.

Q. Did you know about the legislation of 1883, in respect to the necessity of securing two-thirds of the property owners on a street before you could obtain authority to open it?

A. No more than what I saw in the papers.

Q. Did you know of that legislation?

A. I do not know whether I did or not at the time.

Q. Was it talked of in the pooling committee?

A. No, sir.

Q. When did you first hear the proposed capital of $45,000,000 named?

A. That was ascertained after the schedules were made up.

Q. When did you first hear that figure named?

A. I think that was during the summer of 1884.

Q. Who first named it?

A. I do not remember.

Q. Wasn't it Francklyn or Smith?

A. It was either or both; I do not remember which.

Q. Was it ever debated at all?

A. Yes, I think it was considerably debated.

Q. Who made the suggestion that the amount should be different than $45,000,000?

A. I do not recall, sir.

Q. Name any of them who did object—if anybody?

A. Well, sir, if I remember right, Mr. Zollikoffer and myself.

Q. What was the objection to that capitalization made by you?

A. There could be only one objection to it, that was, too large.

Q. There is another objection; it would be too small?

A. There is not much danger of that.

Q. Anybody else object that it was too large?

A. No, I don't remember, sir.

9264 Q. Did anybody from the New York Company object that it was too large; did you ever hear an objection from that company to that, that it was too large?

A. I don't remember.

Q. Anybody from the Manhattan?

A. No, sir.

Q. Or Municipal?

A. No, sir.

Q. Was there anything said about the Knickerbocker properties in any of those conferences?

A. Yes, they had their schedules the same as anybody else.

Q. Was there any thing said about their value in gross?

A. If I remember right, I think there was.

Q. Who participated in that discussion?

A. Well, these discussions were held as the schedules were presented and made pro and con.

Q. What objections did you ever hear made to the Knickerbocker properties in valuations?

A. Well, simply that they were pretty well set up.

Q. Were they defended against that accusation?

A. Yes, sir.

Q. Who represented them?

A. I think Mr. Day did.

Q. What did he say about them?

A. I don't recall; the matter went out of my mind; what I remember of it now is just by recalling it.

Q. Did anybody say in the course of that discussion, that the Knickerbocker property was only of a nominal value above its debts?

A. I do not think they did.

Q. Are you aware that in the returns to the tax office the Knickerbocker Company for years successively stated that fact?

A. No, sir.

Q. That circumstance was not alluded to?

A. No, sir.

Q. Well, you know the Knickerbocker properties, do you not?

A. Very well; I looked it over once with a view to purchasing it.

9265 Q. Will you tell the committee what you offered?

A. I made no offer.

Q. When was it?

A. Several years before it came into their possession; it lay idle for several years, unfinished.

Q. You saw them after they were finished?

A. They were not completed; I saw them when the Union Company was running them.

Q. You know the Municipal spent money on those works?

A. Yes, sir; they spent a large amount of money there; they must have, from the condition of them.

Q. Was any objection made to the valuations in gross of the Municipal Company?

A. I think not; they were of so recent a date; Mr. Rowland who built the works could very readily give them.

Q. Any objection from the Metropolitan Company made by anybody to the valuations?

A. I do not remember that.

Q. Any objections made by anybody from the Metropolitan company to the valuations either of the Manhattan or the Knickerbocker?

A. I think I do recollect that Mr. Zollikoffer objected to the valuation of the Manhattan.

Q. And of the Knickerbocker?

A. Yes, I wouldn't be sure about which company it was.

Q. Were the valuations reduced after his objection?

A. No, sir.

Q. Will you tell the committee why, in your opinion and of Mr. Zollikoffer's, this capitalization of $45,000,000, was too large?

A. I couldn't answer for M-. Zollikoffer, but I can for myself; I did not think it was a politic move to make; the best proof of my sincerity in that was reducing my capital from five millions to three and a half millions; I wanted to reduce my capital down; I couldn't see the propriety of increasing it again.

9266 Q. Your capital was reduced by distributing the earnings among the stockholders?

A. I cannot say that.

Q. That is the pracitcal effect of it?

A. They relinquished the stock.

Q. The bonds were to be paid out of the earnings?

A. Yes; the stockholders were entitled to the bonds; they had one and a half millions of stock which they relinquished for one and a half millions of bonds.

Q. The money came out of the earnings to replace it?

A. I suppose so.

Q. You reduced your capital by distribution of the earnings, wasn't it practicable, in your opinion, to have reduced the capital of the constituent companies instead of increasing their nominal share capital at the time of consolidation upon the same method that you reduced yours?

A. Certainly; there is no other answer to that question but that.

(By the CHAIRMAN:)

Q. In your opinion, increasing the candle power of gas has what effect upon its value to the consumer?

A. You mean as between high candle power and low candle power?

Q. Yes, sir.

A. Approximately the advantage to the consumer is in the ratio of the candle power; not exactly but approximately.

Q. For practical purposes it is so nearly enough, isn't it?

A. Yes, sir; there is something behind that; the specific gravity of high candle power gas produces a slower passage through the burner than that of a low candle power gas, and the difference in economy is approximately as the difference of the candle power, besides the increased illumination.

Q. The gas spends itself less rapidly and at the same time produces a better light?

A. Yes, sir.

9267 Q. Then, to the consumer there is the further advantage of its requiring fewer burners?

A. Smaller bills is the grand result; that is what I have been working for in this city for a great many years to make the best light attainable and to make the smallest bills to the consumer.

Q. Do you think it is right to charge consumers the same price for gas without any regard whatever to its illuminating power?

A. That is a difficult question to answer; I do not think that the two gases are worth the same money by any means, but the public will burn whatever gas they please, and it will take pretty good machinery to make them see the difference.

Q. If you wanted to start gas in this city anew, how many gas works would you have for the entire city?

A. Not to exceed three manufactories; in fact, if I was going to furnish gas for this city, and I could do it in my own way, I would build works on the other side of the Harlem river where land is cheaper, and make all the gas there and send it through the city; I would have a main artery to bring the gas down into these various gas holders for distribution, and take down the old works and dispose of the property.

Q. Can you tell us about the daily consumption of gas in New York?

A. I think the consumption of gas in New York is about five thousand million feet now per annum.

Q. The daily consumption?

A. That varies every day.

Q. The average as near as you can estimate it?

A. I should have to do considerable figuring to work out that problem.

Q. Thirteen and one quarter million of feet per day?

A. Something like that.

Q. You incorporate that as being an approximate statement?

A. Yes, sir.

9268 Q. The answer is about thirteen and one-half millions per day or thereabouts?

A. Yes, sir; let me think a moment; well, it would be somewhere there, thirteen to fifteen millions probably.

Q. Now, by increasing the capital employed by your company by $1,220,000, you could produce daily about eight millions, could you not?

A. Yes, sir; but you must observe that if you take the average of fifteen millions daily consumption, in the winter time we get up to twenty-five or thirty millions; so we must have a plant equivalent to make the maximum.

Q. Will you re-cast that in your mind and see—you would want four plants of eight millions each to do it?

A. Yes, sir.

Q. Four plants of eight millions each would supply the city of New York?

A. Yes, sir; I think it would.

Q. And with reasonable regard to the future requirements of the city?

A. Yes, sir; my plant I said could be increased for one and a quarter million or thereabouts approximately; now if you was to construct a new plant, you couldn't do it for that.

Q. Couldn't you construct one that would produce eight million cubic feet per day, and that with the cost of the work mentioned already?

A. I think so; you could do it more economically still if you put it all in one plant.

Q. Would this not be approximately correct, namely, that a capital of five million dollars would be adequate for gas works that would produce eight million of cubic feet per day?

A. I am under the impression that my works cost four million dollars.

Q. Would this not be approximately correct, namely, that a capital of five million dollars would be adequate for gas works
9269 that would produce eight million cubic feet per day?

A. Yes, sir, approximately so.

Q. Then, if there were four gas works of the same capacity, each having a capital of $5,000,000, it would be fair to say that the city might be supplied with gas upon a capital of $20,000,000, approximately?

A. Yes, sir; with new construction.

Q. A moment ago, you said this could be more economically—state how?

A. You understand with one plant, instead of four, it saves the expense of officers, foremen and overseers, which would be very much less; there would be a great economy there.

Q. This capital stock would be very much reduced by having one instead of four works?

A. Well, that is my impression.

Q. Now, what do you say about this; does the increase of the candle power of gas increase the quantity of smoke?

A. Yes, sir; you can go too far with the operation; I think that thirty candles is the limit.

Q. Up to thirty-candle power gas, is there any difficulty with smoke?

A. No, sir.

Q. Is that so with coal gas?

A. It is very risky to go to twenty candles with coal.

Q. When you say you may go to thirty, you refer to water gas?

A. Yes, sir.

Q. What is there to prevent the Mutual Company from enlarging again its capital from $3,500,000 to $5,000,000?

A. Well, I don't know any thing, sir, unless it would be a very stupid thing for them to entertain such an idea.

Q. If they had the surplus, they might do it?

A. They don't anticipate anything of that kind; they do not get the idea from me at all events.

Q. Under your charter, you may go up to $5,000,000?

A. Yes, sir.

9270 Q. I call your attention to section four, of chapter 651, of the laws of 1866, passed April 17th, 1866, and ask you what, if anything, has been done by your company in respect to distributing among those customers who are your stockholders any excess of the earnings above the sum of ten per cent. dividend on the capital?

A. I have not arrived at that point yet.

Q. Why?

A. I think the section there explains that; the words of the section, I think, explain that.

Q. Do you mean to say, in your opinion, that the finances of the company have never made the section applicable?

A. I do.

Q. Previous to the last issue of bonds, was not the section applicable?

A. No, sir; we were not earning ten per cent. then.

Q. Were you not earning more than ten per cent. during the periods you have accumulated from earnings a surplus of the sums already testified to?

A. We had not paid off our indebtedness; we never paid the stockholders to exceed ten per cent.

Q. If you had paid the ten per cent., however, upon the stock at the rate of fifty cents on a dollar, and no more, the section would have applied?

A. Yes, it would have been very different; but it was not so ordered; I would be only happy to divide that surplus when I can get to it.

Q. Will you please explain a little more in detail to the committee why that section is not fairly applicable, if in fact, there were any consumers who were stockholders?

A. That section, I think states that after the works are paid for—indebtedness paid, that any surplus over ten per cent. earned by the company, should be divided among the stockholders and consumers half and half, but we have never reached that point as I understand it. 9271

Q. If the basis be taken to be ten per cent. on the $2,500,000 stock, as a total gross capital and no more, that point has been reached?

A. I should think so.

Q. Then, what interpretation has your company practically given to that section of the statute which reads "whenever the profits shall exceed in any year the sum of ten per cent. upon the whole capital stock of said company"?

A. You want to read the context to that.

Q. I am asking what interpretation your company has practically given to that section?

A. We do not give it any; we did not suppose the time had arrived.

Q. Have you had any written opinions from counsel on that subject?

A. I do not think we have had any written opinions.

Q. Well, if the bonds which were issued to your stockholders when they surrendered thirty per cent. on their holdings, and which bonds were either paid or to be paid out of the current earnings, if you leave these bonds out of consideration, under this section, even then, would it not be applicable?

A. Our stockholders assented to this reduction of capital; they had their choice and they elected to have the capital reduced.

Q. You understand the question?

A. The capital then would remain $5,000,000; I suppose that could have been done but it never was voted. The stockholders, at my suggestion, thought it was a proper move to make, to reduce our capital so that we could be in a condition to sell cheaper gas.

Q. But in reducing it an indebtedness was created which must be paid before that section 4 of chapter 651 of the Laws of 1866, becomes applicable?

A. Yes.

9272 Q. Even conceding that the indebtedness so created is entitled to be considered and deducted before this section shall become applicable, then if the capital shall be taken at $2,500,000, instead of $5,00-,000, would not the section be applicable, in your opinion, so as to divide something among consumers?

A. That is if our capital was still further reduced.

Q. Yes.

A. In that event there would be a surplus, of course, of over ten per cent.

Q. Has this subject ever been considered by your officers or any of your board of directors?

A. I do not recall; it has been referred to, but our understanding of the section is as I stated.

Q. Has any claim been made in your company by any consumer under this section?

A. No, sir.

Q. Or by any stockholder?

A. Not that I am aware of.

J. Pierpont Morgan, a witness, called by the counsel to the committee, being duly sworn, testified as follows:

Examined by Mr. Tremain:

Q. You were the holder of $50,000 of bonds of the Knickerbocker Company at one time, were you not.

A. Yes, sir.

Q. Do you hold those bonds yet?

A. No, I do not.

Q. At what time did you procure them?

A. In 1879.

Q. What month?

A. I think it was November.

Q. Of whom did you procure them?

A. My impression is I took them from Bayard Cutting, although I might have taken them from Mr. Stephens; I don't remember who the party was.

Q. Did you pay money for them?

A. I paid money for the stock and bonds; I think I had stock at the same time.

9273 Q. I am asking for bonds only; you had also 500 shares of Knickerbocker stock?

A. Yes, sir.

Q. Did you have any more?

A. No, sir.

Q. When did you procure those shares, at the same time and of the same person?

A. My remembrance is that I did.

Q. Was it all one transaction; I so understand it?

A. Yes, sir.

Q. Now, in money, how much did you give Mr. Cutting for those bonds and that stock?

A. Fifty thousand and odd dollars.

Q. Did this sum exceed the par value of the bonds and interest to the time of the transaction?

A. I think it did somewhat.

Q. How much?

A. I could not tell you; I have not got the bonds, and I could not tell what the calculation was.

Q. Who made the negotiation with you for the transaction?

A. I think it was Mr. Stephens.

Q. The transaction was closed with Bayard Cutting?

A. That is my impression as I remember it, although it may have been paid to Mr. Stephens; now, I am not certain.

Q. Give your best recollection of the entire transaction?

A. That is what I have done, as I remember the transaction.

Q. Give us the figures, as near as you can recollect?

A. Fifty thousand and some dollars; I think it was about $53,000 or $54,000; about $54,000.

Q. Was not this $4,000 interest?

A. I think it was; very likely; I cannot tell now what it was.

Q. What was the arrangement made, in consequence of which you received 500 shares in addition to your investment?

A. I held 500 shares in the old company prior to that reorganization.

Q. In the Union Company?

9274 A. I think so; the transaction, as I remember it now, the result; it came to on account that I had the stock of the old company.

Q. The stock of the old company was worthless because the property was in the hands of a receiver and the stock valueless?

A. No, I did not understand it was valueless, but it was in the hands of a receiver.

Q. Did you not know at that time the stock of the Knickerbocker was valueless?

A. I did not know that either.

Q. What did you pay for the Union stock that you had?

A. Fifty cents.

Q. How long had you held it?

A. Several years.

Q. Were they 100 odd shares?

A. I so remember it; yes, sir.

Q. You understood that those bonds which you were getting at that time were secured by a mortgage?

A. I think I did; I don't recollect now whether I did or not.

Q. How long did you hold the bonds?

A. I held the bonds; there were occasionally one or two paid off and the balance of them I gave to Cutting, I believe, last year or this year, one or the other; he purchased them.

Q. Purchased them at par and interest?

A. Yes, sir.

Q. Who conducted that transaction and purchase?

A. He did.

Q. Did you continue to hold your 500 shares of Knickerbocker stock until consolidation?

A. No, sir; I gave them to Cutting, and I received 116 shares Municipal Gas stock in the place of it, which I sold at that time.

Q. When did you receive the 116 shares of Municipal?

A. I think it was in 1880.

Q. March, 1880?

A. Yes, sir; about that time.

9275 Q. Did you receive that from Cutting?

A. Yes, sir.

Q. Or Stephens?

A. Cutting.

Q. Had he previously made an arrangement with you by which you agreed to surrender that Knickerbocker stock for Municipal stock?

A. I don't remember, but I have no doubt it was so, or I should not have done it; I know nothing of the transaction; only handed it to Cutting.

Q. Did you continue to hold your Municipal stock until after November, 1884?

A. No, sir.

Q. How long after March, 1884, did you hold your Municipal?

A. A few days.

Q. To whom did you sell it?

A. Some one, some broker or somebody took it from me; I do not remember who it was.

Q. Did Cutting ask you to sell it?

A. No, sir.

Q. Who asked you to sell it?

A. No one.

Q. Do you remember what price it was sold at?

A. No; my impression is it was about 130; I do not remember exactly.

Q. Is this the only transaction you had with Knickerbocker or Municipal stock?

A. The only one.

Q. Have you any connection with the Consolidated Company?

A. Not the least.

Q. This is a part of the Consolidated Company; we want to hear the whole transaction, has your firm loaned on the Consolidated Gas stock?

A. It has very likely, we take all stocks which are quoted at the Stock Exchange.

Q. Who in your firm would know?

A. I do not think of anybody, it is a question of call loan; the broker comes in and brings a pile of securities and perhaps, some of that stock might be with the rest.

Q. Who would know if you had?

A. We would have to hunt up the books, we probably have.

9276 Q. Who would know?

A. Nobody without examining the books.

Q. Will the books tell?

A. The books are there.

Q. Will you please cause your books to be looked at and send a memorandum of any loans that have been made by your house on the Consolidated Gas stock as collateral and the dates and amounts since December, 1884; they are not listed until March, 1884?

A. I have made no time loans at all on that kind of Consolidated stock; if any loans have been made on that stock as collateral, it has been to stock brokers, call loans, in which the Consolidated stock was a small integral part.

Q. It would take considerable labor to ascertain that?

A. Yes, sir; the securities of each call loan are recorded on the backs of the envelopes, and they are frequently changed.

Q. If later on we should want them, we would have an understanding about it?

A. If you will send any one to our office I will see that he gets the information that he wants.

Adjourned to December 18, 1885.

NEW YORK CITY,
FIFTH AVENUE HOTEL, *December* 18, 1885.

The Committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain appeared as counsel to the committee.

GEORGE W. DOANE, a witness called by the counsel to the committee, being duly sworn, testified as follows:

9277 Examined by Mr. TREMAIN:

Q. You were the secretary and treasurer of the New York Company?

A. Treasurer, not the secretary; Mr. Clark was the secretary.

Q. In what capacity is Clark acting now?

A. He is chief clerk for the Hester street office.

Q. Under your direction?

A. Yes, sir.

Q. Hester Street Station is the name of the old New York Company's office?

A. Hester Street Branch.

Q. And is now under the direction of the Consolidated Company?

A. Yes, sir.

Q. Are you under an annual compensation?

A. Yes, sir.

Q. State the amount?

A. Four thousand five hundred.

Q. Are engineers' reports made daily to you?

A. No, sir.

Q. Are they ever made?

A. Not to me.

Q. Do they come under your supervision?

A. No, sir.

Q. What do you have to do with it?

A. I have charge of the Hester street office, the collecting of the moneys from the sales of gas.

Q. Have the books been under your direction for many years past?

A. No, sir.

Q. Have you been a member of the board of directors of the New York Company?

A. No, sir.

Q. Have you any knowledge of the financial operations of the New York Company prior to the consolidation?

A. I was the treasurer of the company and custodian of the finances; I must have known all about them, in fact.

Q. Were these schedules of properties of the New York Company prepared under your direction?

A. No, sir.

9278 Q. When, to your knowledge, were any such schedules first prepared?

A. I cannot remember.

Q. More than two years ago?

A. No, I should say it was not so long ago as that.

Q. Who first prepared them?

A. The schedules connected with the list of meters and services and mains was made by some clerk around the office and the memorandum was given to me and I tabulated them and made out the list; it must have been in the spring or summer of 1884.

Q. What else in that respect was done?

A. That is all I know any thing about; the other schedules were not prepared by me or under my direction, and I do not know any thing about those.

Q. To whom did you give these schedules of meters and mains to which you allude?

A. I could not say, probably Mr. Lees.

Q. Did you never see the schedules of the plants of the properties?

A. I don't understand your question.

Q. Did you never see the schedules of the plants of the properties?

A. Well, I probably did, but I cannot state positively; I think I must have seen them.

Q. Who prepared the schedules of the real estate?

A. I don't know.

Q. When was the inventory of the plant taken?

A. I don't know.

Q. As a matter of fact, has it not been the custom of the New York Company for years to keep an inventory of its plant and apparatus?

A. I never knew of any.

Q. You would know if such a thing had existed?

A. I think so; yes, sir.

9279 Q. As treasurer of the company, how did it happen that schedules of its plant and apparatus were prepared in detail and finally acted upon without your knowledge, if that was the fact?

A. As treasurer of the company, I had no connection whatever with the works, and what schedules were prepared probably would not necessarily come to me; it would probably have gone to the president, and the only schedules I would know any thing about would be those prepared at the office where I was of the meters and mains and services; my duties are connected with those at the office with which I am familiar.

Q. Was there a place in the office of the company anywhere where the inventory of this plant and apparatus was regularly kept?

A. I do not think there was; still there may have been.

Q. The books at the Hester street office would not show such detail?

A. No, I do not think they would; nothing of that sort.

Q. Were you present at any meeting of the board of directors of the New York Company at which the subject of consolidation was considered?

A. No, sir.

Q. Is anything on that subject in the minutes of any of the meetings of the board of directors?

A. I cannot say; I never attended the meetings, and I am not familiar with the minutes of the board.

Q. Where is the book?

A. The minute book?

Q. Yes.

A. I think it must be at the Hester street office.

Q. Will you please send the minute book of the board of directors and of the executive committee up for the inspection of the committee?

A. Yes, sir, to the Chairman.

Q. Do you know at whose request any appraisement of the plant of the New York was made?

A. I should think it would be made at the request of either the president or the directors.

9280 Q. Do you do any thing in that respect yourself?

A. The meters, mains and services.

Q. Was you present when any request was made to have them appraised?

A. No, sir; the list I made out was not a price list, it was a list of the properties without any values attached to it.

Q. Did you have any conversation with anybody in respect to fixing values?

A. I could not say.

Q. Did you do any thing at all in respect to fixing values personally?

A. No, sir.

Q. Did you talk with anybody about it?

A. I might, but I don't remember.

Q. Do you know of anybody having been consulted to appraise the values?

A. I think Mr. Rowland was; I am not sure about it; I think he fixed the inventory.

Q. What do you know about his valuation?

A. I don't know anything about it.

Q. Do you know any thing about the amount that was spent upon the works of the New York Company for improvements, betterments or changes or modifications?

A. I know there were large sums of money spent during the time I have been connected with the company; but I could not say from recollection; the book- show.

Q. They will not show, will they, what it was expended for?

A. Yes, sir.

Q. Will they show the character of all the plant thus acquired?

A. The books will show what every dollar was expended for; of course the pay-rolls don't show what it was paid for in detail.

Q. Has any property at all been sold besides residuals by the New York Company, any kind of property?

A. Yes, sir, scrap-iron sometimes, sold coke and little odds and ends, nothing to amount to any thing.

9281 Q. You mean sales of such parts of the plants as had become useless, do you?

A. Well, if I remember, a set of old purifiers was sold for old iron, and when we take up an old main out of the street, we generally sell them for old iron, nothing of any large amount.

Q. Old retorts?

A. No, sir, never sold any.

Q. When were the purifiers sold?

A. Several years ago; I could not tell you when.

Q. About the time you began to make water gas?

A. I think it was prior to that that those purifiers were put in before that.

Q. You remember when the change was made in that respect, do you not?

A. Yes, sir.

Q. Is the business of the Hester street station carried on now substantially the same as it was before the consolidation?

A. You mean the method of transacting business?

Q. Yes, sir.

A. There has been no change in the method of carrying on the business; it goes substantially as it did before.

Q. Were daily reports made at the Consolidated office of receipts and disbursements?

A. Yes, sir.

Q. On what authority are the disbursements?

A. I don't know of any special authority; it requires no particular authority to make such disbursements.

Q. How is material paid for?

A. It is all paid for from the central office; the pay-rolls are made out and a check is given to me for the amount of the pay-rolls.

Q. Do you have duplicate pay-rolls?

A. No, sir.

Q. Does that increase the labor?

A. Of course, but not the clerical labor; more physical labor is required but not more clerical force.

Q. Do you keep a special bank account for that branch?

A. Yes, sir.

9282 Q. Remit the Consolidated by checks on that branch?

A. Money is deposited to the account of the Consolidated Company.

Q. But no other branch can check against that particular account?

A. We cannot ourselves; I have no authority to draw money out of the bank; all checks are drawn from the central office.

Q. If they are drawn for purposes of disbursing at your office, how do you get the money?

A. The check is drawn to my order, and I take it to the bank and get the money.

Q. The currency?

A. Bills.

Q. What year did you begin with the company?

A. In the spring of 1873.

Q. What were the current monthly expenses of the New York Company prior to the consolidation; about, and what are they now?

A. I could not tell you.

Q. Whether they are now smaller or larger?

A. Larger, because we have a great deal more business to transact; I mean that all the business between Grand and Houston streets has been thrown into our office, from the old Manhattan and Municipal Companies.

Q. That means you have more territory and more customers to look after?

A. Yes, sir; more business and more clerks.

Q. As a matter of fact, you do not have more force now in the Hester street office for the business there than the old New York Company had in conducting its business?

A. Yes, sir.

Q. The expense being about how much there, about one-quarter larger?

A. Not as much as that.

Q. One-fifth?

A. The only difference has been the three book-keepers and two clerks.

JAMES YALDEN, being duly recalled, testified as follows:

9283 Examined by Mr. TREMAIN:

Q. Have you made an examination of the books of the New York Company?

A. I have.

Q. Does your examination cover some of the general features of inquiry as the examination made of the Manhattan and the Metropolitan of which you have already testified?

A. It does; this company is the oldest in New York and its business was continued for about sixty-one years with uninterrupted success and proved to be very profitable.

It was incorporated in the year 1823 with a capital of $1,000,000. Of this sum $200,000 was paid in shortly afterward. In 1824, 1825 and 1826 further sums were paid in, making a total of $495,000, and in the year ending November 1, 1837, the balance of $5,000 was received, making a total of $500,000.

In the following year a further $250,000 was paid making a total cash capital of $750,000 which was the entire and total amount of cash capital subscribed by the stockholders.

The capital in this company was subsequently increased to $4,000,000 out of the surplus profits of the company as follows:

There was transferred from the surplus profits to the credit of stock account in the year ending June 1, 1871, a further sum of $3,000,000 when the company was reincorporated under the general laws of the State.

The account marked —— will give the particulars of the creation of the capital. The statement on page — to — gives the profit and loss account of their business for the period of about sixty-one years, the time it was in existence.

9284 The large surplus profits necessary to create this new capital were nominally made up by appreciation of the value of the real estate, plant, etc., but the grounds or basis for so doing do not appear.

The dividends paid by this company, as detailed on page — have been continuous from the year 1825 to 1884, and in some years at a very large per cent. per annum.

The total paid in cash to 1871 is	$11,714,078 50
And from 1871 to 1884	3,520,000 00
A further dividend paid by the Consolidated Gaslight Company	40,000 00
Making a total of	$15,274,078 50
Stock dividends or amounts transferred to the credit of capital stock account	3,250,000 00
Making the total	$18,524,078 50

paid in cash and transferred to the credit of stock account.

This company was many years ago (similarly to the Manhattan Company), in the habit of transferring from their profit and loss account sundry items to provide for depreciation and wear and tear of property which in the aggregate amounted to a very considerable sum.

Finally this was written back by appreciation to the consolidated Company and the balance shown on the profit and loss resume on page — amounting to $3,647,258.19 is in fact the surplus profits of the company beyond the stock capital account.

The following gives the benefits the stockholders derived from the operations of this company:

9285 Net profits, statement No. 1		$4,344,217 78
Net profits, statement No. 2		15,706,437 97
Profits written up direct to depreciation account		66,689 61
Profits on reorganization and consolidation		5,898,302 63
		$26,015,647 99
Paid in dividends exclusive of $40,000 paid by Consolidated Company		$18,484,078 50
Depreciation written off		3,884,311 30
Surplus remaining ($40,000 of this returned to stockholders)		3,647,258 19
Total capital paid in cash		$750,000 00
Transfer from surplus profits as before mentioned		3,250,000 00
		$4,000,000 00
Balance of separate accounts, plant, etc.		$4,670,642 03
Appreciations	$1,512,357 97	
Franchise	1,417,000 00	
		2,929,357 97
		$7,600,000 00

For which stock in the Consolidated Gas Company was issued.

9286 The stockholders have therefore received from their original investment of		$750,000 00
Received in dividends in cash	$15,234,078 50	
Dividends paid by Consolidated Gas-light Company, January 26, 1885	40,000 00	
Received in shares of Consolidated Gas-light Company	7,600,000 00	
		22,874,078 50
Total return to stockholders above their original cash investment during the years 1823 to 1884 in dividends and stock of the Consolidated Company		$22,124,078 50
And a further estimated surplus yet to be divided of		47,258 19
Total		$22,171,336 69

Q. Observing in your report the statement that in 1838 there was an increase of $250,000 of capital we inquire what the books show respecting that transaction—explain it more in detail.

A. November 1, 1862, there is this entry of a special dividend of

$50 per share from the accumulated funds of the company as declared, $750,000; then there is another entry here for an increase of capital from $750,000 to $1,000,000 as per resolution of October 20, 1862, which increased capital is distributed *pro rata* as a stock 9287 dividend to the present shareholders, $250,000; that is, therefore, simply a transfer from the surplus profits of the company to the credit of the stockholders.

Q. It is a dividend in the form of new stock?

A. Yes, sir, and in addition to that, in the same year they paid a cash dividend of $750,000 on their capital.

Q. They really paid that year a dividend of how much?

A. One million and seven hundred and fifty thousand dollars in cash and $250,000 transferred.

Q. That makes what per cent. of dividend that year?

A. One hundred and thirty-three and one-third per cent.

Q. What year was that?

A. Eighteen hundred and sixty-two.

Q. That explains one of the instances of the so-called increased capital stock of the New York Company?

A. Yes, sir, regarding the $250,000.

Q. Was that increased capital stock in effect a dividend distributed among the stockholders of the company?

A. Yes, sir.

Q. It differed from an ordinary cash dividend in what respect?

A. By reason of their taking out with one hand and putting it back with the other.

Q. It was equivalent to a payment to the stockholders of the amount and at the same time an investment of it in capital stock of the company?

A. Certainly, that was the effect of it.

Q. And this new capital stock so obtained became therefore the basis for future dividends to the stockholders?

A. It did and it gave the public the appearance afterward of their not earning so much dividend on their actual capital.

Q. Could you state the amount of dividends paid upon the capital so increased in the year 1863?

A. Yes, sir; $200,000, twenty per cent. on their then million.

9288 Q. That would be what per cent. on the real capital invested?

A. Twenty-six and sixty-six one hundredths per cent.

Q. The next year they paid thirty per cent. on the million, which was what per cent. on the actual capital invested?

A. Forty per cent.

Q. In 1864 what would it be?

A. In 1865 they paid $500,000 on the million, or fifty per cent.

Q. What per cent. on the actual capital?

A. Sixty-six and two-thirds per cent.

Q. Take the next year?

A. They paid $900,000 dividend or ninety per cent. on the million.

Q. What per cent. on the actual capital?

A. One hundred and twenty per cent.; then in 1867 they paid $700,000 or seventy per cent. on the capital of $1,000,000.

Q. That is what per cent. on the actual capital?

A. Ninety-three and one-third per cent.

Q. Take the next year?

A. In the years 1868, 1869, 1870, they paid fifty per cent. on their million each year; sixty-six and two-thirds per cent. on the cash capital; May 31, 1871—the first five months of 1871—they paid a cash dividend of $450,000 and transferred then $3,000,000 as well.

Q. That would be what per cent?

A. About one hundred and thirty-eight and one-half per cent. for five months per annum, on the cash capital.

Q. What was done in 1871?

A. On June 1, 1871, the company reorganized with a capital of $4,000,000.

Q. In that reorganization was any new capital stock contributed?

A. Not in cash.

Q. Was there in anything; if so, what and from what source?

A. The capital stock was increased at that reorganization from the $100,000 which it stood at previously to $4,000,000 by writing up an appreciation upon all their property to their profit and
9289 loss and writing there, say a stock dividend of $3,000,000 the credit of the capital ac-

Q. What was the practical effect of that operation; what does it mean?

A. Well, a sort of raising the wind out of nothing; it is practically creating a capital out of profits in reality.

Q. Now, then, your reasons?

A. According to their books they have a full history of how they created this capital; it comes out of their books; I have the statement before me in this way: In round figures the balance of profit and loss at that time was $925,000; they transferred sundry accounts, such as deterioration, and also, some profit on stock and United States bonds and then appreciated their properties; for instance, their real estate at the works beyond the original costs, $873,500, and their Hester street property $60,000, and their buildings and apparatus $1,208,946, that raised the credit of their profit and loss account to nearly $4,000,000, from which they transferred the $3,000,000 before referred to; now, with regard to the reason why could they do this, the methods they used in keeping their accounts previously by writing to the debit of profit and loss to the credit of appreciation account, and so lessening the actual cost of their property, amounting to such a sum that enabled them to write it back again, and reinstate the property at something like what it cost; and the effect of it is, of course, that it all came out of profits, so that the $3,000,000 came out of profits.

Q. And the profits came out of the consumer?

A. Certainly.

Q. What was done next after that; now we have got a new capital, without any addition of stock, without any contribution of stock from shareholders; you have now the capital set down at $4,000,000?

A. Yes, sir.

9290 Q. And thereafter that became the basis upon which a per cent. of dividend was declared—a new basis?

A. Yes, sir.

Q. What dividend was declared?

A. From June 1, 1871, to the consolidation, and adding thereto a dividend of $40,000, which the Consolidated Company paid, they declared and paid cash for dividends in the thirteen years of $6,560,000 on the $4,000,000 of capital.

Q. Are you able to state what annual rate of dividends that would be upon the stock actually, put into the concern, viz., $750,000?

A. The dividends paid in those thirteen and one-third years will average on the $750,000 cash at the rate of sixty-six and two-thirds per cent. per annum.

Q. On the nominal capital, viz., $4,000,000, it would be then what per cent.?

A. About twelve and one-half per cent. on the nominal capital.

Q. Then they actually received twelve and one-half per cent. of dividend on the nominal capital, or sixty-six and two-thirds per cent. on the actual stock capital paid in by the stockholders in cash?

A. Yes, sir; that is correct.

Q. It doesn't make any difference either to the consumer or the gas companies whether the one pays and the other receives sixty-six and two-thirds per cent. upon the actual investment, or twelve and one-half upon the nominal stock?

A. It is one and the same thing.

Q. If in that consolidation they had doubled the stock, called it $8,000,000, the apparent per cent. of profit would, of course, have been about six and one-quarter per cent?

A. Yes, sir; it is a fact; the New York Company did double the stock.

Q. That four million stock of the New York Company was increased to what by the consolidation in 1884?

A. Seven million five hundred and sixty thousand dollars.

9291 Q. Nearly doubled this time?

A. Yes, sir.

Q. Was any new capital stock paid in by the stockholders of the company in that consolidation?

A. Oh, no; not at all; it represented the property of the New York Gas Light Company that was turned over to the Consolidated.

Q. So that the actual cash paid in by the shareholders not derived from the natural increase of the property still remained what sum?

A. Seven hundred and fifty thousand dollars.

Q. So that now they are in effect in this consolidation, the New York Company receiving a dividend upon a nominal capital stock of how much?

A. Seven million five hundred and sixty thousand and that is nearly ten times the amount of cash actually paid into the concern by the stockholders except as it comes from profits. It is nearly ten times.

Q. So that a dividend of six per cent. now upon that stock would be, in effect, a dividend of what per cent. upon the capital stock actually paid in of $750,000?

A. Nearly ten times as much.

Q. Namely, about sixty per cent?

A. Yes, sir.

Q. As a matter of fact, did the New York Company transfer to the Consolidated Company all of this property?

A. It did except the few remaining surplus assets.

Q. Those amount to about how much?

A. After satisfying their current liabilities about $86,000, $40,000 of which was paid in dividends by the Consolidated Company.

Q. On their account?

A. Yes, for them. That should be seventy and one-half per cent.; it is more than sixty per cent.

Q. The actual dividend declared this year by the Consolidated Company is what per cent. upon the nominal capital?

A. Seven per cent.

9292 Q. Now, so far as the stockholders of the New York Company are concerned, that is really what per cent. upon the share capital paid in by the stockholders of that company and representing their investment so made?

A. On their stock capital of $7,560,000 in the Consolidated they received a dividend this year of $529,200 or seven per cent., but upon the cash capital originally paid in of $750,000 it is seventy and one-half per cent.

Q. Can you state how the subject of depreciation has been treated in the accounts of the New York Company so as to form any conclusion from those accounts in respect to the extent of expenditure for current repairs and keeping the works in good order or of the amount to be allowed for such purposes by way of depreciation?

A. Not accurately, I cannot, for the reason that fifty years ago this company did not keep their books in the same accurate condition that they do now. I think the best guide of that will be my accounts for last March for the ten years.

Q. Have you any reason to indicate a data useful to forming an opinion upon this subject different from the data exhibited in the amount ending in the ten years ending 1884 which was compiled by you last spring?

A. I think the accounts I compiled last spring are accurate; putting the totals against the cost of works, it is about twelve per cent. for the New York Company, and they are all about alike; repairs to the apparatus and works which they have raised and put to that particular account, the aggregate is about $2,750,000; furthermore, there is a depreciation account which was also charged with some of these repairs which I cannot very well get at; this depreciation account, as I before told you, although it was called such, it was really an account for no other purpose practically than to hide 9293 away some of the profits until the opportunity came for them to increase the capital stock from it; they did not spend all this depreciation account; there was a great deal more put to it than was actually necessary, and, therefore, it comes down to my previous remark when I explained how the $3,000,000 was raised, that this depreciation account, a great part, was nothing else but surplus profits; the New York Company kept their account within the period of fifty years in about half a dozen different methods; it would be great labor to get that accurate, but still it all comes down to the same point; you cannot get over the fact that the New York Company benefited in capital stock and cash dividends for the $750,000 that they paid in; they benefited in sixty-one years from two sources, $22,171,336.69—that is actually the amount; there is no getting over that point, but the details of how they treated the inside figures could be by great labor got at.

Mr. **Tremain**: We will suspend the examination of Mr. Yalden for the present for the purpose of examining Mr. Palmer.

David Palmer, a witness called by the counsel to the committee, being duly sworn, testified as follows:

Examined by Mr. **Tremain**:

Q. You are an officer of the City Bank?
A. Cashier of the National City Bank.
Q. You have charge of the loans that are made by the bank?
A. Yes, sir.
Q. Are they made by your direction?
A. Mostly.
Q. By anybody else's direction?
A. Not often, sir.
9294 Q. Does Mr. Pyne have any thing to do with it?
A. He is the president of the bank.
Q. Does he make or direct loans?
A. Not very often, sir.
Q. Have you a record of the collaterals upon which loans are made?
A. No, sir; you mean do we keep a record; yes, we do, sir.
Q. In what shape?
A. Keep the items, the name of the party to whom it is loaned, and the collaterals on which the loan is made.
Q. Loan book?
A. Loan book.
Q. Do you always take collateral in making loans?
A. Yes, sir; generally.
Q. Do you remember an offer made by the City Bank to the Consolidated Gas Company of a loan of $300,000, early in 1884.
A. No, sir.
Q. Was there any such offer ever made?
A. No, sir; I know of no offer.
Q. Do you remember of anybody asking for a loan on Consolidated gas stock early in 1885?
A. I cannot say that I do, sir; I know that loans were made.
Q. Do you remember when the first one was made?
A. I do not.
Q. Were you subpœnaed to bring any books here?
A. I was.

Q. What books have you brought—any?

A. None.

Q. Would it have been inconvenient to have brought one of those books?

A. Those books cannot be removed from the bank; none of the books can be removed.

Q. Would it have been inconvenient to have brought the loan book?

A. I could not.

Q. Would it have been inconvenient to have brought the loan book?

A. Yes, sir; it would have been inconvenient.

9295 Q. In what way?

A. I could not take any books out of the bank, sir.

Q. In what way?

A. It would be impossible for me to bring the books, because they couldn't be taken from the bank.

Q. Scratch that answer out. Would it have been any inconvenience to have brought that loan book?

A. Yes, sir.

Q. Why?

A. Because it is in constant use and is required to be there.

Q. Is there only one?

A. Only one.

Q. During what hours is it in contsant use?

A. From the opening to the closing of the bank.

Q. From ten to three?

A. Yes, sir; from ten to three.

Q. Would it be any inconvenience to the practical business of the bank to bring it before the committee after three o'clock to be returned that same day or in the morning before ten?

A. Sometimes the books are used as late as eight o'clock in the evening and sometimes until nine.

Q. Is that so with regard to the loan book?

A. Yes, sir.

Q. Do you need the loan book in balances?

A. Yes, sir.

Q. What particular person in the bank uses the loan book in making out the balances?

A. Some clerk, bookkeeper.

Q. The loan book?

A. Yes, sir.

Q. Would the loan book account be in the ledger?

A. No, sir; only general accounts in the ledger.

Q. How big a book is the loan book?

A. As large as this one.

Q. Have you any personal recollection about the transaction of loans that had been made on Consolidated Gas Stock?

9296 A. I know that loans have been made to the Consolidated Company.

Q. Have you any personal recollection concerning transactions of loans on the Consolidated Gas stock as collateral?

A. Do you mean to any person?

Q. Whether you have any personal knowledge or recollection of such transaction?

A. No, sir; no knowledge except what I take from the books.

(By the CHAIRMAN:)

Q. Whether you now have any recollection of such a transaction as Mr. Tremain has mentioned of loans made upon Consolidated Gas stock?

A. No, sir.

Q. Have you any recollection of any loans made to the Consolidated Company?

A. I know that loans were made to them.

Q. Did you conduct those transactions?

A. Generally; yes, sir.

Q. With whom?

A. With the treasurer of the company, Mr. Smith.

Q. When was the first one?

A. I do not remember.

Q. Can you tell about when it was?

A. No, sir.

Q. How many such transactions did you have?

A. I could not state the number positively, sir.

Q. Did you conduct all of the transactions of that character personally, when loans were made to the Consolidated Gas Company?

A. I think it is very probably I did, sir.

Q. Do you not remember when the last one was?

A. It was in October, I think, sir, of this year.

Q. Was that a payment of a loan or a new loan?

A. That was a new loan.

Q. What collateral was deposited?

A. I think it was the notes of the Consolidated Company.

Q. Time notes?

A. Demand notes.

9297 Q. Any other collateral?

A. No, sir.

Q. Is that what you would call among banks, taking a demand note without collateral?

A. Yes, sir; it is a common thing, sir.

Q. Without any name on it at all?

A. Without any name on it.

Q. Has that been a common thing with the city banks for years past?

A. It has been a common thing with all banks.

Q. Confine the question and answer to the City Bank, has that been a common thing with the City Bank for years past?

A. It is not an uncommon thing, sir.

Q. Have you done that thing more than once during 1885?

A. Yes, sir.

Q. With any other person or company except the Consolidated Company?

A. Yes, sir.

Q. What company?

A. I could not particularize any company or individual.

Q. I ask you to particularize; name any other instance?

A. I could not name any other instance, sir.

Q. How many times have you had a transaction of that kind during the year with the Consolidated Gas Company?

A. I cannot say.

Q. Is that the way that loan stands now?

A. No, sir.

Q. How does it stand now?

A. It has been paid.

Q. When was it paid?

A. Three hundred thousand dollars paid this morning.

Q. Is that the way that loan did stand until to-day?

A. Yes, sir.

Q. Paid since you were subpœnaed?

A. Paid this morning.

Q. You were subpœnaed yesterday?

A. No, sir.

9298 Q. What time this morning were you subpœnaed?

A. I could not tell the time; I did not take note of it.

Q. What time was the loan paid?

A. Shortly after the opening of business this morning, sir.

Q. Who paid it?

A. I charged it to their account, sir.

Q. Who asked you to?

A. I did it myself, sir.

Q. Their account was then good, was it not?

A. Yes, sir.

Q. Their dividend checks are drawn on your bank?

A. I presume so.

Q. Don't you know?

A. No, sir.

Q. Don't you know they were printed and drawn on your bank?

A. I never have seen one, sir.

Q. Don't you know the fact that the dividends of the Consolidated Gas Company were paid by checks on the City Bank?

A. Well, I presume they are; I don't know any thing further than that.

Q. You are the cashier of the bank?

A. Yes, sir.

Q. Haven't seen those checks stamped upon them, dividend checks?

A. No, sir.

Q. Don't you know what the business is that induces the checks to be drawn upon that bank from the Consolidated Company?

A. No, sir.

Q. Have they more than one account there?

A. That I could not say.

Q. Do you mean to say, as cashier of that bank, you do not know whether or not the Consolidated Gas Company have more than one account in your bank?

A. I do not know.

Q. How long would it take you to find out?

A. Perhaps fifteen or twenty minutes.

Q. You charged this loan against their account?

A. Yes, sir.

9299 Q. After you had received the subpœna or before?

A. After.

Q. That loan was made in October, was it not?

A. Yes, sir; I think it was.

Q. At two per cent. or six per cent.?

A. The demand loan was settled and paid this morning for the time it ran at three per cent. per annum.

Q. And at the time that loan was made, in October, was there any outstanding loan then?

A. I do not think there was.

Q. Had there not been a short time before?

A. There had been a loan previous to that time.

Q. Do you not remember that there were at least three other loans during this year?

A. I do not remember the number or loans made this year.

Q. Can you remember any amount?

A. No, sir.

Q. Earlier in your examination you said your bank made no offer to loan to the Consolidated Company?

A. Not to my knowledge.

Q. You remember a loan, do you not, in February, 1885, of $300,000?

A. No, sir.

Q. Wasn't it? Do you remember when the first loan was made of $300,000?

A. I do not.

Q. Do you remember that there was such a loan made in 1885, prior to this last one in October?

A. No, sir.

Q. Well, it may refresh your recollection; for the purpose of asking the question based upon it, I quote an extract from the minutes of the finance committee of the Consolidated Gas Company of a meeting held February 3, 1885, at which it is noted Pyne was present, and also quote that the treasurer of the company stated that the company would probably need $300,000. The chairman of the committee, Pyne, stated he would loan the amount required on call at two per cent. per annum, and thereupon the officers of the 9300 committee were authorized to make such a loan; also $100,000 additional loan. Was such a loan made to the best of your recollection at any time by the City Bank prior to this loan of October 2?

A. I do not remember.

Q. Will you be able to refresh your recollection by looking at your books and then you can testify after doing so, can you not?

A. I presume I can.

Q. Please, look at your books so as to be able to state all the transactions with the Consolidated Company in the way of loans or advances and credits, or any loans made to anybody on Consolidated stock as collateral security?

[Mr. Palmer's examination was at this point suspended.]
Recess until 3 p. m.

Hearing resumed.

James W. Smith, being duly recalled, testified as follows:

Examined by Mr. Tremain:

—. What are the total annual executive expenses of the Consolidated Company?

A. What do you mean to include under that head?

Q. All expenses of the management?

A. I could not say.

Q. If the accounts had been exhibited so that the items could have been abstracted, the question would not have been necessary?

A. I cannot even approximate from memory.

Q. Can't you state to the best of your recollection what the management expenses per annum are, or about what is their present rate?

9301 A. I should suppose they would come within $75,000 a year.

Q. Within that figure what do you include?

A. The salaries of all the general officers and of all the clerks who attend to the general business of the company as distinguished from its branches; there are other items of expense which I presume you do not intend now to inquire about, like taxes which, of course, are not included.

Q. Are there any other items of expense that belong to the general management?

A. The incidental expense of stationery.

Q. Now, as to salaries, the president has how much?

A. Ten thousand dollars a year.

Q. And how many vice-presidents?

A. Two; $10,000 a year each.

Q. The treasurer?

A. Ten thousand dollars.

Q. The secretary?

A. Ten thousand dollars.

Q. And the chief book-keeper?

A. Three thousand five hundred dollars or $3,500; I am not sure.

Q. The head clerk?

A. Well, the others would come under the head of assistants.

Q. The two vice-presidents?

A. Mr. Lees and Mr. Zollikoffer in the order.

Q. Isn't there another vice-president?

A. The first vice-presidents and second; I have named all the officers.

Q. What is Mr. Whitehouse's position?

A. He belongs to the branch—Carpenter.

Q. Connected with the main office is the office of the Manhattan branch?

A. It is in the same building but it is distinct.

Q. Who is at the head of that?

A. Carpenter.

Q. What is his compensation?

A. It is not included in the $75,000 in my estimate; it is a separate branch.

9302 Q. Assuming it to be a separate branch, the Manhattan station?

A. The Irving place branch; $6,000.

Q. By the Irving place branch, you mean the Manhattan?

A. I mean the business which was formerly done by the Manhattan Company.

Q. Who has charge of the Hester street office?

A. Mr. Doane.

Q. Who manages the Twenty-first street station?

A. William T. Lees, I think.

Q. He is the son of the former president?

A. Yes, sir.

Q. Who manages the station at North river and Eighteenth street?

A. A. M. Smith, Wililam Combe, Fourteenth street and East river; Mr. Stricker at Forty-second street station; Mr. Bradley at the Forty-sixth street station and also of the Ninety-ninth and One Hundred and Eleventh, with an assistant.

Q. Does that cover them all?

A. Yes, sir; six stations.

Q. What compensation, if any, do any of the directors receive?

A. No stated compensation except a fee of $10 for attending the meetings.

Q. And also the executive committee members?

A. That is the same; that is, such of the members of the board of directors as receive no other salaries.

Q. And only those?

A. Only those.

Q. In order to close the fractional lots of shares, did the Consolidated buy some stock of the Manhattan?

A. No, sir.

Q. Did they buy any stock of the constituent companies?

A. No, sir.

Q. How did they adjust the fractional shares that are convertible into full shares?

A. When presented in even multiplies amounting to one or more shares they are marketable and purchasable and salable the same as the full shares.

9303 Q. That does not answer the question how did the Consolidated Company treat fractional shares?

A. They issued the certificates in fractional parts.

Q. Was any stock bought for account of the constituent companies?

A. By whom?

Q. By the Consolidated?

A. No, sir.

Q. Or for the Manhattan?

A. There was for the Manhattan.

Q. What stock was bought?

A. Twenty thousand dollars par value.

Q. When was that transaction?

A. Previous to the consolidation.

Q. That does not answer the question?

A. That is all the answer I can give.

Q. About how long previous to the consolidation?

A. Within a very short time, probably within thirty days.

Q. Through whom was that transaction made?

A. I purchased the stock in behalf of the Manhattan Company.

Q. Who did you buy it of?

A. One party I bought 150 of, E. S. Higgins, and I think, some stock was in the name of S. Charles Phelps.

Q. Who was it bought through?

A. I do not recollect; the stock came to me for sale as it frequently does, offered to me.

Q. What was the object of that purchase for the Manhattan?

A. In order to equalize the shares; the amount allotted to us was $11,940,000.

Q. What did those shares cost?

A. About $50000—a little less.

Q. That would be at a price of about $250?

A. I think I paid $240 for a majority of it.

Q. That was paid for out of the funds of the Manhattan Company?

A. Yes, sir.

Q. What was done with that stock?

A. Cancelled.

9304 Q. And do you say that the Manhattan Company paid for that?

A. Yes, sir, and there was no stock of the new company in lieu of it.

Q. You have an account as treasurer of the Consolidated Company with the City Bank?

A. Yes, sir.

Q. With what other banks?

A. Mt. Morris, First National, The Germania, The Bank of The Metropolis; I believe that was all.

Q. Are any deposits made in any of those banks from the original office except in the City Bank?

A. There are none.

Q. In all the other banks the deposits are made by the branch offices?

A. From their collections deposited every day.

Q. No checks are drawn on any of the banks except upon your signature?

A. My own or the secretary, and signed also by the president or vice-president.

Q. Where is the pass-book and check-book on the City Bank?

A. Probably at the office.

Q. Under your direction?

A. Yes, sir; I presume so.

Q. Could not you give a direction now to Mr. Young, the bookkeeper, who is here, to go and get them and bring them here?

A. I do not think the Committee will ask to have them brought here; it would inconvenience the company; they are open to inspection to any person delegated by the Committee, under my supervision.

Q. In the absence of Mr. Gawtry and yourself, no one could sign any of the checks while you are here?

A. That is true.

Q. Are there two accounts in the City Bank?

A. No, sir; but one.

Q. Where is the dividend account kept?

A. In the City Bank.

9305 Q. The checks to pay dividends are drawn on the general account?

A. Yes, sir.

Q. What checks are drawn on that account?

A. All checks for supplies, pay-rolls, taxes and expenses of all kinds.

Q. Are any checks, except transfer checks, drawn on the other bank accounts?

A. No other checks.

Q. Are any deposits made in the City Bank except the transfer check?

A. Yes, sir; any thing that is in receipt from the general office.

Q. You keep an account in the City Bank; do you keep a personal account?

A. No, sir; not in the City Bank.

Q. In any other bank?

A. Yes, sir.

Q. What bank?

A. The Central National.

Q. Since the 2d of October has the Consolidated paid any money to the City Bank in payment of loans?

A. Yes, sir; a loan of $300,000 has been paid by their charging it up.

Q. With that exception, no money has been paid by the Consolidated to the City Bank, since the 2d of October, in payment of loans, has there?

A. To the best of my recollection, there has not.

Q. Do you know the amount—approximate amount—there was to the credit of the Consolidated Company this morning in the City Bank?

A. No, sir.
Q. Did it exceed $300,000?
A. I presume it did.
Q. Did it exceed $500,000?
A. I could not say; I did not look at their books.
Q. Don't you keep the bank balances?
A. Yes, sir.
Q. You began to pay dividends the 15th?
A. Yes, sir.
Q. How much has been paid out on account of that dividend?
A. About $1,100,000 in excess of that probably.
9306 Q. Was it all paid by checks on the City Bank?
A. Yes, sir.
Q. What, if any, loans are outstanding at this moment?
A. The company's notes are out for $600,000.
Q. Who holds them?
A. I don't know; I presume the City Bank.
Q. Demand notes?
A. No, sir.
Q. Discounts?
A. No, sir, hardly a discount; the paper was sold practically.
Q. How old are those notes?
A. I think about three days, that is, since they were issued.

(By the CHAIRMAN:)

Q. The entire $600,000?
A. Yes, sir; they were issued on the 15th.
Q. To whose order were they drawn?
A. James W. Smith, treasurer.
Q. When endorsed to whom did you hand them?
A. I think it was Mr. Palmer, an officer of the City Bank, and received a check for it less the interest.
Q. How long were they to run?
A. They mature at intervals; the first January 10th maturing at intervals of $100,000 about every ten days until the end of February.
Q. At rate of discount?
A. Four per cent.
Q. Per annum?
A. Yes, sir.
Q. Did any collateral accompany them?
A. Not strictly speaking, but there was a pledge of the company's receipts.
Q. A formal agreement or writing to that effect?
A. A letter signed bv me.
Q. By that you mean consumers' balances?
A. No, sir; receipts of the company of every nature, our current receipts.
Q. That includes consumers' payments?
A. Yes, sir.
Q. No other collateral?
A. No other.

9307 Q. When those notes for $600,000 were delivered, did you take up a demand note of $300,000 in place?

A. No, sir.

Q. They were an addition to the demand note for $300,000?

A. They were.

Q. Why was that demand note for $300,000 paid off this morning, if it was?

A. I could not say, sir.

Q. Is that note returned to you?

A. There were three notes returned to me with a note, stating that it had been charged up to our account.

Q. That was to-day?

A. That was to-day.

Q. With interest of three per cent.?

A. Yes, sir; with interest at three per cent.

Q. What was the loan next immediately preceding the $300,000 loan?

A. Four hundred thousand dollars, I think.

Q. What was its date?

A. You will find it in my former testimony.

A. That don't indicate when it was discharged or matured?

A. There was no maturity to that.

Q. What was its date, of the loan of $400,000?

A. I think within the first six days of October.

Q. When was it paid?

A. I don't know.

Q. Is it paid?

A. Oh, yes.

Q. When was the next preceding that one?

A. About the 30th of June.

Q. How much was that?

A. Seventy-five thousand dollars.

Q. When was that paid?

A. This is in correction of my former testimony, where I said $200,000; I think it was paid about the 6th or 8th of July.

Q. Entirely?

A. Yes, sir.

Q. Prior to that when was the next previous loan?

A. The counsel led me in error in putting a question; this
9308 is wrong; strike out with regard to that previous loan of $400,-
000; it is $300,000 I had in my mind; it was paid off to-day.

Q. When was the loan that was immediately preceding that one?

A. If my recollection serves me right, the June loan of $75,000.

Q. What you mean is that no loan was made between June 30th of $75,000, and October of $300,000?

A. Yes, sir.

Q. When was the next preceding the one of June 30th of $75,000?

A. I think it was on the 2nd of February.

Q. That was $330,000?

A. No, sir; it was $300,000 or $400,000.

Q. Four hundred and twenty thousand dollars?

A. No, sir; it was either $300,000 or $400,000; I don't remember which; I think it was $400,000.

Q. Now, when was the loan discharged?

A. Before the end of March, I think, sir.

Q. What did you borrow this $600,000 for?

A. To replace earnings that had been used for other purposes for retiring the bonded obligations of the company, and for money that had been expended for construction.

Q. What immediate obligations did you have to pay?

A. We had our supplies—purchases of coal and naphtha and lime; our pay-rolls and our dividend.

Q. If you had not had to pay that dividend at that time in money, would the loan have been necessary?

A. I don't know, sir.

Q. The dividend took one and a quarter million?

A. Yes, sir; nearly.

Q. And the profits were anticipated to meet it?

A. No, sir.

Q. Well, they were estimated?

A. No, sir; it had been earned.

(By the CHAIRMAN:)

9309 Q. Did you not borrow money on credit anticipating profit to pay a dividend?

A. No, sir.

Q. You did borrow money?

A. On anticipated receipts.

Q. Then you did borrow money based upon anticipated receipts?

A. Well, hardly that, sir; I do not think that is a statement of the case; it is not my evidence, at any rate.

Q. You say then that that was not it?

A. It was a pledge of the receipts to repay it.

Mr. TREMAIN: We will suspend the witness' examination at this point in order to allow the expert to look at those books at the office.

The WITNESS: I will be very much obliged to the Committee if they will allow it to take that course; I am willing to produce the books for examination, but I am not willing to allow them to go out of my custody; I do not know that I have authority or control to bring the books here.

Senator MURPHY: The witness wants protection by means of a subpœna.

The WITNESS: I think I should appeal to this committee to get their opinion upon this subject; I think the books should not go out of the office.

Senator MURPHY: Upon the witness' statement, I think he should be protected by a subpœna.

The WITNESS: I am willing to produce the books and take them back with me, but not to leave them.

The CHAIRMAN: You can produce the books, and if for any reason, it should be desirable to examine them further then we will consider it.

J. YALDEN, being duly recalled, testified as follows:

Examined by Mr. TREMAIN:

Q. You are prepared to give the evidence of the Municipal and Knickerbocker Companies?

9310 A. Yes, sir. The above companies were organized in the year 1876 and subsequently merged and operated under one management up to the time of the consolidation, on November 11, 1884.

The Knickerbocker Company was formerly the Union Gas-light Comapny and passed into the hands of a receiver. It appears that the works of the Knickerbocker Company were partly built and completed from funds supplied by the Bayard estate, and the advances for that purpose amounted to about $1,200,000, which was secured by the lease between the Municipal and Knickerbocker Companies provided for the guarantee for the payment of interest and principal upon the $1,200,000 in bonds. At the same time the Knickerbocker Company stock was purchased by the Municipal for $50,000 in cash, the latter company transferring in trust the whole of its shares capital, viz.: 15,000 shares, at $100, representing $1,500,000 of stock.

The Municipal Company was incorporated July 7, 1876, with a capital of $500,000, and commenced operations by issuing 3,500 shares of stock, at par value, of $350,000, to Mr. R. M. C. Graham, in consideration of the purchase of the New York Oxygen Gas Company. Of this $250,000 was returned to the treasury of the company, to be sold and used as working capital, leaving the actual cost to the company of the property acquired $100,000. The $250,000 stock was disposed as follows:

Cash	$215,300
In payment of expenses	8,900
Discount on stock sold below par	25,800
Making a total	$250,000

9311 And $150,000 of stock was issued to Mr. E. Stearns, agent, in purchase of a certain patent-right, known as the De Motery patent, and this transaction, with the stock issued to Mr. Graham, completed the entire issue of the original $500,000. Of stock, in 1877, a further increase of $1,000,000 was made on the capital stock, of which $800,000 was paid in cash and $200,00- paid for the purchase of patents; and in 1879 a further issue of $500,000; and in 1880 a further issue of $1,000,000, both of which were paid in cash, making the total issue of capital $3,000,000.

The particulars of the capital account are detailed in "D 1."

To enable this company to provide additional capital for its plants and works, an issue was made in 1877, of $750,000 in bonds; $390,000 were sold for cash, and the balance, $360,000, was deposited as security for the purchase of real estate and other property, and of these bonds there remained at the time of the transfer to the Consolidated $291,000, the liability of which was assumed by the Consolidated Company.

In the last issue of $1,000,000 of stock, in 1880, there was included a subscription by the Bayard estate of three thousand five hundred shares, amounting to $350,000, a check for which was paid the company on March 16, 1880. The history of this transaction appears to be that the Knickerbocker Company had instituted a suit against the Municipal Company for damages for the non-fulfillment of a certain contract, which action was settled by payment to the Bayard estate on the 16th March, 1880, of the sum of $300,000 and the $50,000 before referred to for the purchase of the Knickerbocker stock, making a total of $350,000 capital; a check by the Bayard estate for $350,000 concurrently paid to the company as a sub- 9312 scription for the 3,500 shares so issued. This stock appears by the register of stockholders to have been subsequently transferred in part to the shareholders of the original Knickerbocker stock under management between the parties. The above amount of $300,000 for damages was charged to the profit and loss account, and the $50,000 was charged up as an investment for Knickerbocker stock, so that in reality the company had paid damages and invested in the Knickerbocker stock at the expense of their capital account, and the transaction being concurrent, the company in reality parted with no money. In 1880, when the Knickerbocker property was acquired by the Municipal as before stated, the two companies were conducted under one management, and a separate set of books was kept showing the production and profits of each company at their respective works, as likewise the amounts paid out for improvements to works and mains, etc., and the cost of each was provided out of the Municipal funds. The separate profits of the two companies are shown in statement D. — to — and result in a surplus, during the operations of $2,493,543.51 after payment of dividends amounting to $2,806,192.50.

The profit and loss account also contains a credit on June 30th, 1879, of $300,000 paid by the New York Gas-light Company for the right to manufacture gas by the process now in use by the Municipal Company.

The purchase of this patent in the first place was charged up to the purchase of "patent accounts," but the sum received for the right to manufacture from another company was credited up to "income account." The total outlay by the Municipal Company for 9313 real estate, buildings, works, plant, services, mains, meters, etc., is $4,092,347.86, which was appraised in the Consolidated Company at $5,100,000, leaving an appreciation, including the franchise, of $1,007,652.14. The Knickerbocker Company's outlay for improvements, meters, plant, services, etc., provided for the Municipal amounted to $810,481.15, but the works, the value of which is not brought into the books, were appraised to the Consolidated Company at $3,000,000, leaving an appreciation (subject to mortgage bonds) $2,189,518.85, the total amount, therefore, of the two properties transferred to the Consolidated was $8,100,000, from which deducted for liabilities $1,500,000, leaving a net amount of $6,600,-

000 of stock issued to the stockholders of the Municipal Company in consideration of the two properties, less the incumbrances.

In reference to the dividend account, page D —, the Municipal Gas-light Company commenced paying dividends in 1879 and for the six years ending 1884, paid to their shareholders the sum of \$2,806,192.50, by way of dividends, to which must be added the stock of the Consolidated Company amounting to \$6,600,000, making a total of \$9,406,192.50.

To this, however, must be added division of assets since the consolidation already paid, \$795,000, and a further surplus of about \$137,000, making a total amount received and to be received by the stockholders of the Municipal Company for the original capital:

9314 Cash dividends and surplus to be divided...	\$3,738,192 50
And the stock of the Consolidated Company to represent the original investment of \$3,000,000	6,600,000 00
	\$10,338,192 50
Deduct, amount of stock capital paid in..........	3,000,000 00
Net benefits received in cash and stock beyond the original investment	\$7,338,192 50

As before mentioned, the Knickerbocker stock was bought by the Municipal Company for \$50,000, which was charged to an account called "The Knickerbocker stock account." The stock itself, however, was transferred and held in the name of trustees, and arrangements with the old stockholders were apparently made by the subscribers to the Bayard stock of 3,500 shares, a part of the issue of 1880. When the Municipal Company was transferred to the Consolidated Company this stock was divided *pro rata* among the then stockholders of the Municipal Company, and taken at a valuation, to include plant, of \$3,000,000, from which was deducted the bonded debt of about \$1,137,000. The shareholders of the Municipal, therefore, were benefited in this transaction nearly \$1,863, and by the profits accumulated from the manufacture, less the outlay upon the works and the cost of the stock, about \$860,481.15.

Q. Referring to the results of the examination of the accounts of all the constituent companies which you have made, and for the pur-
pose of stating totals, have you prepared a summary which
9315 will show the total nominal share capital at the time of the
consolidation, and how much thereto in all had been contributed in cash, and how much from surplus profits?

A. Yes, I have.

Q. Will your statement also show the total dividends paid in money, and the other total profits in stock of the consolidation as outlined in your testimony, touching the New York and Manhattan Companies?

A. Yes, it will.

Q. Will it also show the total cost of properties entered into the capitalization of the Consolidated Company?

A. Yes, it will.

Q. And can you also state the total amount of the distribution of the assets of the constituent companies, which was made in the shape of extra dividends, or in some other diminution of working capital, in fact, among the old shareholders of the constituent companies?

A. Yes, sir; there is one item, the cost of the property of the Knickerbocker, which is not properly stated perhaps—$800,000—that is not really the cost of the property, but that is all I know that has been spent on it, that there was one and a quarter millions of bonds; presumably those bonds were paid, but I have no means of tracing it.

Q. All you can trace is $110,000?

A. All that I can trace on the books; I have no record to show me any part of the one and a quarter million dollars spent.

Q. At this point I will incorporate in the summary of accounts of the several constituent companies as above indicated?

A. Yes, sir.

Q. Before passing from that summary I shall ask you to state in answer to this question the several accounts of properties or assets of the constituent companies that were distributed among their
9316 respective shareholders and which did not form a part of the capitalization of the Consolidated Company. I want it by companies.

A. On the Manhattan Company it is not mentioned there, but there is $400,000 which was distributed by the Consolidated Company; the New York, $87,258.19; the Metropolitan, $686,988.17; the Municipal and Knickerbocker, $932,843.63. Those three amounts make a total. There is the Harlem $32,000 which the Consolidated paid for.

Q. Those amount in all——

A. That gives a total of $2,139,089.99 surplus assets and dividends distributed among the stockholders of the constituent companies after the date of consolidation. Four hundred and thirty-two thousand dollars of that was paid by the Consolidated Company by way of dividends for the Manhattan and Harlem Company and the remainder collected and distributed by the companies themselves.

Q. So that, as a matter of fact, instead of the actual capital or properties of the Consolidated Companies being greater, in fact, than the aggregate of the entire properties of the constituent companies, the total properties of the Consolidated Companies are less by the sum of $2,139,089 than the total actual properties of the constituent companies as they existed prior to the consolidation and at the time of the consolidation. That is the fact, is it not?

A. Yes. The $2,139,089 is practically the working capital of the constituent companies at the time of the consolidation, for this reason, that the companies turned over nothing else to the Consolidated Company but their plant and properties, services and mains; and, although they had turned over their liquid assets, such as coal and supplies, customers, balances, etc., they were collected by the Consolidated Company for the account of the respective com-
9317 panies, and paid away in part for their account or paid for to them in cash.

Q. At all events, the actual assets were so distributed among the shareholders of the constituent companies as to result in a diminution of total assets in the consolidation below what they were in the constituent companies by exactly that sum of $2,139,089?

A. It resulted in a diminution of the assets of the constituent companies certainly, which were not turned over to the Consolidated Company.

(By the CHAIRMAN:)

Q. The Consolidated Company had less assets than the constituent companies had at the time of consolidation by $2,139,089?

A. Yes, sir, decidedly.

Q. Have you got total of your summary so that you can answer the following questions: the total nominal share capital of the constituent companies at the time of the consolidation was what?

A. The total capital at the time of the consolidation of the whole of the companies?

Q. Yes.

A. Not including $1,500,000 for the Knickerbocker, $15,500,000 exclusive of that of the Knickerbocker.

Q. Of that amount what was the total, by your testimony, already delivered, as found by the books to have been actually in cash capital?

A. Eight million seven hundred and twenty-seven thousand and fifty dollars; that is the actual cash capital paid in.

Q. What did you find to have been the total of such share capital contributed from surplus profits?

A. Four million two hundred and eighty-four thousand and seven hundred dollars.

Q. What do you find to have been the total of that share capital that was issued for the property?

9318 A. Two million four hundred and eighty-eight thousand and two hundred and fifty dollars; those three items make $15,500,000; I think I will make one correction in the Harlem in that amount of $4,284,700; that includes $200,000 of the Harlem which they created by increasing the cost of their property without any value whatever.

Q. For this $200,000 of increase there was a nominal entry made in the books?

A. Yes, sir.

Q. And stock for it created?

A. No, sir; the stock had been created but went to help pay what it ought not to pay.

Q. It helped go to pay what ought not to have been paid because of calls on the stock?

A. Yes, sir; it showed a fictitious payment of capital stock.

Q. Including that item and the three items you have stated make the total $15,500,000, the nominal share capital of those companies?

A. Yes, sir.

Q. What is the total amount of dividends in money that you found to have been paid?

A. Paid by the respective companies, the constituent companies, in cash, $56,741,613.27.

Q. What do you find to have been the profits in excess of those dividends represented by stock now outstanding?

A. That is, you mean the difference exactly in the two stocks?

Q. Yes.

A. The difference of the old stocks in the constituent companies and the stock of the Consolidated representing the sum as $20,970,000.

Q. Now, what are the total benefits?

A. Seventy-nine million four hundred and eighteen thousand seven hundred and three dollars and twenty-six cents.

Q. How did you arrive at that?

A. That is the total cash dividends paid; the difference between the value of Consolidated stock at par and the par value of 9319 stock in the constituent companies, and the surplus assets they have divided since the consolidation, and—the latter amounting to $1,707,089.99, therefore the companies have this seventy-nine and a half million dollars, and in addition thereto, par value of stock in the Consolidated Company equivalent to the stock in the original companies.

Q. In addition to those benefits amounting to $79,418,700 the stockholders retain, do they not, respective shares of stock in the Consolidated Company amounting to $15,500,000?

A. Yes, sir.

Q. So that the total benefits in stock and accretions to the shareholders, including their original investments, was how much?

A. About $95,000,000.

Q. Did you have before you the original returns made to the tax office for the Knickerbocker Gas-light Company from 1877, to 1884, inclusive?

A. Yes, I did last spring.

Q. Are the following true extracts from those returns?

A. Yes, sir.

By Mr. Tremain: They are extracts from the return of 1877: "The company has not done any business as yet; works not yet completed; no actual value to the stock over real estate."—1879. "The company has not done any actual business as yet; the works not yet completed: no actual value to the stock over real estate."—1880. "Stock of the company is of nominal value only beyond its real estate; this process for manufacturing gas is of no practical value, having been tested and its use has been discontinued; the liabilities outstanding as above stated reduce the value of the capital stock to the extent stated, and make its value only that of the real estate. The company is the successor of the defunct Union Gas-light Company which failed"—1881. "The Company's stock is 9320 only of nominal value beyond its real estate. This company is the successor of the defunct Union Gas-light Company which failed, and its works are not now in operation—1882. "The capital stock of the company is only of nominal value beyond its real estate; the company is the successor of the Union Gas-light

Company which failed, and its works are not now in operation"—1883. The capital stock of this company is only of nominal value beyond its real estate; this company is the successor of the Union Gas-light Company, which failed. "This company has leased to the Municipal at a rent of less than the interest on its indebtedness"—1884. "The capital of this company is only of nominal value beyond real estate. This company is the successor of the defunct Union Gas-light Company, which failed. This company has leased to the Municipal at less than the interest on the indebtedness."

Q. You had before you the sworn returns when these extracts were made?

A. Yes, sir.

Q. You may give us evidence with regard to the Harlem?

A. Yes, sir. This company was incorporated in 1855 under the act entitled "An act to authorize the formation of gas-light companies," passed February 16, 1848, and during the first year of its existence, issued and received payment for $85,000 of stock. Within the succeeding four years it issued further capital to the amount of $262,900 of which $150,950 was issued in payment for construction and works. By subsequent issues at different periods the total stock capital was brought up to $2,000,000, of which $1,569,050 was paid up in cash, $150,950 was issued as above in payment for construction and works, $200,000 was credited by appreciation by resolution of the board, May 21, 1866, and $80,000 was issued in July, 1864, by way of scrip dividend.

9321 The particulars of the foregoing are shown by the capital account, pages E, 1 C and 2 C. In 1875 $150,000 in bonds bearing interest at seven per cent. per annum, payable one-half yearly were issued and subscribed for, and in 1879 a further $20,000 were taken up, making a total bonded debt of $170,000.

The company did not enter upon active business until the early part of 1857, and the results up to the time of their amalgamation with the Consolidated Gas-light Company are shown in yearly, and five-yearly periods by the analysis of the profit and loss account, pages 3 C to 7 C.

An examination of the figures contained in the above-named analysis will show that the company during the twenty-seven years of its active business paid to its stockholders dividends to the amount of $2,329,917.25 (inclusive of the $80,000 scrip), and paid interest regularly on their bonds.

From the statement headed "Current Capital Account," pages 11 C to 14 C, it will be noted, that this company, whilst always commanding a steady business had not at all times ample capital at command. This arose to a great extent from a very large portion of the business of the company being the public lighting, which returned but a bare profit, if any, on the cost.

The rate of dividends paid by this company has at no time been excessive, averaging in many years considerably below ten per cent. (See Capital and Dividend Account, pages 15 C and 16 C.)

The transfer of this company's property to the Consolidated Gas-light Company was effected at an appreciation of (in round figures)

$1,313,000, in the real estate, building, retorts, plants, mains and services, and the franchises and rights were charged up at 3322 $469,082.54. (For further full particulars of this, see Particulars of Sales to Consolidated Gas-light Company, page 8 E.) The statement shows $3,000,000 Consolidated stock issued, the actual amount of stock received, however, approximated $2,830,000—$170,000 being retained by the Consolidated Gas-light Company, on account of liability assumed by them of the $170,000 bonds of the Harlem Gas-light Company, which have since been paid off by the Consolidated Company.

From the foregoing, and by reference to the annexed tabulated statements it will be seen that in a condensed form the following figures give particulars of total cash and capital investments and profits derived therefrom by the stockholders of the Harlem Company by way of dividends, and by sale under the Consolidated scheme to the Consolidated Gas Company.

9323 Total capital subscribed in cash, and issued for construction (cash)		$1,720,000 00
Issued by appreciation		200,000 00
Issued by scrip dividend		80,000 00
Total		$2,000,000 00
Total dividends paid to stockholders, as per account page , exclusive of $80,000 scrip dividend		$2,249,917 25
Increased valuation beyond stated value of real estate, plant, mains, services, etc., in books of Harlem Company, and the appraisement to Consolidated Company:		
Balance of separate account		1,243,986 97
Appreciation	$1,312,733 98	
Franchises	469,082 54	
		1,781,816 32
		$3,025,803 49
Liabilities assumed by Consolidated Company:		
Bonded debt	$170,000 00	
Sundry liabilities	168,705 93	
	$338,705 93	
Deduct value of customers' accounts, coal, tools, stores, materials, coke, cash assets, etc	142,902 44	
		195,803 49
		$2,830,000 00

9324 This being the amount of stock issued by the Consolidated Company, viz.: $3,000,000, as shown by statement page , less liability of $170,000 assumed by the Consolidated Company on account of the bonded debt of the Harlem Company hereinbefore referred to.

The stockholders of the Harlem Company have therefore received for their original investment of $1,720,000 represented by stock of $2,000,000,

Dividends	$2,249,917 25
Consolidated stock as above	2,830,000 00
	$5,079,917 25
Deduct cash paid for stock	1,720,000 00
	$3,359,917 25

Received in cash and stock of Consolidated Company for the original investment.

The foregoing gives a succinct history of the constituent companies of the Consolidated Company, and on page H 1 I give a tabulated statement showing the various capital accounts, the benefits to be. On reference to this statement it will be seen that the total benefits derived by the stockholders from their investment have been, in cash dividends, surplus assets, and stock in the Consolidated Company $79,418,703.26, and in addition thereto the equivalent of the original stock of the new company.

On page H 2 are shown the assets and liabilities transferred by the constituent companies to the Consolidated Company, but collected on their account and liquidation of the current liabilities at the time of the transfer.

9325 It therefore shows that the constituent companies really paid back to their stockholders the working capital of their separate concerns, which in the aggregate amounted to (say surplus assets	$1,707,089 89
Dividends paid for the Manhattan and New York Company included under that head	440,000 00
	$2,147,089 89

The various constituent companies were organized in the Consolidated Company at a par value of $39,078,000, which represents, according to the following schedule, the valuation and appraisement of the real estate, mains, services, etc., and other properties and franchises.

9326	New York.	Manhattan.	Metropolit'n.	Municipal.	Knickerbocker.	Harlem.	Total.
Street mains, valves, etc.	$950,000	$1,083,000	$971,000	$749,000	$744,000	$720,000	$5,217,000
Meters	215,000	367,000	273,000	158,000	69,000	113,000	1,195,000
Services	127,000	350,000	233,000	103,000	81,000	111,000	1,005,000
Plant	2,874,000	3,623,000	2,044,000	1,804,000	980,000	826,000	12,151,000
Real estate	1,607,000	3,563,000	1,474,000	889,000	480,000	604,000	8,617,000
Bulkheads, piers and water rights	250,000	425,000	300,000	200,000	115,000	100,000	1,390,000
Office buildings	100,000	175,000	....	....	....	50,000	325,000
Office furniture	15,000	20,000	12,000	16,000	2,000	5,000	70,000
Laboratories, photometer rooms, etc.	5,000	5,000	5,000	6,000	1,000	2,000	24,000
	$6,143,000	$9,611,000	$5,312,000	$3,925,000	$2,472,000	$2,531,000	$29,994,000
Rights, franchises, etc.	1,417,000	2,329,000	1,863,000	1,175,000	528,000	469,000	7,781,000
Totals	$7,560,000	$11,940,000	$7,175,000	$5,100,000	$3,000,000	$3,000,000	$37,775,000

9327 Furthermore, a certain amount of stock was reserved by the Consolidated Company, amounting to $1,303,000, to be hereafter sold to provide working capital, and a sum of $2,329,000 was also reserved from such valuation of $37,775,000, to be disposed of from time to time in providing for the current obligations and bonds of the various companies.

This stock had not been disposed of at the time your committee commenced its labors, but some of the liabilities had been paid, viz.:

The bonds of the Harlem Company	$170,000 00
Notes of the Knickerbocker Company	450,000 00
Total	$620,000 00

Q. State the cost of the real estate of the Harlem without any structures upon it?

A. One hundred and fifty-eight thousand eight hundred and ninety-nine dollars and eighty-one cents.

Q. State the cost of the plant?

A. Cost of the buildings, retorts, bulkhead and plant, $557,418.10. The cost of meters, $123,895.31. Those were inventoried for less in the appraisement to the Consolidated by $2,649.44 less than this amount.

Q. It is the only instance of under valuing, you think, in the appraisement?

A. Strictly speaking, yes.

Q. I forgot to ask you what was the cost of the New York Company's real estate?

A. The first cost I could not give you of the real estate unless I went back to the books of fifty or sixty years ago. The real estate cost on the rorganization of the company in 1871, about one and a quarter millions, that is to say, it cost according to the reorganization.

9328 Q. That includes an appreciation?

A. Certainly.

Q. You mean it is taken by the new company at that estimation?

A. Yes, in the reorganization.

James W. Smith, being duly recalled, testified as follows:

Examined by Mr. Tremain:

Q. Mr. Smith, what have you got there?

A. The dividend lists for the first dividend payable in June; and this the second dividend payable on the 15th, and in progress of being paid now.

Mr. Tremain: You will have the books at 10 o'clock tomorrow morning and come yourself at 12 o'clock?

A. Very well.

Adjourned until December 19th.

NEW YORK CITY, FIFTH AVENUE HOTEL,
December 19th, 1885.

The committee met pursuant to adjournment.

Present: Hon. John I. Gilbert, Chairman, Hon. Thomas Robinson, Hon. Michael C. Murphy.

Henry E. Tremain appeared as counsel to the committee.

DAVID PALMER, being duly recalled, testified as follows:

Examined by Mr. TREMAIN:

Q. Have you refreshed your recollection concerning the loan transactions between the Consolidated Gas Company and the City Bank?

A. I have sir.

Q. Since your testimony yesterday the treasurer of the company stated that there was an additional loan to that mentioned by 9329 you yesterday, namely, the loan of December 15th for $600,000 less the discount?

A. That was not in the nature of a loan; that was a discount of the paper brought in.

Q. Did you know that yesterday?

A. I did.

Q. Is that the reason you did not mention it as a loan?

A. Yes, sir; we make a distinction between loans and discounts.

Q. It is the equivalent of a loan, is it not?

A. Loans are payable on demand and discount paper lays to its maturity.

Q. But they are both loans under different names?

A. Yes, you may call them loans, if you please.

Q. Without reference to such distinction and inquiring about any advances of any kind whatsoever by your bank to the Consolidated Gas Company, and either by credit on your books to the Consolidated Company or by any other way, please state all of such loans or advances that have been made by your bank during the past few months?

A. February 3rd, 1885, we loaned the Consolidated Gas Company $400,000.

Q. Was that on any collateral?

A. Their notes as collateral, their demand notes.

Q. Were those demand notes secured by collateral?

A. No, sir.

Q. When were those notes paid, or any of them?

A. On the 6th of March $200,000 was paid; on the 17th of March $200,000 was paid.

Q. The next such transaction was when?

A. June 30th, a loan of $75,000.

Q. When was that paid ?

A. On the 8th of July.

Q. Was that secured by collateral?

A. Their demand note without collateral.

Q. When was the next one?

A. October 2nd, $300,000.

9330 Q. Was that on collateral? A. Their demand notes.

Q. Three demand notes for $100,000 each, without any collateral to secure them?

A. Yes, sir.

Q. You took the paper without any collateral; by that you mean to imply that among banks a demand note made by the drawer is regarded as a collateral in any well-conducted bank?

A. In some cases it is, sir.

Q. Is that generally the case?

A. No, sir; not generally.

Q. Do you recall any other instance in the past year or two where your bank has loaned on the demand note of the drawer, without any collateral?

A. I cannot recall any particular instance; we may have done so, however.

Q. This loan of October 2d, of $300,000, was repaid yesterday by your charging it up as you yesterday testified—is that the fact?

A. Yes, sir.

Q. After October 2d, was there any other loan or advance?

A. Since October 2d the bank has discounted paper for the Consolidated Gas Company.

Q. What date?

A. December 15.

Q. Who conducted that transaction?

A. The president.

Q. Mr. Pyne?

A. Yes, sir.

Q. With whom was it conducted?

A. I do not know.

Q. With Mr. Smith?

A. I had nothing to do with the transaction; I do not know any thing further about it than the facts I have stated.

Q. Do you know what person saw Mr. Pyne about it?

A. I do not.

Q. Did you see the collateral that was taken for the notes thus discounted?

A. The paper was handed to me and signed by Mr. Smith, treasurer.

9331 Q. You have not that paper with you, have you?

A. No, sir.

Q. Have you any objection to stating its contents, if you are able to do so?

A. No, sir; the purport of the paper was to pledge the current receipts of the gas company for the payment of those notes upon their maturity.

Q. Is that all there was of it?

A. That is all there was of it; yes, sir.

Q. That was the only collateral?

A. The only collateral; I would say, however, that that paper was indorsed.

Q. The notes were indorsed?

A. Yes, sir.

Q. By whom?

A. James W. Smith.

Q. Individually?

A. Individually.

Q. Was that indorsement secured by any collateral?

A. Nothing further than I have stated.

Q. What was the balance yesterday morning when the $300,000 loan was charged off, immediately before it was charged off?

A. I think it was about $360,000 or $370,000.

Q. And if it was charged off, the balance was only about $60,000 or $70,000?

A. Yes, sir.

Q. To the credit of the Consolidated Company?

A. Yes, sir.

Q. Do you know the balance this morning?

A. No, sir.

Q. In any transaction had between your bank and the Consolidated Gas Company, or any of its officers, has stock of the Consolidated Gas Company been received by your bank as collateral?

A. We may have made some small loans to General Roome, I think. He is president of the company; on the stock of the company.

Q. Any others?

A. No, sir.

Q. Ever made any to Mr. Smith?

A. No, sir.

Q. Ever made any to Mr. Francklyn?

A. No, sir.

9332 Q. Ever made any to Mr. Lees?

A. No, sir.

Q. Ever made any to Mr. Day?

A. No, sir.

Q. Ever made any to Mr. Gawtry?

A. No, sir.

Q. Ever made any to Mr. Pyne?

A. No, sir.

Q. When was this made to General Roome?

A. It may have been two or three months ago.

Q. Was it not longer ago that that?

A. I cannot recollect the time exactly.

Q. And the amount?

A. I think it was somewhere in the neighborhood of $5,000 or $10,000.

Q. Have you refreshed your memory since yesterday whether you made loans on Consolidated Gas stock?

A. We have made no loans on Consolidated Gas stock except a few shares of that stock may have been sent in to us by customers with other securities as collateral for loans.

John W. Smith, being duly recalled testified as follows:

Examined by Mr. **Tremain**:

Q. Do you pay for your labor in checks or in currency?

A. It is handed to the workmen in currency; the majority of wages are paid in that way.

Q. The current expenditures every month for wages and materials are generally between, what minimum and maximum?

A. I would say from $250,000 to $400,000, average about $325,000.

*. That includes salaries, expenses, supplies, etc.?

A. Yes, sir.

Q. Have they paid for November, those sums all expenses and all supplies?

A. As usual we get all.

Q. Have they actually been paid at this date?

A. The same as usual, they have been paid.

Q. Have the actual expenses for the month of November for wages, materials and supplies all been paid to this date?

9333 A. They have nearly all been paid; though the supplies for October and for half of September have been waiting for a contract to be completed.

Q. I notice in the bank accounts a considerable irregularity in the total amount of checks drawn apparently for the payment of current expenses, wages, supplies, etc., is not that true?

A. I do not know; there is no irregularity for November, if there is for the other month.

Q. You think they are all paid in the regular way for October and November?

A. Yes, sir.

Q. What is the liability of the company, the present outstanding liability for supplies?

A. It is impossible to state.

Q. Is it not over $200,000, the coal and supplies?

A. I do not think it is over $25,000; thirty days from now I may be able to tell you; the bills are not in; there is nothing irregular in the November payment.

Q. I notice that during the month of November the general drawings on your bank account are in excess of $500,000 and for half the month of December the general drawings are less than $50,000?

A. That is the majority of the bills for supplies are paid at the end of the month.

Q. General drawings I notice for the month of October are in your average monthly expenses as you have stated were about $325,000. It appears that you would require for the balance of the month of December about $275,000 more to meet such expense during that month; is not that so?

A. It probably would not be $275,000; I would say it would be about $250,000 on that hypothesis.

Q. Is the substance of it that it would require about $250,000 to meet the current expense for this month of December if you have paid but $500?

A. I know we have paid more than $50,000.

9334 Q. Is the substance of it that it would require about $250,000 to meet the current expense for this month of December?

A. I cannot answer the question.

Q. Is the substance of it that it would require about $250,000 to meet the current expense for this month of December over and above what has been paid?

A. Yes, sir.

Q. I did not in my previous question imply that there was an irregularity in the monthly expense as appears from the bank account but that there seemed to be a considerable irregularity in the average monthly expense. I have not made it up, but I presume your answer is correct that the general average is about $325,000?

A. Yes, sir.

Q. By the bank pass-book and by the bank check-book it appears that the balance of your company at the bank at the end of the business of December 18th, was $911,000 against which you have issued checks for dividends. Can you say about what the total amount for dividend checks is as now issued?

A. Upwards of $1,100,000, I should suppose.

Q. That balance in the bank of $911,000, that includes, does it not, the discount on the $600,000 in notes of December 15th?

A. Yes, sir.

Q. How is it after paying the demand loan of $300,000 which was charged to the account yesterday with interest?

A. Yes, sir, that would be about right.

Q. Under that situation you have checks outstanding in excess of your balance at the bank of upwards of $200,000?

A. Yes, sir.

Q. Therefore, to meet the supply bills about $250,000, as estimated and to meet those checks outstanding of upwards of $200,000, you would require, would you not, about $45,000?

A. It will take that amount to pay.

9335 Q. Will the receipts from gas sales to consumers meet that?

A. Probably not.

Q. Some of those loans due apparently in January, you will, therefore, require, according to your estimate, will you not, for the month of January a sum in excess of $500,000 to meet the January payments?

A. Yes, sir, including the notes that are payable at that time.

Q. It is nearer six than five hundred thousand dollars?

A. It is probably more than $500,000, not $600,000.

Q. That is regardless of contracts for coal?

A. No, sir, that is included.

Q. Will the receipts from consumers during January probably equal $500,000 or $600,000?

A. They will exceed that amount no doubt.

Q. As the proceeds of the excessive consumption of December?

A. A large consumption by reason of the season.

Q. By this testimony it would appear that the company will require money in December. Has any provision been made for that, or will a loan be necessary?

A. I could not say; I am confident of the ability of the company to provide for their wants.

Q. Has any loan been negotiated?

A. No, sir; no farther loan.

Q. In these calculations there seems to be no reservation of actual funds for working capital. Has there been any action taken in that respect?

A. There has not, sir.

Q. What has the policy of the company designed in that respect?

A. No policy has been formulated as yet.

Q. Are the officers having that matter under consideration?

A. I do not know that any of them are officially; in their minds they may have.

9336 Q. You are authorized to use the stock that stands in your name as trustee for the general purposes of the company?

A. No, sir.

Q. Unless some use is made of that stock, will it not be true that the company will be without working capital?

A. I think not, sir.

Q. That is a matter of your opinion?

A. Yes, sir; that is my opinion.

Q. Is it not true that at the rate of the division of earnings that is exhibited by the present situation, no working capital can be reserved from those earnings?

A. I do not think that is the situation.

Q. Where will the earnings, in your opinion, come from such a reservation. At what period of time will that appear; in your opinion?

A. I have not stated that they would appear from that source.

Q. Have you any opinion as to from what source they will appear?

A. I have, as to what source they might appear.

Q. Explain how it happened that the stock in your name, as trustee or treasurer, was issued in two blocks. It appears by the minutes of the board that two blocks of stock are specifically mentioned?

A. As stated in the resolution, one block of stock was reserved as working capital, and was kept separate for that purpose, and a separate resolution was adopted authorizing this issue.

Q. That was how many shares?

A. Twelve thousand and odd. The other block of stock was reserved according to the articles of consolidation to meet the bonded liabilities of the company, and was kept separate for that reason.

Q. Has any portion of that stock been sold at this time?

A. No, sir.

9337 Q. Have any calls been made or obligations of any character whatever been created for the delivery of any part of that stock?

A. What do I mean to understand by calls?

Q. The question calls for any knowledge or information you may have touching any obligations of any character whatever for the delivery to anybody on any terms whatever of any part of that stock?

A. There is nothing of that sort in existence by any authorized agent or officer or committee or board of trustees of the company.

Q. Do you mean to testify that there has been no paper whatever ever written or given by anybody on that subject within your information?

A. I do.

Q. Are those certificates still held intact as they were?

A. Two blocks of certificates—they are.

Q. Has any application of any kind, or paper purporting to be an obligation, ever been issued by anybody respecting that stock?

A. The answer is the same as the answer to the last question.

Q. It has not.

A. There has not.

Q. Do you know of anything having been issued in paper purporting to be a call upon anybody for Consolidated stock, whether authorized or not?

A. No, I have no knowledge.

Q. Haven't any information whatever?

A. I believe it is a daily transaction in Wall street, as it is in Erie and other stocks.

Q. Name a single party whom you say ever engaged in such a transaction in Consolidated stock?

A. I do not know of any party.

Q. Did you ever hear any party's name mentioned in connection with such a transaction on Consolidated stock?

A. I do not recollect.

Q. What is your best recollection?

A. I have no recollection as to name.

9338 Q. When did you ever hear of such an affair?

A. I do not know that I ever did hear of it.

Q. You was understood to say it was a common transaction in Wall street on the Consolidated stock?

A. I was understood wrong.

Q. Did you ever hear of any such transaction on Consolidated stock?

A. No, sir.

Q. Have you seen Mr. Day within the last two weeks?

A. I do not know that I have.

Q. Have you seen him since the 27th of November, the day after Thanksgiving?

A. I am under the impression I have not seen him since the 25th, the day of the board meeting.

(By the CHAIRMAN:)

Q. Have you any knowledge or information as to where he is or has been for the past week, Mr. Day?

A. I think it was about a week ago I had occasion to consult counsel for the company, and I made inquiries and understood he was away on a visit to his daughter and away on business; and, if I recollect right, it was Chicago; whether he has returned or not, or whether he went there, I do not know.

Q. Did you ever see, last spring, or at any other time, a printed pamphlet containing extracts from various newspapers quoting so-called legal opinions and other extracts relating to legislation that was proposed last spring; did you ever see such a book or pamphlet?

A. Well, I think I did, sir.

Q. Do you know who was concerned in compiling or printing it?

A. Such a book?

Q. Yes, sir.

A. Yes, sir, I do.

Q. To what book do you allude?

A. To a pamphlet of perhaps two or three leaves of the nature of what you described.

Q. What was its title?

A. I do not recollect.

Q. Who was it printed by?

A. I do not recollect.

9339 Q. Where did you see it?

A. In my office, probably.

Q. Do you know who was concerned in preparing it or distributing it?

A. I cannot answer as to the identical pamphlet you are speaking of, but the one I am speaking of, such a pamphlet was prepared or directed to be prepared in our office.

Q. Who directed it?

A. I saw a part of it; I did not protest against it.

Q. Who prepared it?

A. I could not tell you.

Q. Who besides Mr. Francklyn?

A. I do not know that Mr. Francklyn did.

Q. Did Mr. Gawtry?

A. I am quite sure he did.

Q. What was the nature of the pamphlet you speak of?

A. I should describe it as a brief compilation of legal opinions and extracts from newspaper articles.

Q. Concerning what?

A. Concerning the proposed legislation.

Q. Affecting what?

A. Affecting the gas companies.

Q. Concerning the proposed legislation of last spring for gas companies—it did not quote the bill or any bill that was proposed?

A. I could not say. I should say from the size of the pamphlet that the bill was not printed.

Q. How large an issue of that pamphlet was made?

A. I have not the slightest idea.

Q. Who met its expense?

A. I presume the Consolidated Gas Company.

Q. For what purpose?

A. The question is the answer, isn't it, to meet the expenses?

Q. For what purpose was that expense incurred by the Consolidated Gas Company?

A. For the issue of the pamphlet.

Q. What was the purpose of that issue?

A. I do not know the exact purpose.

9340 Q. What was the object of the Consolidated Company issuing a pamphlet of that kind?

A. I do not know; but I presume it was to put the opinions of lawyers and of the public press, so far as they were in our favor before the public and parties whom we thought should know those things.

Q. Now, as a matter of fact, was any legal opinion absolutely quoted, if so, whose, in such a pamphlet?

A. I think there was, but I don't know whose.

Q. Was the opinion printed in full?

A. I presume so.

Q. Don't you know it was not?

A. I do not.

Q. Do you know whether there was more than one opinion printed?

A. I do not.

Q. Can you name any person whose opinion was printed?

A. I cannot.

Q. Is that the only issue of printed matter with which the Consolidated Gas Company or any of its officers were directly or indirectly concerned, according to your information, at or about that time?

A. That is, to my recollection and information.

Q. Did not the Consolidated Gas Company correspond through its officers, or those interested in it, with persons in different parts of this State on that subject; the subject you have mentioned—you have given the object of the pamphlet?

A. I believe there was such a printed circular sent out; no sir, I do not recollect of any correspondence; I do not know of any correspondence.

Q. There were two; one was sent to certain advertising agents?

A. I don't know any thing about it.

Q. Do you not know of a circular or letter sent to various local gas companies through the State?

A. Not during the pendency of the bill.

9341 Q. Well, when was it?

A. I have stated to you that I did not know any thing about it.

Q. Did you know of such at any time?

A. There was a circular that was sent to gas companies, if I recollect right; it was pending the election.

Q. During what month?

A. I should think the latter part of October.

Q. Under whose name?

A. Charles Roome, and entirely unofficial.

Q. Who was occupied or concerned in its distribution?

A. I don't know, sir.

(By the CHAIRMAN:)

Q. As a matter of fact, Charles Roome was president of the company, he did not do it officially, I understand.

A. It was unofficial.

(By the CHAIRMAN:)

Q. The Charles Roome you refer to was the president of the Consolidated Gas Company at that time?

A. Yes, sir.

Q. Did you know of it at the time?

A. I think I saw the draft of the circular before it was printed.

Q. Mr. Gawtry, also?

A. I don't know.

Q. Do you not know that was done through the gas-light association; I mean, that some circular or printed matter was distributed by them?

A. I don't know it; I never heard of it.

Q. Is that the only instance that you have heard of in which any of the officers or persons interested in the Consolidated Gas Company were in any wise concerned, touching the subject-matter of the proposed legislation?

A. That is all I recollect.

Q. Did you never hear of any other matter or thing done, or said, or proposed, in that connection?

A. By the gas company?

Q. By any person directly or indirectly in the Consolidated Gas Company or any other gas company?

9342 A. I do not know; we employed counsel to appear before the committee who had charge of the bill urging the gas companies' objections.

Q. Did you employ more than one counsel?

A. For that purpose, one only.

Q. A counsel resident in Albany?

A. Yes, sir; I believe so.

Q. Any other?

A. None other.

Q. Is that the only matter or thing touching proposed legislation that was ever done, or spoken of, or proposed, or considered within your information by any officer or other person directly or indirectly interested in the Consolidated Gas Companyfi or any other gas company?

A. That is all, to my recollection.

Q. Did you not correspond with the Yonkers Company on that subject?

A. Not to my knowledge.

Q. Or any other gas company?

A. Not to my knowledge.

Q. Or officer thereof?

A. Not to my knowledge.

Q. Do you not know that there was circulated, while the Legislature was in session, some circular on the subject of the proposed legislation, either by the American Gas-light Association, or some other person or persons?

A. I do not know.

Q. Did you ever hear of such thing?

A. I do not recollect.

Q. Do you say there was none?

A. I don't say so.

Q. It has been publicly stated in a widely distributed publication that pressure was brought to bear on members by local gas companies; that the assistance of this instrument was invoked by and through the American Gas-light Association—an organization of gas companies apparently for both offensive and defensive purposes, which professes to see in this bill an entering wedge for
9343 widening legislation; did you never hear of such a matter?

A. Only, I think, as I may have seen it from the book which you quote.

Q. And in no other way?

A. No other way; there is such an association; they are not organized for that purpose; it is composed almost exclusively of gas engineers and for the development of ideas in reference to the manufacture of gas and with regard to new processes and economies; I do not belong to the association; I have never attended any of its meetings although I am fully informed of their aims and objects.

Q. Is that association located here, its headquarters?

A. No, sir; it has met in Chicago, New Orleans, Boston and New York; they have a meeting only annually.

Q. Have they headquarters in any place?

A. I think not.

Q. Who is the president?

A. I think they elect a new president every year.

Q. Who is the president now?

A. I don't know.

Q. Who is the secretary?

A. I don't know.

Q. Who is the treasurer?

A. I don't know.

DECEMBER 19TH—3 p. m.

Hearing resumed.

R. M. C. GRAHAM, a witness called by the counsel to the committee being duly sworn, testified as follows:

Examined by Mr. TREMAIN.

Q. You are president of the Equitable Company?

A. I am, sir.

Q. That company was organized in what year?

A. In 1882.

Q. Under the general Gas Law of 1848?

A. Yes, sir.

9344 Q. On a nominal share capital of what amount?

A. Twenty thousand shares of $100 each.

Q. Representing a nominal capital of $2,000,000?

A. Yes, sir.

Q. Since that time has the Equitable been enlarged?

A. We have commenced the increase of capital to $3,000,000.

Q. Under the statute?

A. Yes, sir; and have called in 45 per cent. of the increase of $1,000,000 which has been subscribed.

Q. When did you begin to deliver gas?

A. About a year ago, sir.

Q. And how many miles of mains are now laid?

A. From 55 to 60; I could not give you the exact number.

Q. In addition to that share capital that you speak of, has any mortgage or have any bonds been made?

A. We have issued and sold a million of bonds, mortgaged the company's real estate and plant and mains and personal property.

Q. What real estate does the company own?

A. Three blocks of land on First avenue, extending from Thirty-ninth to Forty-second street and from First avenue to the river; also, thirty-two lots running between Fifty-eighth and Fifty-ninth street, 300 feet west of Tenth avenue, 100 feet east of Eleventh avenue, which makes the thirty-two lots.

Q. On the latter plot of land have any buildings been erected?

A. We are now excavating for the erection of gas tanks.

Q. The total paid in cash of the original $2,000,000 capital was how much?

A. One and a half million and a balance of stock was issued for the patent process.

Q. Is that a different process from that used by any other company in the city?

9345 A. Yes, sir; we call it the Jerzmanowski lime process, water-gas process; he is our engineer.

Q. The cash that has been paid is represented by what you have stated?

A. Yes, sir.

Q. The balance, fifty-five per cent., of the increased capital, is subject to call, is it?

A. Yes, sir.

Q. When all that which is now subscribed shall have been collected, will all the works which are now [illegible] process of construction be paid for?

A. No, sir.

Q. What is the present producing capacity of those works?

A. Two million five hundred thousand cubic feet per day.

Q. What capacity is under construction?

A. Three million cubic feet; we have not commenced on the construction of those works, because we have not obtained full possession of the property

Q. You mean 3,000,000 more, making 5,500,000?

A. Yes, sir; in the summer we would be delivering only a little over 2,000,000.

Q. Your present maximum capacity is 2,500,000?

A. Yes, sir.

Q. What is the total expenditure to reach 2,500,000?

A. Mr. Yalden has the figures there; I never made the figures.

Q. Give it in round figures for the real estate?

A. Three hundred and sixty-five thousand dollars for that block from Forty-first to Forty-second street; then the property on the west side was $171,000, $536,000 is the unproductive property to-day; about $2,850,000.

Q. So that including the properties of the real estate for that purpose, as recently made by your company, the total expenditure to establish a plant of a maximum capacity per diem of 2,500,000 cubic feet has been in round numbers $2,850,000?

A. Yes, sir.

9346 Q. And this item includes what?

A. Five hundred thousand dollars paid for patents.

Q. By the issue of stock therefor?

A. Yes, sir.

(By Senator ROBINSON:))

Q. To produce 21,000 cubic feet would cost about ten times that—how is that?

A. The increase would be about in the same proportion.

(By the CHAIRMAN:)

Q. So that without the patents it would include $2,350,000?

A. Yes, sir.

Q. Assuming, then, that your plant, upon the basis you have just stated, has cost $2,850,000 for the estimate of a plant of a maximum producing capacity of two and a half million cubic feet per day, would it cost twice $2,850,000 to increase that capacity to 5,000,000 cubic feet per day?

A. It would cost very near that.

Q. Double?

A. It might cost a little less, but pretty near that.

Q. You would not have to pay any more for the patent?

A. No, sir.

Q. It would take $2,000,000 more for you to double your capacity?

A. Yes, sir.

Q. Is that $2,000,000 provided for by the bonds?

A. A very large portion of the bonds were expended; that $500,000 was paid out in cash, and, therefore, a large amount of the bonds had to be sold to do that.

Q. And we understand you to testify you are increasing your producing capacity $3,000,000 more?

A. Yes, sir.

Q. What amount of money do you need to finish them?

A. Seven hundred thousand dollars.

Q. You will more than double the increasing capacity by the expenditure of $1,700,000?

A. No, sir; we will more than double the producing capacity by the expense in all of $2,100,000.

Q. Whether a farther increase would cost about the same
9347 amount of money?

A. Yes, sir; the same ratio, because real estate would always be higher; the last real estate we bought cost us more than the first.

Q. Do you think it practicable to go to the other side of the Harlem river for the establishment of a gas plant, where real estate is less?

A. It has been thought over, but the difficulty of bringing a proper pressure here, the large size mains that would be necessary would more than make up for the price of real estate.

Q. I understood you to say, in answer to Senator Robinson, that the increase would be in about the same proportion when you are doubling or triplicating your producing capacity?

A. Yes, sir.

Q. We understand that you are increasing your capacity from 2,500,000 cubic feet by 3,000,000 more, with the expenditure of only $2,100,000, which is less than double?

A. That difference of $500,000 is only a small difference for one month in the year; because it is only a month; you are brought up in that way.

Q. How much gas do you now deliver?

A. About 2,000,000 cubic feet a night on an average.

Q. And how much of the city *to* you cover by your mains?

A. From Canal street to Fifty-seventh street.

Q. All the way across?

A. No, sir; a very large number of the streets we have not touched as yet, namely, the Third, Second, First, Sixth, Seventh, Eighth and Ninth avenues.

Q. Exclusive of the items that you have incorporated in the total cost of the plant as stated your company has expended, has it not, moneys in the cost of establishing its business?

A. Yes, sir.

Q. Have those moneys thus expended been derived from
9348 current earnings?

A. Latterly during the last year, we have made no profits, for six months in this year; we were two years before we made any gas at all; our expenses are considerably over one-quarter of a million of dollars.

Q. What was your experience in gas manufacturing here in New York?

A. I organized the Municipal Company.

Q. How long were you with that?

A. Until about five years ago; I was president at first, and then a director.

Q. Who succeeded you as the president?

A. For a short time, George W. Gilbert, and immediately afterward Charles G. Francklyn.

Q. What was its capital when you left?

A. One million dollars when I left.

Q. Has that million been paid in cash?

A. Not all, at par; about $800,000 at par was paid in.

Q. You have had practical experience in the establishment of gas plants and the manufacturing and supplying of gas?

A. I don't make too much claim; other people are better judges of that than I am.

Q. You have had practical experience in those departments of occupation?

A. Yes, sir.

Q. Is there in your opinion, any minimum and maximum percentage that would be capable of representing a fair average for an annual depreciation of a plant used in manufacturing and supplying gas?

A. I have figured it at twelve and one-half per cent. from my experience.

Q. The amount would represent a fair proportion of capital or of earnings that must be set apart per annum to represent the expenses of keeping the plant in good order?

A. If it was possible to set it apart, but it is not always done.

9349 Q. But taking one year with the next and assuming that the plant is continually in use, it would have to be replaced according to your calculation about once in eight years?

A. Pretty generally, largely liable in that time; of course, not the real estate.

Q. Do you know of any party of experience in that line of occupation who has, as a matter of record, expressed a different opinion?

A. I do not, sir.

Q. In the estimate of profits, as for instance, in determining what is the actual profit earned you would as a man of experience in such affairs always allow for an estimate at the rate you have stated?

A. I do, sir.

Q. Can you state as the result of experience of the Equitable Company for the past two years?

A. We have only had the experience of one year.

Q. Can you state as the result of the experience of the Equitable Company, what is the fair cost you have found to be the cost of gas in the holder as produced by your company?

A. From forty-five to fifty cents, sir.

Q. The cost of distribution depends, does it not, in a large part upon the number of customers and the extent of distribution?

A. It depends upon the extent and the cost of distribution of gas and the number of customers you have to care for; we have to run at the beck and call of every old woman; sometimes run half a day to collect a thirty-five cent bill; our cost of distribution, I think, I said, last year from sixty to sixty-five cents; what we may reduce it to later on, I do not know.

Q. Does that include an allowance for depreciation, for wear and tear, taxes and expenses?

A. No, sir.

9350 Q. In your opinion, does the diminution in the price of gas increase the custom?

A. No, sir, not below its present price; the people of New York are getting more light for less money than any other people in the world.

Q. Do you know whether the total consumption since the consolidation and since the price has been fixed at $1.75 has been more or less than it was before?

A. The total consumption increases every year whatever the price may be; I think the Consolidated are delivering as much gas today as before the Equitable commenced business.

Q. So that there is plenty of room for competition?

A. Yes, sir, so far as we are concerned.

Q. It is to the interest of the Equitable Company that the present price of gas should be maintained?

A. Yes, sir.

Q. So long as it is necessary, then, for the interests of the Consolidated Company that the price of gas should continue at the price they have fixed it as at present, whether or not, the interest of the Equitable in that respect is in common with the Consolidated?

A. To that extent, yes.

Q. Is it not the fact that the price of gas was fixed at $1.75 at or about the time the Equitable commenced to supply it?

A. It was not until then.

Q. The two events were co-existent in the fall of 1884, were they not?

A. Yes, sir.

Q. The Equitable had previously made a contract with the city?

A. Yes, sir, in which contract the price was fixed at $1.75 to small consumers and $1.50 to the city and the city lamps at $12.

Q. Did your company pay the city for that contract?

A. No, sir, we paid them twenty cents for every foot of trench we opened.

9351 Q. It was after that contract had been made whereby you agreed to supply gas at the price named that the Consolidated price was reduced?

A. Yes, sir.

Q. Heretofore, the price of the constituent companies had been $2.25?

A. Yes, sir.

Q. We understand, then, that you mean the reduction in the price of gas was accomplished by reason of the Equitable competition and that contract which was made?

A. It was in consequence of that contract with the city.

Q. You refer to the reduction in the fall of 1884?

A. Yes, sir.

Q. From $2.25 to $1.75?

A. Yes, sir.

Q. Now, by that contract, was any standard of illuminating power or of quality or of purity or of all three elements established?

A. It was, sir. We were to deliver gas of not less than twenty candle power.

Q. As a matter of fact, you delivered gas from what candle power?

A. From thirty to thirty-two.

Q. What was the standard established as to purity and quality?

A. There was nothing said as to purity or quailty in the contract.

Q. Is there any standard your company has established as to quality and purity?
